EduSphere Agent CRM — Administrator Manual

For **Overseas Admins** (and Super Admins, read-only) managing education agencies. Verified in the browser on 2026-10-05 against docs commit 717d6aa8 (main @ 6a9be770). Quick starts: Overseas Admin (*see the Role Quick-Start Guides*) · Super Admin (*see the Role Quick-Start Guides*) · Troubleshooting (*see the FAQ and Troubleshooting*).

Security notes (as built; audit-log details are from the application code)

- Agency members who are pending, rejected or suspended can sign in but see only an “Access unavailable” page.
- Opening an agency’s student or application records is written to the audit log; so are agency status changes, deposit remittances/refunds and report exports.
- Staff permissions (Verify documents, View reports) are set by the agency’s own Masters, not by EduSphere admins.

Approve, reject, suspend or reinstate agencies

Doc ID: DOC-ADM-001 · Verified 2026-10-05 against `main` @ `6a9be770` (docs branch) · Roles: Overseas Admin

Purpose

Decide which education agencies may use EduSphere. New agencies register themselves and wait as **Pending** until an Overseas Admin approves or rejects them. Approved agencies can later be suspended (all their logins are blocked) and reinstated.

Who Can Use This Feature

Overseas Admin. A Super Admin who opens this page sees “Access unavailable — Workspace not found” (see [Super Admin access](#)).

Prerequisites

At least one agency has registered (see Register an agency (*see the User Manual*)).

How to Access

Overseas Admin sidebar > **Agents**.

The page has two parts:

- **Agent Masters** — a table of every Master of every agency (Agency, Code, Name, Email, Agency status, Master status). Use **Search records**, **Filter by** a column, the column headings to sort, and **Rows per page**.
- **Agent Approvals** — the panel where you act on agencies, with the tabs **Pending**, **Approved**, **Suspended** and **Rejected**.

Steps

Step 1 — Review pending agencies

Open **Agents** and scroll to **Agent Approvals**. The **Pending** tab lists each waiting agency with its name, prefix and Masters (code, name, email).

The top right of the main area shows 'Overseas Administrator'. Below this is an 'Actions' section with a message: 'Changes are validated, permission checked, and written to the live workflow.' and an 'Operational' status tag. The main content area is titled 'Agent Approvals' and features four tabs: Pending, Approved, Suspended, and Rejected (selected). Below the tabs is a 'Search agencies' section with a text input field labeled 'Agency, prefix, code or Master email' and a 'Search' button. The 'Rejected' tab displays a card for 'Docs Rejected Agency (DOC2)' with a list item: 'DOC2-M001 · Rahul Rejected docs.rejected.059823@exam ple.test'. Below the card is an 'Approve' button. At the bottom of the card, it says 'Showing 1–1 of 1' with 'Previous' and 'Next' buttons.

No organisations awaiting approval. / No approved organisations. / No suspended organisations. / No rejected organisations.	The tab is empty.

Common Errors

Problem: An agency says it cannot work although you approved it. **Cause:** They are looking at an old page.

Resolution: Ask them to reload or sign in again.

Problem: A rejected agency says it is still “pending approval”. **Cause:** Rejected agencies see the same message as pending ones. **Resolution:** Tell the agency directly that the registration was rejected.

Tips

- Staff logins never appear here; agencies manage their own staff.
- You can also suspend and reinstate from **Agent network** (see [Suspend or reinstate an agency](#)).

Below this, it says 'Remitted' and shows the date '2026-10-05' and reference 'NWB-REM-2026-0042'. The 'Refunded on' field is set to '05-10-2026'. Common Errors

Problem: "...cannot also approve its own payout". **Cause:** You created this commission manually (Origin `admin_manual`). **Resolution:** Ask another Overseas Admin to approve the payout.

Tips

- Set the amount promptly: an agency can claim an **estimated** commission, and after a claim the amount can no longer be set (it stays 0).
- Commissions created automatically at enrollment (**system_trigger**) can be approved by the same admin who set the amount.

Fields

Expected Result

Approvals, suspensions, deposits and commissions are handled by an Overseas Admin account.

Validation Messages

Message	When
Access unavailable — Workspace not found	The Overseas Admin workspace page is not available to Super Admin (the page has no data for a user without a division).

Common Errors

Problem: A Super Admin cannot approve an agency. **Cause:** The Agents screen is only available to Overseas Admins. **Resolution:** Sign in with an Overseas Admin account.

Tips

- Use an Overseas Admin account for day-to-day agency administration.
