Doc ID: DOC-AUTH-001 · Verified 2026-10-05 against `main` @ `6a9be770` (docs branch) · Roles: anyone not signed in

Purpose

Use this page to create an EduSphere account for your education agency. The person who registers becomes the agency's first **Agency Master** (the owner account that manages the agency and its staff).

Who Can Use This Feature

Anyone who does not have an EduSphere Overseas account yet.

Prerequisites

- An email address that is not already used by an EduSphere account.
- A password of at least 10 characters.

How to Access

Overseas sign-in page (`/overseas/login`) > **Create an account** (next to "Student or agent?").

Steps

Step 1 — Open the registration form

On the Overseas sign-in page, click **Create an account**. The page **Create Overseas account** opens.

The screenshot shows a mobile-style registration form titled "Create Overseas account". At the top, there is a back arrow and the text "Back to Overseas Education". Below the title, a subtitle states "Students and education agents can register here." The form contains several input fields: "Full name", "Email", and "Phone", each with a corresponding text input box. Below these is the "Account type" section, which features a dropdown menu currently set to "Student". The "Password" section has a text input box and a note below it stating "Use at least 10 characters." At the bottom of the form is a blue "Create account" button. Below the button, there is a link that says "Already registered? Sign in".

Empty registration form

Step 2 — Fill in your details and choose “Education agent”

1. Enter your **Full name**, **Email** and (optionally) **Phone**.
2. In **Account type**, choose **Education agent**. A new field, **Agency name (optional)**, appears.
3. Enter your agency’s name.
4. Enter a **Password** (at least 10 characters).

Fields

Field	Description	Required	Example
Full name	Your name. It is shown to your team and to EduSphere.	Yes	Priya Pending
Email	Your sign-in email. Must not be used by another account.	Yes	priya@agency.example
Phone	Your contact number.	No	+91 98450 12345
Account type	Choose Education agent to register an agency. ("Student" creates a student account.)	Yes	Education agent
Agency name (optional)	Your agency's name, up to 160 characters. If you leave it empty, your full name is used.	No	Docs Pending Agency
Password	At least 10 characters ("Use at least 10 characters.").	Yes	—

Expected Result

- Your agency is created with the status **pending**, and you are its first Master. Your Master code is your agency prefix plus `-M001` (for example `DOC-M001`).

- You stay signed in, but you see the “pending approval” message until an Overseas Admin approves the agency.

Validation Messages

Message	When
Email already exists	The email is already used by an EduSphere account.
(browser prompt)	A required field is empty, the email is not in a valid format, or the password is shorter than 10 characters.

Common Errors

Problem: “Email already exists” appears under the form. **Cause:** An EduSphere account already uses this email.

Resolution: Sign in with that account, use **Forgot your password?** if needed, or register with a different email.

The screenshot shows a mobile app interface for creating an overseas account. At the top, there is a link to 'Back to Overseas Education'. The title is 'Create Overseas account' with a subtitle 'Students and education agents can register here.' The form includes fields for 'Full name' (containing 'Docs Duplicate'), 'Email' (containing 'agent@edusphere.local'), 'Phone', 'Account type' (a dropdown menu set to 'Education agent'), 'Agency name (optional)', and 'Password' (with a note 'Use at least 10 characters.'). A red error message 'Email already exists' is displayed at the bottom of the form.

Email already exists error

Problem: After registering, every page says “Agent registration is pending approval”. **Cause:** This is expected. New agencies must be approved first. **Resolution:** Wait for EduSphere to approve the agency. EduSphere does not send an email when this happens, so sign in again later to check.

Tips

- Use an email that your agency will keep long-term; it is the Master sign-in and cannot be changed by staff.
- A **rejected** registration shows the same “pending approval” message. If you have waited a long time, contact EduSphere Overseas Admin.

“Access unavailable” messages

Doc ID: DOC-AUTH-003 · Verified 2026-10-05 against docs commit 717d6aa8 (main @ 6a9be770) · Roles: Agency Master, Agency Staff

Purpose

Explains the **Access unavailable** page you may see after signing in, what each message means and what to do.

Who Can Use This Feature

Any Agency Master or Agency Staff member whose agency or login is not in good standing.

Prerequisites

None. The page appears automatically.

How to Access

It replaces every Agent Portal page while access is blocked.

Steps

Step 1 — Read the message

The page shows the heading **Access unavailable**, a reason, the note “Contact EduSphere Overseas Admin if you think this is a mistake.” and a **Sign out** button.

Message	Meaning
Agent registration is pending approval	Your agency has registered but has not been approved yet. A rejected registration shows this same message.
Your agency’s account is suspended	EduSphere has suspended your agency. Every Master and staff member is blocked.
Your Master account is deactivated	Exists in the application but is effectively never shown: a deactivated login is refused before this page (see the Tips below).

Step 2 — Sign out or wait

Click **Sign out** to leave. You cannot use the portal until the reason is resolved.

Fields

None.

Expected Result

Once EduSphere approves or reinstates the agency (or your Master reactivates your login), the portal works again on your next page load. No email is sent when this changes.

Validation Messages

See the table in Step 1.

Common Errors

Problem: “Agent registration is pending approval” for a long time. **Cause:** The agency is still waiting for approval, or the registration was rejected (both show the same message). **Resolution:** Contact EduSphere Overseas Admin.

Problem: “Your agency’s account is suspended”. **Cause:** An Overseas Admin suspended the agency. **Resolution:** An agency Master should contact EduSphere Overseas Admin. Staff should contact their agency Master.

Tips

- While blocked you can still open **Change password** from the account pages.
- If your agency Master deactivates your login, signing in shows **Invalid credentials**. If you were signed in at the time, your next page shows “Your account was deactivated by your agency. Contact your agency’s Master.” (a deactivated Master sees “User unavailable”). Ask your Master to reactivate you.

When to Contact Administrator

You are taken to the sign-in page. Sign in with the new password.

First-time password (new staff and invited Masters)

When a Master creates your staff login (or invites you as a Master), you receive the email “**Welcome to EduSphere – set your password**”. Click **Set your password** in the email; it opens the same **Choose a new password** page (Step 3). The link is single-use and expires in 72 hours. After saving you are taken to the sign-in page.

Tips

Common Errors

Problem: “Payment not completed. You can try again.” **Cause:** The Razorpay window was closed before paying (message from the application code; closing the window could not be automated in testing). **Resolution:** Click **Pay deposit** again.

Problem: “Online payment is unavailable right now. Nothing has been charged.” **Cause:** Online payment is not set up on this EduSphere installation. **Resolution:** Contact EduSphere Overseas Admin.

Problem: “Another team member is paying this deposit – try again in a few minutes”. **Cause:** Someone else in your agency opened the payment window for the same deposit. **Resolution:** Wait 15 minutes or check with your team.

Problem: “Too many payment attempts for this deposit – try again later”. **Cause:** More than 10 payment attempts in an hour. **Resolution:** Wait and try again later.

Tips

- Once paid, the deposit can no longer be edited. Changing the amount before paying cancels any open payment window.

Common Errors

Problem: “Assigned to” shows **Unassigned** although someone is working on it. **Cause:** A task follows its **student’s** assignee — tasks have no assignee of their own. **Resolution:** Assign the student to a staff member (see [Assign a student](#)).

Field	Description	Required	Example
Eligible commission reference	The commission's Reference from the table.	Yes	15cb3215-6664-474e-917f-f26603fc71d7

Expected Result

EduSphere's Overseas Admin approves the payout and the status becomes **paid**. Paid commissions count as **Revenue** on the dashboard and in **Reports > Commission**.

Validation Messages

Message	When
Commission not found	The reference is wrong.
Commission cannot be claimed in its current status	The commission was already claimed, or is being paid / paid.

Common Errors

Problem: "Commission cannot be claimed in its current status". **Cause:** The commission was already claimed (or is already paid). **Resolution:** Check the Claim reference column; nothing more to do.

Problem: A commission was claimed while still **estimated** and its amount stays at 0. **Cause:** EduSphere accepts a claim on an estimated commission, and a claim locks the amount — EduSphere can then no longer set it.

Resolution: Always wait until the status is **eligible** before claiming. If it already happened, contact EduSphere Overseas Admin.

Tips

- Claim only commissions with status **eligible**. The screen also accepts **estimated** ones, but that locks the amount at 0.

Set **From** / **To** (creation dates; the **Enrollments** tab uses the enrollment date) and the dropdowns shown for that tab — **Staff member**, **Country**, **University**, **Intake**, **Status** — then click **Apply**. The line “{N} rows · As of {time}” shows the result size. The chosen report and filters are kept in the page address, so you can bookmark or share the view.

Step 3 — Read the table

List reports show 50 rows per page with **Previous** / **Next**. Wide tables say “Scroll sideways to see every column.”

Common Errors

Problem: A former staff member's students are still "assigned" to them. **Cause:** Deactivation does not move students. **Resolution:** Reassign the students on the Students page (Assign).

Tips

- Deactivate rather than reset when someone leaves the agency.
