EduSphere Overseas BDM CRM — Documentation Analysis and Plan

Scope, features, roles, product findings and capture sessions (planning stage, not browser-verified)

Planned 2026-10-17

Contents

EduSphere Overseas BDM CRM — Documentation Analysis (Phase 1)

- 1. Application Overview
- 2. Module Inventory
- 3. Feature Inventory
- 4. User Role Inventory
- 5. Role Permission Matrix (summary; detail in appendices 01 §B.0, 02 §0.3, 03 §2–3)
- 6. Major User Workflows
- 7. Required Test Data (created by capture specs; all `Docs` prefixed, `@example.test`)
- 8. Unknown Workflows Requiring Browser Verification
- 9. Product Findings and Open Questions (owner)

Overseas BDM CRM User Documentation — Implementation Plan (Phase 2)

- Global Constraints
- Review Focus
- File structure
- Sessions
- Feature records
- Self-review (S1)

EduSphere Overseas BDM CRM — Documentation Analysis (Phase 1)

> Master planning session S1, 2026-10-17. Code baseline `main` @ `6fee294d`. Branch `docs/bdm-crm-user-guide` (worktree `.claude/worktrees/bdm-docs`). Read-only source discovery; **nothing here is browser-verified yet**. Where this file and the browser disagree, the browser wins and this file is annotated.
>
> Field-level evidence (file:line, literal UI strings, error messages) is in the four appendices: - `discovery/01-bdm-frontline.md` — Agent BDM and School BDM portal (`/bdm/*`) - `discovery/02-bdm-manager.md` — BDM Manager portal (`/bdm/manager/*`) - `discovery/03-access-admin-touchpoints.md` — account access, admin provisioning and lifecycle, travel approvals, touchpoints - `discovery/04-test-data-tooling-decisions.md` — seed data, e2e flows, bdm-001..025 decisions, glossary, capture tooling

Owner answers (2026-10-17):

#	Question	Answer
D1	Approach	Full verified set, same pipeline as the Telecaller and School CRM docs.
D2	Scope	Agent BDM + School BDM (`bdm` , Overseas) + `bdm_manager` over Overseas BDMs + Super Admin / Overseas Admin BDM screens (`/overseas/admin/bdms` , `/admin/bdms` , `/admin/bdm-travel-approvals`) + telecaller meeting-request touchpoint. **College BDMs (IT) are out of scope.**
D3	Stack	Claude may start, seed, reset and snapshot only the `bdmdocs` compose project (web 3040, api 8040, Mailpit 127.0.0.1:8028).
D4	Personas	Overseas-only **Docs** personas created through the admin screens + a `demo-accounts.md` page mapping them to Sanjay / Rahul / Kavya.
D5	Time-bound states	Spread capture over real days: overdue follow-ups, missed daily report (AL-7) and the MoU 5-day alert are captured in later sessions run on later days; PARTIAL until then.
D6	Onboarding links	Link the Docs Agent organisation to the seeded **EduSphere Partner Agency** and the Docs School organisation to the seeded **Sunrise Public School**, so the performance/activity panels show real figures.

---

1. Application Overview

1.1 What the BDM CRM is

The BDM CRM (backlog bdm-001..025, all merged; bdm-021 is College-only) is the field-sales desk for partner institutions. An **Agent BDM** recruits education agencies; a **School BDM** recruits schools. Each BDM works organisations through a module-specific pipeline, books and reports on meetings, plans travel (approved by their manager), records follow-ups and activities, submits a daily report, manages MoUs, and requests onboarding once a deal is signed — at which point an Overseas Admin links the organisation to a real agency (Agent CRM) or partner school (School CRM). Telecallers can send **meeting requests** to BDMs (tel-019).

Roles in scope:

- **Agent BDM / School BDM** (`bdm` , `bdm_type` agent / school, division overseas). Sign in at `/overseas/login` ; land on `/bdm/my-day` .
- **BDM Manager** (`bdm_manager` , division global). Signs in at `/admin/login` ; lands on `/bdm/manager/dashboard` . Team = direct reports only.
- **Overseas Admin** (create/edit/deactivate Agent and School BDMs; onboarding links; admin lead list) and **Super Admin** (all of that + BDM Managers + fallback travel approvals).

1.2 Agent BDM vs School BDM (appendix 01 §0.1)

Same sidebar and same travel flow. They differ in pipeline stages, onboarding trigger (Agent: stage **Agreement Signed**; School: MoU **Signed/Active**), organisation panel (Agent performance vs School activity), appointment types, meeting-report outcomes (Agents have no Reschedule outcome), My Day tiles, daily-report tiles and target KPIs. Every feature file that differs by type carries a **What each BDM type sees** table.

1.3 Authentication (appendix 03 §1)

- Signed-out `/bdm/*` → `/bdm/sign-in?next=` chooser (**College BDM** → `/it/login`; **Agent / School BDM** → `/overseas/login`); `/bdm/manager/*` → `/admin/login?next=`.
- Wrong portal: 403 naming the right portal. Welcome link 72 h, single use; BDM → `/overseas/reset-password`, manager → `/admin/reset-password`.
- Every BDM page calls `GET /bdm/me`; a non-BDM gets “BDM role required”.

1.4 Cross-cutting rules to explain in every manual

- **Module scope:** a BDM reads every organisation in their module but edits only those assigned to them; only a manager restores an archived organisation; a manager cannot archive.
- **Travel approval:** only the BDM’s current manager decides; Super Admin decides only while that manager is inactive; rejection needs a reason. Travel is the **only** approval type — there is no MoU approval.
- **Time rules:** booking needs a future time; Complete / No-show only after start; meeting reports and activities editable only the same day; a submitted daily report locks that day’s activities.
- **Not built — never document:** expense receipt upload, appointment mode field, external calendar sync, agent commission on BDM screens (“Not shown to BDMs (awaiting a decision)”), unlinking an onboarded partner, Agent/School revenue, any CSV export (appendix 04 §3).

---

2. Module Inventory

Code	Module	Features
AUTH	Account access	7
NAV	Navigation	2
DAY	My Day	5
NOTIF	Notifications	3
CAL	Calendar	1
MEET	Meeting requests	4
UNI	Organisations	1
ORG	Organisations	5
CONT	Organisations	1
PROF	Organisations	3
PIPE	Pipeline	4
LEAD	Organisations	1
REF	Reference	2
MOU	MoUs	4
ONB	Onboarding	2
ORGP	Onboarding	2
APPT	Appointments	8
FUP	Follow-ups	4
ACT	Activities	4
TRAV	Travel	12
RPT	Daily report	4

Code	Module	Features
MDASH	Manager: dashboard	2
MNOTIF	Manager: dashboard	1
MTEAM	Manager: team	2
MORG	Manager: organisations	4
MPIPE	Manager: pipeline	1
MAPPT	Manager: appointments	2
MCAL	Manager: appointments	1
MFUP	Manager: activity	1
MACT	Manager: activity	1
MRPT	Manager: daily reports	2
MMOU	Manager: organisations	1
MMEET	Manager: meeting requests	1
APPR	Manager: travel	1
MTRIP	Manager: travel	2
PERF	Manager: performance	3
TGT	Manager: targets	2
ADM	Admin	11
Total		**117**

3. Feature Inventory

ID format `DOC-BDM-<MOD>-NNN`, grouped by manual folder. Roles: BDM = Agent and School BDM, MGR = BDM Manager, OA = Overseas Admin, SA = Super Admin.

`user-manual/account-access/` (7)

ID	Feature	Route	Roles
DOC-BDM-AUTH-001	Choose your BDM portal and sign in as an Agent/School BDM	`/bdm/sign-in` → `/overseas/login`	BDM
DOC-BDM-AUTH-002	Sign in as a BDM Manager (lands on Dashboard)	`/admin/login` → `/bdm/manager/dashboard`	MGR
DOC-BDM-AUTH-003	Set your first password from the welcome email	`/overseas/reset-password`, `/admin/reset-password`	BDM, MGR
DOC-BDM-AUTH-004	Forgot / reset your password	`/overseas/forgot-password`, `/admin/forgot-password`	BDM, MGR
DOC-BDM-AUTH-005	Change your password and sign out	`/account/password, sidebar`	BDM, MGR
DOC-BDM-AUTH-006	Your BDM profile and the account profile page	`/bdm/profile`, `/account/profile`	BDM, MGR
DOC-BDM-AUTH-007	“Access unavailable” messages (no BDM profile, wrong role, wrong portal)	`any /bdm/*`	BDM, MGR

`user-manual/navigation/` (1)

ID	Feature	Route	Roles
DOC-BDM-NAV-001	BDM portal tour: sidebar, role pill (Agent BDM / School BDM), unread badge	`/bdm/*`	BDM

`manager-manual/navigation/` (1)

ID	Feature	Route	Roles
DOC-BDM-NAV-002	Manager portal tour: the 17-item sidebar	`/bdm/manager/*`	MGR

`user-manual/my-day/` (5)

ID	Feature	Route	Roles
DOC-BDM-DAY-001	My Day: today's appointments, upcoming travel, follow-ups	`/bdm/my-day`	BDM
DOC-BDM-DAY-002	My Day: Agent overview tiles	`/bdm/my-day`	Agent BDM
DOC-BDM-DAY-003	My Day: School overview tiles	`/bdm/my-day`	School BDM
DOC-BDM-DAY-004	My Day: monthly targets card	`/bdm/my-day`	BDM
DOC-BDM-DAY-005	My Day: meeting requests card	`/bdm/my-day`	BDM

`user-manual/notifications/` (3)

ID	Feature	Route	Roles
DOC-BDM-NOTIF-001	Read and open notifications	`/bdm/notifications`	BDM
DOC-BDM-NOTIF-002	Reminders (appointment, travel, follow-up, MoU follow-up/renewal) and email action links	`/bdm/notifications`	BDM
DOC-BDM-NOTIF-003	Decision notices (trip approved / not approved, onboarding outcome, handover)	`/bdm/notifications`	BDM

`user-manual/calendar/` (1)

ID	Feature	Route	Roles
DOC-BDM-CAL-001	Calendar: week/day view and navigation	`/bdm/calendar`	BDM

`user-manual/meeting-requests/` (4)

ID	Feature	Route	Roles
DOC-BDM-MEET-001	Meeting request inbox and filters (requests from telecallers)	`/bdm/meeting-requests`	BDM
DOC-BDM-MEET-002	View a meeting request	`/bdm/meeting-requests/[id]`	BDM
DOC-BDM-MEET-003	Accept a request and book the appointment	`/bdm/meeting-requests/[id]`	BDM
DOC-BDM-MEET-004	Decline a request with a reason	`/bdm/meeting-requests/[id]`	BDM

`user-manual/organisations/` (11)

ID	Feature	Route	Roles
DOC-BDM-UNI-001	View a linked University Master record	`/bdm/universities/[id]`	BDM
DOC-BDM-ORG-001	Browse and filter your module's organisations	`/bdm/organizations`	BDM
DOC-BDM-ORG-002	Add an organisation (duplicate warning)	`/bdm/organizations/new`	BDM
DOC-BDM-ORG-003	Open an organisation (read-only when not assigned to you)	`/bdm/organizations/[id]`	BDM

ID	Feature	Route	Roles
DOC-BDM-ORG-004	Edit organisation details	`/bdm/organizations/[id]`	BDM (assigned)
DOC-BDM-ORG-005	Archive an organisation (your manager restores it)	`/bdm/organizations/[id]`	BDM (assigned)
DOC-BDM-CONT-001	Manage contacts (add, edit, primary, delete; 1–20)	`/bdm/organizations/[id]`	BDM (assigned)
DOC-BDM-PROF-001	Agent organisation details (type profile)	`/bdm/organizations/new, [id]`	BDM
DOC-BDM-PROF-002	School organisation details (board, type, grades)	`/bdm/organizations/new, [id]`	BDM
DOC-BDM-PROF-003	Change an organisation's type (clear-first rule)	`/bdm/organizations/[id]`	BDM (assigned)
DOC-BDM-LEAD-001	Add and view student leads on an organisation	`/bdm/organizations/[id]`	BDM

`user-manual/pipeline/` (4)

ID	Feature	Route	Roles
DOC-BDM-PIPE-001	Move an organisation through pipeline stages (moving back needs a reason)	`/bdm/organizations/[id]`	BDM (assigned)
DOC-BDM-PIPE-002	Mark an organisation Lost and revive it	`/bdm/organizations/[id]`	BDM (assigned)
DOC-BDM-PIPE-003	Read the stage history	`/bdm/organizations/[id]`	BDM
DOC-BDM-PIPE-004	Pipeline board (Mine / All in module, stage tiles, Lost)	`/bdm/pipeline`	BDM

`user-manual/reference/` (2)

ID	Feature	Route	Roles
DOC-BDM-REF-001	Reference lists: organisation types, contact roles, pipeline stages per module	`reference`	all
DOC-BDM-REF-002	Management BDM figures (pointer only)	`/management/bdm`	partner, SA

`user-manual/mous/` (4)

ID	Feature	Route	Roles
DOC-BDM-MOU-001	Start and edit an organisation's MoU (status, dates, signing)	`/bdm/organizations/[id]`	BDM (assigned)
DOC-BDM-MOU-002	Upload and download the MoU document	`/bdm/organizations/[id]`	BDM
DOC-BDM-MOU-003	MoU history, expiry and renewal	`/bdm/organizations/[id]`	BDM (assigned)
DOC-BDM-MOU-004	MoU list by status	`/bdm/mous`	BDM

`user-manual/onboarding/` (4)

ID	Feature	Route	Roles
DOC-BDM-ONB-001	Request Agent onboarding (at Agreement Signed)	`/bdm/organizations/[id]`	Agent BDM
DOC-BDM-ONB-002	Request School onboarding (MoU Signed / Active)	`/bdm/organizations/[id]`	School BDM

ID	Feature	Route	Roles
DOC-BDM-ORGP-001	Agent performance panel	`/bdm/organizations/[id]`	Agent BDM
DOC-BDM-ORGP-002	School activity panel	`/bdm/organizations/[id]`	School BDM

`user-manual/appointments/` (8)

ID	Feature	Route	Roles
DOC-BDM-APPT-001	View and filter your appointments	`/bdm/appointments`	BDM
DOC-BDM-APPT-002	Book an appointment (overlap warning)	`/bdm/appointments/new`	BDM
DOC-BDM-APPT-003	Link an appointment to a trip	`/bdm/appointments/new, [id]`	BDM
DOC-BDM-APPT-004	Appointment detail, edit details and history	`/bdm/appointments/[id]`	BDM
DOC-BDM-APPT-005	Confirm, reschedule or cancel an appointment	`/bdm/appointments/[id]`	BDM
DOC-BDM-APPT-006	Complete with a meeting report, or mark no-show	`/bdm/appointments/[id]`	BDM
DOC-BDM-APPT-007	Edit the meeting report the same day; book the next meeting	`/bdm/appointments/[id]`	BDM
DOC-BDM-APPT-008	Act on an appointment reminder	`/bdm/appointments/[id]?action=`	BDM

`user-manual/follow-ups/` (4)

ID	Feature	Route	Roles
DOC-BDM-FUP-001	Follow-ups: tabs, counts and filters (incl. Overdue)	`/bdm/follow-ups`	BDM
DOC-BDM-FUP-002	Add a follow-up or task	`/bdm/follow-ups`	BDM
DOC-BDM-FUP-003	Mark done, edit or cancel a task	`/bdm/follow-ups`	BDM
DOC-BDM-FUP-004	Follow-ups created from meeting reports	`/bdm/follow-ups, /bdm/appointments/[id]`	BDM

`user-manual/activities/` (4)

ID	Feature	Route	Roles
DOC-BDM-ACT-001	Your activities for a day, with counts	`/bdm/activities`	BDM
DOC-BDM-ACT-002	Log an activity (including backdating)	`/bdm/activities`	BDM
DOC-BDM-ACT-003	Edit or delete today's activity	`/bdm/activities`	BDM
DOC-BDM-ACT-004	Organisation activity timeline	`/bdm/organizations/[id]`	BDM

`user-manual/travel/` (12)

ID	Feature	Route	Roles
DOC-BDM-TRAV-001	View and filter your trips	`/bdm/travel`	BDM
DOC-BDM-TRAV-002	Plan a new trip (draft)	`/bdm/travel/new`	BDM
DOC-BDM-TRAV-003	Open a trip (details, appointments, productivity)	`/bdm/travel/[id]`	BDM
DOC-BDM-TRAV-004	Edit a draft or rejected trip	`/bdm/travel/[id]`	BDM
DOC-BDM-TRAV-005	Submit a trip for approval, or withdraw it	`/bdm/travel/[id]`	BDM

ID	Feature	Route	Roles
DOC-BDM-TRAV-006	Handle a rejected trip (reason, fix, resubmit)	`/bdm/travel/[id]`	BDM
DOC-BDM-TRAV-007	Start, complete or cancel a trip	`/bdm/travel/[id]`	BDM
DOC-BDM-TRAV-008	Record trip expenses	`/bdm/travel/[id]#trip-costs`	BDM
DOC-BDM-TRAV-009	Trip remarks	`/bdm/travel/[id]#trip-remarks`	BDM
DOC-BDM-TRAV-010	Trip itinerary: appointments linked to a trip	`/bdm/travel/[id]#trip-appointments`	BDM
DOC-BDM-TRAV-011	Travel report of a completed trip	`/bdm/travel/[id]/report`	BDM
DOC-BDM-TRAV-012	Travel notifications and the day-before reminder	`/bdm/notifications`	BDM

`user-manual/daily-report/` (4)

ID	Feature	Route	Roles
DOC-BDM-RPT-001	View a day's live report	`/bdm/daily-report`	BDM
DOC-BDM-RPT-002	Submit the daily report with a note (locks the day)	`/bdm/daily-report`	BDM
DOC-BDM-RPT-003	Read a submitted report and your manager's comment	`/bdm/daily-report?date=`	BDM
DOC-BDM-RPT-004	What each count means (Agent vs School tiles)	`/bdm/daily-report`	BDM

`manager-manual/dashboard/` (3)

ID	Feature	Route	Roles
DOC-BDM-MDASH-001	Read the BDM overview tiles	`/bdm/manager/dashboard`	MGR
DOC-BDM-MDASH-002	Act on dashboard alerts (AL-1 … AL-7)	`/bdm/manager/dashboard`	MGR
DOC-BDM-MNOTIF-001	Manager notifications	`/bdm/manager/notifications`	MGR

`manager-manual/team/` (2)

ID	Feature	Route	Roles
DOC-BDM-MTEAM-001	View the BDMs who report to you	`/bdm/manager/team`	MGR
DOC-BDM-MTEAM-002	Read the Master view (type → BDM → linked organisations)	`/bdm/manager/hierarchy`	MGR

`manager-manual/organisations/` (5)

ID	Feature	Route	Roles
DOC-BDM-MORG-001	Find the team's organisations	`/bdm/manager/organizations`	MGR
DOC-BDM-MORG-002	Read an organisation's profile and panels	`/bdm/manager/organizations/[id]`	MGR
DOC-BDM-MORG-003	Reassign an organisation to another BDM on your team	`/bdm/manager/organizations/[id]`	MGR
DOC-BDM-MORG-004	Restore an archived organisation	`/bdm/manager/organizations?archived=1`	MGR
DOC-BDM-MMOU-001	Review the team's MoUs by status	`/bdm/manager/mous`	MGR

`manager-manual/pipeline/` (1)

ID	Feature	Route	Roles
DOC-BDM-MPIPE-001	Team pipeline by type and stage	`/bdm/manager/pipeline`	MGR

`manager-manual/appointments/` (3)

ID	Feature	Route	Roles
DOC-BDM-MAPPT-001	Filter the team's appointments	`/bdm/manager/appointments`	MGR
DOC-BDM-MAPPT-002	Read an appointment and its meeting report	`/bdm/manager/appointments/[id]`	MGR
DOC-BDM-MCAL-001	View a BDM's calendar	`/bdm/manager/calendar`	MGR

`manager-manual/activity/` (2)

ID	Feature	Route	Roles
DOC-BDM-MFUP-001	Review the team's follow-ups and tasks	`/bdm/manager/follow-ups`	MGR
DOC-BDM-MACT-001	Review the team's activities for a day	`/bdm/manager/activities`	MGR

`manager-manual/daily-reports/` (2)

ID	Feature	Route	Roles
DOC-BDM-MRPT-001	Check daily-report submission (7-day grid)	`/bdm/manager/daily-reports`	MGR
DOC-BDM-MRPT-002	Read a daily report and comment	`/bdm/manager/daily-reports/[bdmId]`	MGR

`manager-manual/meeting-requests/` (1)

ID	Feature	Route	Roles
DOC-BDM-MMEET-001	Review meeting requests (team and open pool)	`/bdm/manager/meeting-requests`	MGR

`manager-manual/travel/` (3)

ID	Feature	Route	Roles
DOC-BDM-APPR-001	Work the travel approval queue	`/bdm/manager/approvals`	MGR
DOC-BDM-MTRIP-001	Approve or reject a trip	`/bdm/manager/trips/[id]`	MGR
DOC-BDM-MTRIP-002	Read a completed trip's travel report	`/bdm/manager/trips/[id]/report`	MGR

`manager-manual/performance/` (3)

ID	Feature	Route	Roles
DOC-BDM-PERF-001	Performance by BDM type for a period	`/bdm/manager/performance`	MGR
DOC-BDM-PERF-002	Drill into one BDM type	`/bdm/manager/performance/[type]`	MGR
DOC-BDM-PERF-003	Drill into one BDM (organisations and trips)	`/bdm/manager/performance/bdms/[id]`	MGR

`manager-manual/targets/` (2)

ID	Feature	Route	Roles
DOC-BDM-TGT-001	Team targets for a month; copy last month	`/bdm/manager/targets`	MGR
DOC-BDM-TGT-002	Set one BDM's monthly targets	`/bdm/manager/targets/[bdmId]`	MGR

`admin-manual/` (11)

ID	Feature	Route	Roles
DOC-BDM-ADM-001	Create an Agent or School BDM	`/overseas/admin/bdms`, `/admin/bdms`	OA, SA
DOC-BDM-ADM-002	Find and edit a BDM	`/overseas/admin/bdms`, `/admin/bdms`	OA, SA
DOC-BDM-ADM-003	Deactivate a BDM with handover	`/overseas/admin/bdms`, `/admin/bdms`	OA, SA
DOC-BDM-ADM-004	Hand over an inactive BDM's work; reactivate	`/overseas/admin/bdms`, `/admin/bdms`	OA, SA
DOC-BDM-ADM-005	Re-send a BDM's set-password link	`/overseas/admin/users`	OA, SA
DOC-BDM-ADM-006	Create a BDM Manager	`/admin/users`	SA
DOC-BDM-ADM-007	Deactivate a BDM Manager and move the team	`/admin/bdms`	SA
DOC-BDM-ADM-008	Link an agency from an Agent onboarding request	`/overseas/admin/agents`	OA
DOC-BDM-ADM-009	Create or link a school from a School onboarding request	`/overseas/admin/schools`	OA
DOC-BDM-ADM-010	Fallback travel approvals when the manager is inactive	`/admin/bdm-travel-approvals`	SA
DOC-BDM-ADM-011	BDM leads in the admin lead list	`/overseas/admin/leads`	OA

4. User Role Inventory

Role	Label	Division	Sign-in	Landing	Created by
`bdm` (`bdm_type` agent)	Agent BDM	overseas	`/overseas/login`	`/bdm/my-day`	Overseas Admin or Super Admin
`bdm` (`bdm_type` school)	School BDM	overseas	`/overseas/login`	`/bdm/my-day`	Overseas Admin or Super Admin
`bdm_manager`	BDM Manager	global	`/admin/login`	`/bdm/manager/dashboard`	Super Admin only
`overseas_admin`	Overseas Admin	overseas	`/overseas/login`	—	—
`super_admin`	Super Admin	global	`/admin/login`	—	—

5. Role Permission Matrix (summary; detail in appendices 01 §B.0, 02 §0.3, 03 §2–3)

Capability	BDM	Manager	Overseas Admin	Super Admin
Read organisations in own module	✓	✓ team	✗	✗ (via management only)
Create / edit / archive organisation, contacts, pipeline, MoU	✓ assigned	✗	✗	✗
Restore archived organisation / reassign	✗	✓ team	✗	✗

Capability	BDM	Manager	Overseas Admin	Super Admin
Appointments, follow-ups, activities, daily report	✓ own	read + comment on report	✗	✗
Plan / submit trips	✓ own	✗	✗	✗
Approve / reject trips	✗	✓ direct reports	✗	✓ only if manager inactive
Accept / decline telecaller meeting requests	✓	read	✗	✗
Set monthly targets	✗	✓ current..+12 months	✗	✓ incl. past months
Request onboarding	✓ assigned	✗	✗	✗
Link agency / school from onboarding	✗	✗	✓	✓
Create / edit / deactivate Agent & School BDMs	✗	✗	✓	✓
Create / deactivate BDM Manager	✗	✗	✗	✓

6. Major User Workflows

1. **Set-up:** SA creates BDM Manager → OA creates Agent/School BDMs (module fixed, Employee ID, reporting manager) → welcome email → set password.
2. **Prospecting:** add organisation + contacts + type profile → move through pipeline → appointments (book, confirm, complete with meeting report) → follow-ups → activities.
3. **Travel:** plan trip → link appointments → submit → manager approves/rejects → start → expenses/remarks → complete → travel report.
4. **Close & onboard:** MoU (document, signing) → onboarding request → OA links agency / school → performance or activity panel.
5. **Daily rhythm:** My Day → calendar → notifications/reminders → daily report submit → manager comment.
6. **Telecaller hand-off:** telecaller files meeting request → BDM accepts (books appointment) or declines with reason.
7. **Manager oversight:** dashboard tiles/alerts → team → Master view → pipeline → performance drill-downs → targets.
8. **Lifecycle:** deactivate BDM with handover → reactivate; deactivate manager → team moves to replacement; fallback travel approvals.

7. Required Test Data (created by capture specs; all `Docs` prefixed, `@example.test`)

- **Personas (S2):** Docs BDM Manager; Docs Agent BDM A, Docs Agent BDM B, Docs School BDM, Docs Spare BDM (for deactivation); a Docs telecaller (Overseas) to file meeting requests.
- **Organisations (S4):** ~8 Docs organisations across Agent and School stages, contacts, profiles, one archived, one Lost, one duplicate attempt, student leads.
- **MoUs (S5):** each status, a small generated PDF document; one Agent org at Agreement Signed and one School org MoU Signed → onboarding → linked to EduSphere Partner Agency / Sunrise Public School (D6).
- **Appointments (S6):** batch booked ~3 minutes ahead, then confirmed / rescheduled / cancelled / completed with reports / no-show; follow-ups and activities.
- **Travel (S7):** trips in draft, submitted, rejected, approved, in progress, completed, cancelled; expenses; travel report.
- **Meeting requests (S8):** named and pooled requests from the Docs telecaller; accept and decline.
- **Later days (S9, S10):** overdue follow-ups, a missed daily report, the MoU 5-day alert (D5).

8. Unknown Workflows Requiring Browser Verification

- Pipeline “Reason” blank-message wording (01 B-Q5); manager reassign picker and inactive BDMs (02 Q10).
- Forgot-password delivery on the docs stack (03 Q1) — AUTH-004 expected PARTIAL as in the other docs sets.
- Super Admin reactivating a BDM Manager from Users (03 Q2); manager notice email (02 Q17).
- “Management tasks” sidebar item (02 Q18) — link out, not documented here.

9. Product Findings and Open Questions (owner)

Recorded as found; manuals document behaviour **as built**. None blocks documentation.

#	Finding	Source
P1	Welcome email calls the role “Bdm” / “Bdm Manager”.	03 P1
P2	BDMs and managers can rename themselves on `/account/profile`, while `/bdm/profile` says to contact the administrator.	03 P2
P3	`/overseas/login` text does not mention BDMs.	03 P3
P4	No notification to a BDM when a telecaller files a meeting request.	03 P4, 01
P5	No Re-send link on the BDMs page; admins use Users.	03 P5
P6	Sign out lands on `/`, not the BDM chooser.	03 P6
P7	BDM deactivation does not bump the session version (relies on the active check).	03 P7
P8	Organisation type is independent of module: an Agent BDM can create a School/College/University organisation.	01 B-Q1
P9	Any BDM can open any University Master record by id.	01 B-Q2
P10	Agent daily report has 3 always-“Not tracked” tiles; several Agent target KPIs and the “Agents awaiting onboarding” tile show “Not tracked” though bdm-019 is merged.	01, 02 Q5, 04 Q5
P11	Agent/School target KPI lists include College KPIs (“College Meetings”, “New Colleges”).	02 Q4
P12	Performance and Master view always show College columns for an Overseas-only team; Pipeline hides absent types; appointment Type filter lists all 37 types.	02 Q1, Q3
P13	Meeting requests page shows the whole open pool of every type.	02 Q2
P14	Reassigning an organisation does not move the old BDM’s appointments, follow-ups or leads.	02 Q9
P15	Trip expenses: no receipt upload, expense date not checked against trip dates, editable after completion/cancellation.	01 (c.4)
P16	A submitted daily report cannot be corrected and locks the day’s activities; no notification to the BDM on manager comment or targets.	01 (c.4), 02 Q13
P17	Activity “When” uses browser-local time, not IST.	01 (c.3)
P18	Dashboard team summary counts only the first 50 rows; AL-7 checks yesterday only.	02 Q11, Q16
P19	Team-trips API exists with no page; no export anywhere.	02 Q14, Q15
P20	Super Admin sees “BDM Manager” pill on Team/Approvals but is denied Notifications.	02 Q12

Overseas BDM CRM User Documentation — Implementation Plan (Phase 2)

> **For agentic workers:** REQUIRED SUB-SKILL: use superpowers:executing-plans. Work one session at a time, in this plan's order. Tick the checkboxes here and update `docs/bdm-crm/documentation-progress.md` at the end of every session.

Goal: Verified end-user, manager, administrator and role-based documentation for the EduSphere **Overseas BDM CRM** (Agent BDM, School BDM, BDM Manager, plus the Overseas Admin / Super Admin BDM screens), with Playwright screenshots.

Architecture: - **Feature files.** One Markdown file per Doc ID: BDM `docs/bdm-crm/user-manual/<module>/`, manager `docs/bdm-crm/manager-manual/<module>/`, admin `docs/bdm-crm/admin-manual/`. - **Screenshots** in `docs/bdm-crm/screenshots/<module>/` (module = the manual folder's last segment, `admin` for admin-manual), indexed in `screenshot-index.md`. - **Source of behaviour.** Code reviewed in Phase 1 (`documentation-analysis.md` + `discovery/`), confirmed in the browser before it is written. - **Reproducibility.** Test-only Playwright capture specs in `apps/web/tests/doc-capture/bdm/`.

Global Constraints

- **Scope.** The 117 Doc IDs below. Anything else → "Discovered functionality" in the progress file. College BDMs, the Management dashboards (pointer only, REF-002) and "Management tasks" are out.
  - Never edit `docs/school-crm/`, `docs/telecaller-crm/` or the Agent CRM docs at the top of `docs/`.
- **Code baseline.** `main` @ `6fee294d`. When `main` moves, re-check features whose files changed (`git diff --stat 6fee294d.. <new> -- apps/`).
- **No product code changes.** Capture tooling under `apps/web/tests/doc-capture/` and `docs/tooling/` is test/docs only.
- **Screenshot settings.** Chromium 1440 × 900, light, `deviceScaleFactor` 1, locale `en-IN`, timezone `Asia/Kolkata`; viewport shots; `fullPage` only when a step needs the whole form (note it). One 390 px shot for NAV-001.
- **Never show passwords, tokens or keys.** Mask password inputs, "Demo accounts" cards and "Development only" boxes; never put a welcome/reset URL with a token in a doc or image; never paste the seed password; never screenshot Mailpit.
- **Test data only.** Docs personas use `@example.test`; every organisation, contact, trip and MoU created is prefixed `Docs`; fictional phone numbers (`+91 90000 0xxxx`). Exceptions (D6): the seeded EduSphere Partner Agency and Sunrise Public School appear as linked partners.
- **VERIFICATION REQUIRED** for anything not seen in the browser; leave it out of the numbered steps.
- **As-built.** Document P1–P20 neutrally (analysis §9). Never promise unbuilt items (analysis §1.4).
- **Writing style.** Simple English, numbered steps, bold UI labels exactly as on screen, one feature per file, mandatory template. Add **What each BDM type sees** (Agent vs School) and **What each role sees** tables where behaviour differs.
- **Terminology: Agent BDM**, **School BDM**, **BDM Manager** ("Manager" after first use), **Overseas Admin**, **Super Admin**, **Telecaller**; **organisation**, **contact**, **pipeline stage**, **Lost**, **MoU**, **onboarding request**, **appointment**, **meeting report**, **follow-up** / **task**, **activity**, **trip**, **travel report**, **daily report**, **meeting request**, **targets**, **Master view**.
- **Capture helpers.** `noPrefetch(context)` before navigating; `shoot(..., { element })` for long cards, `{ center }` for messages; `behavior: "instant"` scrolls; passwords only from `DOCS_PASSWORD` / `DOCS_TEST_PASSWORD`; IDs pass between specs via `DOCS_BDM_FILE` (scratchpad JSON).
- **Docker.** Owner approved (2026-10-17) Claude starting, seeding, resetting and snapshotting `bdmdocs` only. Never touch other compose projects.
- **Git.** Commit on `docs/bdm-crm-user-guide` with `docs: add <module> BDM CRM guide`. Stage explicit paths (`docs/bdm-crm/`, `apps/web/tests/doc-capture/bdm/`, shared tooling when changed). Never stage `graphify-out/`, `.env`, `docker-compose.docs.yml`. The owner pushes.

Review Focus

1. **Agent vs School.** Every feature that differs by type documents both, with one screenshot per type.
2. **Same screen, different role.** Organisation, appointment and trip pages as BDM vs manager (read-only + reassign/restore/approve).
3. **Locked states.** Not-assigned organisation (read-only), archived, Lost, submitted daily report, completed/cancelled trip, declined meeting request (final), same-day windows.
4. **Overseas-only screens.** Docs BDM Manager has only Agent/School reports; College columns that still appear (P12) get a one-line note, never a College persona.
5. **Time-dependent behaviour (D5).** Record each capture date; S9 runs on a later day than S6; S10 ≥ 5 days after S5.

6. **Secrets.** Open every new PNG before committing.

Sessions

Dependency order

S2 (stack, tooling, personas) → S3 (passwords, access) → S4 (organisations) → S5 (MoUs, onboarding) → S6 (appointments, follow-ups, activities) → S7 (travel, approvals) → S8 (meeting requests, My Day, notifications) → **S9 on a later day** (overdue, daily reports) → **S10 ≥ 5 days after S5** (manager oversight, alerts) → S11 (lifecycle, last) → S12 (guides, PDFs) → S13 (review). Rerun = reset `bdmdocs` (`down -v` , `up -d` , migrate, seed), clear Mailpit, rerun specs in order; restore the previous session's `pg_dump` snapshot to iterate on one session.

Standard session loop (S2–S11)

- ☐ **L1** Read the analysis, this plan, the progress file, the screenshot index and the relevant `discovery/` sections.
- ☐ **L2** Fetch `origin/main` ; re-review changed files touching this session's routes. Check `bdmdocs` is up (start it if not — D3). Record URL, commit and **capture date**.
- ☐ **L3** Explore each feature in the browser as each relevant role and BDM type. Tick "Browser Verified" only for what was seen.
- ☐ **L4** Write/extend `apps/web/tests/doc-capture/bdm/bdm-sN-<module>.capture.ts` ; run it; open every PNG.

- [ ] **L5** One feature file per Doc ID; **VERIFICATION REQUIRED** for unconfirmed points.
- [ ] **L6** `node docs/tooling/check-doc-links.mjs docs/bdm-crm`.
- [ ] **L7** Update `screenshot-index.md` and `documentation-progress.md`; snapshot the DB.
- [ ] **L8** Report; commit explicit paths; the owner pushes.

S1 — Master planning — DONE 2026-10-17

- [x] Four parallel discovery passes; owner answers D1–D6; analysis (117 features), this plan, tracker, screenshot-index skeleton.

S2 — Environment, capture tooling, admin provisioning (creates personas)

Features: ADM-001, ADM-002, ADM-005, ADM-006 (4).

- [ ] **S2.1** Stack: worktree `.claude/worktrees/bdm-docs`, `docker compose -p bdmdocs -f docker-compose.yml -f docker-compose.docs.yml` (never the Caddy override). Untracked `docker-compose.docs.yml` adds Mailpit `127.0.0.1:8028:8025`. Untracked `.env` = repo `.env` with `WEB_PORT=3040`, `API_PORT=8040`, `FRONTEND_URL=http://localhost:3040`, `SMTP_HOST=mailpit`, `SMTP_PORT=1025`, `SMTP_USE_TLS=false`, no SMTP credentials, `SMTP_FROM_EMAIL=no-reply@edusphere.local`, `ENVIRONMENT=development`. Worker and beat must run (`bdm012-reminders` every 300 s). Seed from `6fee294d`. Scratchpad: `docs-env.sh`, `reset-stack.sh`.
- [ ] **S2.2** Tooling (test-only): add `export const BDM_ROOT` to `apps/web/tests/doc-capture/shoot.ts` and a portal-aware `signIn()` (`/admin/login` for managers) with the default unchanged. **Use the same `signIn(portal)` shape as the telecaller docs S2** (cherry-pick it if that lands first) so the two branches merge cleanly. Add a `bdm` mode to `docs/tooling/build-pdfs.mjs` later (S12). Prove Agent/School specs still `--list`.
- [ ] **S2.3** Masking check on the two login pages.
- [ ] **S2.4** Standard loop. As Super Admin: create **Docs BDM Manager** (ADM-006). As Overseas Admin: create **Docs Agent BDM A**, **Docs Agent BDM B**, **Docs School BDM**, **Docs Spare BDM** (Employee IDs `DOCS-BDM-A`, `-B`, `-S`, `-X`; manager = Docs BDM Manager) (ADM-001); duplicate Employee ID error; edit (ADM-002); re-send link (ADM-005). Create a **Docs Telecaller** (Overseas) for S8 meeting requests.
- [ ] **S2.5** Snapshot `after-s2`.

S3 — Account access and navigation

Features: AUTH-001, AUTH-002, AUTH-003, AUTH-004, AUTH-005, AUTH-006, AUTH-007, NAV-001, NAV-002 (9).

- [ ] Standard loop. Welcome links from Mailpit (AUTH-003) for each persona; wrong portal both ways; AUTH-004 delivery check (expect PARTIAL); profile pages and the P2 name-edit behaviour; access-unavailable cards; both sidebar tours (one 390 px mobile shot for NAV-001).

S4 — Organisations, contacts, profiles, pipeline, leads

Features: UNI-001, ORG-001, ORG-002, ORG-003, ORG-004, ORG-005, CONT-001, PROF-001, PROF-002, PROF-003, PIPE-001, PIPE-002, PIPE-003, PIPE-004, LEAD-001, REF-001 (16).

- [ ] Standard loop as Docs Agent BDM A and Docs School BDM. ~8 Docs organisations across stages, contacts (1–20 rule), Agent and School profiles, type-change clear-first rule, duplicate warning, archive one (manager restores in S10), Lost + revive, stage history, pipeline board, a University-type organisation for UNI-001, student leads. Reference page from appendix 04 §4.

S5 — MoUs, onboarding, partner links

Features: MOU-001, MOU-002, MOU-003, MOU-004, ONB-001, ONB-002, ORGP-001, ORGP-002, ADM-008, ADM-009, ADM-011 (11).

- [ ] Standard loop. MoUs in each status with a generated PDF (≤ 20 MB; PDF/JPEG/PNG); history and renewal. Agent org → Agreement Signed → onboarding request; School org → MoU Signed → onboarding request. As Overseas Admin link to **EduSphere Partner Agency** and **Sunrise Public School** (D6), then capture the Agent performance and School activity panels. BDM leads in `/overseas/admin/leads`. **Record the date — S10 must run ≥ 5 days later for the MoU 5-day alert (D5).**

S6 — Appointments, follow-ups, activities, calendar

Features: CAL-001, APPT-001, APPT-002, APPT-004, APPT-005, APPT-006, APPT-007, FUP-002, FUP-003, FUP-004, ACT-001, ACT-002, ACT-003, ACT-004 (14).

- [ ] Standard loop. Book a batch of appointments ~3 minutes ahead, wait once, then confirm / reschedule / cancel / complete with meeting reports (Agent vs School outcomes) / no-show; same-day report edit and “Book the next meeting” (School). Follow-

ups from reports and manual tasks with due dates **today and tomorrow** (they become overdue for S9). Activities incl. backdating; edit/delete today's; organisation timeline; calendar.

S7 — Travel and approvals

Features: APPT-003, TRAV-001, TRAV-002, TRAV-003, TRAV-004, TRAV-005, TRAV-006, TRAV-007, TRAV-008, TRAV-009, TRAV-010, TRAV-011, TRAV-012, APPR-001, MTRIP-001, MTRIP-002 (16).

- [ ] Standard loop. Trips in every state: draft, submitted, withdrawn, rejected (reason) → fixed → resubmitted, approved, started, completed, cancelled; linked appointments; expenses; remarks; travel report. As Docs BDM Manager: approvals queue, approve, reject, travel report. Day-before reminder: plan a trip starting tomorrow (captured in S8/S9).

S8 — Meeting requests, My Day, notifications

Features: DAY-001, DAY-002, DAY-003, DAY-004, DAY-005, NOTIF-001, NOTIF-002, NOTIF-003, MEET-001, MEET-002, MEET-003, MEET-004, APPT-008, MNOTIF-001, MMEET-001 (15).

- [ ] Standard loop. As the Docs Telecaller file a named request (to Docs Agent BDM A) and a pooled School request; as BDMs accept (book) and decline (reason). Manager meeting-request page. My Day (Agent and School tiles, targets card, requests card). Notifications: reminders, decision notices, email action links (Mailpit, not screenshotted); appointment reminder `?action=`; manager notifications.

S9 — Daily reports and next-day states — run on a later day than S6

Features: FUP-001, RPT-001, RPT-002, RPT-003, RPT-004, MRPT-001, MRPT-002 (7).

- [ ] Standard loop. Overdue follow-ups tab (FUP-001). Live day report, submit with note (locks the day), Agent vs School tiles. Leave one BDM's previous day unsubmitted (AL-7 for S10). Manager 7-day grid and comment; BDM reads the comment.

S10 — Manager oversight — run ≥ 5 days after S5

Features: MDASH-001, MDASH-002, MTEAM-001, MTEAM-002, MORG-001, MORG-002, MORG-003, MORG-004, MPIPE-001, MAPPT-001, MAPPT-002, MCAL-001, MFUP-001, MACT-001, MMOU-001, PERF-001, PERF-002, PERF-003, TGT-001, TGT-002, REF-002 (21).

- [ ] Standard loop as Docs BDM Manager. Dashboard tiles and alerts incl. AL-7 and the MoU 5-day alert (D5), team, Master view (College note per P12), organisations (reassign, restore the S4 archived org), MoU list, pipeline, appointments, calendar, follow-ups, activities, performance and drill-downs, targets (set one BDM, copy last month). REF-002 pointer page (no screenshot).

S11 — Lifecycle (runs last)

Features: ADM-003, ADM-004, ADM-007, ADM-010 (4).

- [ ] Standard loop. Deactivate Docs Spare BDM with handover to Docs Agent BDM B; hand over an inactive BDM's work; reactivate. Create a **Docs Spare Manager** and move a BDM with a submitted trip under it; deactivate the Spare Manager with replacement Docs BDM Manager, and capture Super Admin fallback approvals at `/admin/bdm-travel-approvals` while the manager is inactive (ADM-010).

S12 — Role guides, FAQ, troubleshooting, indexes, demo accounts, PDFs

- [ ] Role guides (`agent-bdm.md`, `school-bdm.md`, `bdm-manager.md`, `overseas-admin-bdms.md`, `super-admin-bdms.md`), `faq.md`, `troubleshooting.md`, the three manual READMEs, `demo-accounts.md` (D4: Docs BDM Manager ↔ Sanjay `bdm.manager@` — note Sanjay also manages College BDM Vivek; Docs Agent BDM A ↔ Rahul `bdm.agent@`; Docs School BDM ↔ Kavya `bdm.school@`). Add a `bdm` mode to `build-pdfs.mjs` and build the PDFs. Link check.

S13 — Final review

- [ ] Parallel reviewers (accuracy vs code, secrets/screenshots, links/consistency, Agent-vs-School and role matrix). Fix findings; mark Reviewed PASSED / COMPLETE; write `documentation-review-report.md` with P1–P20 plus new findings.

Feature records

Status at end of S1: code-reviewed at `6fee294d`, browser not verified, not documented. "Appx" = discovery file § with labels, messages and file:line. Capture detail per feature is in the appendix rows (a) and (b).
