School CRM — Frequently Asked Questions

Answers are based on behaviour verified in the browser on 2026-10-06 (sessions S2–S10, `main @ ce1f07c2`). Statements marked *(from code)* were read from the application code and not seen in the browser.

Accounts and access

Where do school users sign in? Everyone signs in at **/overseas/login** (the page is titled “Overseas Education Portal”). EduSphere then opens your role’s dashboard. See Sign in (*see the User Manual*).

How do I get an account? - School Coordinators and EduSphere specialists (Academic Team, Career Counselor, Psychometric Team) are created by EduSphere’s Overseas Admin and receive a “set your password” email. - Principals, Teachers and Parents are invited by their School Coordinator.

How long do the links in emails last? | Link | Valid for | |—| | Invitation (Principal, Teacher, Parent) | 7 days | | First “set your password” link (Coordinator, specialists) | 72 hours | | Password reset link | 30 minutes |

I forgot my password. What do I do? Use **Forgot your password?** on the sign-in page. On the documentation server no reset email was sent (U2), so if nothing arrives, contact your School Coordinator (Principals, Teachers, Parents) or EduSphere (Coordinators and specialists). See Forgot your password (*see the User Manual*).

Can I change my email address? No. You can change your name and phone in **My profile**; the email cannot be changed there.

Why was I signed out in the middle of my work? A sign-in lasts about 60 minutes (*from code*). Sign in again; save long forms regularly. See Sign out and session expiry (*see the User Manual*).

How do I sign out on a phone? The phone menu has no **Sign out**. Close the browser, or widen the window to see the sidebar.

I have children at two schools. Do I need two logins? No. The second school links your existing account; both children appear on your dashboard, grouped by school.

Students and team (School Coordinator)

Can I delete a student? No. Students cannot be deleted from the roster; ask EduSphere.

How many students can I upload at once? Use the CSV template on **Students > Bulk upload**. Each row is checked on its own; good rows are added even if others are rejected. Delete the template’s example row (“Jane Doe”) first, or it is imported as a real student.

How do I give a Teacher access to a student? Set the Teacher as the student’s **Assigned Teacher** (class teacher) when adding or editing the student.

An invitation email was not sent. Can I re-send it? Not from the Team page; there is no re-send, revoke or copy-link action. Contact your Overseas Admin.

What happens when I deactivate someone? They can no longer sign in (“Invalid credentials”) and get no new notifications. **Reactivate** undoes it. There is no confirmation step.

How does a student move to another school? The Coordinator requests the transfer; EduSphere's Overseas Admin approves or rejects it. Parents keep access after the move. See Request a transfer out (*see the User Manual*).

Why can't I promote students? Promotion works only after EduSphere opens the new academic year. Until then every student shows "Already in {year}".

Results, reports and records

When do parents see a result? Only after it is **published**. An Academic Team member uploads it as a Draft; a different member verifies it and then publishes it.

Why do the dashboard and the Reports page show different numbers for a grade? The Reports "Students by grade" chart groups by the Grade/Class text as typed ("Class X" and "Grade 10" are separate); the dashboard and the other reports use the grade level. Use the same wording for every student.

Why is "Career guidance" 5 on Reports but "Career Guidance Completed" 2 on the dashboard? The Reports ring counts students with any career record; the dashboard counts completed guidance sessions.

Can I keep my at-risk thresholds? No. They are in the page address; bookmark the address to reuse them. Opening Reports from the sidebar resets them to 40 and 85.

What do "Not in plan" and "Not tracked yet" mean on scorecards? "Not in plan": your partnership tier does not include that area. "Not tracked yet": EduSphere does not record it yet (Scholarship).

Partnership tiers

What does each tier include? See Partnership tiers explained (*see the User Manual*). Tiers build on each other: Bronze < Silver < Gold < Platinum.

Why was an action refused with a partnership message? Your tier does not include that service, your school has no tier, or the tier has expired. The screens are not hidden by tier; EduSphere refuses the action when you try it.

Our partnership expired, but the Entitlements page looks normal. The page shows only the past "valid until" date, with no warning. Contact your Overseas Admin to renew.

What happens to work in progress after a downgrade? Work already started can still be finished; nothing new can be started for removed services (*from code; the notification says so*).

Notifications

Why does the parent "unread" number never go down? Opening a notification from the parent pages does not mark it read (U8). Staff notifications are marked read when you click **Open**.

Why does an "Upcoming session" message show 04:30 for a 10:00 session? The time inside that message is in UTC (U9). The **Upcoming sessions** list on the dashboard shows the correct IST time.

Can I get notifications on WhatsApp or SMS? Save a valid mobile number in **My profile**, then tick the channel. Whether messages are actually sent depends on EduSphere's setup (not configured on the documentation server).

EduSphere specialists

Why do I see no students? Your school portfolio is empty, or the schools in it have no students yet. Ask your Overseas Admin. A portfolio cannot be changed on screen after the account is created.

Can I change a psychometric report address after attaching it? No. Contact EduSphere support.

Administrators

Can a Super Admin create schools? No. **Schools**, **School Staff** and **School Applications** show “Workspace not found” for a Super Admin. An Overseas Admin must do it. See Super Admin and the school screens (*see the Administrator Manual*).

A Coordinator never received the welcome email. Re-send the set-password link from **Users**. See Re-send a set-password link (*see the Administrator Manual*).

School CRM — Troubleshooting

Based on behaviour observed in the browser on 2026-10-06 (sessions S2–S10, `main @ ce1f07c2`). Items marked *(from code)* were not reproduced in the browser.

Who is “your administrator”? - Principals, Teachers and Parents: your **School Coordinator**. - School Coordinators, Academic Team, Career Counselors and Psychometric Team: EduSphere’s **Overseas Admin**.

Signing in and accounts

“Invalid credentials”

- **Possible Cause:** Wrong email or password, **or** your account has been deactivated (the message is the same).
- **Resolution:** Check the email, then use **Forgot your password?**
- **When to Contact Administrator:** The reset does not help; ask whether your account is active.

“Use the correct EduSphere portal for this account: sign in at /overseas/login”

- **Possible Cause:** You used the IT Training sign-in page.
- **Resolution:** Sign in at **/overseas/login**.
- **When to Contact Administrator:** Not needed.

No password-reset email arrives

- **Possible Cause:** Reset emails depend on EduSphere’s setup; on the documentation server none was sent (U2).
- **Resolution:** Check spam and wait a few minutes.
- **When to Contact Administrator:** Nothing arrives after 10 minutes.

“Reset token is invalid or expired”

- **Possible Cause:** The link is older than 30 minutes (reset) or 72 hours (first password), was already used, or (for a first-password link only) a newer link was sent. Requesting another reset link does not cancel earlier ones.
- **Resolution:** Request a new link and use the newest one straight away.
- **When to Contact Administrator:** A first-password link has expired; the Overseas Admin re-sends it.

“This invite has already been used, expired, or was revoked”

- **Possible Cause:** The invitation was already accepted, or 7 days have passed.
- **Resolution:** If you already set a password, sign in.
- **When to Contact Administrator:** You never set a password; ask your School Coordinator for a new invitation.

“Access unavailable — Not authenticated” during work

- **Possible Cause:** Your sign-in ended (about 60 minutes *(from code)*) or you signed out in another tab.
- **Resolution:** Click **Return to login** and sign in again. Unsaved changes may be lost.

- **When to Contact Administrator:** It happens within minutes of signing in, every time.

“Access unavailable” with another reason (wrong role, not assigned, not linked)

- **Possible Cause:** The page belongs to another role, or the student is not assigned/linked to you.
- **Resolution:** Use the pages in your own sidebar.
- **When to Contact Administrator:** You should have access to that student.

No Sign out on a phone

- **Possible Cause:** The narrow-screen menu does not include Sign out.
- **Resolution:** Close the browser, or widen the window to see the sidebar.
- **When to Contact Administrator:** Not needed.

Dashboards and pages

“This section couldn’t load. Refresh to try again.” (from code)

- **Possible Cause:** A temporary problem fetching figures (Principal dashboard, Reports, School Analytics; on the Coordinator dashboard the whole page shows “Access unavailable” instead).
- **Resolution:** Refresh the page.
- **When to Contact Administrator:** It persists for more than an hour.

A change does not show after saving (career goal, closed batch)

- **Possible Cause:** Some Career Counselor pages do not refresh themselves.
- **Resolution:** Reload the page.
- **When to Contact Administrator:** The change is still missing after reloading.

“Something went wrong.”

- **Possible Cause:** Seen when a text was far too long (a 170-character student name, a 210-character activity title, a 90-character subject).
- **Resolution:** Shorten the text and try again.
- **When to Contact Administrator:** It happens with normal-length text.

“Access unavailable — [object Object]” at /students/new

- **Possible Cause:** There is no separate new-student page.
- **Resolution:** Open **Students** and use **Add one student**.
- **When to Contact Administrator:** Not needed.

Students, team and transfers (School Coordinator)

Bulk upload: every row rejected with “Full name is required”

- **Possible Cause:** The header row was changed.
- **Resolution:** Start again from a freshly downloaded template.
- **When to Contact Administrator:** Not needed.

A student “Jane Doe” appeared after a bulk upload

- **Possible Cause:** The template’s example row was not deleted.
- **Resolution:** Students cannot be deleted from the roster.
- **When to Contact Administrator:** Ask EduSphere to remove the student.

“Photo must be at most 2 MB”

- **Possible Cause:** The image is too large.
- **Resolution:** Compress or resize it (JPEG or PNG) and upload again.
- **When to Contact Administrator:** Not needed.

Invitation created but “email sending isn’t configured... share the link manually”

- **Possible Cause:** The email could not be sent; the page does not show the link.
- **Resolution:** None on screen.
- **When to Contact Administrator:** Always; the Overseas Admin can help.

“Email already exists” when inviting

- **Possible Cause:** The person already has an EduSphere login.
- **Resolution:** For a Parent, link them to the student instead (**Link parent**).
- **When to Contact Administrator:** The person is not a parent and needs a second role.

The Mark attendance card shows everyone ticked again

- **Possible Cause:** The card always starts with everyone ticked.
- **Resolution:** Untick absentees again and save; saving replaces the earlier record.
- **When to Contact Administrator:** Not needed.

A transfer request never reaches the admin

- **Possible Cause:** The Student ID was mistyped; the page gives the same answer either way (privacy).
- **Resolution:** Check the Student ID with the family and request again.
- **When to Contact Administrator:** The ID is correct and nothing happens after several days.

Promotion: every student shows “Already in {year}”

- **Possible Cause:** The new academic year has not been opened.
- **Resolution:** None on screen.
- **When to Contact Administrator:** Always; EduSphere opens the year.

Partnership

“This school’s {Tier} partnership does not include {Service} (requires {Tier} or higher).”

- **Possible Cause:** Your tier does not include that service.
- **Resolution:** Choose another option, or check **Entitlements**.
- **When to Contact Administrator:** You need the service; the Overseas Admin can change the tier.

“This school has no active partnership tier.” / “This school’s partnership expired on {date}.”

- **Possible Cause:** No tier has been set, or it has expired. The Entitlements page shows no warning for an expired tier, only the past date.
- **Resolution:** None on screen.
- **When to Contact Administrator:** Always.

Results and records (EduSphere specialists)

“No students in your portfolio yet. Contact your Overseas Admin.”

- **Possible Cause:** No school is in your portfolio, or its schools have no students.
- **Resolution:** None on screen.
- **When to Contact Administrator:** Always; portfolios cannot be changed on screen after the account is created.

No Verify or Publish button on a result

- **Possible Cause:** You uploaded it yourself, or it is already published.
- **Resolution:** Ask another Academic Team member.
- **When to Contact Administrator:** Not needed.

Marks above the maximum were saved (for example “75/50 (150%)”)

- **Possible Cause:** The single-result form does not check the maximum.
- **Resolution:** Do not verify or publish it.
- **When to Contact Administrator:** Ask EduSphere to correct the Draft.

“This record was changed by someone else...”

- **Possible Cause:** The career record was saved elsewhere while your form was open.
- **Resolution:** Copy what you need, click **Discard my changes and reload**, and edit again.
- **When to Contact Administrator:** Not needed.

A wrong psychometric report address was attached

- **Possible Cause:** The address cannot be changed after attaching.
- **Resolution:** None on screen.
- **When to Contact Administrator:** Always; contact EduSphere support.

Parents

“No child linked to your account yet.”

- **Possible Cause:** The school has not linked you to your child.
- **Resolution:** None on screen.
- **When to Contact Administrator:** Always; contact the School Coordinator.

The unread count never goes down

- **Possible Cause:** Opening a notification from the parent pages does not mark it read (U8).
- **Resolution:** None; the count includes notifications you have already read.

- **When to Contact Administrator:** Not needed.

“Upcoming session” message shows an odd time

- **Possible Cause:** The time inside the message is UTC (U9).
- **Resolution:** Use **Upcoming sessions** on the dashboard (IST).
- **When to Contact Administrator:** Not needed.

Administrators

“Access unavailable — Workspace not found” (Super Admin)

- **Possible Cause:** Schools, School Staff and School Applications are built only for the Overseas Admin.
- **Resolution:** Ask an Overseas Admin to make the change.
- **When to Contact Administrator:** Not applicable.

A Coordinator or specialist did not receive the welcome email

- **Possible Cause:** Email was not configured or delivery failed (the success message turns amber).
- **Resolution:** **Users > Re-send link** (see Re-send a set-password link (*see the Administrator Manual*)).
- **When to Contact Administrator:** The re-sent email also does not arrive; check the email setup.

School application refused with a tier message

- **Possible Cause:** Application support needs Gold or Platinum.
- **Resolution:** Upgrade the school’s tier first (see Edit school and tier (*see the Administrator Manual*)).
- **When to Contact Administrator:** Not applicable.
