Overseas Counselor CRM — Admin Manual

For the **Overseas Admin**, who creates counselors, assigns students and applications to them, watches their overdue work and configures the counselor tools. There is also a section on what the **Super Admin** can and can't do. Checked against `main` @ `045d8c40`.

Counselor accounts and assignment

Page	What it covers
Create a counselor account	New counselor with a welcome link
Manage counselor users	Set-up status, re-send link, edit, deactivate
Assign or change a student's counselor	With a reason when changing
Assign or change an application's counselor	Including new agency applications

Oversight

Page	What it covers
Counselor tasks (admin view)	Every counselor's tasks; giving a counselor a task
Overdue by counselor and the escalation notice	Who is behind
Team performance	Counselors compared
One counselor's report	One counselor in detail

Configuration

Page	What it covers
Document checklist templates	Required documents and the Ready-for-Submission gate
Reminder rules	Automatic tasks and notices
Counselor message templates	WhatsApp and email starters
Archived students: restore	Bring back an archived student

Super Admin: what is different

Topic	Super Admin
Creating a counselor	On **Users**, **Division** starts on **it**; choose **overseas** or the counselor can't use the Overseas portal (details)
Assigning counselors to students or applications	Not available: no **EduSphere counsellor** column, and the server refuses
Counselor tasks, performance, checklists, reminder rules, message templates	Open by address only (not in the Super Admin sidebar); the page shows the Overseas Admin's sidebar

Topic	Super Admin
Counselor workspace pages (Leads, Dashboard)	Open, but show “Unable to load your leads.” / “Dashboard sections are unavailable right now.” instead of an access message
Archived students / restore	Refused (“Overseas Administrator role required”)
Escalation notices	Not received; only Overseas Admins are told (by email; the admin portal has no notifications page)

Things to know

- **Moving a lead between counselors** isn’t possible from any screen. A counselor can return a lead to its telecaller, who can hand it to another counselor.
- **Deactivating a counselor** happens at once, with no warning, and doesn’t move their leads, students, applications or tasks. Reassign students and applications before or after deactivating.
- **New agency applications** arrive with no counselor and nobody is alerted. Filter Application Tracking by **Counsellor = Not assigned** every day.
- The **Manage users** table is wider than its panel at normal desktop widths; scroll it sideways to reach the buttons.

Create a counselor account

> Doc ID: DOC-CNS-ADM-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Overseas Admin, Super Admin

Purpose

Give a new Overseas counselor their own EduSphere account. The counselor receives an email with a link to set their password, and can then sign in to the Overseas portal.

Who Can Use This Feature

- **Overseas Admin**: on **Counselors** or **Users**.
- **Super Admin**: on **Users** in the administration portal.

What each role sees

	Overseas Admin	Super Admin
Where	**Counselors** (or **Users**)	**Users** (`/admin/users`)
Division	Fixed to **overseas**	Starts on **it**; you must choose **overseas**
Role options	overseas student, counselor, university rep, agent, overseas admin	All roles in every division

Prerequisites

- You are signed in as an Overseas Admin (Overseas portal) or Super Admin (`/admin/login`).
- The counselor's email address is not used by any other EduSphere account.

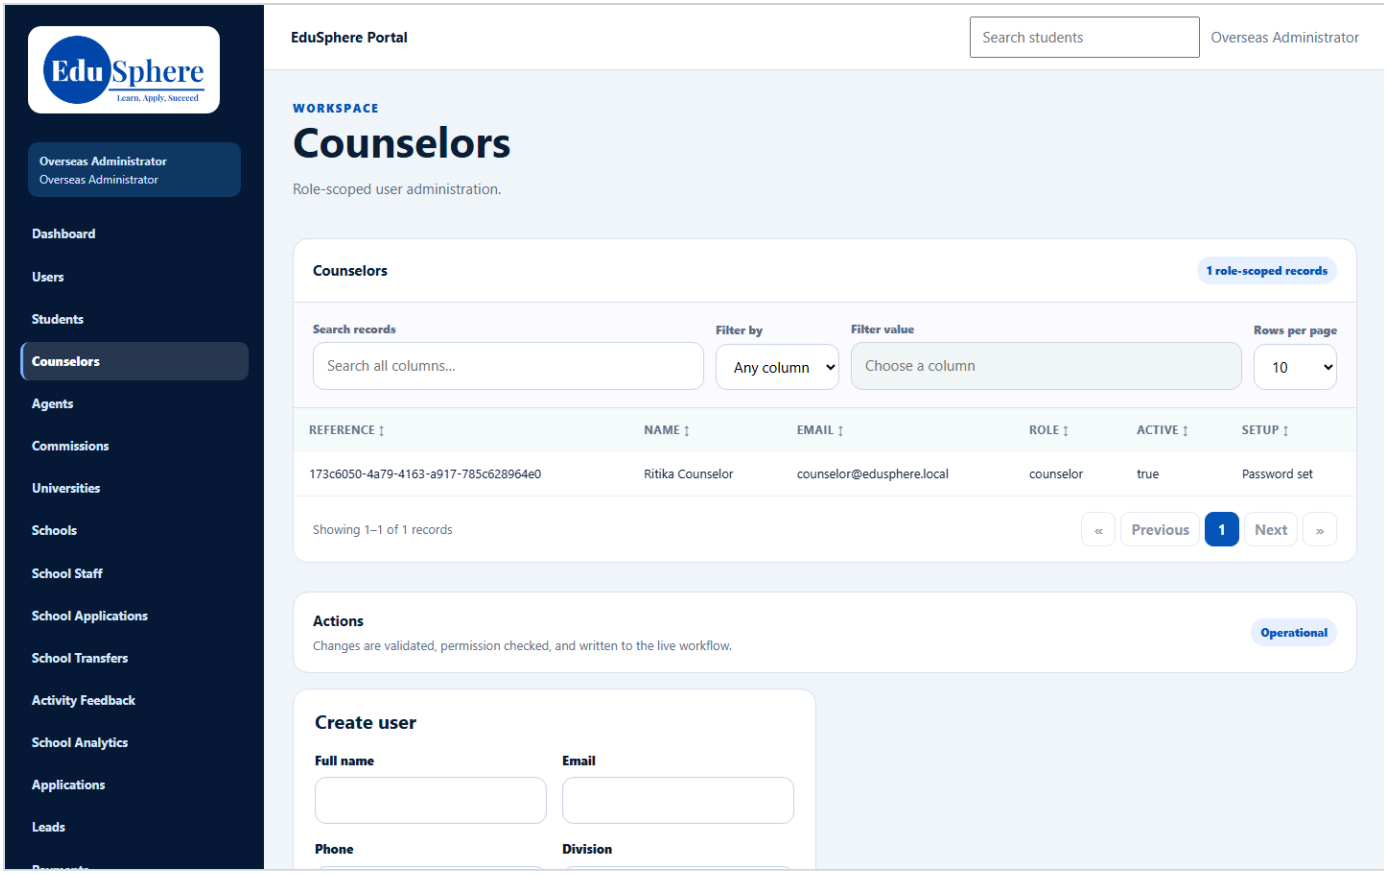

How to Access

- Overseas Admin: sidebar **Counselors**. The **Create user** form is below the counselor list.
- Super Admin: sidebar **Users**.

Steps

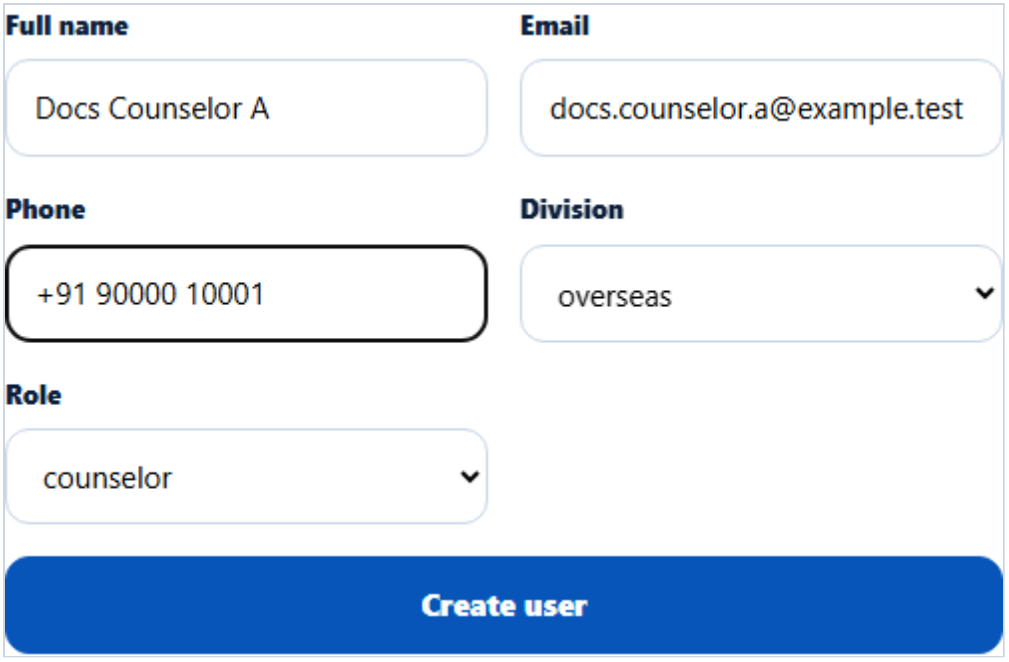

Step 1 — Open Counselors

In the sidebar, select **Counselors**. The table lists every counselor with their **Setup** state: **Password set** or **Awaiting setup**.

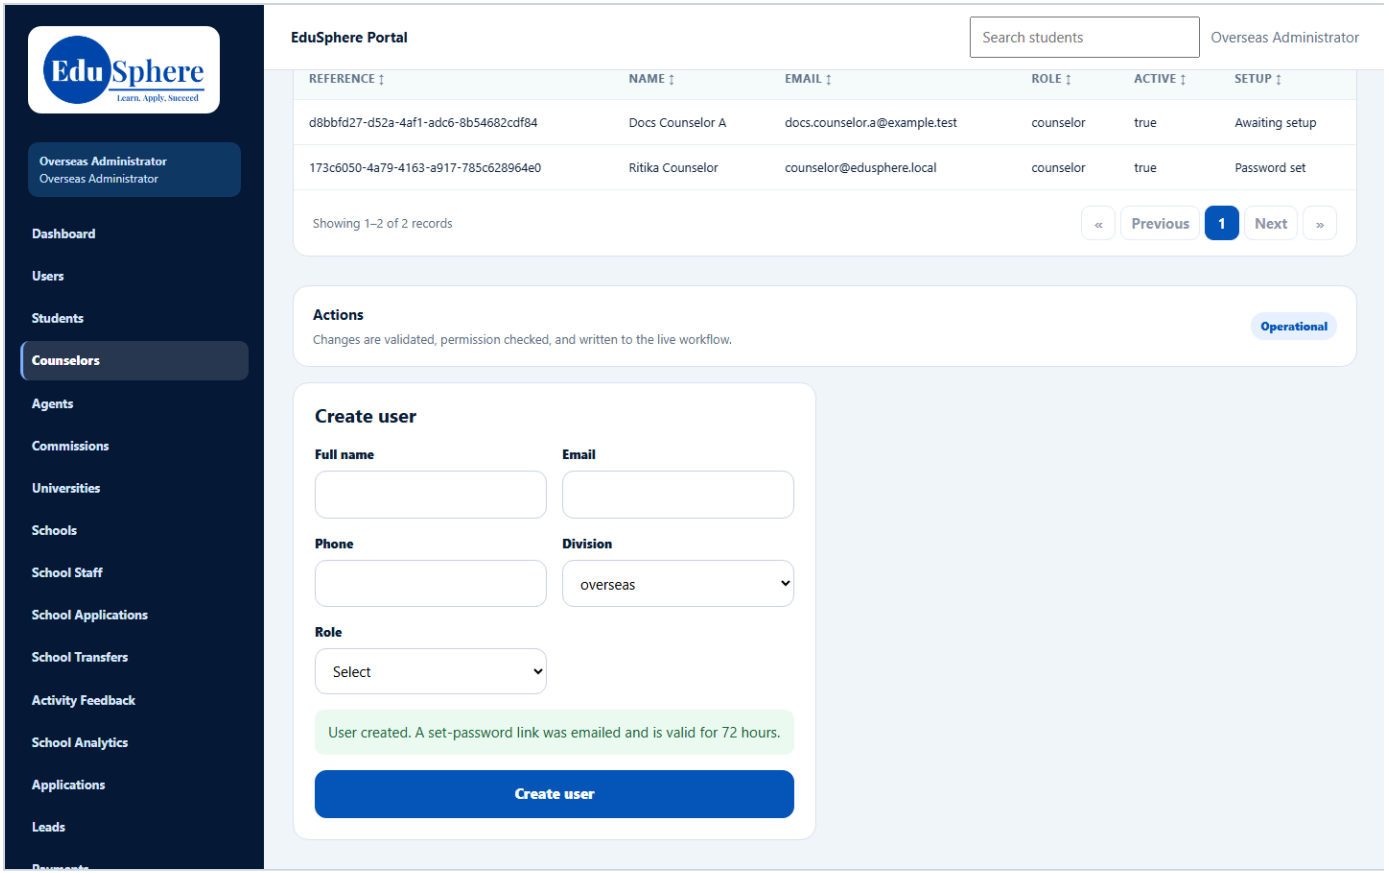

Step 2 — Fill in the Create user form

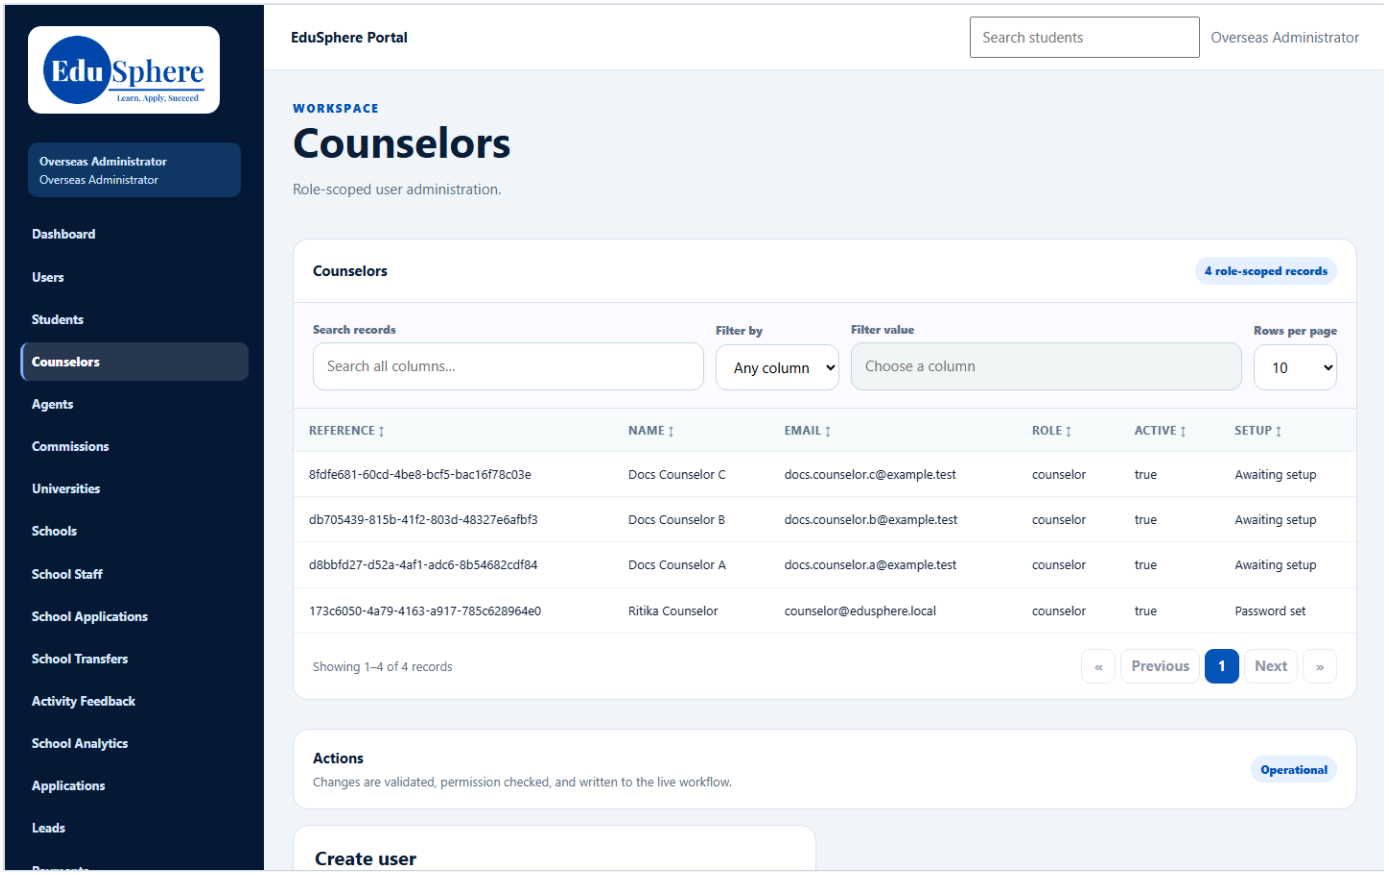

In **Create user**, enter the counselor's **Full name**, **Email** and **Phone**. Leave **Division** on **overseas** and choose **counselor** in **Role**.

Step 3 — Create the account

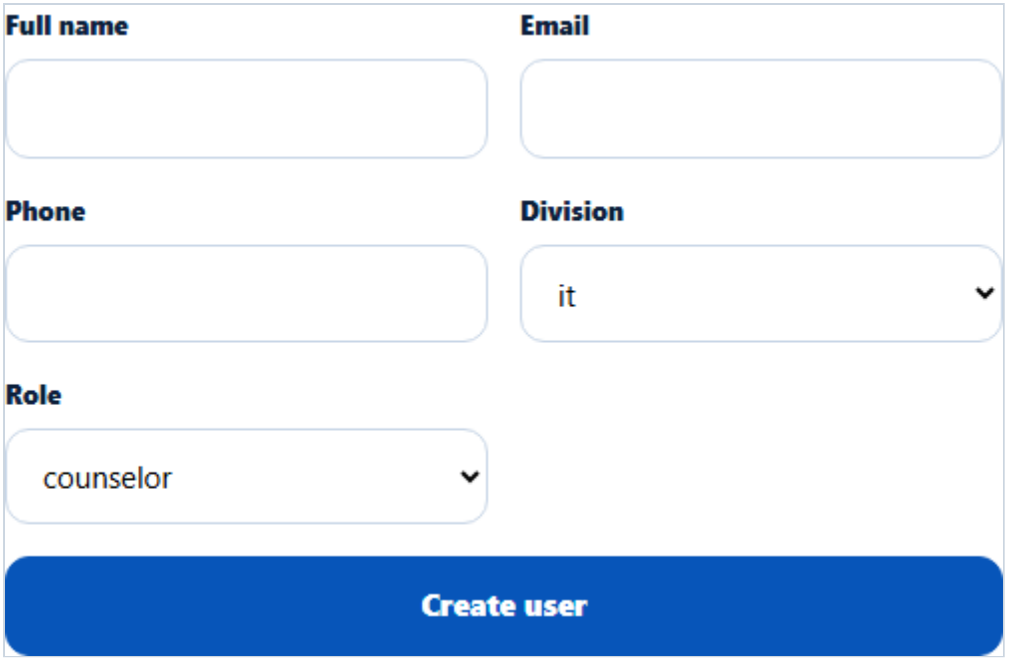

Select **Create user**. The message **User created. A set-password link was emailed and is valid for 72 hours.** appears under the form, and the new counselor appears in the list with **Awaiting setup**.

Step 4 (Super Admin only) — Choose the Overseas division

On `/admin/users` the **Division** list starts on **it**. Choose **overseas** before you select **counselor**. If you leave **it**, the account becomes an IT counselor, who cannot sign in to the Overseas portal.

Fields

Field	Description	Required	Example
Full name	The counselor's name as it appears to students and colleagues	Yes	Docs Counselor A
Email	Sign-in email; the set-password link goes here	Yes	docs.counselor.a@example.test
Phone	Contact number	No	+91 90000 10001
Division	**overseas** for Overseas counselors (fixed for the Overseas Admin)	Yes	overseas
Role	Choose **counselor**	Yes	counselor

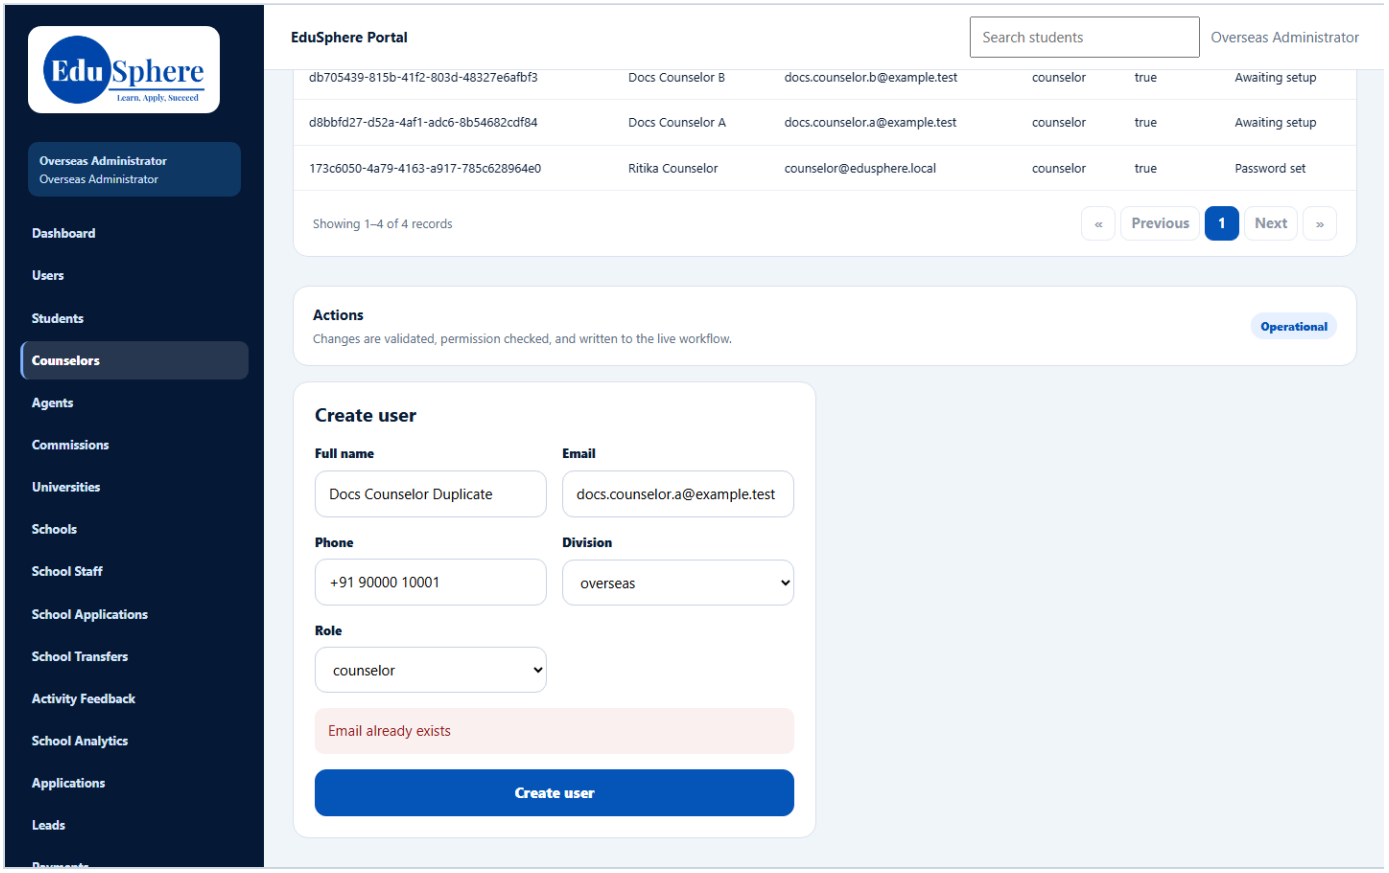

Expected Result

- The account exists with **Awaiting setup**.
- A welcome email with a set-password link (valid for 72 hours) is sent to the counselor.
- Once the counselor sets a password, the Setup state changes to **Password set**. See Set your first password *(see the User Manual)*.

Validation Messages

Message	When
User created. A set-password link was emailed and is valid for 72 hours.	Success
User created. The email was not delivered (…). Re-send the link from the Users page or dashboard once email works, or ask the user to use "Forgot your password?" on the sign-in page.	The account was created but email could not be sent

Message	When
Email already exists	Another account already uses this email
Cannot create users in another division	An Overseas Admin tried to create a user outside Overseas
Role is not valid for the selected division	The role does not exist in the chosen division

Email already exists message

Common Errors

Problem: “Email already exists”. **Cause:** The address belongs to another account, which may be inactive. **Resolution:** Search for it on **Users**. Reactivate that account or use a different email.

Problem: The new counselor cannot sign in at the Overseas portal. **Cause:** A Super Admin created the account with **Division** left on **it**. **Resolution:** Create the account again with **overseas**, or ask an Overseas Admin to create it.

Problem: The counselor did not get the email. **Resolution:** Re-send the link from **Users**. See Manage counselor users.

Tips

- The counselor table shows an internal **reference** code and **true/false** in **Active**; you do not need either to create a counselor.
- Creating the account does not give the counselor any students or leads. Assign them afterwards (see Related Features).

Related Features

- Manage counselor users
- Assign or change a student’s counselor
- Assign or change an application’s counselor

Manage counselor users: set-up status, re-send link, edit, deactivate

> Doc ID: DOC-CNS-ADM-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Overseas Admin, Super Admin

Purpose

Find counselors who have not yet set their password, re-send their set-password link, correct their details, and deactivate an account when a counselor leaves.

Who Can Use This Feature

- **Overseas Admin**: the **Manage users** panel is on **Users** only. The **Counselors** page has the create form but no Manage users panel.
- **Super Admin**: the same panel on the administration portal's user pages.

Prerequisites

- At least one counselor account exists. See Create a counselor account.

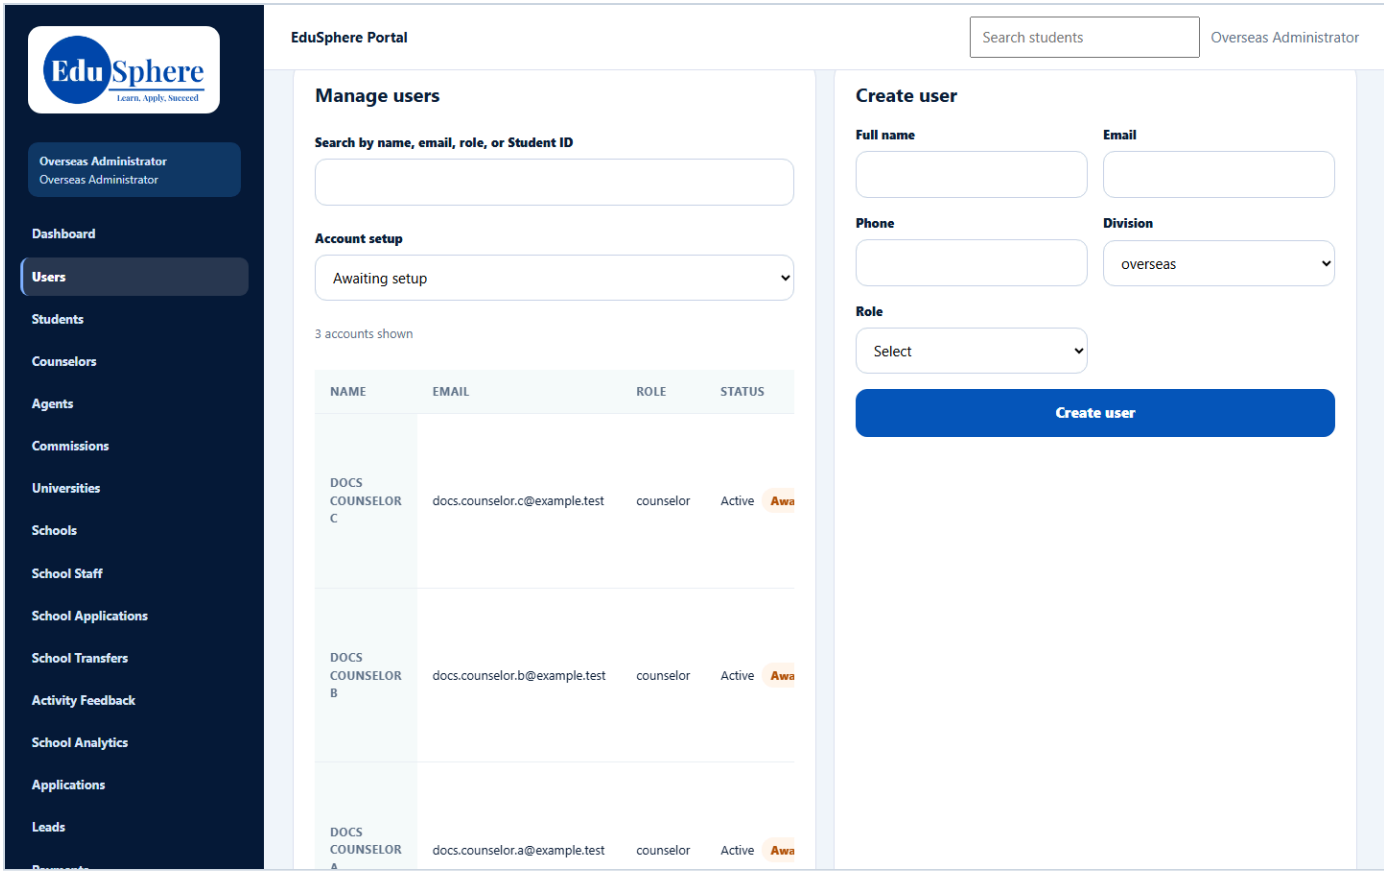

How to Access

Sidebar **Users** → scroll to **Manage users**.

Steps

Step 1 — Find counselors awaiting set-up

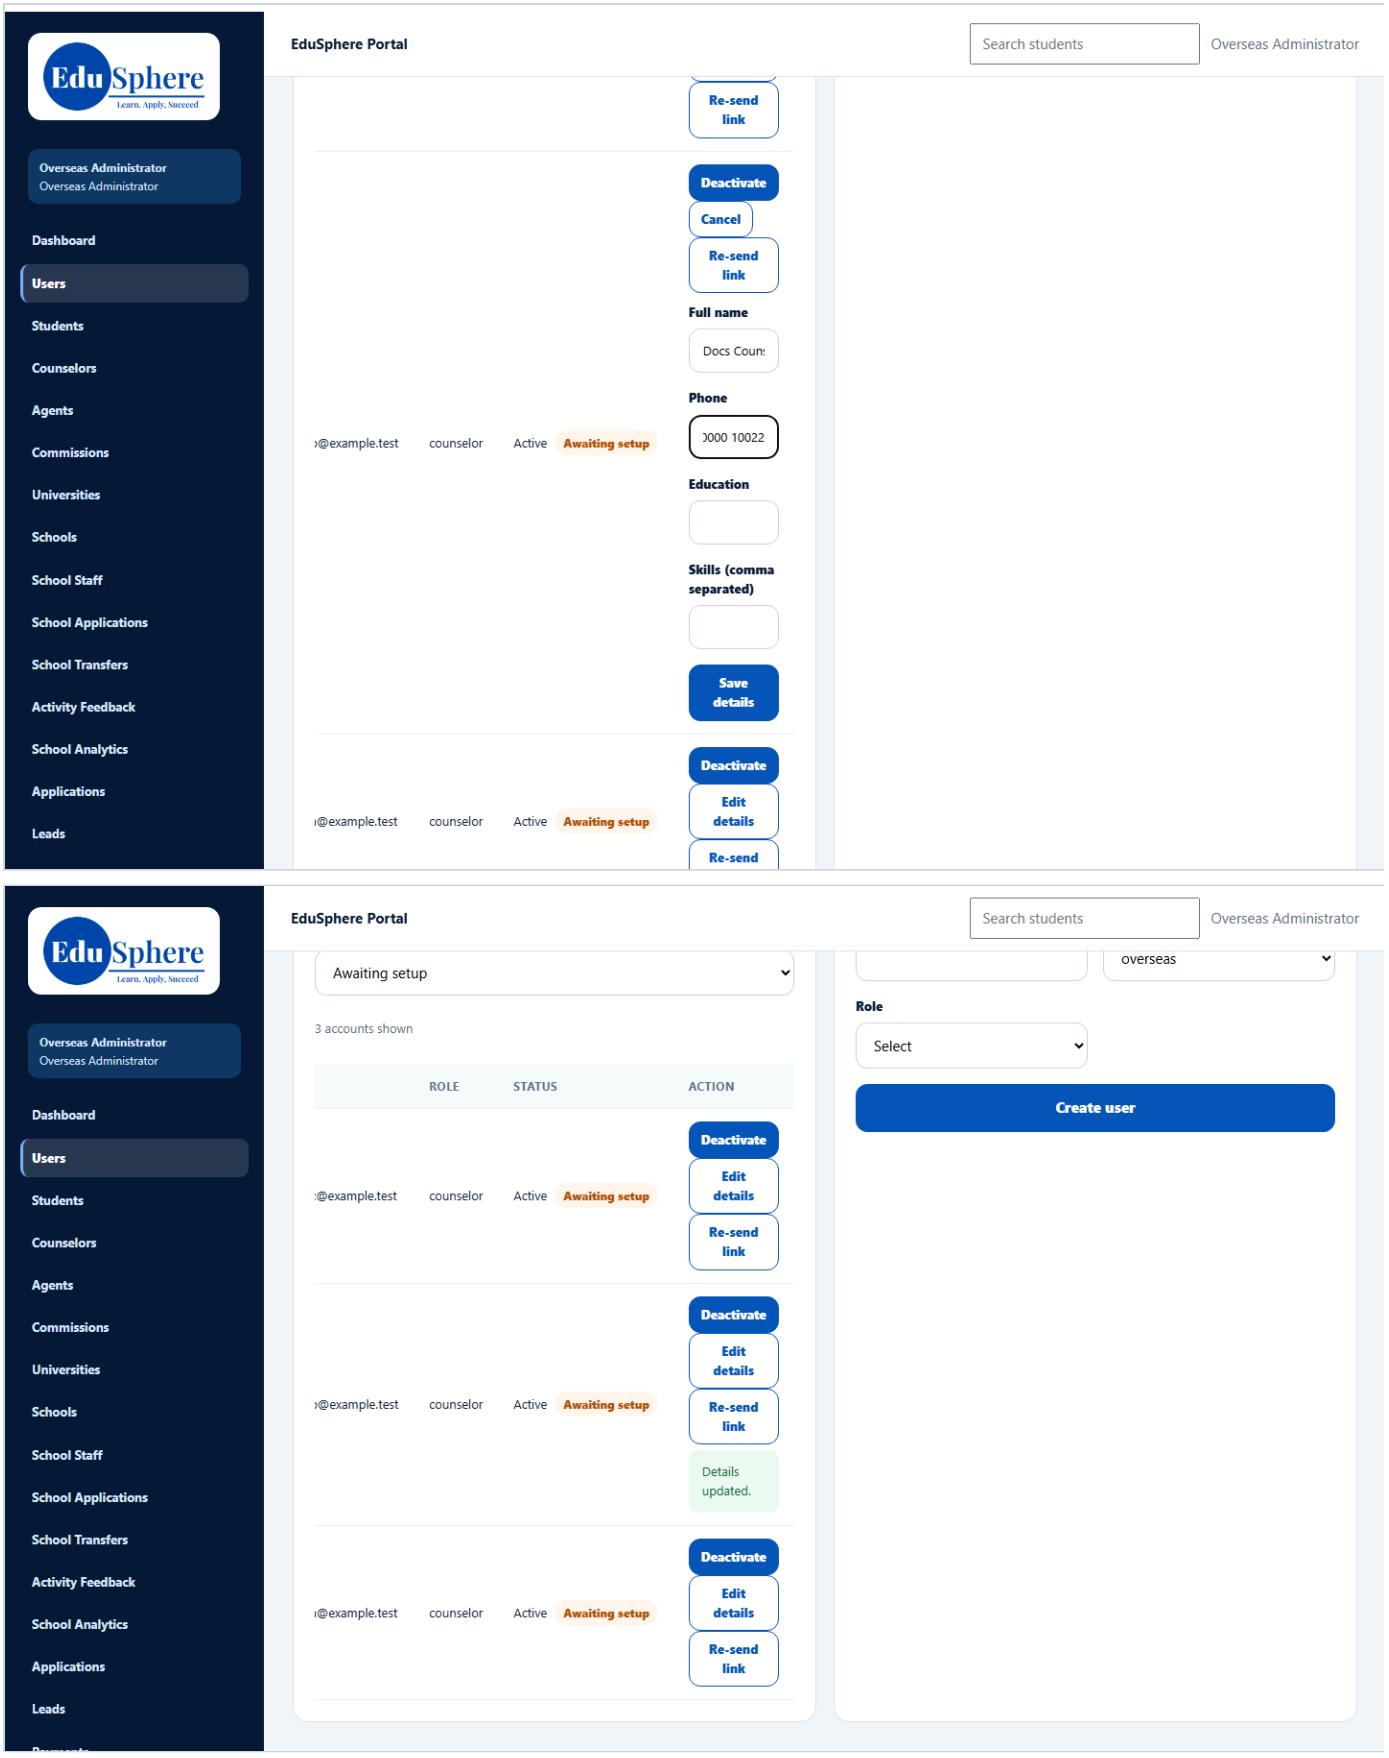

In **Manage users**, set **Account setup** to **Awaiting setup**. The count above the table (for example, **3 accounts shown**) updates. Use **Search by name, email, role, or Student ID** to find one person.

> The Manage users table is wider than its panel at normal desktop widths. Scroll it sideways to reach the **Status** and **Action** columns. When you act on a row, the table scrolls so that the **Action** column is in view and the name column is hidden.

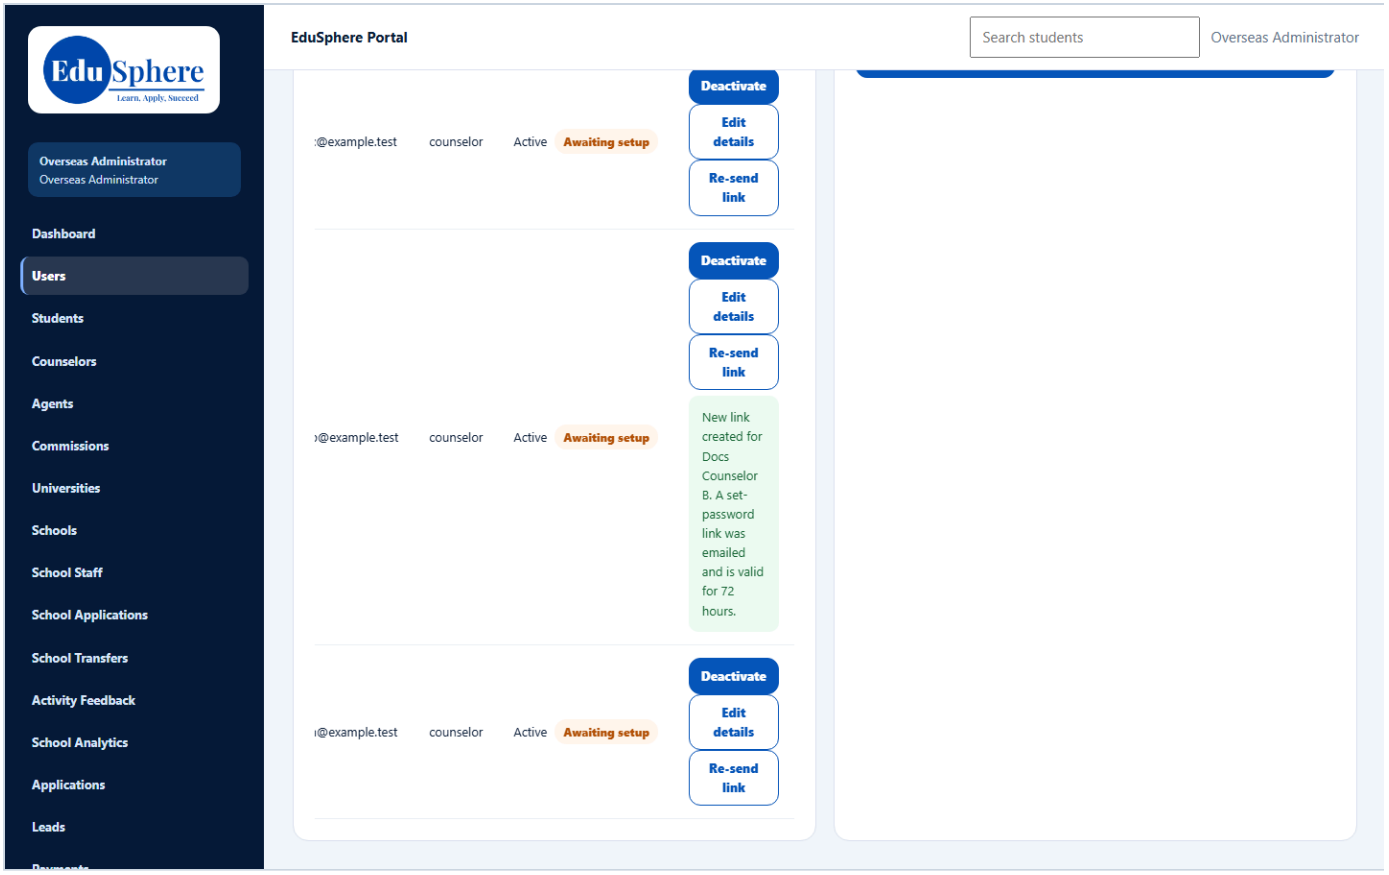

Step 2 — Edit details

In the counselor's row, select **Edit details**. Change **Full name**, **Phone**, **Education** or **Skills (comma separated)**, then select **Save details**. **Details updated.** appears in the row. Select **Cancel** to close without saving.

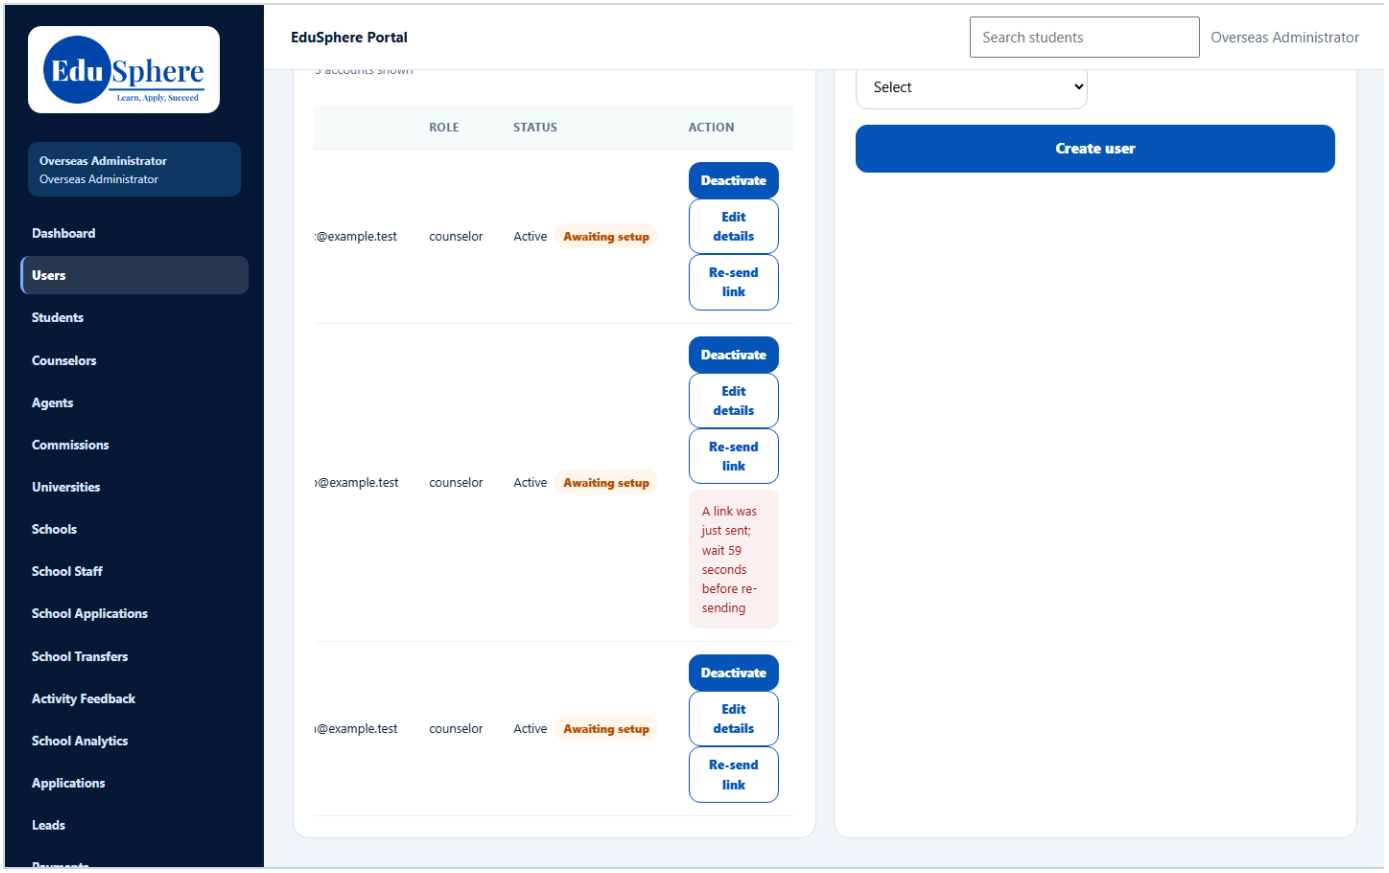

Step 3 — Re-send the set-password link

In the row of a counselor who is **Awaiting setup** (or whose link has expired), select **Re-send link**. The message **New link created for {name}. A set-password link was emailed and is valid for 72 hours.** appears. The earlier link stops working.

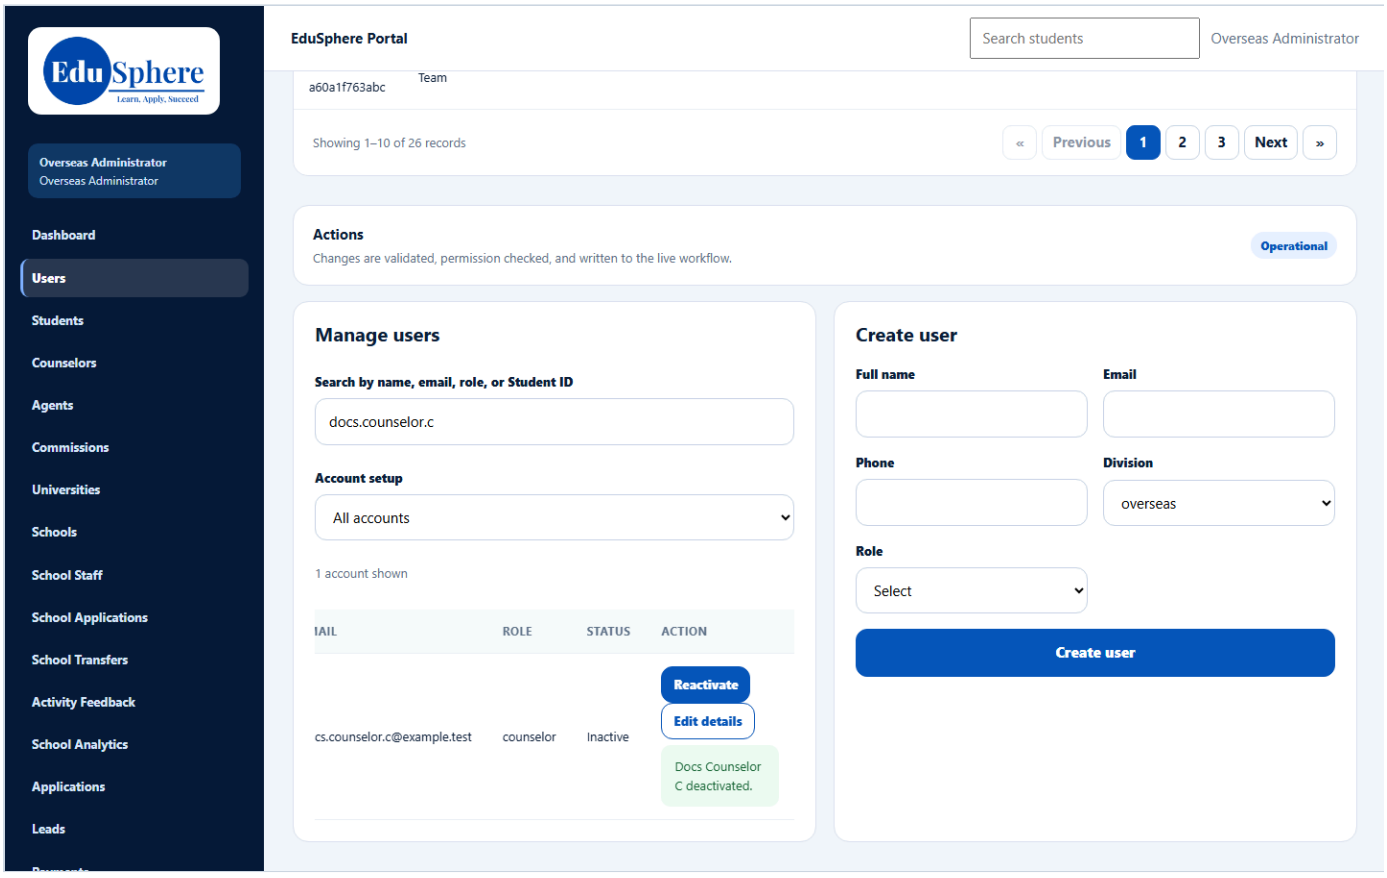

If you select **Re-send link** again within a minute, you see **A link was just sent; wait {n} seconds before re-sending**.

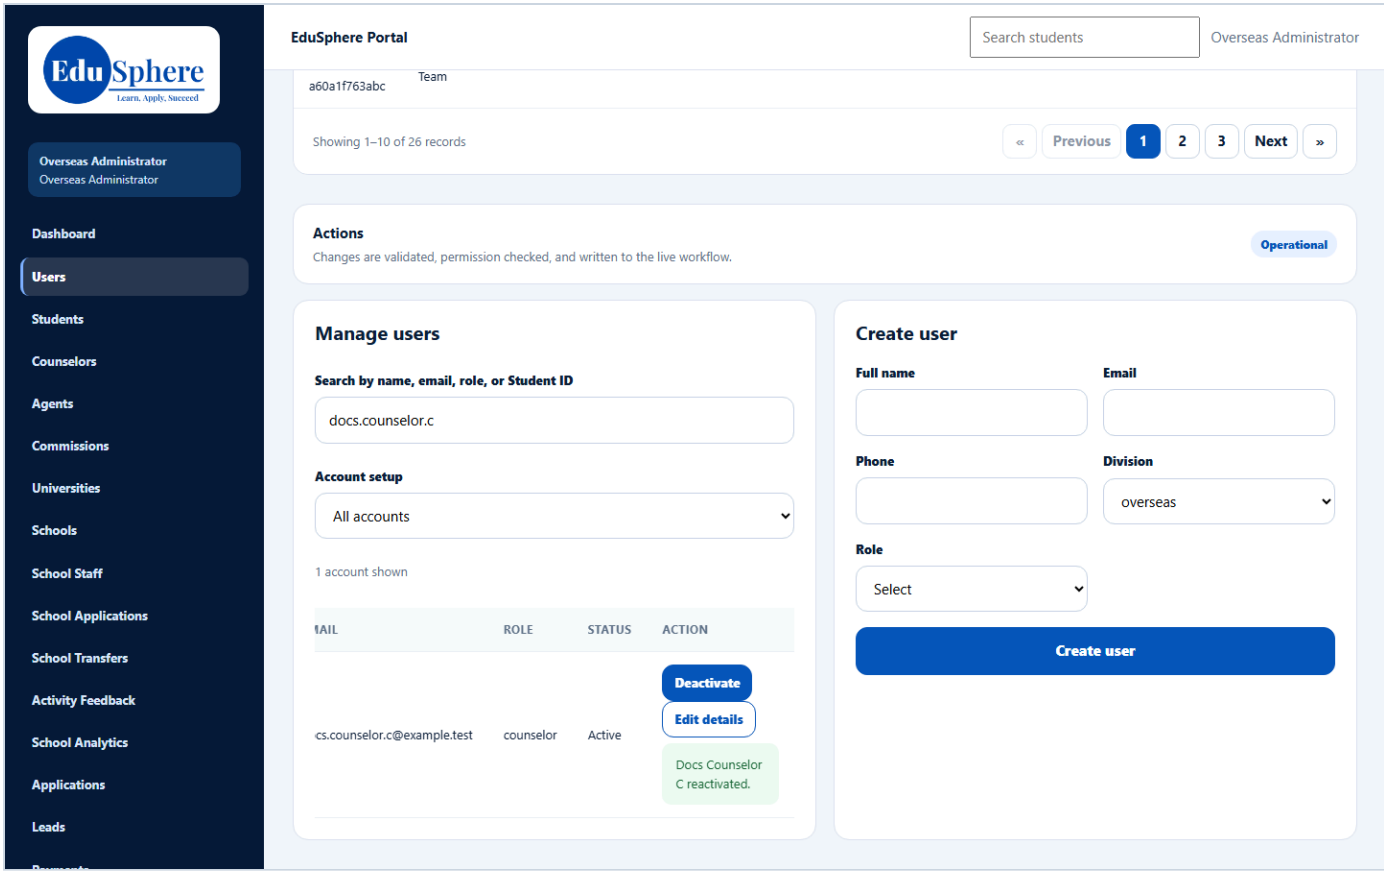

Step 4 — Deactivate or reactivate a counselor

Select **Deactivate** in the counselor's row. For a counselor it happens straight away, with no confirmation: **{name} deactivated.** appears and **Status** shows **Inactive**. (For some other roles with open work, EduSphere first warns and asks you to **Confirm deactivate**.)

A deactivated counselor can't sign in ("Invalid credentials"). Select **Reactivate** to restore access; **{name} reactivated.** appears.

Any change to active or inactive cancels open set-password links. Deactivation does **not** move the counselor's leads, students, applications or tasks to anyone else, so reassign them first.

Fields

Field	Description	Required	Example
Search by name, email, role, or Student ID	Narrows the table as you type	No	docs.counselor
Account setup	**All accounts**, **Awaiting setup** or **Link expired**	No	Awaiting setup
Full name (Edit details)	Display name	Yes	Docs Counselor B
Phone (Edit details)	Contact number	No	+91 90000 10022
Education / Skills (Edit details)	Optional profile details	No	—

Expected Result

- Details are saved and shown immediately.
- A re-sent link arrives by email and is valid for 72 hours; the status stays **Awaiting setup** until the counselor sets a password.

Validation Messages

Message	When
Details updated.	Edit saved

Message	When
New link created for {name}. A set-password link was emailed and is valid for 72 hours.	Link re-sent
A link was just sent; wait {n} seconds before re-sending	Re-sent less than a minute ago
This account has no pending invitation (its password is already set)	The counselor has already set a password; they can use **Forgot your password?** instead
Reactivate this account before re-sending its link	The account is inactive
Cannot manage another division / Cannot edit another division	An Overseas Admin acting on a non-Overseas account

Common Errors

Problem: The **Action** buttons are not visible. **Cause:** The table is wider than its panel. **Resolution:** Scroll the table to the right.

Problem: “This account has no pending invitation”. **Resolution:** The counselor has already set a password. Ask them to use **Forgot your password?** on the sign-in page.

Problem: A deactivated counselor’s students and leads still show their name. **Cause:** Deactivation does not reassign work. **Resolution:** Reassign the students and applications before or after deactivating. See Related Features.

Tips

- Use **Link expired** each week to catch counselors who never finished set-up.
- The **Counselors** page shows the same **Setup** state, but it has no re-send or deactivate buttons; use **Users**.

Related Features

- Create a counselor account
- Assign or change a student’s counselor
- Assign or change an application’s counselor
- Set your first password *(see the User Manual)*

Assign or change a student's counselor

> Doc ID: DOC-CNS-ADM-003 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Overseas Admin

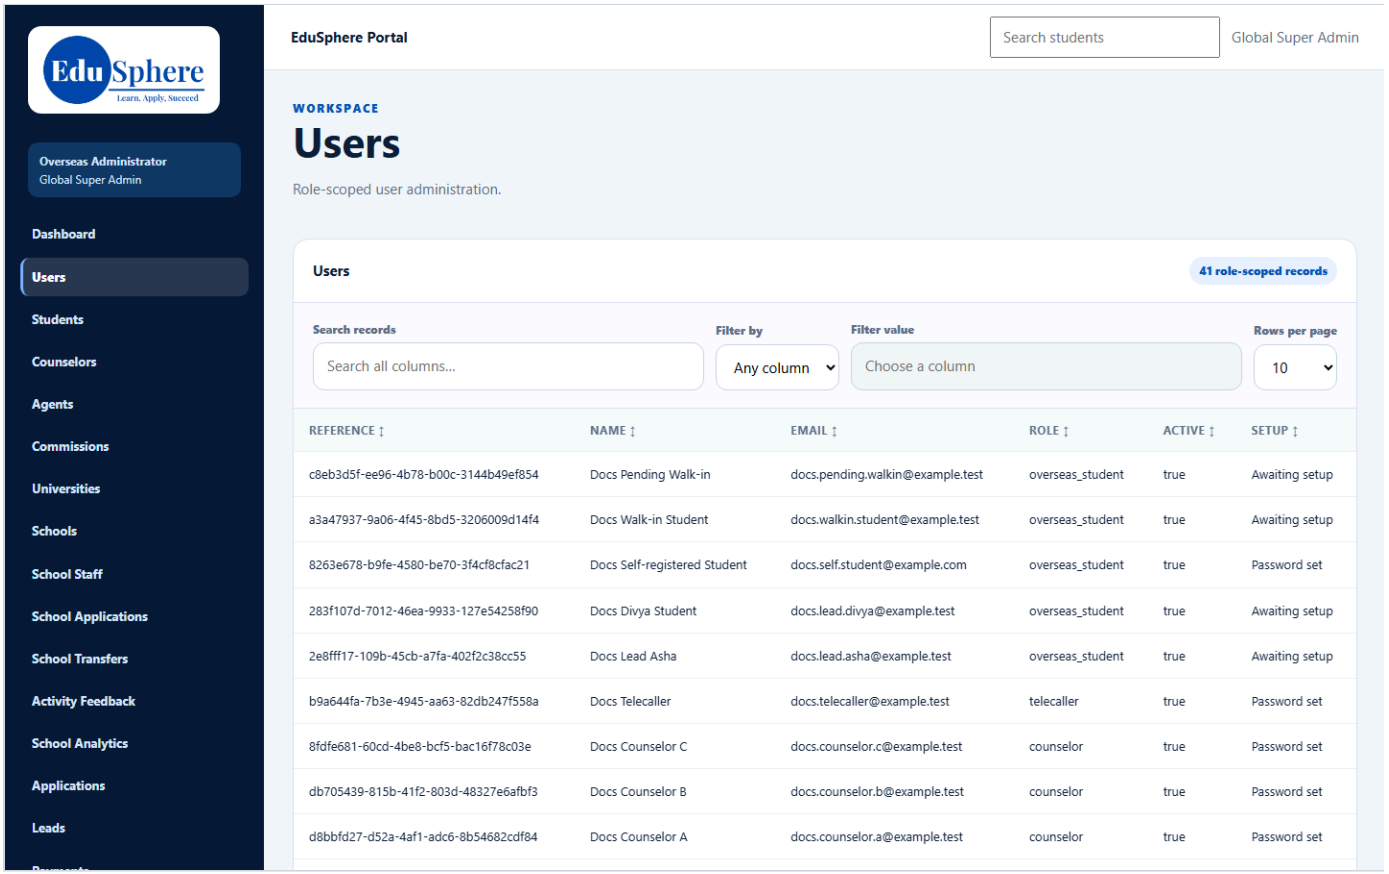

Purpose

Give a student an EduSphere counselor, or move them to another counselor with a recorded reason.

Who Can Use This Feature

What each role sees

	Overseas Admin	Super Admin
EduSphere counsellor column	Yes, with **Assign counsellor** / **Change counsellor**	No column; can't assign

Super Admin's users table without the counsellor column

Prerequisites

The counselor is an active Overseas counselor.

How to Access

Sidebar **Users** → the overseas student's row → **EduSphere counsellor** column.

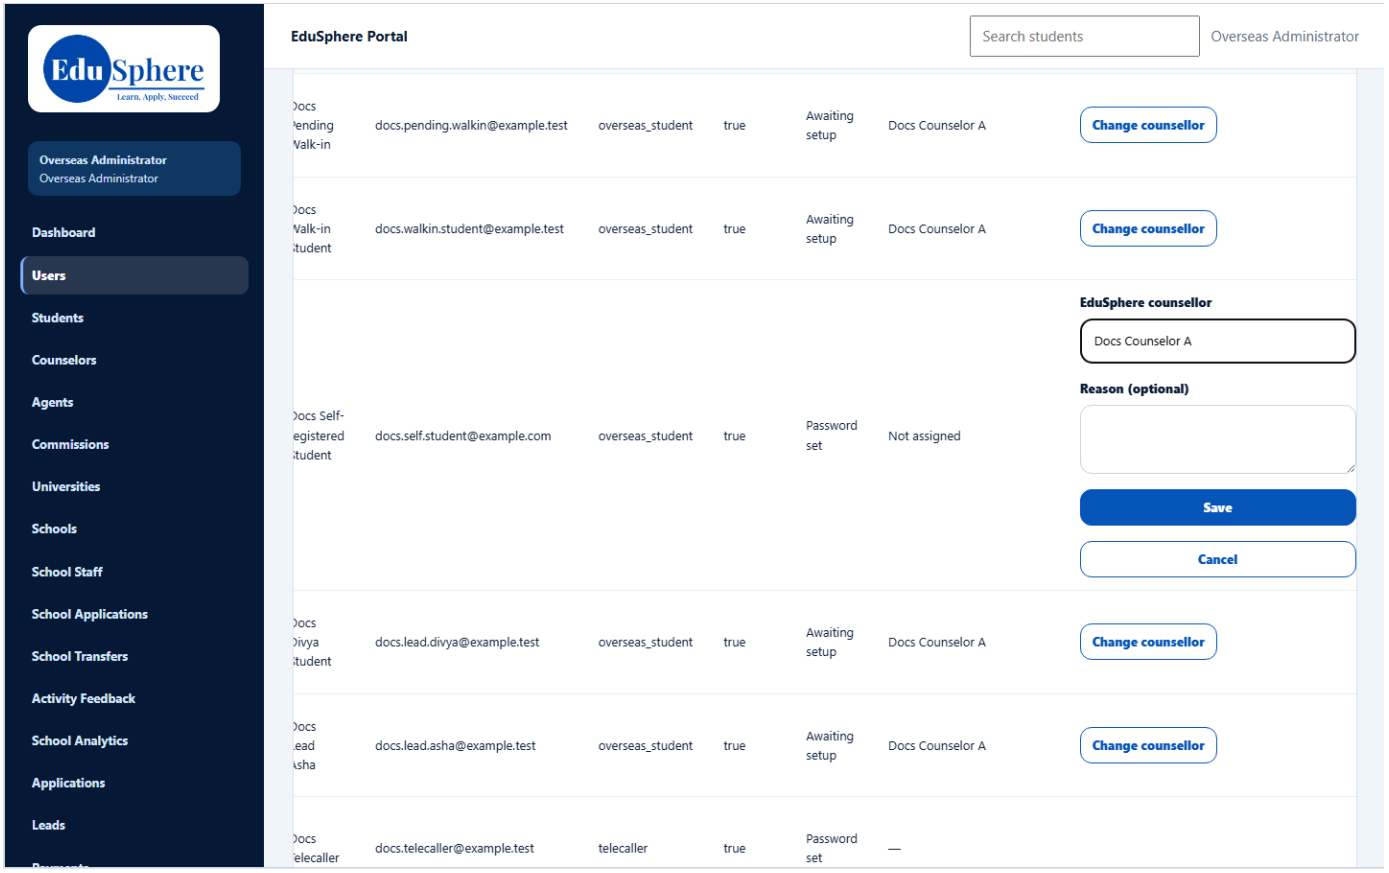

Steps

Step 1 — Find the student

Use **Search records** to find the student. **EduSphere counsellor** shows their counselor or **Not assigned**.

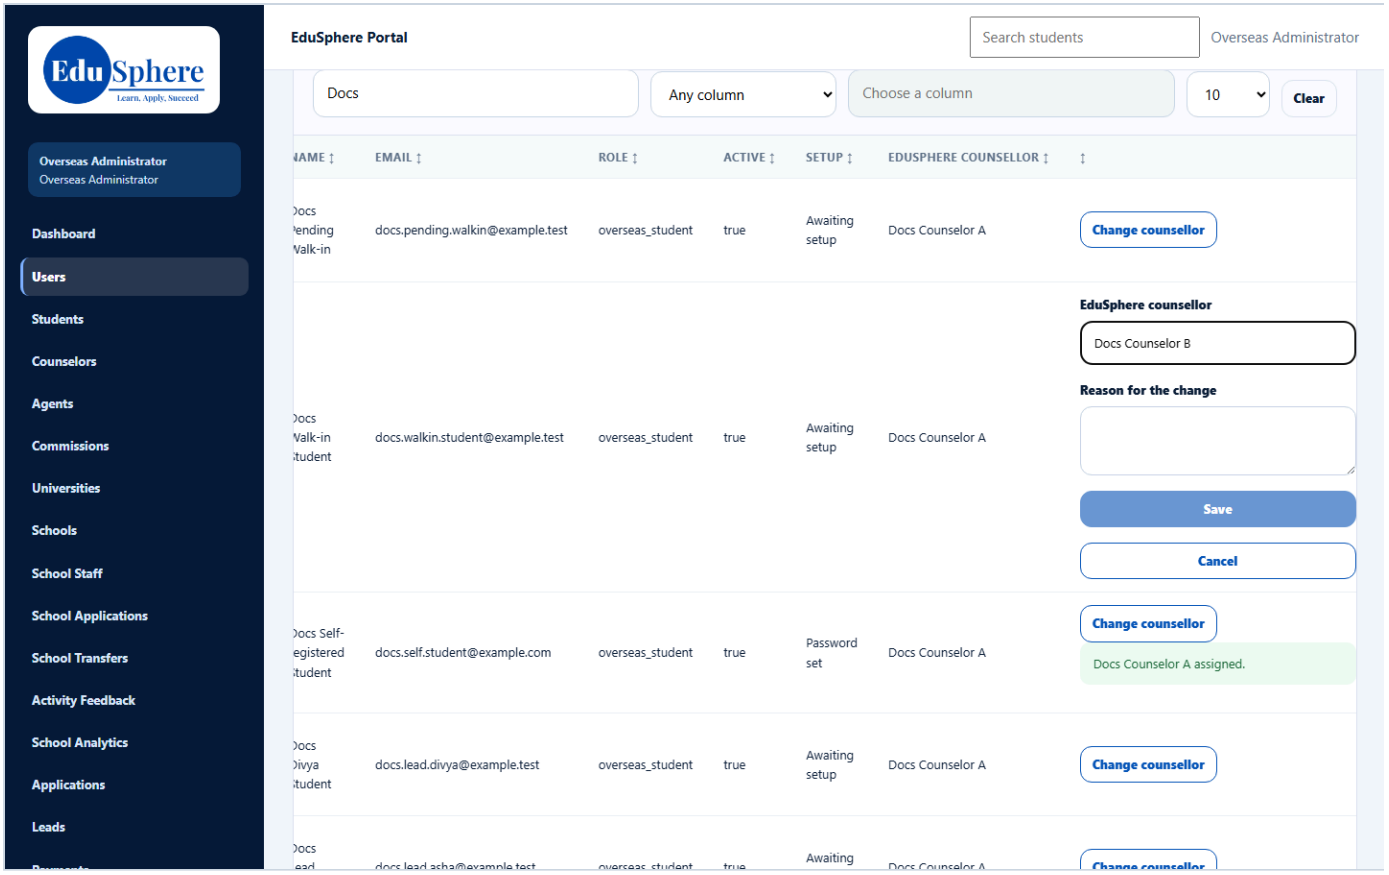

Step 2 — Assign a first counselor

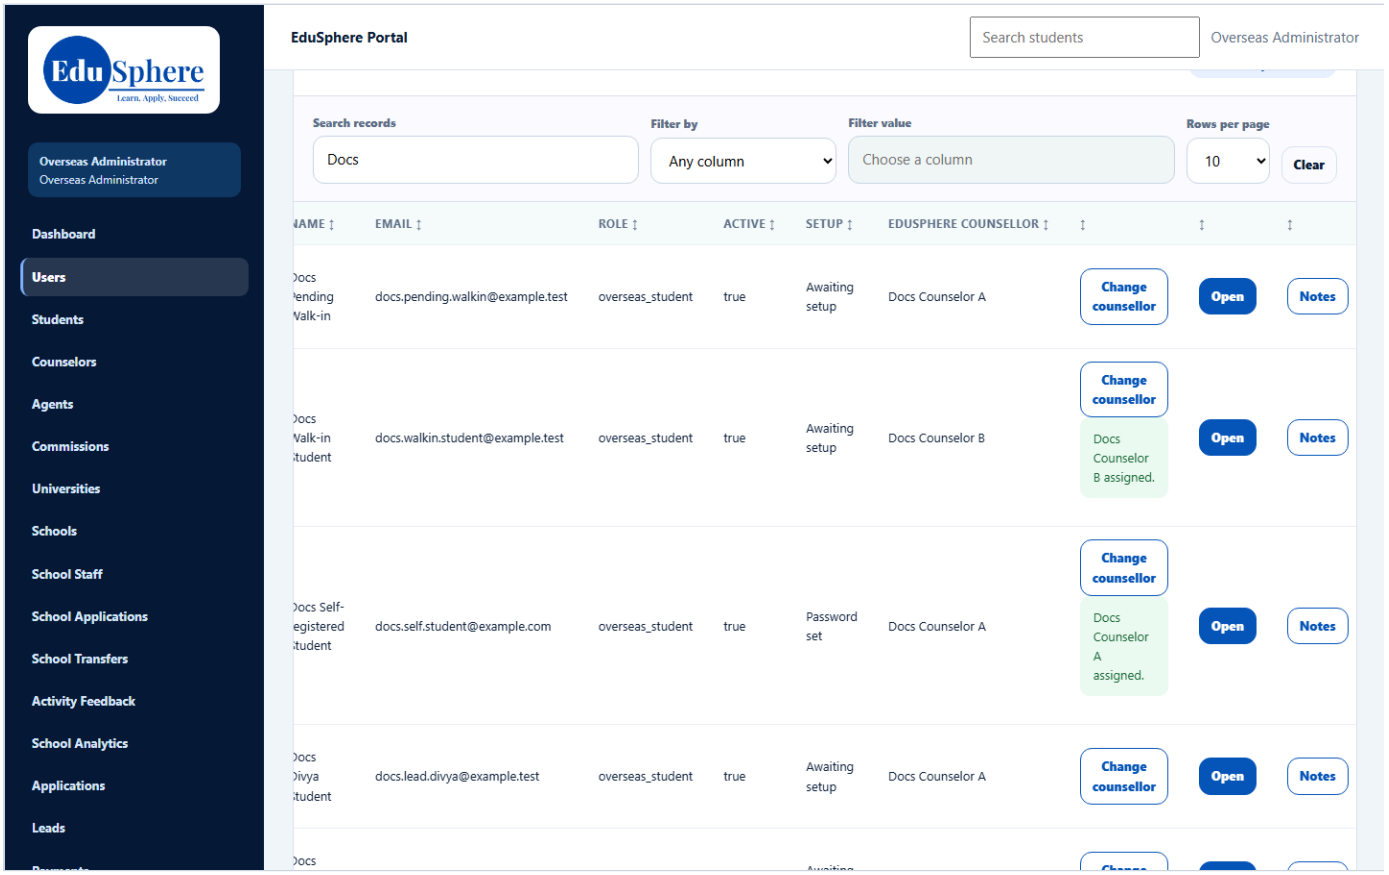

Select **Assign counsellor**. Type in **EduSphere counsellor** and pick the counselor. **Reason (optional)** can be left empty. Select **Save**. **{counselor} assigned.** appears.

Step 3 — Change the counselor

Select **Change counsellor** and pick the new counselor. **Reason for the change** is required, and **Save** stays disabled until you enter one.

Fields

Field	Description	Required	Example
EduSphere counsellor	An active Overseas counselor	Yes	Docs Counselor B

Field	Description	Required	Example
Reason (optional) / Reason for the change	Why; required when replacing a counselor	When changing	Balancing caseloads this week.

Expected Result

- The student moves to the new counselor's **My students**. The previous counselor keeps seeing them while any of the student's applications is still assigned to them, so reassign those applications too (ADM-004).
- Both counselors get a notice by email (counselors have no notifications page in the portal).
- The reason is shown in the student's **History**.

Validation Messages

Message	When
{counselor} assigned.	Success
Give a reason for the reassignment	Changing without a reason
Choose an active overseas counselor	Invalid counselor
Only the Overseas Admin can assign a counselor	Any other role

Tips

- Write reasons the counselors will understand; they read them in History.

Related Features

- Assign or change an application's counselor
- When a student is reassigned (counselor view) *(see the User Manual)*

Assign or change an application’s counselor

> Doc ID: DOC-CNS-ADM-004 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Overseas Admin

Purpose

Decide which counselor handles an application, including agency applications that arrive with no counselor.

Who Can Use This Feature

The Overseas Admin. The Super Admin can’t assign counselors.

Prerequisites

The application is open (not enrolled, withdrawn, or closed by an outcome such as Rejected or Visa refused).

How to Access

Sidebar **Applications** (or **Students**). The page title is **Application Tracking**, and the **EduSphere counsellor** column has the controls.

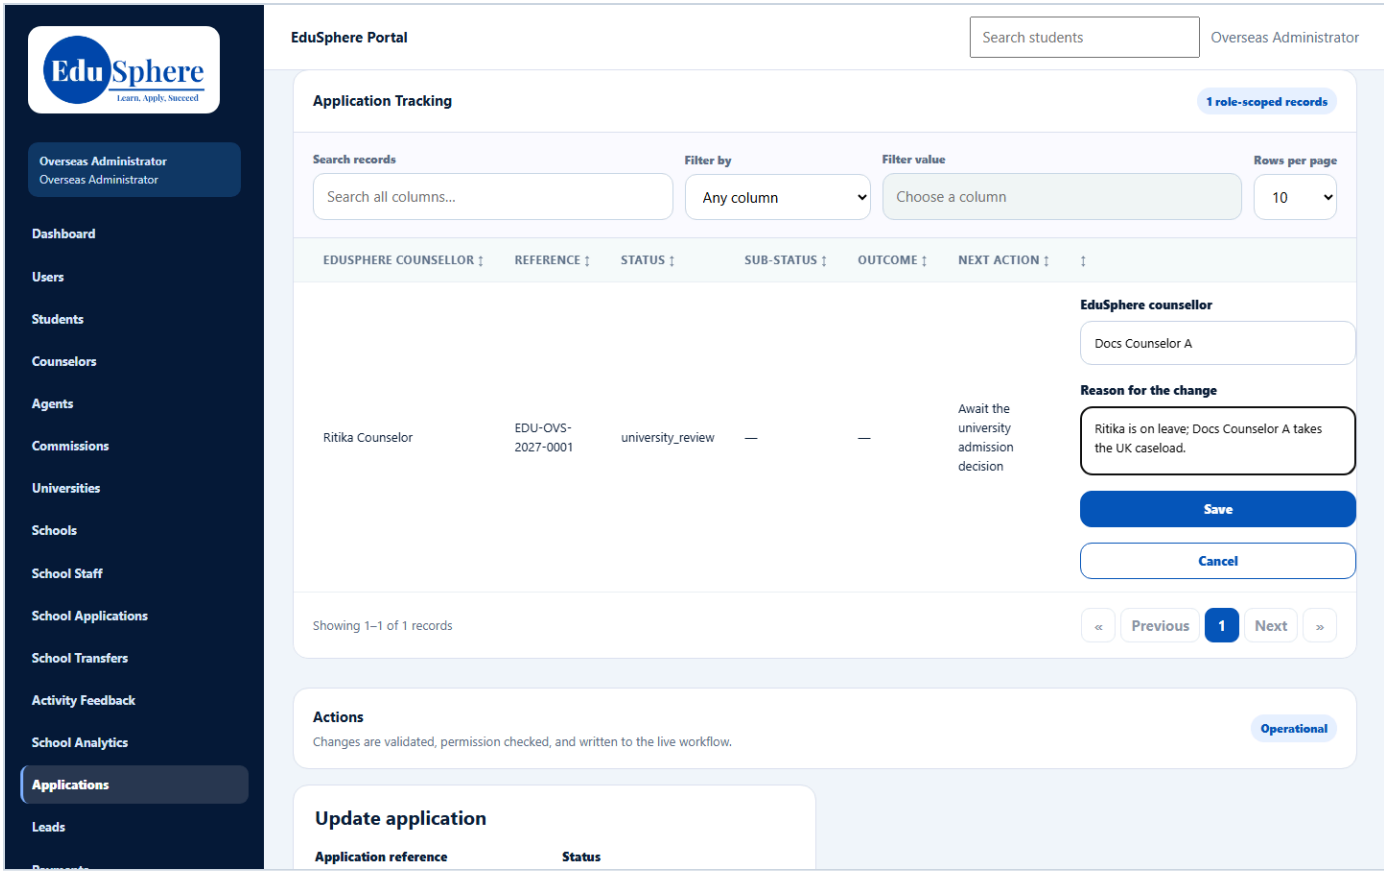

Steps

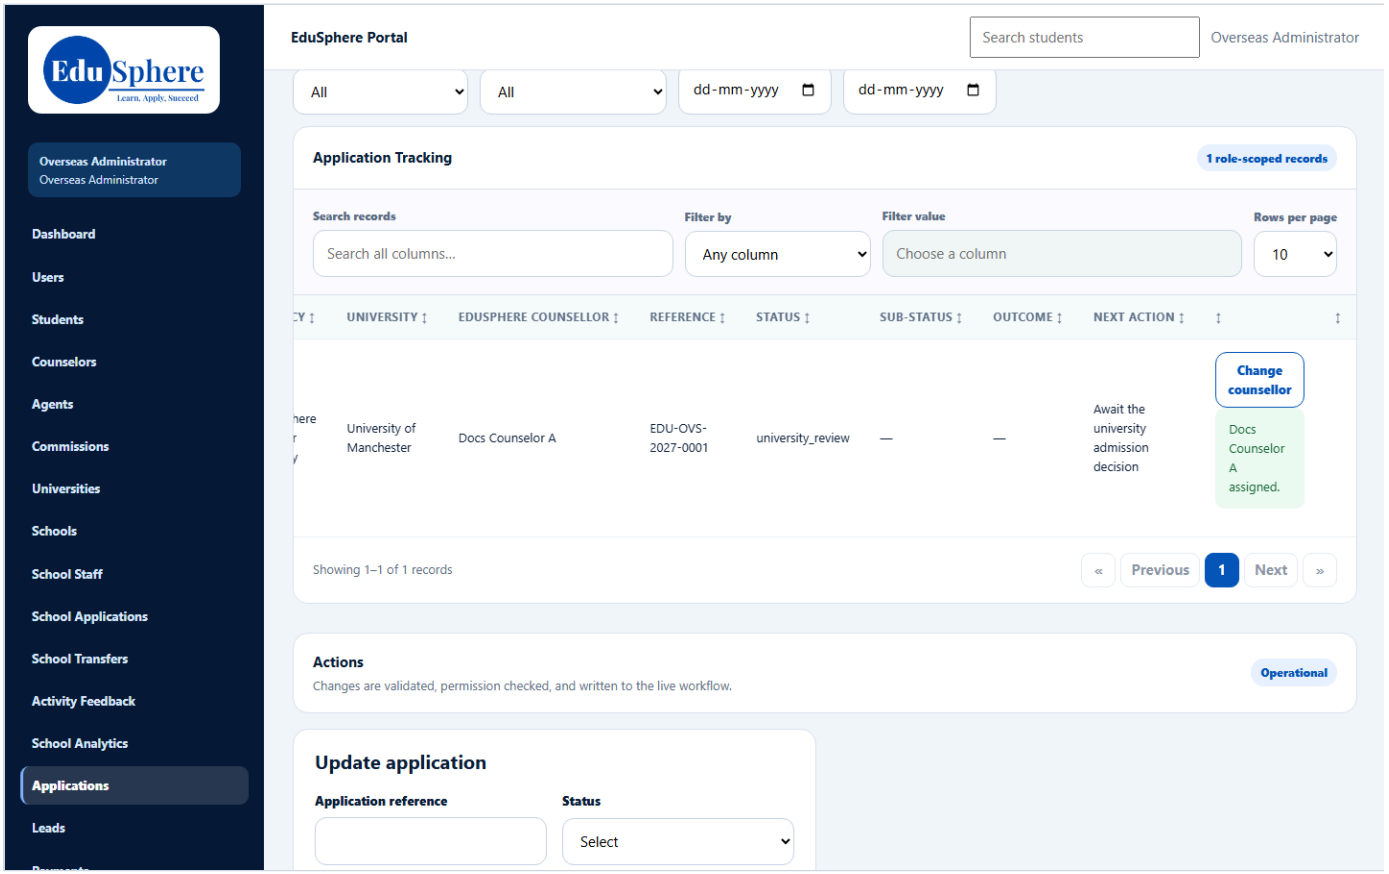

Step 1 — Find the application

Filter by **Counsellor** (choose **Not assigned** to find new agency applications), **Agency**, **University** and the other filters.

Step 2 — Assign or change

Select **Assign counsellor** or **Change counsellor**, pick the counselor in **EduSphere counsellor**, and enter **Reason for the change** (required when replacing). Select **Save**. **{counselor} assigned.** appears and the column updates.

Fields

Field	Description	Required	Example
EduSphere counsellor	An active Overseas counselor	Yes	Docs Counselor A

Field	Description	Required	Example
Reason for the change	Required when replacing	When changing	Ritika is on leave; Docs Counselor A takes the UK caseload.

Expected Result

- The application appears in the new counselor's **Application Tracking**, and its student in their **My students**.
- Counselors are notified ("Application assigned to you" / "Application reassigned").

Validation Messages

Message	When
{counselor} assigned.	Success
This application is closed	Enrolled or closed by an outcome
Choose an active overseas counselor	Invalid counselor
Only the Overseas Admin can assign a counselor	Any other role

Common Errors

Problem: No assign control on a row. **Cause:** The application is closed.

Tips

- Check **Counsellor = Not assigned** daily; agency applications arrive unassigned and nobody is alerted.

Related Features

- Assign or change a student's counselor
- Agency students and applications *(see the User Manual)*

Counselor tasks (admin view)

> Doc ID: DOC-CNS-ESC-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Overseas Admin, Super Admin (by address) Overdue items in the screenshots were prepared by moving test dates back in the documentation database (owner instruction, 2026-10-30).

Purpose

See every Overseas counselor's tasks, and give a counselor a task.

Who Can Use This Feature

- **Overseas Admin**: sidebar **Counselor tasks**.
- **Super Admin**: the page opens by its address (`/overseas/admin/counselor-tasks`) with the Overseas Admin's sidebar.

Prerequisites

None.

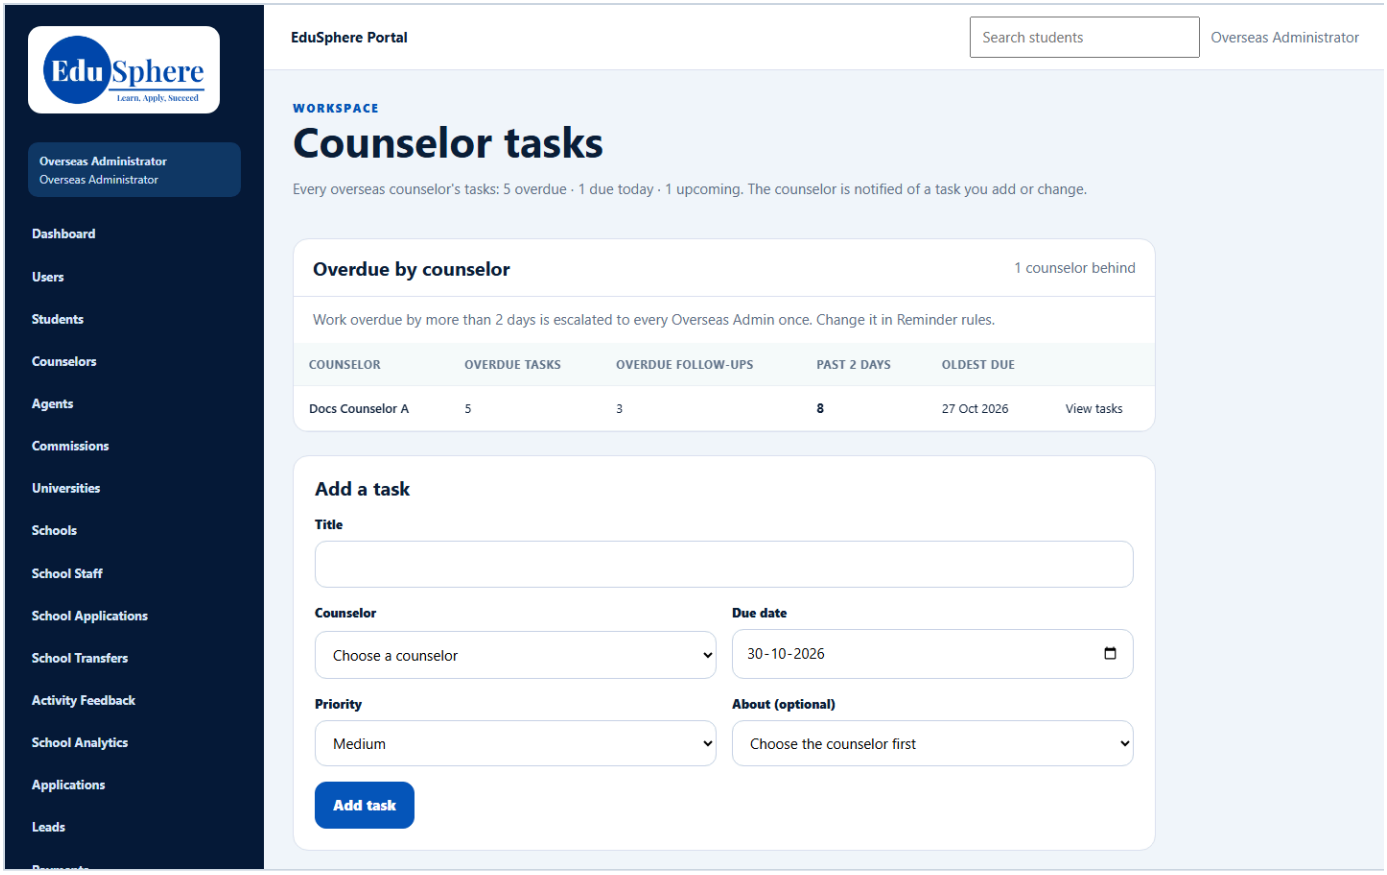

How to Access

Sidebar **Counselor tasks**.

Steps

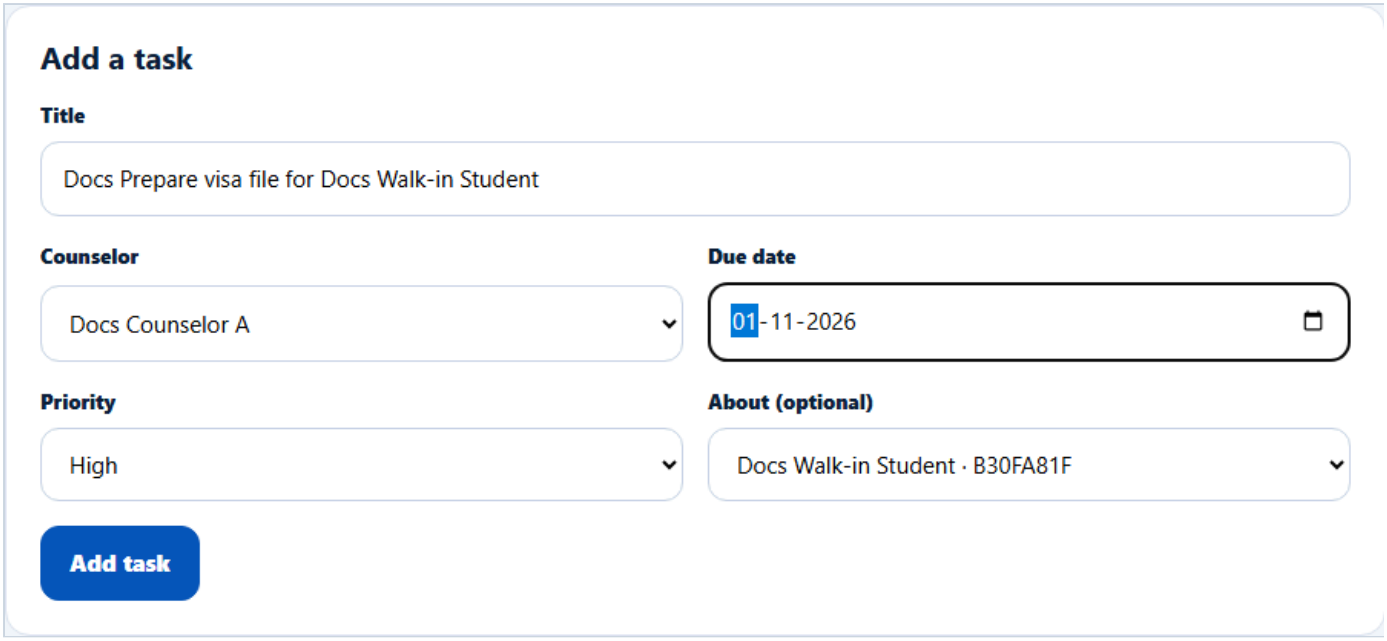

Step 1 — Read the page

The summary line counts every counselor's tasks, for example "5 overdue · 1 due today · 1 upcoming". Below it are **Overdue by counselor** (see ESC-002), **Add a task** and the task list grouped by band.

Step 2 — Give a counselor a task

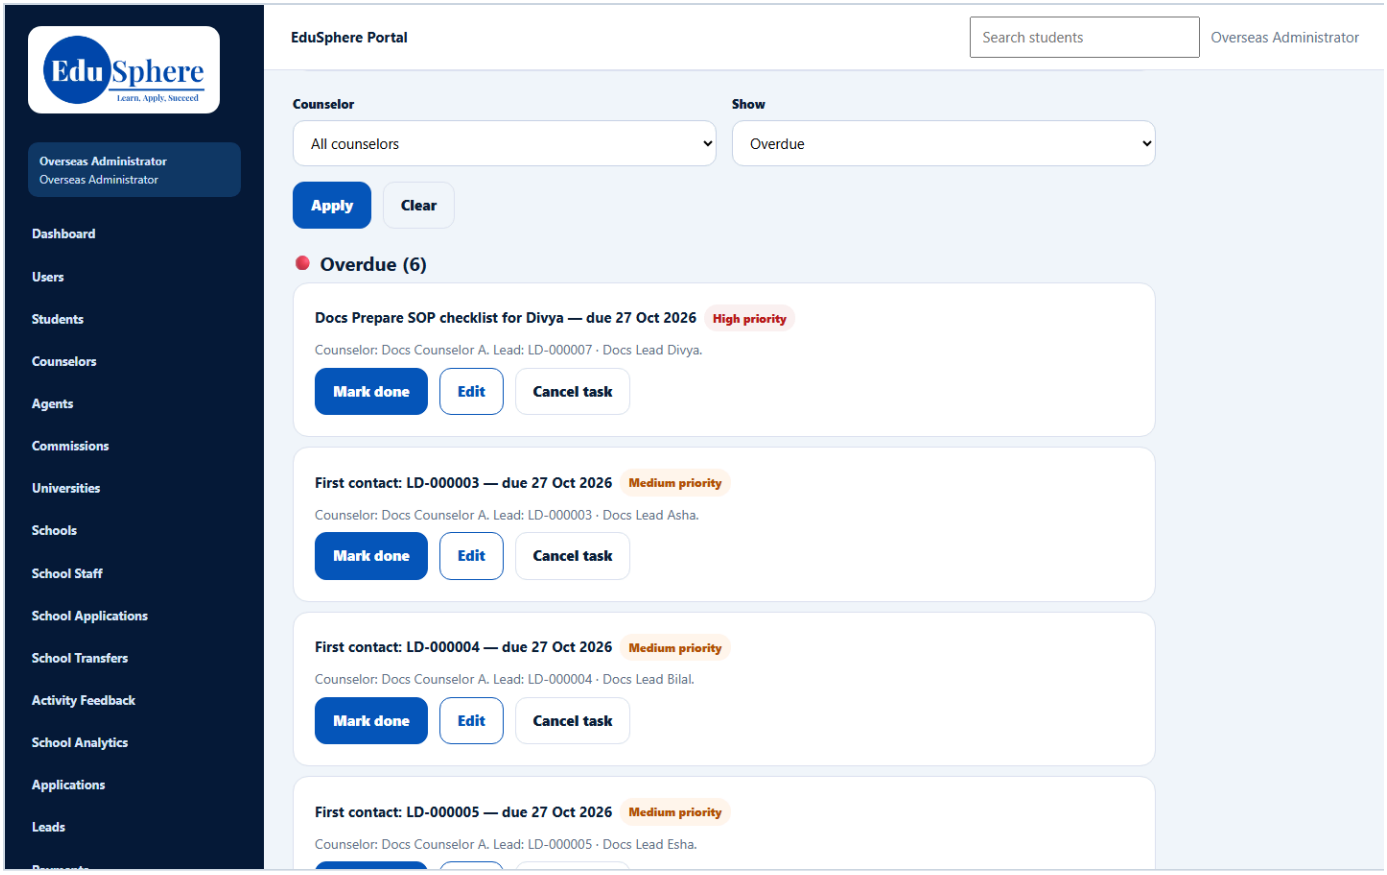

In **Add a task**, enter the **Title**, choose the **Counselor**, **Due date** and **Priority**, and optionally **About**: one of that counselor's leads, students or applications. Select **Add task**. **Task added.** appears, and the counselor is notified.

On the counselor's **My tasks**, the task shows "Given by {you}". The counselor can mark it done or cancel it, but not edit it.

Step 3 — Filter

Use **Counselor** (All counselors or one) and **Show**: Open and recently done, Overdue, Today, Upcoming, Done (last 7 days) or Cancelled. Select **Apply**. Each task has **Mark done**, **Reopen**, **Edit** and **Cancel task**.

Fields

Field	Description	Required	Example
Title	2–200 characters	Yes	Docs Prepare visa file for Docs Walk-in Student
Counselor	An Overseas counselor	Yes	Docs Counselor A
Due date	Today or later	Yes	1 Nov 2026
Priority	High, Medium, Low	Yes	High
About (optional)	That counselor's lead, student or application	No	Docs Walk-in Student

Expected Result

The task appears on the counselor's **My tasks** and in this list, and counts in the summary line and in **Overdue by counselor** once it is overdue.

Validation Messages

Message	When
Task added.	Success
Give the title (2-200 characters) / Choose the counselor / Choose the due date / The due date can't be in the past	Missing or invalid fields
No counselor has an open task. / No tasks match these filters.	Empty list

Related Features

- Overdue by counselor and the escalation notice
- My tasks (counselor) *(see the User Manual)*

Overdue by counselor and the escalation notice

> Doc ID: DOC-CNS-ESC-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Overseas Admin Overdue items in the screenshots were prepared by moving test dates back in the documentation database (owner instruction, 2026-10-30).

Purpose

Spot counselors whose tasks and follow-ups are overdue, before students are affected.

Who Can Use This Feature

The Overseas Admin.

Prerequisites

The **Overdue work escalation** reminder rule is on (it is by default, at 2 days).

How to Access

Sidebar **Counselor tasks** → **Overdue by counselor**.

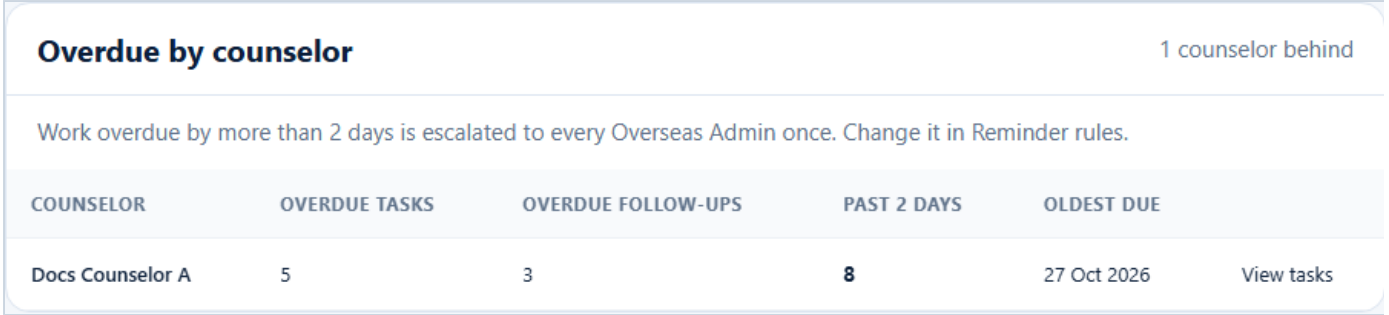

Steps

Step 1 — Read Overdue by counselor

The card shows "{n} counselor(s) behind" and the rule: "Work overdue by more than {N} days is escalated to every Overseas Admin once. Change it in Reminder rules." For each counselor it lists:

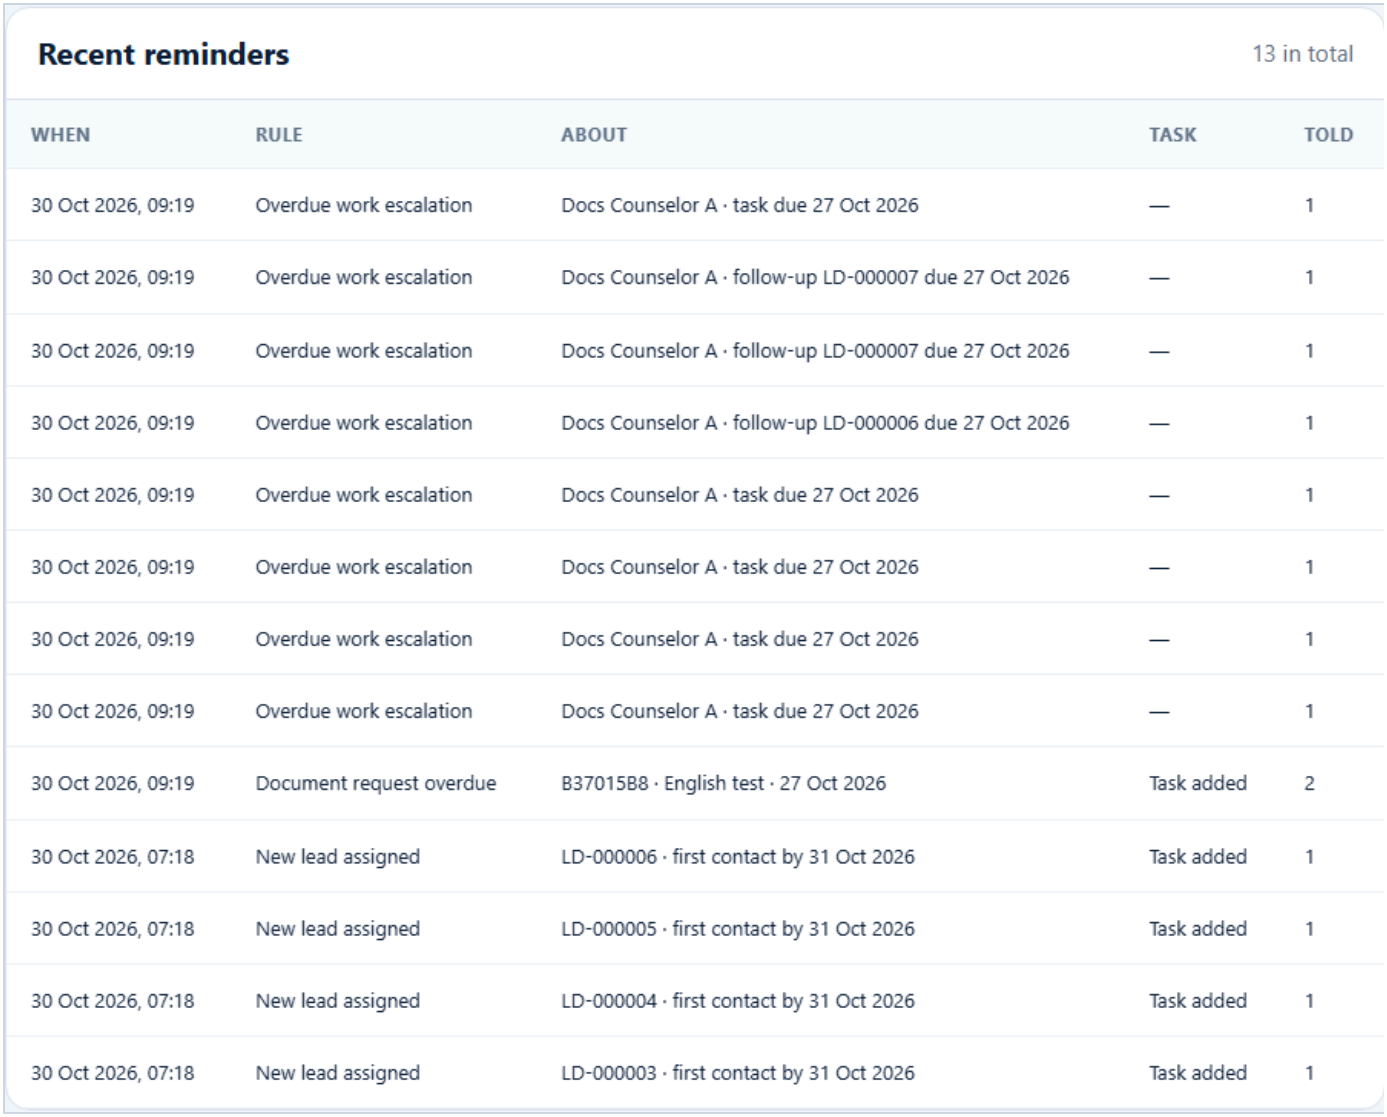

- **Overdue tasks** and **Overdue follow-ups**;
- **Past {N} days**: the items past the escalation threshold;
- **Oldest due**.

Select **View tasks** to see that counselor's tasks.

Step 2 — The escalation notice

When the reminder rules run (daily at 08:15 IST, or **Run reminders now**), each item overdue past the threshold creates an "Overdue work escalated" notice for every active Overseas Admin, once per item. The notice is sent by email. These appear in **Recent reminders** as "Overdue work escalation".

Recent reminders 13 in total

WHEN	RULE	ABOUT	TASK	TOLD
30 Oct 2026, 09:19	Overdue work escalation	Docs Counselor A · task due 27 Oct 2026	—	1
30 Oct 2026, 09:19	Overdue work escalation	Docs Counselor A · follow-up LD-000007 due 27 Oct 2026	—	1
30 Oct 2026, 09:19	Overdue work escalation	Docs Counselor A · follow-up LD-000007 due 27 Oct 2026	—	1
30 Oct 2026, 09:19	Overdue work escalation	Docs Counselor A · follow-up LD-000006 due 27 Oct 2026	—	1
30 Oct 2026, 09:19	Overdue work escalation	Docs Counselor A · task due 27 Oct 2026	—	1
30 Oct 2026, 09:19	Overdue work escalation	Docs Counselor A · task due 27 Oct 2026	—	1
30 Oct 2026, 09:19	Overdue work escalation	Docs Counselor A · task due 27 Oct 2026	—	1
30 Oct 2026, 09:19	Overdue work escalation	Docs Counselor A · task due 27 Oct 2026	—	1
30 Oct 2026, 09:19	Document request overdue	B37015B8 · English test · 27 Oct 2026	Task added	2
30 Oct 2026, 07:18	New lead assigned	LD-000006 · first contact by 31 Oct 2026	Task added	1
30 Oct 2026, 07:18	New lead assigned	LD-000005 · first contact by 31 Oct 2026	Task added	1
30 Oct 2026, 07:18	New lead assigned	LD-000004 · first contact by 31 Oct 2026	Task added	1
30 Oct 2026, 07:18	New lead assigned	LD-000003 · first contact by 31 Oct 2026	Task added	1

Expected Result

You can follow up with the counselor, give them a task, or reassign their students.

Common Errors

Problem: You can’t find the “Overdue work escalated” notice in EduSphere. **Cause:** The notice is emailed to each Overseas Admin, but the Overseas Admin portal has no notifications page to show it. **Resolution:** Check your email, and **Overdue by counselor** and **Recent reminders** here.

Tips

- Overdue work of a deactivated counselor is escalated too, so reassign it.

Related Features

- Counselor tasks (admin view)
- Reminder rules

Team performance

> Doc ID: DOC-CNS-PERF-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Overseas Admin, Super Admin (by address)

Purpose

Compare every Overseas counselor's leads, conversions, students, applications, visas and enrolments.

Who Can Use This Feature

The Overseas Admin. The Super Admin can open it by its address (`/overseas/admin/counselor-performance`).

Prerequisites

None.

How to Access

Sidebar **Counselor performance**.

Steps

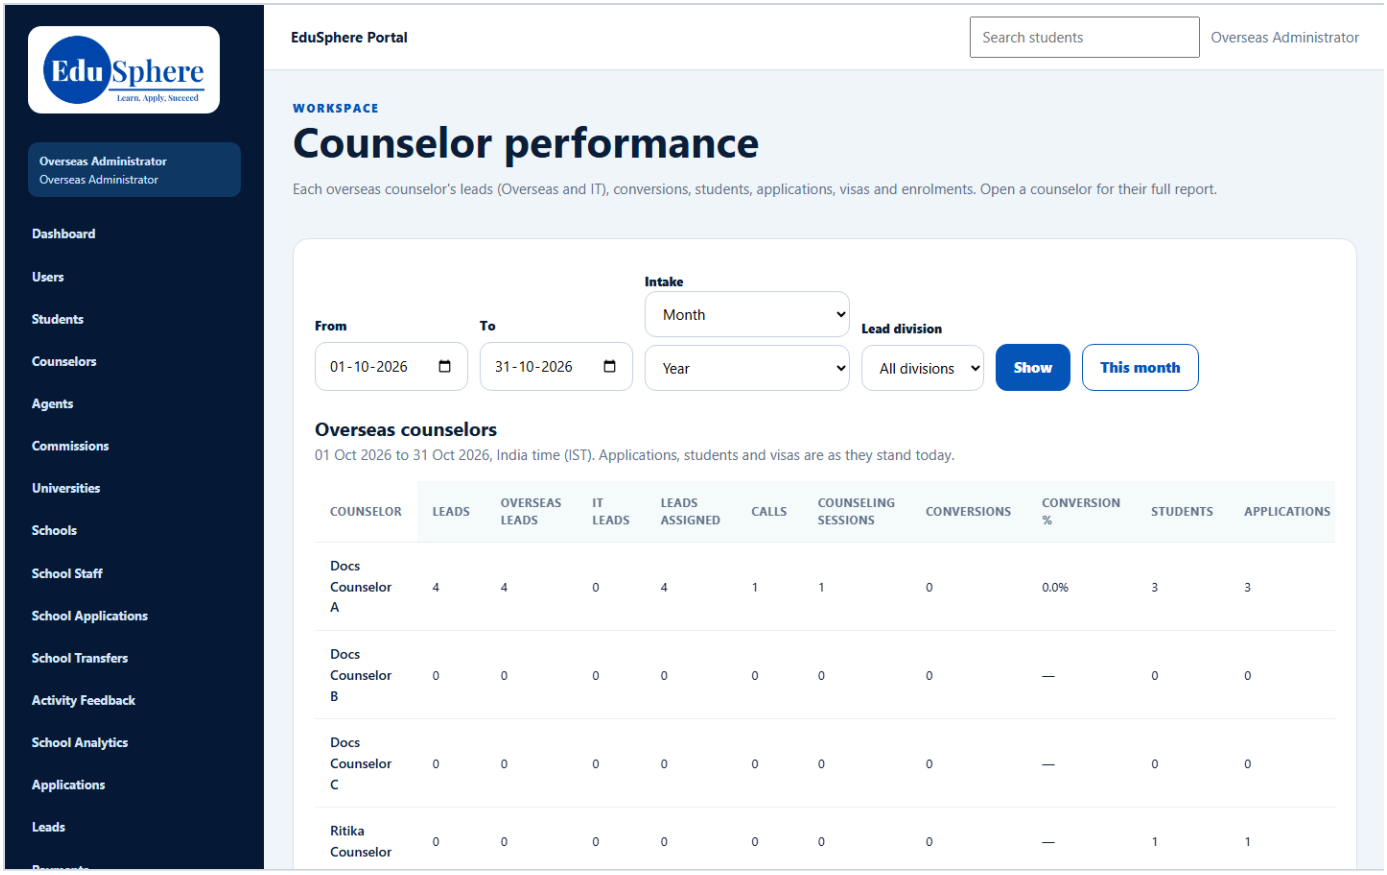

Step 1 — Choose the period and filters

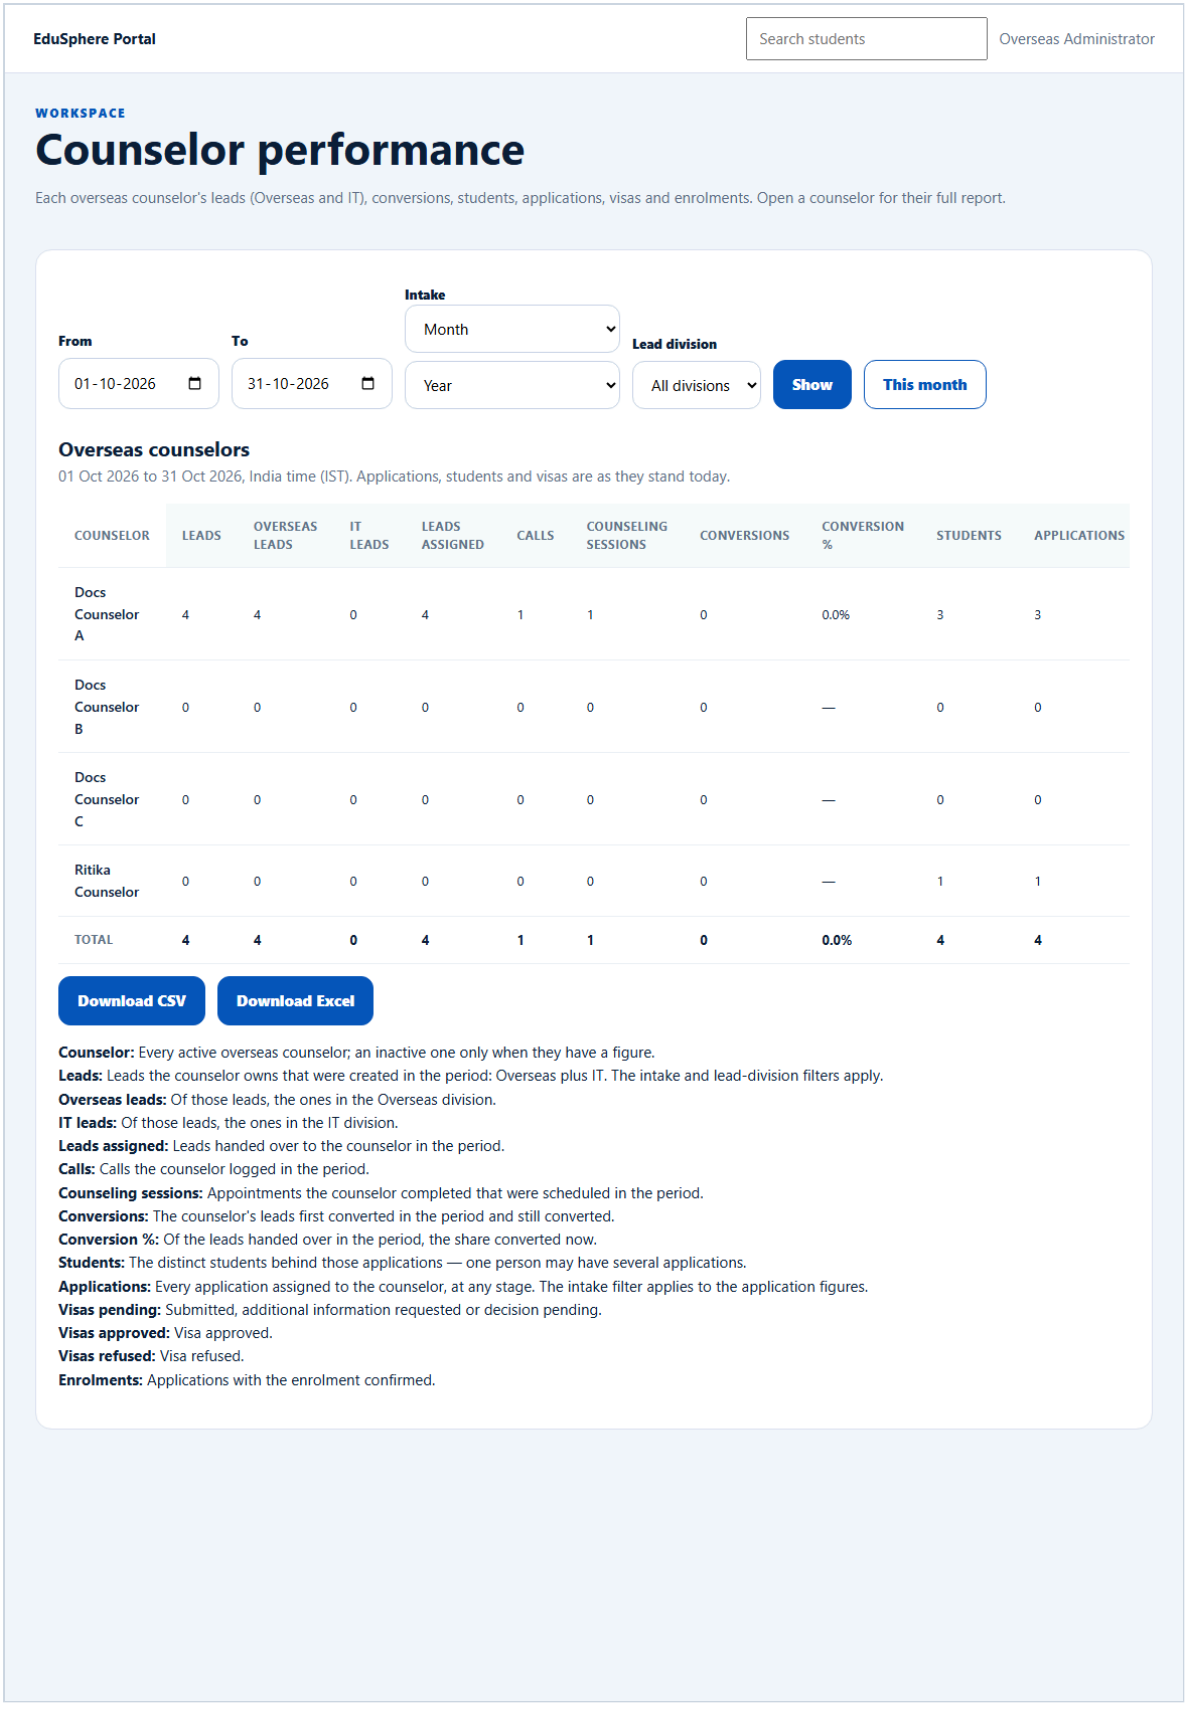

Set **From** / **To** (the default is this month), optionally **Intake** and **Lead division**, then select **Show**.

Step 2 — Read the table

Overseas counselors has one row per counselor and a **Total** row. The columns are: - Leads, Overseas leads, IT leads, Leads assigned; - Calls, Counseling sessions, Conversions, Conversion %; - Students, Applications; - Visas pending/approved/refused, Enrolments.

Definitions are listed under the table.

One counselor’s report

> Doc ID: DOC-CNS-PERF-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Overseas Admin

Purpose

See one counselor’s full report, exactly as they see it on **My performance**.

Who Can Use This Feature

The Overseas Admin.

Prerequisites

None.

How to Access

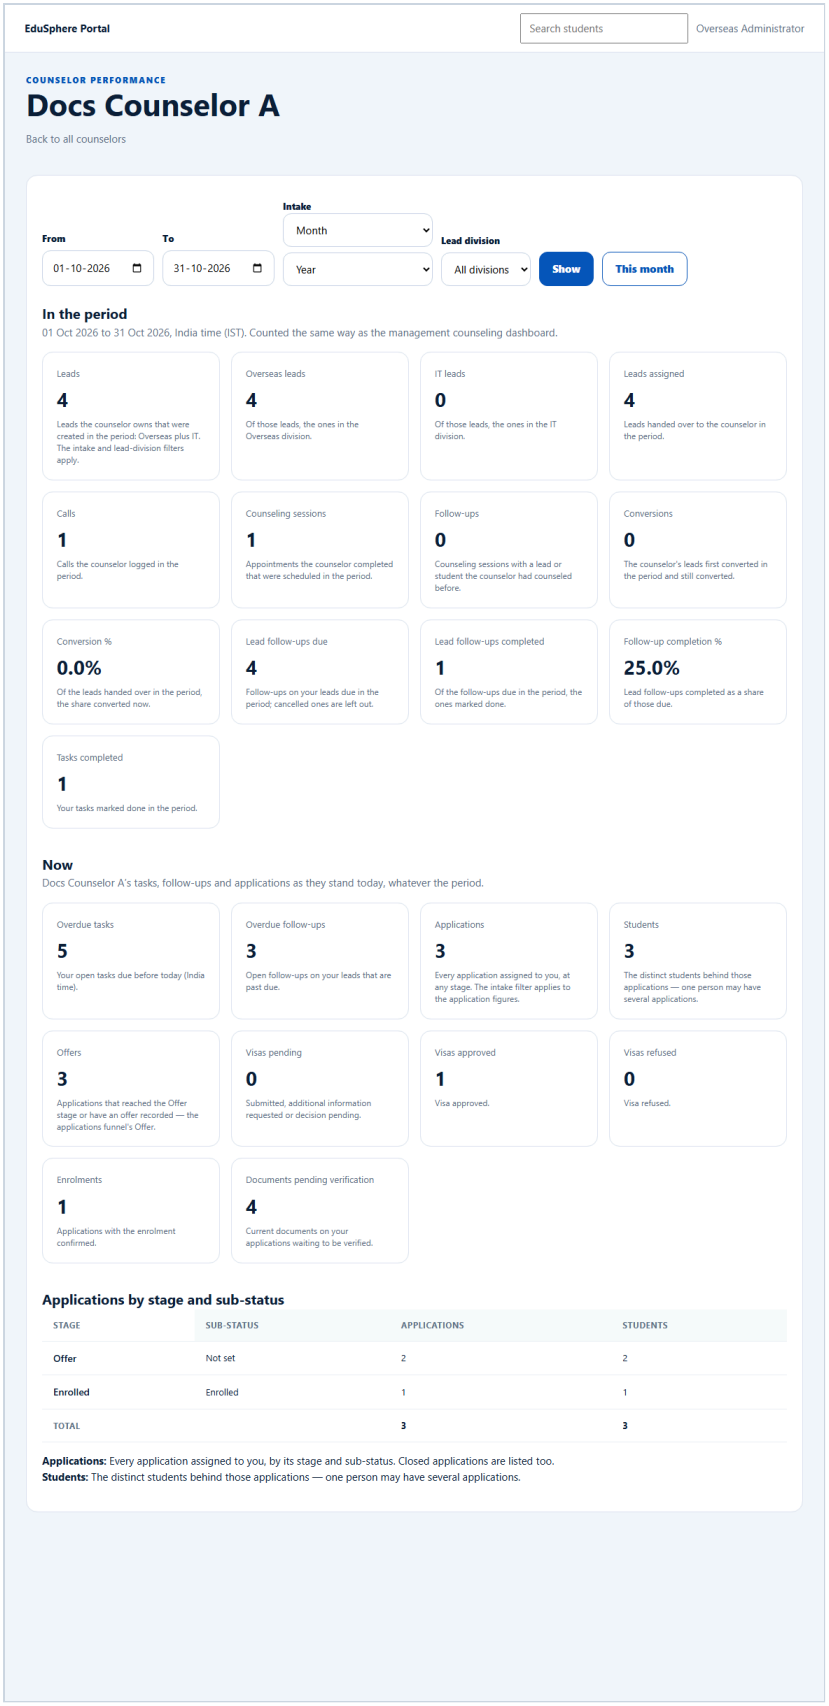

Counselor performance → select the counselor’s name.

Steps

Step 1 — Read the report

The page is headed with the counselor’s name (marked “(inactive)” if deactivated) and has a **Back to all counselors** link. It shows:

- the same period filters as Team performance;
- **In the period** figures, each with its definition;
- **Now** figures;
- **Applications by stage and sub-status**.

One counselor's report

Expected Result

The figures match the counselor's own My performance *(see the User Manual)*.

Document checklist templates

> Doc ID: DOC-CNS-CFG-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Overseas Admin (Super Admin by direct link)

Purpose

Define which documents an application needs, by country and optionally by university, course level and intake. Counselors work from the most specific template that matches each application. The template also decides what happens at **Ready for Submission** when documents are missing.

Who Can Use This Feature

- **Overseas Admin**: create, edit and deactivate templates.
- **Super Admin**: can open the page by its address (`/overseas/admin/checklists`); it is not in the Super Admin sidebar.
- **Counselors** only read the resulting checklist on each application.

Prerequisites

- You know the country (and, if needed, the university, course level or intake) the checklist is for.

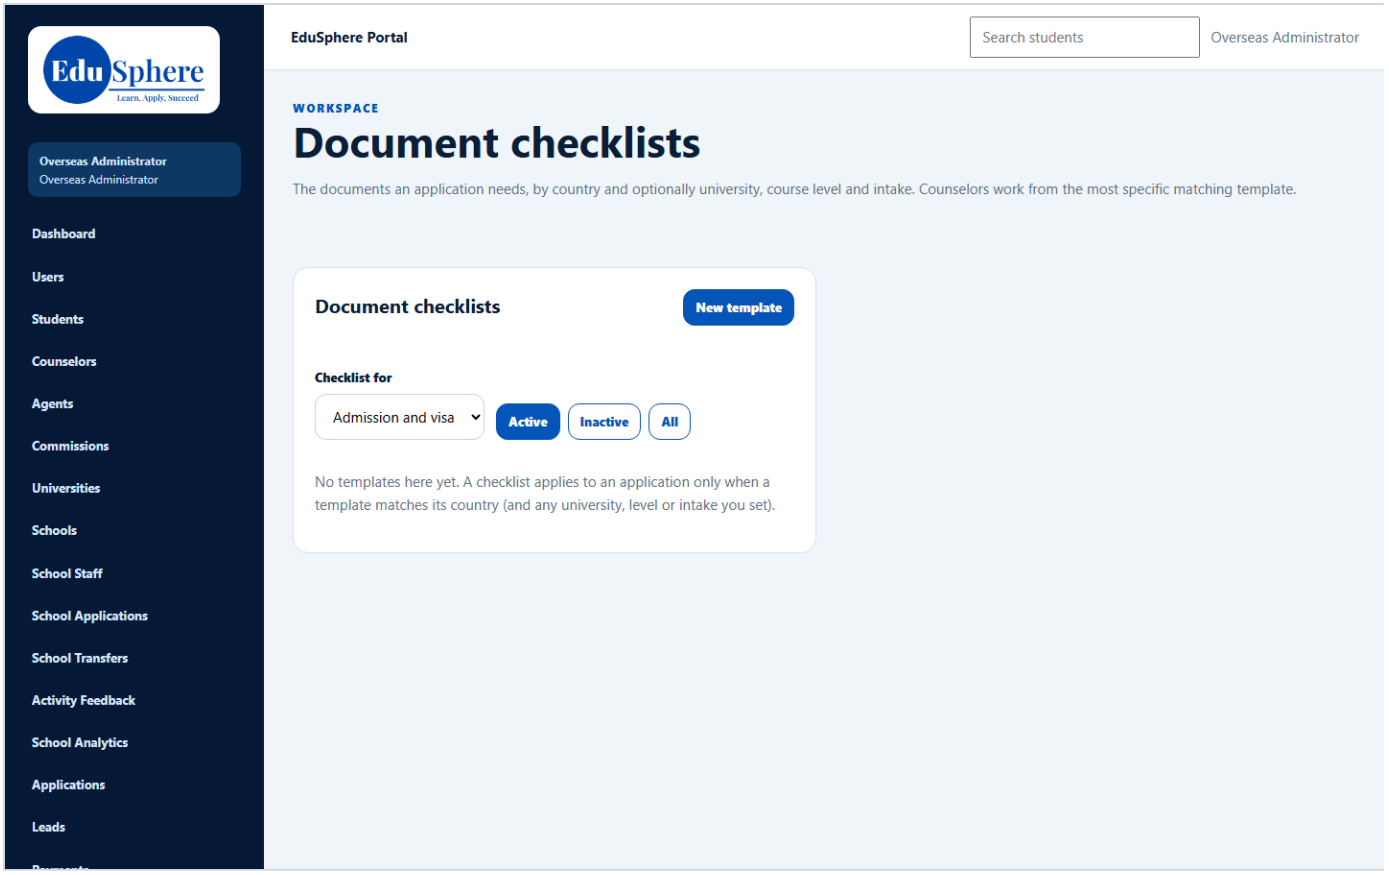

How to Access

Sidebar **Document checklists**.

Steps

Step 1 — Open Document checklists

Select **Document checklists**. Before any template exists, the page says **No templates here yet.**

Step 2 — Start a new template

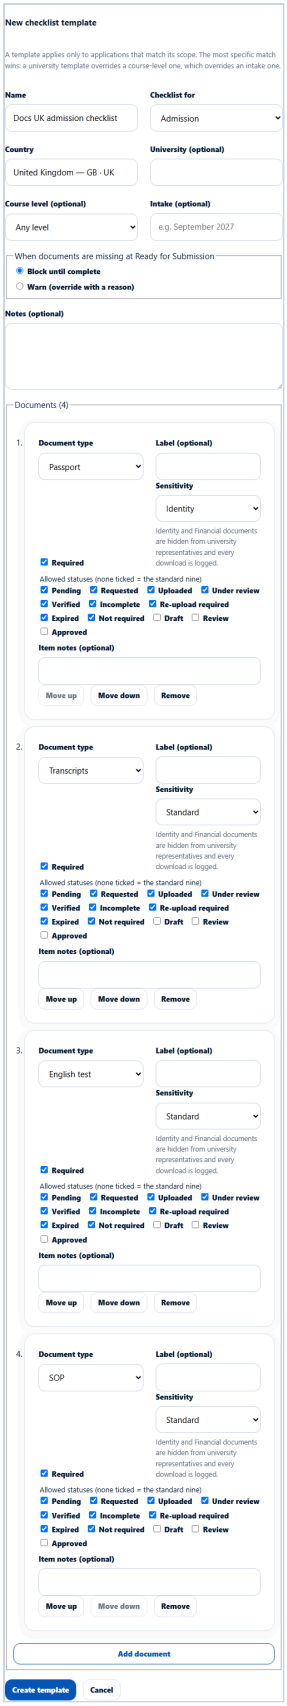

Select **New template**. The editor **New checklist template** opens. It explains that the most specific match wins: a university template overrides a course-level one, which overrides an intake one.

Step 3 — Set the scope and the gate

Enter a **Name** and choose **Checklist for** (**Admission** or **Visa**). Type the **Country** and pick it from the list (for example **United Kingdom — GB · UK**). Optionally set **University**, **Course level** and **Intake**. Under **When documents are missing at Ready for Submission**, choose **Block until complete** or **Warn (override with a reason)**.

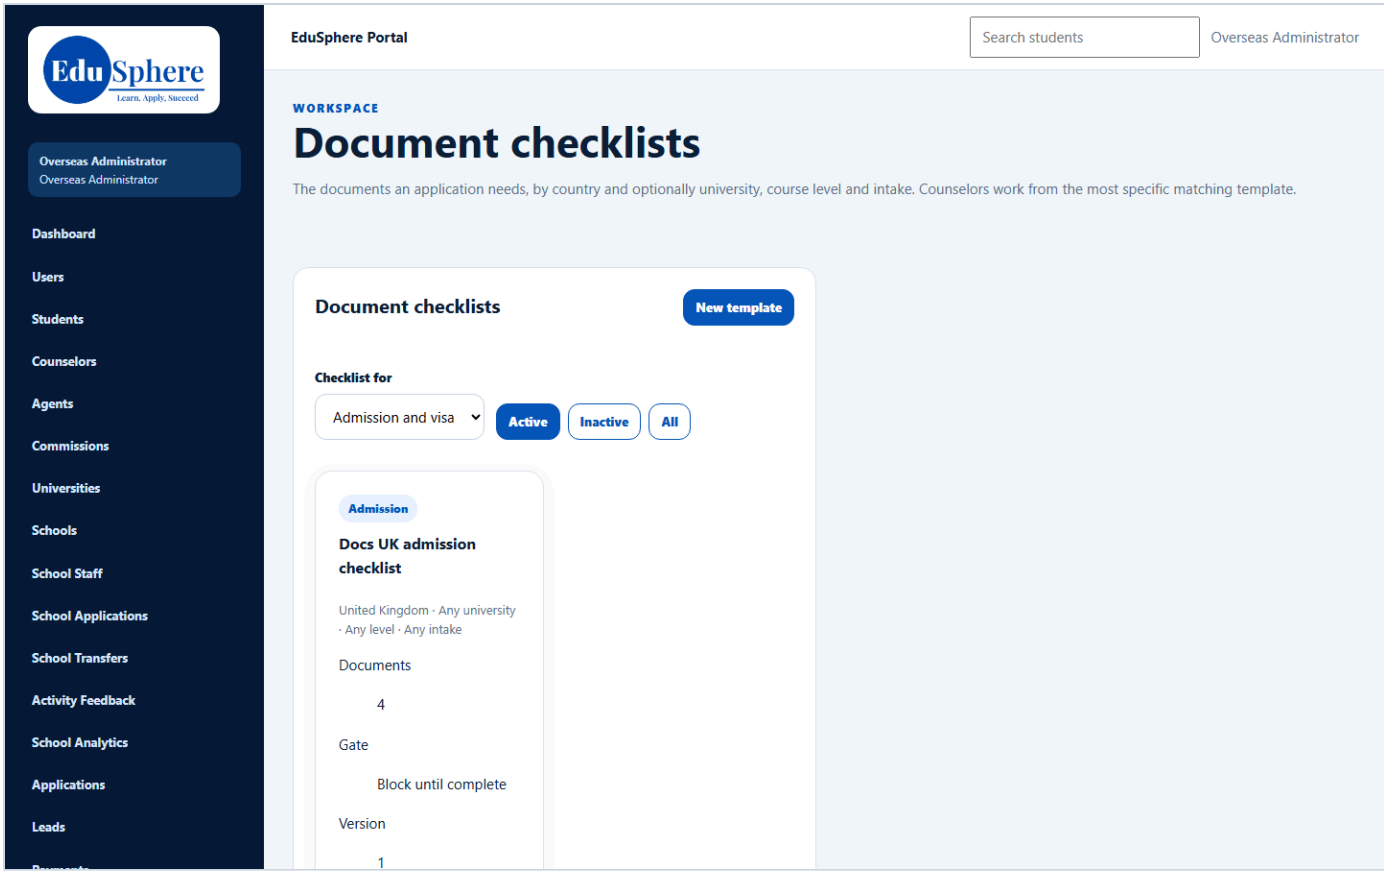

Step 4 — Add the documents

For each document, choose a **Document type**, an optional **Label**, keep **Required** ticked if it is mandatory, and choose its **Sensitivity**. **Identity** and **Financial** documents are hidden from university representatives, and every download is logged. Leave **Allowed statuses** as they are unless you need fewer. Select **Add document** for the next one; use **Move up**, **Move down** and **Remove** to arrange them.

Step 5 — Create the template

Select **Create template**. The message **Created {name} (version 1).** appears and the template card shows its scope, number of documents, gate and version.

Fields

Field	Description	Required	Example
Name	Template name shown to admins	Yes	Docs UK admission checklist
Checklist for	**Admission** or **Visa**	Yes	Admission
Country	Country the applications are for	Yes	United Kingdom
University (optional)	Limits the template to one university	No	—
Course level (optional)	**Any level**, UG, PG, PhD, Diploma, Foundation	No	Any level
Intake (optional)	Limits to one intake	No	September 2027
When documents are missing at Ready for Submission	**Block until complete** or **Warn (override with a reason)**	Yes	Block until complete
Notes (optional)	Internal notes	No	—
Document type	Passport, Academic certificates, Transcripts, English test, CV, SOP, LOR, Financial documents, Offer letter, Other	Yes	Passport
Label (optional)	Custom name for the document	No	—

Field	Description	Required	Example
Required	Whether the document must be complete	—	Ticked
Sensitivity	**Standard**, **Identity**, **Financial**	Yes	Identity
Allowed statuses	The statuses counselors can set; none ticked means the standard nine	No	Defaults
Item notes (optional)	Guidance for this document	No	—

Expected Result

The template appears under **Active**. Applications that match its scope get this checklist, and the **Ready for Submission** step follows its gate. See Application document checklist *(see the User Manual)* and Sub-status and the Ready-for-Submission gate *(see the User Manual)*.

Validation Messages

Message	When
Created {name} (version 1).	Template created
Someone else saved this template since you opened it; reload to see their changes	Two admins edited the same template
Checklist template not found	The template was removed or the link is wrong

Common Errors

Problem: Counselors don't see the checklist on an application. **Cause:** No template matches the application's country (and any university, level or intake you set). **Resolution:** Check the template's scope on its card.

Problem: Your save was rejected because someone else saved first. **Resolution:** Reload the page, then make your change again.

Tips

- Start with one broad country template, then add narrower ones only where a university needs something different.
- Use the **Active**, **Inactive** and **All** buttons and the **Checklist for** filter to find templates.

- Application document checklist *(see the User Manual)*

Reminder rules and Run now

> Doc ID: DOC-CNS-CFG-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Overseas Admin (Super Admin by direct link)

Purpose

Turn lead and application dates into counselor tasks and reminders, for example a first-contact task when a lead is handed over or a notice before an offer deadline. Each rule can be switched on or off and its number of days changed.

Who Can Use This Feature

- **Overseas Admin**.
- **Super Admin** can open the page by its address (`/overseas/admin/reminder-rules`); it is not in the Super Admin sidebar.

Prerequisites

None. Every rule is on by default.

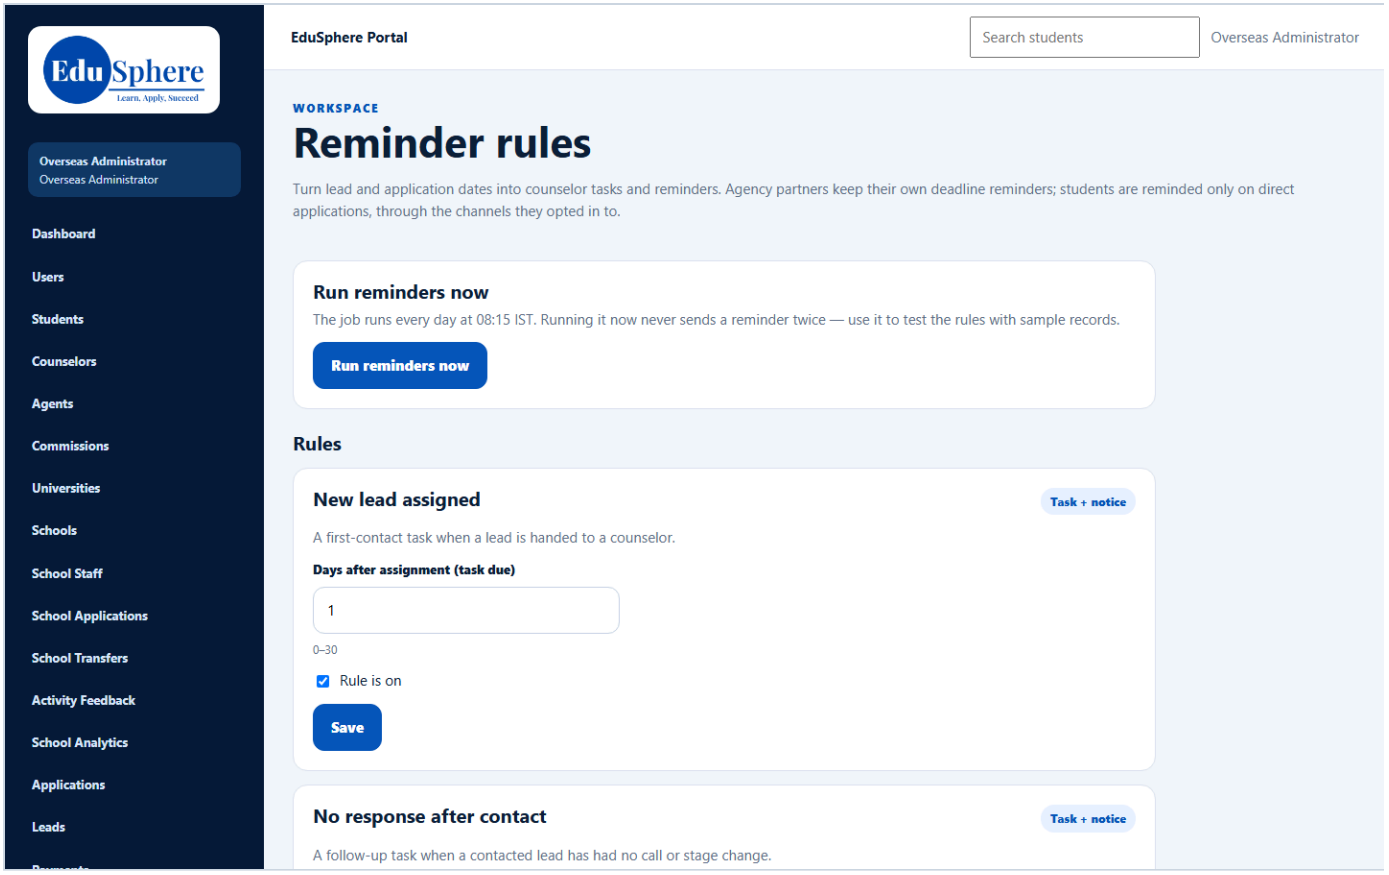

How to Access

Sidebar **Reminder rules**.

Steps

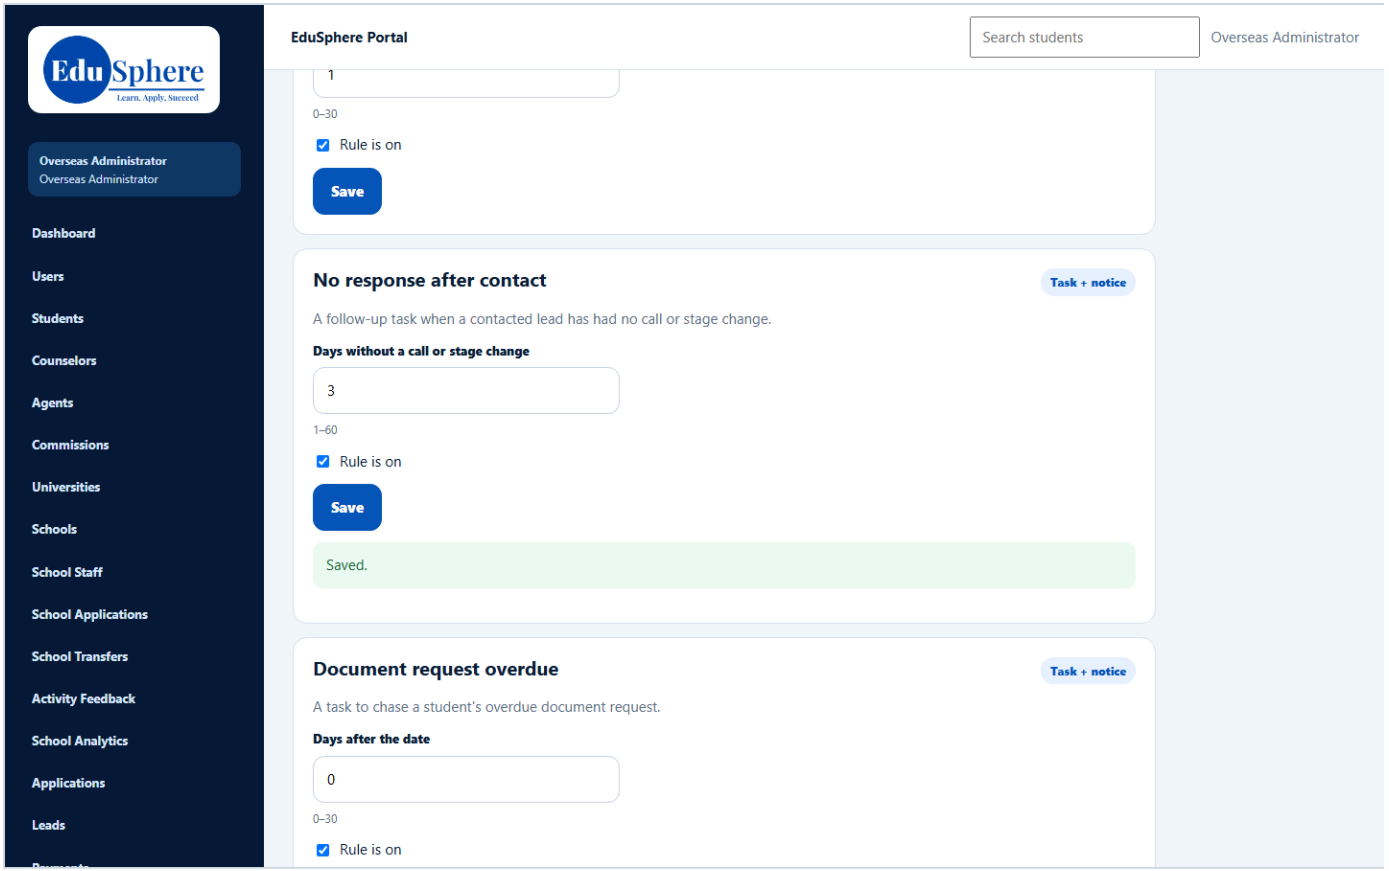

Step 1 — Review the rules

Select **Reminder rules**. Each card names the rule, says whether it creates a **Task + notice** or only a **Notice**, describes when it fires, and shows the allowed range of days under the number box.

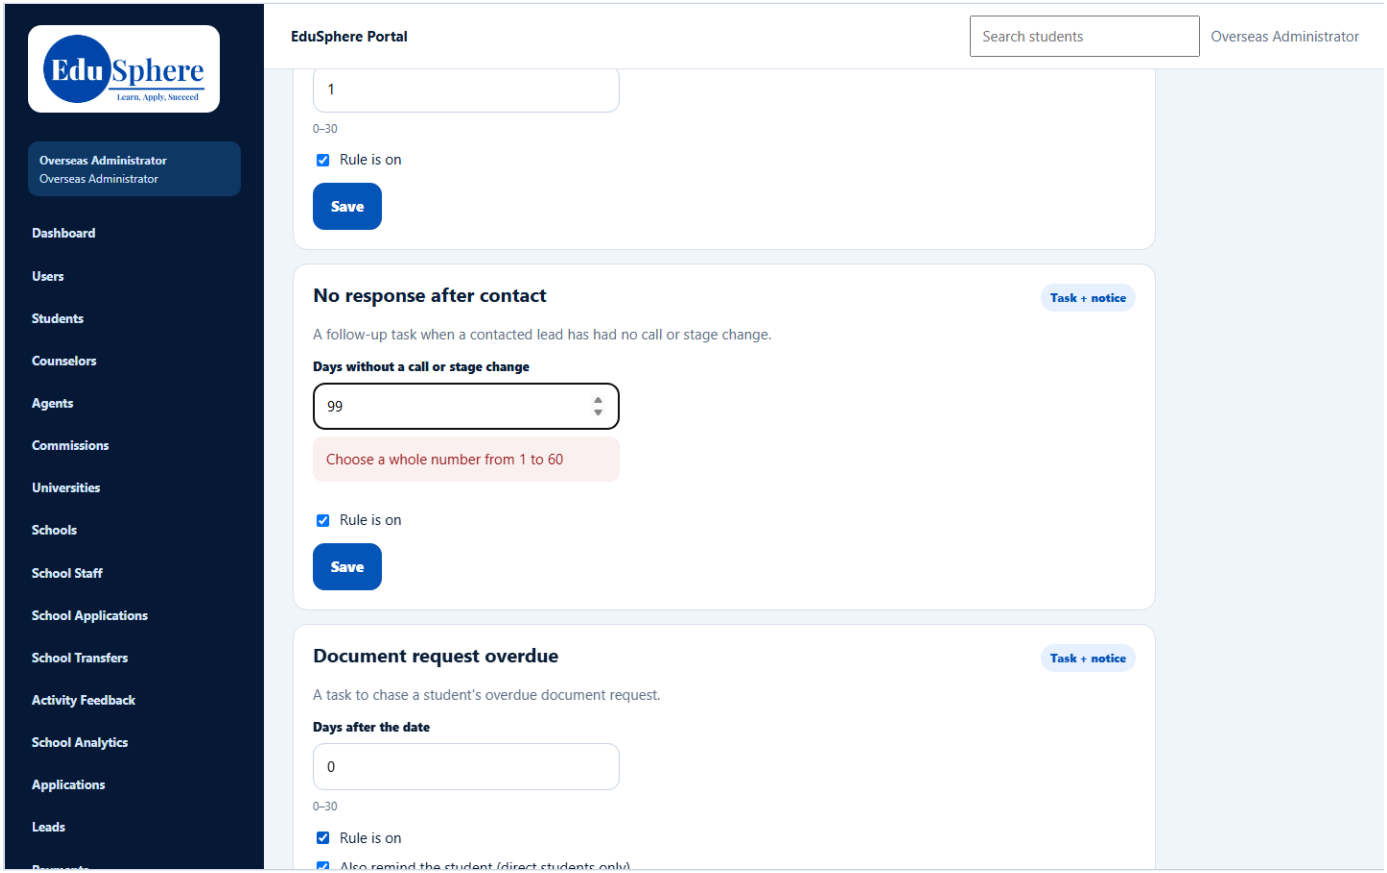

Step 2 — Change a rule

Change the number of days, tick or untick **Rule is on** and, where offered, **Also remind the student (direct students only)**. Then select **Save** on that card. **Saved.** appears.

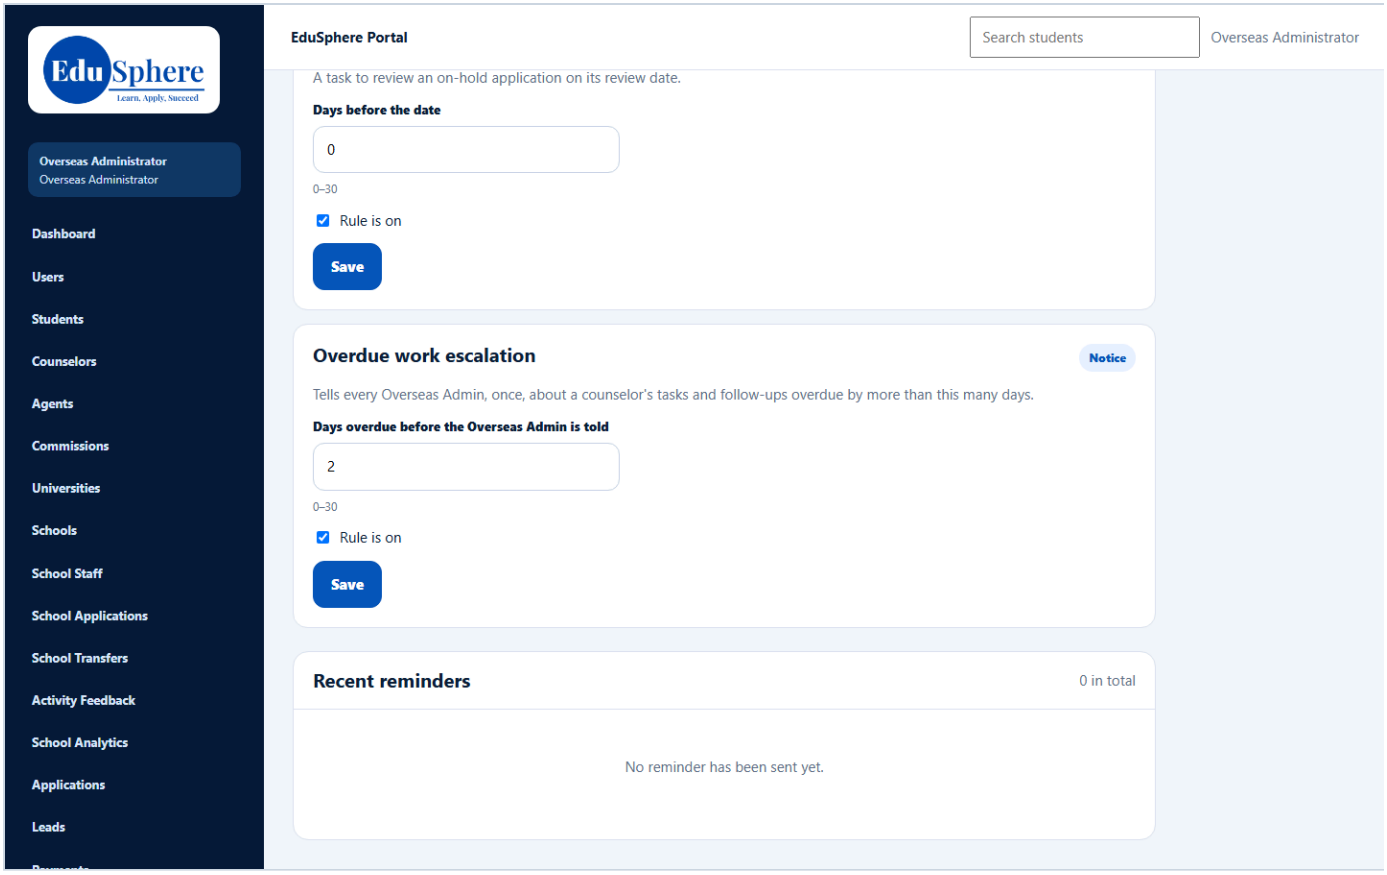

If the number is outside the range, the card shows **Choose a whole number from {min} to {max}** and nothing is saved.

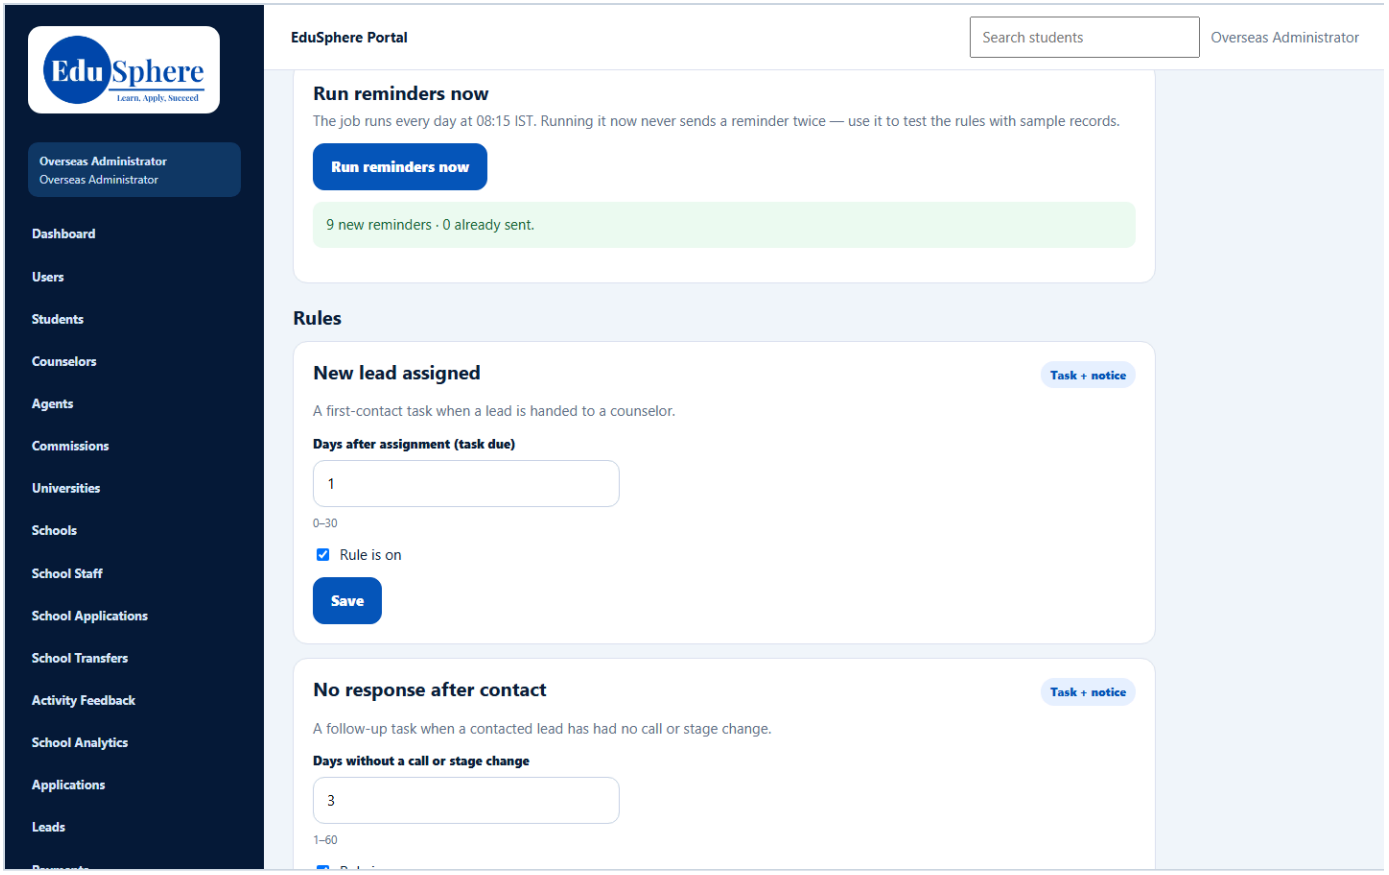

Step 3 — Check recent reminders

Scroll to **Recent reminders** to see what the rules have created (When · Rule · About · Task · Told). Before the first run it says **No reminder has been sent yet.**

Step 4 — Run reminders now

The rules run every day at 08:15 IST. Select **Run reminders now** to run them immediately; the result says, for example, **9 new reminders · 0 already sent.** Running it again never sends the same reminder twice. **Recent reminders** then lists each reminder with when it ran, the rule, what it is about, the task it created and how many people were told.

Recent reminders

13 in total

WHEN	RULE	ABOUT	TASK	TOLD
30 Oct 2026, 09:19	Overdue work escalation	Docs Counselor A · task due 27 Oct 2026	—	1
30 Oct 2026, 09:19	Overdue work escalation	Docs Counselor A · follow-up LD-000007 due 27 Oct 2026	—	1

30 Oct 2026, 09:19	Overdue work escalation	Docs Counselor A · task due 27 Oct 2026	—	1
30 Oct 2026, 09:19	Overdue work escalation	Docs Counselor A · task due 27 Oct 2026	—	1
30 Oct 2026, 09:19	Document request overdue	B37015B8 · English test · 27 Oct 2026	Task added	2
30 Oct 2026, 07:18	New lead assigned	LD-000006 · first contact by 31 Oct 2026	Task added	1
30 Oct 2026, 07:18	New lead assigned	LD-000005 · first contact by 31 Oct 2026	Task added	1
30 Oct 2026, 07:18	New lead assigned	LD-000004 · first contact by 31 Oct 2026	Task added	1
30 Oct 2026, 07:18	New lead assigned	LD-000003 · first contact by 31 Oct 2026	Task added	1

(The overdue items in these two screenshots were prepared by moving test dates back in the documentation database.)

The rules

Rule	Creates	Days setting	Range	Can remind the student
New lead assigned	Task + notice	Days after assignment (task due)	0–30	No
No response after contact	Task + notice	Days without a call or stage change	1–60	No
Document request overdue	Task + notice	Days after the date	0–30	Yes
Application deadline approaching	Notice	Days before the date	0–60	No
University decision overdue	Task + notice	Days after the date	0–30	No
Offer deadline approaching	Notice	Days before the date	0–60	Yes
Deposit due	Notice	Days before the date	0–60	Yes
Offer condition due	Notice	Days before the date	0–60	Yes
Visa appointment approaching	Notice	Days before the date	0–30	Yes
On-hold review date	Task + notice	Days before the date	0–30	No
Overdue work escalation	Notice to every Overseas Admin	Days overdue before the Overseas Admin is told	0–30	No

Students are reminded only on direct applications, through the channels they opted in to. Agency partners keep their own deadline reminders.

Expected Result

Counselors get the tasks and notices the rules describe, once per item. Every reminder is listed in **Recent reminders**.

Validation Messages

Message	When
Saved.	The rule was saved
{n} new reminders · {m} already sent.	After **Run reminders now**
Choose a whole number from {min} to {max}	The number is outside the rule's range

Common Errors

Problem: A counselor says they never see reminder notices in EduSphere. **Cause:** The counselor portal has no Notifications page. Notices are emailed (and sent by WhatsApp/SMS if the counselor opted in), but they don't appear in the portal; reminder **tasks** appear on the counselor's **Tasks** page. **Resolution:** Rely on the **Task + notice** rules for work counselors must act on.

Tips

- Turning a rule off stops new reminders; it does not delete tasks already created.
- The **Overdue work escalation** rule is how Overseas Admins hear about overdue counselor work. See Overdue by counselor and the escalation notice.

Counselor message templates

> Doc ID: DOC-CNS-CFG-003 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Overseas Admin, Super Admin (by direct link)

Purpose

Give counselors ready-made WhatsApp and email messages, such as an offer update or a deadline reminder, to start from when they write to a student. Counselors can edit the text before sending.

Who Can Use This Feature

- **Overseas Admin**.
- **Super Admin** can open the page by its address (`/overseas/admin/message-templates`).

Prerequisites

None.

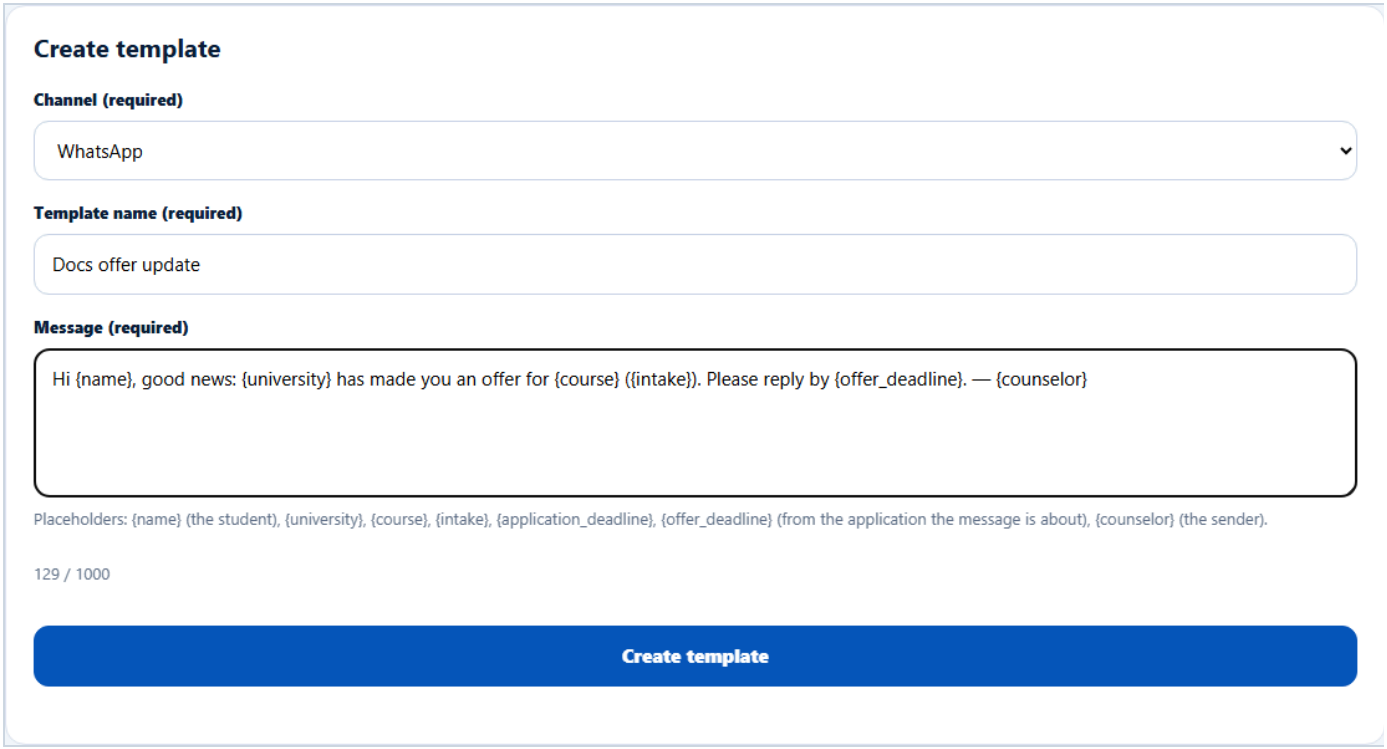

How to Access

Sidebar **Message templates**.

Steps

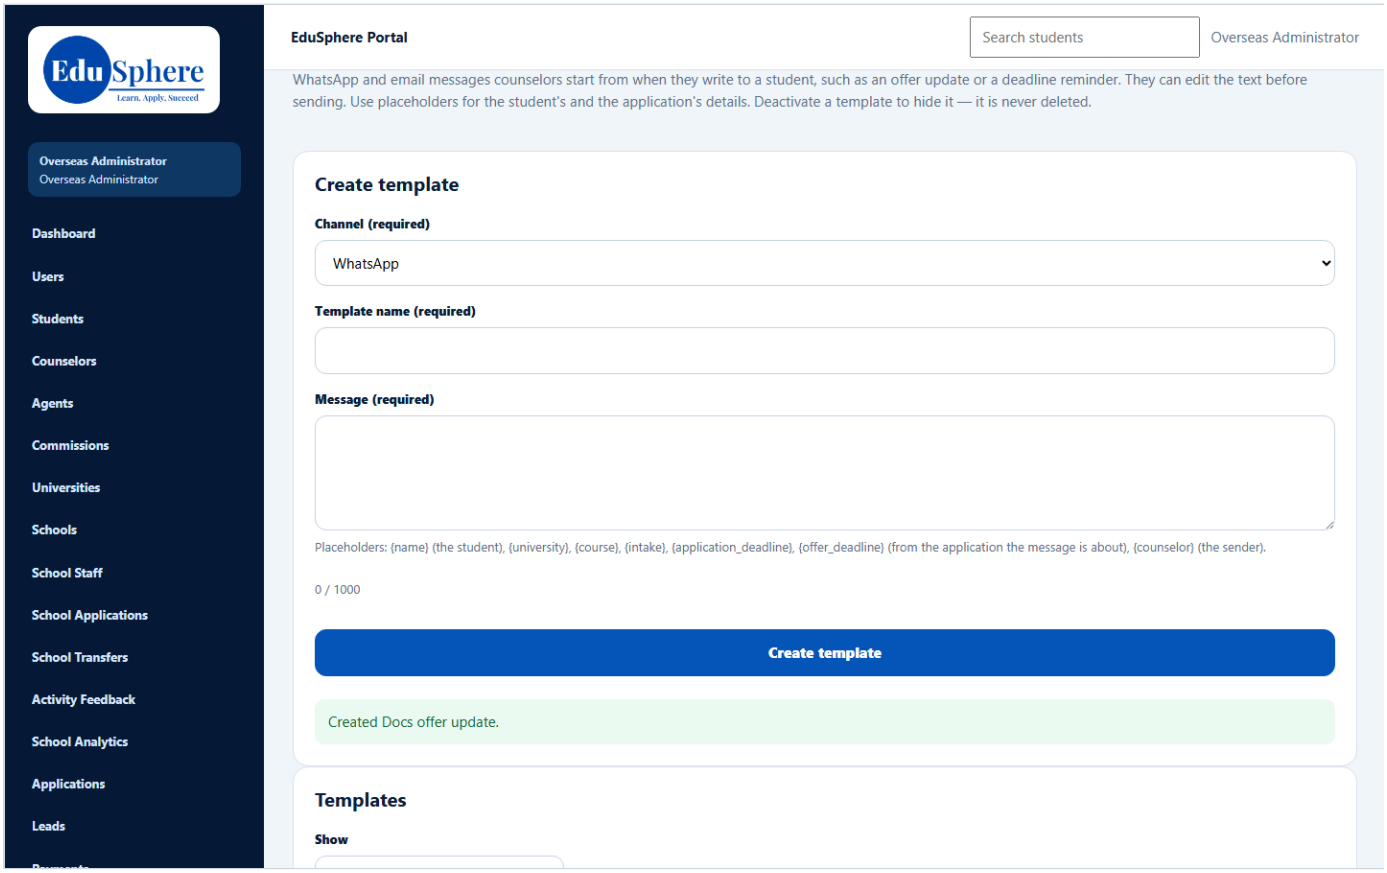

Step 1 — Fill in Create template

Choose the **Channel** (**WhatsApp** or **Email**), enter a **Template name** and write the **Message**. Use placeholders for the student's and the application's details; they are filled in when the counselor uses the template. The counter shows how many characters you have used (1000 for WhatsApp, 5000 for Email). Email templates also need a **Subject**.

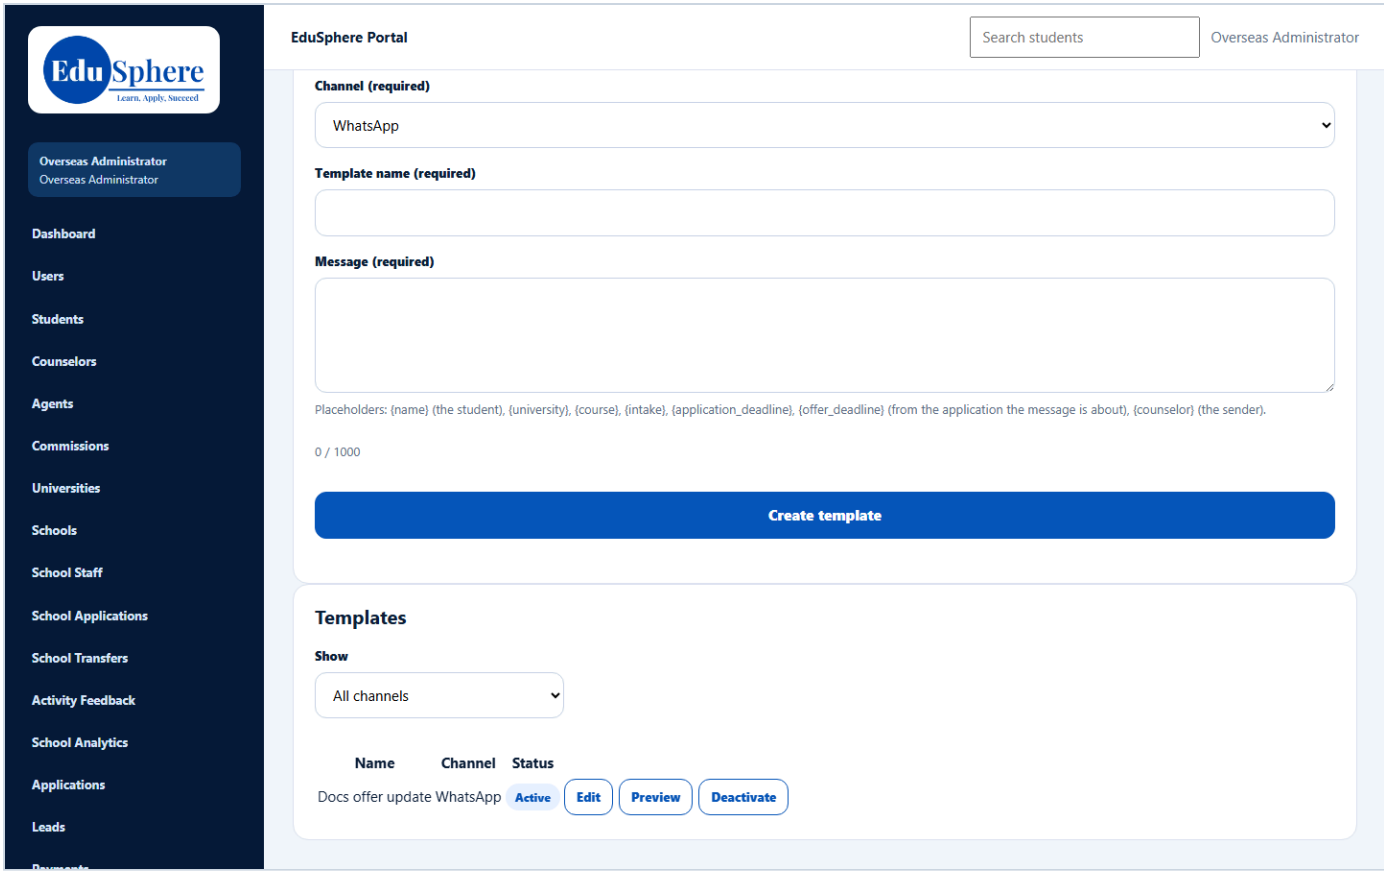

Step 2 — Create it

Select **Create template**. **Created {name}.** appears.

Step 3 — Manage templates

In **Templates**, filter with **Show** (**All channels**, **WhatsApp**, **Email**). Each template shows its **Name**, **Channel** and **Status** with **Edit**, **Preview** and **Deactivate** buttons. Deactivating hides a template from counselors; templates are never deleted.

Fields

Field	Description	Required	Example
Channel	WhatsApp or Email	Yes	WhatsApp
Template name	Name counselors pick from	Yes	Docs offer update
Subject	Email only	For Email	Good news about your application
Message	Up to 1000 characters (WhatsApp) or 5000 (Email), with placeholders	Yes	Hi {name}, good news: {university} has made you an offer…

Placeholders: `{name}` (the student), `{university}`, `{course}`, `{intake}`, `{application_deadline}`, `{offer_deadline}` (from the application the message is about), `{counselor}` (the sender).

Expected Result

The template is **Active**, and counselors can choose it when they message a student.

Validation Messages

Message	When
Created {name}.	Template created

Common Errors

Problem: A placeholder appears as typed (for example `{offer_deadline}`) in the counselor's draft. **Cause:** The message is not about an application that has that date. **Resolution:** Counselors should edit the text before sending.

Tips

- Keep WhatsApp templates short; use Email for longer explanations.
- Use **Preview** to check how the text reads before counselors use it.

Archived students: restore

> Doc ID: DOC-CNS-CFG-004 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Overseas Admin

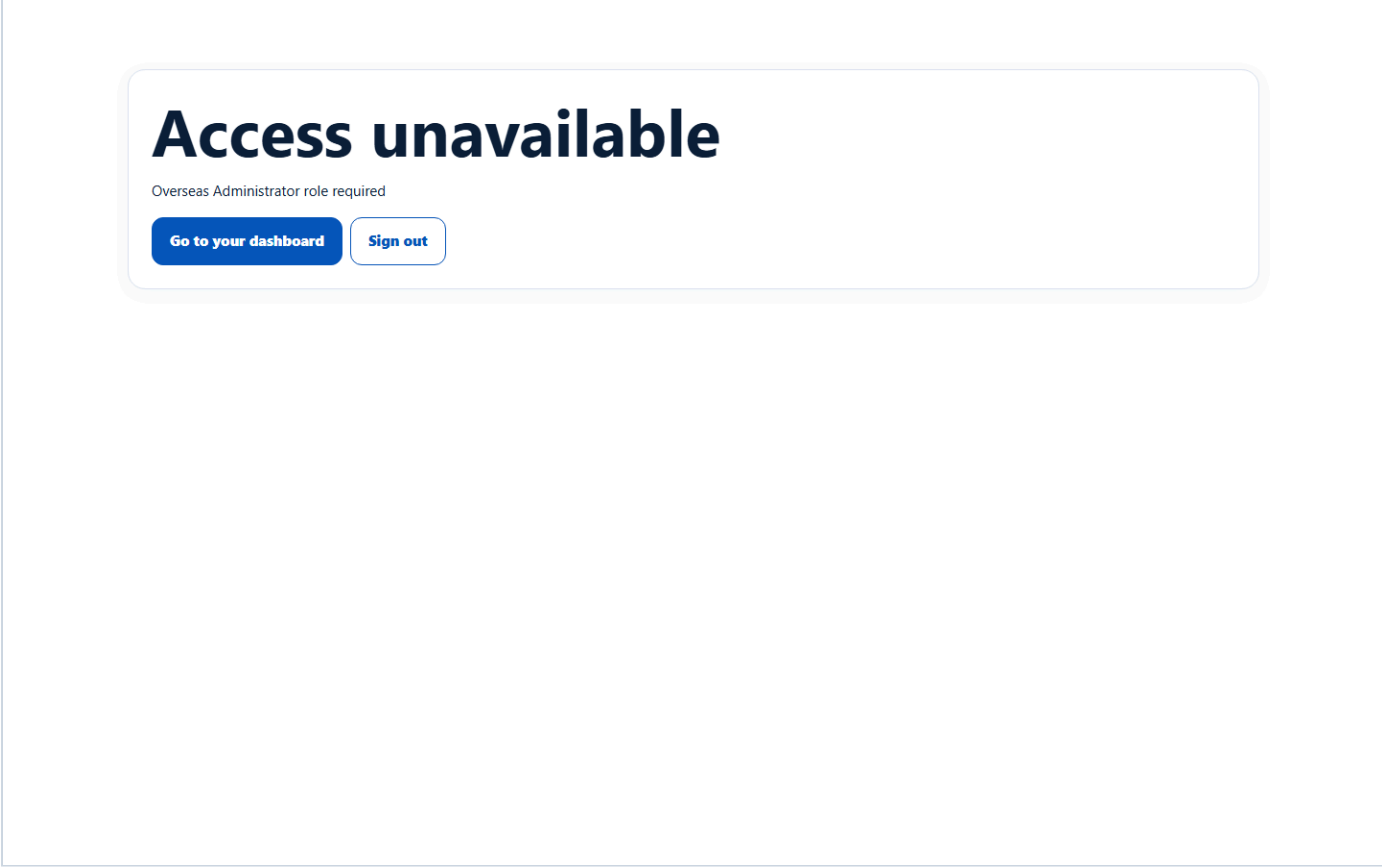

Purpose

See every archived Overseas student and bring one back into the working lists.

Who Can Use This Feature

What each role sees

	Overseas Admin	Super Admin
Archived students page	Every archived student, with **Restore student**	"Access unavailable — Overseas Administrator role required"

Super Admin refused

Prerequisites

At least one student is archived (see Archive a student *(see the User Manual)*).

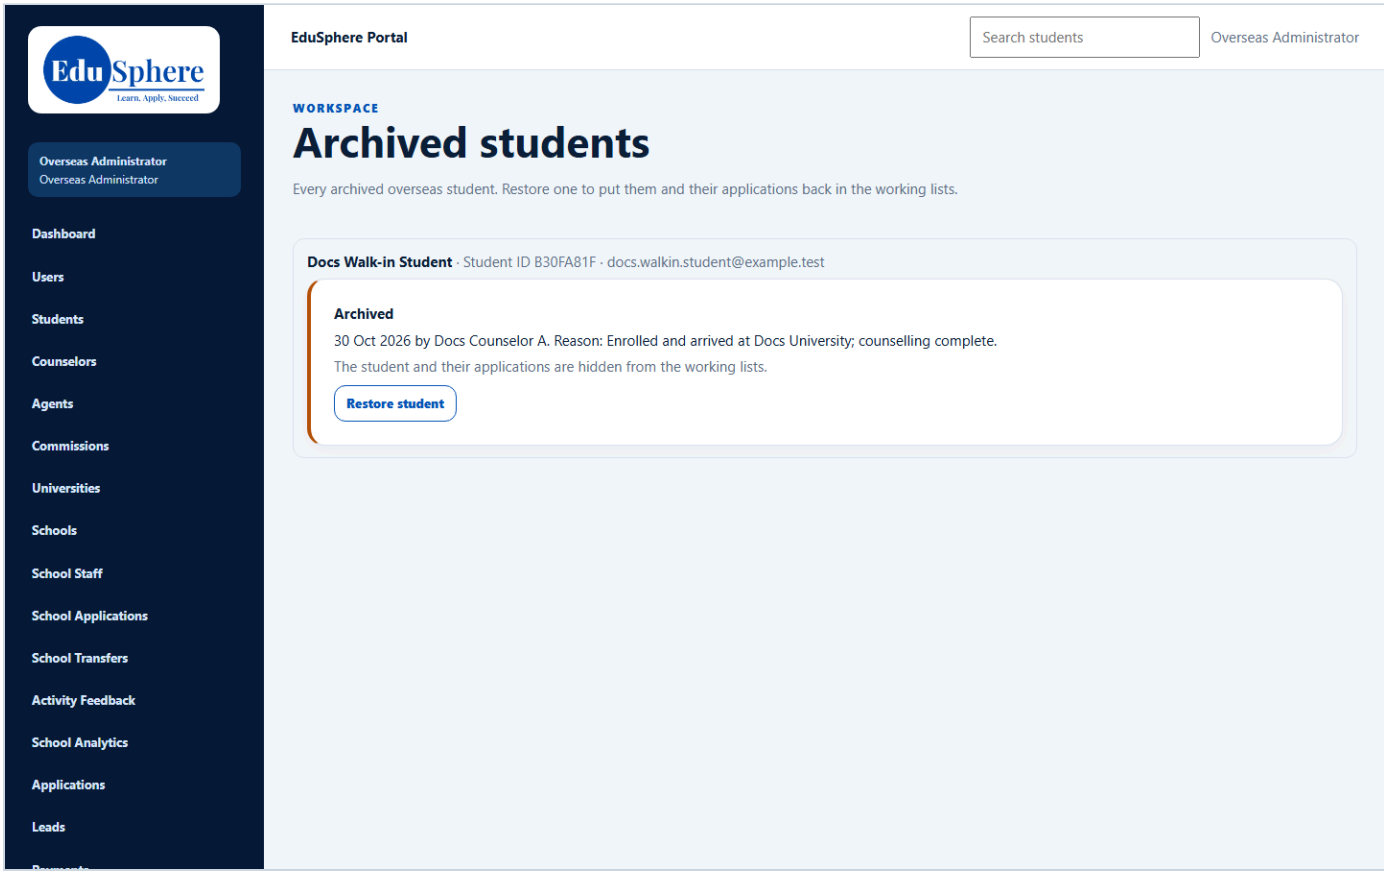

How to Access

Sidebar **Archived students**.

Steps

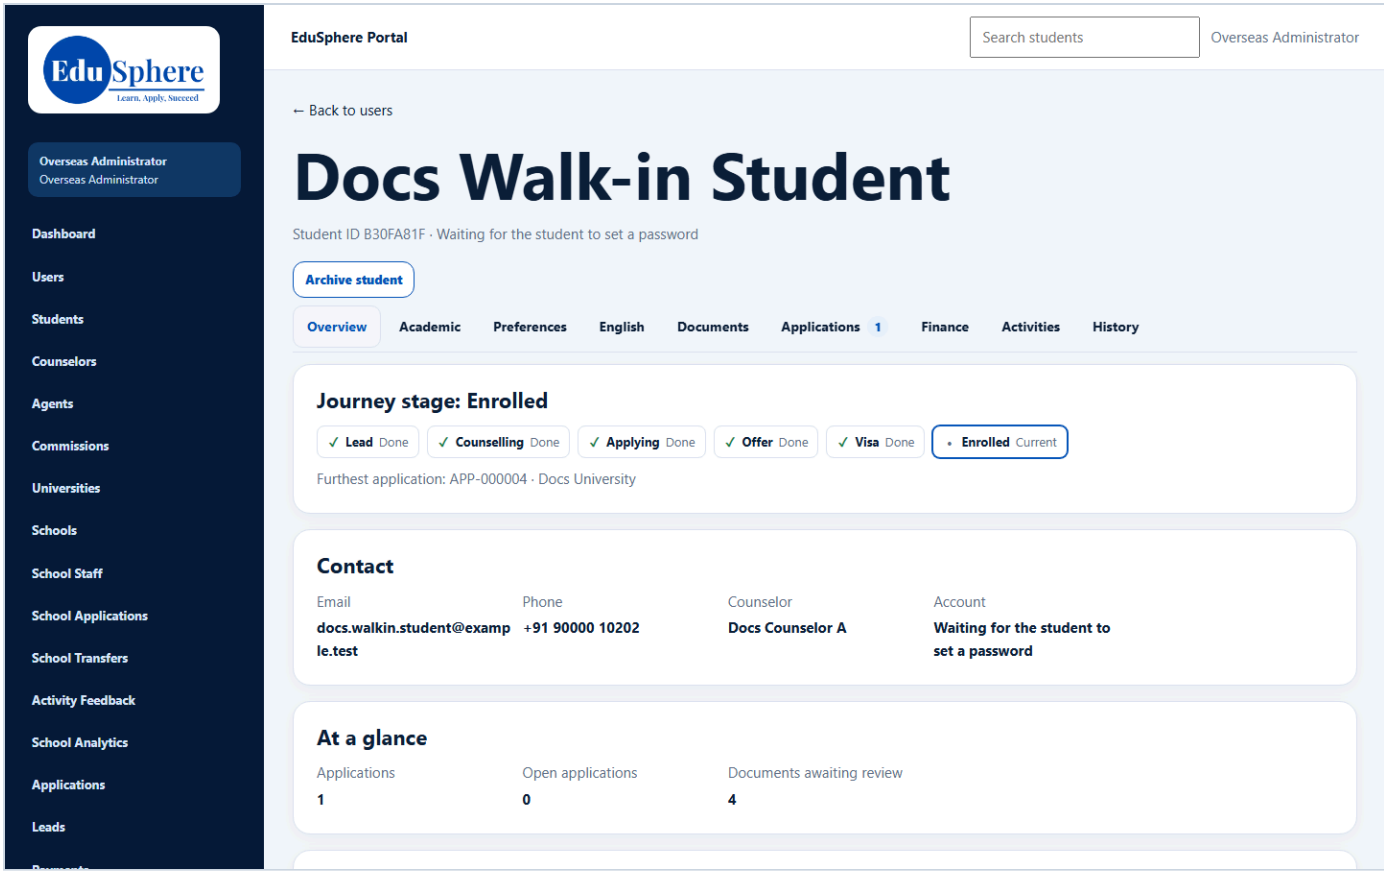

Step 1 — Find the student

The page says “Every archived overseas student. Restore one to put them and their applications back in the working lists.” Each row shows the name, Student ID, email and the archive banner (date, who and reason).

Step 2 — Restore

Select **Restore student** on the row, or open the student and select it there. The banner disappears.

Expected Result

The student and their applications return to the counselor's lists. The counselor is notified ("Student restored"), and **History** shows "Restored".

Validation Messages
