Overseas Counselor CRM — User Manual

How an Overseas counselor works in EduSphere: from the first conversation with a lead to the student's arrival at university. Every page was checked against the running application (`main` @ `045d8c40`) with fictional **Docs** test data.

New to the portal? Read Sign in, then the Portal tour, then the counselor role guide *(see the Role Quick-Start Guides)*.

Help

FAQ *(see the FAQ and Troubleshooting)* · Troubleshooting *(see the FAQ and Troubleshooting)* · Admin manual *(see the Administrator Manual)*

Sign in to the Overseas portal

> Doc ID: DOC-CNS-AUTH-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Open your counselor workspace: your leads, students, applications and daily tasks.

Who Can Use This Feature

Overseas counselors with an active account and a password they have already set. If you have never signed in, first set your first password.

Prerequisites

- Your account was created by an Overseas Admin.
- You have set your password from the welcome email.

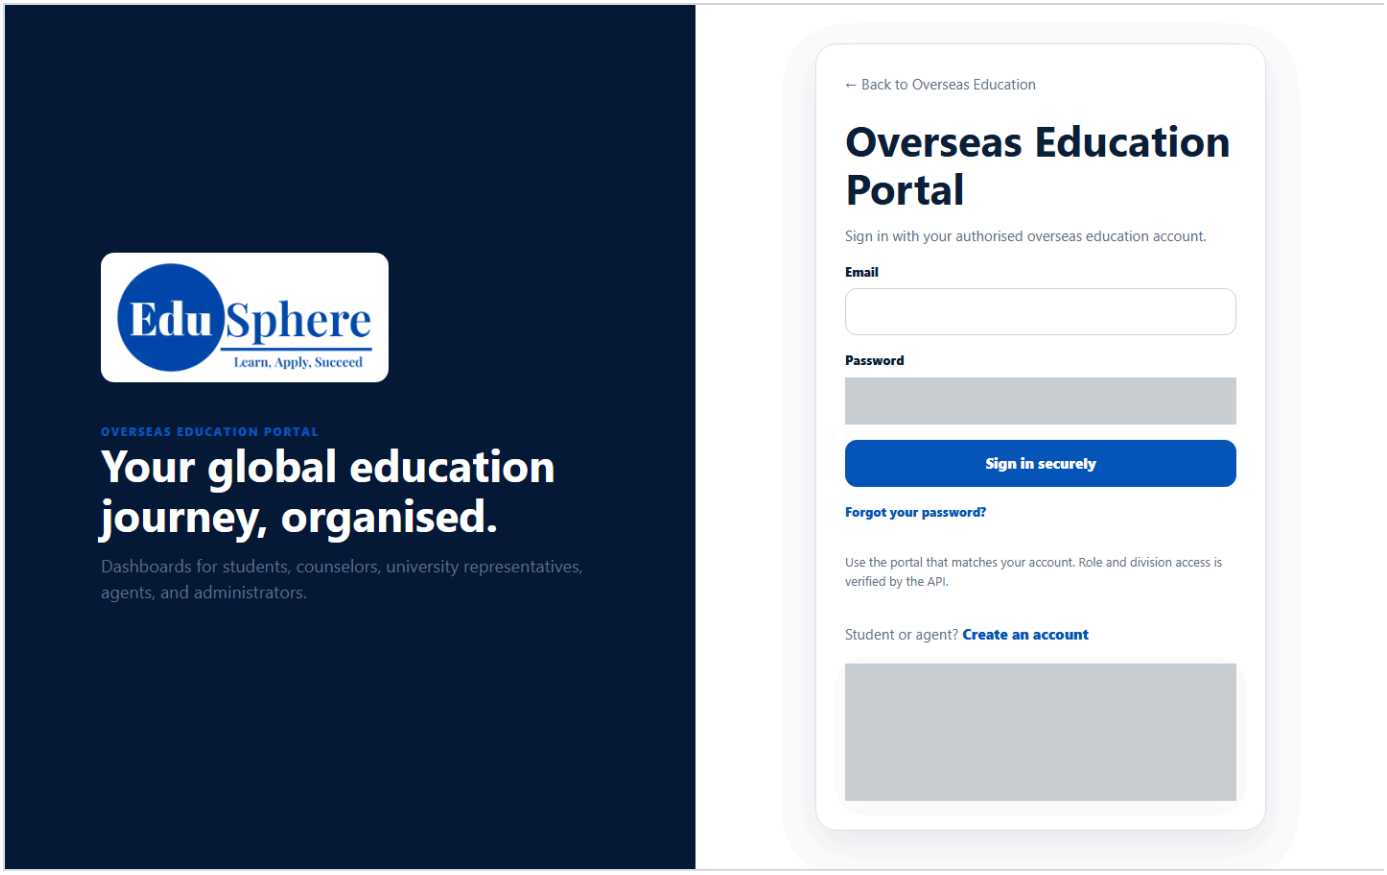

How to Access

Go to the EduSphere **Overseas Education Portal** sign-in page (`/overseas/login`). Counselors do **not** use the **Administration sign-in** page.

Steps

Step 1 — Open the sign-in page

The page is headed **Overseas Education Portal** — “Sign in with your authorised overseas education account.”

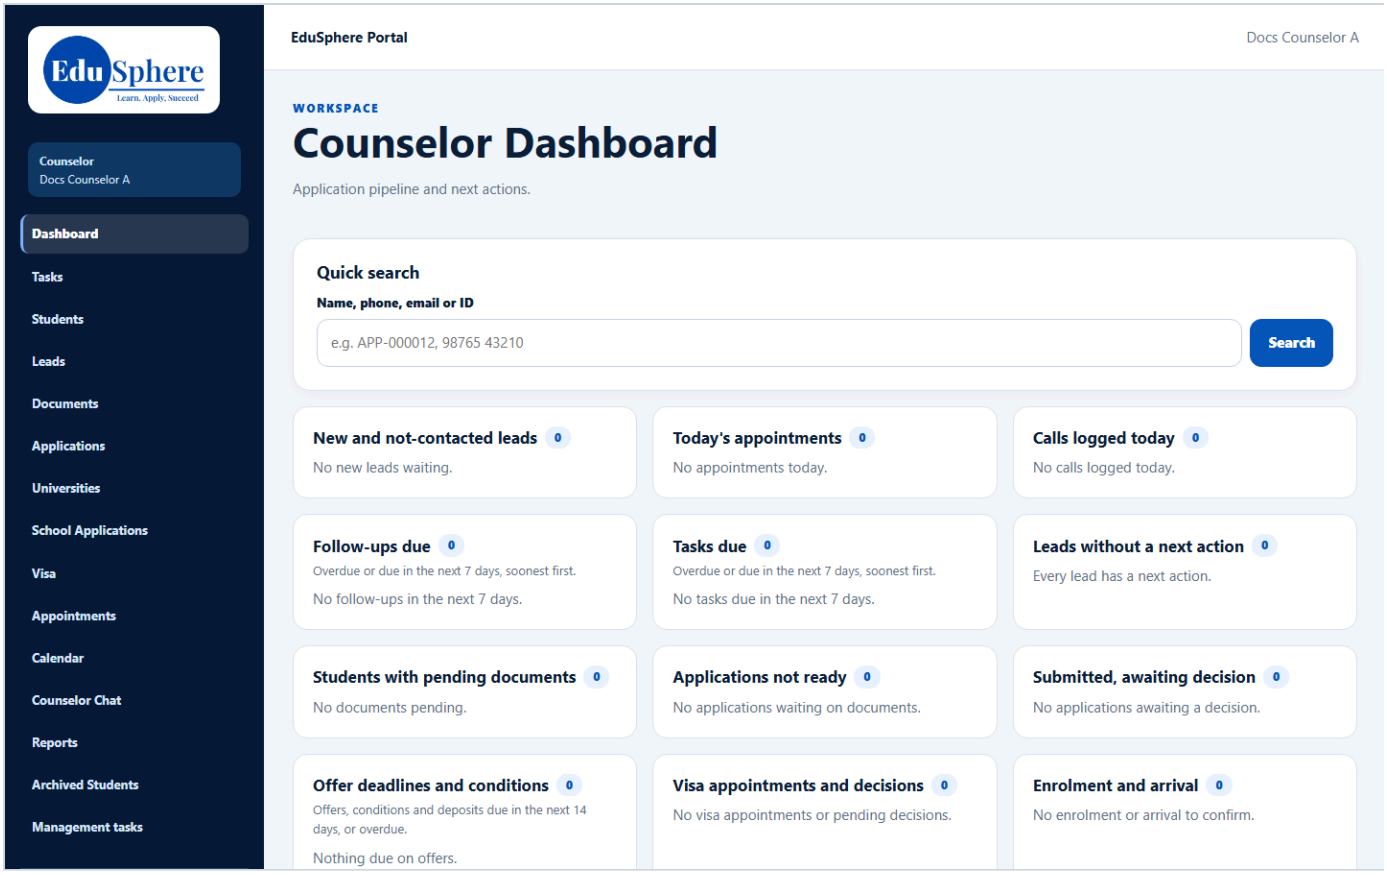

Step 2 — Enter your email and password

Type your work **Email** and **Password**, then select **Sign in securely**.

Step 3 — Start on your dashboard

You arrive on the **Counselor Dashboard** (“Application pipeline and next actions”). If you opened a counselor link while signed out, you are taken to that page instead.

Fields

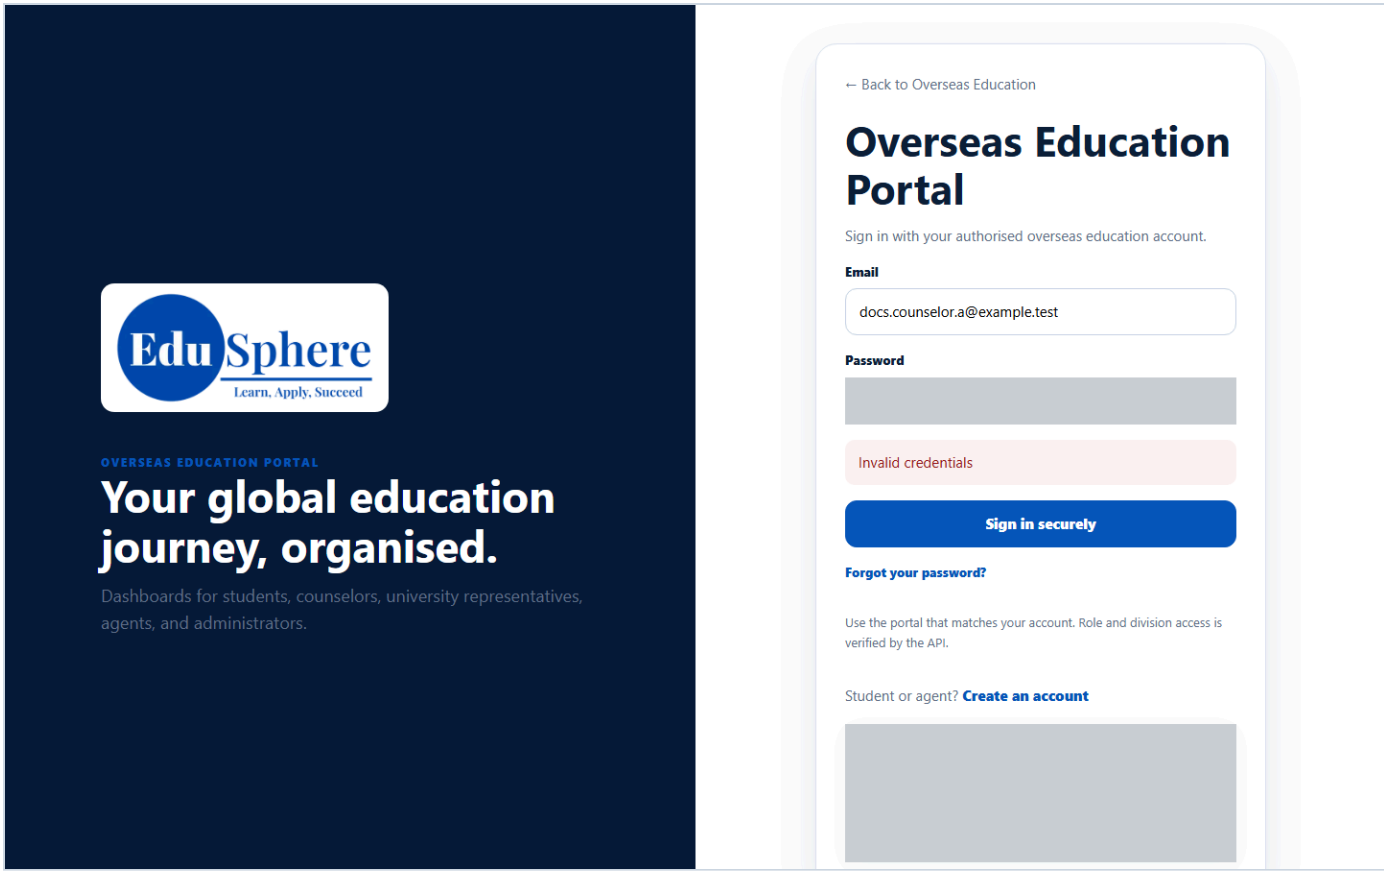

Field	Description	Required	Example
Email	The email your account was created with	Yes	docs.counselor.a@example.test
Password	Your password (at least 10 characters)	Yes	—

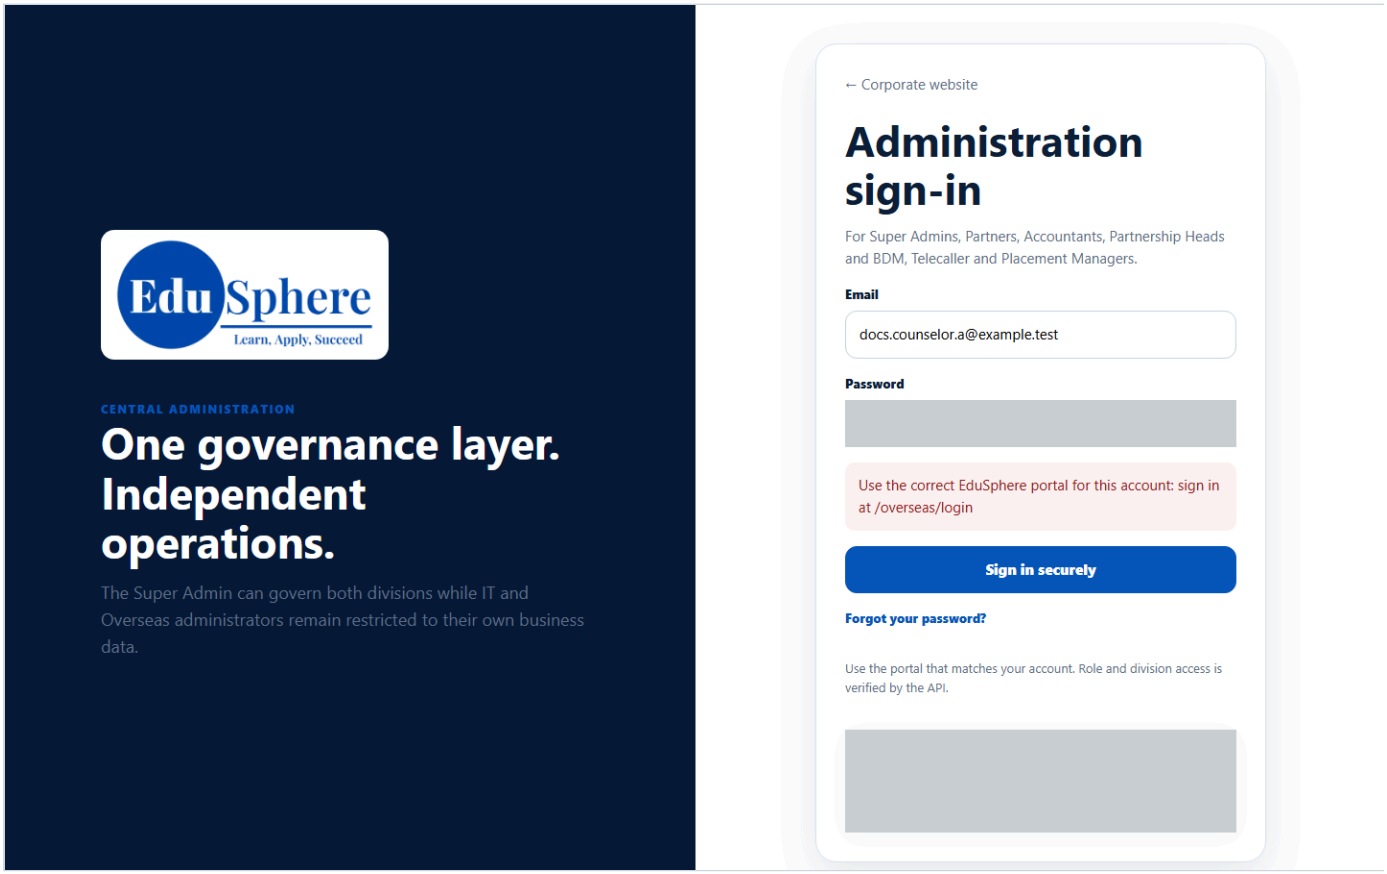

Expected Result

You are signed in and see the counselor sidebar with your name under **Counselor**.

Validation Messages

Message	When
Invalid credentials	The email or password is wrong, or the account has been deactivated
Use the correct EduSphere portal for this account: sign in at /overseas/login	You signed in on another portal's page (for example **Administration sign-in**)

Common Errors

Problem: “Invalid credentials” although you are sure of the password. **Cause:** Your account may have been deactivated; EduSphere shows the same message in that case. **Resolution:** Use Forgot your password?. If no email arrives, ask your Overseas Admin whether the account is active.

Problem: “Use the correct EduSphere portal for this account”. **Resolution:** Go to the **Overseas Education Portal** page (`/overseas/login`) and sign in there.

Problem: You never received a password. **Resolution:** Counselors don’t get a password by email — they set one from the welcome link. Ask your Overseas Admin to re-send it.

Tips

- Bookmark the dashboard. If you are signed out, opening it takes you to sign-in and then back to the dashboard.
- **Create an account** on the sign-in page is for students and agents, not counselors.

Related Features

Set your first password from the welcome email

> Doc ID: DOC-CNS-AUTH-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Activate your new counselor account by choosing your own password.

Who Can Use This Feature

A counselor whose account an Overseas Admin (or Super Admin) has just created.

Prerequisites

- You received the email **Welcome to EduSphere – set your password**.
- The link is less than **72 hours** old and has not been used or replaced by a newer one.

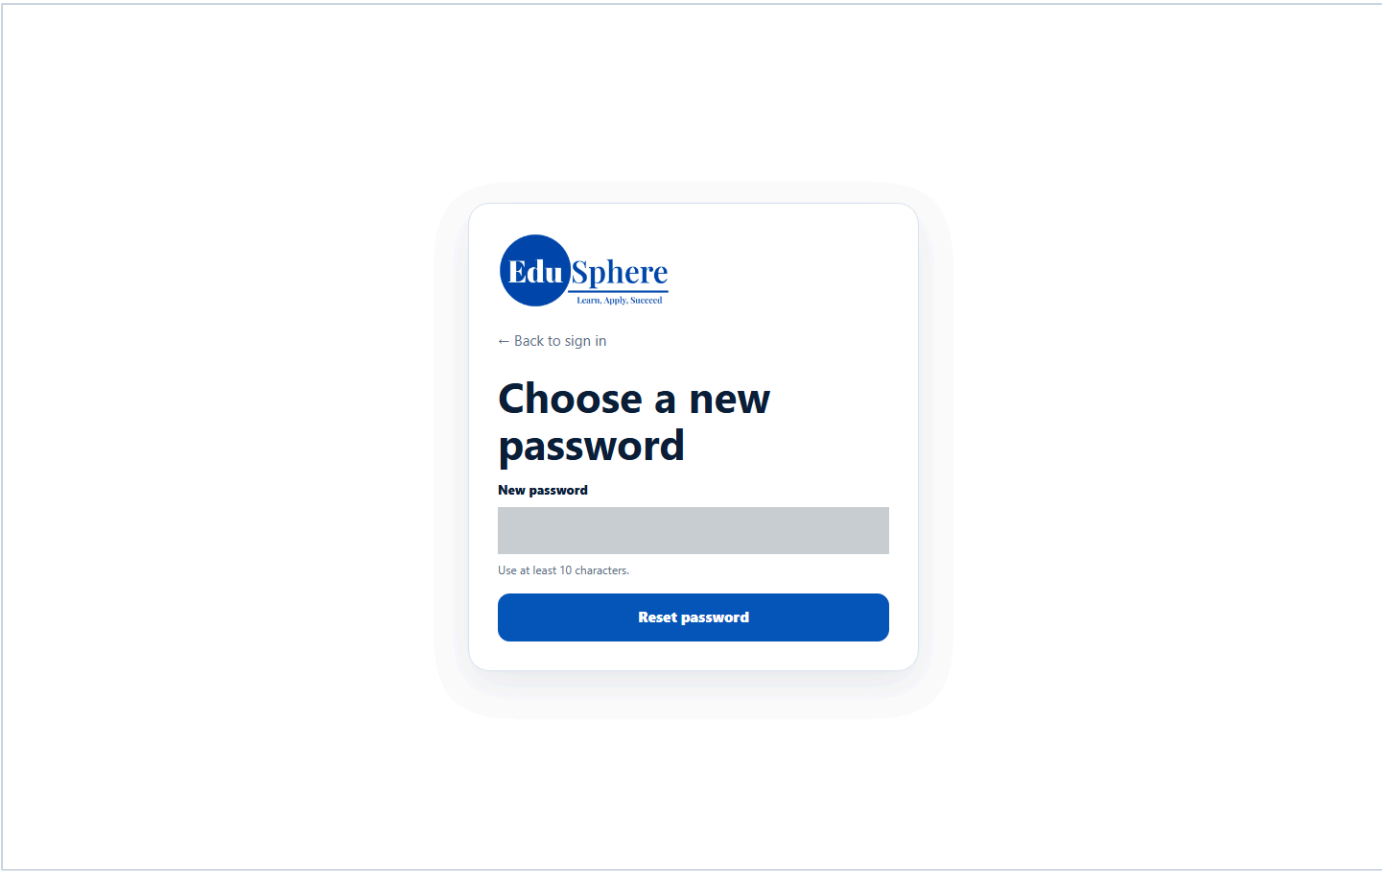

How to Access

Open the link in the welcome email.

Steps

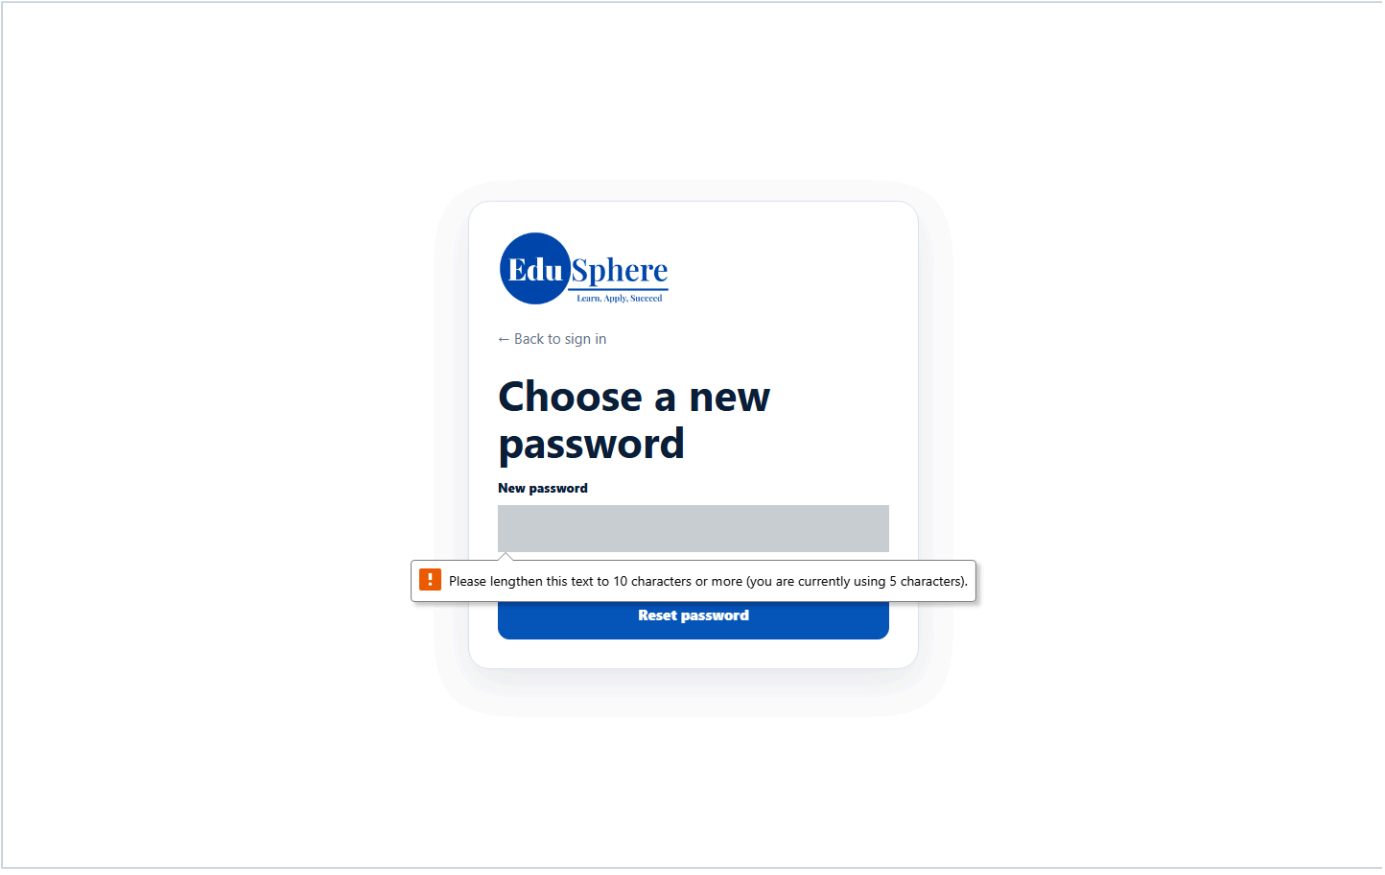

Step 1 — Open the link

The page **Choose a new password** opens.

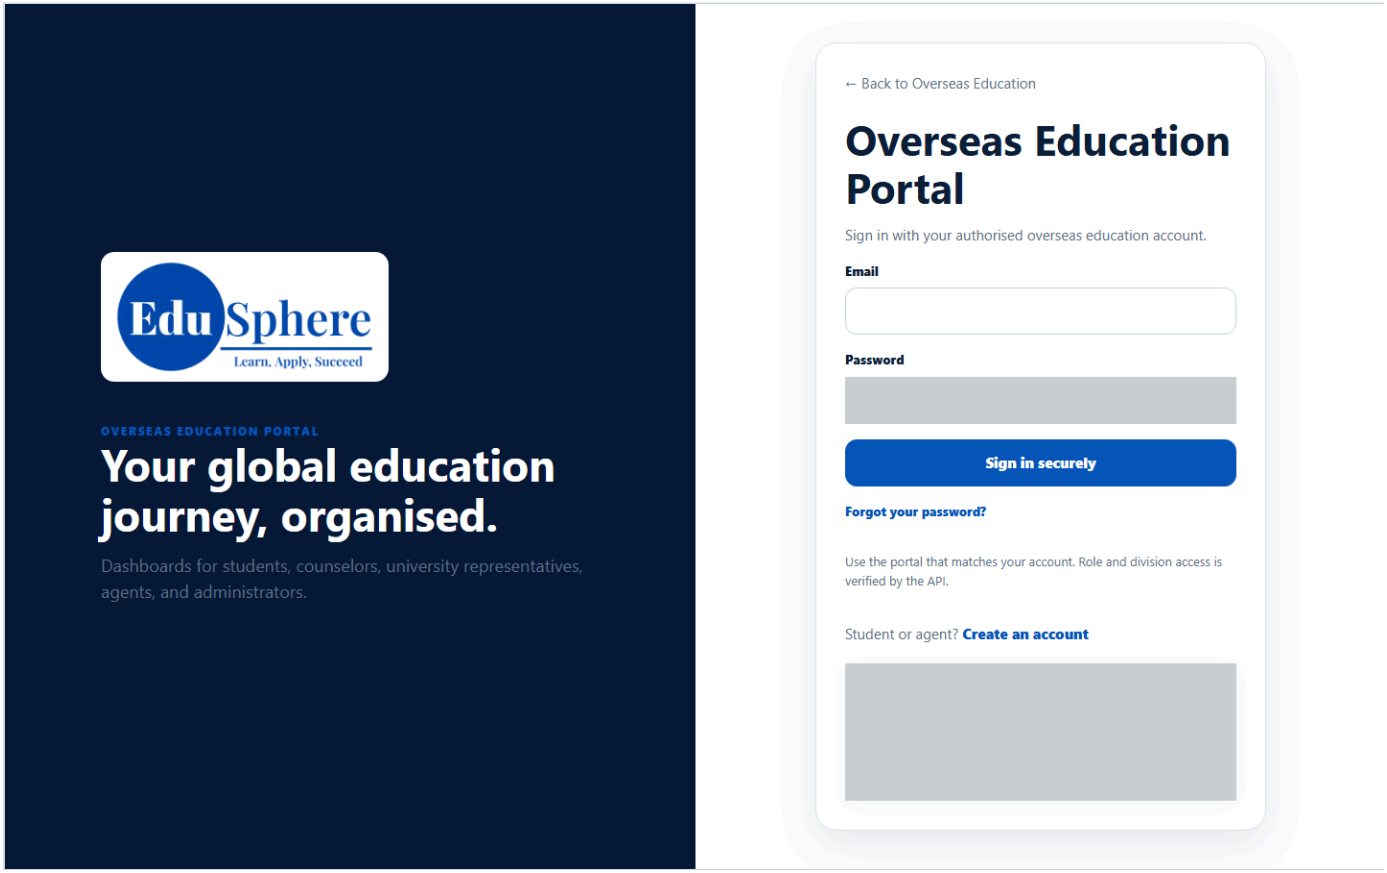

Step 2 — Enter a password

Type a **New password** of at least 10 characters. If it is too short, your browser asks you to lengthen it.

Step 3 — Save it

Select **Reset password**. You are taken to the **Overseas Education Portal** sign-in page. Sign in with your email and the new password.

Fields

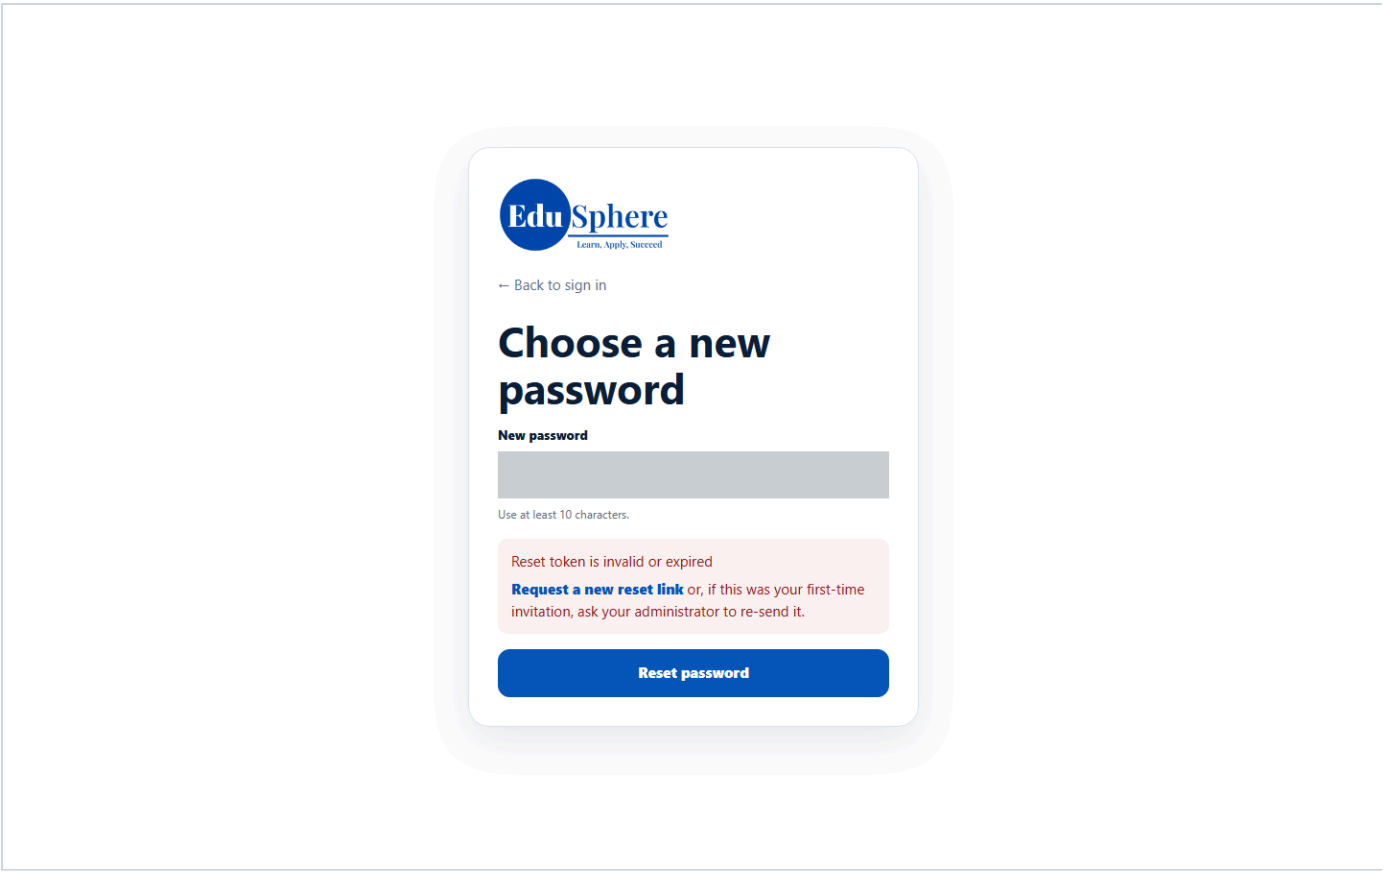

Field	Description	Required	Example
New password	10 to 128 characters	Yes	—

Expected Result

Your account changes from **Awaiting setup** to **Password set**, and you can sign in.

Validation Messages

Message	When
Please lengthen this text to 10 characters or more …	Browser check: the password is shorter than 10 characters
Password must be at least 10 characters / Password must be at most 128 characters	The server rejected the length
Reset token is invalid or expired — Request a new reset link or, if this was your first-time invitation, ask your administrator to re-send it.	The link was already used, is older than 72 hours, was replaced by a newer link, or the account is inactive
This reset link is missing its token. Request a new one from the forgot-password page.	The link was cut short when copied

Reset token is invalid or expired

Common Errors

Problem: “Reset token is invalid or expired”. **Cause:** Each link works once, for 72 hours, and a re-sent link replaces the earlier one. **Resolution:** Use the newest email, or ask your Overseas Admin to select **Re-send link**.

Problem: The email never arrived. **Resolution:** Check spam, then ask your Overseas Admin to re-send the link.

Tips

- Use the link from the most recent welcome email only.
- After you set the password, the same link cannot be used again; use Forgot your password? in future.

Related Features

- Sign in
- Forgot / reset your password
- Manage counselor users (admin) *(see the Administrator Manual)*

Forgot / reset your password

> Doc ID: DOC-CNS-AUTH-003 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Choose a new password when you have forgotten the current one.

Who Can Use This Feature

Any active counselor who has set a password before.

Prerequisites

You can open email at your work address.

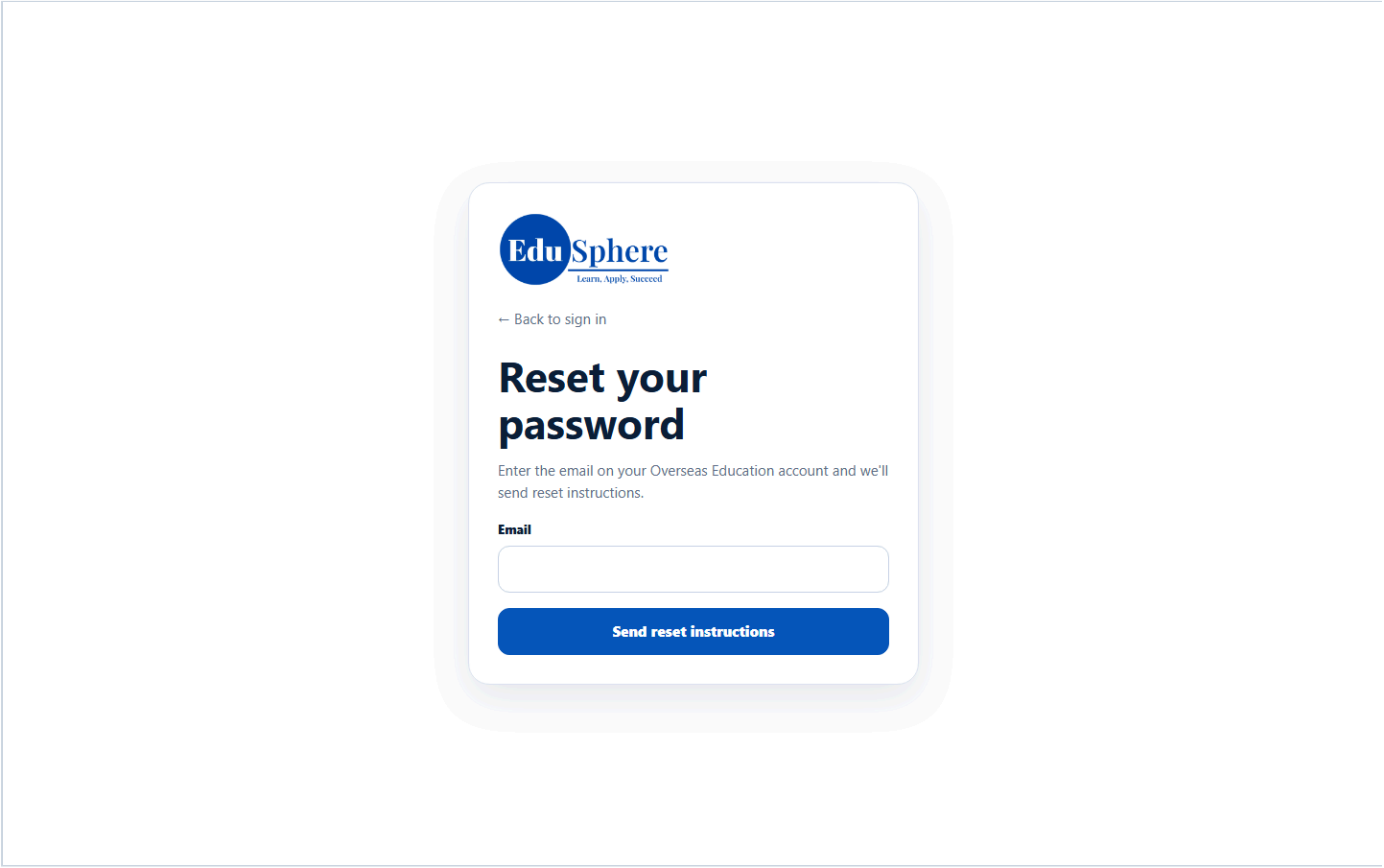

How to Access

On the **Overseas Education Portal** sign-in page, select **Forgot your password?**.

Steps

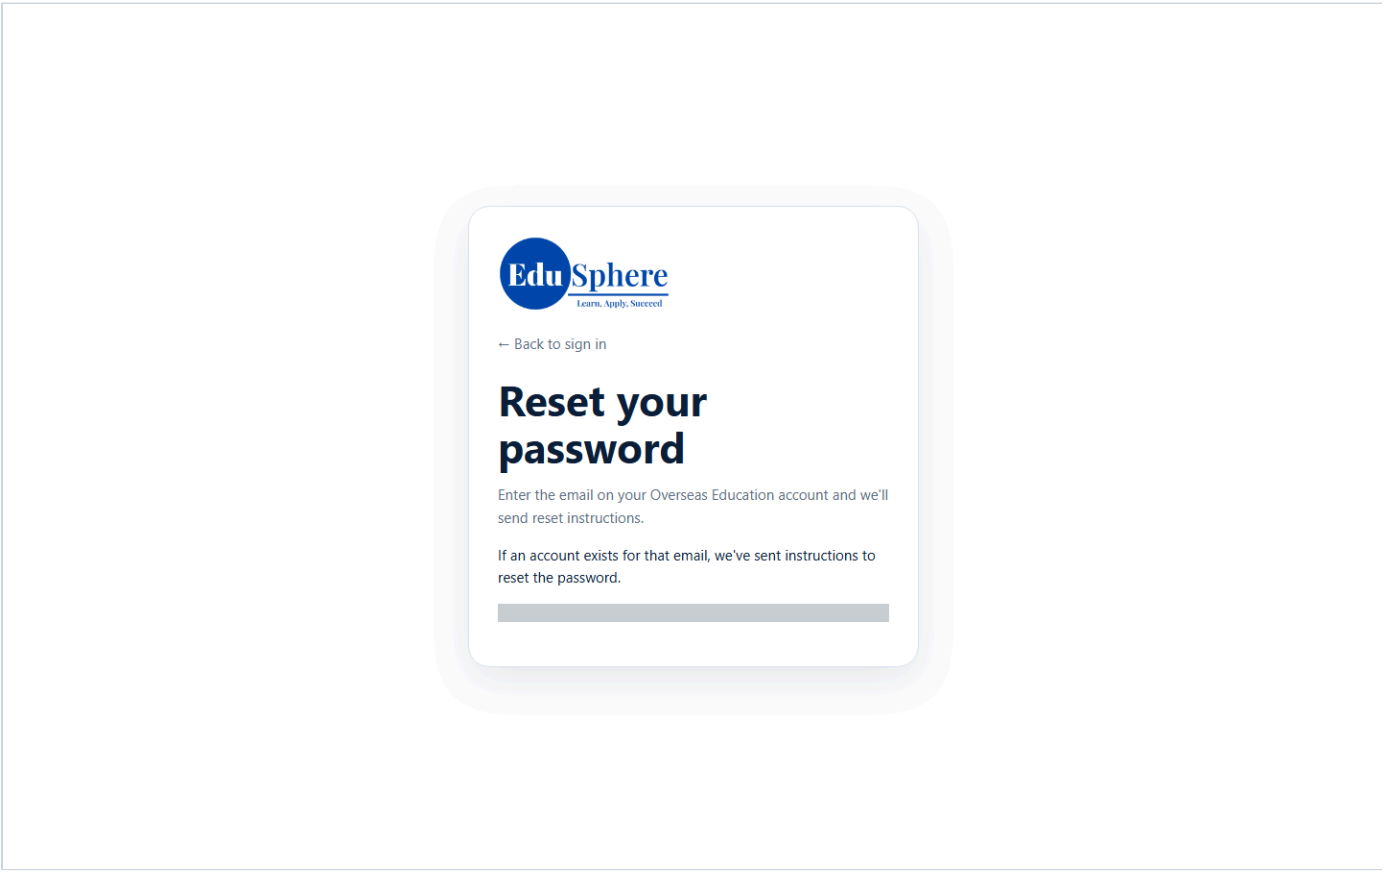

Step 1 — Open Reset your password

Enter the **Email** on your account.

Step 2 — Send the instructions

Select **Send reset instructions**. The page always says **If an account exists for that email, we've sent instructions to reset the password.**, whether or not the email is registered.

Step 3 — Use the emailed link

Open **Reset your EduSphere password** in your inbox and select the link within **30 minutes**. On **Choose a new password**, enter a **New password** (at least 10 characters) and select **Reset password**. You are taken to the sign-in page. The page is the same as in Set your first password.

Fields

Field	Description	Required	Example
Email	Your account email	Yes	docs.counselor.a@example.test
New password	10 to 128 characters	Yes	—

Expected Result

You can sign in with the new password. Any older reset links stop working.

Validation Messages

Message	When
If an account exists for that email, we've sent instructions to reset the password.	Always, after **Send reset instructions**

Message	When
Reset token is invalid or expired	The link is older than 30 minutes, was used, or a newer one was sent

Common Errors

Problem: No email arrives. **Cause:** The email is not registered, the account is inactive, or too many requests were sent recently. The page shows the same message in every case. **Resolution:** Wait a few minutes and try once more, then ask your Overseas Admin.

Problem: The link says it is invalid or expired. **Resolution:** Request a new link; reset links last 30 minutes.

Tips

- If you are signed in and know your current password, use Change your password instead.

Related Features

- Sign in
- Change your password

Change your password

> Doc ID: DOC-CNS-AUTH-004 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Replace your password while you are signed in.

Who Can Use This Feature

Any signed-in counselor.

Prerequisites

You know your current password.

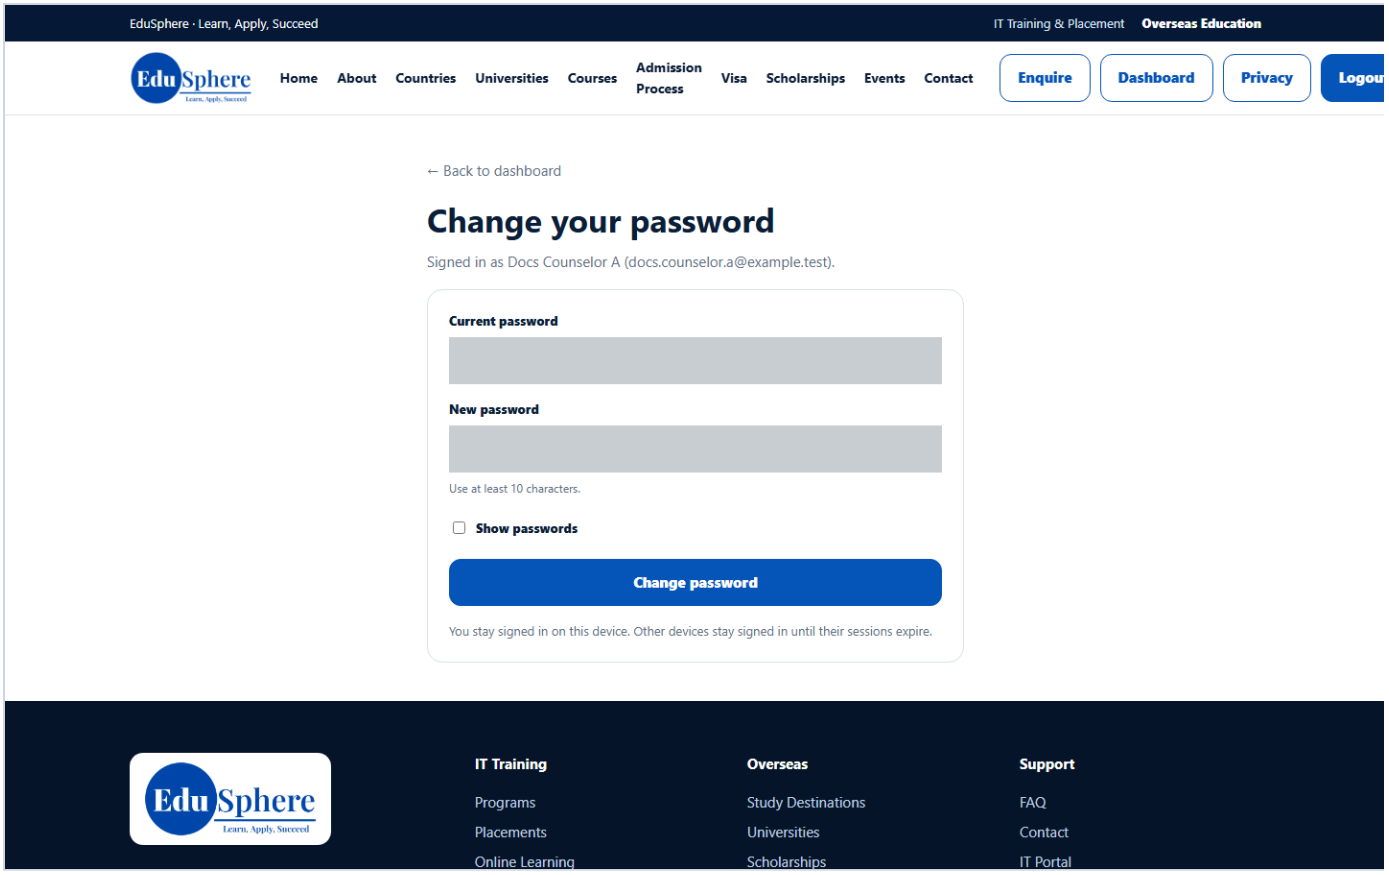

How to Access

Sidebar footer → **Change password**. On a phone: menu (☰) → **Change password**.

Steps

Step 1 — Open Change password

The page shows who is signed in (“Signed in as {name} ({email})”) and a ← **Back to dashboard** link. It opens inside the public website header.

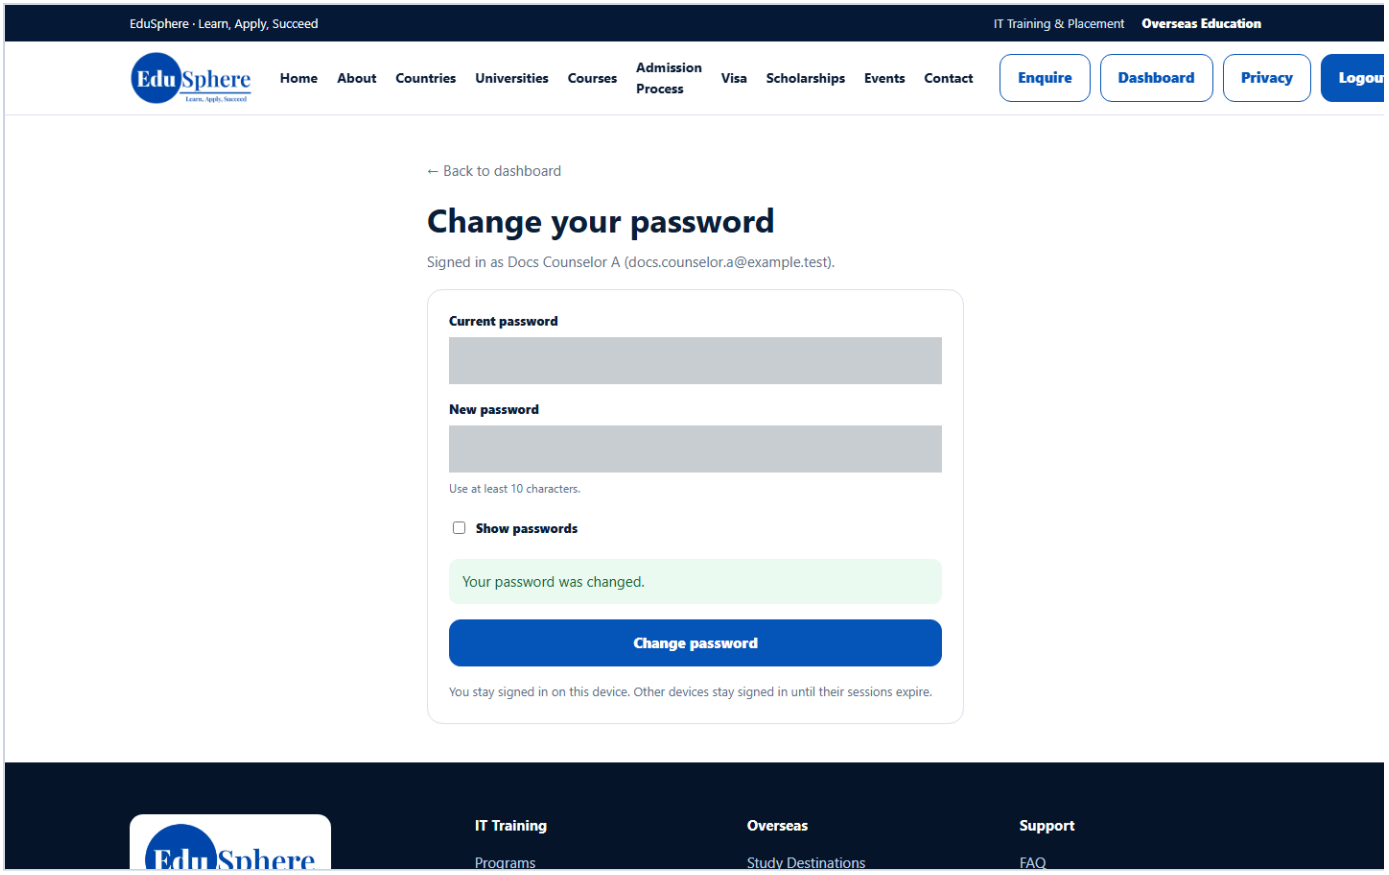

Step 2 — Enter both passwords

Type your **Current password** and a **New password** of at least 10 characters that is different from the current one.

Step 3 — Save

Select **Change password**. **Your password was changed.** appears.

Fields

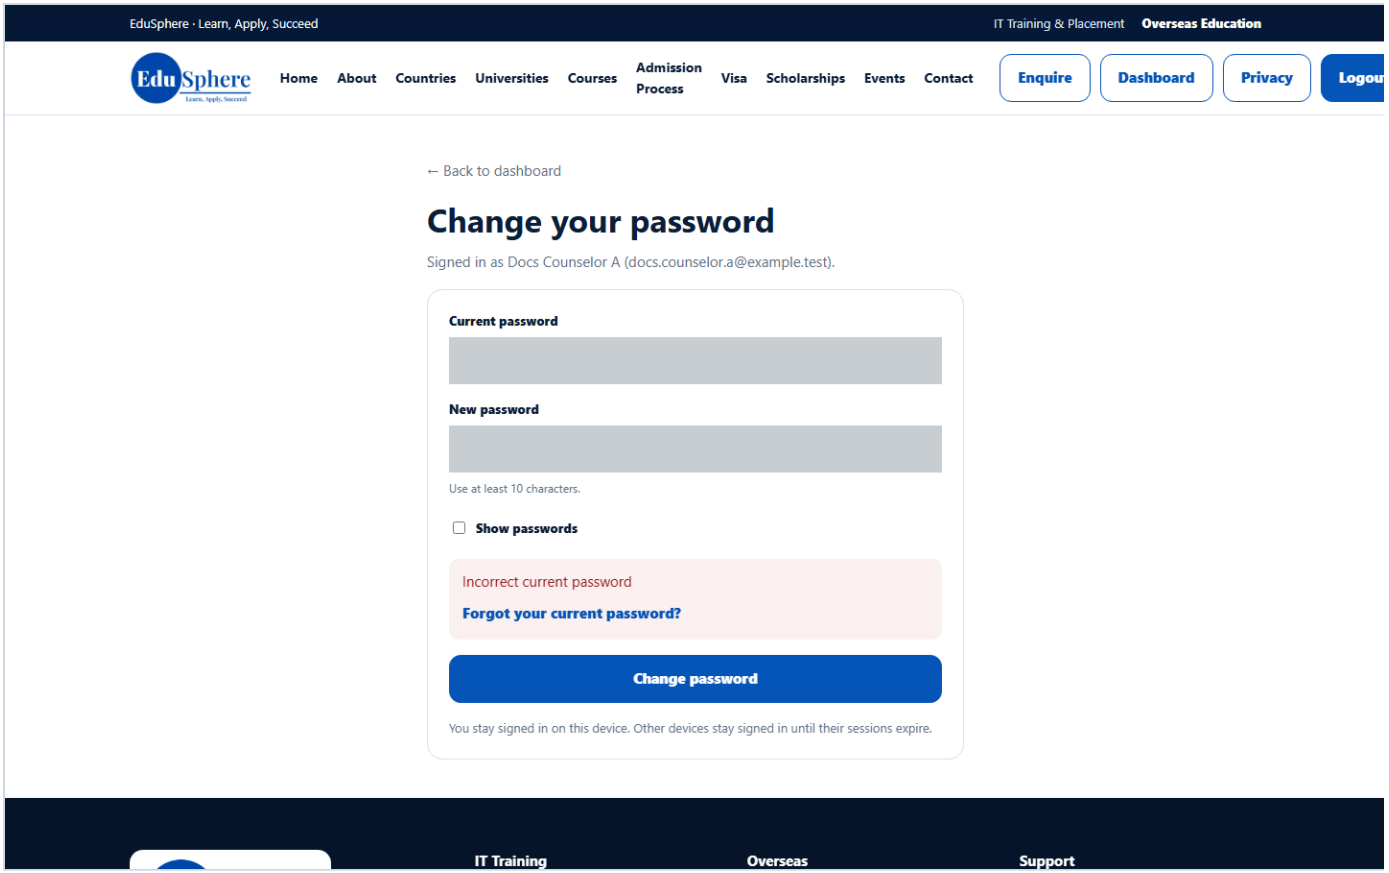

Field	Description	Required	Example
Current password	The password you signed in with	Yes	—
New password	10 to 128 characters, different from the current one	Yes	—

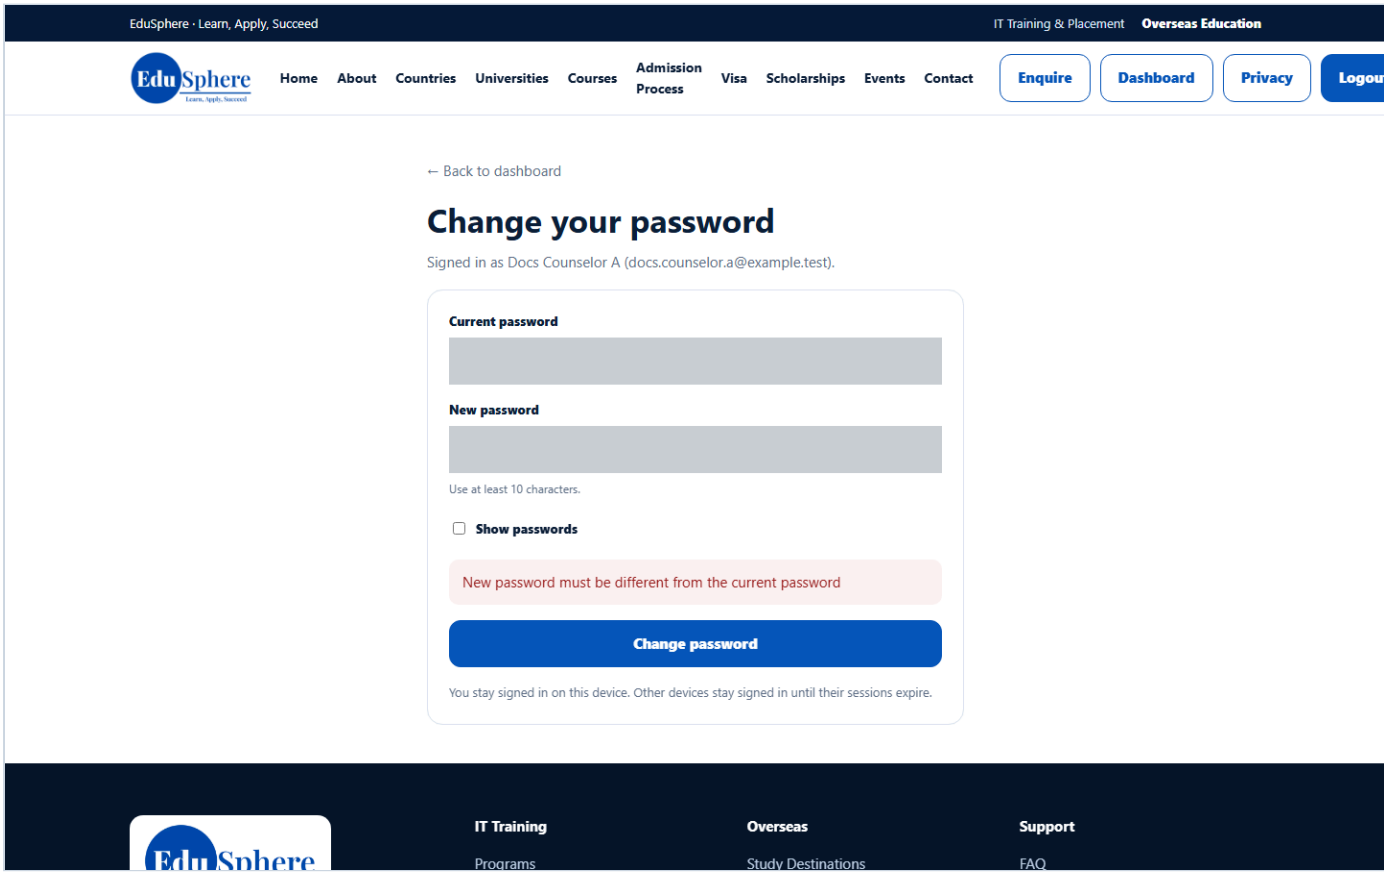

Expected Result

Use the new password the next time you sign in. Any unused reset links are cancelled.

Validation Messages

Message	When
Your password was changed.	Success
Incorrect current password (with a **Forgot your current password?** link)	The current password is wrong
New password must be different from the current password	Both passwords are the same
Too many incorrect attempts; try again in {n} seconds	Five wrong current passwords within 15 minutes
Your session has expired. Sign in again to change your password.	You were signed out

Common Errors

Problem: “Incorrect current password”. **Resolution:** Try again carefully, or select **Forgot your current password?** to reset it by email.

Problem: “Too many incorrect attempts”. **Resolution:** Wait for the number of seconds shown, or reset by email.

Tips

- Select ← **Back to dashboard** to return to your workspace.

Related Features

- Forgot / reset your password
- My profile

My profile

> Doc ID: DOC-CNS-AUTH-005 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Keep your name and phone number current, and choose how EduSphere sends you updates.

Who Can Use This Feature

Any signed-in counselor.

Prerequisites

None.

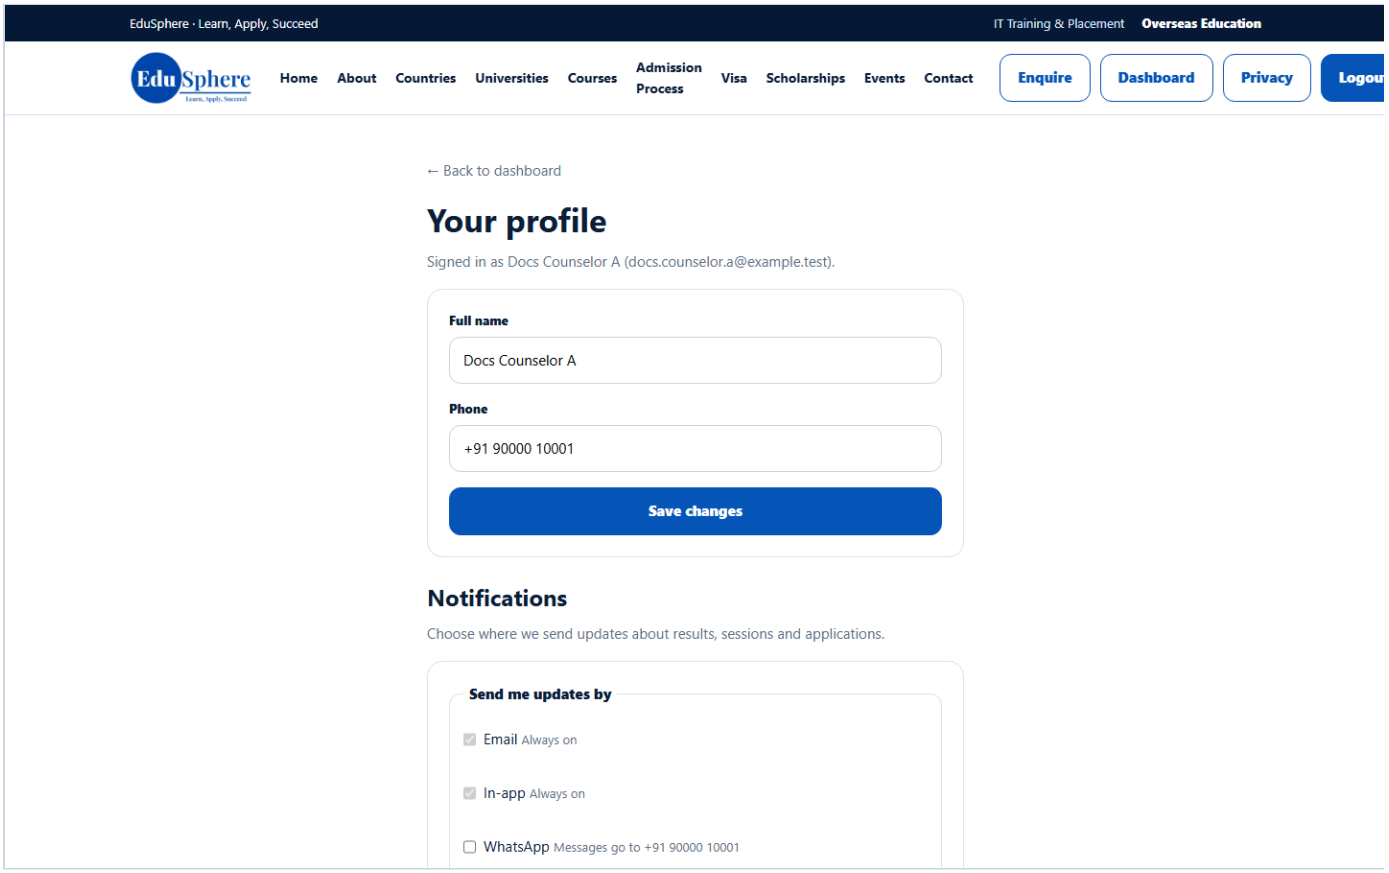

How to Access

Sidebar footer → **My profile**. On a phone: menu (☰) → **My profile**.

Steps

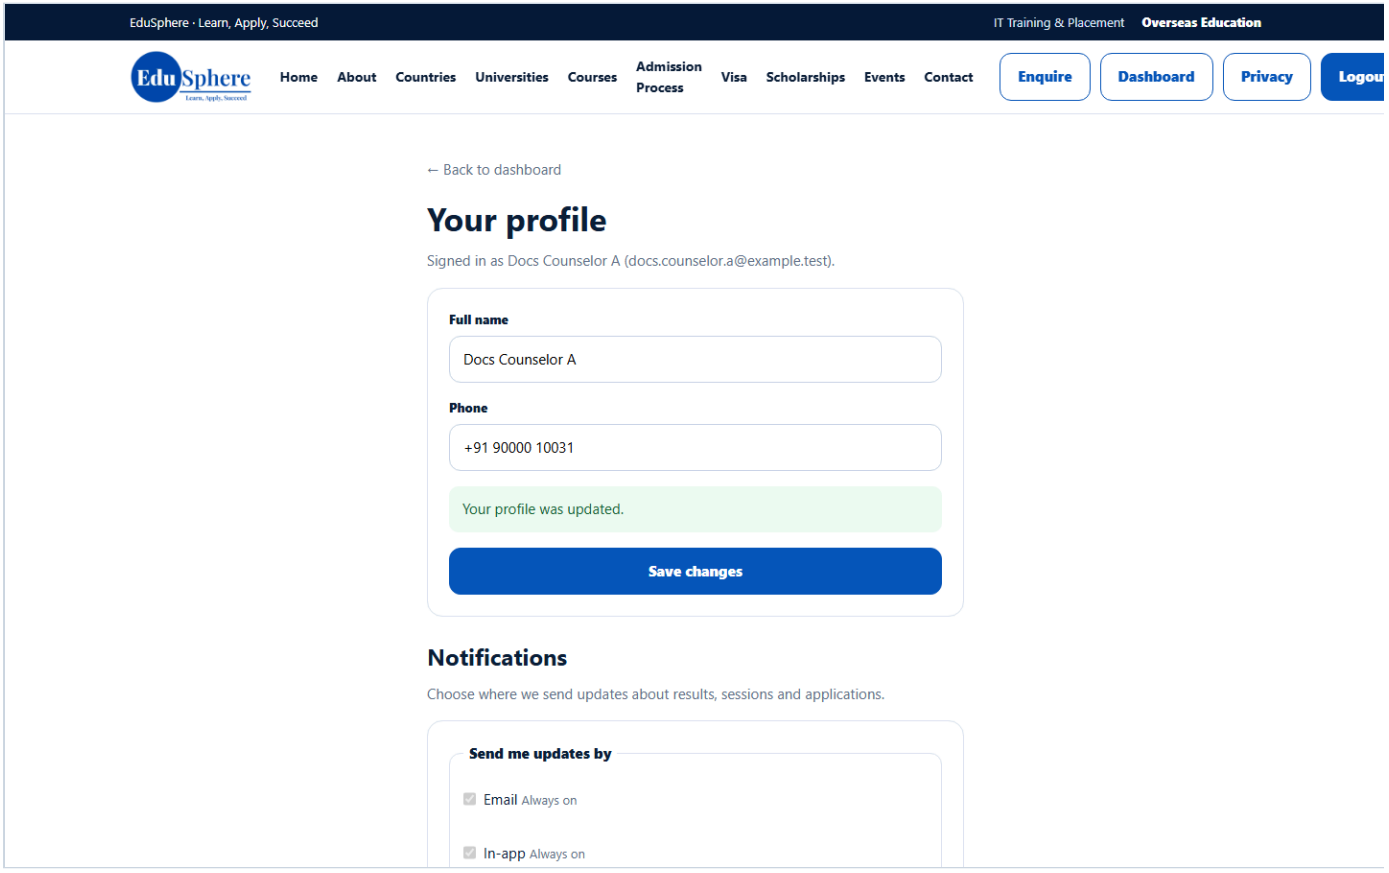

Step 1 — Open Your profile

The page **Your profile** shows “Signed in as {name} ({email})” and opens inside the public website header.

Step 2 — Update your details

Change **Full name** or **Phone**, then select **Save changes**. **Your profile was updated.** appears.

Step 3 — Choose notification channels (optional)

Under **Notifications** → **Send me updates by**, **Email** and **In-app** are always on. Tick **WhatsApp** or **SMS** to also get messages at your phone number, then select **Save notification settings**. Turning on WhatsApp or SMS means you agree to receive these messages; you can turn them off here at any time. The WhatsApp and SMS boxes can only be ticked once a valid mobile number (a 10-digit Indian mobile number, or an international number starting with +) is saved in **Phone**.

Fields

Field	Description	Required	Example
Full name	Shown to colleagues and students	Yes	Docs Counselor A
Phone	Your contact number; also used for WhatsApp/SMS updates	No	+91 90000 10031
WhatsApp / SMS	Extra channels for updates	No	Off

Expected Result

The new name appears in the sidebar and top bar the next time a page loads.

Validation Messages

Message	When
Your profile was updated.	Details saved

Common Errors

Problem: WhatsApp or SMS updates go to an old number. **Resolution:** Update **Phone** and save, then save the notification settings again.

Tips

- Your email address cannot be changed here; ask your Overseas Admin.
- Select ← **Back to dashboard** to return to your workspace.

Related Features

- Change your password
- Portal tour

Sign out, ended sessions, deactivated account

> Doc ID: DOC-CNS-AUTH-006 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

End your session safely, and understand what happens when a session ends or an account is deactivated.

Who Can Use This Feature

Any signed-in counselor.

Prerequisites

None.

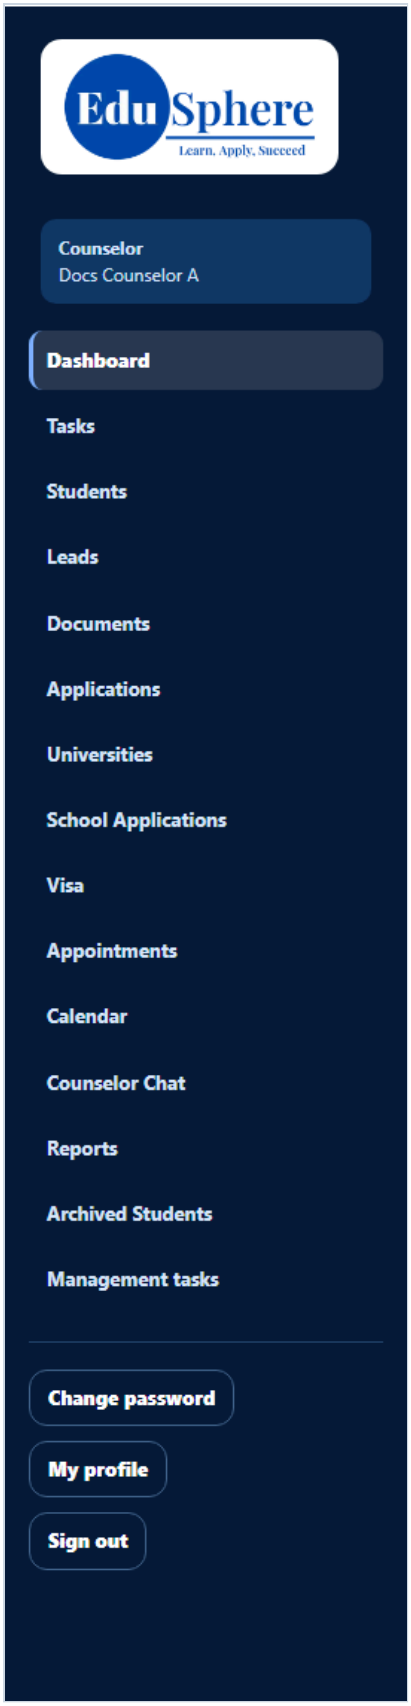

How to Access

- **Desktop:** sidebar footer → **Sign out**.
- **Phone or small tablet:** the portal menu has no Sign out. Open **My profile** (or **Change password**) from the menu, then select **Logout** in the website header at the top.

Steps

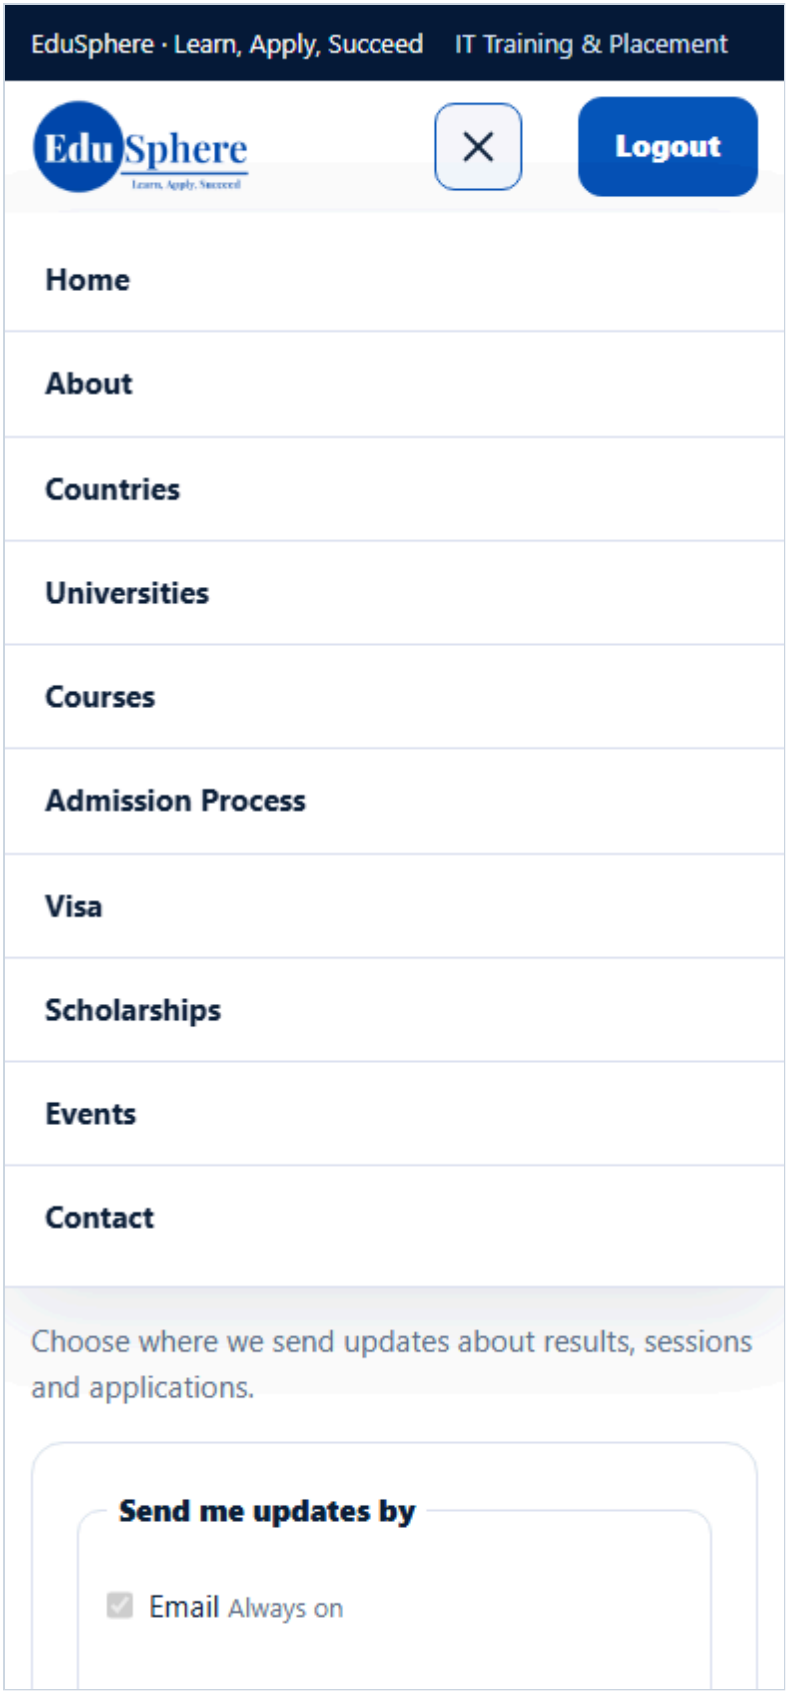

Step 1 — Sign out on a desktop

At the bottom of the sidebar, select **Sign out**. You are taken to the EduSphere home page.

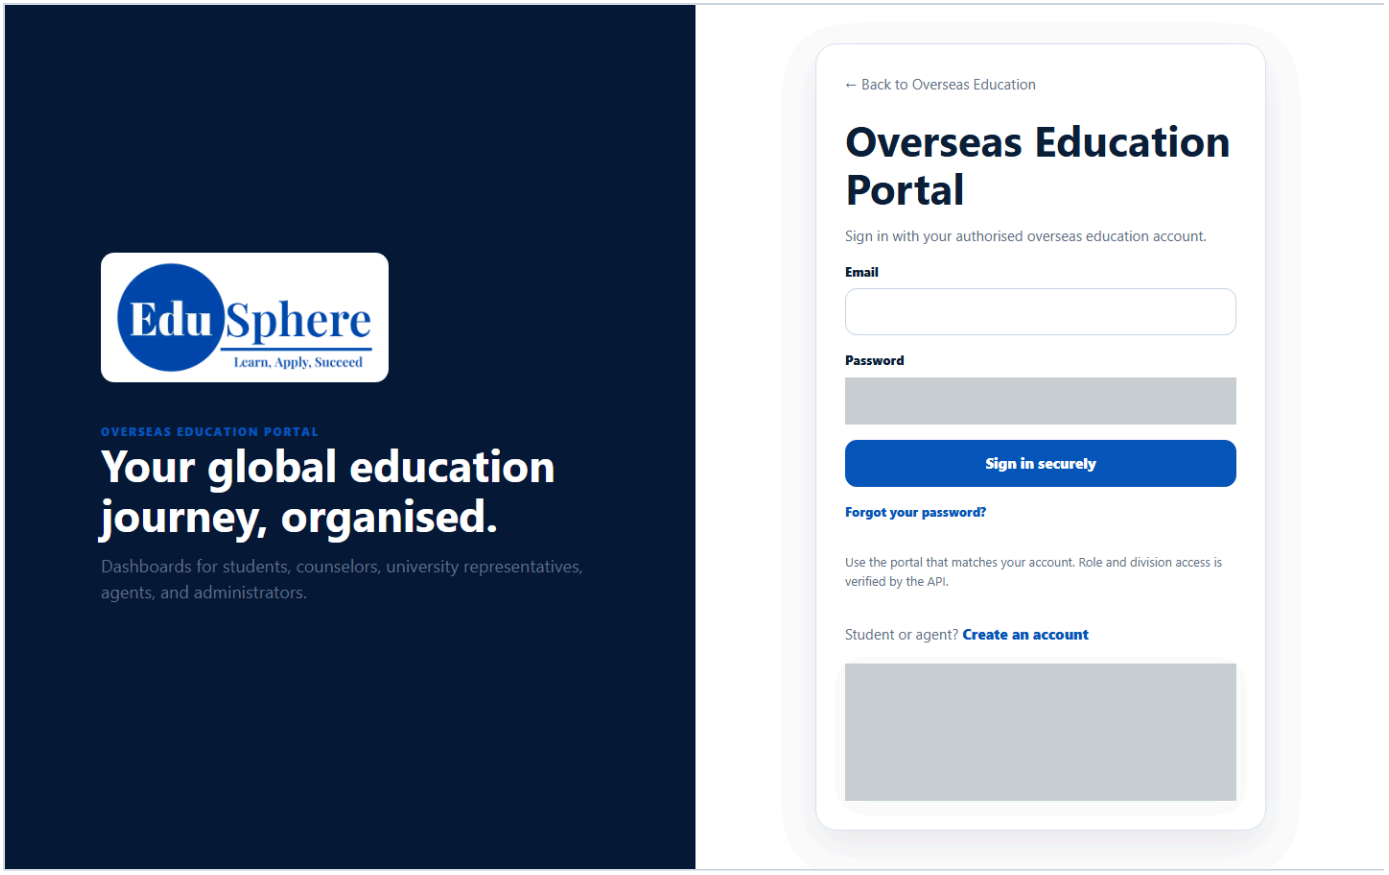

Step 2 — Sign out on a phone

Open the menu (☰) and select **My profile**. In the website header, select **Logout**. (The portal menu lists **Change password**, **My profile** and the workspace pages, but not Sign out.)

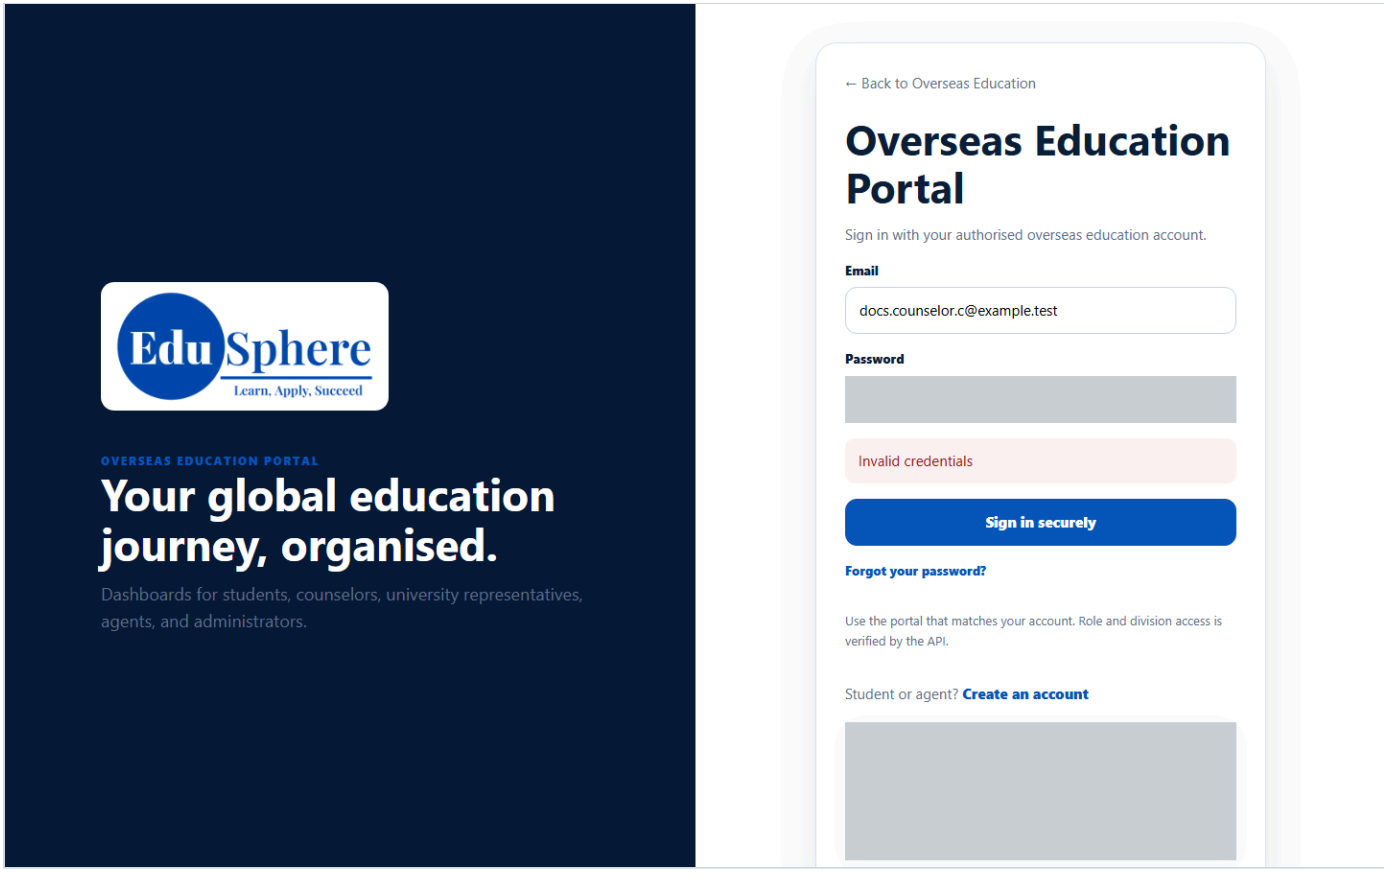

Step 3 — After signing out

If you open a counselor page while signed out, you are sent to the **Overseas Education Portal** sign-in page. After you sign in, you return to the page you asked for.

Deactivated account

When an Overseas Admin deactivates your account, signing in shows **Invalid credentials**, the same message as a wrong password. Forgot-password sends no email to an inactive account. Ask your Overseas Admin to reactivate you.

Expected Result

Your session ends, and nobody using the same browser can open your workspace without signing in.

Validation Messages

Message	When
Invalid credentials	Signing in to a deactivated account

Common Errors

Problem: You can’t find Sign out on your phone. **Resolution:** Menu → **My profile** → **Logout** in the header.

Tips

- Always sign out on shared computers.

Related Features

- Sign in

- Manage counselor users (admin) *(see the Administrator Manual)*

Portal tour: sidebar, top bar and mobile menu

> Doc ID: DOC-CNS-NAV-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Know where everything is in the counselor workspace.

Who Can Use This Feature

Overseas counselors.

Prerequisites

You are signed in. See Sign in.

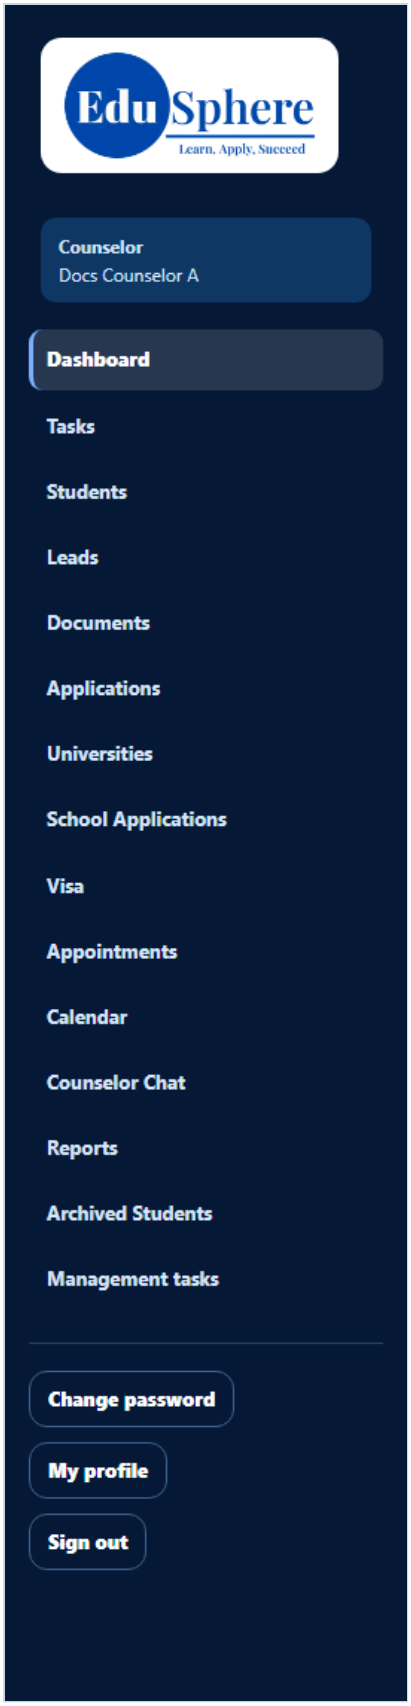

How to Access

Every counselor page shows the sidebar on the left and the top bar above the page.

Steps

Step 1 — The sidebar

Below the logo, the dark box shows your role (**Counselor**) and your name. The sidebar items, top to bottom:

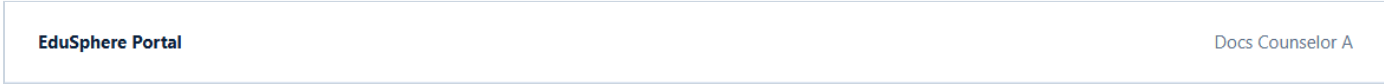

Sidebar item	Page title	What it is for	Guide
Dashboard	Counselor Dashboard	Quick search and today's action tiles	DASH-001, SRCH-001
Tasks	My tasks	Your tasks and overdue follow-ups	TASK-001, FUP-002

Sidebar item	Page title	What it is for	Guide
Students	Application Tracking	Applications table, **Evaluate Applications** and **My students**	STU-001, STU-002
Leads	My leads	Leads handed to you and walk-ins you recorded	LEAD-001
Documents	Document Verification	Students' documents and their status	DOC-002
Applications	Application Tracking	Applications table and **Evaluate Applications**	APP-004
Universities	Partner universities	Partner universities and their courses	UNI-001
School Applications	School-Linked Overseas Applications	Overseas applications for School-affiliated students (outside this guide)	—
Visa	Visa Tracking	Visa cases	VISA-001
Appointments	Lead appointments	Counselling appointments with your leads	CAL-001
Calendar	Calendar	Your calendar and calendar-feed link	CAL-002
Counselor Chat	Counselor Chat	Messages with your students	CHAT-001
Reports	My performance	Your own performance figures	REP-001
Archived Students	Archived students	Students you archived	STU-008
Management tasks	Management tasks	Tasks, decisions and meetings from EduSphere management	—

The sidebar footer has **Change password**, **My profile** and **Sign out**.

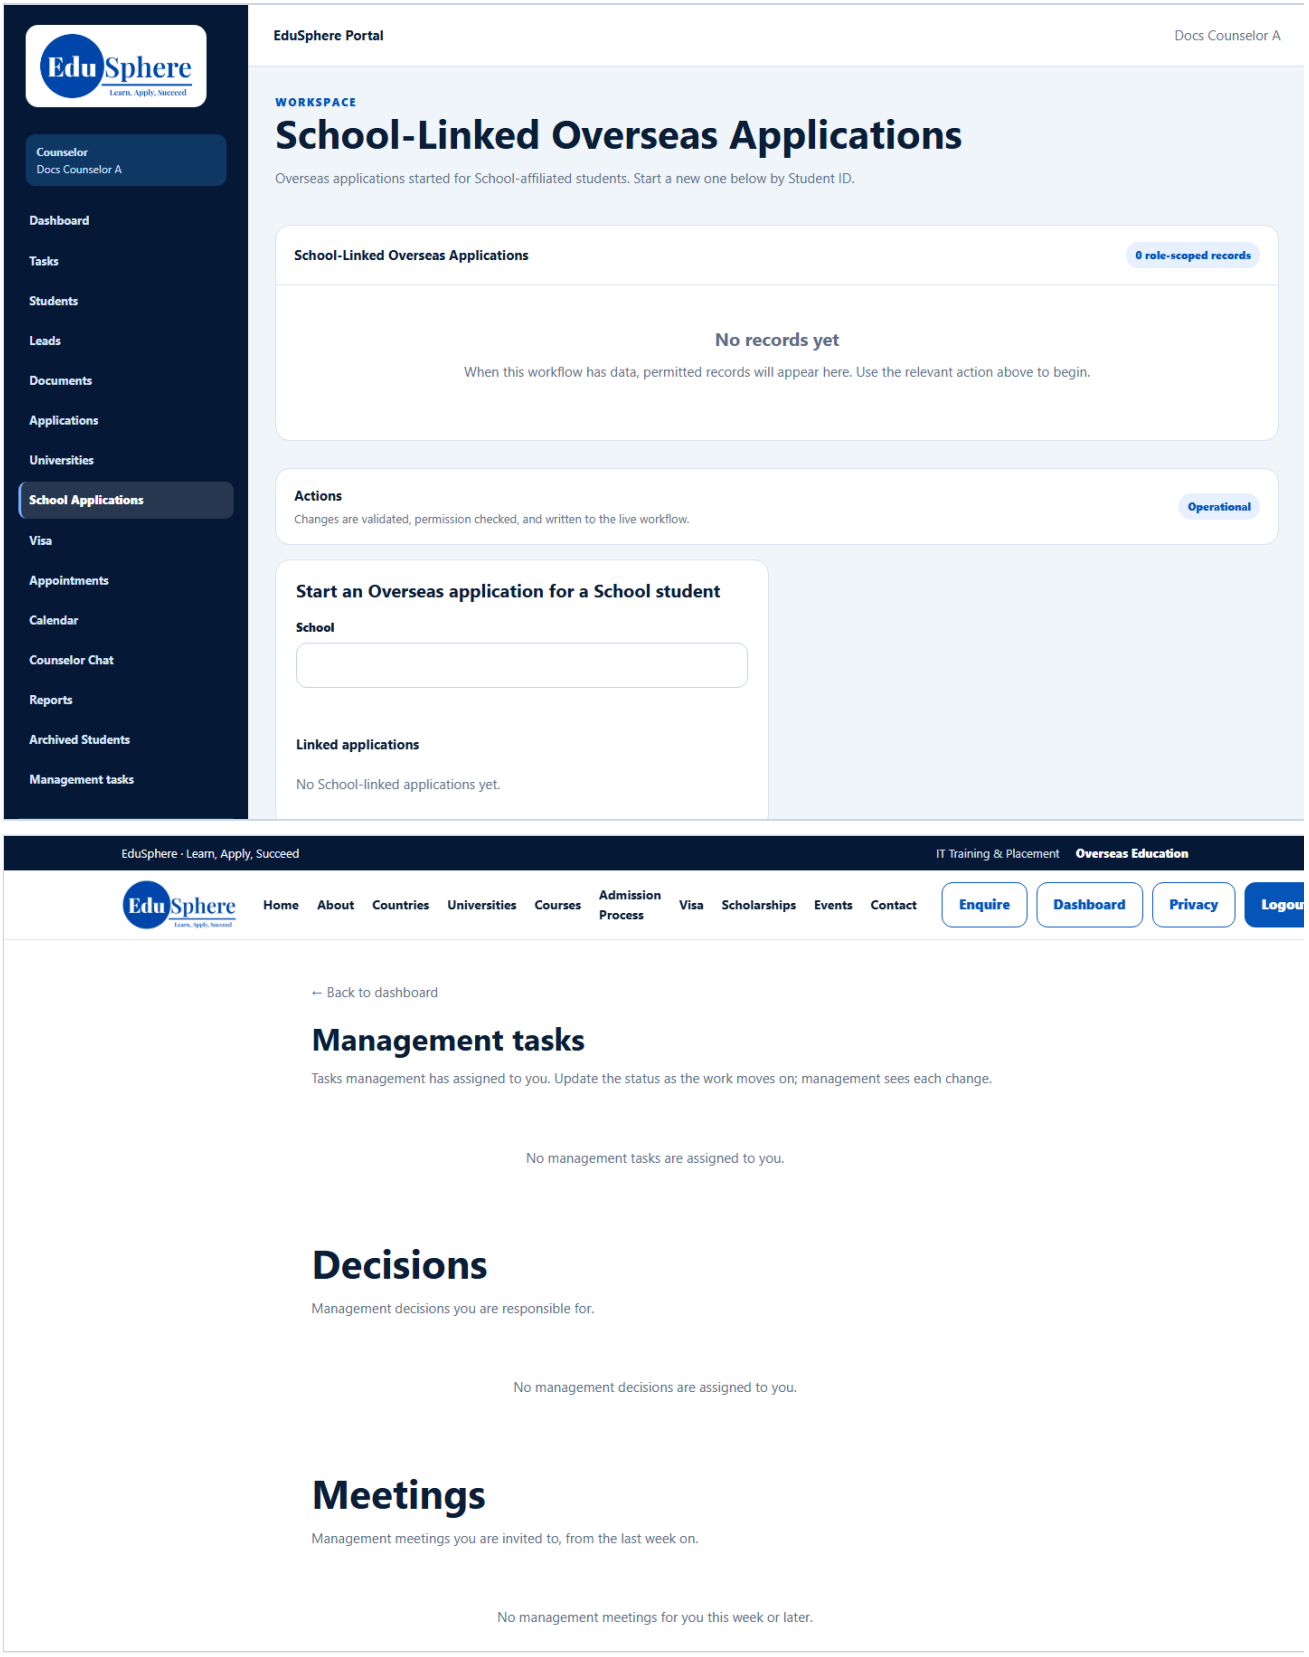

Step 2 — The top bar

The top bar shows **EduSphere Portal** on the left and your name on the right. Counselors have no notifications bell or student-search box in the top bar.

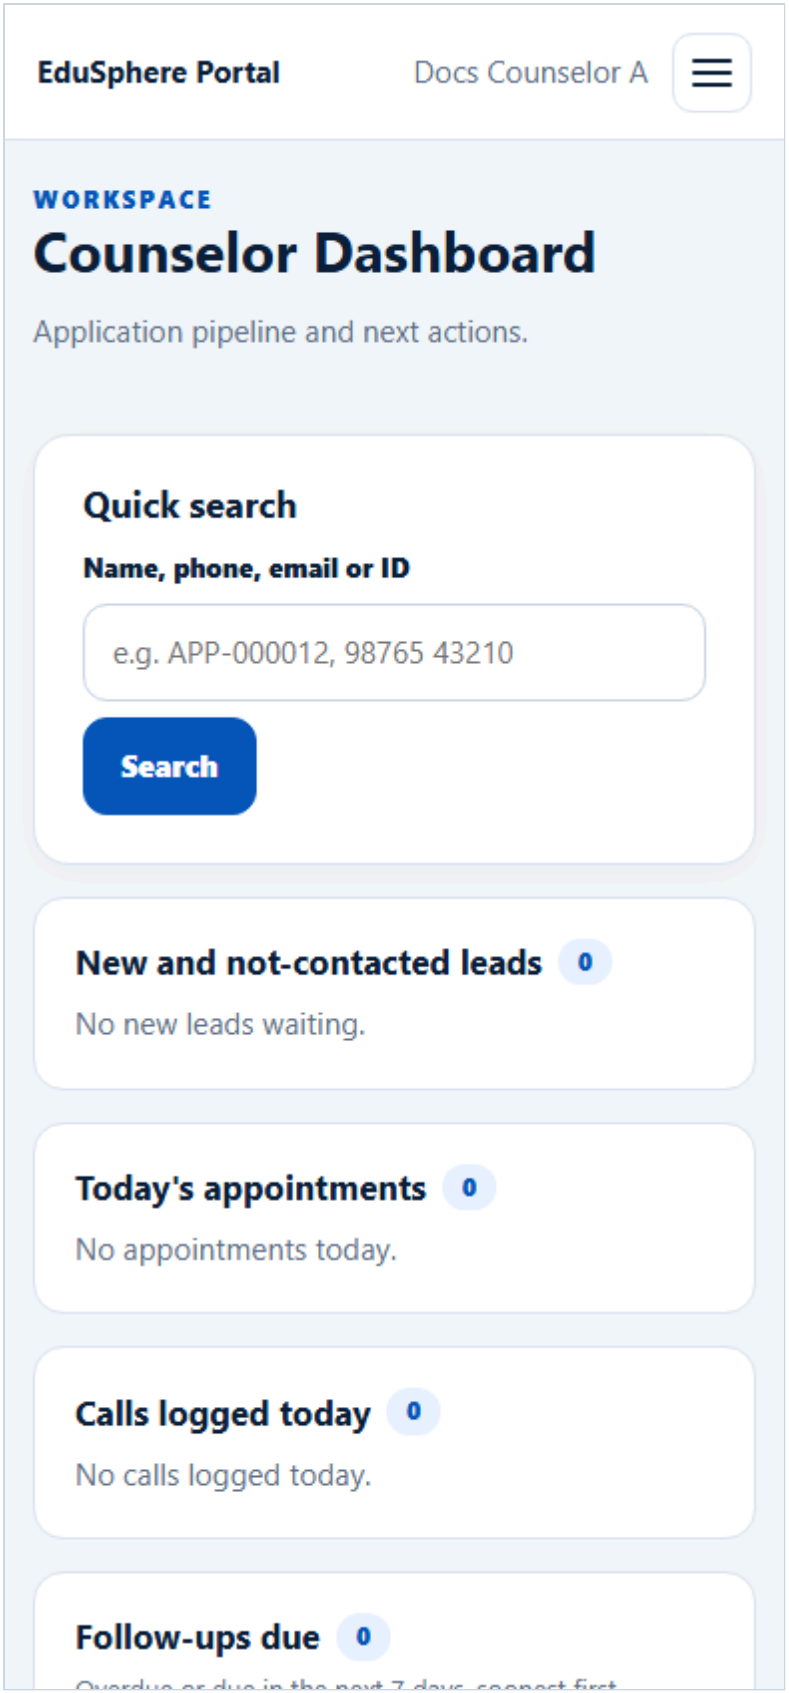

Step 3 — Pages outside this guide

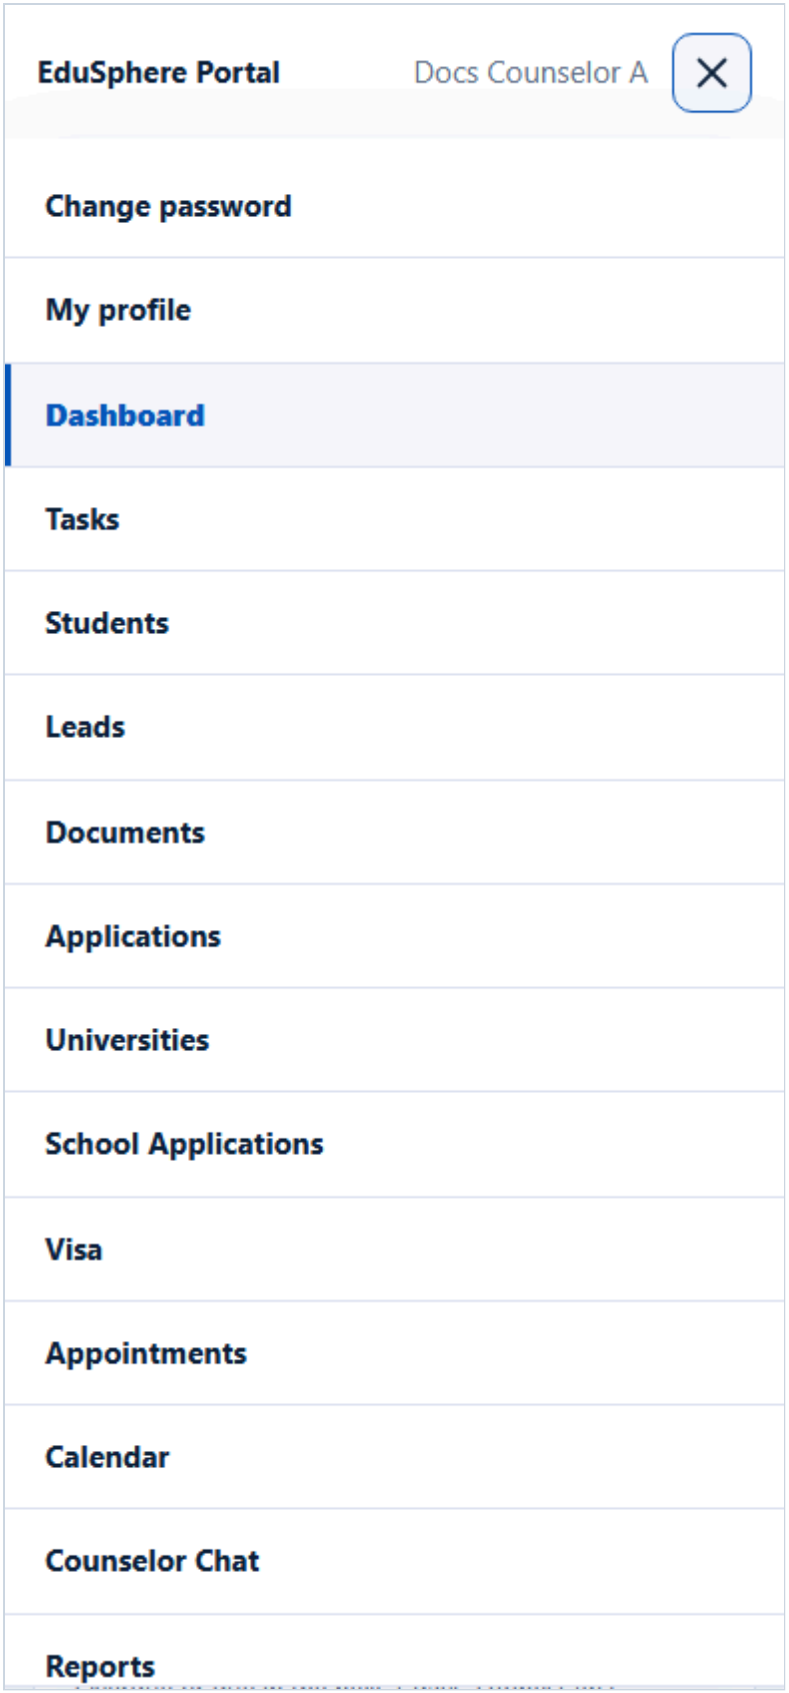

- **School Applications** opens **School-Linked Overseas Applications**, where you start an Overseas application for a School student by Student ID.
- **Management tasks** opens a page in the public website layout that lists management tasks, decisions and meetings assigned to you. Use ← **Back to dashboard** to return.

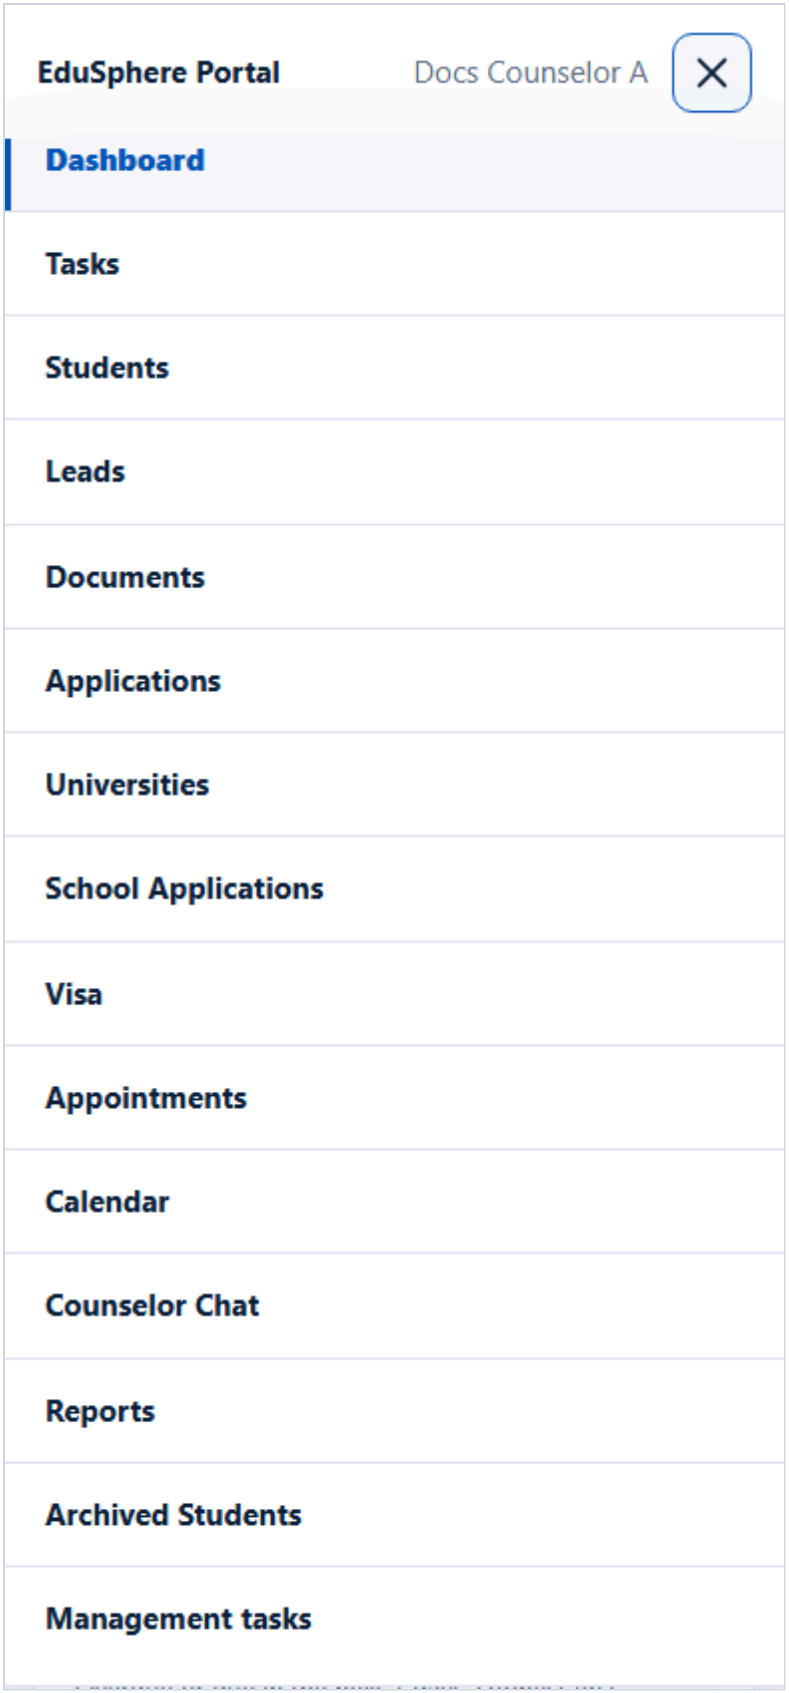

Step 4 — On a phone or small tablet

Below about 980 px wide the sidebar is hidden. Select the menu button (☰, **Open menu**) in the top bar to open a list with **Change password**, **My profile** and every sidebar item. The current page is highlighted. The menu has **no Sign out**; see Sign out.

Expected Result

You can reach every counselor page from the sidebar (desktop) or the menu (phone).

Common Errors

Problem: A page says **Workspace not found** or shows a “not found” page. **Cause:** The address was typed by hand or is for another role. **Resolution:** Use the sidebar.

Problem: Sidebar names differ from page titles (for example **Leads** opens **My leads**, **Reports** opens **My performance**). **Resolution:** This is expected; the table above maps them.

Tips

- **Students** and **Applications** open the same applications table. **Students** also has the **My students** card.
- **Counselor Chat** is covered in Counselor Chat with students.

Counselor dashboard

> Doc ID: DOC-CNS-DASH-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor Overdue items in the screenshots were prepared by moving test dates back in the documentation database (owner instruction, 2026-10-30).

Purpose

See at a glance what needs your attention today: new leads, appointments, calls, follow-ups, tasks, documents, offers, visas and enrolments.

Who Can Use This Feature

Overseas counselors. You land here after signing in.

Prerequisites

None.

How to Access

Sidebar **Dashboard** (page title **Counselor Dashboard**).

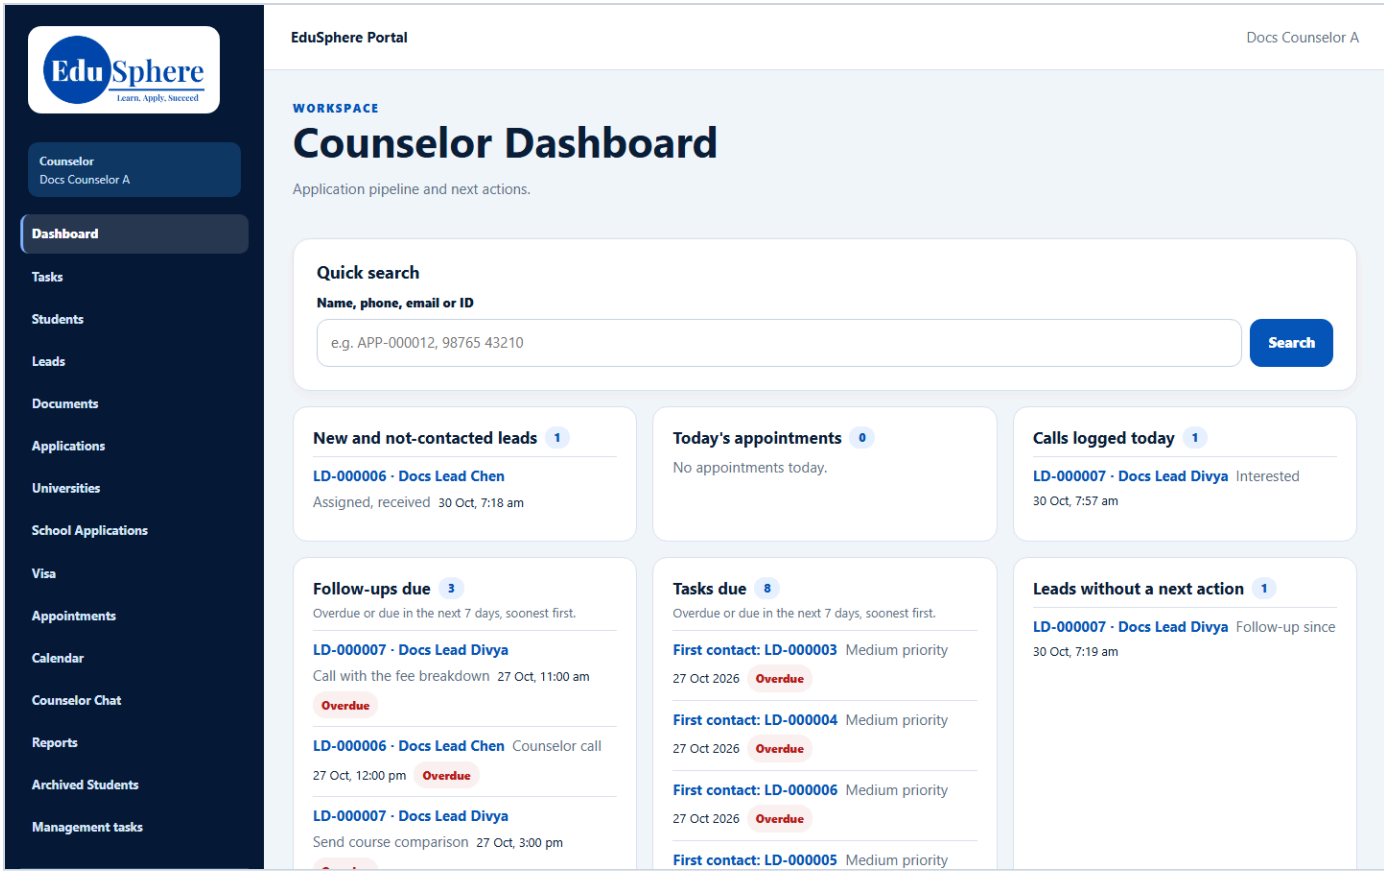

Steps

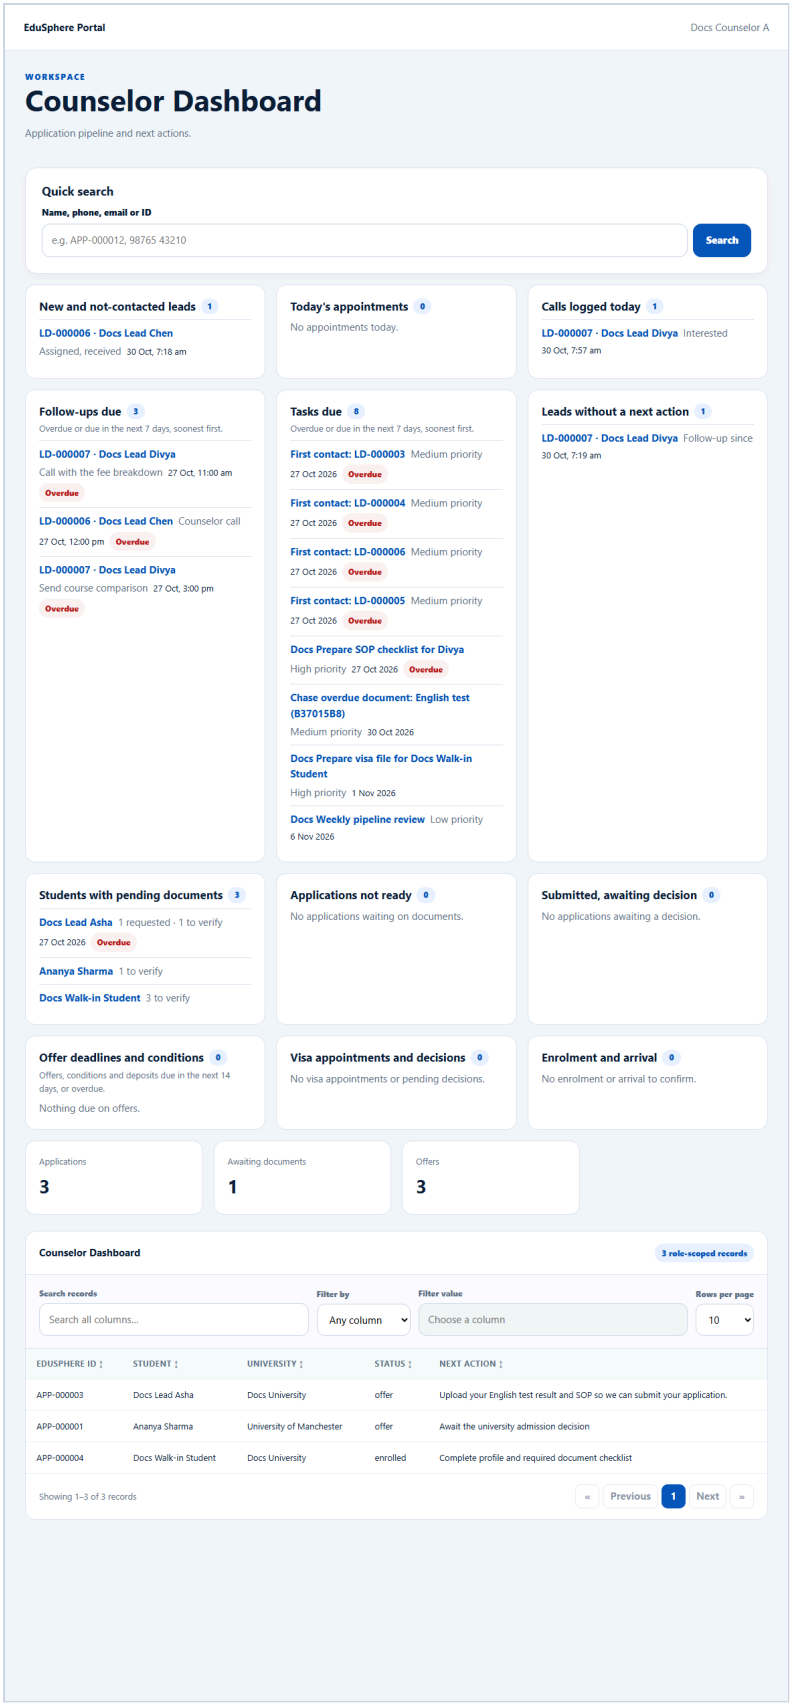

Step 1 — Read the action sections

Below Quick search, twelve sections each show a count and up to 10 items (dated work soonest first; new leads and today's calls newest first):

- New and not-contacted leads.
- Today's appointments.
- Calls logged today.
- Follow-ups due.
- Tasks due.
- Leads without a next action.
- Students with pending documents.
- Applications not ready.
- Submitted, awaiting decision.
- Offer deadlines and conditions.
- Visa appointments and decisions.
- Enrolment and arrival.

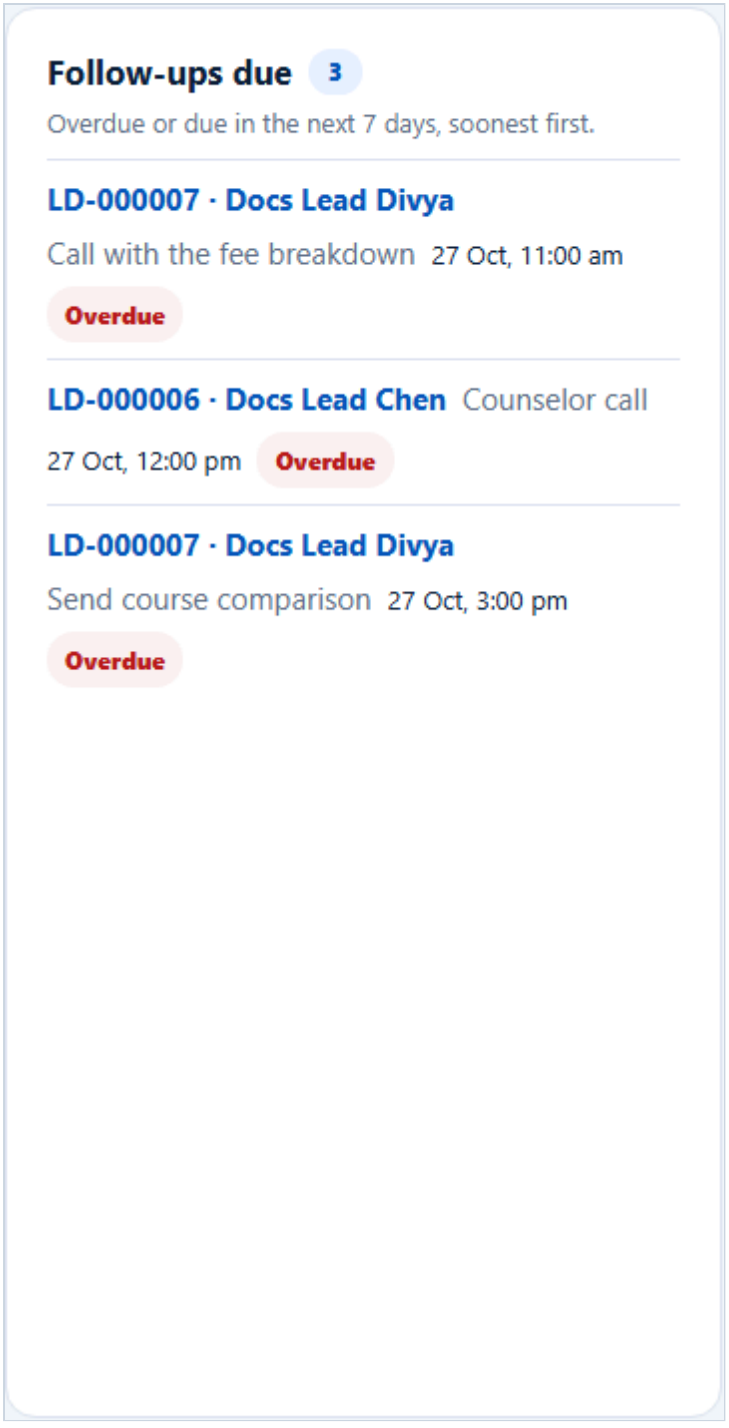

Overdue items carry a red **Overdue** tag.

LD-000007 · Docs Lead Divya Follow-up since
30 Oct, 7:19 am

Step 2 — Follow-ups and tasks due

Follow-ups due and **Tasks due** list items overdue or due in the next 7 days, soonest first. **Offer deadlines and conditions** looks 14 days ahead and includes anything overdue.

Step 3 — Open an item

Select an item to open its lead, task or application. When a section has more than 10 items, **View all {n}** opens the full list.

Expected Result

Working through the sections from top to bottom covers your day.

Validation Messages

Message	When
No new leads waiting. / No appointments today. / No calls logged today.	Empty sections
No follow-ups in the next 7 days. / No tasks due in the next 7 days. / Every lead has a next action.	Empty sections
Dashboard sections are unavailable right now. (Try again)	Loading failed

Common Errors

Problem: View all opens the whole My leads list, not just the overdue follow-ups. **Cause:** The link goes to the unfiltered list. **Resolution:** Use the Stage filter, or work from the dashboard list itself.

Tips

- Start with **Tasks due** and **Follow-ups due**; overdue work is escalated to the Overseas Admin after 2 days (default).

Related Features

- Overdue follow-ups

Quick search

> Doc ID: DOC-CNS-SRCH-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Find any of your leads, students or applications by name, phone, email or ID from one box.

Who Can Use This Feature

Overseas counselors. Results only include your own leads, students and applications.

Prerequisites

None.

How to Access

Dashboard → **Quick search**.

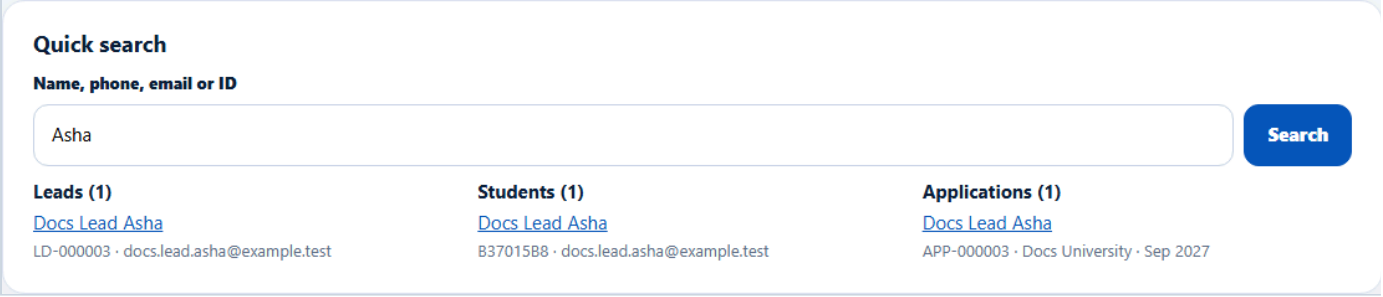

Steps

Step 1 — Search

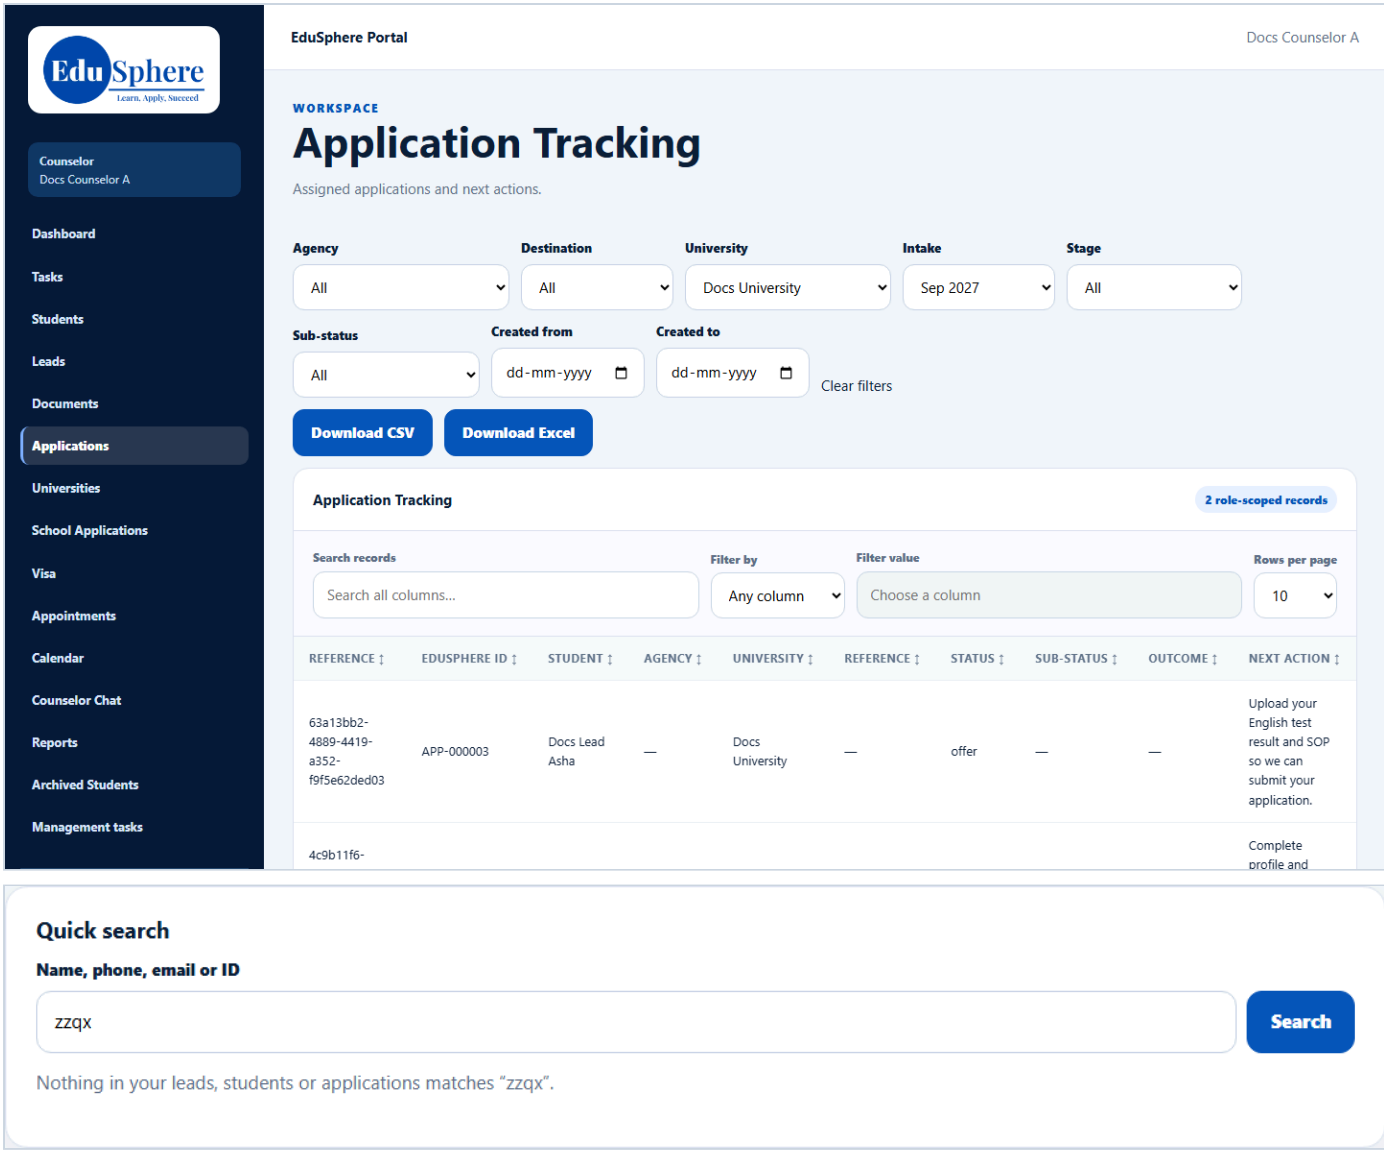

Type at least 3 characters in **Name, phone, email or ID** (for example “APP-000012” or “98765 43210”) and select **Search**.

Step 2 — Read the results

Results come in three groups: **Leads**, **Students** and **Applications**, each with up to 10 matches.

- A **lead** opens its lead page.
- A **student** opens their notes.
- An **application** opens **Application Tracking** filtered to that university and intake, not the application itself.

Fields

Field	Description	Required	Example
Name, phone, email or ID	3–100 characters; phone numbers match ignoring spaces	Yes	Asha

Expected Result

You reach the record in two clicks.

Validation Messages

Message	When
Type at least 3 characters	Too short
Use at most 100 characters	Too long
Nothing in your leads, students or applications matches “{search}”.	No results

Message	When
Showing the first 10 – refine your search.	More than 10 in a group
Too many searches; try again in {n} seconds	More than 30 searches a minute

Related Features

My tasks

> Doc ID: DOC-CNS-TASK-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Keep your own to-do list, linked to leads, students or applications. It also collects tasks that reminders and the Overseas Admin create for you.

Who Can Use This Feature

Overseas counselors.

Prerequisites

None.

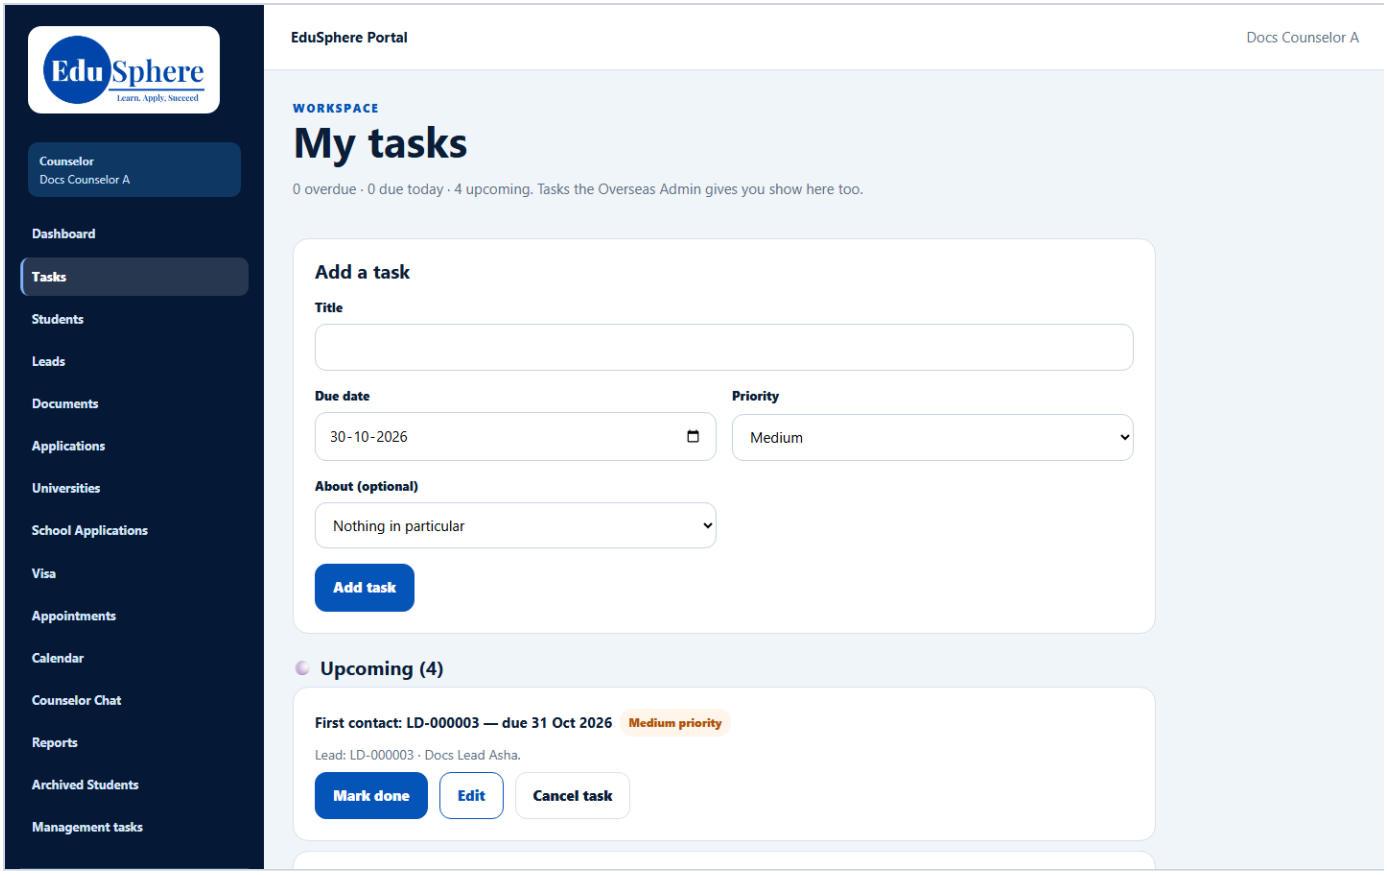

How to Access

Sidebar **Tasks** (page title **My tasks**).

Steps

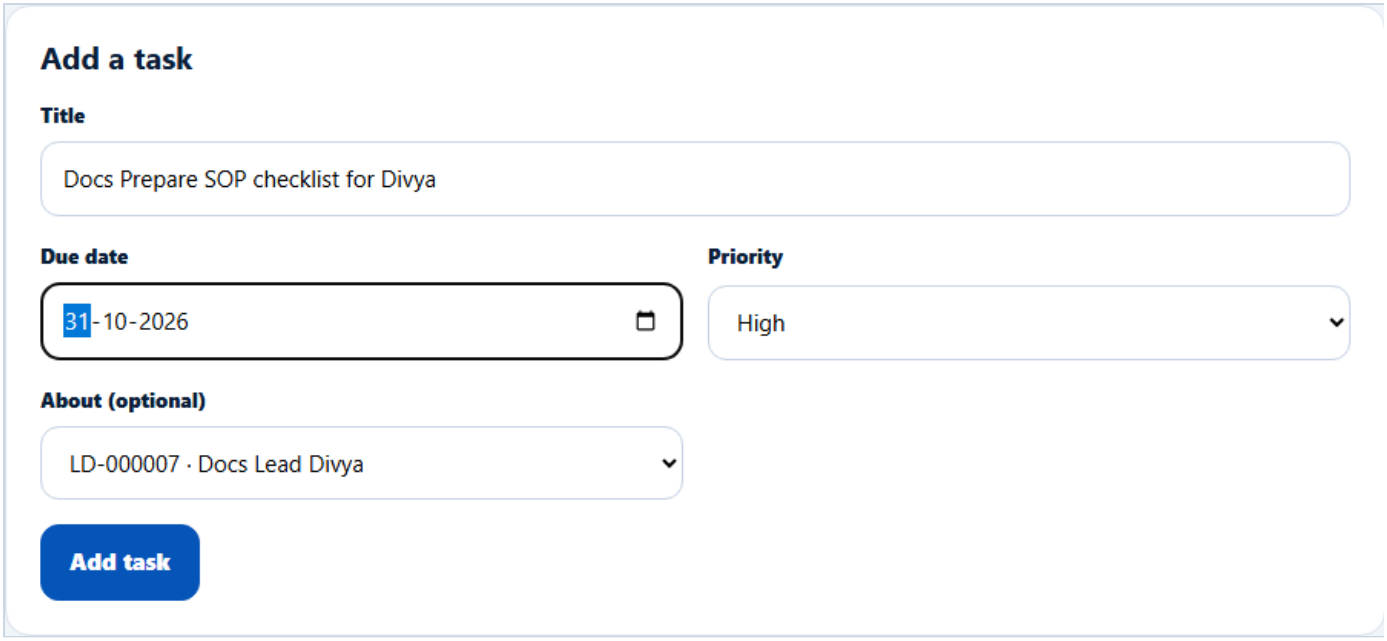

Step 1 — Read the summary

The top line counts your tasks, for example “0 overdue · 0 due today · 6 upcoming”. Tasks the Overseas Admin gives you show here too.

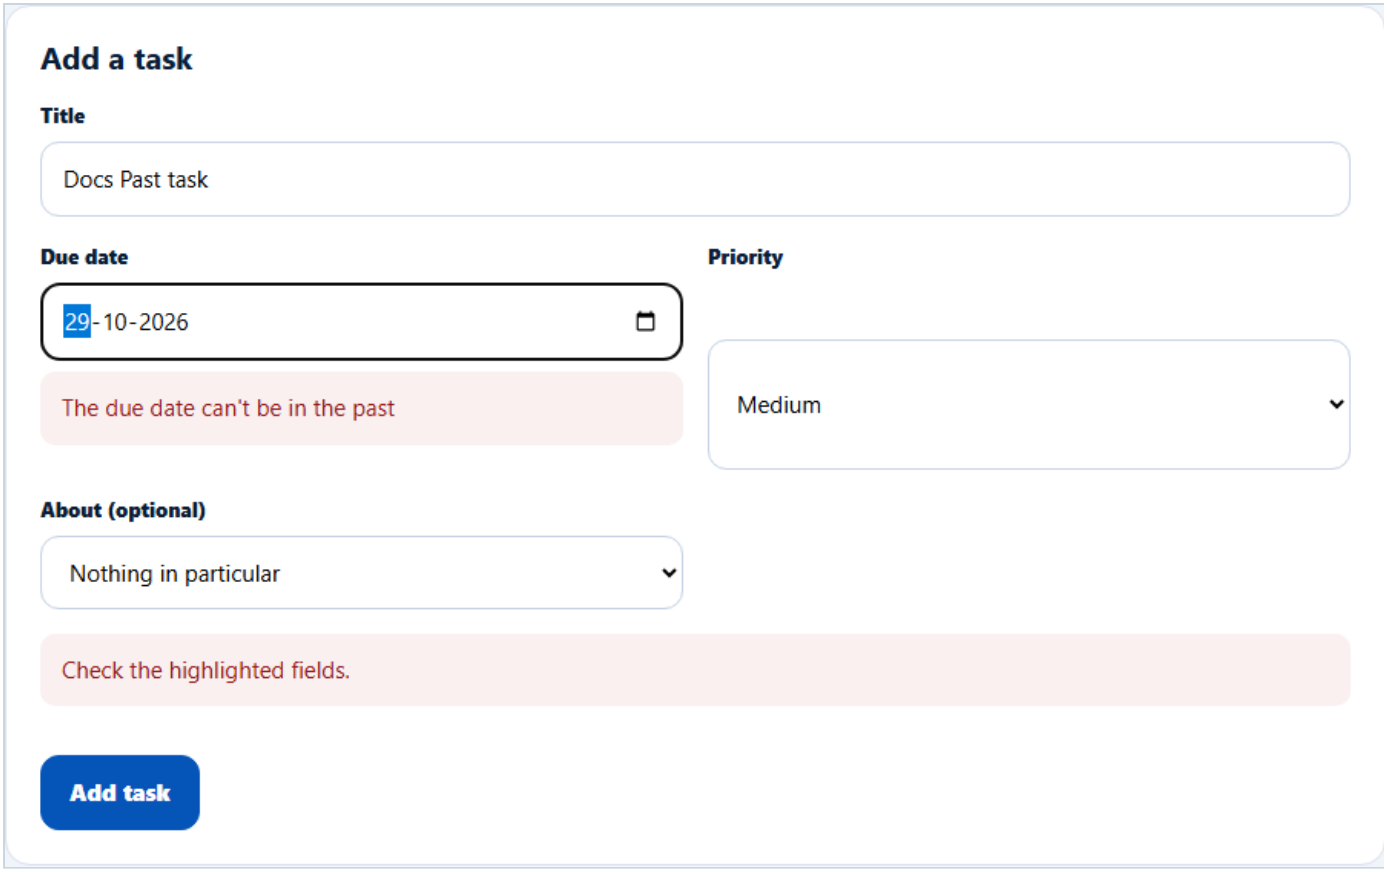

Step 2 — Add a task

In **Add a task**, enter the **Title**, choose the **Due date** (today or later) and **Priority**, and optionally link it in **About (optional)** to one of your leads, students or applications. Select **Add task**. **Task added.** appears.

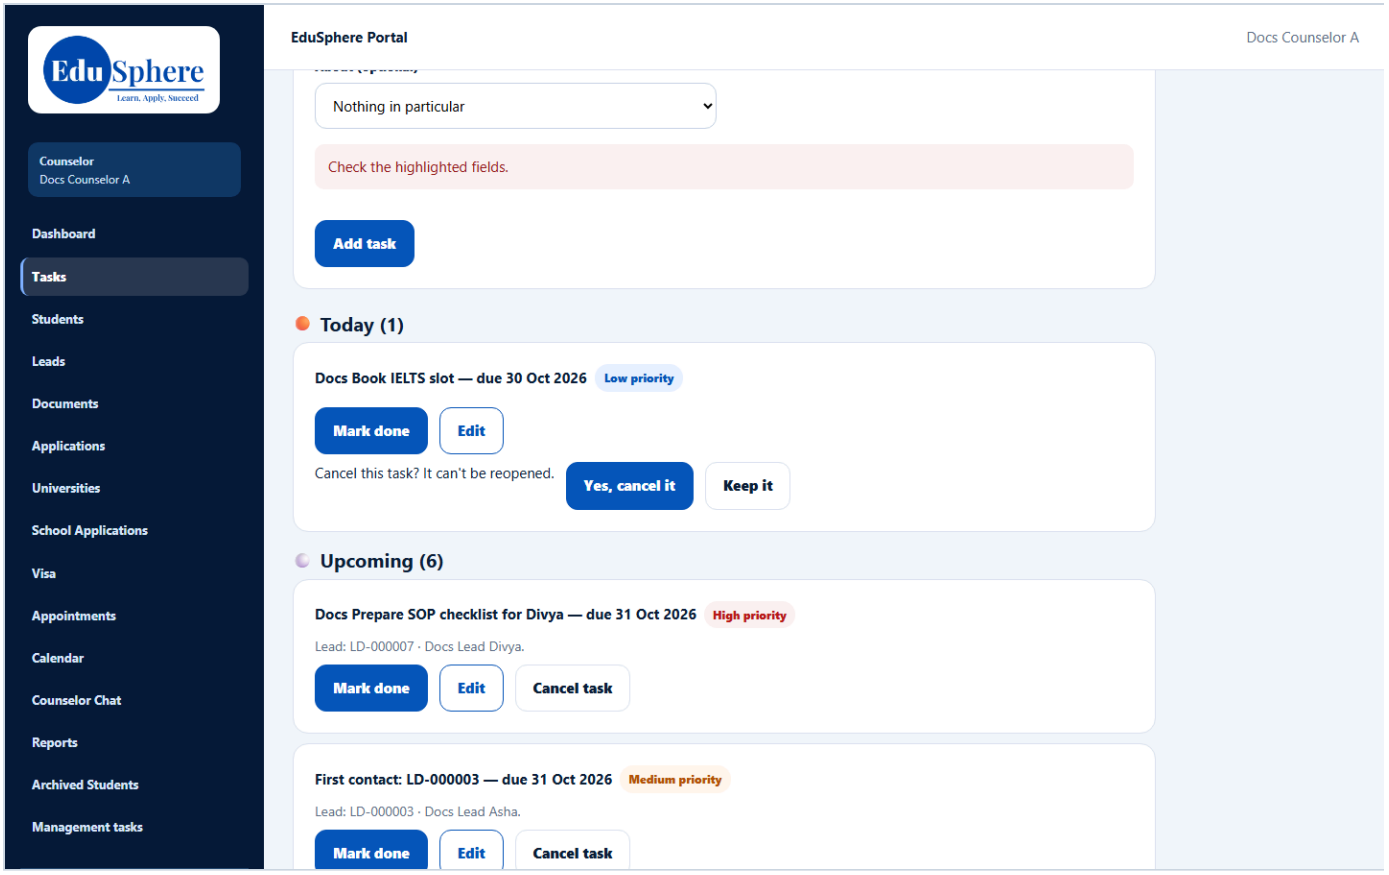

A past due date is refused (**Check the highlighted fields.**).

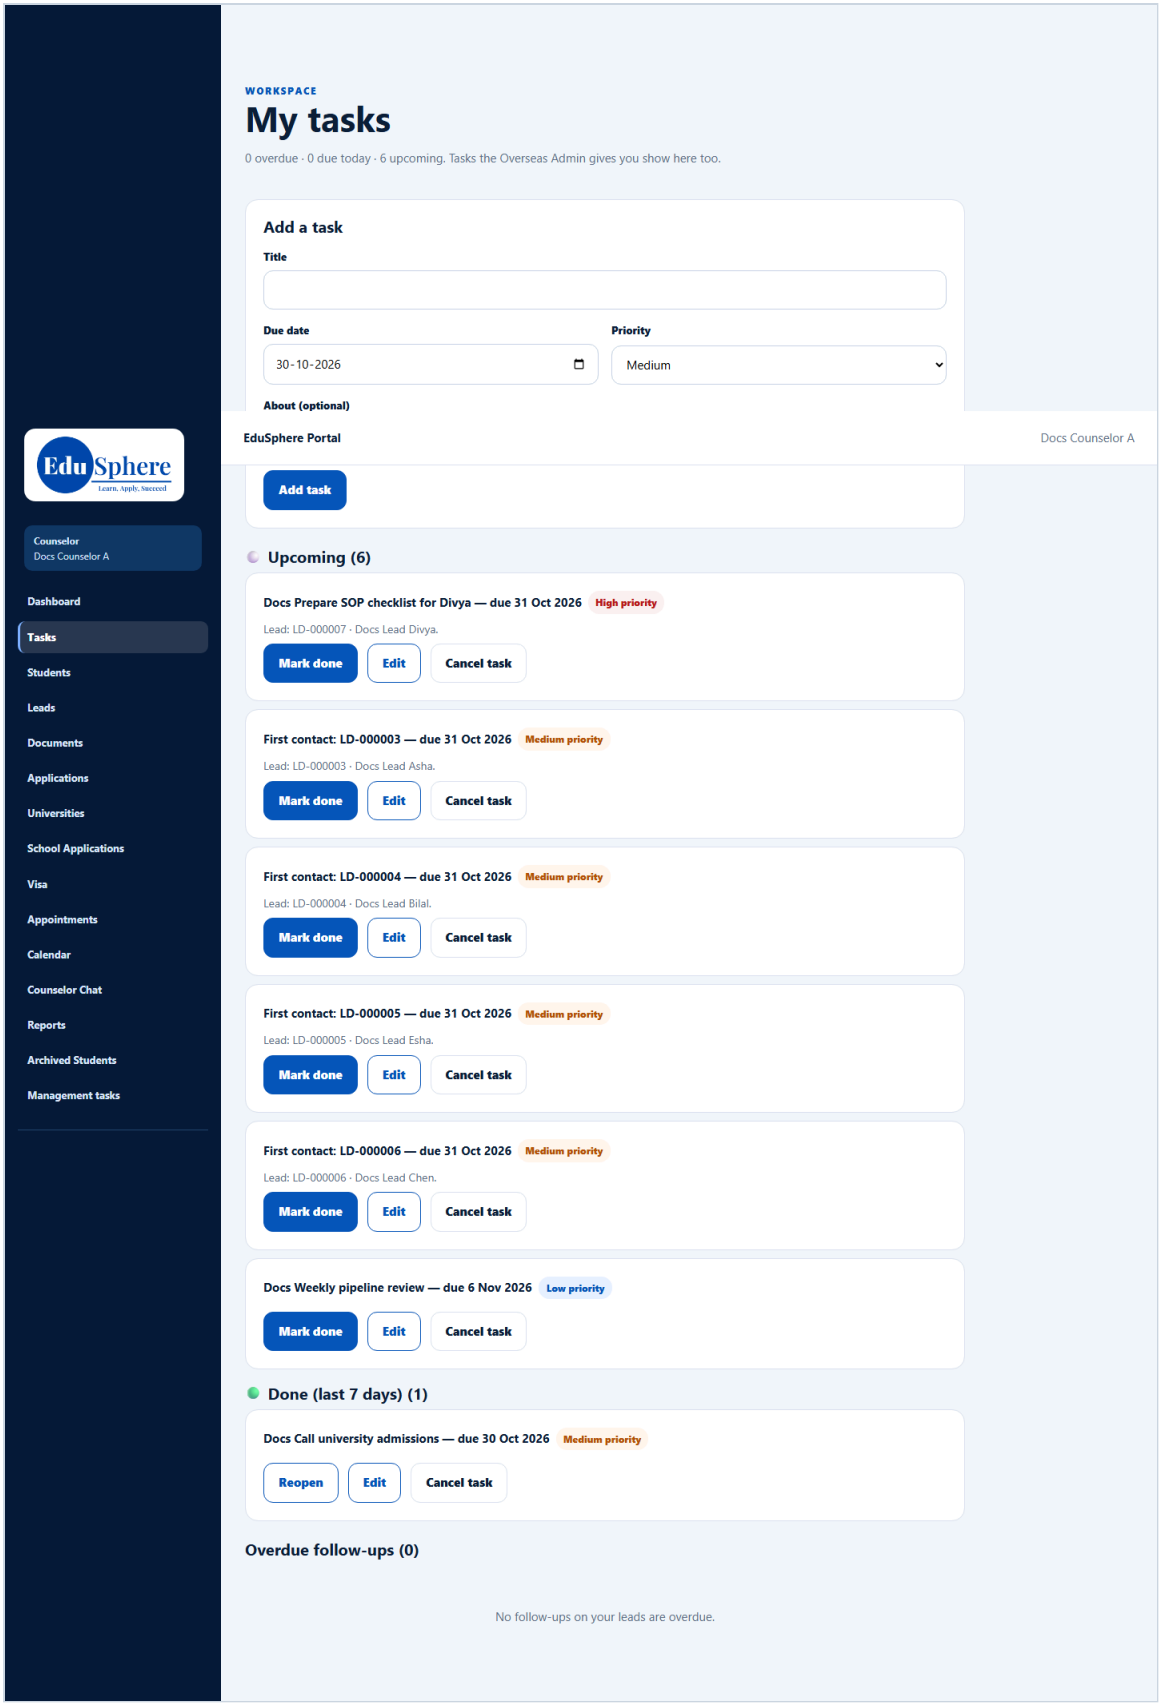

Step 3 — Work the list

Tasks are grouped in bands by IST day: **Overdue**, **Today**, **Upcoming** and **Done (last 7 days)**. Each shows its title, due date, priority badge and what it is about. The **About** link opens the lead, the student's notes, or **Application Tracking** for an application.

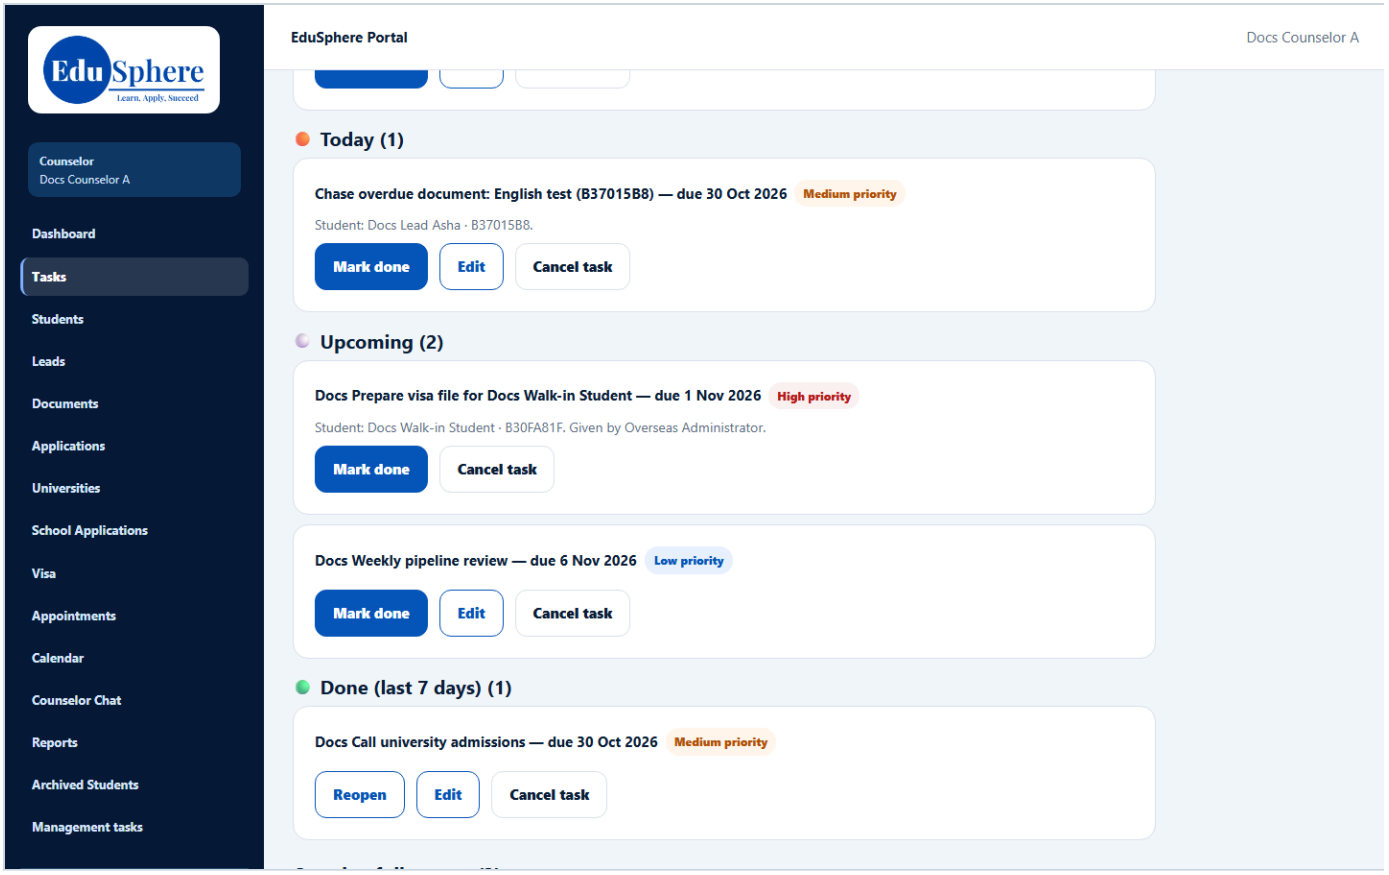

- **Mark done** moves a task to **Done**; **Reopen** brings it back.
- **Edit** changes your own tasks.
- **Cancel task** asks "Cancel this task? It can't be reopened."; confirm with **Yes, cancel it**, or **Keep it**.

Cancel task

Tasks the Overseas Admin gives you

A task the Overseas Admin adds for you shows “Given by {name}”. You can **Mark done** or **Cancel task**, but not edit it.

Reminder tasks

Tasks such as **First contact: LD-000003** or **Chase overdue document: English test** are created automatically by the reminder rules, for example when a lead is handed to you. See Automatic reminders.

Fields

Field	Description	Required	Example
Title	2–200 characters	Yes	Docs Prepare SOP checklist for Divya
Due date	Today up to two years ahead	Yes	31 Oct 2026
Priority	High, Medium, Low (default Medium)	Yes	High
About (optional)	One of your leads, students or applications	No	LD-000007 · Docs Lead Divya

Expected Result

Your tasks show in the right band and on your dashboard's **Tasks due** tile.

Validation Messages

Message	When
Task added.	Success

Message	When
Give the title (2-200 characters)	Title too short or long
Check the highlighted fields. / The due date can’t be in the past	Past date
Choose a due date from today up to two years ahead	Due date more than two years ahead
You can change only the status of a task someone else gave you	Editing an admin’s task
This task was cancelled; it can’t be changed	Cancelled task

Common Errors

Problem: A cancelled task has disappeared. **Cause:** Cancelled tasks are not listed in any band. **Resolution:** Cancel only tasks you will never need; otherwise mark them done.

Problem: Reminder tasks remain for a lead you closed or returned. **Resolution:** Mark them done.

Tips

- Overdue follow-ups from your leads are listed at the bottom of this page. See Overdue follow-ups.

Related Features

- Overdue follow-ups
- Automatic reminders

Follow-ups on a lead

> Doc ID: DOC-CNS-FUP-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Schedule dated follow-ups on a lead, so nothing is forgotten: when to call back, why, and what to do.

Who Can Use This Feature

The counselor who owns the lead.

Prerequisites

The lead is open.

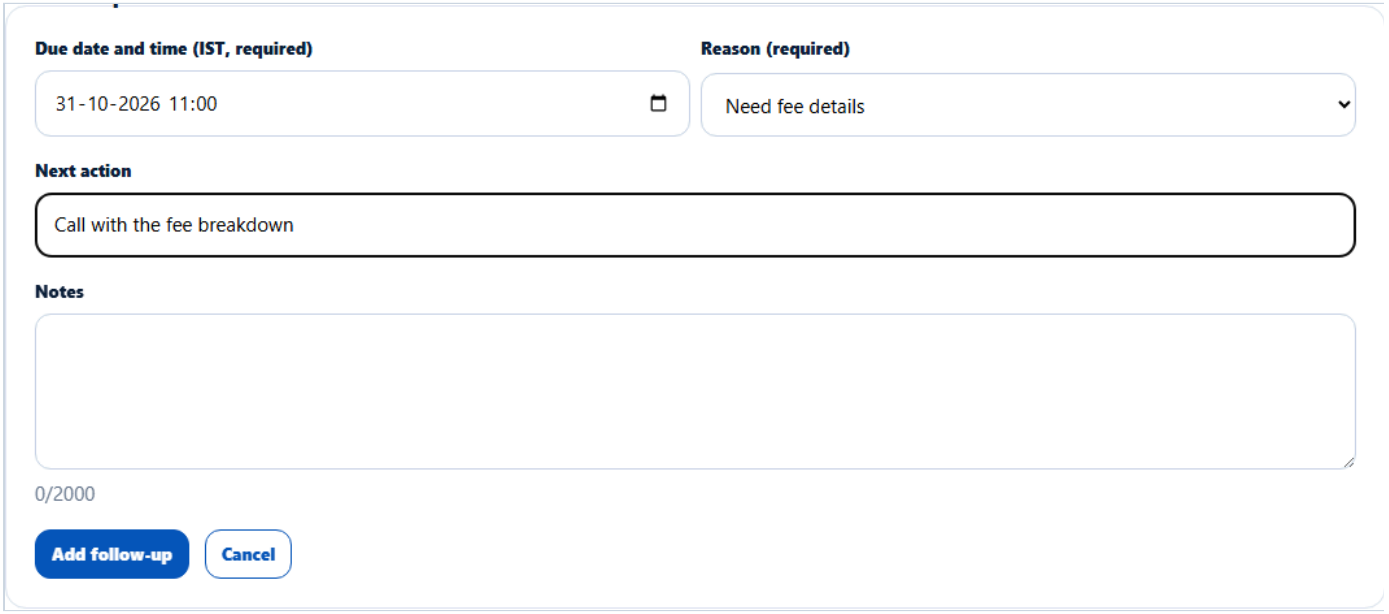

How to Access

Lead page → **Follow-ups** → **Add follow-up**.

Steps

Step 1 — Add a follow-up

Choose the **Due date and time (IST, required)** (in the future, within 12 months) and the **Reason (required)**. Add a **Next action** and **Notes** if useful. Select **Add follow-up**. **Follow-up added.** appears.

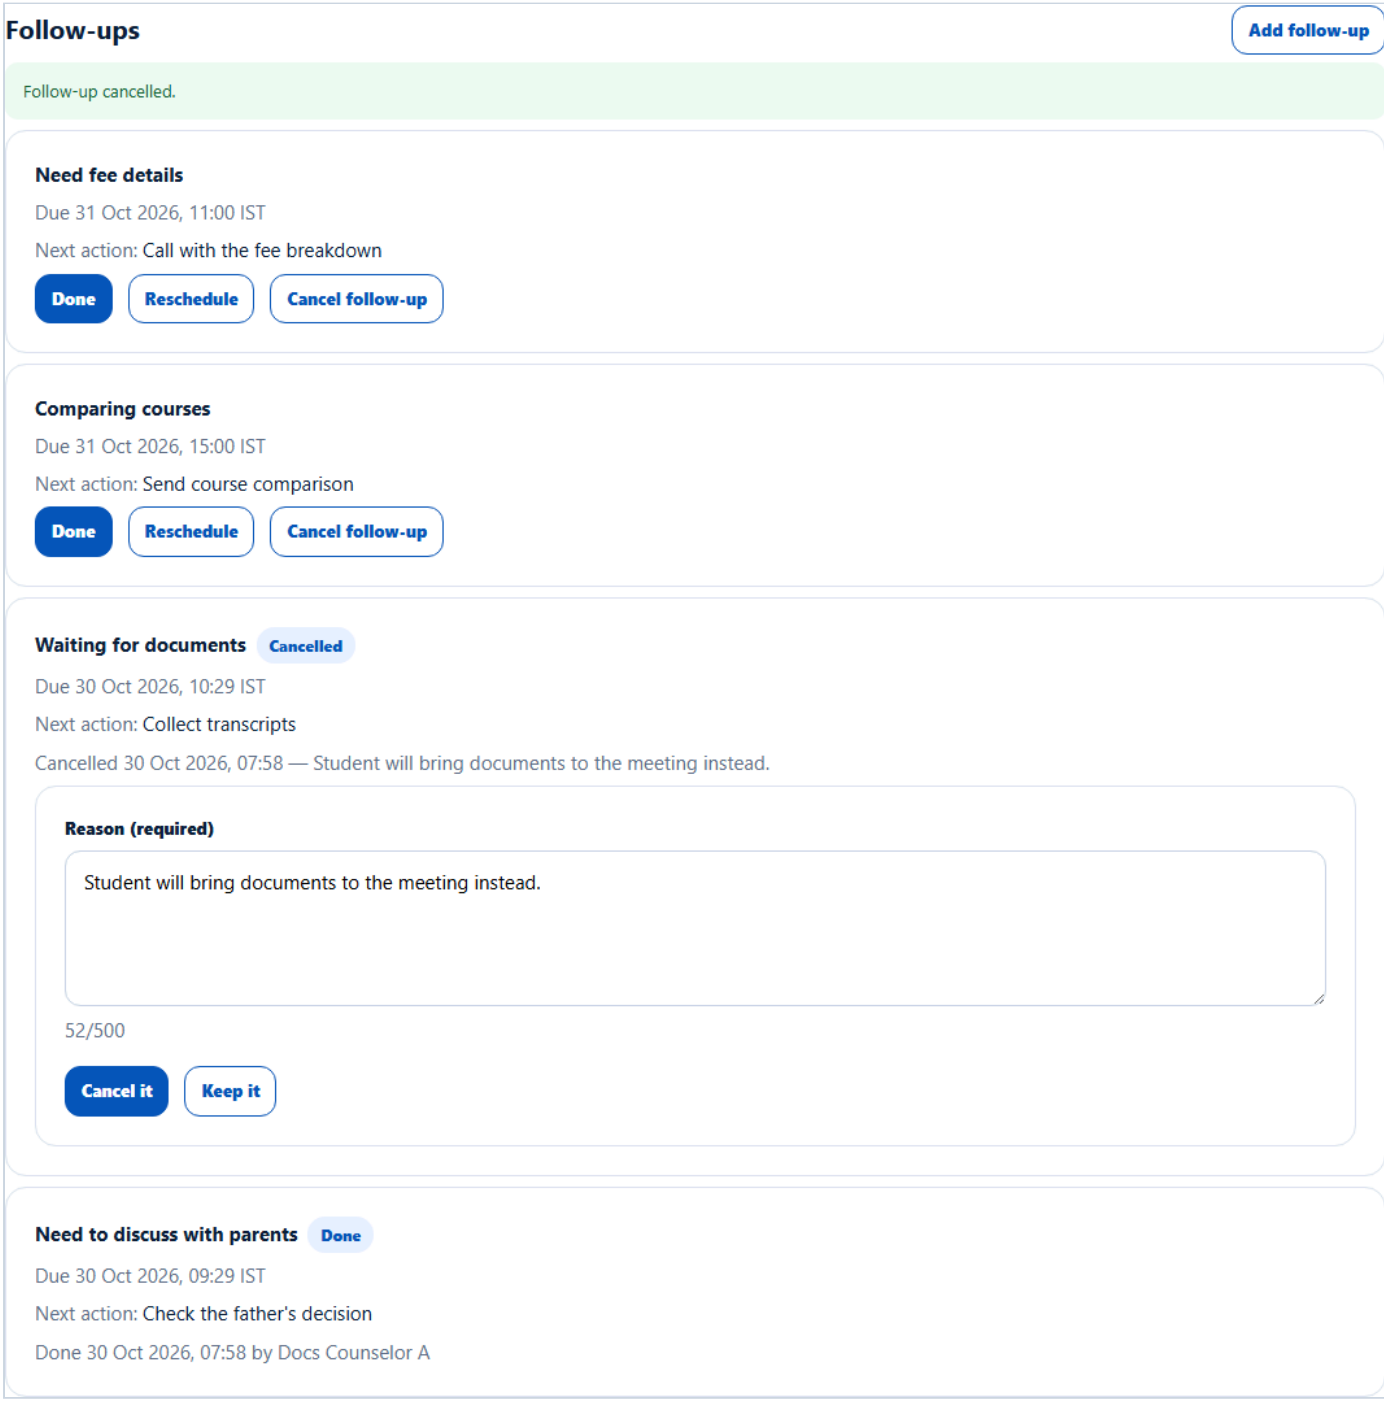

Step 2 — Work the follow-up

Each follow-up shows its reason, due time and next action, with three buttons:

- **Done** marks it complete (“Marked done.”) and records who and when.

- **Reschedule** lets you choose a new due time (“Follow-up rescheduled.”).
- **Cancel follow-up** asks for a **Reason (required)**; confirm with **Cancel it** (“Follow-up cancelled.”), or **Keep it**.

Follow-ups: open, cancelled and done

Step 3 — Overdue follow-ups

When the due time passes, the follow-up shows **Overdue**, and it appears on your **Tasks** page and dashboard. See Overdue follow-ups.

Fields

Field	Description	Required	Example
Due date and time (IST)	Future, within 12 months	Yes	31 Oct 2026, 11:00
Reason	Need to discuss with parents, Need course details, Need fee details, Waiting for salary, Waiting for documents, Comparing courses, Interested next month, Interested next intake, Waiting for university information, Requested counselor call	Yes	Need fee details
Next action	Up to 200 characters	No	Call with the fee breakdown
Notes	Up to 2000 characters	No	—

Expected Result

Open follow-ups stay on the lead until done or cancelled. Closing or returning the lead cancels them.

Validation Messages

Message	When
Follow-up added. / Marked done. / Follow-up rescheduled. / Follow-up cancelled.	Success
Choose a due date and time / Choose a reason	Missing field
Choose a due time in the future	Past time
Choose a due time within the next 12 months	Too far ahead
This lead is closed. A manager can reopen it before a follow-up is added	Closed lead

Common Errors

Problem: The cancel form stays open after you cancel a follow-up. **Resolution:** It is already cancelled (it shows **Cancelled** and the reason); select **Keep it** to close the form.

Tips

- A lead can have up to 20 open follow-ups.
- Use Log a call with **Call Back Requested** to log a call and schedule the follow-up in one step.

Related Features

- Next action

Overdue follow-ups

> Doc ID: DOC-CNS-FUP-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor Overdue items in the screenshots were prepared by moving test dates back in the documentation database (owner instruction, 2026-10-30).

Purpose

See every follow-up on your leads that is past due, in one place.

Who Can Use This Feature

Overseas counselors.

Prerequisites

At least one open follow-up past its due time.

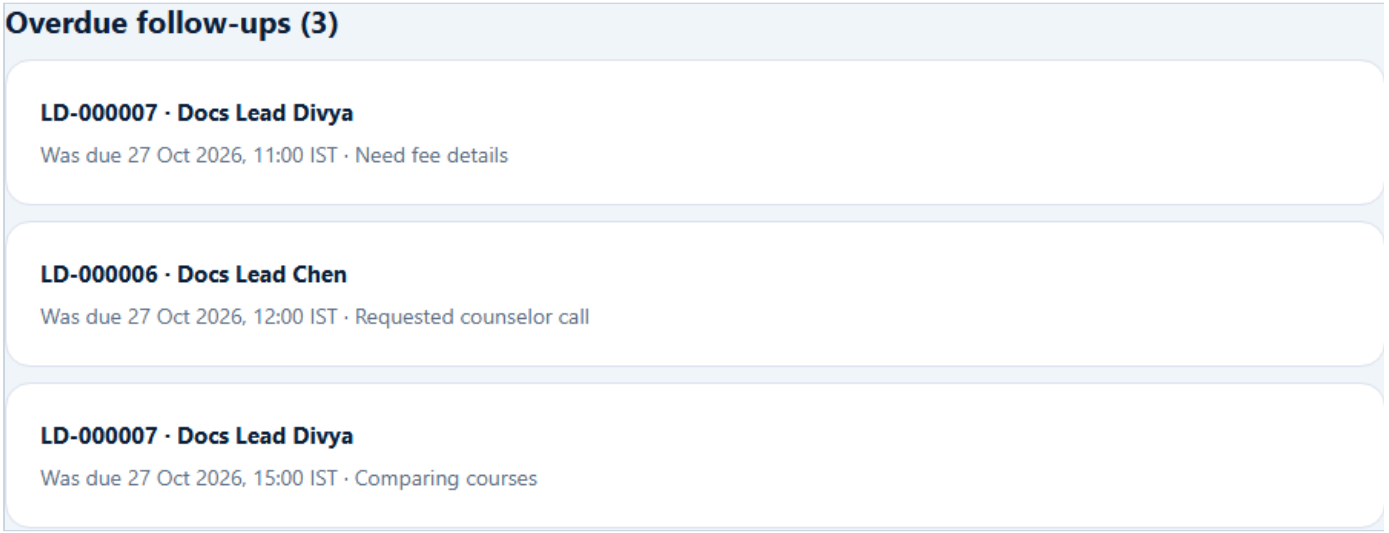

How to Access

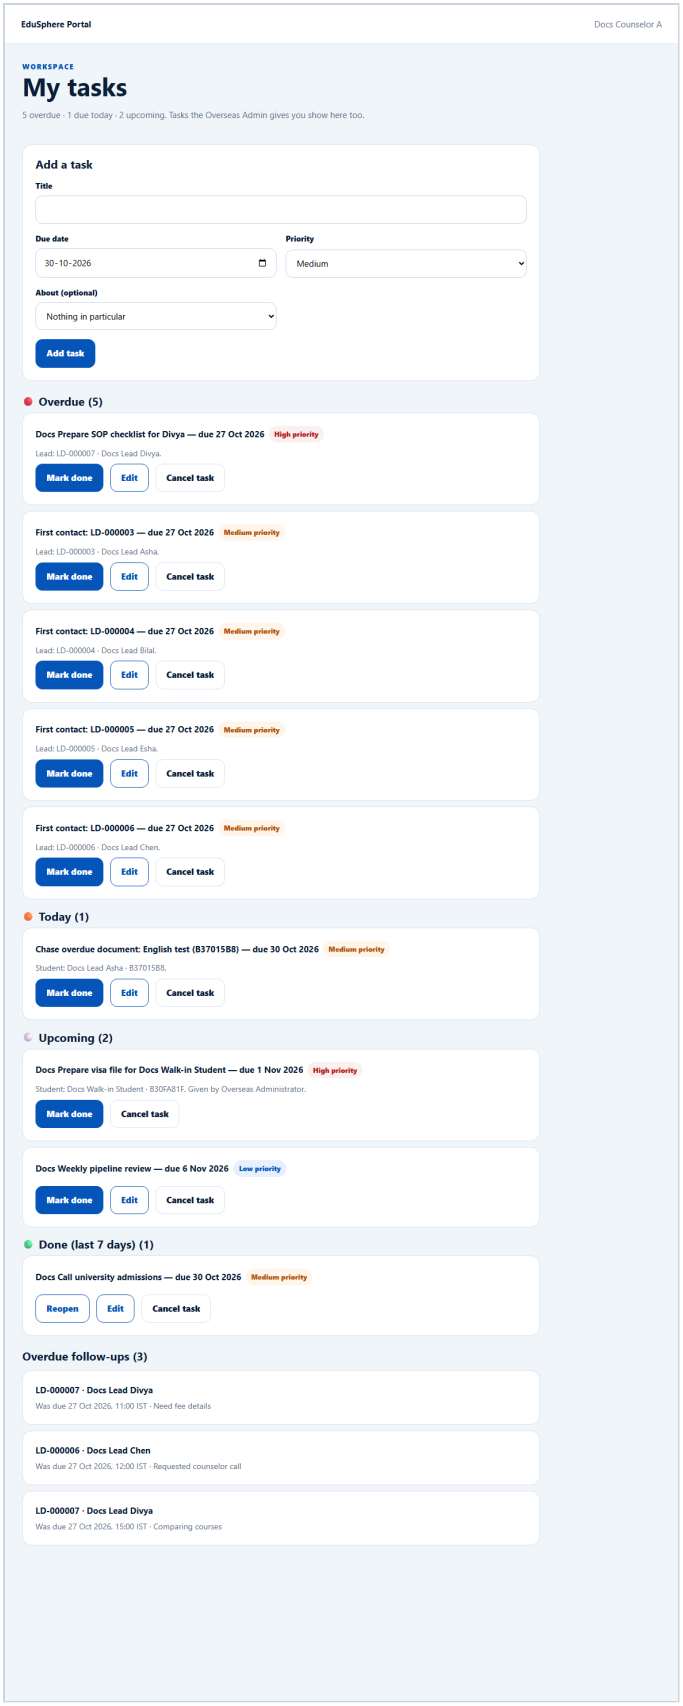

Sidebar **Tasks** (page **My tasks**) → **Overdue follow-ups** at the bottom. They also appear in **Follow-ups due** on the dashboard.

Steps

Step 1 — Open the list

Each overdue follow-up shows "{Lead ID} · {name}" and "Was due {date and time} · {reason}".

Step 2 — Act on it

Select the lead to open it, then mark the follow-up **Done**, **Reschedule** it or cancel it (see Follow-ups on a lead).

Expected Result

The list empties as you deal with each follow-up.

Validation Messages

Message	When
No follow-ups on your leads are overdue.	Nothing overdue
Your follow-ups can’t be loaded right now. Try again in a moment.	Loading failed (your tasks still show)

Tips

- Work more than 2 days overdue (default) is reported to the Overseas Admin (see Overdue escalation *(see the Administrator Manual)*).

Related Features

- Follow-ups on a lead
- My tasks

Automatic reminders

> Doc ID: DOC-CNS-FUP-003 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Know which reminders EduSphere creates for you automatically and where they show.

Who Can Use This Feature

Overseas counselors. The Overseas Admin sets the rules (Reminder rules *(see the Administrator Manual)*).

Prerequisites

None. Most rules run every day at 08:15 IST; the **New lead assigned** task is created as soon as a lead is handed to you.

How to Access

Sidebar **Tasks**, and the **Tasks due** section of the dashboard.

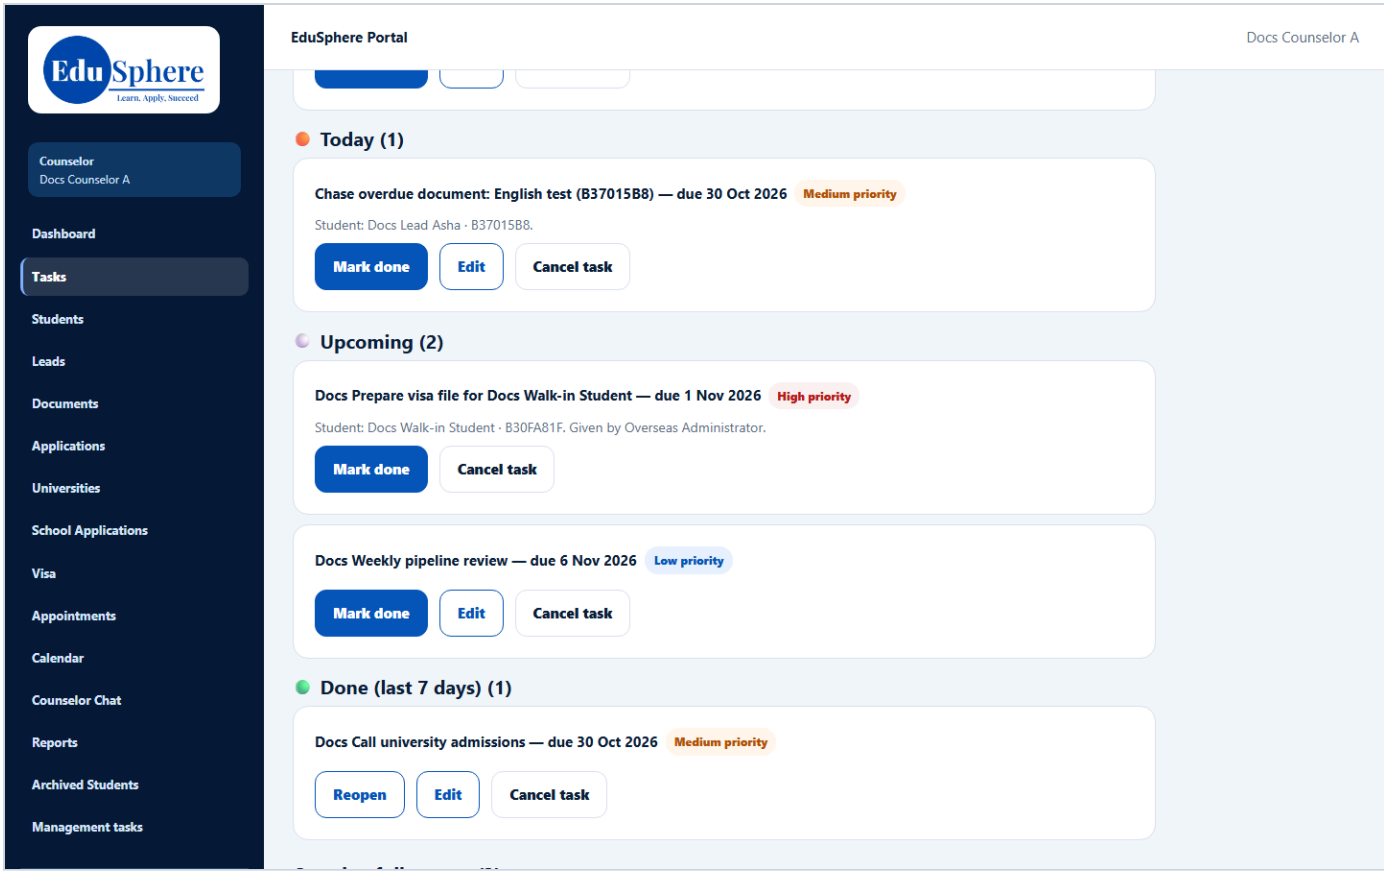

Steps

Step 1 — Reminder tasks on My tasks

These rules create a **task** for you:

- **New lead assigned:** for example “First contact: LD-000003”.
- **No response after contact.**
- **Document request overdue:** for example “Chase overdue document: English test (B37015B8)”.
- **University decision overdue.**
- **On-hold review date.**

Reminder tasks show on My tasks and on the dashboard like any other task, linked to their lead or student.

Step 2 — Notice-only reminders

These rules only create an in-app **notice**:

- Application deadline approaching.
- Offer deadline approaching.
- Deposit due.
- Offer condition due.
- Visa appointment approaching.

These notices are **emailed** to you (and sent by WhatsApp or SMS if you turned those on in My profile), but the counselor portal has **no notifications page**, so they don't appear inside EduSphere. Check deadlines on the dashboard sections **Offer deadlines and conditions** and **Visa appointments and decisions** as well.

Expected Result

Each reminder is created once, even if the rules run again.

Common Errors

Problem: "First contact" tasks remain for a lead you closed or returned. **Resolution:** Mark them done.

Related Features

- My tasks
- Counselor dashboard
- Reminder rules (admin) *(see the Administrator Manual)*

Lead appointments

> Doc ID: DOC-CNS-CAL-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Telecaller, Counselor

Purpose

Handle the counselling sessions telecallers book with you: confirm them, then mark each one completed or a no-show, or reschedule or cancel it.

Who Can Use This Feature

- **Telecaller:** books the appointment on their lead (**Book counselling**).
- **Counselor:** confirms and records the outcome on **Appointments**.

Prerequisites

A telecaller has booked an appointment with you. Each appointment lasts 60 minutes, and you can’t have two at the same time.

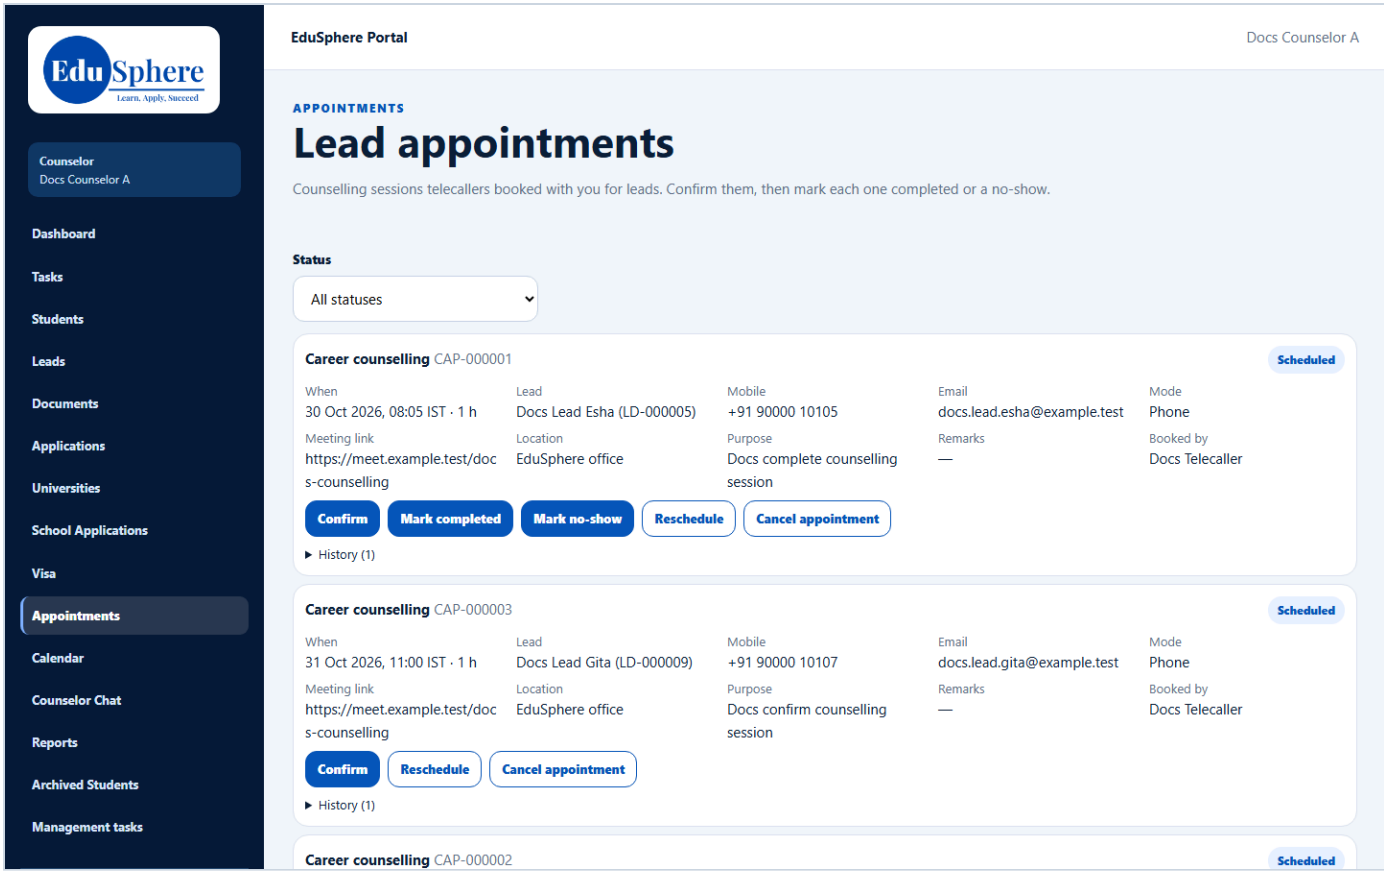

How to Access

Sidebar **Appointments** (page title **Lead appointments**).

Steps

Step 1 — See your appointments

Each card shows the type and code (for example **Career counselling CAP-000001**) and its status (**Scheduled**, **Confirmed**, **Rescheduled**, **Completed**, **Cancelled**, **No show**). It also shows when, the lead, mobile, email, mode, meeting link, location, purpose, remarks and who booked it. Filter with **Status**.

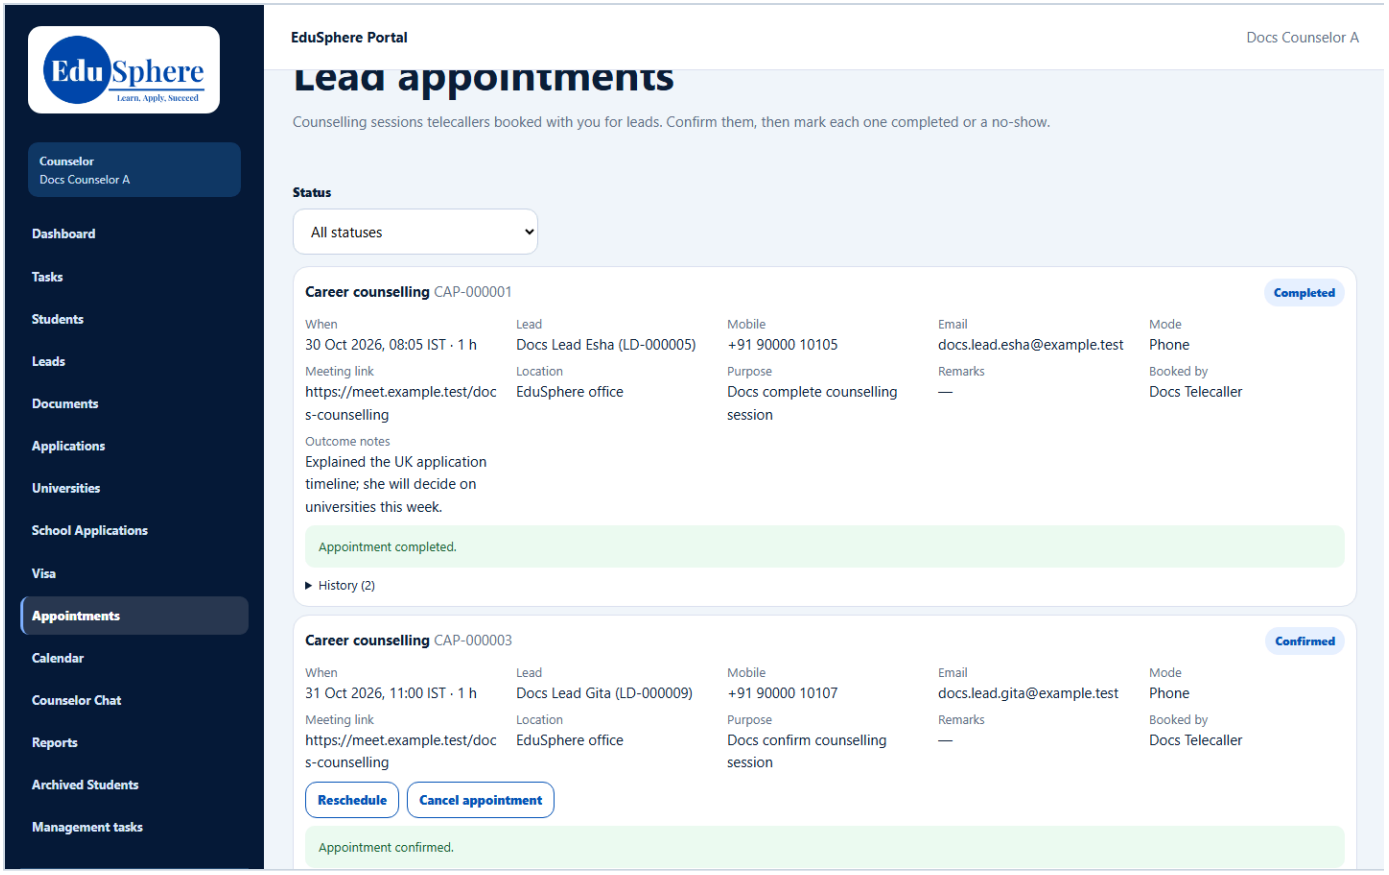

Step 2 — Confirm

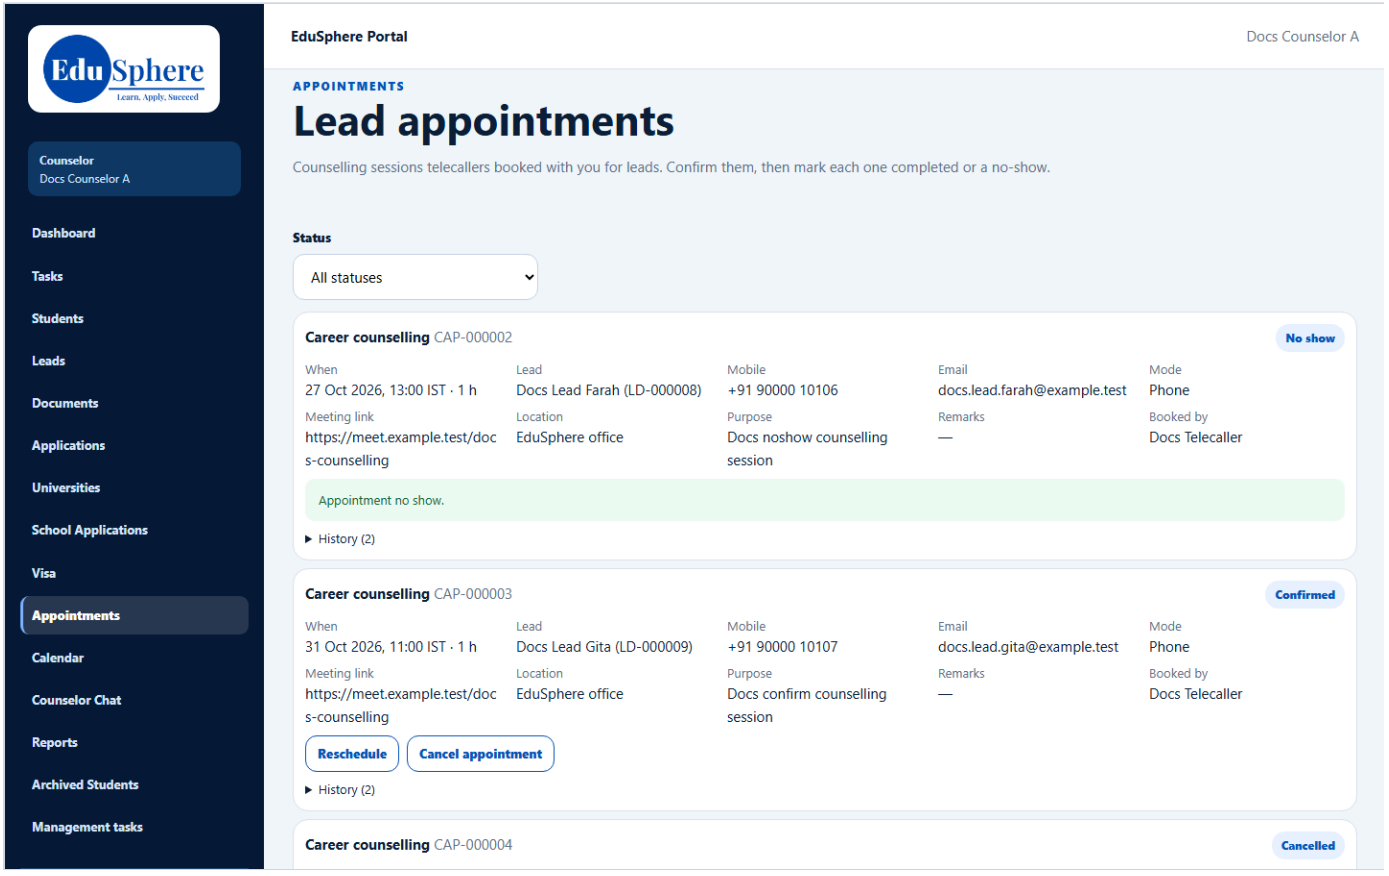

Select **Confirm**. **Appointment confirmed.** appears.

Step 3 — After the session: completed or no-show

Once the start time has passed, **Mark completed** and **Mark no-show** appear. For a completed session, add **Outcome notes (optional)** and select **Mark completed**. **Appointment completed.** appears.

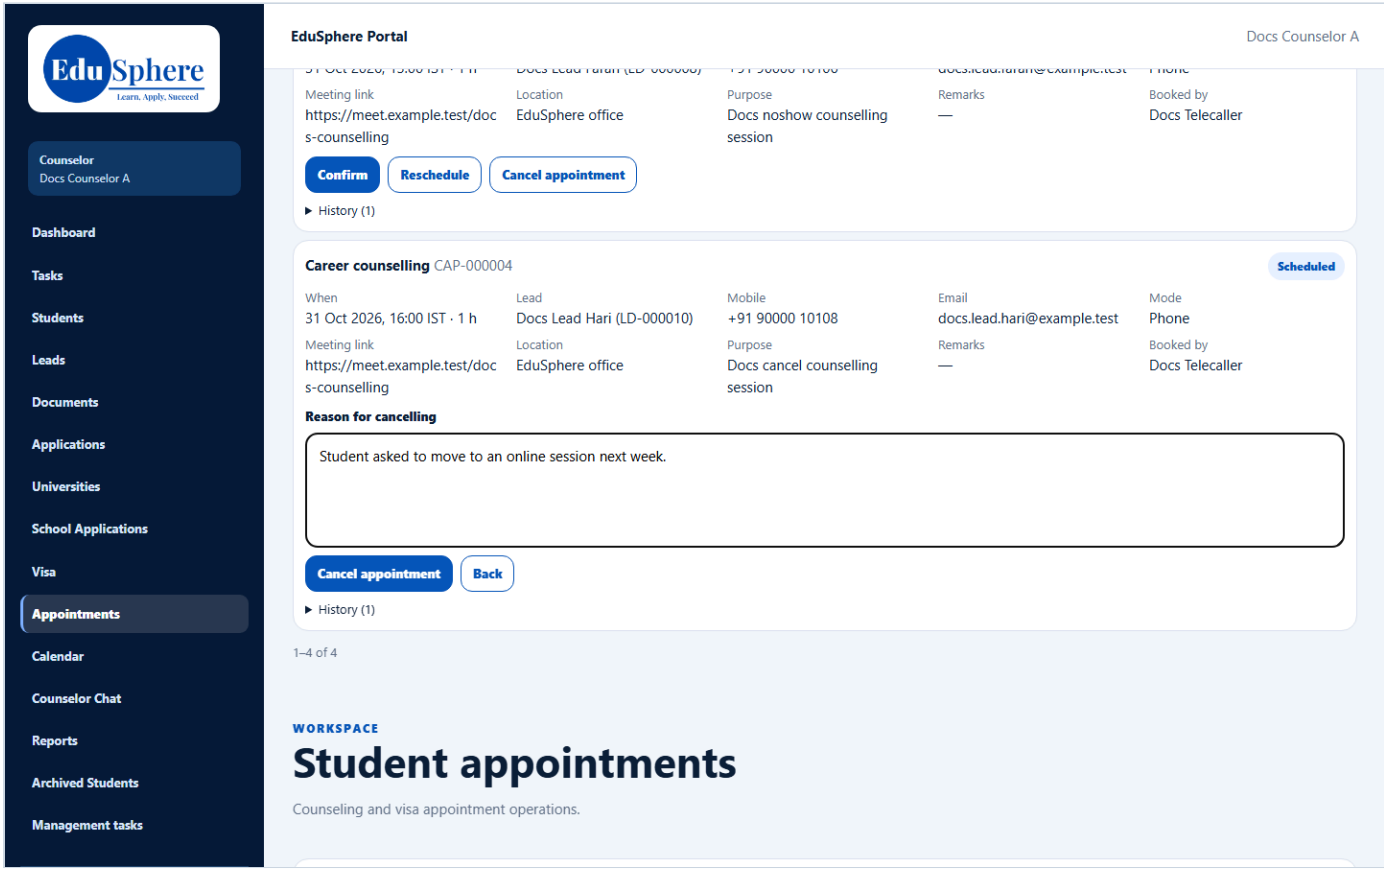

Select **Mark no-show** when the lead didn't attend. The message reads **Appointment no show.**

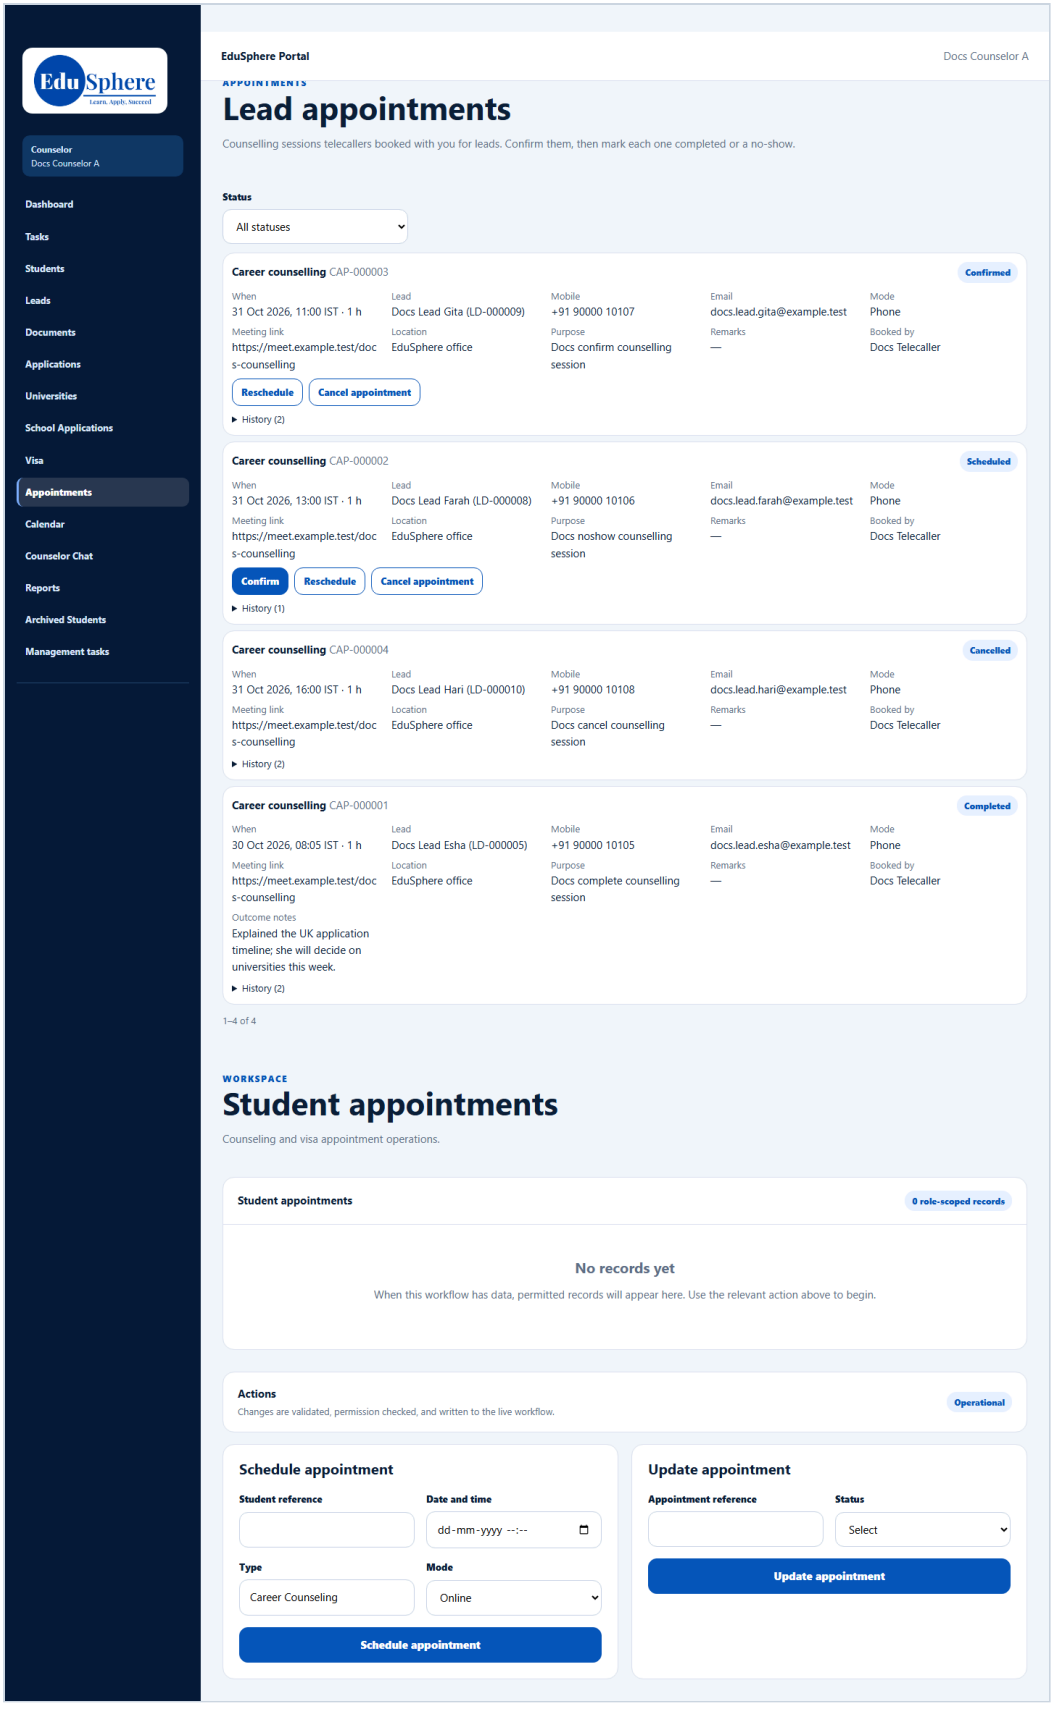

(This screenshot was taken later than the next two, on an appointment whose date was moved back in the documentation database, so CAP-000002 still shows as Scheduled in them.)

Step 4 — Reschedule or cancel

- **Reschedule**: choose a **New date and time (IST)** and an optional reason, then **Save new time**.
- **Cancel**: enter the **Reason for cancelling**, then select **Cancel appointment**. **Appointment cancelled.** appears.

Below the lead appointments

The page also lists **Student appointments**, with **Schedule appointment** and **Update appointment** forms for appointments with your students.

Fields

Field	Description	Required	Example
Outcome notes	What happened in the session	No	Explained the UK application timeline…
New date and time (IST)	For a reschedule; in the future	Yes (reschedule)	1 Nov 2026, 11:00
Reason for cancelling	Why it was cancelled	Yes (cancel)	Student asked to move to an online session…

Expected Result

The status changes on the card and in **History**. Your calendar feed updates too (see Calendar and iCal feed).

Validation Messages

Message	When
Appointment confirmed. / Appointment rescheduled. / Appointment completed. / Appointment cancelled. / Appointment no show.	Success
Add a reason for cancelling.	No reason
Choose the new date and time. / Choose a time in the future	Reschedule time missing or past
The counselor already has an appointment at this time. Busy: {time}	Overlapping booking (seen by the telecaller)
Appointment is already {status}	The action was already taken

Common Errors

Problem: Mark completed isn't shown. **Cause:** The appointment hasn't started yet. **Resolution:** Wait until its start time.

Problem: You can't book counselling from your lead page. **Cause:** Telecallers book lead appointments; counselors confirm them.

Tips

- Confirm appointments as soon as they arrive so the telecaller knows you will attend.

Related Features

- Calendar and iCal feed
- Log a meeting

Calendar and iCal feed

> Doc ID: DOC-CNS-CAL-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

See your counselling appointments, and your students' visa appointments, in Google Calendar, Outlook or Apple Calendar.

Who Can Use This Feature

Overseas counselors.

Prerequisites

A calendar app that can subscribe to a calendar by link.

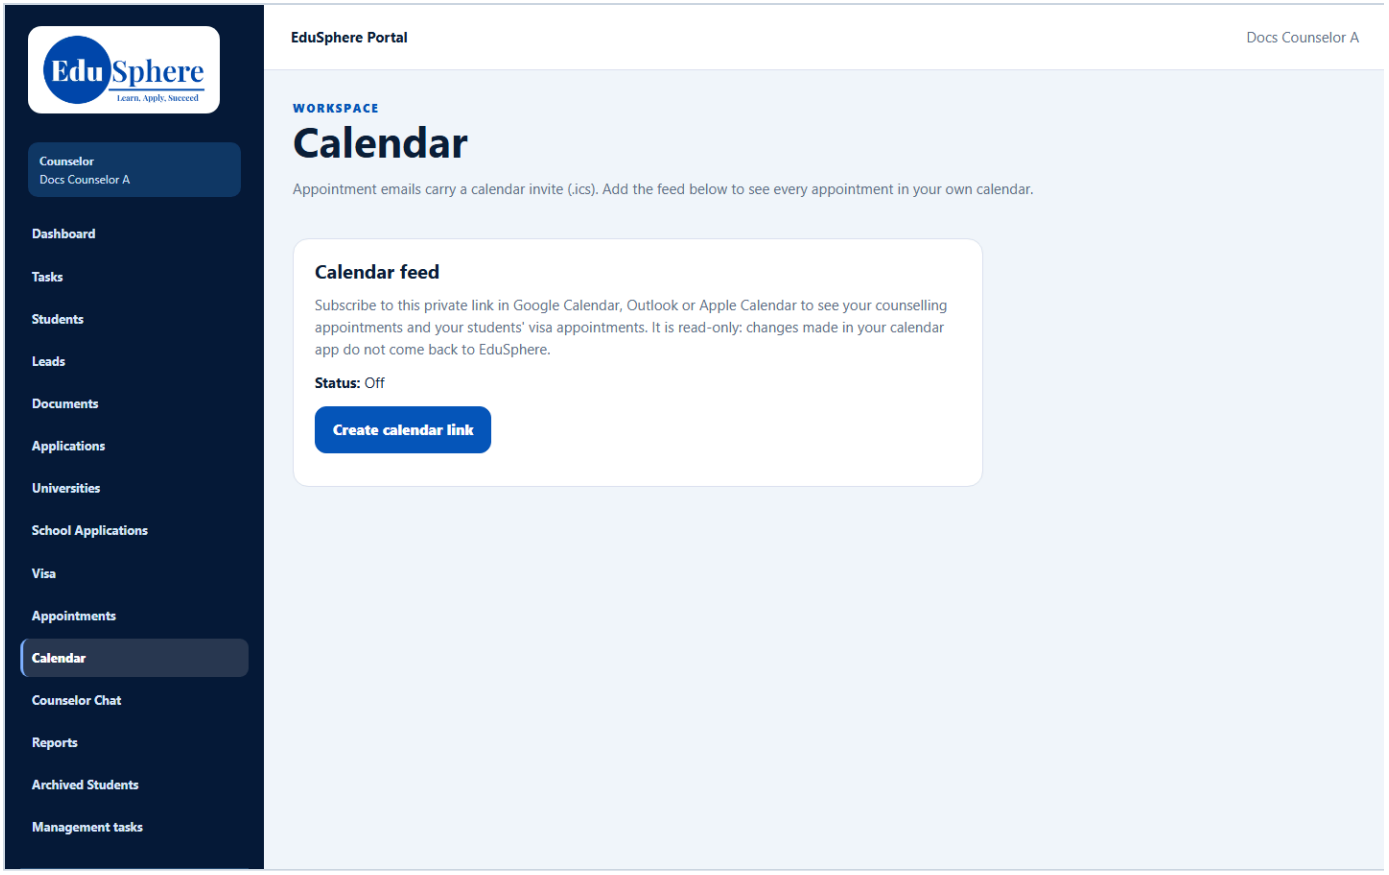

How to Access

Sidebar **Calendar**.

Steps

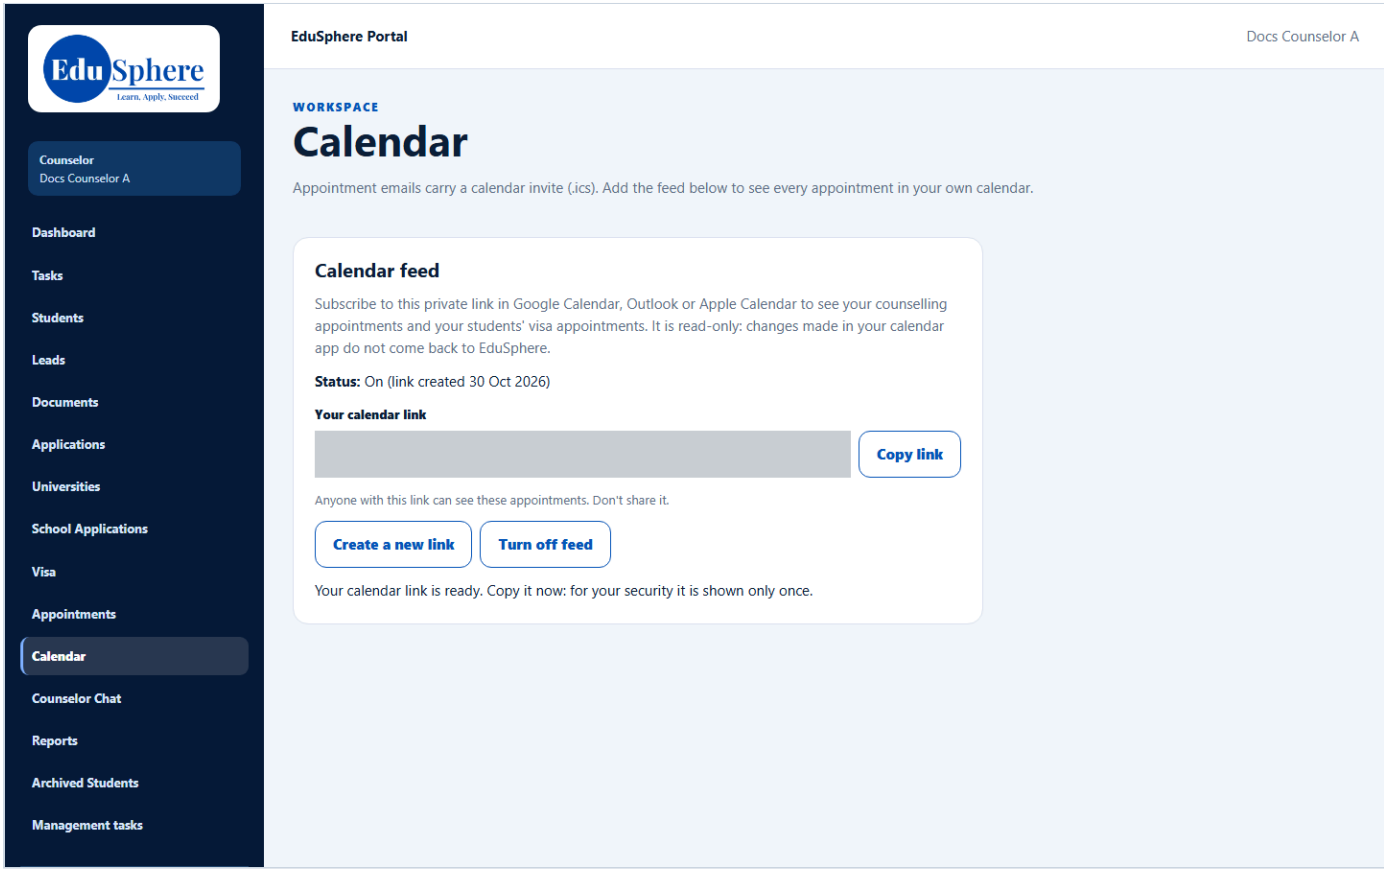

Step 1 — Create your calendar link

The **Calendar feed** card explains the feed and shows **Status: Off**. Select **Create calendar link**.

Step 2 — Copy it now

Your calendar link appears with **Copy link**. The message says: “Your calendar link is ready. Copy it now: for your security it is shown only once.” Select **Copy link**, then paste it into your calendar app’s “subscribe to calendar” option.

Step 3 — Replace or turn off the link

- **Create a new link** asks: “Create a new calendar link? The current link stops working at once, so calendars subscribed to it stop updating.”
- **Turn off feed** stops the link at once (“The calendar feed is off. The old link no longer works.”).

Expected Result

Your calendar app shows a calendar called **EduSphere appointments**, covering the last 90 days onwards. It is read-only: changes made in your calendar app don’t come back to EduSphere.

Validation Messages

Message	When
Your calendar link is ready. Copy it now: for your security it is shown only once.	Link created
Link copied. Paste it into your calendar app’s “subscribe to calendar” option.	Copied
Copy the selected link by hand (Ctrl+C or long-press).	The browser blocked copying

Common Errors

Problem: You didn’t copy the link and now it’s hidden. **Resolution:** Select **Create a new link** and copy it straight away (the old link stops working).

Problem: Someone else may have your link. **Resolution:** Select **Create a new link** or **Turn off feed** immediately. “Anyone with this link can see these appointments. Don’t share it.”

Tips

- Appointment emails also carry a calendar invite (.ics) you can add individually.

Related Features

- Lead appointments

Counselor Chat with students

> Doc ID: DOC-CNS-CHAT-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Exchange secure messages with your students inside EduSphere.

Who Can Use This Feature

Overseas counselors, with the students assigned to them.

Prerequisites

The student has an EduSphere account and is one of your students (for example converted from your lead).

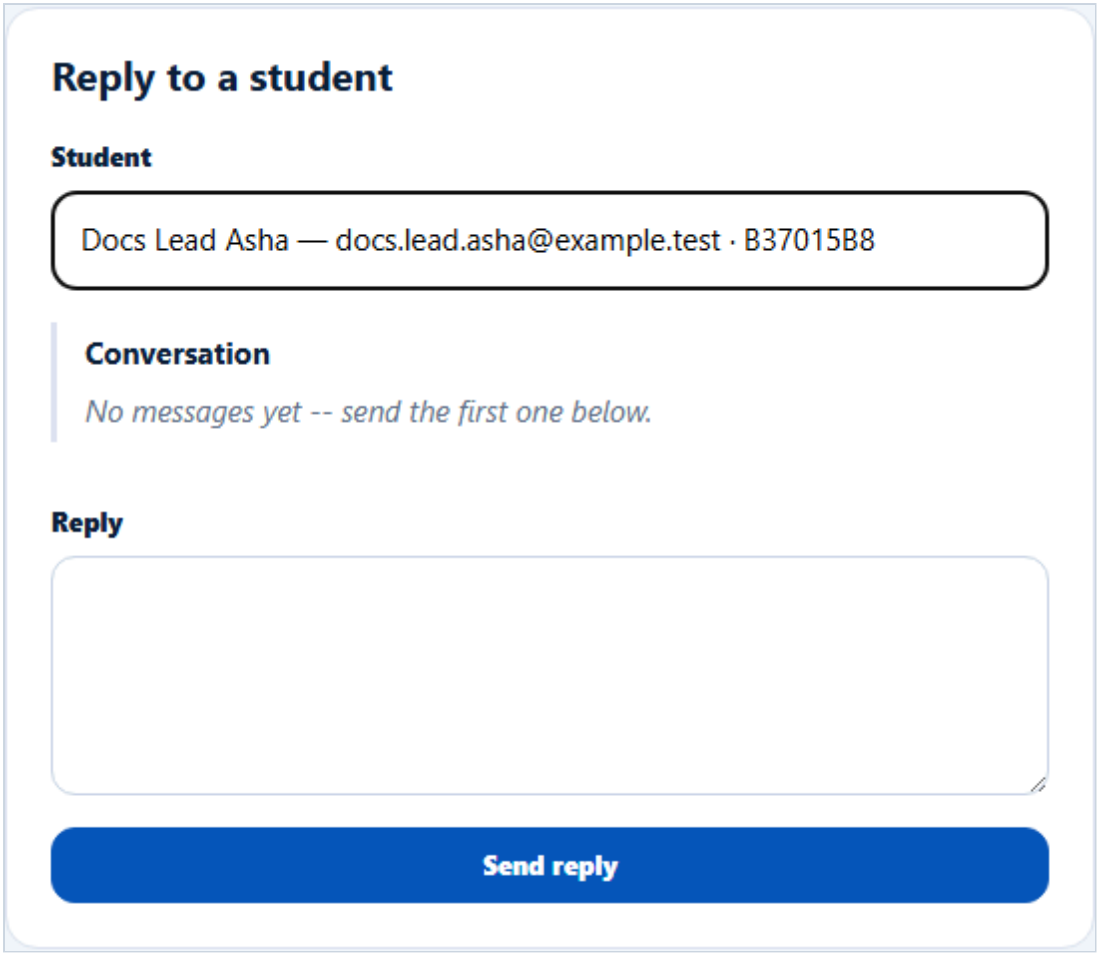

How to Access

Sidebar **Counselor Chat**.

Steps

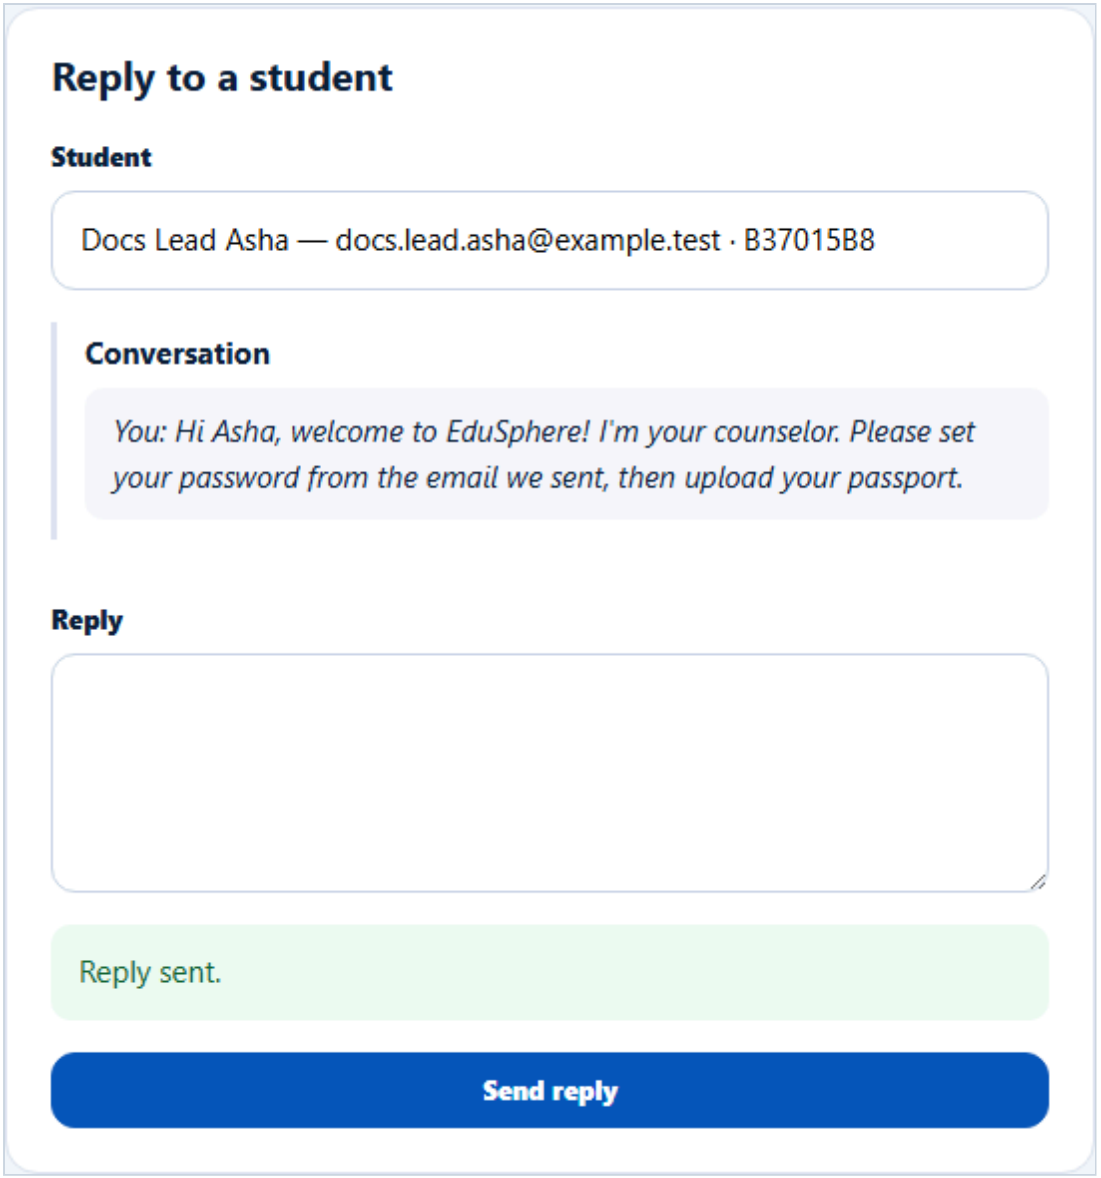

Step 1 — Choose the student

In **Reply to a student**, type part of the student's name in **Student** and pick them from the list (name — email · Student ID). Their **Conversation** loads. If you have not written yet, it says "No messages yet – send the first one below."

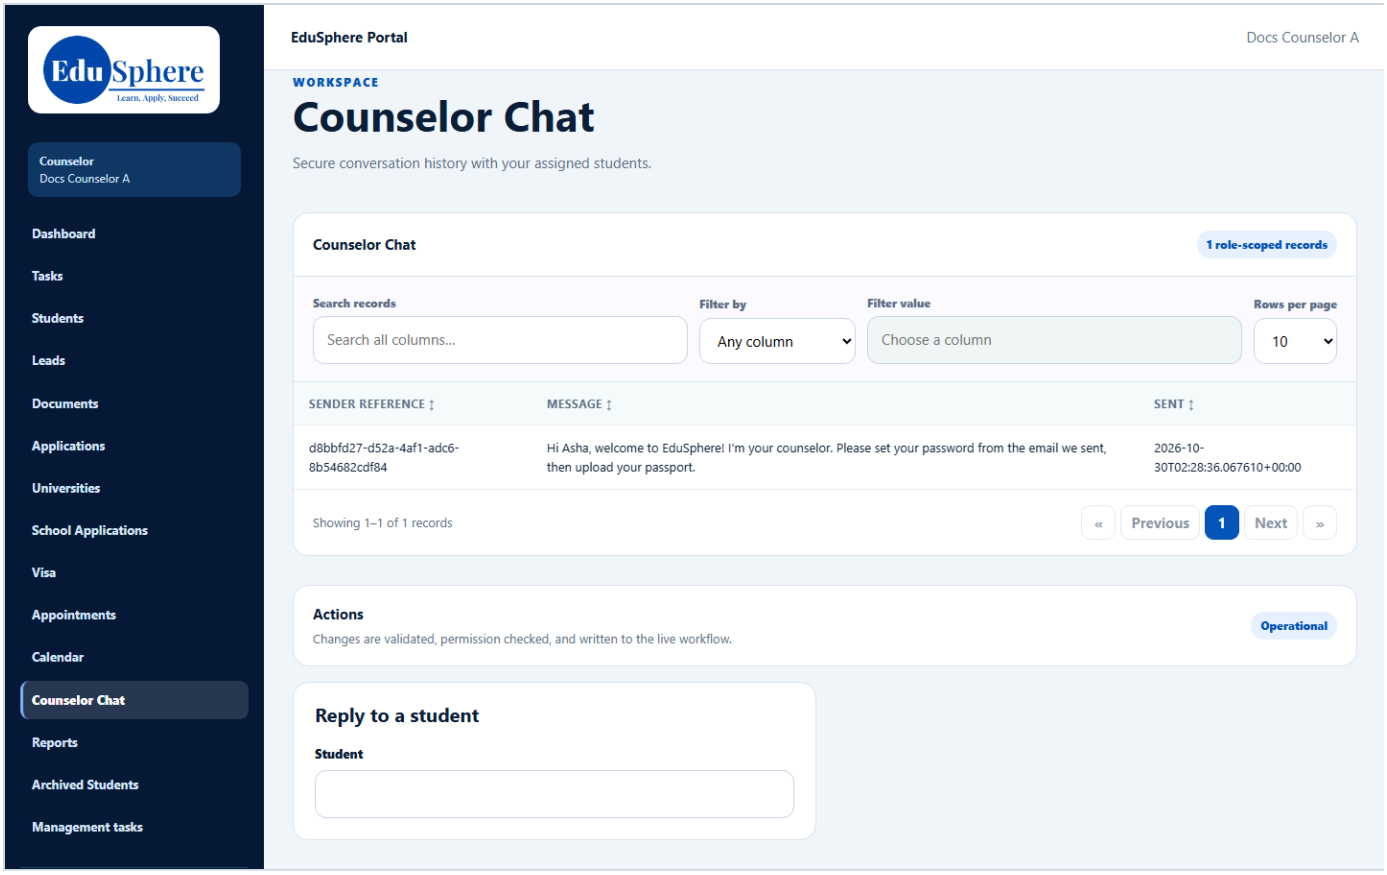

Step 2 — Write and send

Type your message in **Reply** and select **Send reply**. **Reply sent.** appears and your message shows in the conversation as "You: …".

Step 3 — See the history

The **Counselor Chat** table at the top of the page lists the conversation history with your students.

Fields

Field	Description	Required	Example
Student	One of your students	Yes	Docs Lead Asha
Reply	Your message	Yes	Hi Asha, welcome to EduSphere!…

Expected Result

The student sees your message in their portal and can reply.

Validation Messages

Message	When
Reply sent.	Sent

Tips

- Use the WhatsApp or email message templates *(see the Administrator Manual)* for standard updates; use chat for questions and answers.

Related Features

- Portal tour
- Record a WhatsApp message

My performance

> Doc ID: DOC-CNS-REP-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

See your own figures for a period (leads, calls, sessions, follow-ups, conversions), and where your applications stand today.

Who Can Use This Feature

Overseas counselors (your own figures only). The Overseas Admin sees every counselor (see Team performance *(see the Administrator Manual)*).

Prerequisites

None.

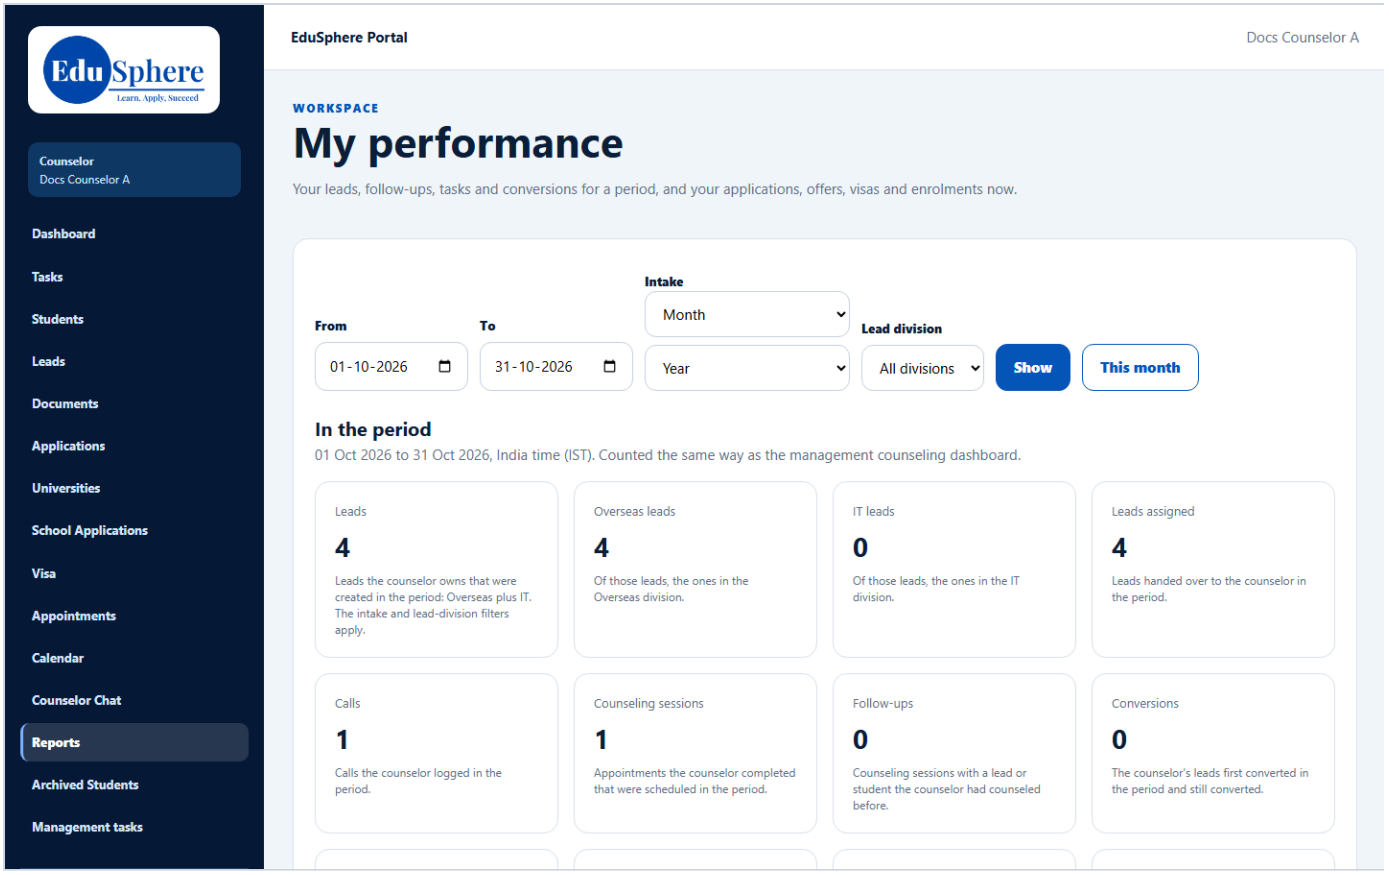

How to Access

Sidebar **Reports** (page title **My performance**).

Steps

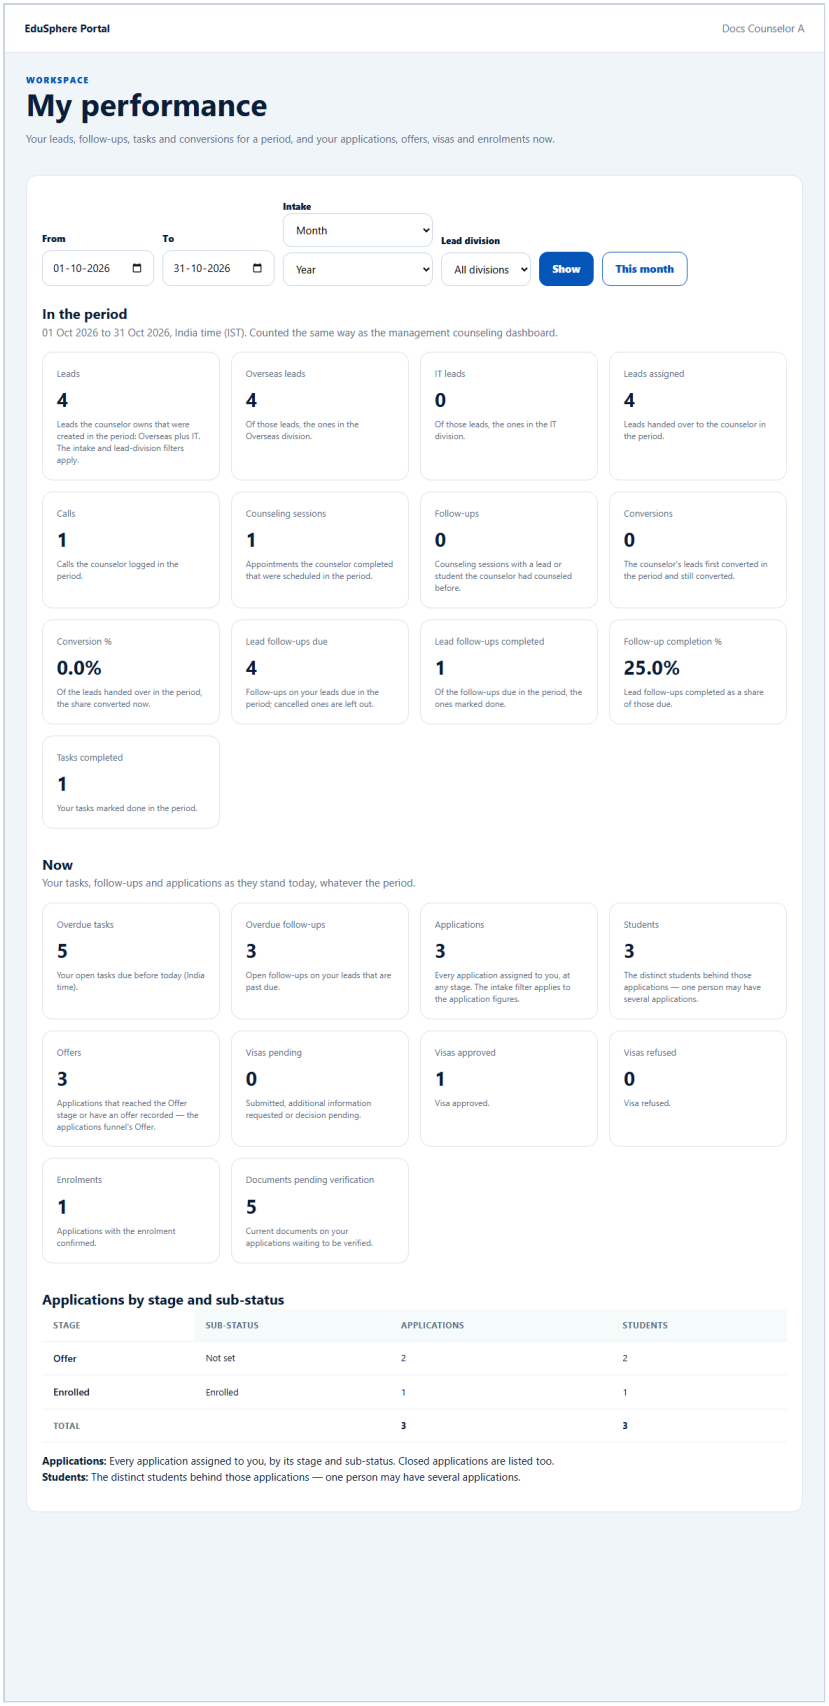

Step 1 — Choose the period

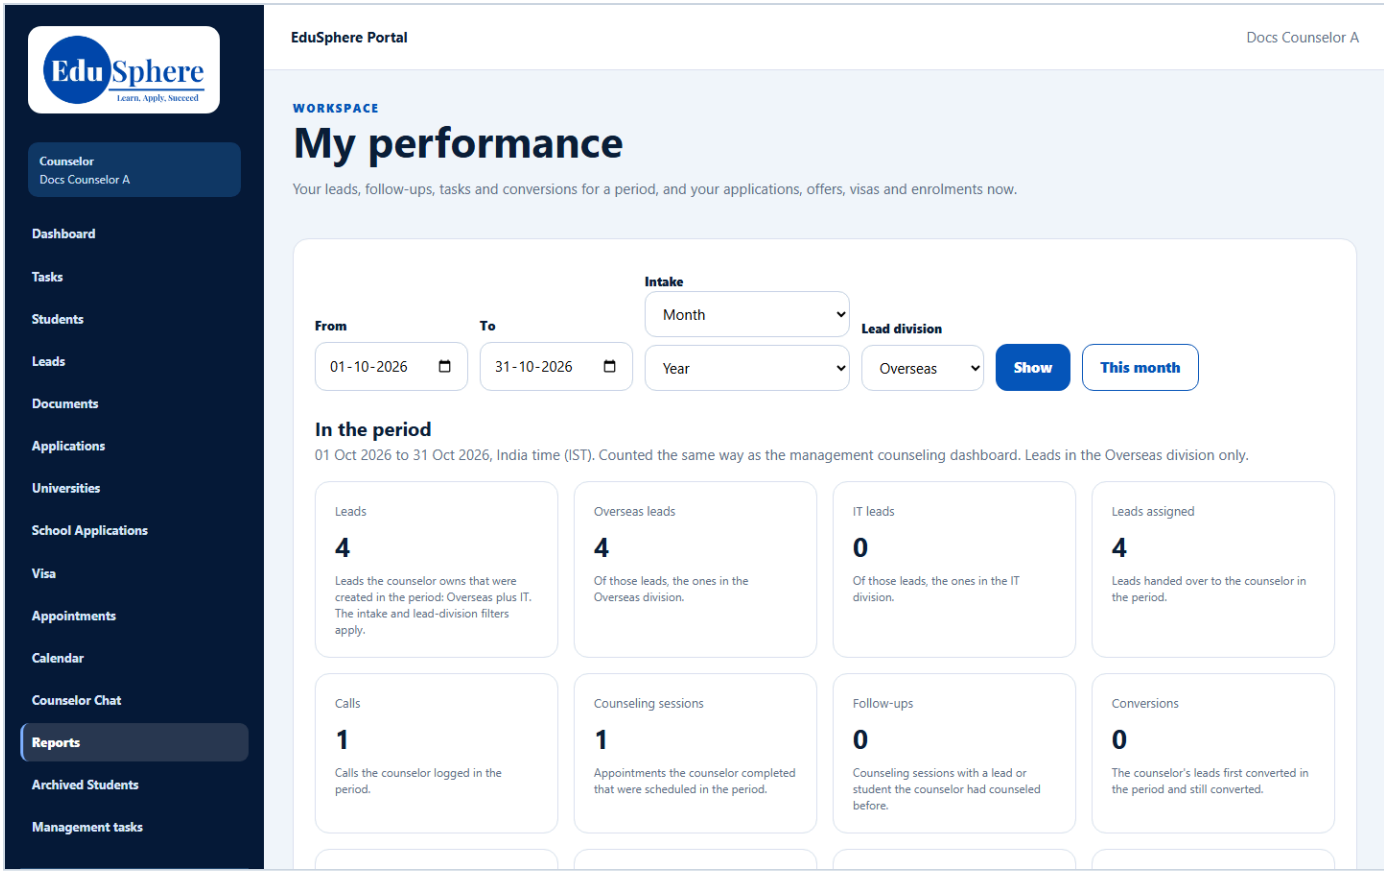

Set **From** and **To** (the default is this month), and optionally an **Intake** and **Lead division** (**All divisions**, **Overseas** or **IT**). Select **Show**, or **This month** to reset.

Step 2 — Read the figures

- **In the period** (India time): Leads, Overseas leads, IT leads, Leads assigned, Calls, Counseling sessions, Follow-ups, Conversions, Conversion %, Lead follow-ups due, Lead follow-ups completed, Follow-up completion % and Tasks completed. Each figure has its definition beside it.
- **Now**: Overdue tasks, Overdue follow-ups, Applications, Students, Offers, Visas pending/approved/refused, Enrolments and Documents pending verification.
- **Applications by stage and sub-status**: a table with a total row.

A telecaller hands a lead to you

> Doc ID: DOC-CNS-HO-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Telecaller, Counselor

Purpose

Understand how a lead reaches you from the telecalling team and what changes when it does.

Who Can Use This Feature

- **Telecaller**: hands over their own lead (their manager and the Super Admin can too).
- **Counselor**: receives the lead in **Leads**.

What each role sees

	Telecaller	Counselor
Before handover	Full lead page with **Assign to counselor**	Nothing
After handover	"This lead is with the counselor, {name}. You can view it but not change it."	The lead in **My leads**, ready to work

Prerequisites

- The lead is open (not closed) and has not already moved past the counselor handover.
- You are an active Overseas counselor.

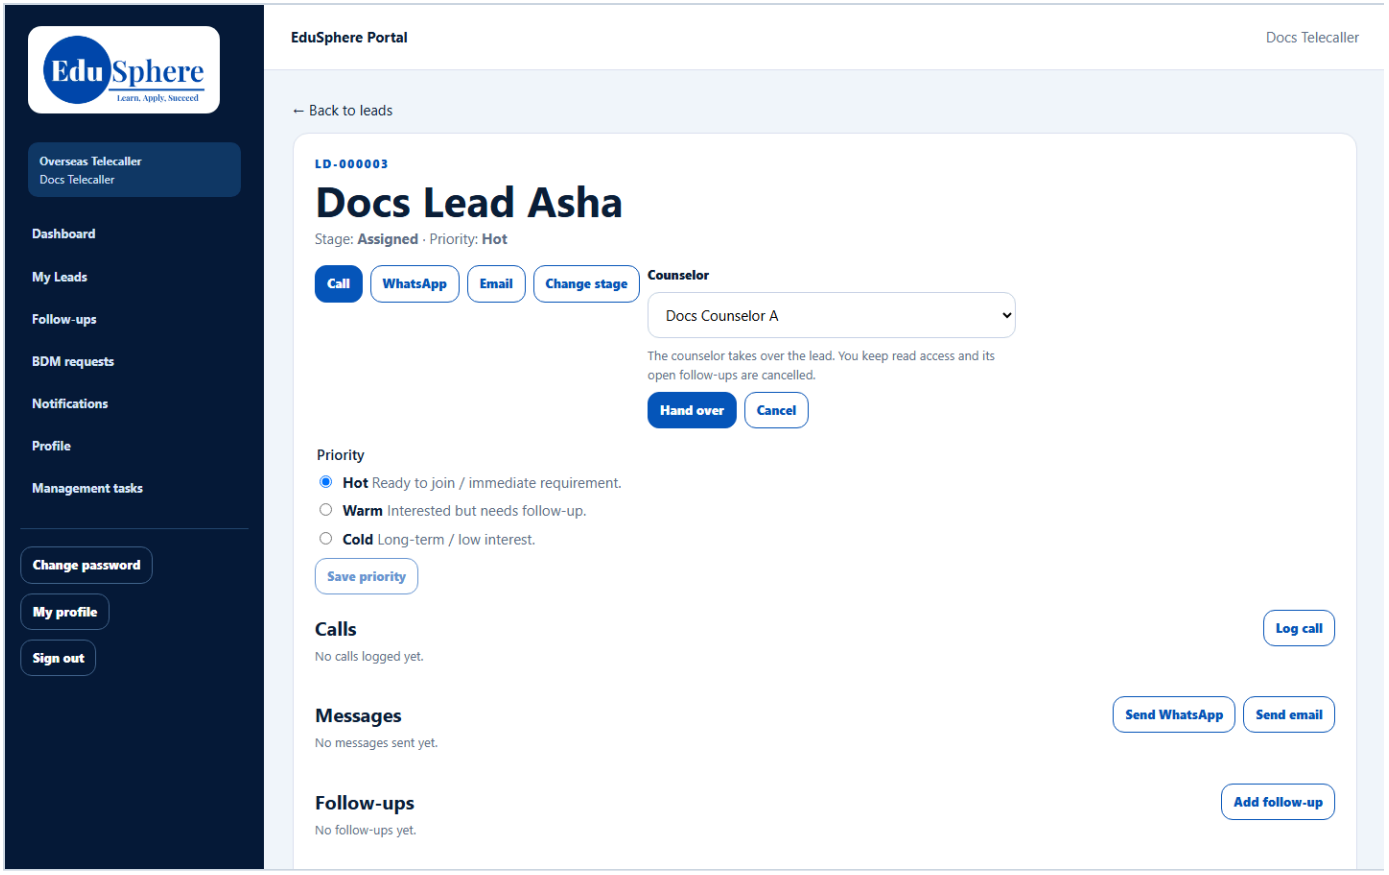

How to Access

- Telecaller: **My Leads** → open the lead → **Assign to counselor**.
- Counselor: sidebar **Leads** (page **My leads**).

Steps

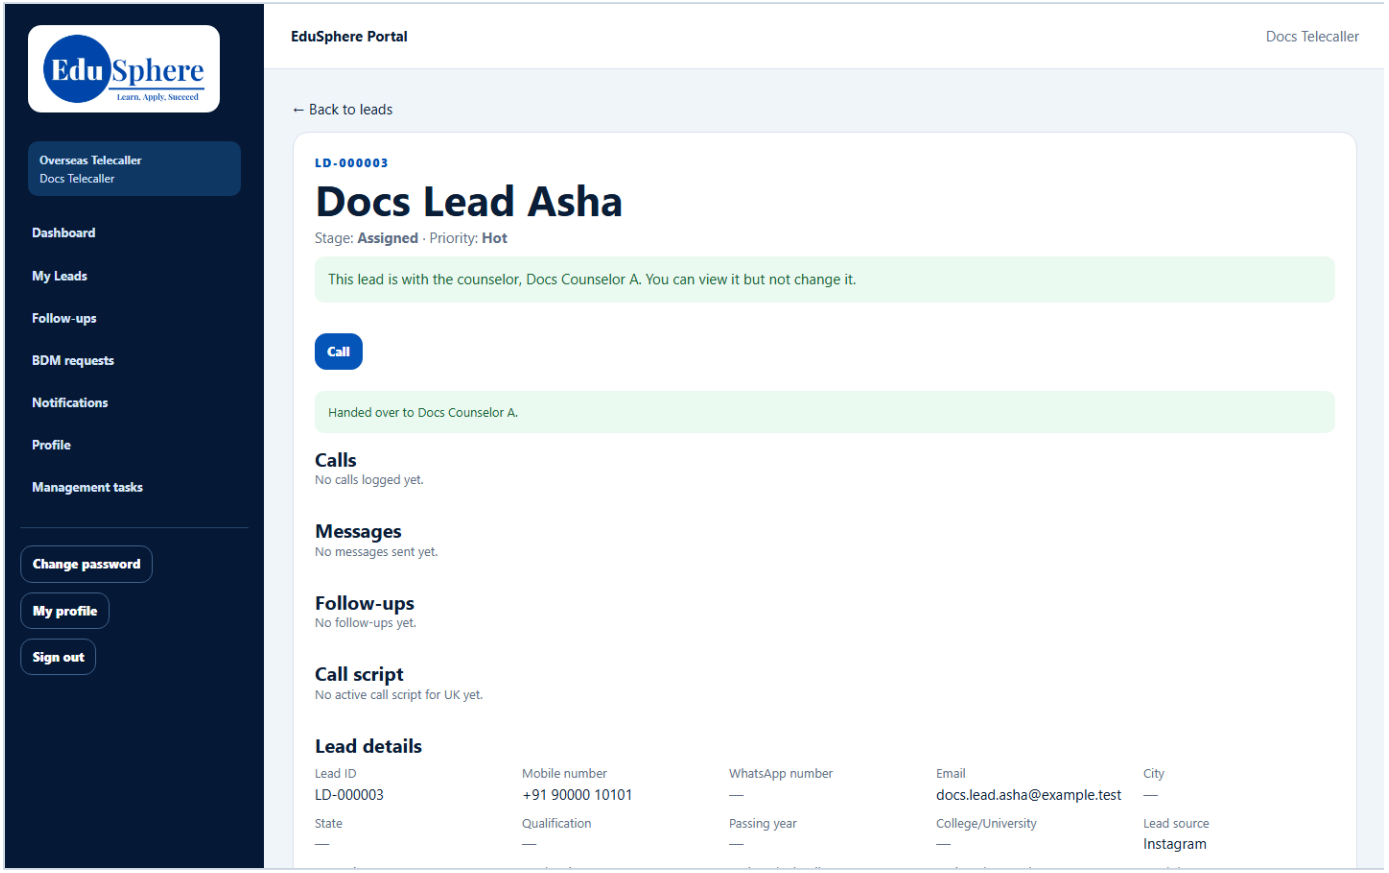

Step 1 — The telecaller chooses you

On the lead, the telecaller selects **Assign to counselor**, picks you in **Counselor** and selects **Hand over**. The form explains: "The counselor takes over the lead. You keep read access and its open follow-ups are cancelled."

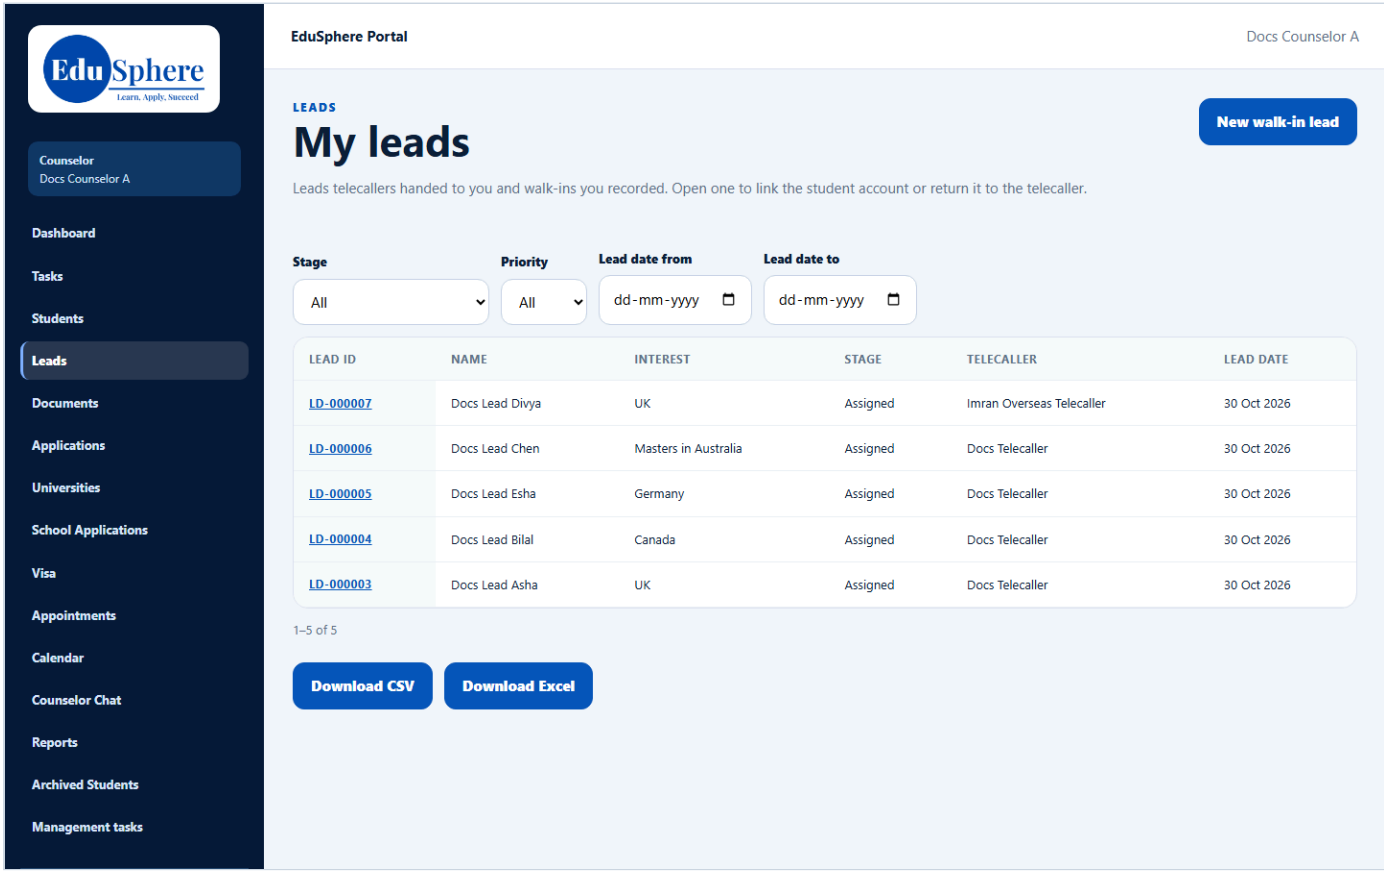

Step 2 — The handover is confirmed

The telecaller sees **Handed over to {counselor}.** and their lead page becomes read-only.

Step 3 — The lead appears in My leads

Open **Leads**. The lead is listed with its telecaller's name and keeps its stage (for example **Assigned**). Open it to start work. See Lead detail page.

Expected Result

You own the lead. The telecaller can still view it, and any follow-ups they had open on it are cancelled.

Validation Messages

Message	Who sees it	When
Handed over to {name}.	Telecaller	Success
This lead is closed; reopen it before handing it over	Telecaller	The lead is closed
This lead is already past the counselor handover	Telecaller	The lead has moved on
This lead is already with this counselor	Telecaller	Chosen counselor already owns it
No other active counselor in this division.	Telecaller	No counselor to choose

Common Errors

Problem: You can't find a notice about a new lead in EduSphere. **Cause:** The handover itself sends nothing; the **New lead assigned** reminder rule (on by default) creates a "First contact" task and emails you a notice. The counselor portal has no notifications page. **Resolution:** Check **Leads**, **Tasks** and your email each morning.

Tips

- Leads keep their telecaller. If the lead isn’t ready for counselling, you can return it.

Related Features

- A website enquiry becomes your lead
- My leads list
- Return a lead to the telecaller

A website enquiry becomes your lead

> Doc ID: DOC-CNS-HO-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Website visitor, Telecaller, Counselor

Purpose

Know the path a website enquiry takes before it reaches you.

Who Can Use This Feature

Counselors (for awareness). Visitors submit the form; telecallers take the first call.

Prerequisites

None.

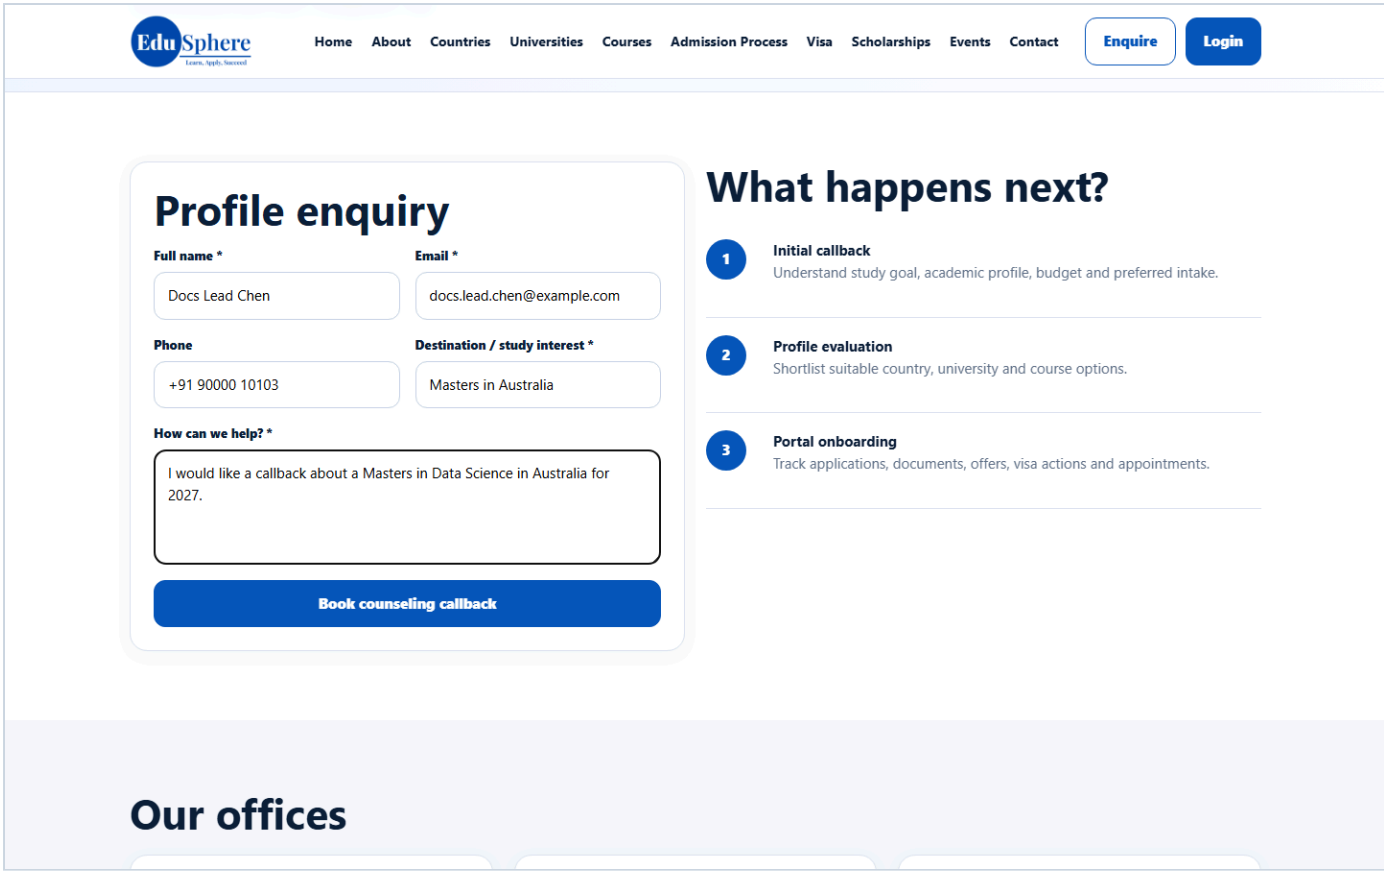

How to Access

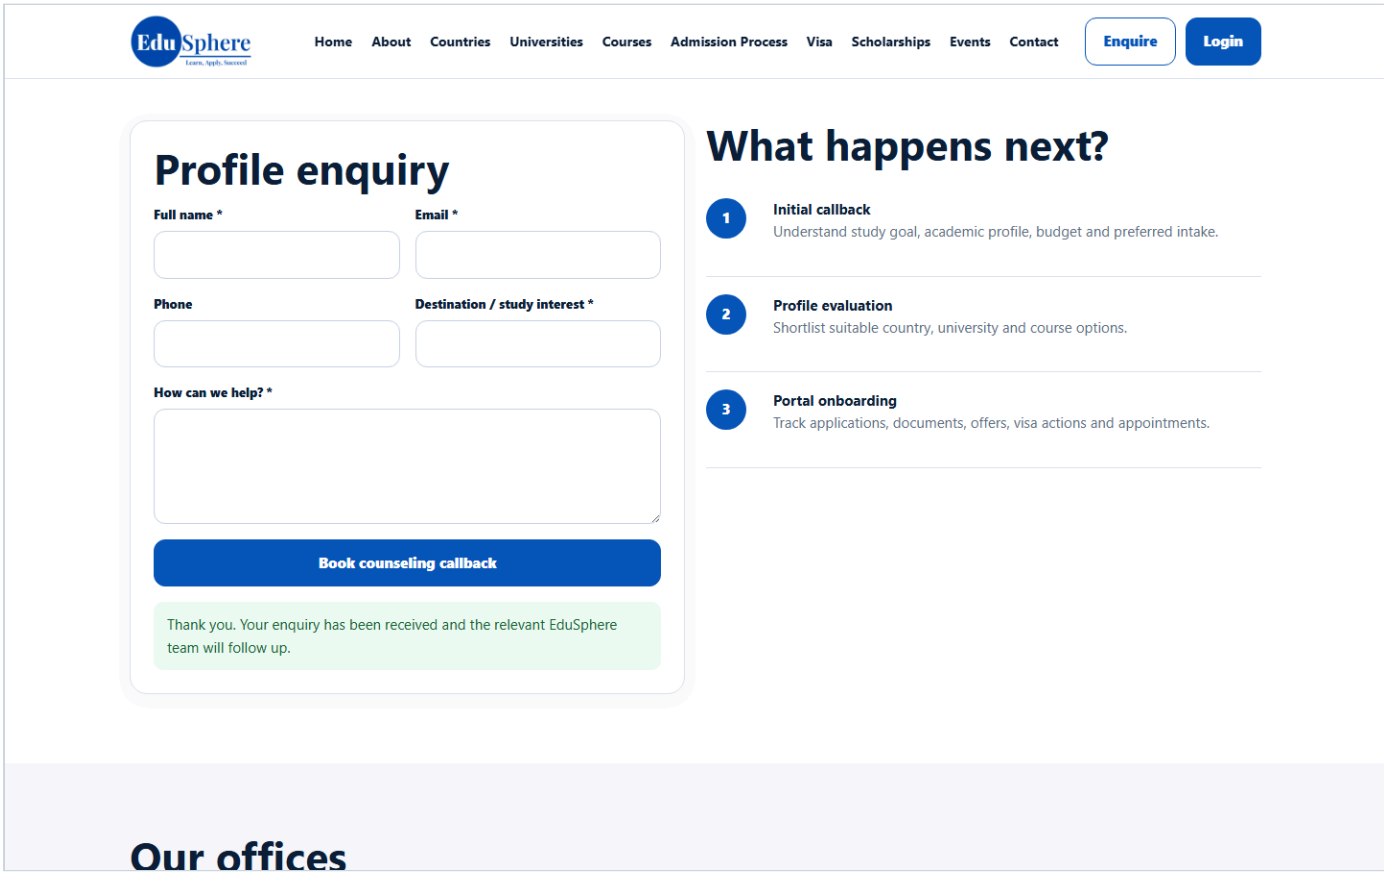

The public **Contact** page of the Overseas Education site.

Steps

Step 1 — A visitor submits the enquiry form

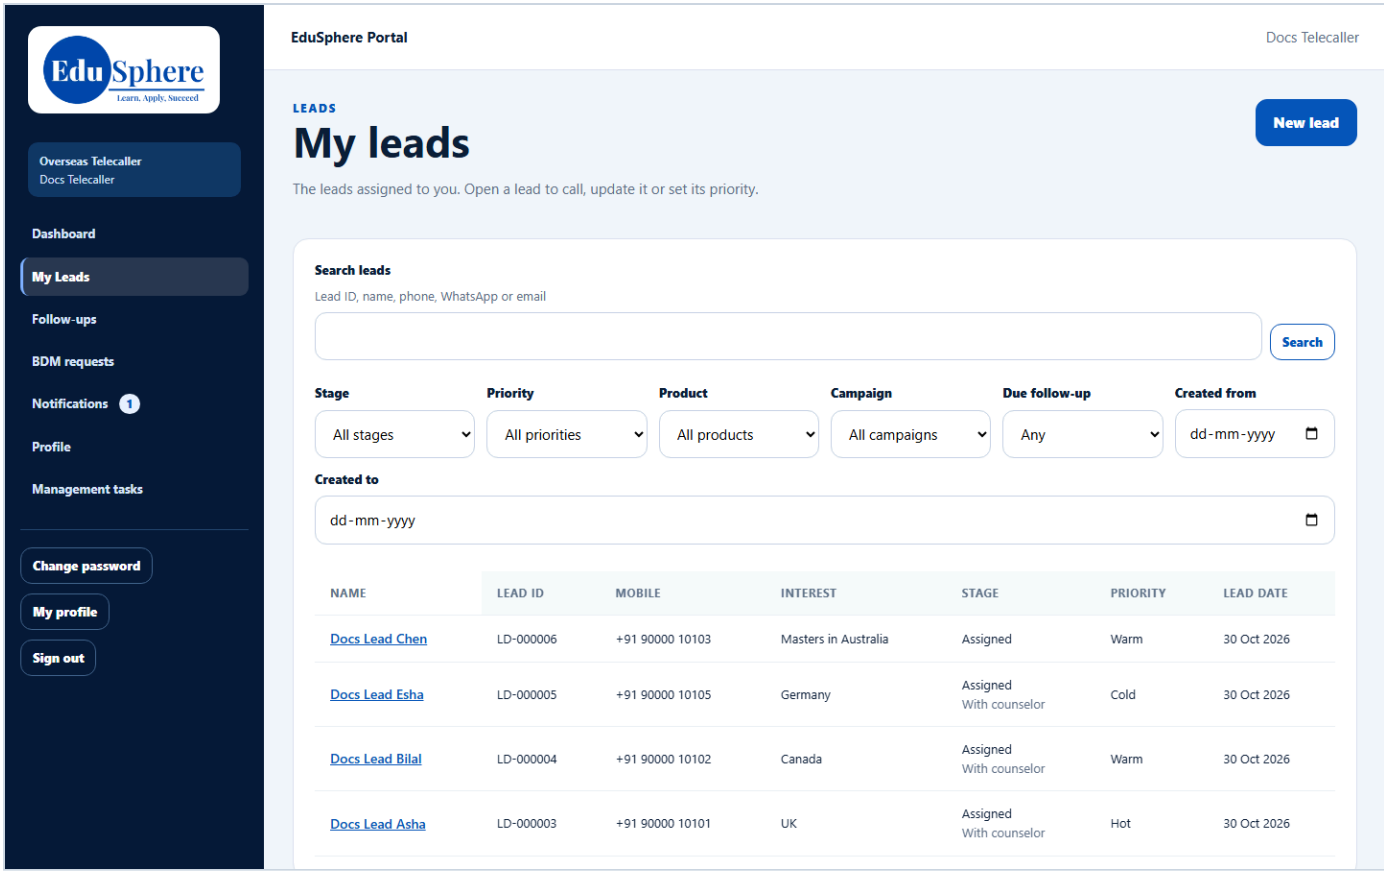

The visitor fills **Full name**, **Email**, **Phone**, **Destination / study interest** and **How can we help?**, then selects **Book counseling callback**. They see **Thank you. Your enquiry has been received and the relevant EduSphere team will follow up.**

Step 2 — The lead goes to an Overseas telecaller

EduSphere creates a lead with source **Website** and assigns it to an active Overseas telecaller automatically. If nobody can take it, it waits in the telecaller managers' unassigned queue. The enquiry subject becomes the lead's **Interest**.

Step 3 — The telecaller hands it to you

After the first call, the telecaller hands the lead over. From then on it is in your **My leads**. See A telecaller hands a lead to you.

Expected Result

Website leads reach you already called and qualified by the telecaller, never directly.

Validation Messages

Message	When
Thank you. Your enquiry has been received and the relevant EduSphere team will follow up.	The enquiry was accepted
We could not submit your enquiry. Please review the fields and try again.	A field is missing or invalid (for example, an unusual email address)

Common Errors

Problem: A student says they filled the website form but you can't see them. **Cause:** The lead is still with a telecaller. **Resolution:** Ask the telecalling team to hand it over.

Tips

- If the same person is already a lead, the enquiry is added to that lead instead of creating a new one.

Related Features

- A telecaller hands a lead to you
- Record a new walk-in lead

Agency students and applications

> Doc ID: DOC-CNS-HO-003 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Agent, Overseas Admin, Counselor

Purpose

Understand how applications submitted by education agents reach you.

Who Can Use This Feature

Counselors (awareness). Agents create the applications; the Overseas Admin assigns them.

Prerequisites

None.

How to Access

Sidebar **Students** (Application Tracking and My students).

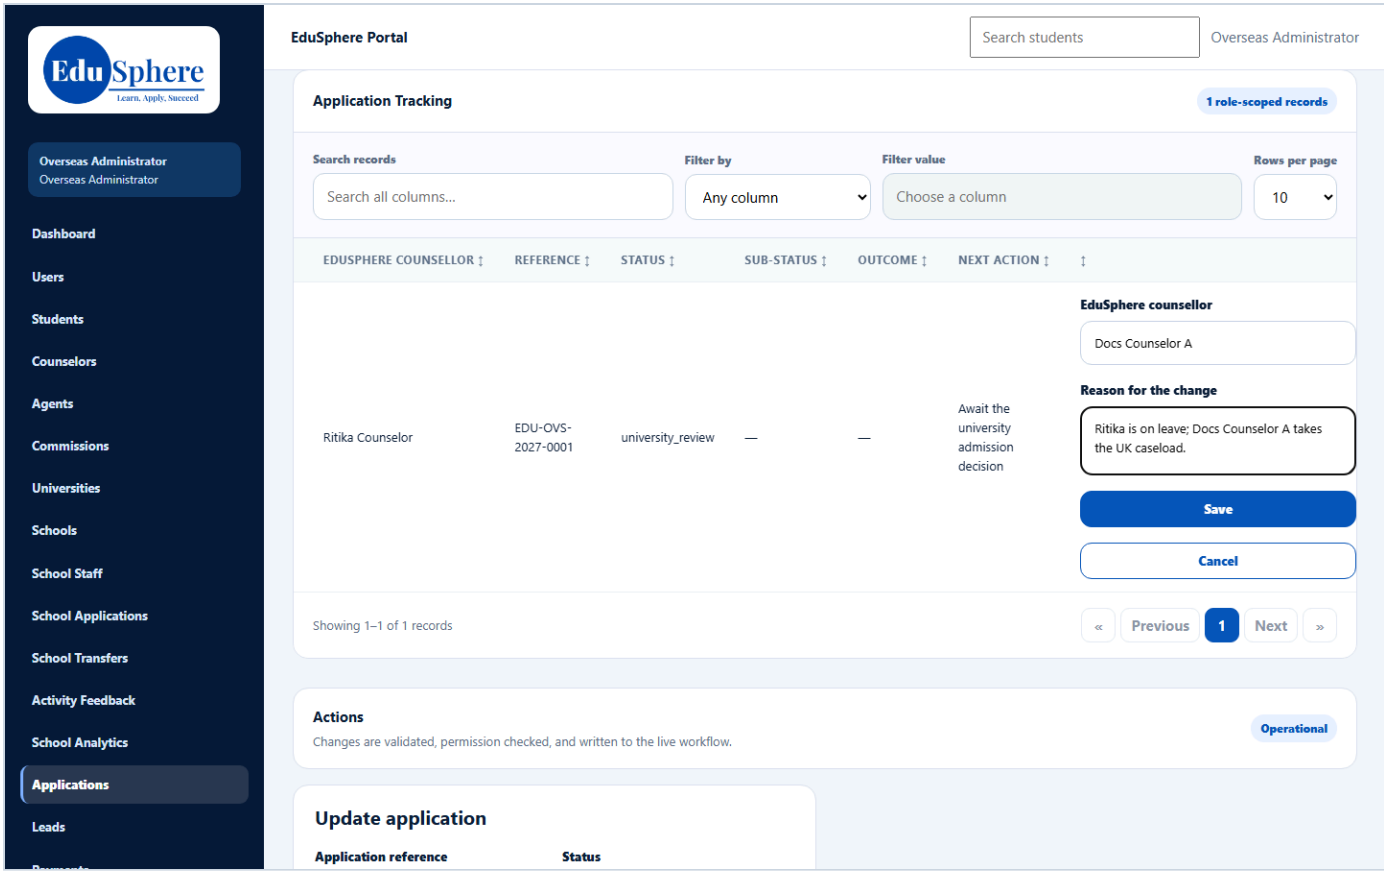

Steps

Step 1 — The agent applies

An agent's application arrives with no EduSphere counselor.

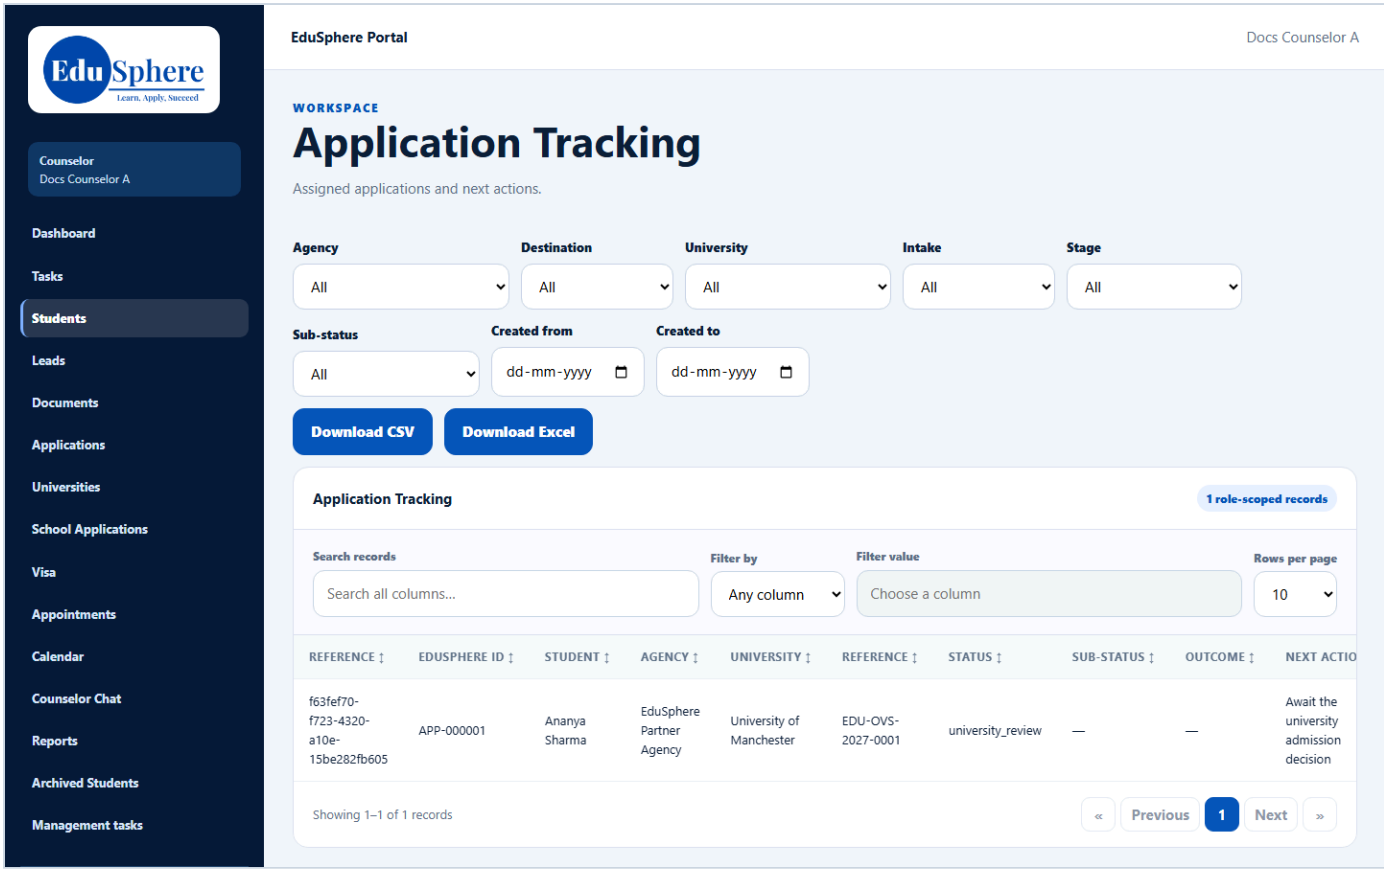

Step 2 — The Overseas Admin assigns a counselor

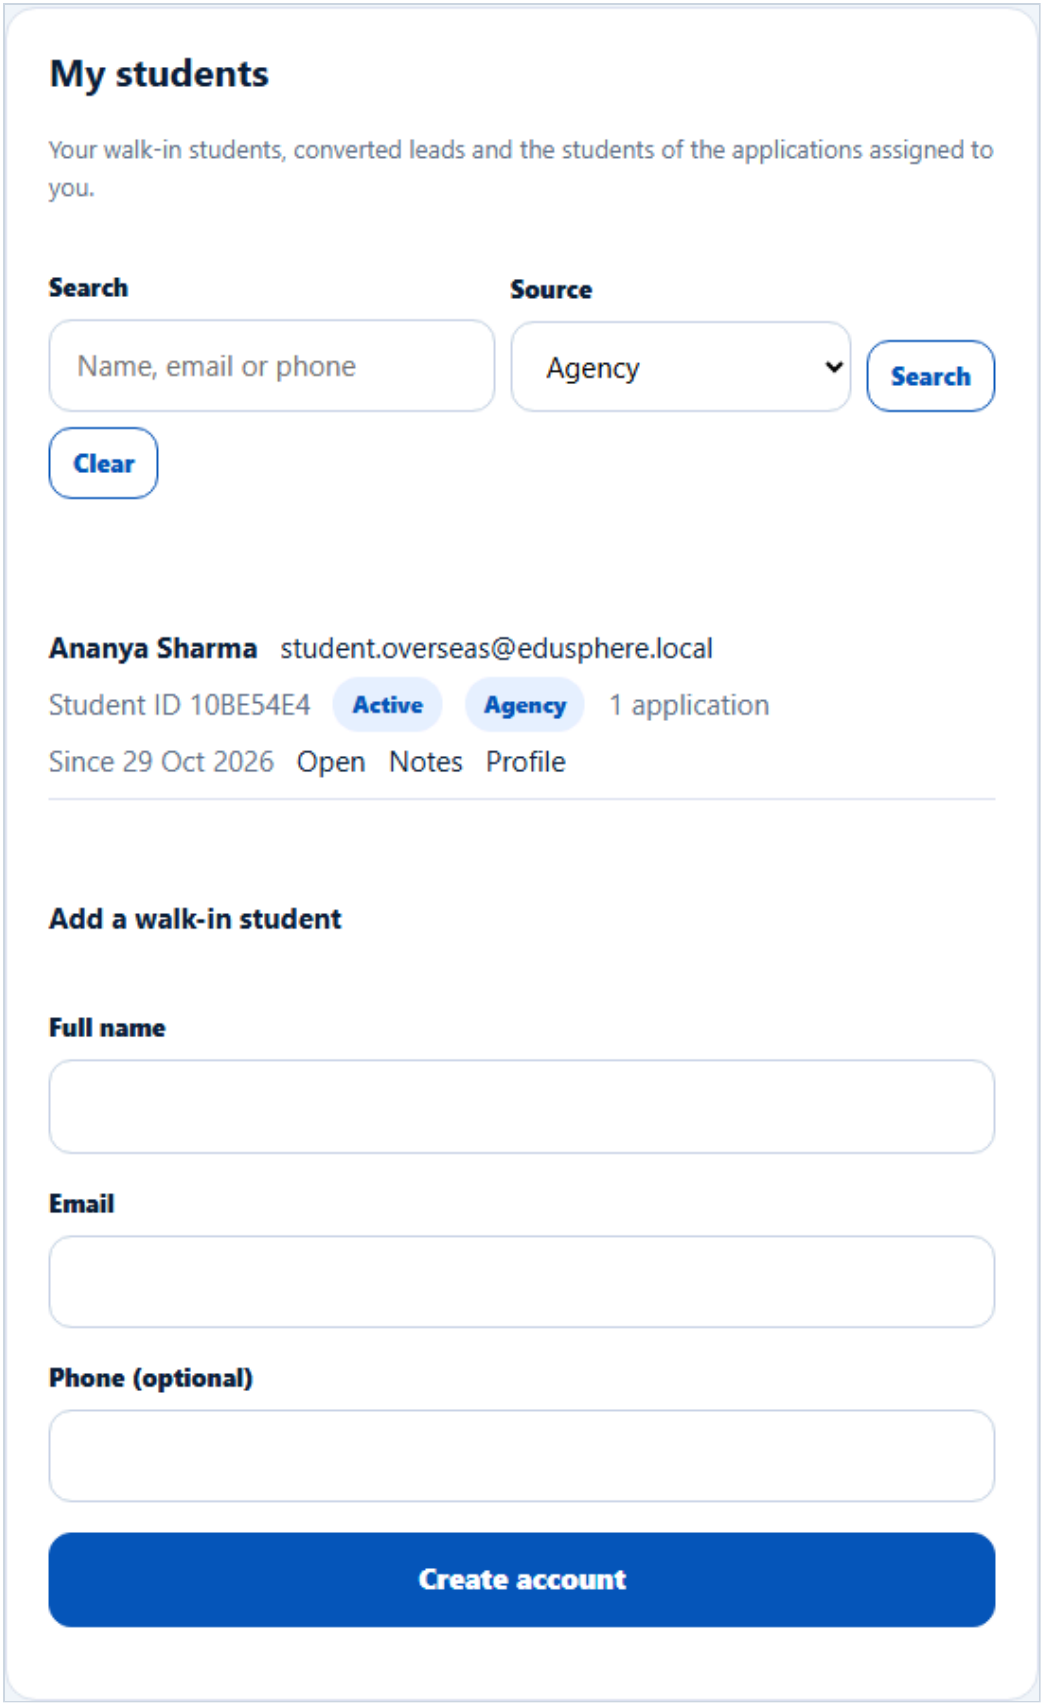

The Overseas Admin selects **Assign counsellor** (or **Change counsellor**) on the application. See Assign or change an application's counselor *(see the Administrator Manual)*.

Step 3 — It appears in your lists

The application shows in **Application Tracking** with the agency's name in **Agency**. Its student appears in **My students** with source **Agency**.

Expected Result

You record offers, visa and enrolment on agency applications too. The agent sees who their counselor is, but not the reason for a change.

Common Errors

Problem: A new agency application has no counselor for days. **Cause:** Nobody is alerted when an agency application arrives unassigned. **Resolution:** Overseas Admins should filter **Counsellor** = **Not assigned** regularly.

Related Features

- Self-registered students
- Agency vs direct applications

Self-registered students

> Doc ID: DOC-CNS-HO-004 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Student, Overseas Admin, Counselor

Purpose

Understand how a student who registers on the website reaches you.

Who Can Use This Feature

Counselors (awareness). Students register themselves; the Overseas Admin assigns them.

Prerequisites

None.

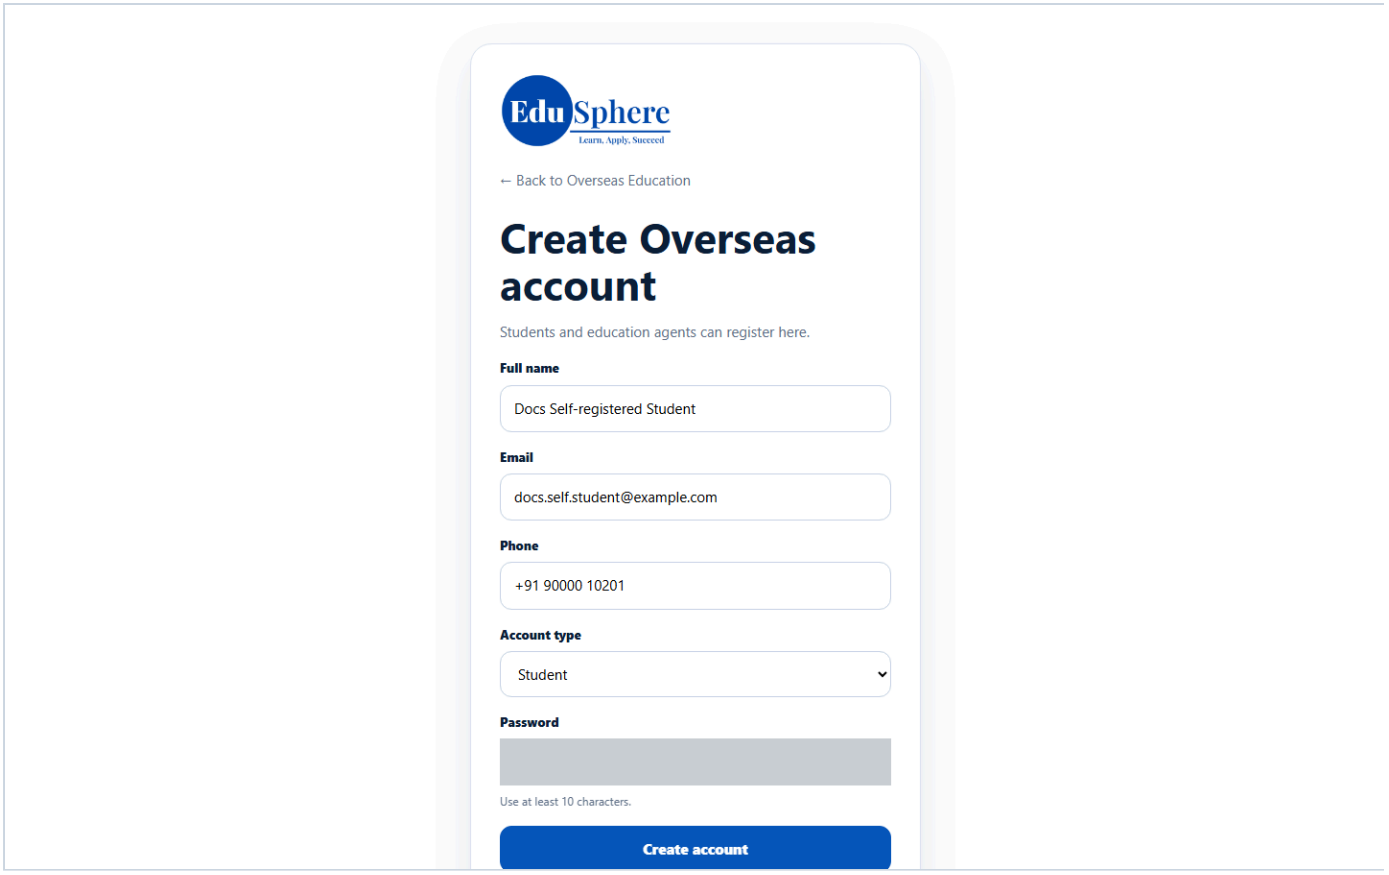

How to Access

Website: **Create Overseas account** (`/overseas/register`). Counselor: **My students**.

Steps

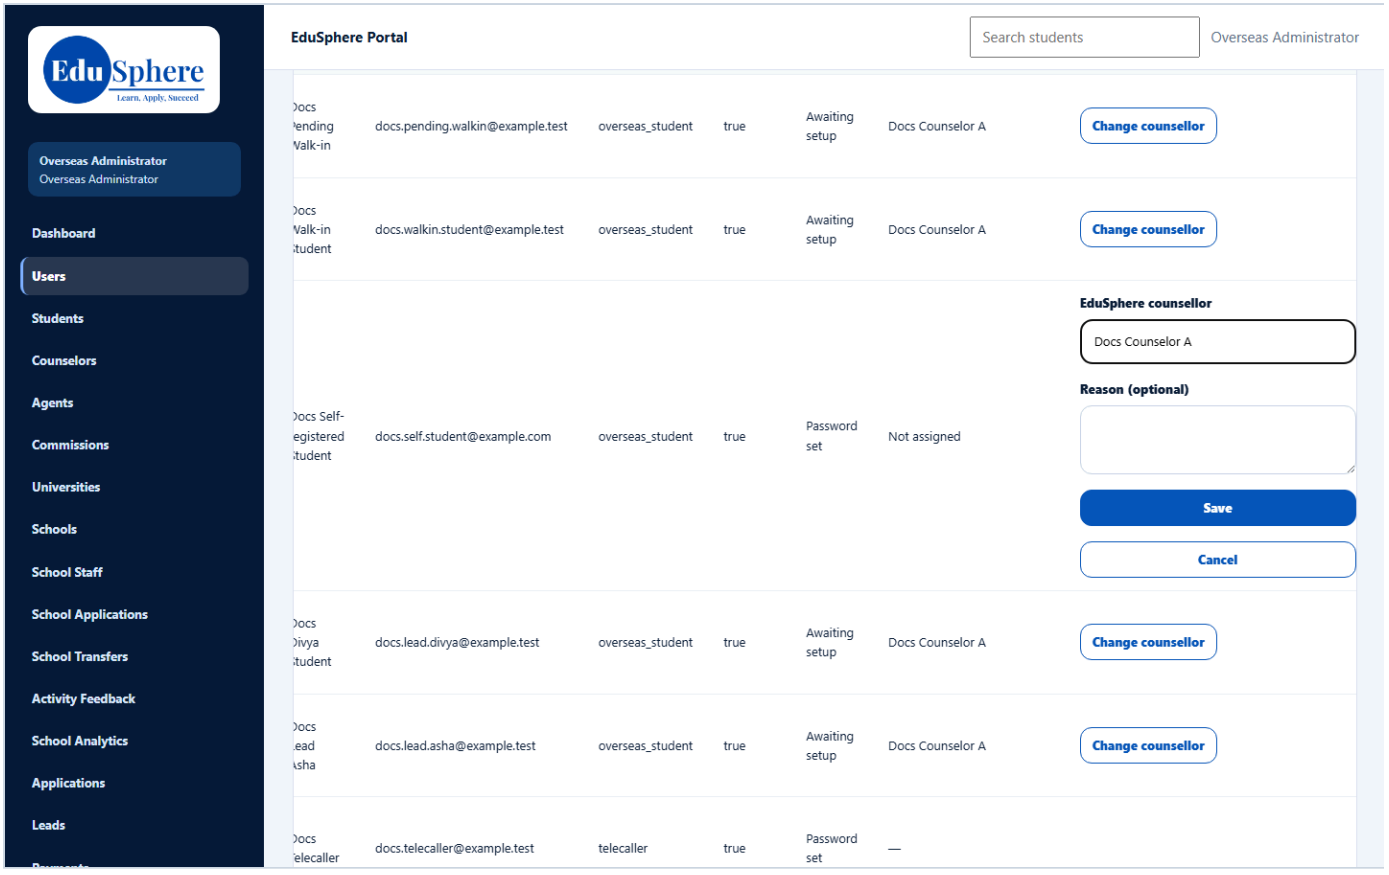

Step 1 — The student registers

On **Create Overseas account**, the student enters **Full name**, **Email**, **Phone** and **Password**, keeps **Account type** as student, and selects **Create account**. They land on their dashboard, where they are asked for consent first.

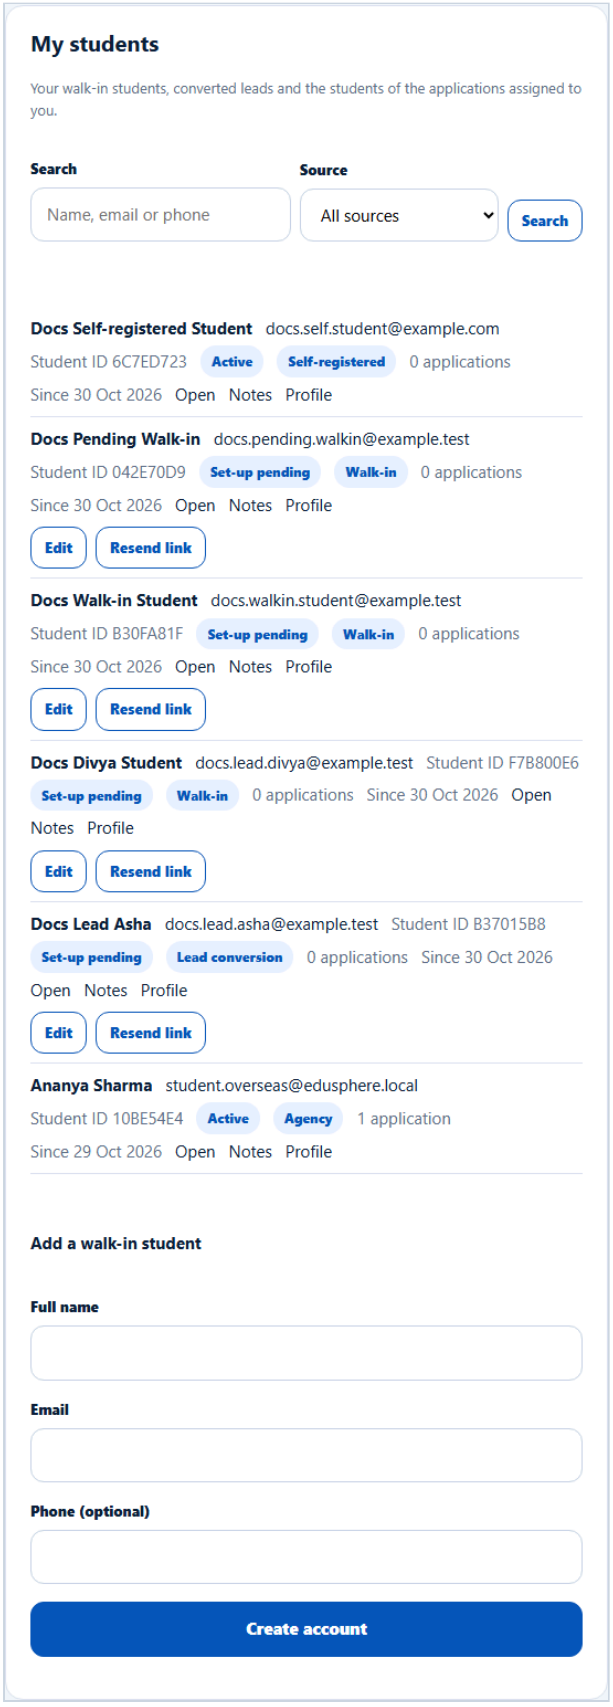

Step 2 — The Overseas Admin assigns a counselor

The student has no counselor until the Overseas Admin selects **Assign counsellor** for them on **Users**. See Assign or change a student's counselor *(see the Administrator Manual)*.

Step 3 — The student appears in My students

They show with source **Self-registered** and status **Active**.

Expected Result

You work with the student like any other; they already have a password.

Common Errors

Problem: A student says they registered but you can’t find them. **Cause:** No counselor has been assigned yet. **Resolution:** Ask the Overseas Admin.

Related Features

- Agency students and applications
- Add a walk-in student

My leads list

> Doc ID: DOC-CNS-LEAD-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

See every lead you own: leads telecallers handed to you and walk-ins you recorded.

Who Can Use This Feature

Overseas counselors. You see only your own leads.

Prerequisites

At least one lead handed to you or recorded by you.

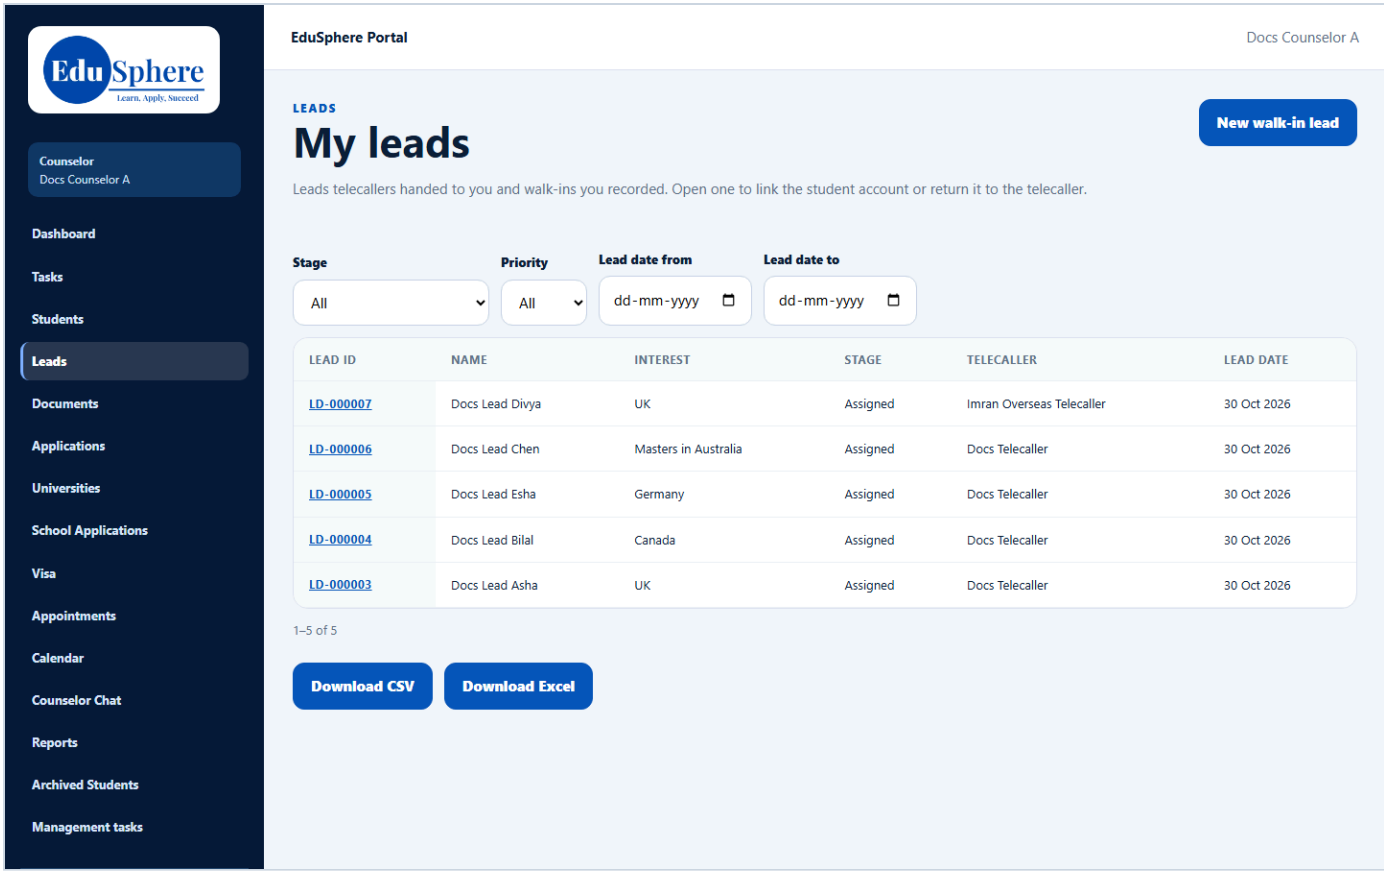

How to Access

Sidebar **Leads**. The page title is **My leads**.

Steps

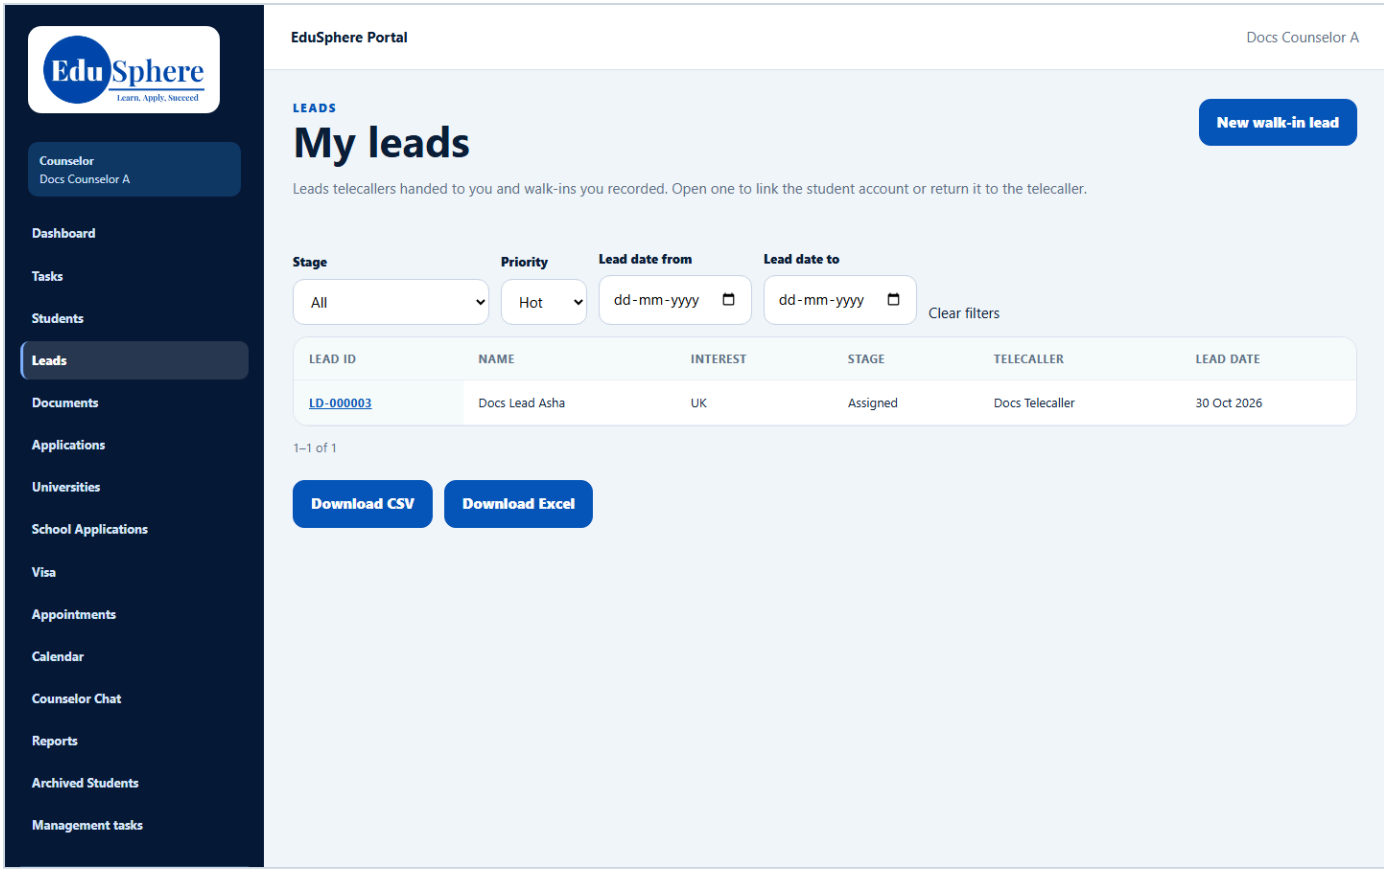

Step 1 — Open My leads

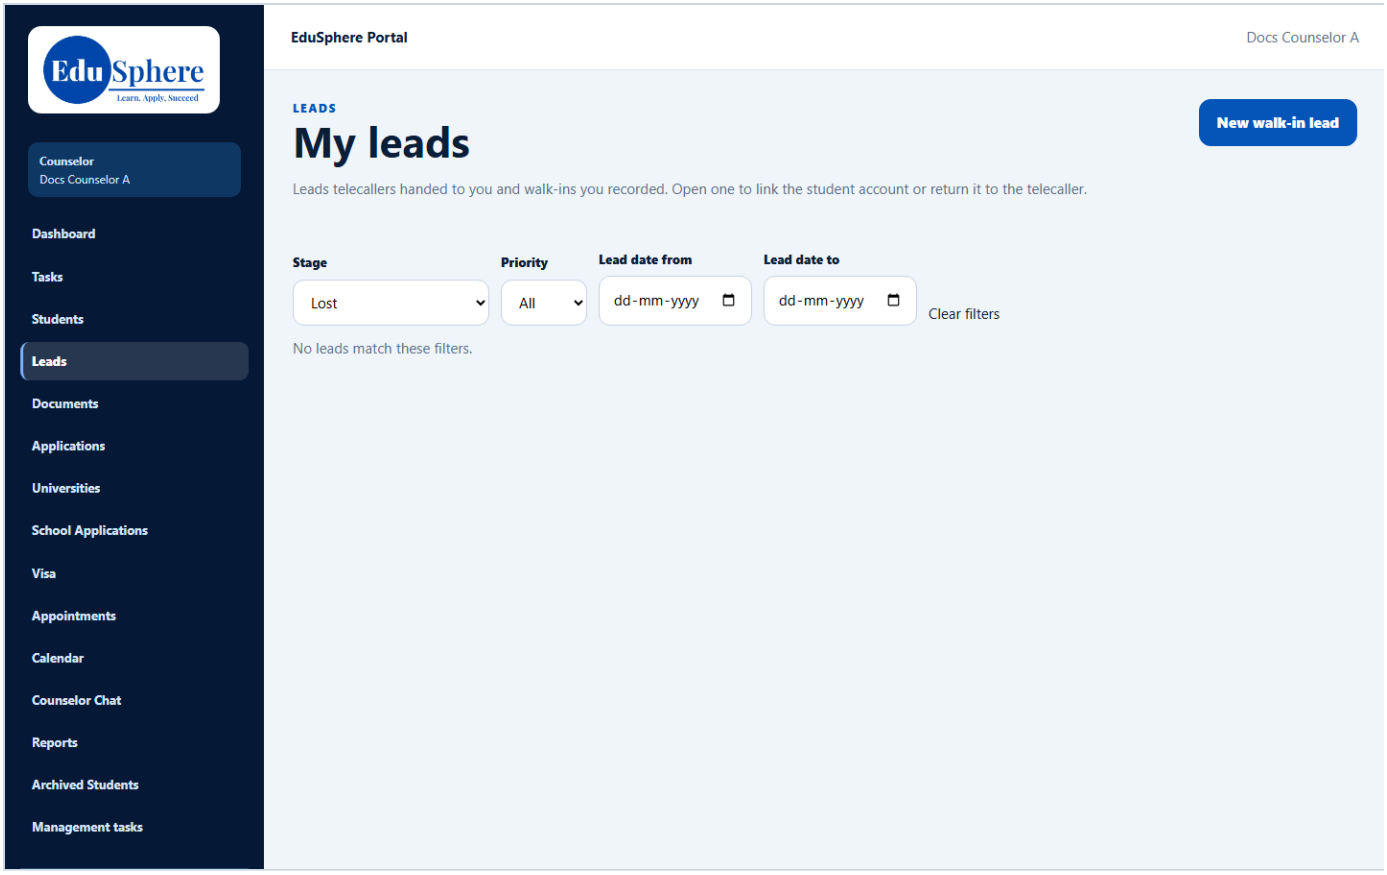

The table lists **Lead ID**, **Name**, **Interest**, **Stage**, **Telecaller** and **Lead date**, newest first, 20 per page. Select a **Lead ID** to open the lead.

Step 2 — Filter

Use **Stage**, **Priority**, **Lead date from** and **Lead date to**. The list updates as soon as you change a filter, and the filters stay in the page address so you can bookmark them. Select **Clear filters** to reset.

Step 3 — Download

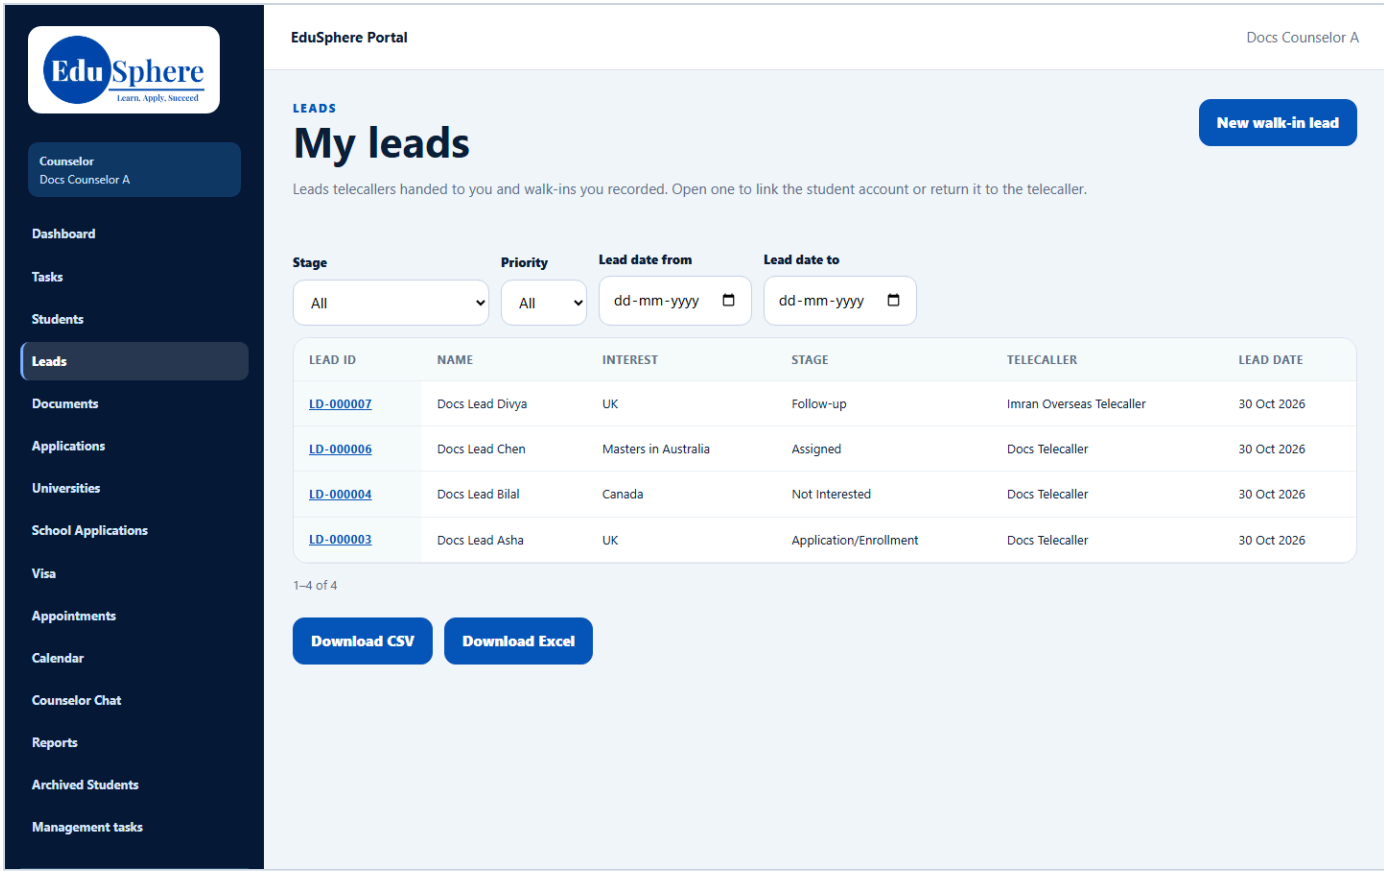

Select **Download CSV** or **Download Excel** to export the leads matching the filters (up to 5,000 rows). The file has Lead ID, Name, Interest, Stage, Priority, Source, Telecaller and Lead date. It never contains phone numbers or emails.

Fields

Column / filter	Description
Lead ID	Opens the lead
Interest	The enquiry subject (for example the destination or “Masters in Australia”)
Stage	Where the lead is in the pipeline
Telecaller	The telecaller who works the lead with you, or **Unassigned**
Priority (filter)	Hot, Warm or Cold; there is no Priority column, but the export includes it

Expected Result

You can find any of your leads quickly. As you work, stages change in the list.

Validation Messages

Message	When
No leads have been handed to you yet.	You own no leads
No leads match these filters.	The filters exclude every lead
Unable to load your leads. (with **Try again**)	The list could not load

Common Errors

Problem: A returned lead disappeared. **Cause:** Returning a lead gives it back to the telecaller. **Resolution:** This is expected; see Return a lead.

Tips

- Filter **Stage** = **Follow-up** to plan your calls.

Related Features

- Record a new walk-in lead
- Lead detail page

Record a new walk-in lead

> Doc ID: DOC-CNS-LEAD-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Enter a student who came to the office as a lead you own, without creating a duplicate of someone already in the CRM.

Who Can Use This Feature

Overseas counselors.

Prerequisites

You know at least the student's name, mobile number and what they are interested in.

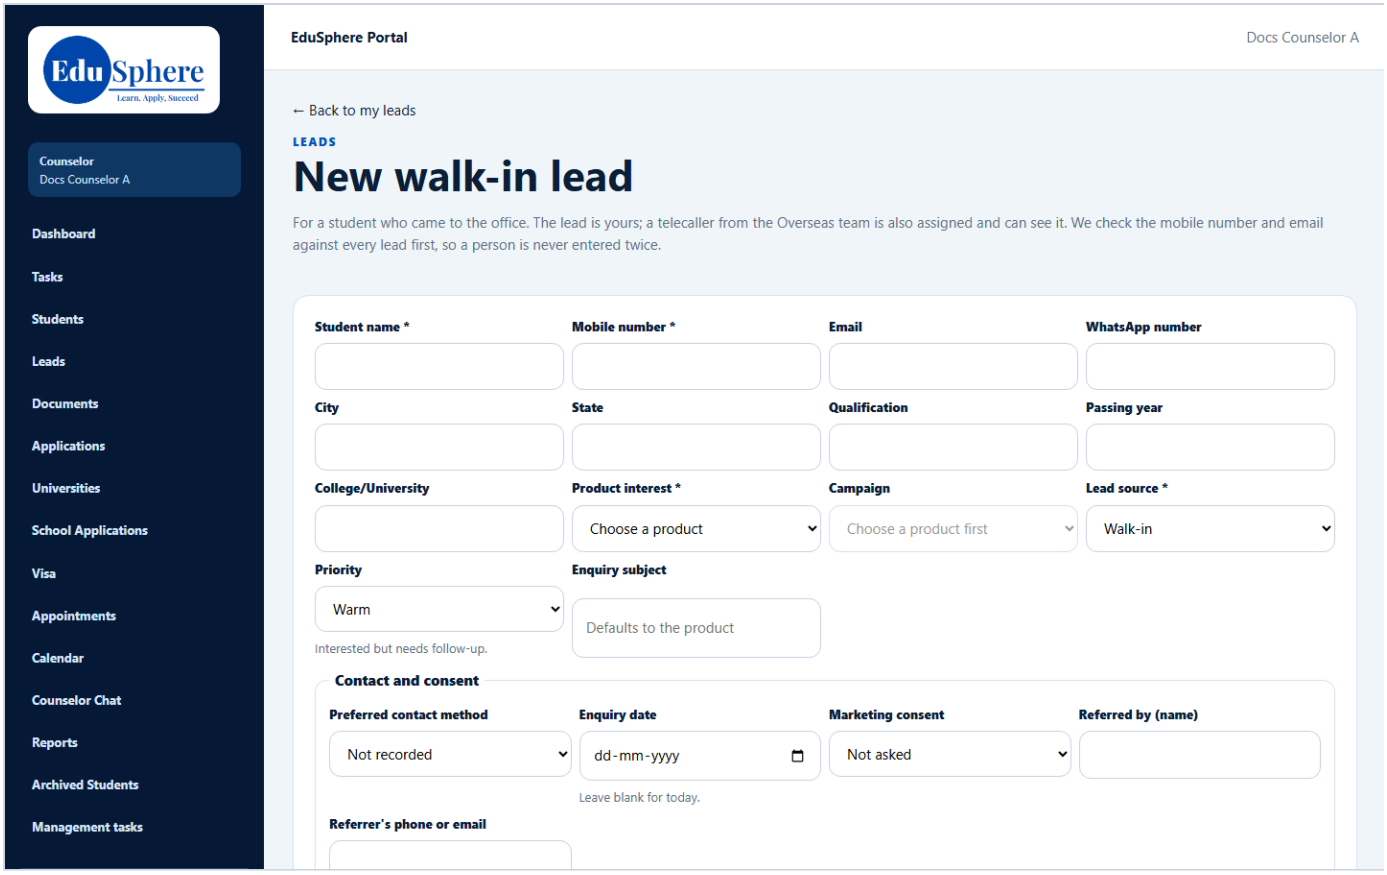

How to Access

Leads → New walk-in lead.

Steps

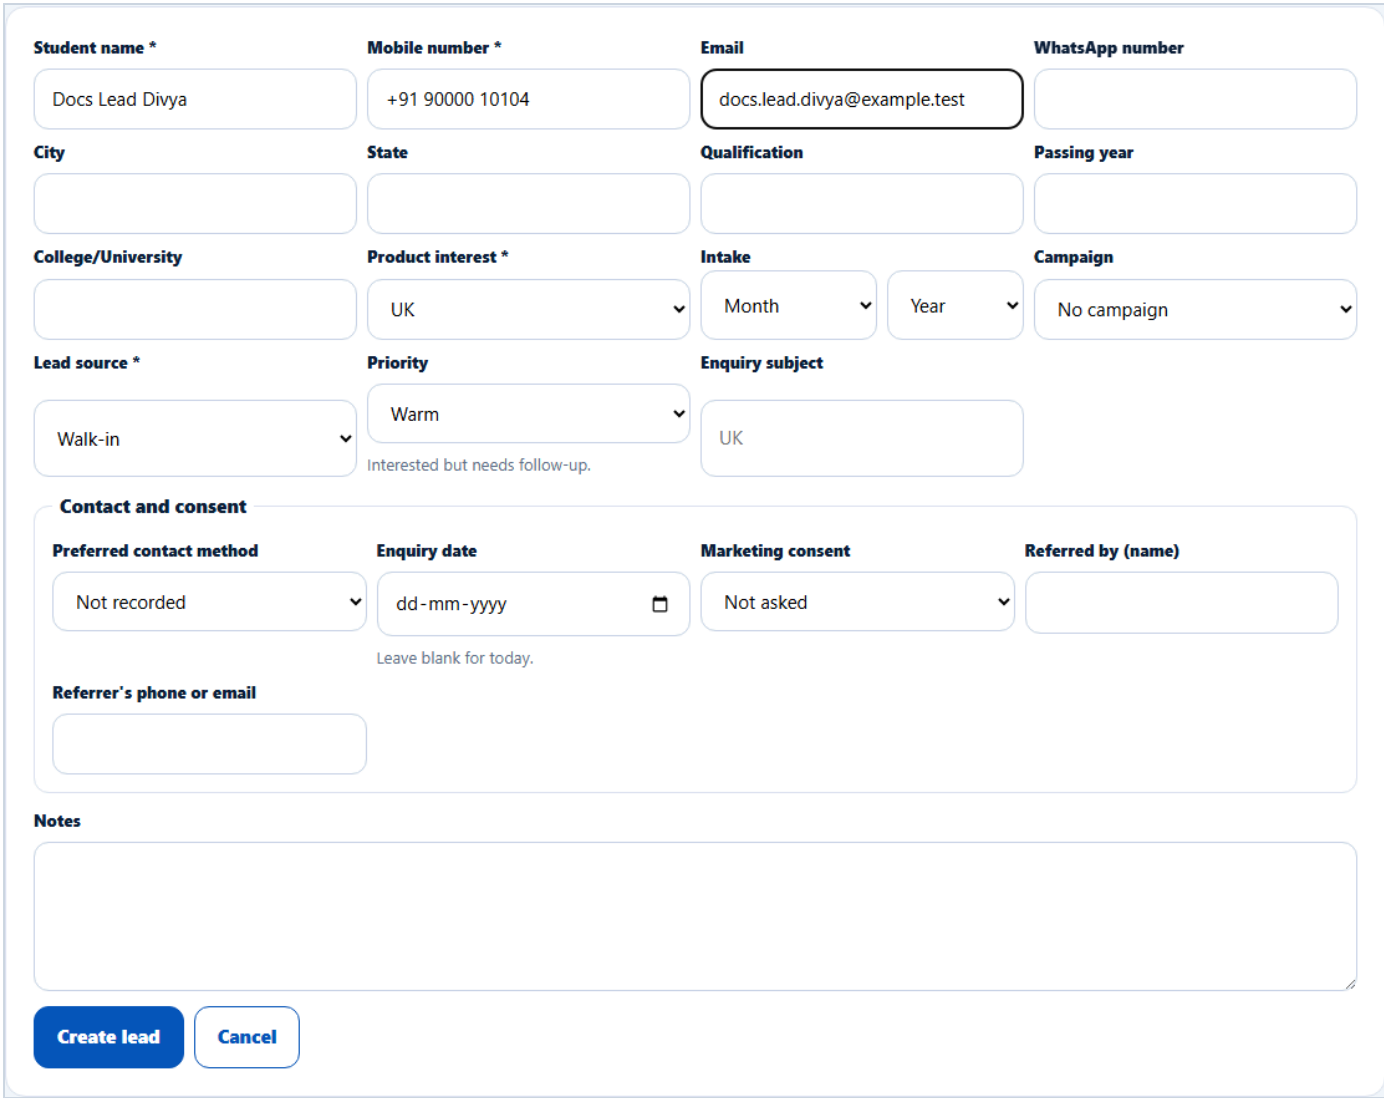

Step 1 — Open the form

The page explains: "For a student who came to the office. The lead is yours; a telecaller from the Overseas team is also assigned and can see it. We check the mobile number and email against every lead first, so a person is never entered twice." **Lead source** is already set to **Walk-in**.

Step 2 — Fill in the details

Enter **Student name** and **Mobile number**, choose the **Product interest** (the destination) and keep or change **Lead source**. Add anything else you know: email, WhatsApp number, city, qualification, intake, priority, contact and consent details, and notes.

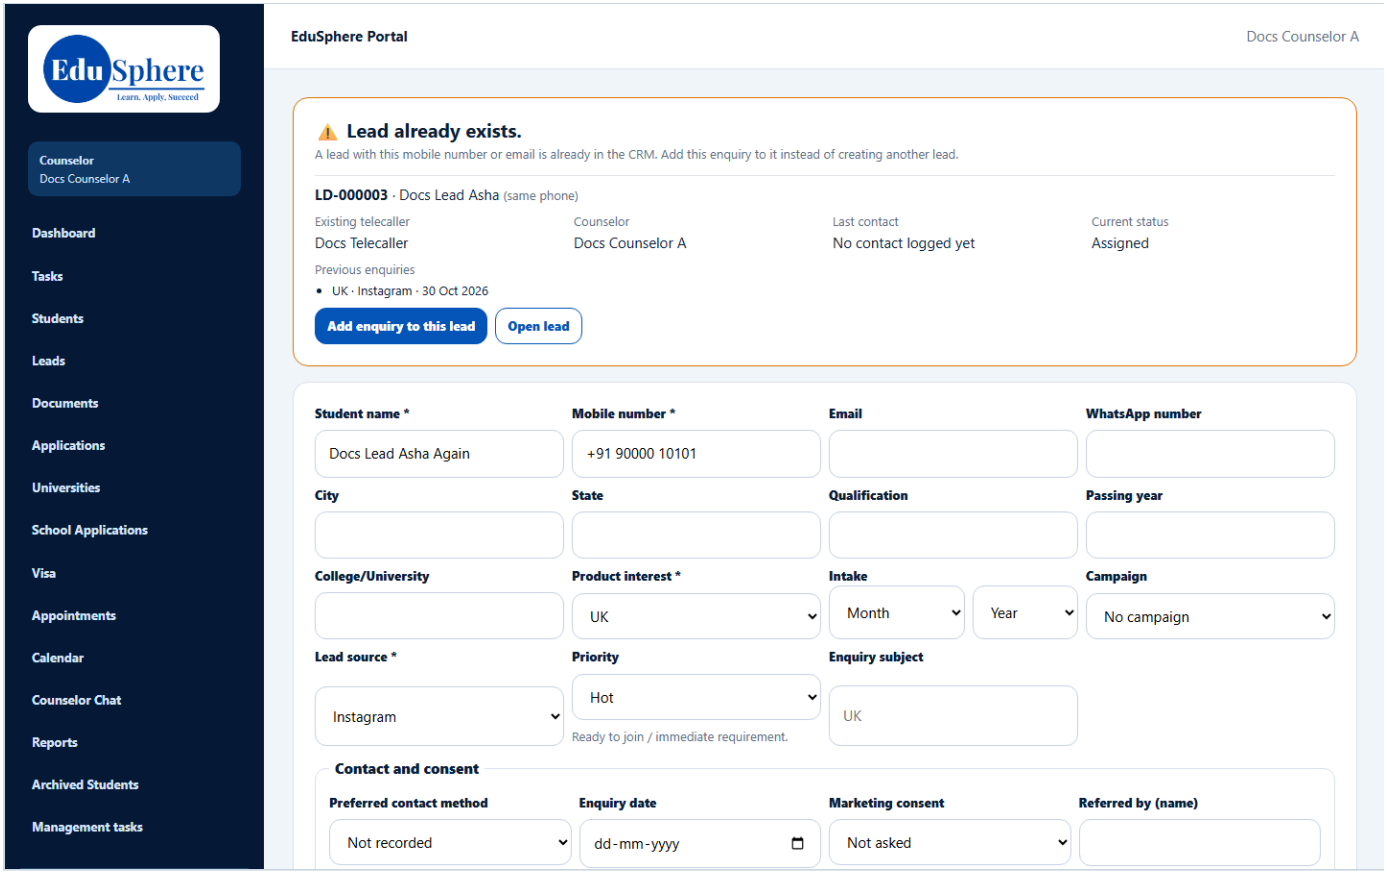

Step 3 — Create the lead

Select **Create lead**. The new lead opens. It is yours, at stage **Assigned**, and a telecaller from the Overseas team is assigned to it automatically.

If the person already exists

When the mobile number or email matches an existing lead, the form shows **Lead already exists** with that lead's ID, telecaller, counselor, last contact, current status and previous enquiries. Select **Add enquiry to this lead** to record the visit on the existing lead, or **Open lead** if it is yours.

Fields

Field	Description	Required	Example
Student name	Full name	Yes	Docs Lead Divya
Mobile number	Used for the duplicate check	Yes	+91 90000 10104
Email	Also used for the duplicate check	No	docs.lead.divya@example.test
Product interest	Destination or product	Yes	UK
Intake	Month and year (overseas products)	No	September 2027
Lead source	Preset to Walk-in	Yes	Walk-in
Priority	Hot / Warm / Cold (default Warm)	No	Warm
Enquiry subject	Defaults to the product	No	—
Contact and consent	Preferred contact method, enquiry date, marketing consent, referrer	No	—
Notes	Up to 5000 characters	No	—

Expected Result

The lead appears at the top of **My leads** with source Walk-in.

Validation Messages

Message	When
Enter the student name / mobile number / product interest / lead source.	A required field is empty
Lead already exists.	The mobile number or email belongs to another lead
Enquiry added to {Lead ID}.	You added the visit to the existing lead
This campaign is for another product / belongs to another lead source	The campaign doesn't fit

Common Errors

Problem: "Lead already exists" for someone new. **Cause:** Another lead uses the same mobile or email (for example a sibling's number). **Resolution:** Check the match; if it is a different person, enter their own number.

Tips

- Use **Add enquiry to this lead** rather than creating a second lead; it keeps the history together.

Related Features

- My leads list
- Lead detail page

Lead detail page

> Doc ID: DOC-CNS-LEAD-003 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Everything about one lead on one page: what to do next, its stage, your contact history and the link to the student account.

Who Can Use This Feature

The counselor who owns the lead.

Prerequisites

The lead is yours.

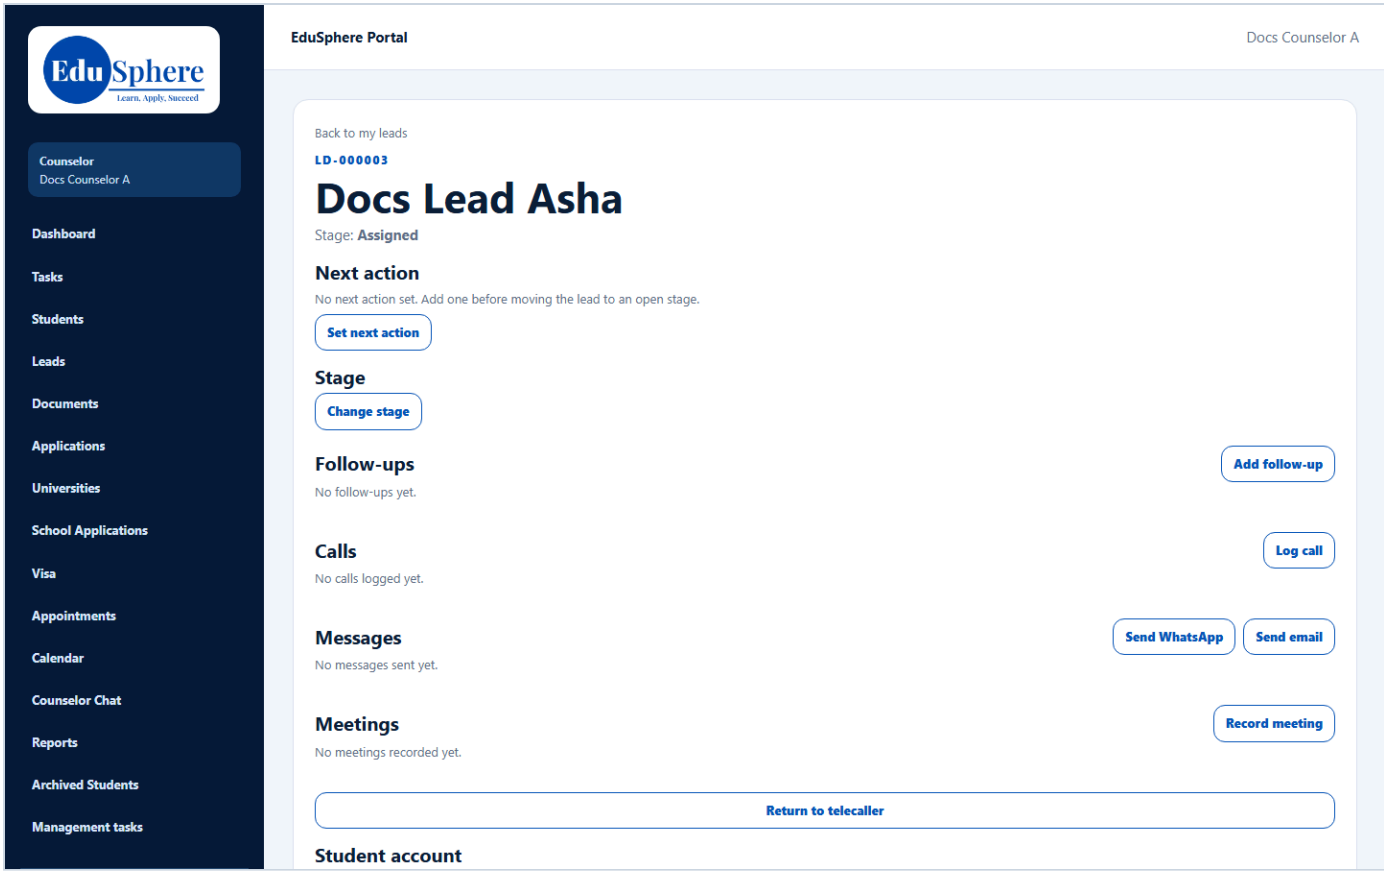

How to Access

Leads → select the **Lead ID**.

Steps

Step 1 — Read the header

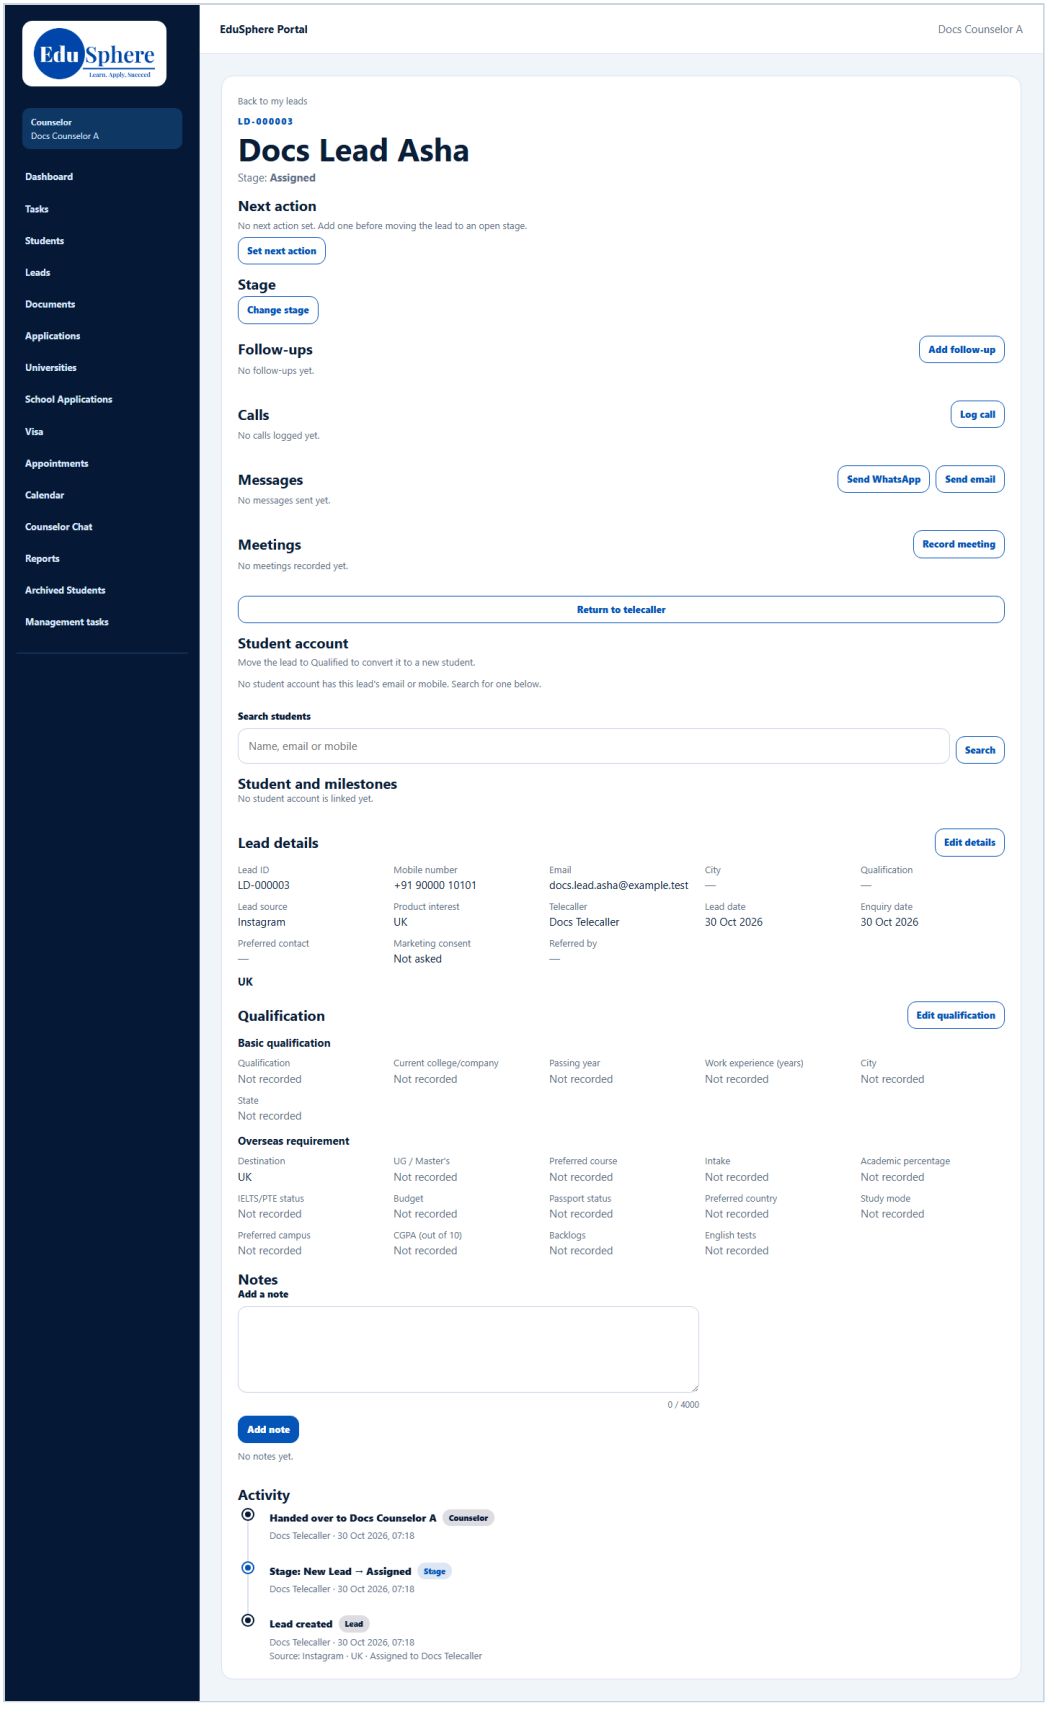

The top shows **Back to my leads**, the Lead ID, the name and **Stage**. For a closed lead, a line under the stage shows the lost reason (see Change stage).

Step 2 — Work down the page

The sections, in order:

Section	What you do there	Guide
Next action	The one next step and its due date	LEAD-005
Stage	Move the lead or close it	LEAD-006
Follow-ups	Dated follow-ups	FUP-001
Calls	Log calls	ACT-001
Messages	WhatsApp and email	ACT-002, ACT-003
Meetings	Record meetings	ACT-004
Return to telecaller	Give the lead back	LEAD-008
Student account	Convert or link the student	CONV-001, CONV-002
Student and milestones	Linked student and their progress	LEAD-009
Lead details	Contact and consent details	LEAD-004
Qualification	Academic and study plans	LEAD-007
Notes / Activity	Notes and the timeline	ACT-005, ACT-006

Lead detail, whole page

Expected Result

You can act on the lead without leaving the page. Sections that don’t apply disappear. For example, a closed lead has no stage or activity buttons.

Common Errors

Problem: “Lead not found” when you open a link. **Cause:** The lead is not yours (or was returned). **Resolution:** Ask the telecalling team or your Overseas Admin.

Tips

- There is no lead-appointment section here. Counselling appointments are on the **Appointments** page.

Related Features

- My leads list
- Next action

Lead details: contact, consent and referral

> Doc ID: DOC-CNS-LEAD-004 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Record how the student prefers to be contacted, whether they agreed to marketing messages, and who referred them.

Who Can Use This Feature

The counselor who owns the lead.

Prerequisites

The lead is yours and has not been returned.

How to Access

Lead page → **Lead details** → **Edit details**.

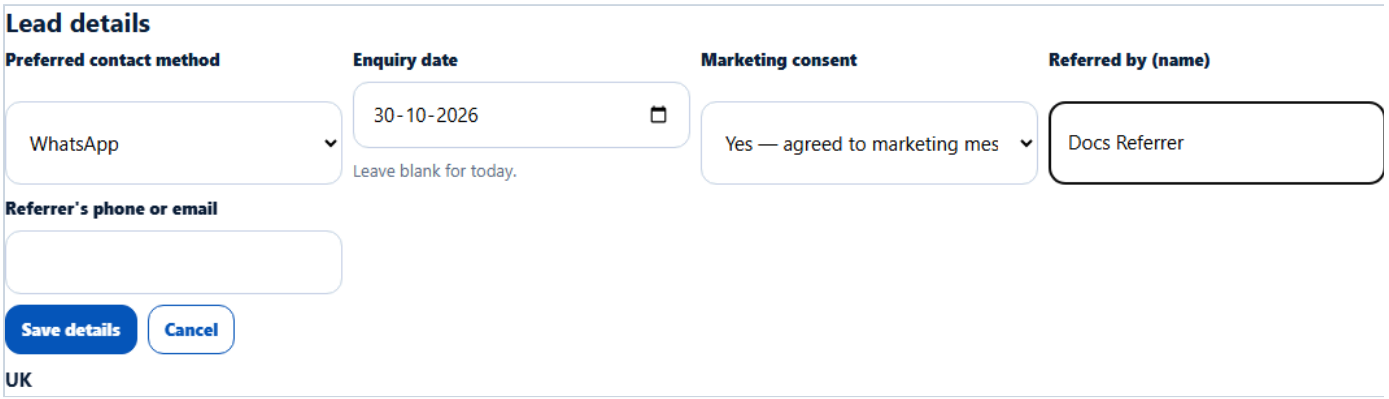

Steps

Step 1 — Open Edit details

Lead details shows the Lead ID, mobile, email, city, qualification, lead source, product interest, telecaller, dates, preferred contact, marketing consent and referrer. Select **Edit details**.

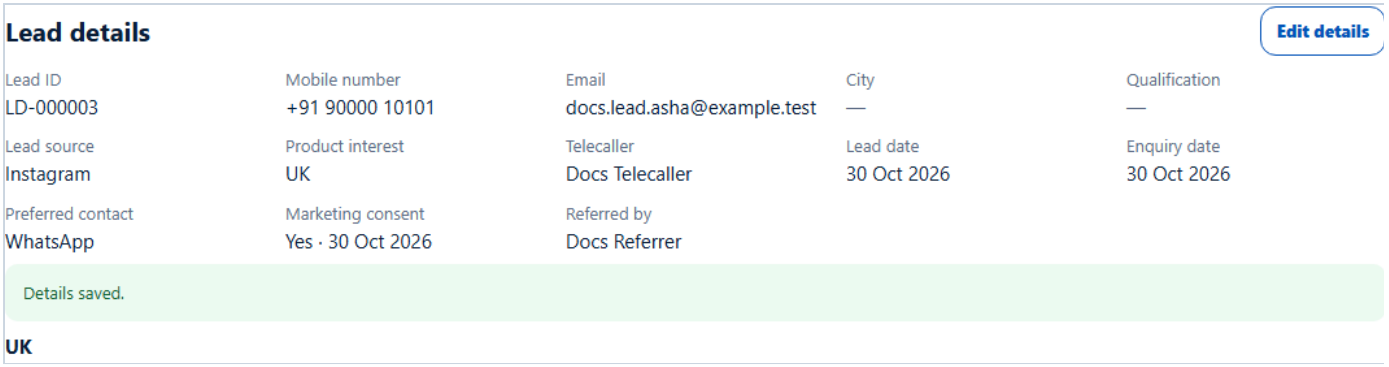

Step 2 — Change what you need

You can change **Preferred contact method**, **Enquiry date**, **Marketing consent**, **Referred by (name)** and **Referrer's phone or email**. Name, mobile, email and product can't be edited here.

Step 3 — Save

Select **Save details**. **Details saved.** appears. A marketing consent answer shows the date it was recorded (for example **Yes · 30 Oct 2026**).

Fields

Field	Description	Required	Example
Preferred contact method	Not recorded, Phone call, WhatsApp, Email, SMS	No	WhatsApp
Enquiry date	Between 1 Jan 2000 and today; blank = today	No	—
Marketing consent	Not asked / Yes — agreed to marketing messages / No — no marketing messages	No	Yes
Referred by (name)	Who referred the student	No	Docs Referrer
Referrer's phone or email	Their contact	No	—

Expected Result

The new details show immediately in **Lead details**.

Validation Messages

Message	When
Details saved.	Success
Unable to save the details.	The save failed

Common Errors

Problem: You need to fix the student's phone or name. **Resolution:** Ask the lead's telecaller or your Overseas Admin; counselors can't edit them here.

Tips

- Record **Marketing consent** at the first conversation; it decides which messages the student can receive.

Related Features

Next action

> Doc ID: DOC-CNS-LEAD-005 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Keep one clear next step, with a due date, on every open lead. EduSphere asks for it before you can move a lead to an open stage.

Who Can Use This Feature

The counselor who owns the lead.

Prerequisites

The lead is open (not closed).

How to Access

Lead page → **Next action** → **Set next action** (or **Edit next action**).

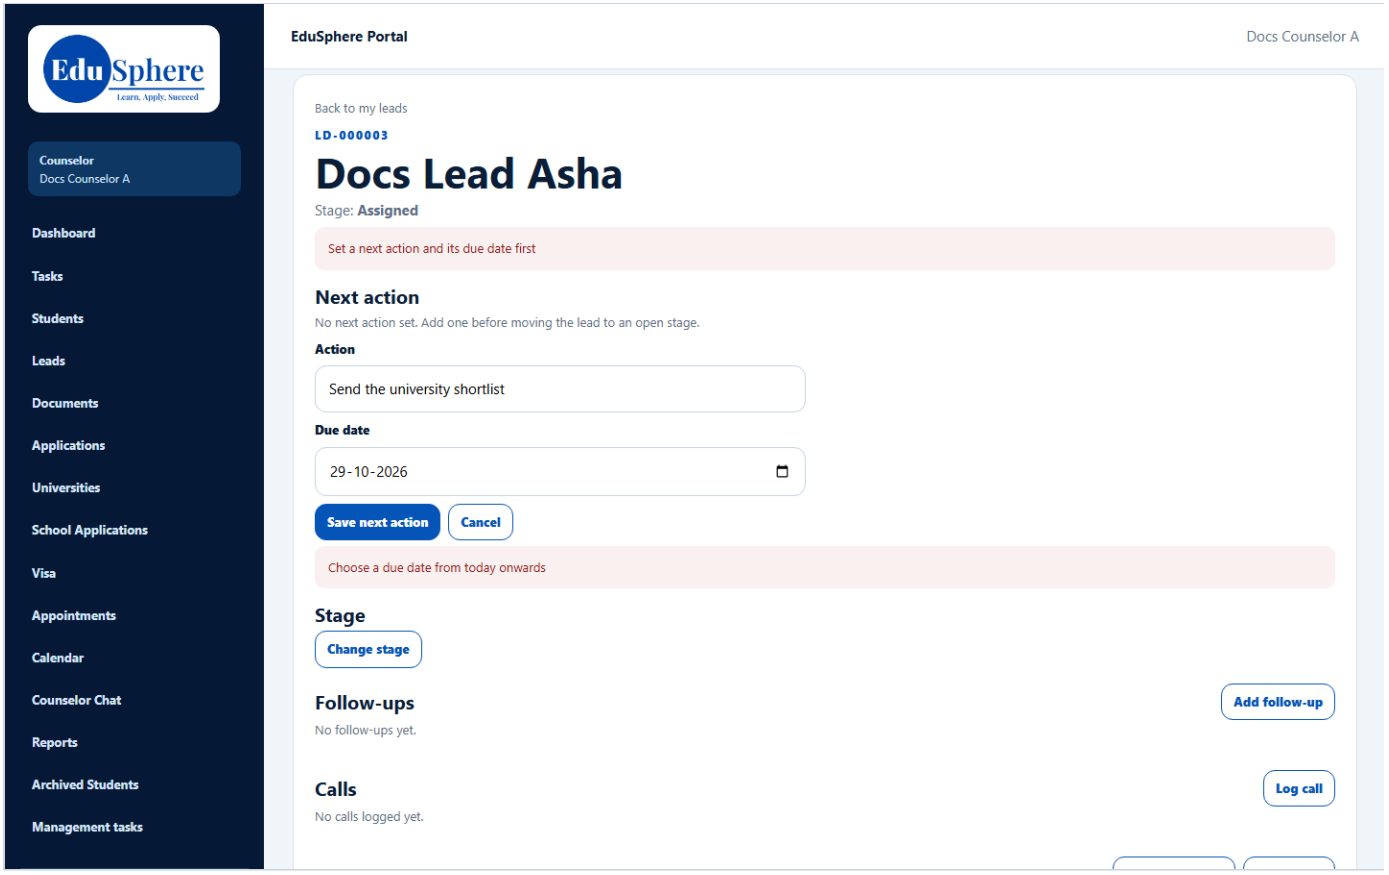

Steps

Step 1 — Open the form

With no next action, the section says “No next action set. Add one before moving the lead to an open stage.” Select **Set next action**.

Step 2 — Enter the action and due date

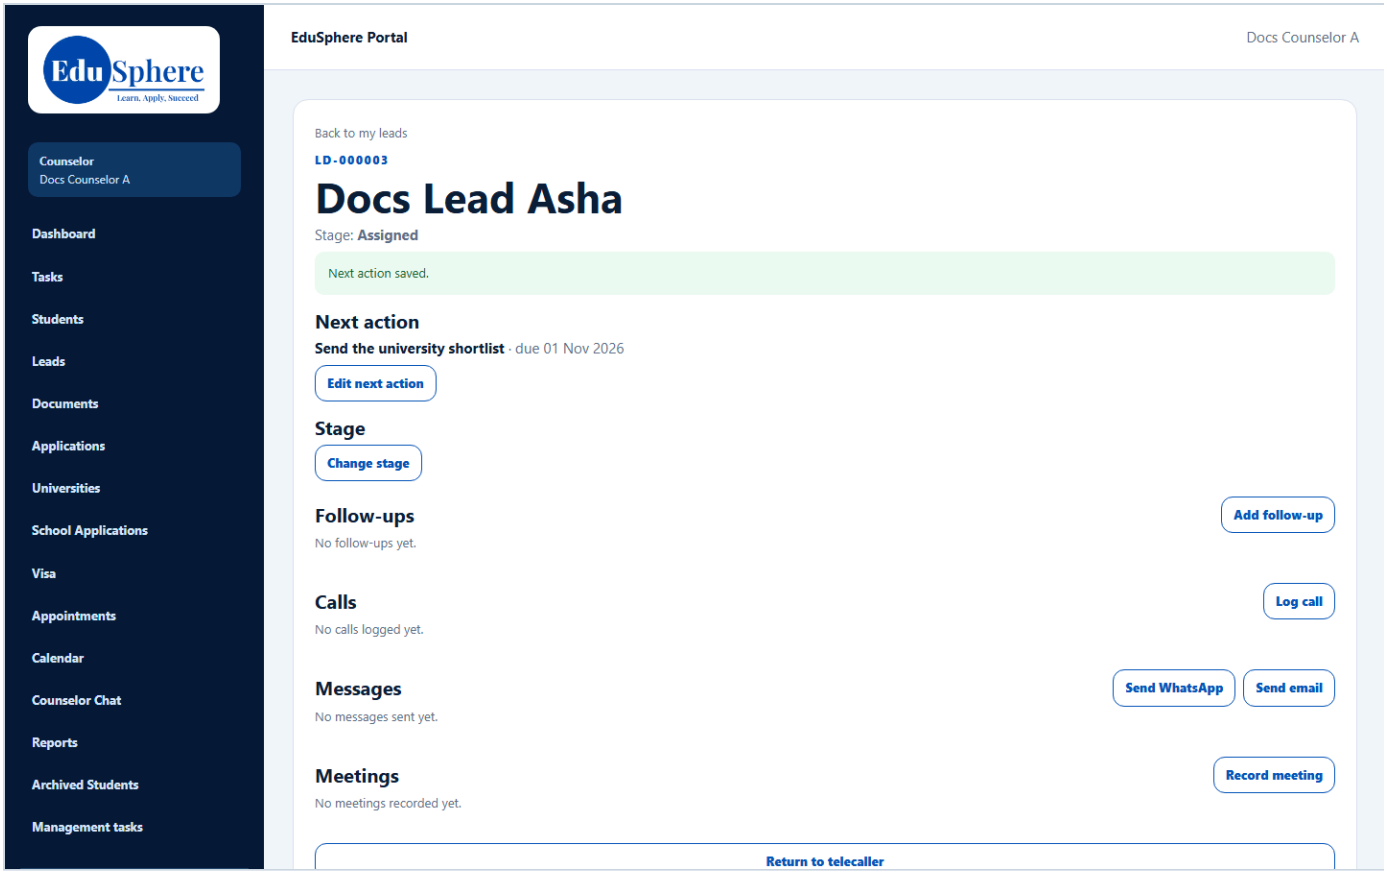

Type the **Action** (for example “Send the university shortlist”) and choose a **Due date** from today onwards. A past date is refused with **Choose a due date from today onwards**.

In this screenshot, the message at the top (**Set a next action and its due date first**) is left over from an earlier attempt to change the stage; see Change stage.

Step 3 — Save

Select **Save next action**. **Next action saved.** appears and the section shows “{action} · due {date}”. When the date passes, a red **Overdue** badge appears.

Fields

Field	Description	Required	Example
Action	Up to 200 characters	Yes	Send the university shortlist
Due date	Today or later	Yes	01 Nov 2026

Expected Result

The next action shows at the top of the lead and counts on your dashboard.

Validation Messages

Message	When
Next action saved.	Success
Add the next action and its due date.	A field is empty
Choose a due date from today onwards	The date is in the past
This lead is closed; it needs no next action	The lead is closed

Common Errors

Problem: You can’t save an overdue next action. **Cause:** A changed date must be today or later. **Resolution:** Pick a new date; you can still edit the text of an overdue action without changing its date.

Tips

- Returning a lead to the telecaller clears its next action.

Change stage, record loss, close a lead

> Doc ID: DOC-CNS-LEAD-006 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Move a lead through counselling, or close it with the reason it was lost, so that reports show why students don't proceed.

Who Can Use This Feature

The counselor who owns the lead.

Prerequisites

- The lead is open and not converted.
- To move to an open stage, the lead needs a next action.

How to Access

Lead page → **Stage** → **Change stage**.

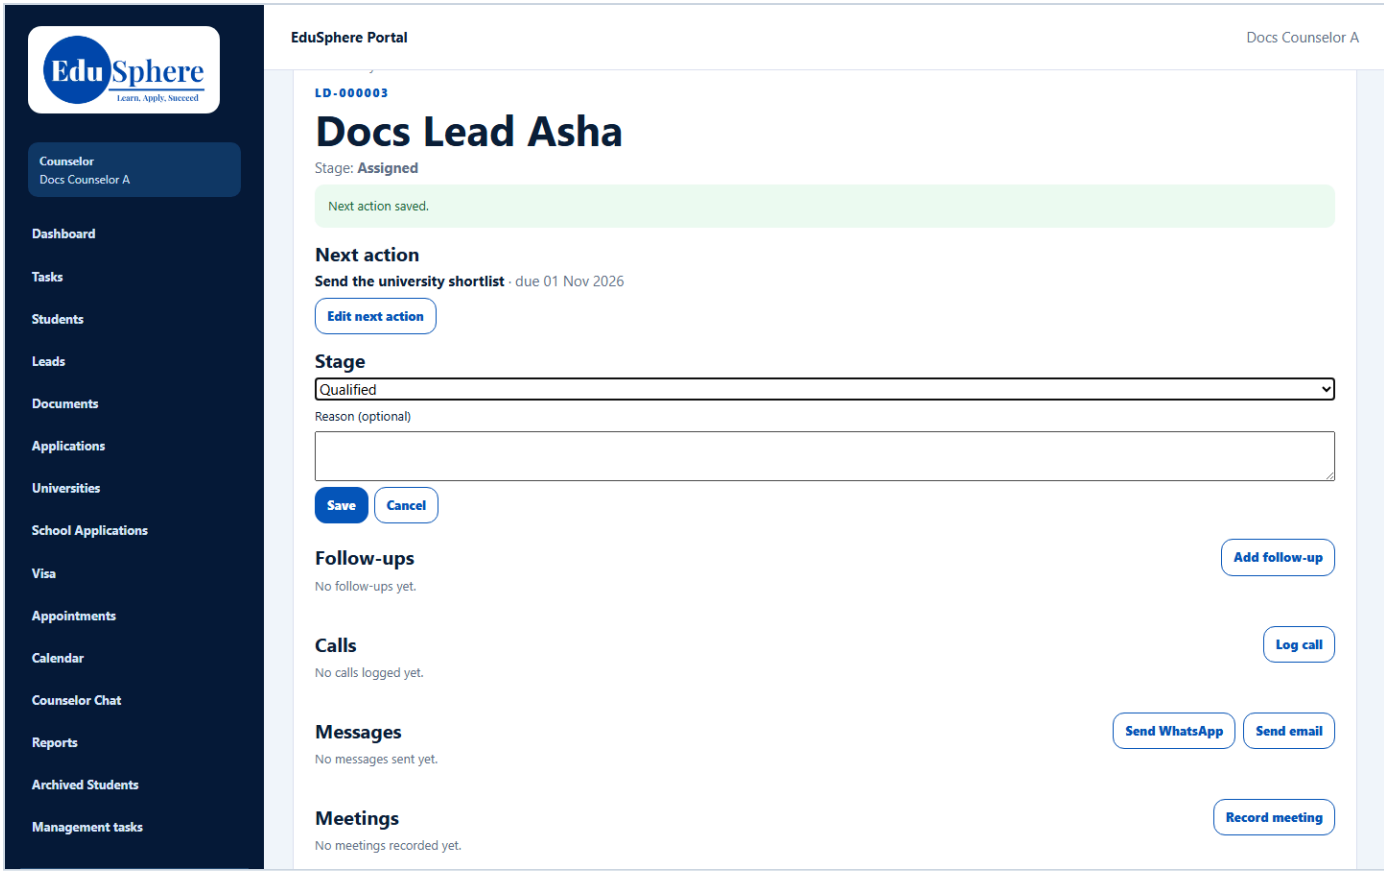

Steps

Step 1 — Choose a stage

Select **Change stage** and pick from **Choose a stage**. A counselor can choose:

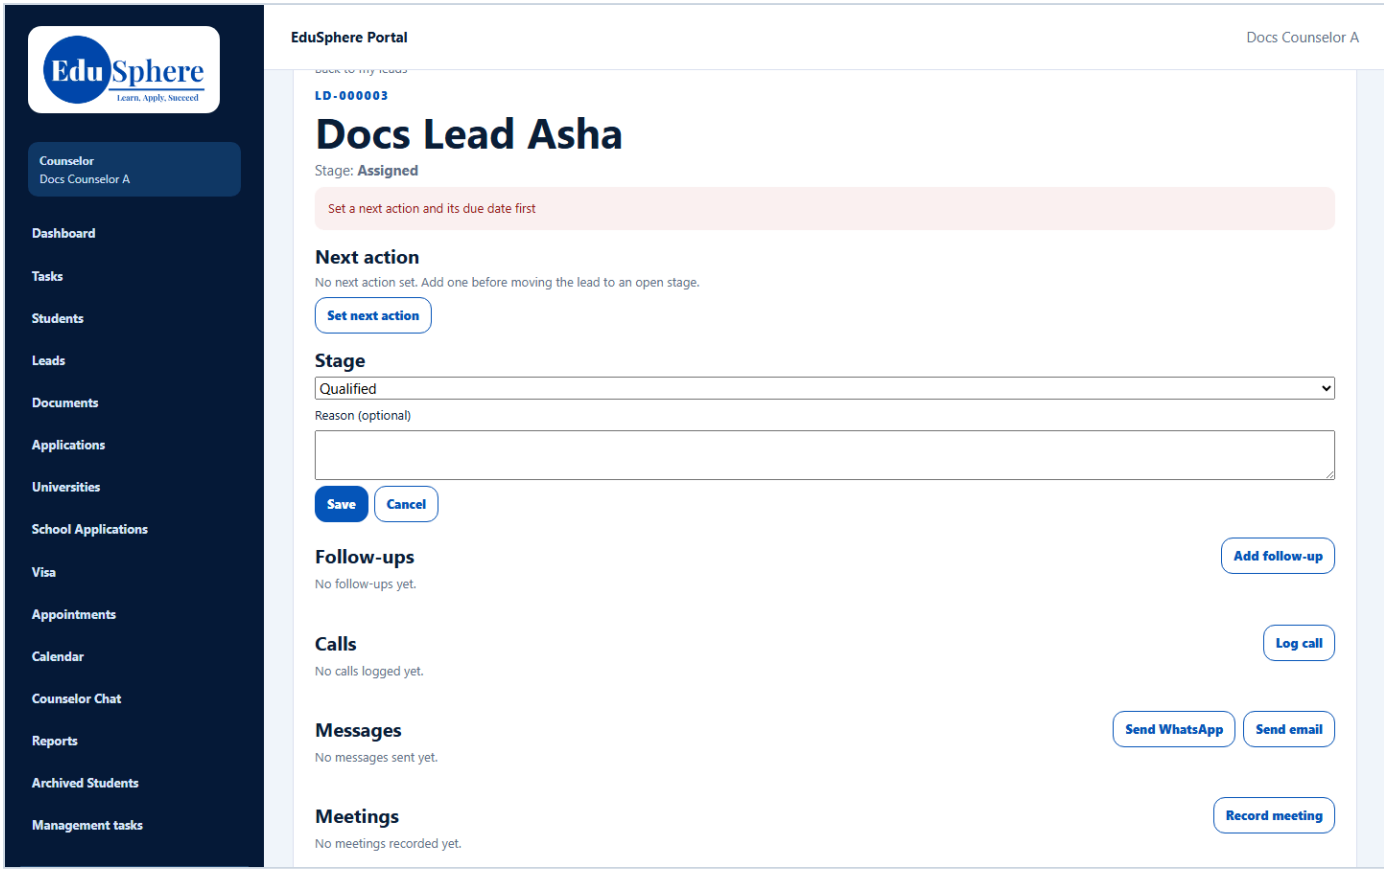

- **Open stages: Qualified**, **Follow-up**, **Counselling Scheduled**, **Counselling Completed**.
- **Closing outcomes: Not Interested**, **Not Eligible**, **Lost**.

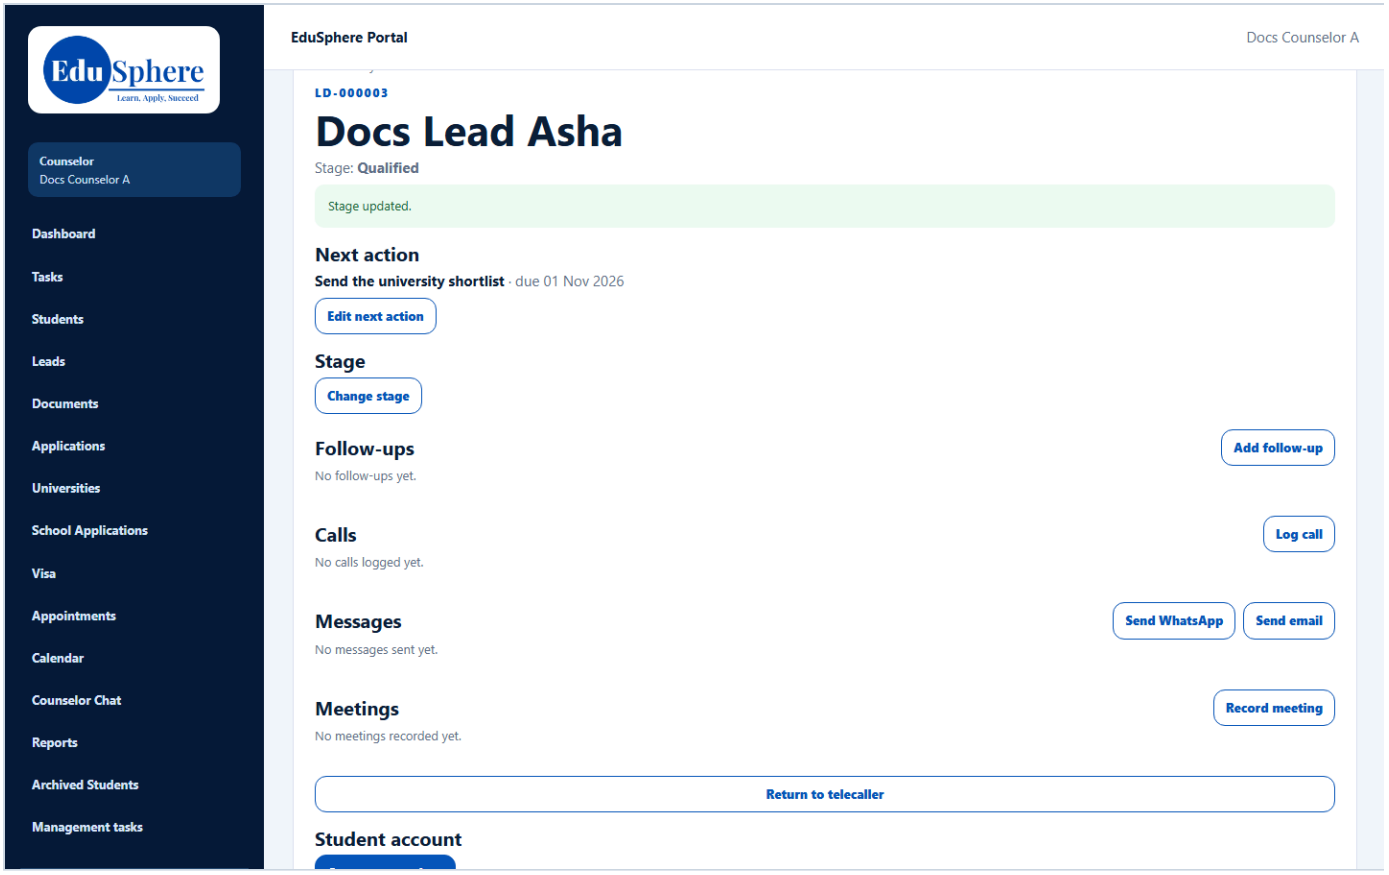

Once a lead reaches **Application/Enrollment**, only the three closing outcomes remain.

Step 2 — Save

Select **Save**. **Stage updated.** appears and the stage at the top changes. Without a next action, an open stage is refused with **Set a next action and its due date first**.

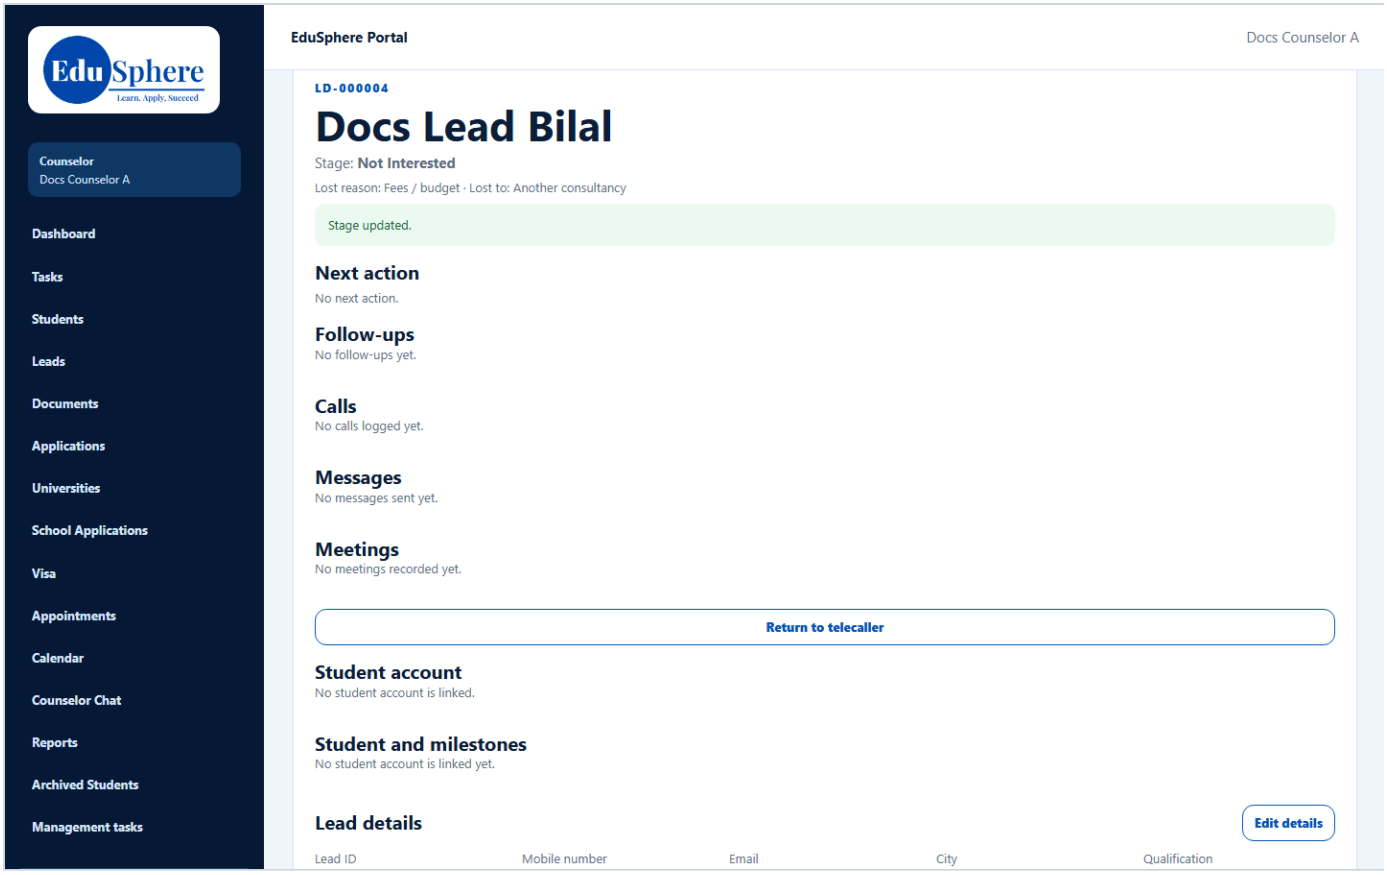

Step 3 — Close a lead with a reason

Choose **Not Interested** or **Lost**. Pick a **Lost reason (required)** and, if you know it, **Lost to (optional)**, meaning the competitor or destination they chose. Add a **Reason** (required for **Not Eligible**). Select **Save**.

The lead now shows the closing stage and a line such as **Lost reason: Fees / budget · Lost to: Another consultancy**. Its open follow-ups and appointments are cancelled, and activity buttons disappear.

Fields

Field	Description	Required	Example
Stage	See Step 1	Yes	Qualified
Lost reason	Fees / budget, Chose another institution, Chose another country, Not ready this intake, Not eligible for the course, Other	For Not Interested and Lost	Fees / budget
Lost to	Competitor or chosen destination	No	Another consultancy
Reason	Up to 500 characters	For Not Eligible	Chose a local university instead.

Expected Result

The stage shows in **My leads** and on the lead. A closed lead stays in **My leads** with its closing stage.

Validation Messages

Message	When
Stage updated.	Success
Choose a stage.	No stage chosen
Set a next action and its due date first	Moving to an open stage without a next action

Message	When
Choose why the lead was lost.	Not Interested or Lost without a lost reason
Add a reason for this stage.	Not Eligible without a reason
The lead is already at this stage	Same stage chosen
The lead is with the counselor; its stage moves with the application	The stage is driven by the student's application
No lost reasons are set up yet. Ask a telecaller manager to add one.	The lost-reason list is empty

Common Errors

Problem: You need to reopen a closed lead. **Cause:** Counselors can't reopen leads. **Resolution:** Ask the telecaller manager or your Overseas Admin.

Problem: Duplicate, **Invalid Contact**, **No Response** or **Interested** aren't offered. **Cause:** Those stages are set by telecallers or by the system.

Tips

- Choose the most accurate lost reason; it feeds the loss reports.

Related Features

- Next action
- Return a lead to the telecaller
- Convert a lead to a new student

Lead qualification

> Doc ID: DOC-CNS-LEAD-007 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Record the student's academic background and study plans so you can shortlist universities. Saving the qualification never changes the lead's stage.

Who Can Use This Feature

The counselor who owns the lead.

Prerequisites

The lead has a **Product interest** (for example a destination). Without one, the section says "Set the lead's product interest in Lead details to see its IT or overseas questions."

How to Access

Lead page → **Qualification** → **Edit qualification**.

Steps

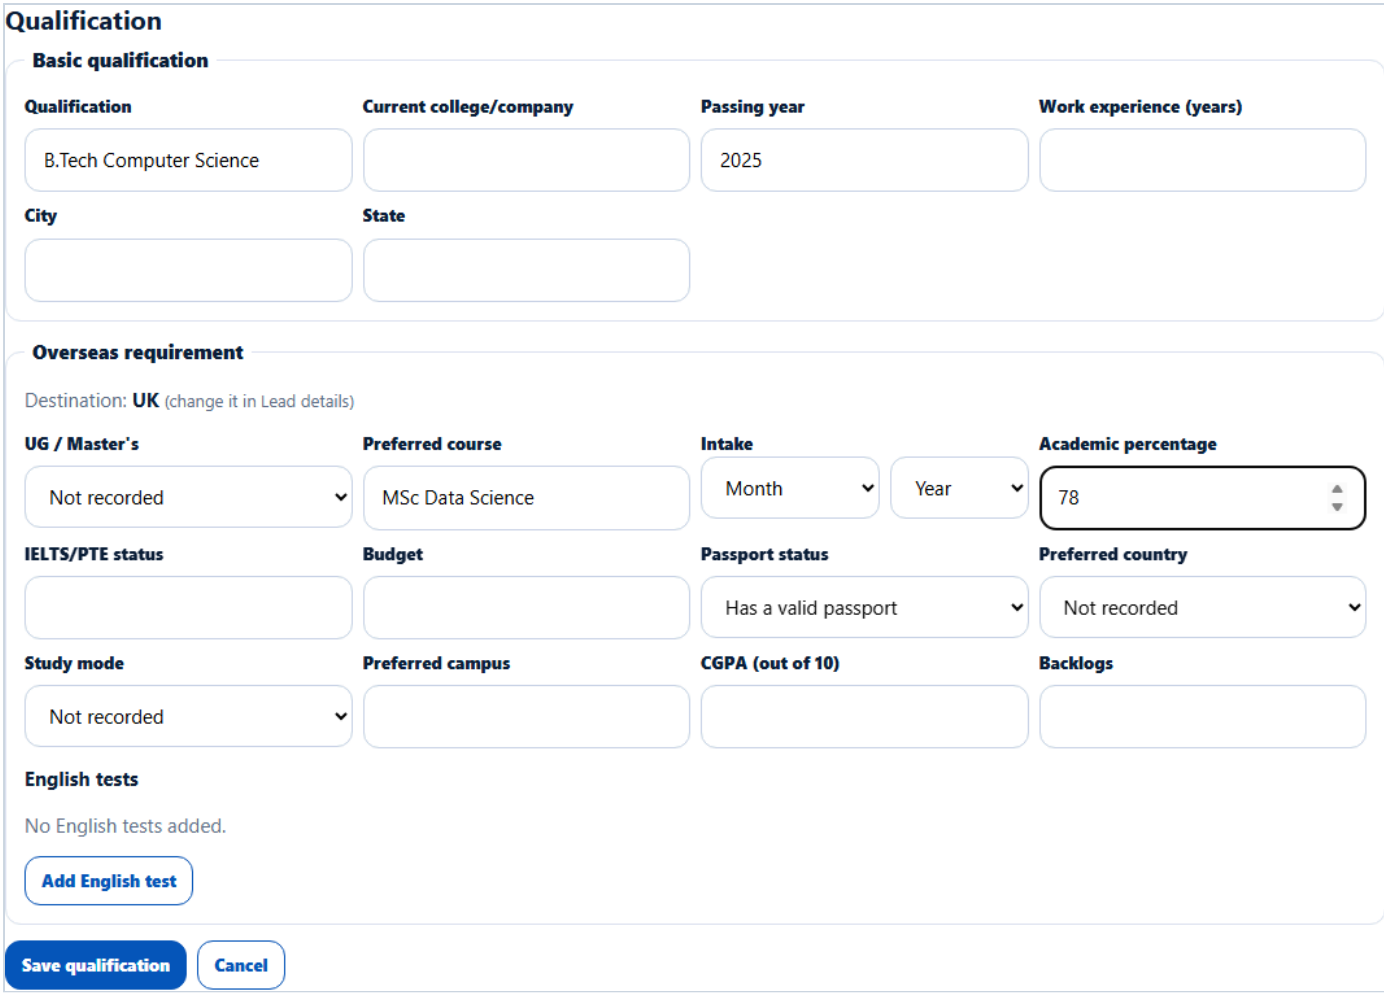

Step 1 — Open the form

Select **Edit qualification**. It has two parts:

- **Basic qualification**: Qualification, Current college/company, Passing year, Work experience (years), City, State.
- **Overseas requirement**: the destination ("change it in Lead details"), UG / Master's, Preferred course, Intake (month and year), Academic percentage, IELTS/PTE status, Budget, Passport status, Preferred country, Study mode, Preferred campus, CGPA (out of 10), Backlogs, and **English tests** (**Add English test**).

Step 2 — Fill in what you know

All fields are optional. Enter what the student tells you.

Step 3 — Save

Select **Save qualification**. **Qualification saved.** appears, with “Last updated by {name} · {time}”.

Fields

Field	Allowed values	Example
Passing year	1950–2100	2025

Field	Allowed values	Example
Work experience (years)	0–50	0
Academic percentage	0–100	78
Passport status	No passport, Applied, Has a valid passport	Has a valid passport
Study mode	Full-time, Part-time, Online	Full-time
CGPA (out of 10)	0–10	—
Backlogs	0–99	0

Expected Result

The answers show in **Qualification**. When you convert the lead, they are copied into the student's profile.

Validation Messages

Message	When
Qualification saved.	Success
Check the highlighted fields.	A value is out of range
Enter a year from 1950 to 2100. / Enter whole years from 0 to 50.	Field-level range errors

Tips

- Fill the qualification before converting; it saves typing on the student profile.

Related Features

- Convert a lead to a new student

Return a lead to the telecaller

> Doc ID: DOC-CNS-LEAD-008 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Give a lead back to its telecaller when it isn't ready for counselling, for example when the student wants to wait a year.

Who Can Use This Feature

The counselor who owns the lead.

Prerequisites

No student account is linked to the lead. Unlink it first if needed (see Link / unlink).

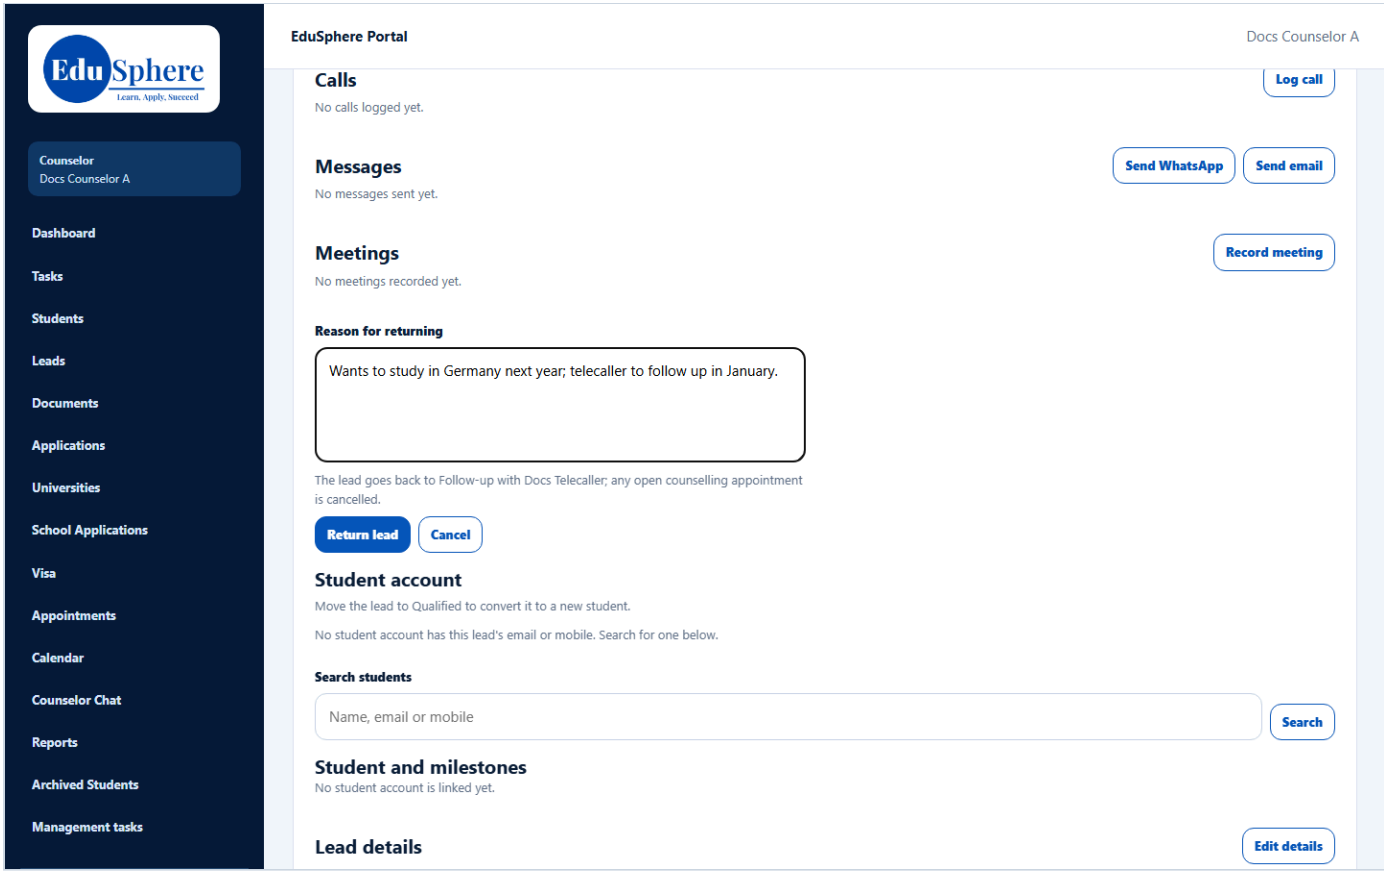

How to Access

Lead page → **Return to telecaller**.

Steps

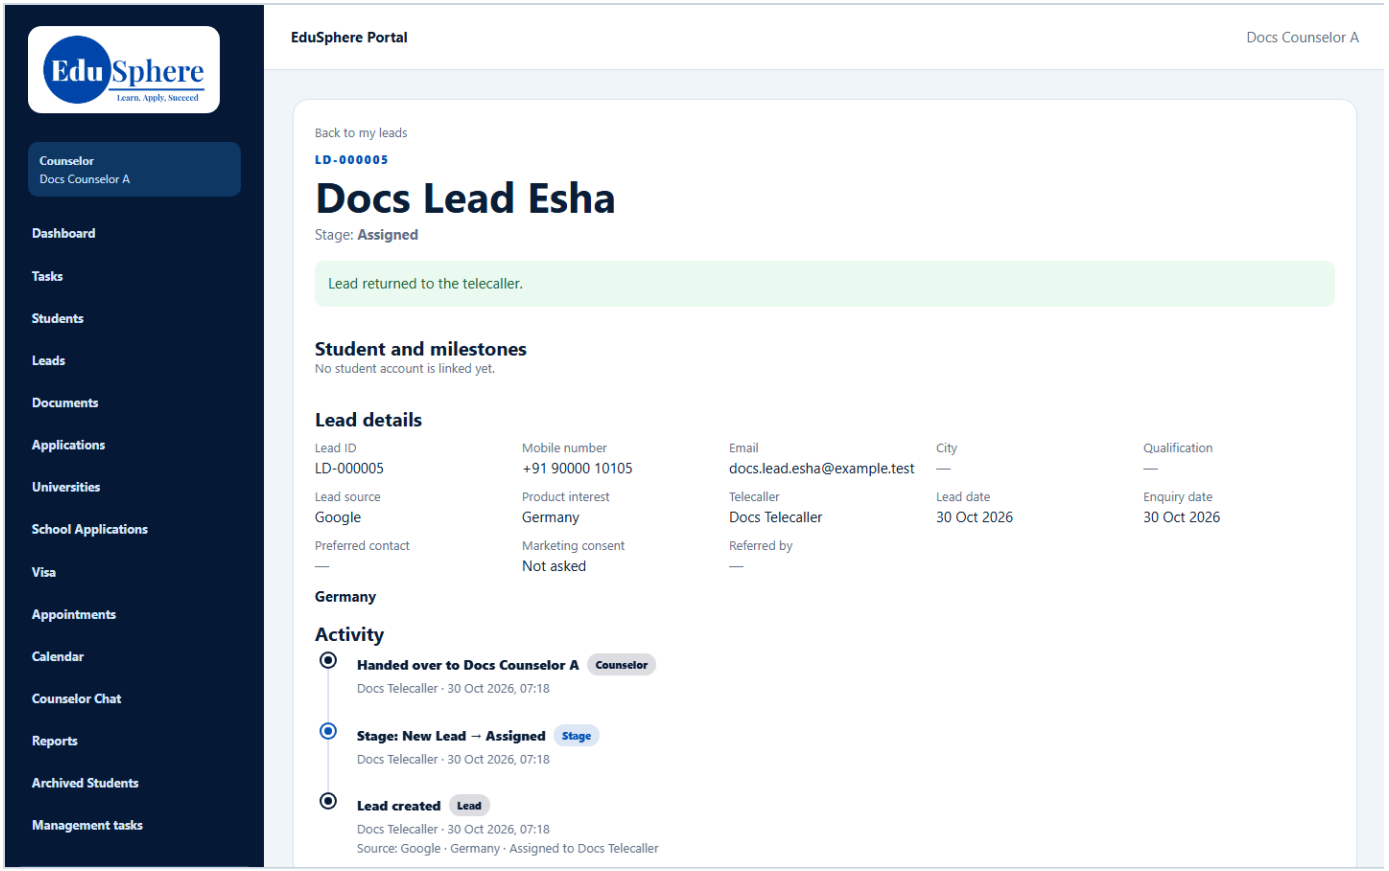

Step 1 — Give a reason

Select **Return to telecaller** and enter the **Reason for returning**. The form says: "The lead goes back to Follow-up with {telecaller}; any open counselling appointment is cancelled."

Step 2 — Return it

Select **Return lead**. **Lead returned to the telecaller.** appears and the lead's action sections disappear. The lead leaves your **My leads**.

Fields

Field	Description	Required	Example
Reason for returning	Up to 500 characters; the telecaller sees it	Yes	Wants to study in Germany next year; telecaller to follow up in January.

Expected Result

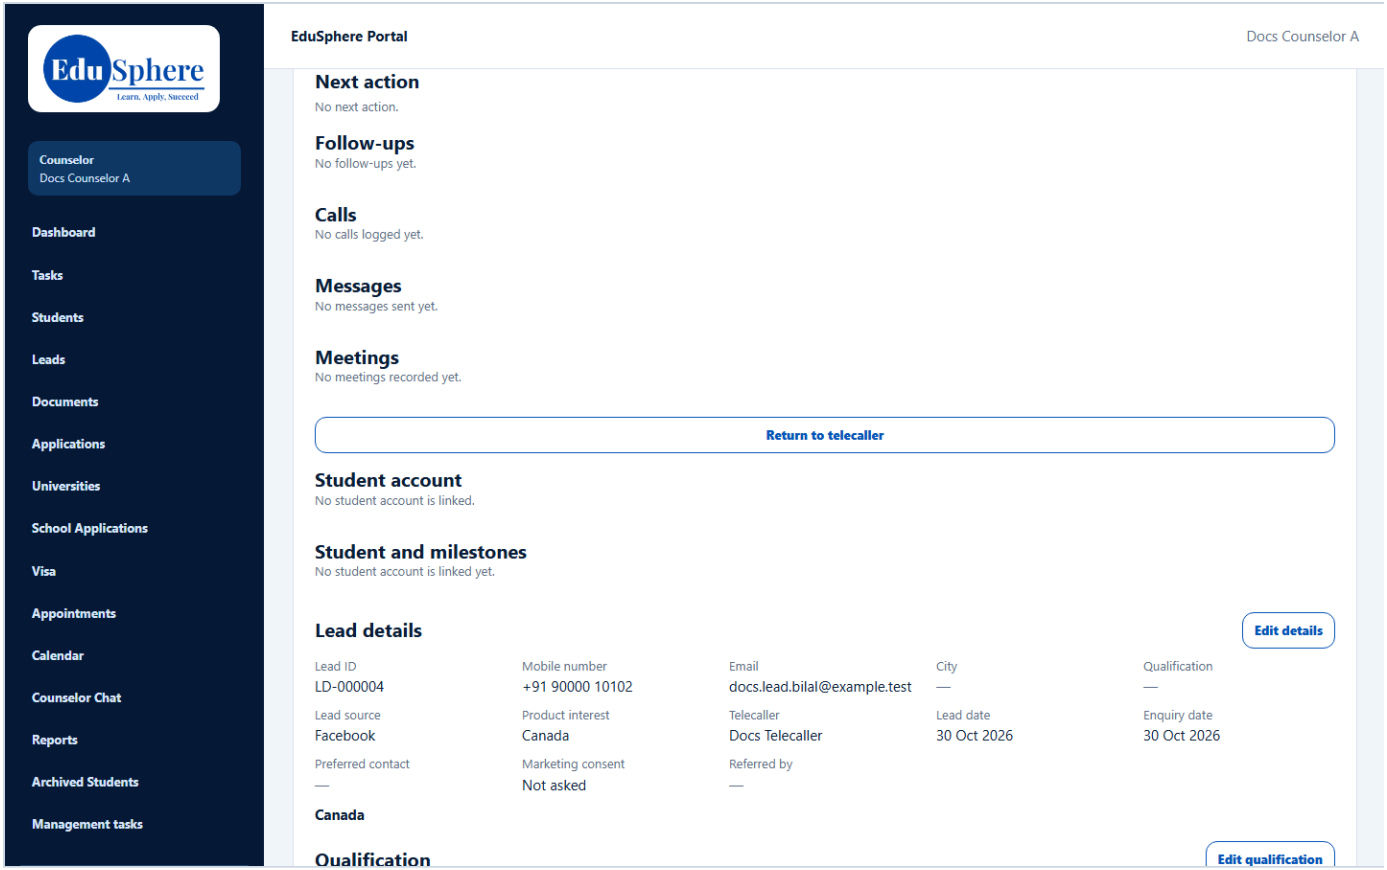

The telecaller gets the lead back with an alert. Its next action is cleared, and open follow-ups and appointments are cancelled.

Validation Messages

Message	When
Lead returned to the telecaller.	Success
Add a reason for returning the lead.	No reason entered
Unlink the student before returning the lead	A student account is linked

Common Errors

Problem: Return to telecaller is shown on a lead you have closed. **Cause:** The button is offered whenever no student is linked, including on closed leads. Returning a closed lead removes it from your list but leaves it closed, and does not record your reason in its history.

Resolution: Don’t return closed leads. If it needs to be worked again, ask the telecaller manager to reopen it.

Tips

- Write the reason for the telecaller: what the student wants and when to call back.

Related Features

- Change stage, record loss, close a lead
- A telecaller hands a lead to you

Student and milestones panel

> Doc ID: DOC-CNS-LEAD-009 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

See, from the lead, which student account it belongs to and how far that student has got.

Who Can Use This Feature

The counselor who owns the lead. The panel is read only.

Prerequisites

None. Before a student is linked it says “No student account is linked yet.”

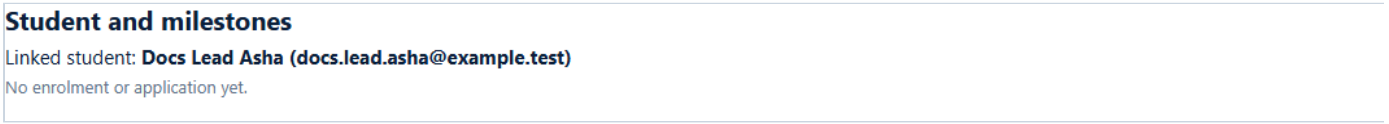

How to Access

Lead page → **Student and milestones**.

Steps

Step 1 — Read the panel

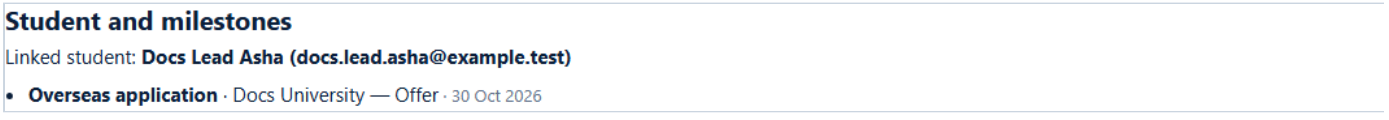

After conversion or linking, the panel shows **Linked student: {name} ({email})**. Until the student has an application or enrolment it says **No enrolment or application yet.**

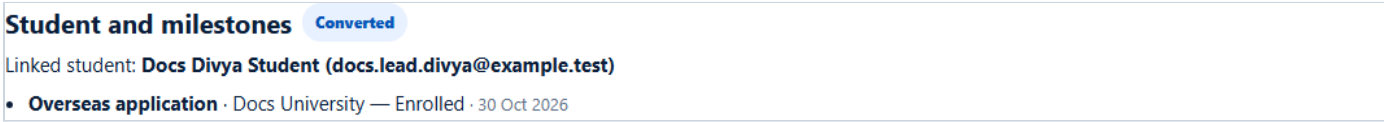

Step 2 — Follow the milestones

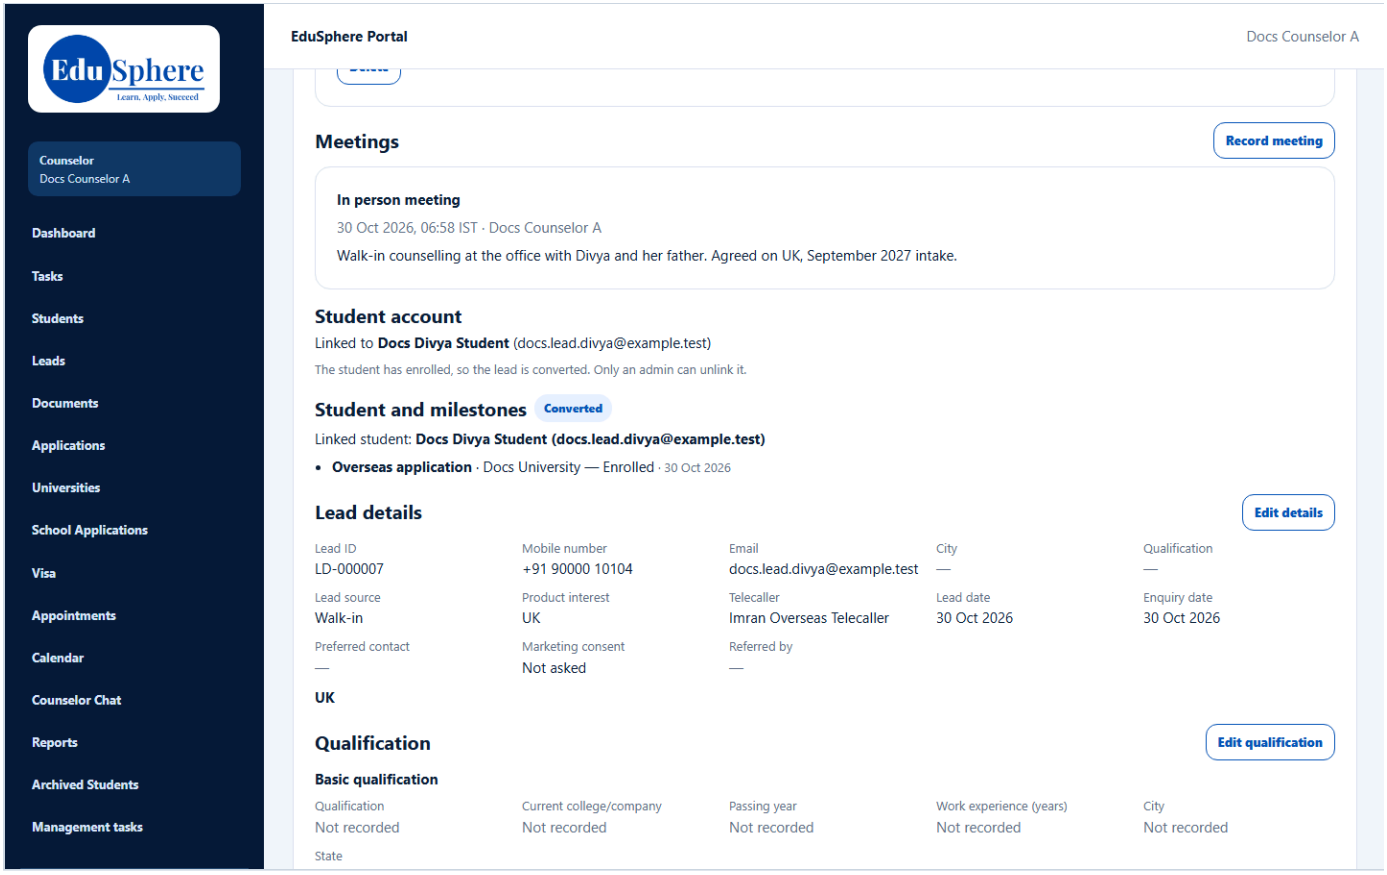

As the student’s applications move on, each milestone is listed with its kind, label, status, reference and time. When the student enrols, the panel shows a **Converted** badge and the lead’s stage becomes **Converted** automatically.

For example: “Overseas application · Docs University — Offer · 30 Oct 2026”.

When the linked student’s enrolment is confirmed, EduSphere marks the lead **Converted** (within about 15 minutes). The panel shows the **Converted** badge and “Overseas application · {university} — Enrolled”.

Note: a converted lead still shows its open follow-ups and the “No next action set” prompt. Mark old follow-ups done or cancel them yourself.

Expected Result

You can tell from the lead whether the student has applied or enrolled.

Related Features

- Convert a lead to a new student
- Link / unlink an existing student

Log a call

> Doc ID: DOC-CNS-ACT-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Record every call with a lead (outcome, duration and what was said) so the lead's history is complete.

Who Can Use This Feature

The counselor who owns the lead.

Prerequisites

The lead is open (not closed).

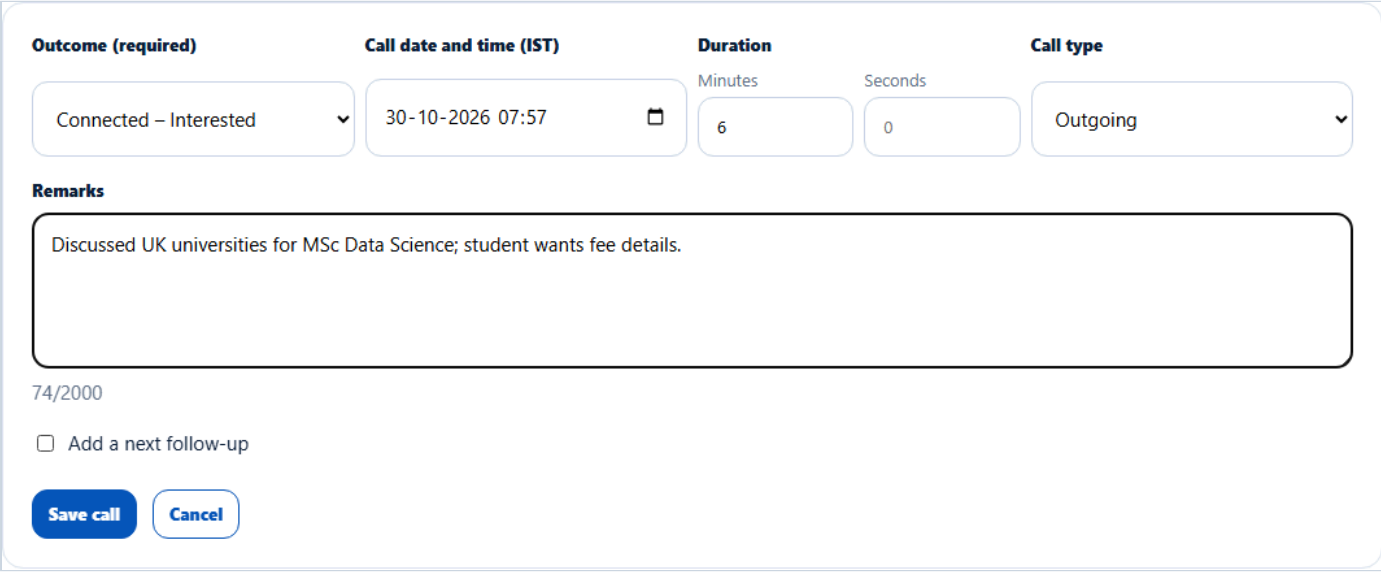

How to Access

Lead page → **Calls** → **Log call**.

Steps

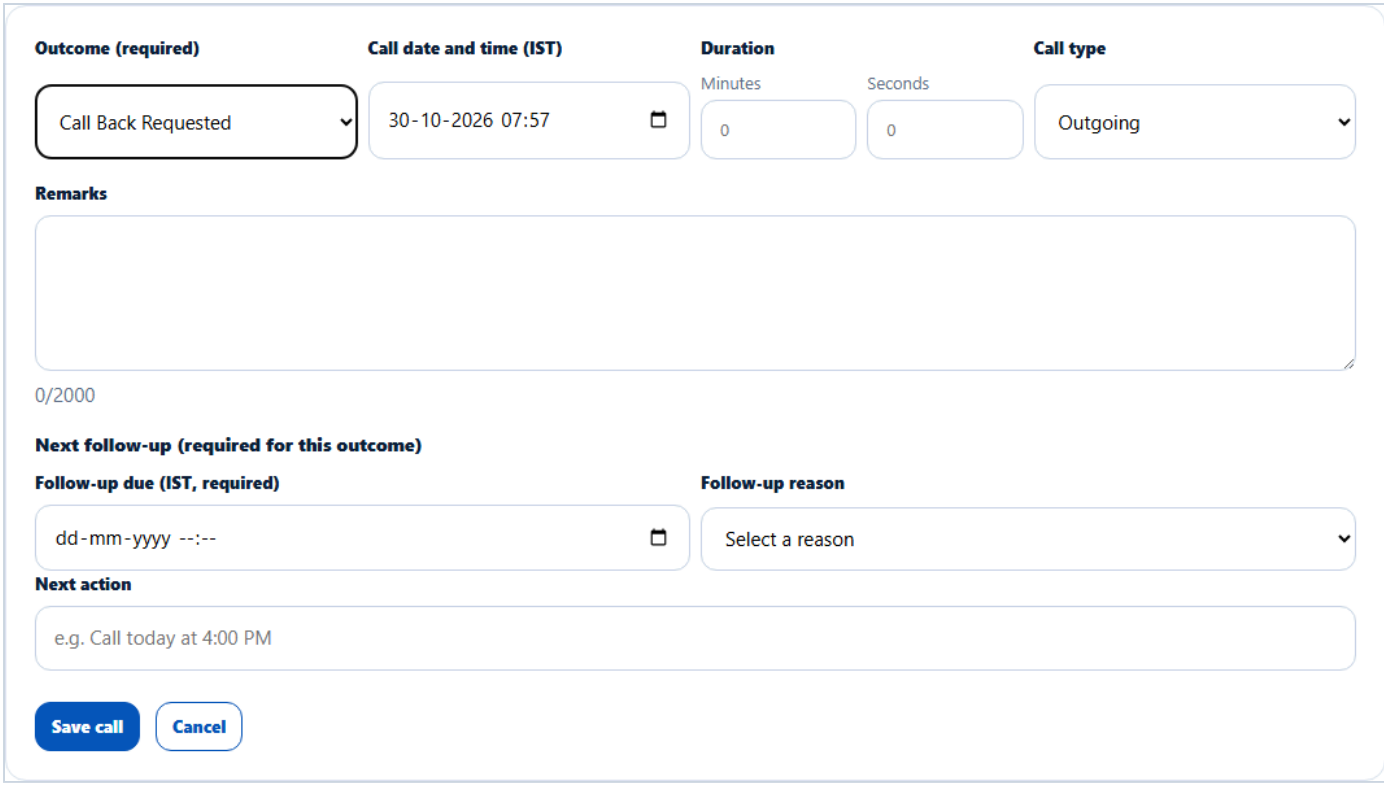

Step 1 — Open the call form

Select **Log call**. Choose the **Outcome (required)**. **Call date and time (IST)** starts at now. Add the **Duration** (minutes and seconds), the **Call type** (Outgoing or Incoming) and **Remarks**.

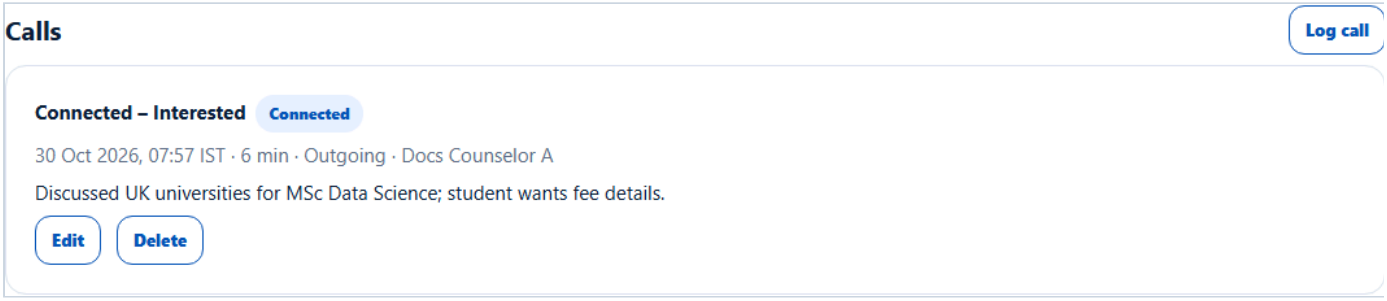

Step 2 — Add a follow-up when the outcome needs one

For **Connected – Follow-up Required** and **Call Back Requested**, the form adds **Next follow-up (required for this outcome)**: **Follow-up due (IST, required)**, **Follow-up reason** and **Next action**. For other outcomes, except Not Interested, Wrong Number, Already Joined Elsewhere and Not Eligible, you can tick **Add a next follow-up**.

Step 3 — Save

Select **Save call**. **Call logged.** appears and the call is listed with its outcome, time, duration, type and who logged it.

Fields

Field	Description	Required	Example
Outcome	Connected – Interested / Need Information / Follow-up Required / Appointment Fixed, Not Interested, Call Back Requested, Already Joined Elsewhere, Duplicate Lead, Not Eligible, Wrong Number, Busy, No Answer, Switched Off	Yes	Connected – Interested
Call date and time (IST)	Not in the future; up to 7 days back	Yes	now
Duration	Minutes and seconds, up to 4 hours	No	6 min

Field	Description	Required	Example
Call type	Outgoing or Incoming	Yes	Outgoing
Remarks	Up to 2000 characters; required for Duplicate Lead (name the other lead)	No	Discussed UK universities…

Expected Result

The call is in **Calls** and in the activity timeline. A counselor's call never changes the lead's stage, even for outcomes such as Not Interested. Change the stage yourself if needed.

Validation Messages

Message	When
Call logged. / Call updated. / Call deleted.	Success
Choose an outcome	No outcome
Choose the call date and time	No time
Enter whole minutes and seconds (0–59), up to 4 hours	Bad duration
The call time can't be in the future / Calls can be logged up to 7 days back	Time out of range
Add the next follow-up for this outcome	Follow-up missing for a call-back outcome
Only today's calls can be changed	Editing an older call

Common Errors

Problem: You can't edit yesterday's call. **Cause:** Only your own calls logged today (IST) can be edited or deleted. **Resolution:** Log a correction call with remarks.

Tips

- Use **Call Back Requested** when the student asks for a call later; the follow-up is created with the call.

Related Features

- Follow-ups on a lead
- Lead activity timeline

Record a WhatsApp message

> Doc ID: DOC-CNS-ACT-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Write a WhatsApp message to a lead (from a template or your own words), send it in WhatsApp, and keep a record on the lead.

Who Can Use This Feature

The counselor who owns the lead.

Prerequisites

- The lead is open and has a WhatsApp or mobile number.
- WhatsApp (app or web) is available on your computer or phone.

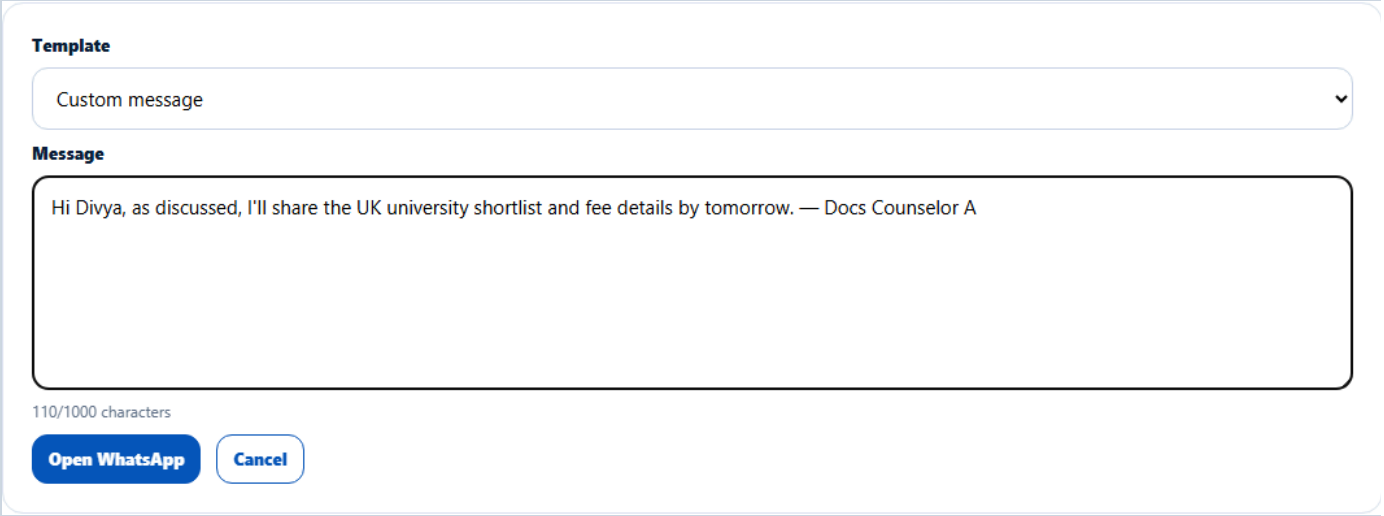

How to Access

Lead page → **Messages** → **Send WhatsApp**.

Steps

Step 1 — Write the message

Choose a **Template** (for example **Welcome message**, **Fee details**, **Document request**) or **Custom message**, and edit the **Message** (up to 1000 characters).

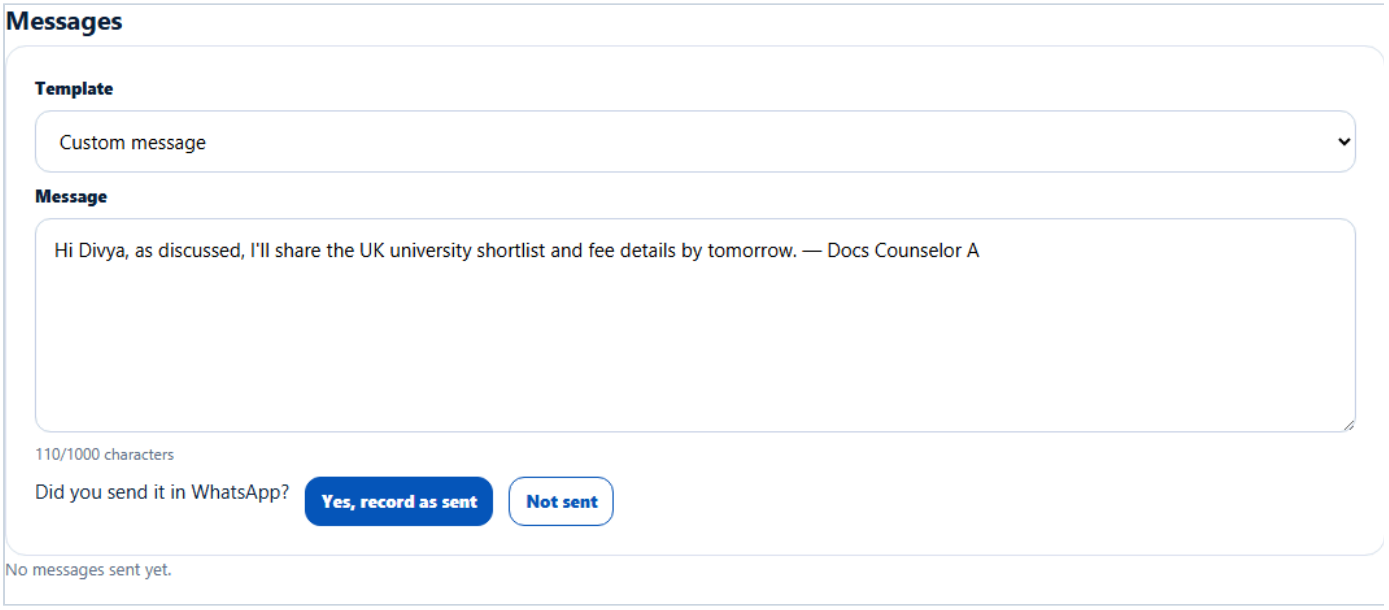

Step 2 — Send it in WhatsApp

Select **Open WhatsApp**. WhatsApp opens in a new tab with the message ready; send it there. EduSphere does not send WhatsApp messages itself.

Step 3 — Record that you sent it

Back in EduSphere, answer **Did you send it in WhatsApp?**:

- Select **Yes, record as sent** to record it. **WhatsApp send recorded.** appears.
- Select **Not sent** to go back to the message.

Did you send it in WhatsApp?

Fields

Field	Description	Required	Example
Template	An active WhatsApp template, or Custom message	No	Custom message
Message	Up to 1000 characters	Yes	Hi Divya, as discussed…

Expected Result

The record appears under **Messages** as “WhatsApp sent – {date} – {time}” with the text. See Email a lead for the combined list.

Validation Messages

Message	When
WhatsApp send recorded.	Recorded
Message deleted.	You deleted a record
This template was made for another product. Check the text before sending.	Template for a different product
No WhatsApp or mobile number on this lead.	No number on the lead (**Send WhatsApp** is disabled)
Only today’s messages can be deleted	Deleting an older record

Common Errors

Problem: You recorded a message you didn't actually send. **Resolution:** Select **Delete** on it the same day ("Delete this record? It does not unsend the WhatsApp message.").

Tips

- Templates fill in the student's details; always read the text before sending.

Related Features

- Email a lead
- Lead activity timeline

Email a lead

> Doc ID: DOC-CNS-ACT-003 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Send an email to a lead from EduSphere, so it is delivered and recorded on the lead.

Who Can Use This Feature

The counselor who owns the lead.

Prerequisites

The lead is open and has an email address.

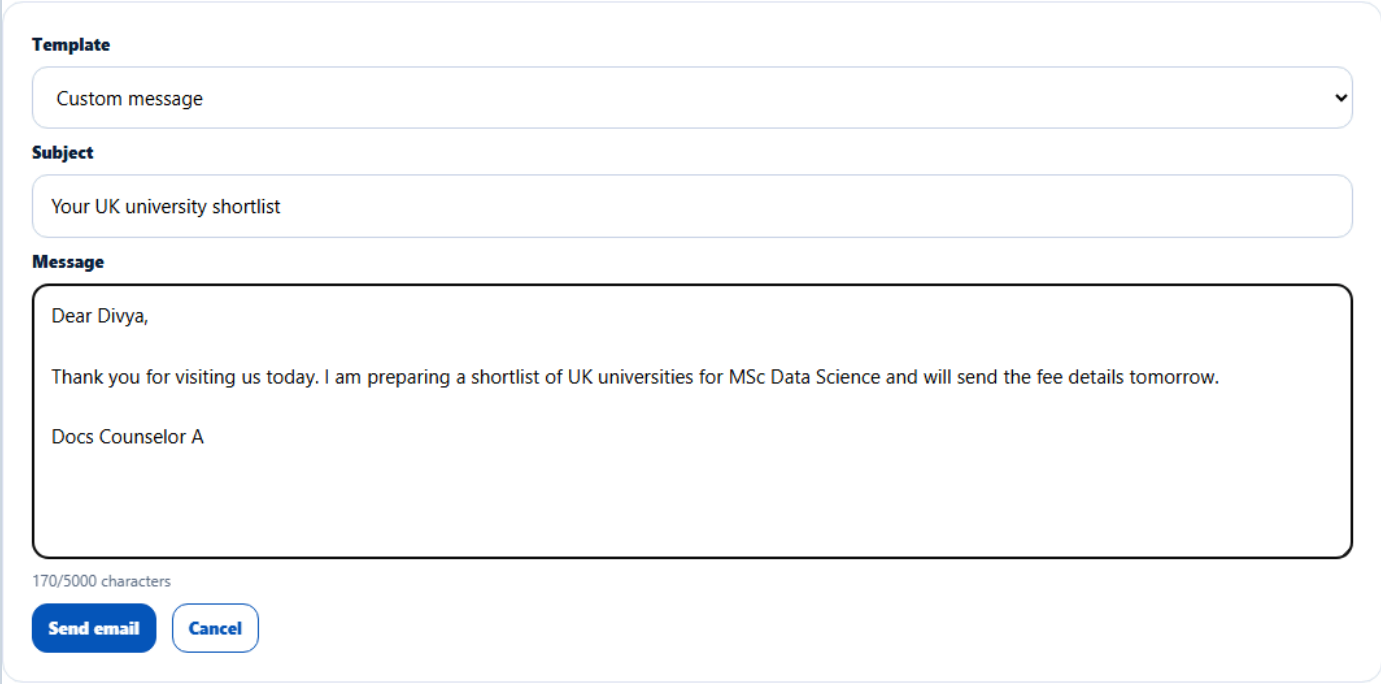

How to Access

Lead page → **Messages** → **Send email**.

Steps

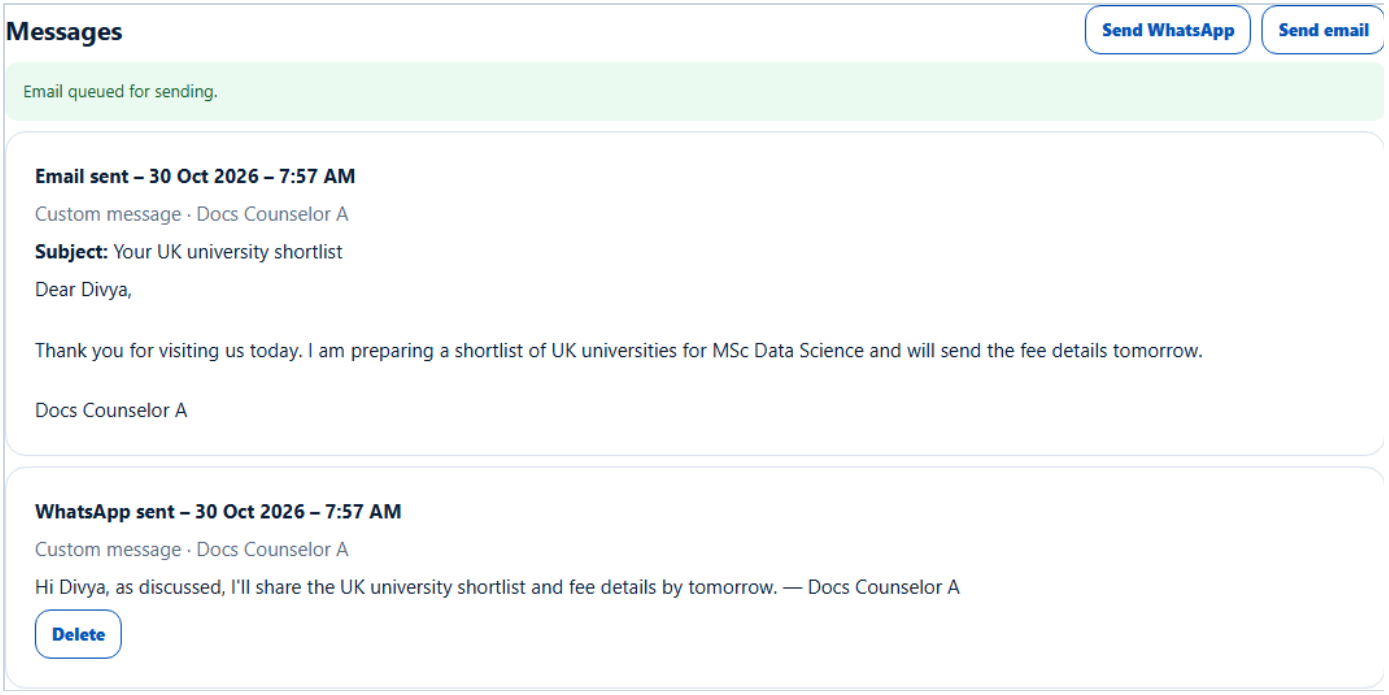

Step 1 — Write the email

Choose a **Template** or write your own. Enter the **Subject** and the **Message**.

Step 2 — Send

Select **Send email**. **Email queued for sending.** appears. EduSphere sends it within a few seconds and the record changes to **Email sent – {date} – {time}**.

Fields

Field	Description	Required	Example
Template	An active email template, or a custom email	No	—
Subject	Up to 200 characters	Yes	Your UK university shortlist
Message	Up to 5000 characters	Yes	Dear Divya, …

Expected Result

The student receives the email, and the email shows under **Messages** and in the activity timeline.

Validation Messages

Message	When
Email queued for sending.	Accepted
This email was not delivered. Check the lead's email address and send it again.	Delivery failed
The mail server didn't accept it yet. It will be retried automatically.	Temporary delay
No email address on this lead.	No email on the lead (**Send email** is disabled)
Email is not set up. Ask an administrator to configure SMTP.	Email isn't configured

Common Errors

Problem: "This email was not delivered." **Resolution:** Check the email in Lead details (ask the telecaller or admin to correct it), then send again.

Tips

- Sent emails can’t be deleted, so check before sending.
- Each counselor can send up to 100 lead emails a day.

Related Features

- Record a WhatsApp message
- Log a meeting

Log a meeting

> Doc ID: DOC-CNS-ACT-004 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Record a counselling meeting you have held with a lead (in person, online or by phone) and what was discussed.

Who Can Use This Feature

The counselor who owns the lead.

Prerequisites

The lead is open, and the meeting has already happened.

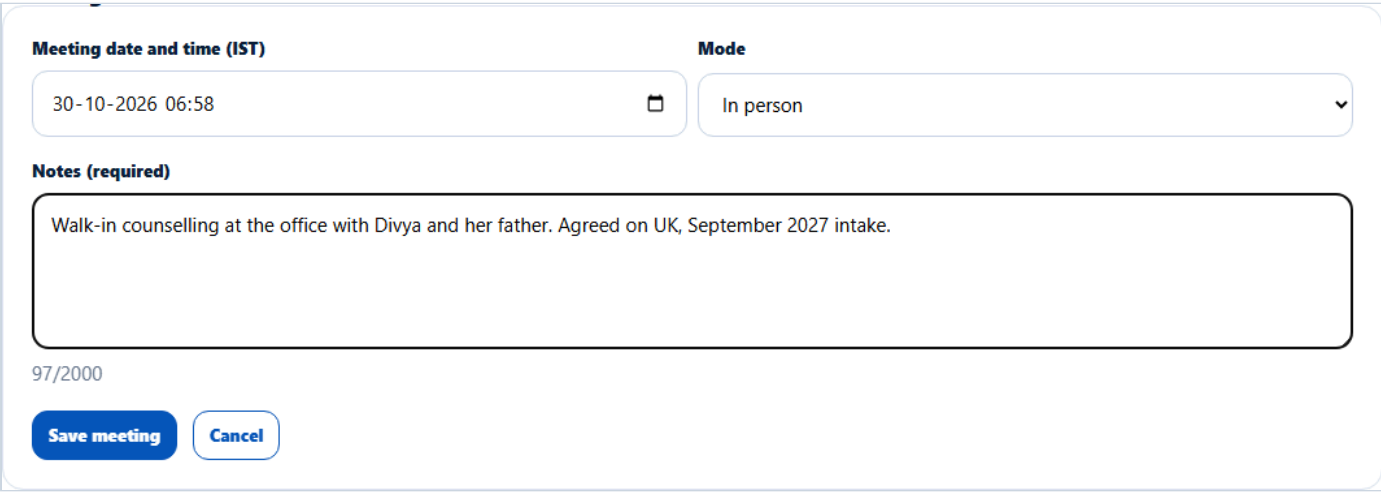

How to Access

Lead page → **Meetings** → **Record meeting**.

Steps

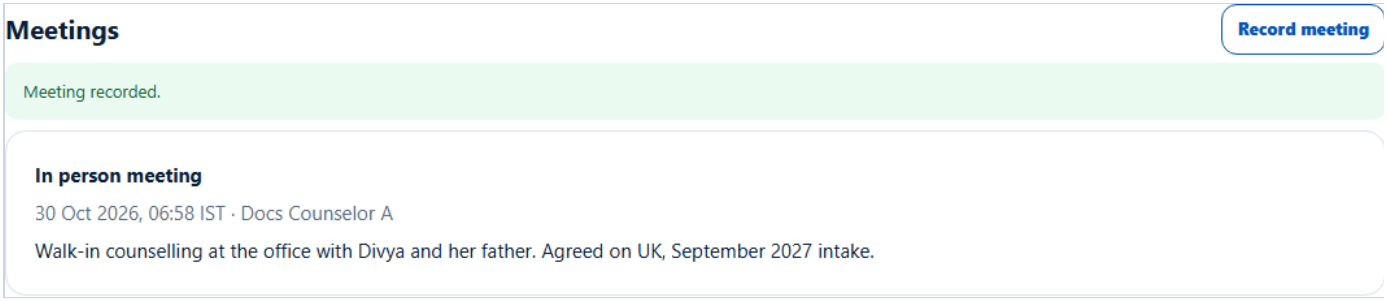

Step 1 — Fill in the meeting

Enter the **Meeting date and time (IST)** (not in the future), choose the **Mode** (**In person**, **Online** or **Phone**) and write the **Notes**.

Step 2 — Save

Select **Save meeting**. **Meeting recorded.** appears and the meeting is listed.

Fields

Field	Description	Required	Example
Meeting date and time (IST)	When it took place	Yes	today 07:00
Mode	In person, Online, Phone	Yes	In person
Notes	What was discussed; up to 2000 characters	Yes	Walk-in counselling with Divya and her father…

Expected Result

The meeting appears under **Meetings** and in the activity timeline. Meetings can’t be edited or deleted.

Validation Messages

Message	When
Meeting recorded.	Success
Choose the meeting date and time	No time
Add what was discussed	No notes
The meeting time can’t be in the future	Future time
This lead is closed, so no meeting can be recorded	Closed lead

Tips

- To plan a future session, use **Appointments** (booked by the telecaller) or a follow-up.

Related Features

- Lead notes
- Lead appointments

Lead notes

> Doc ID: DOC-CNS-ACT-005 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Keep internal notes about a lead, such as budget, family decisions or preferences, that don’t belong to a call or meeting.

Who Can Use This Feature

The counselor who owns the lead. Notes are internal; the student never sees them.

Prerequisites

None. You can add notes on closed leads too.

How to Access

Lead page → **Notes**.

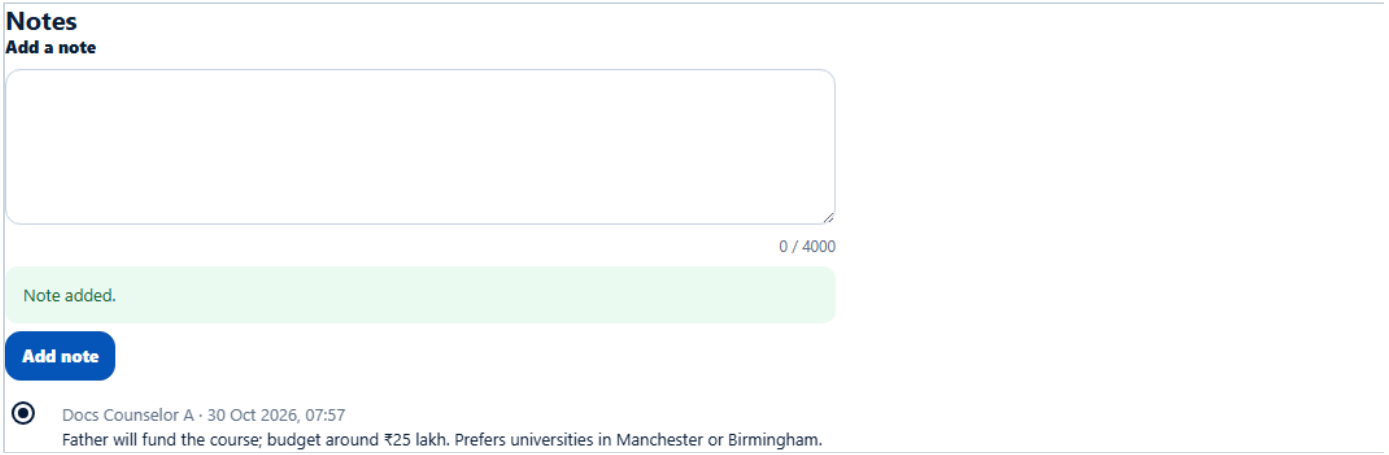

Steps

Step 1 — Write the note

Type in **Add a note** (up to 4000 characters; a counter shows how many you have used).

Step 2 — Add it

Select **Add note**. **Note added.** appears and the note is listed under **Lead notes**, newest first, with your name and the time.

Fields

Field	Description	Required	Example
Add a note	Up to 4000 characters	Yes	Father will fund the course; budget around ₹25 lakh…

Expected Result

The note stays on the lead permanently. Notes can’t be edited or deleted.

Validation Messages

Message	When
Note added.	Success
Write a note first.	Empty note

Tips

- Write notes so a colleague could pick up the lead tomorrow.

Related Features

- Lead activity timeline
- Log a meeting

Lead activity timeline

> Doc ID: DOC-CNS-ACT-006 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

See everything that has happened on a lead, newest first, in one list.

Who Can Use This Feature

The counselor who owns the lead.

Prerequisites

None.

How to Access

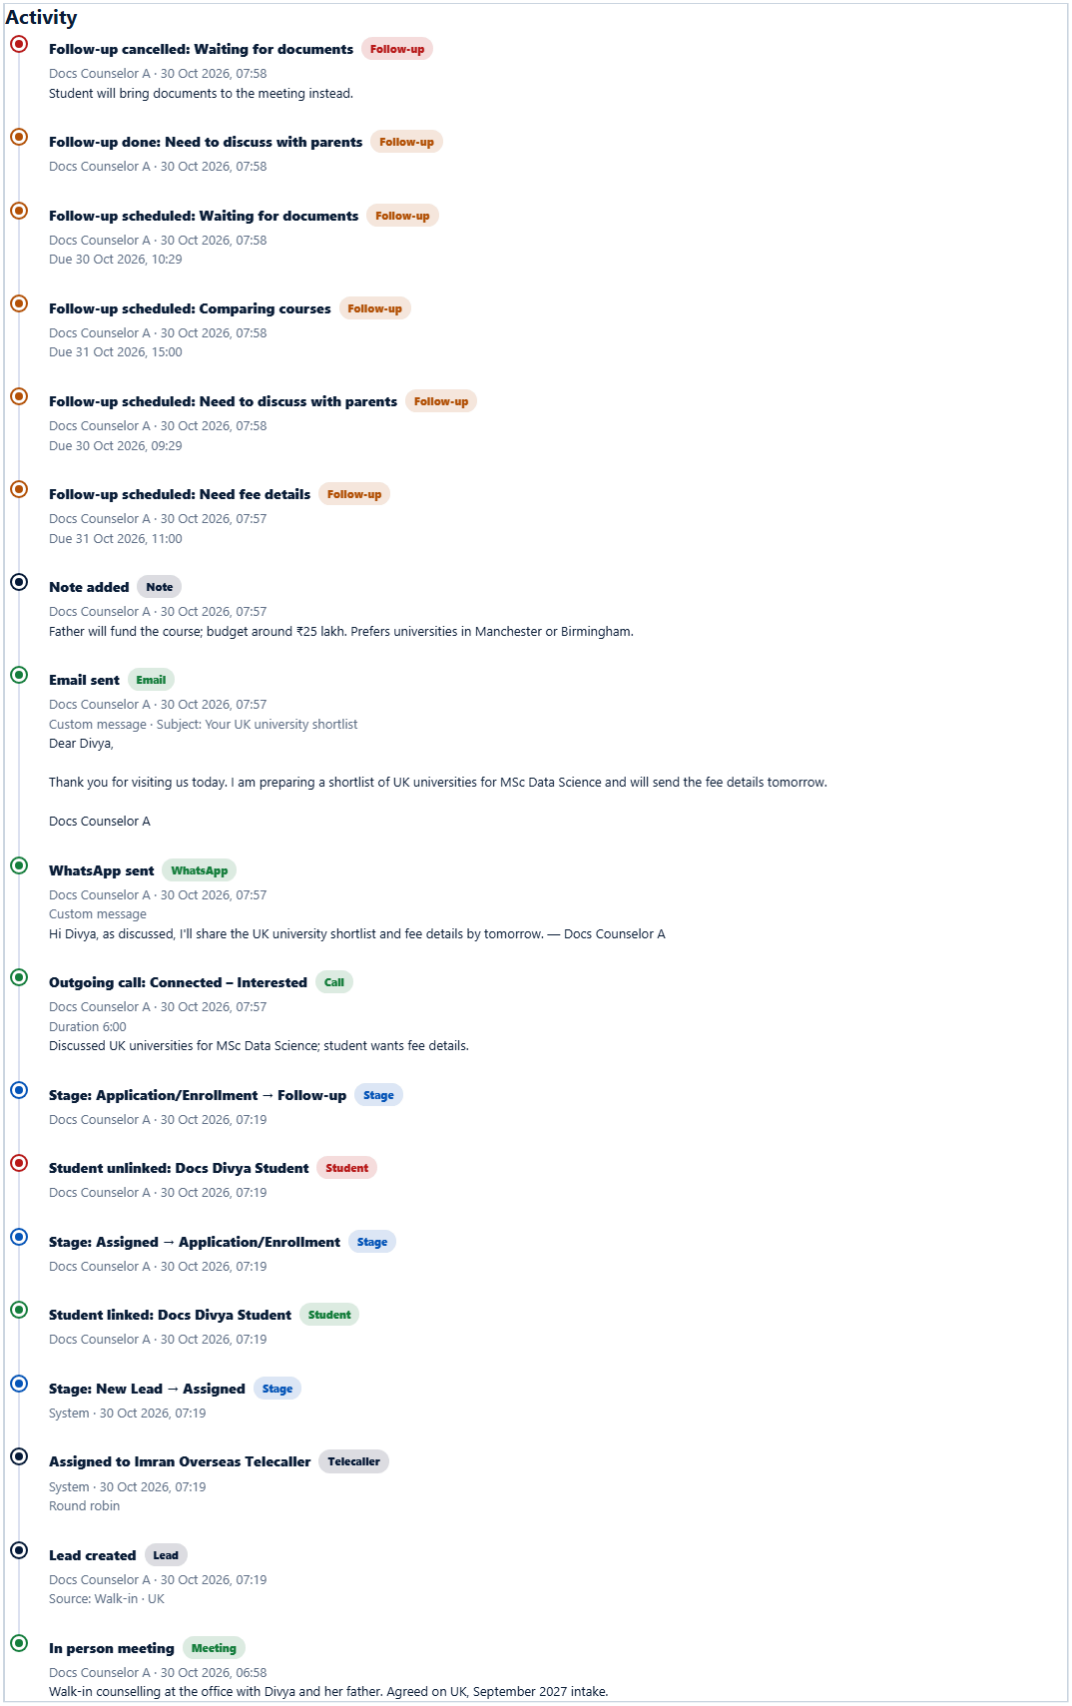

Lead page → **Activity** (at the bottom).

Steps

Step 1 — Read the timeline

Each entry shows what happened, its type, who did it and when, plus any detail. Entry types include:

- Follow-up scheduled, done and cancelled (with the reason).
- Note added.
- Email sent (subject and text) and WhatsApp sent.
- Meetings, calls and stage changes.

Activity timeline

Step 2 — It updates as you work

The timeline refreshes after every action on the page.

Expected Result

You can reconstruct the lead’s history without opening each section.

Tips

- Use the timeline before calling a lead someone else worked on.

Related Features

- Log a call

- Follow-ups on a lead

Convert a lead to a new student

> Doc ID: DOC-CNS-CONV-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Create the student's EduSphere account from a qualified lead in one step, so you can start their applications.

Who Can Use This Feature

Overseas counselors who own the lead.

Prerequisites

- The lead is at **Qualified**, **Interested**, **Follow-up**, **Counselling Scheduled** or **Counselling Completed**.
- No student account is linked to the lead.
- No student account already uses the lead's email or mobile number.

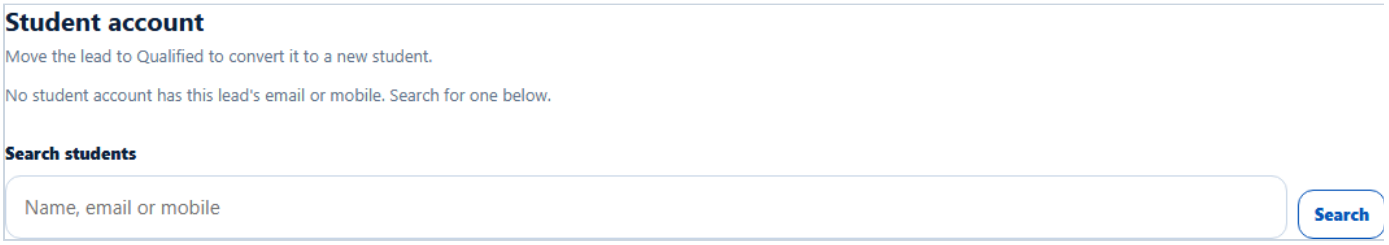

How to Access

Lead page → **Student account** → **Convert to student**.

Steps

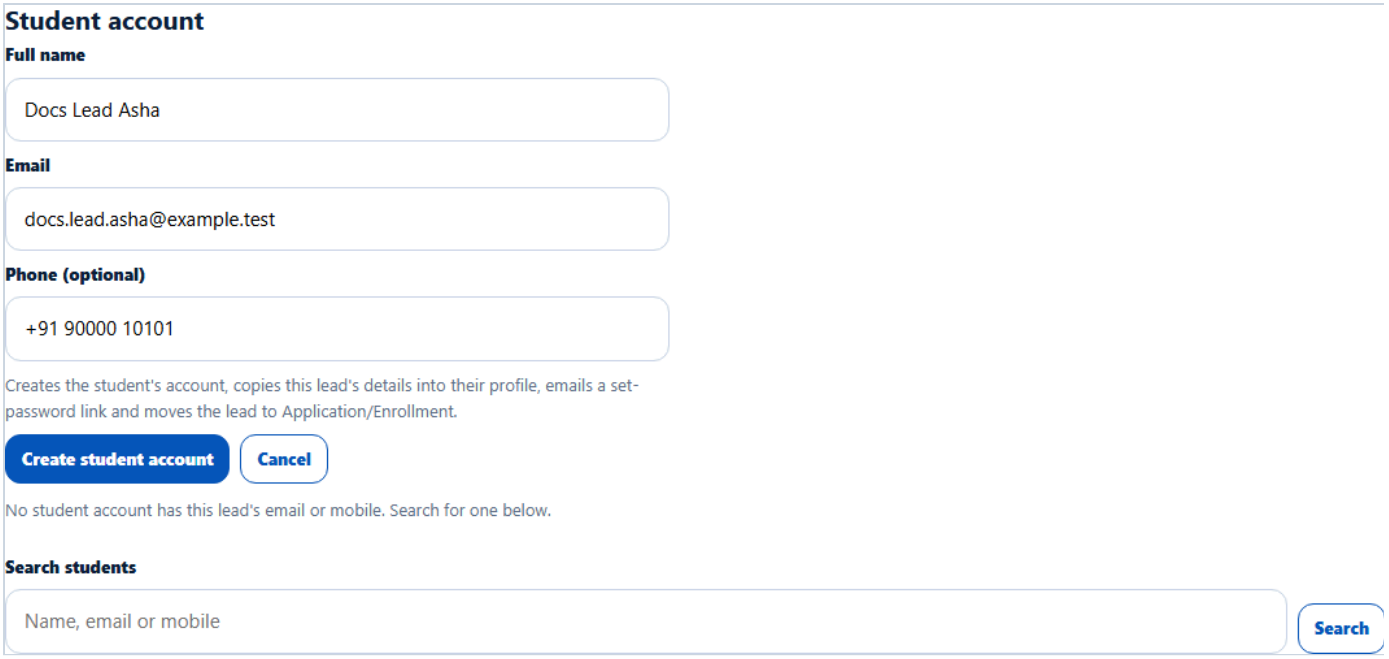

Step 1 — Check the lead is ready

Before the lead reaches **Qualified**, the section says **Move the lead to Qualified to convert it to a new student.** See Change stage.

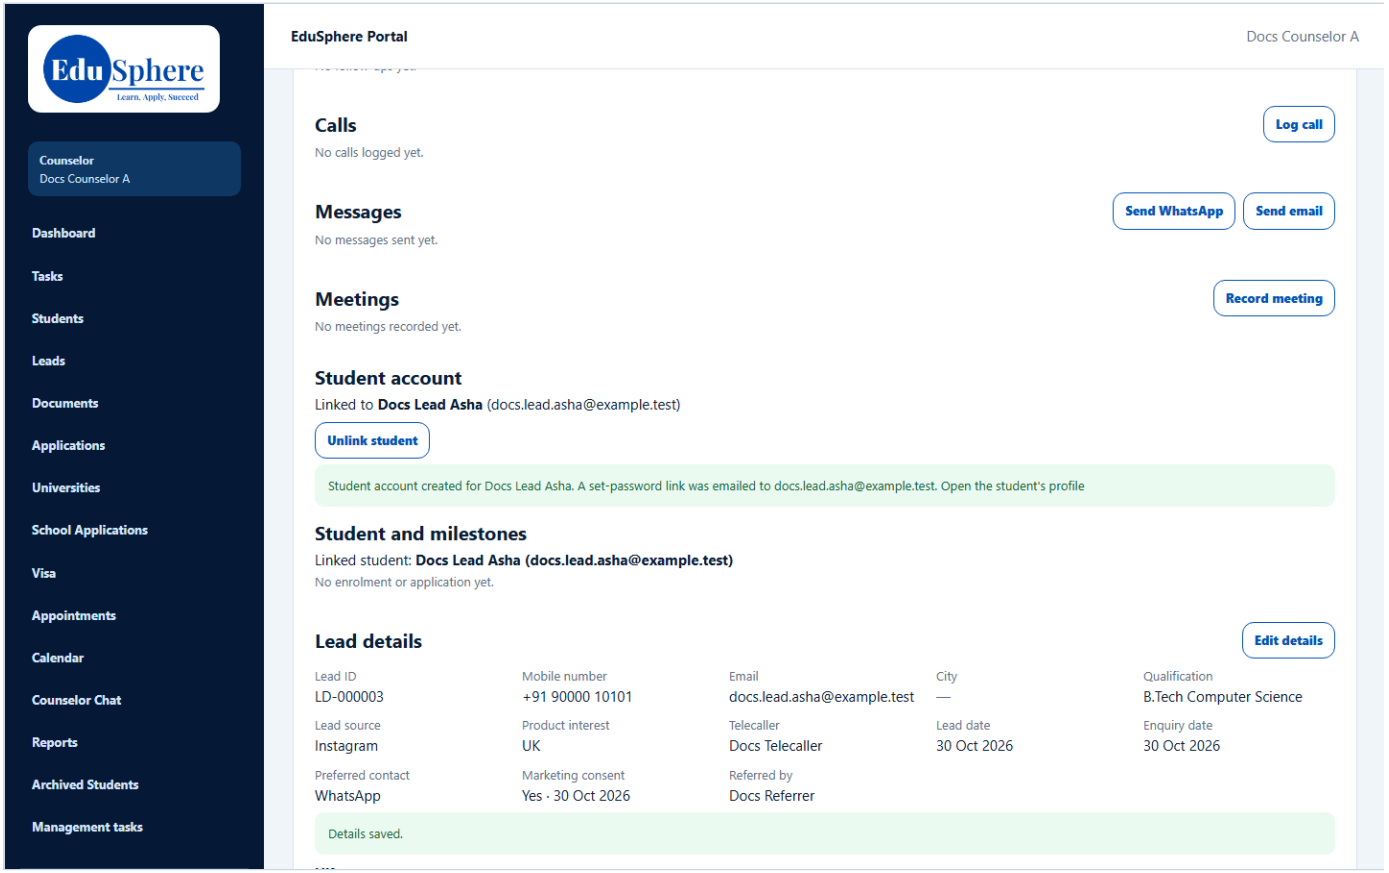

Step 2 — Open the form

Select **Convert to student**. **Full name**, **Email** and **Phone (optional)** are filled in from the lead. The form explains that it "Creates the student's account, copies this lead's details into their profile, emails a set-password link and moves the lead to Application/Enrollment."

Step 3 — Create the account

Select **Create student account**. The message **Student account created for {name}. A set-password link was emailed to {email}.** appears with **Open the student's profile**. The lead now shows **Linked to {name}** and its stage becomes **Application/Enrollment**.

Fields

Field	Description	Required	Example
Full name	The student's name	Yes	Docs Lead Asha

Field	Description	Required	Example
Email	The student's sign-in email; must not belong to another account	Yes	docs.lead.asha@example.test
Phone (optional)	Mobile number	No	+91 90000 10101

Expected Result

- The student receives a set-password email and appears in your **My students**.
- The lead's qualification is copied into the student's profile.
- The lead moves to **Application/Enrollment**.

Validation Messages

Message	When
Student account created for {name}. A set-password link was emailed to {email}.	Success
Student account created for {name}, but the set-password email was not delivered. Re-send it from My students.	Email could not be sent
Add the student's name and email.	A required field is empty
Move the lead to Qualified before converting it	The lead's stage is too early
This lead is closed; reopen it before converting it	The lead is closed
A student account already has this email or mobile. Link the existing student instead.	Duplicate account

Common Errors

Problem: "A student account already has this email or mobile." **Resolution:** Use Link an existing student instead.

Problem: The student didn't get the email. **Resolution:** Re-send the link from **Students** → **My students** (see STU-003).

Tips

- Fill in the qualification before converting; it carries over to the profile.

Related Features

- Link / unlink an existing student
- Student and milestones panel

Link or unlink an existing student account

> Doc ID: DOC-CNS-CONV-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Connect a lead to a student who already has an EduSphere account, instead of creating a second account.

Who Can Use This Feature

The counselor who owns the lead.

Prerequisites

- The lead is open and has no linked student.
- The student account exists, for example a walk-in student you added (see STU-003).

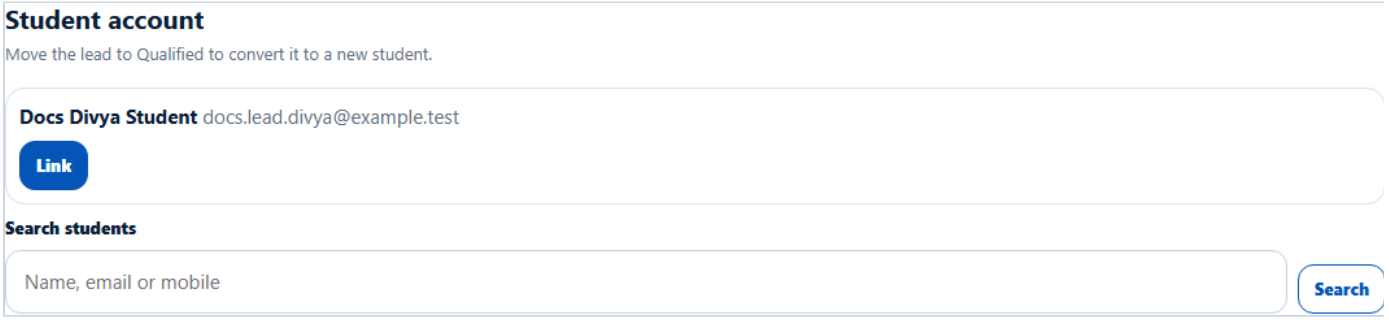

How to Access

Lead page → **Student account**.

Steps

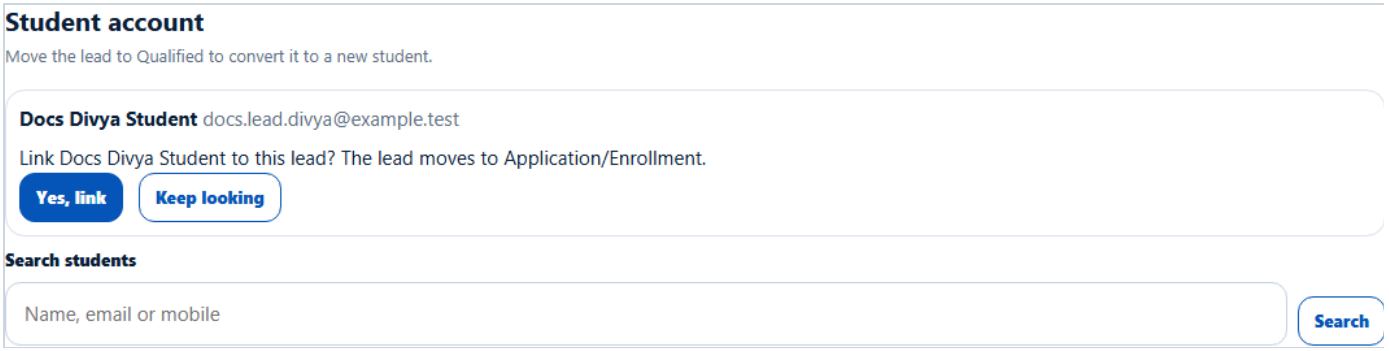

Step 1 — Find the student

EduSphere suggests any student account with the lead's email or mobile. Otherwise it says "No student account has this lead's email or mobile. Search for one below." To search, type at least 3 characters of a name, email or mobile in **Search students** and select **Search**.

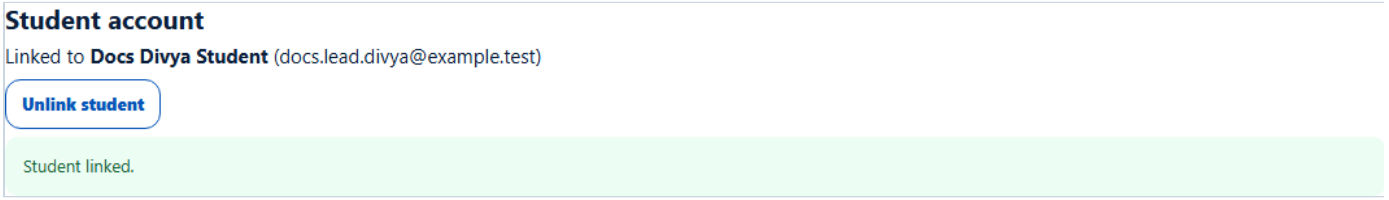

Step 2 — Link

Select **Link** next to the student. Confirm with **Yes, link** ("Link {name} to this lead? The lead moves to Application/Enrollment."), or **Keep looking**.

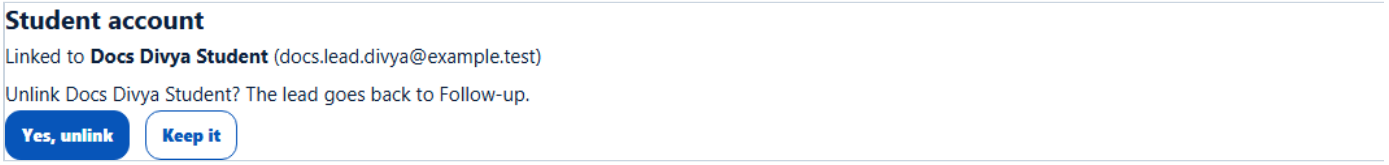

Student linked. appears and the section shows **Linked to {name} ({email})**.

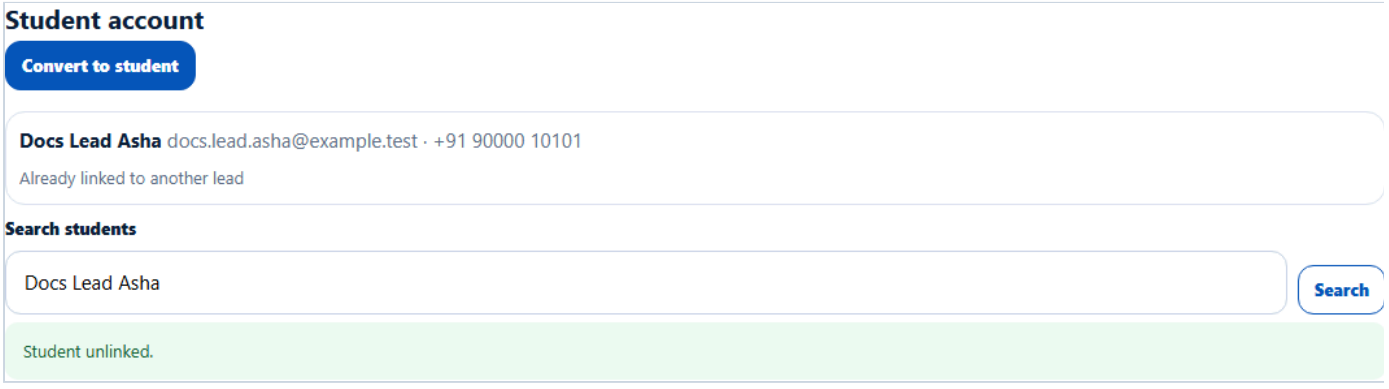

Step 3 — Unlink if you linked the wrong student

Select **Unlink student** and confirm with **Yes, unlink** (“Unlink {name}? The lead goes back to Follow-up.”), or **Keep it**. **Student unlinked.** appears.

A student already linked elsewhere

A student who belongs to another lead shows **Already linked to another lead** and can’t be linked again.

Expected Result

- **Linked:** the lead moves to **Application/Enrollment**, and the student appears in Student and milestones.
- **Unlinked:** the lead goes back to **Follow-up**.

Validation Messages

Message	When
Student linked. / Student unlinked.	Success
Enter at least 3 characters.	Search text too short

Message	When
No active student account matches that search.	Nothing found
This student is already linked to another lead	The student belongs to another lead
Only an admin can unlink a converted lead	The student has enrolled; the lead is **Converted**

Common Errors

Problem: Unlink student is missing. **Cause:** The student has enrolled, so the lead is **Converted** (“The student has enrolled, so the lead is converted. Only an admin can unlink it.”). **Resolution:** Ask your Overseas Admin.

Tips

- Always check the suggestion first; it matches on email and mobile.

Related Features

- Convert a lead to a new student
- Return a lead to the telecaller

Students page: Application Tracking table and filters

> Doc ID: DOC-CNS-STU-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor (Overseas Admin sees more)

Purpose

See every application assigned to you in one table and narrow it down with filters.

Who Can Use This Feature

What each role sees

	Counselor	Overseas Admin
Rows	Applications assigned to you	All applications
Extra column	—	**EduSphere counsellor**, with Assign/Change counsellor
Counsellor filter	—	Yes (including **Not assigned**)

Prerequisites

At least one application is assigned to you.

How to Access

Sidebar **Students** (or **Applications**). The page title is **Application Tracking**.

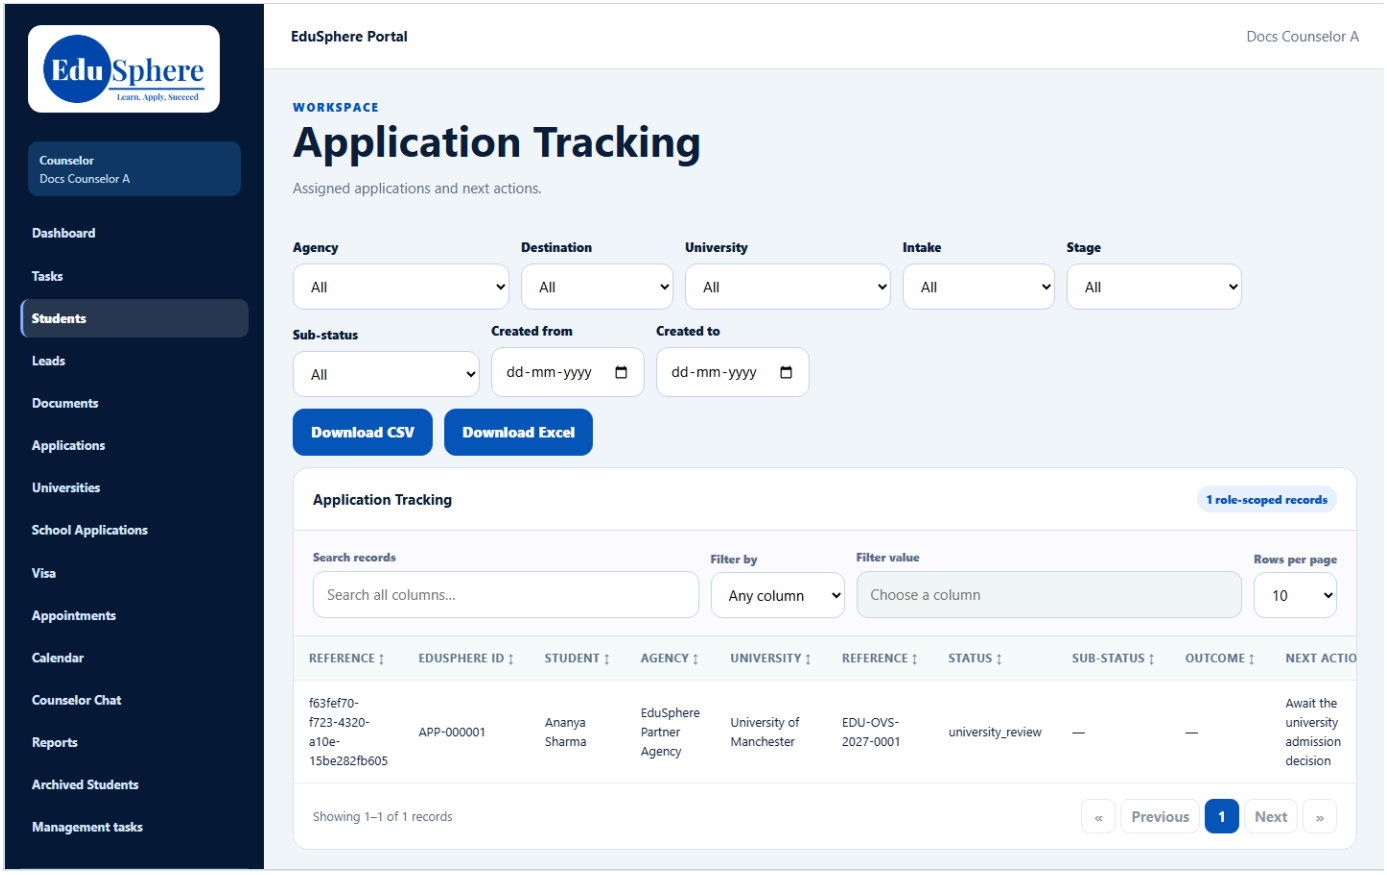

Steps

Step 1 — Read the table

There is one row per application, not per student. The columns are:

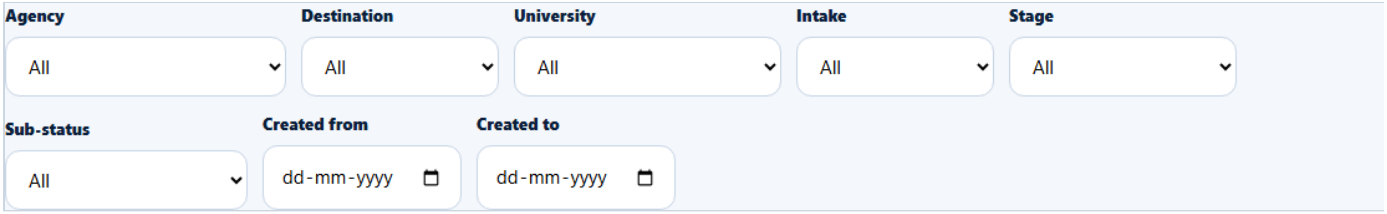

- **reference** (an internal code) and **EduSphere ID** (APP-…);
- **Student**, **Agency** and **University**;
- **Reference** (the university's reference), **Status**, **Sub-status**, **Outcome** and **Next action**;
- **Open**, **Notes** and **Profile** links to the student.

Use **Search records** or **Filter by** a column, and **Rows per page**.

Step 2 — Filter

Use **Agency** (All, Any agency, Not from an agency, or a named agency), **Destination**, **University**, **Intake**, **Stage**, **Sub-status** (narrowed by the stage), and **Created from** / **Created to**. The lists only offer values that appear in your applications.

Step 3 — Download

Download CSV or **Download Excel** exports the filtered applications.

Expected Result

You see your applications and can jump to each student's 360 view.

Validation Messages

Message	When
No applications match these filters	Filters exclude every row
{error} – showing all applications.	A filter value was refused
The start date must be on or before the end date	Dates reversed

Common Errors

Problem: Status shows a code such as `university_review`. **Cause:** This table shows the internal stage key, not its label. **Resolution:** Open the student's 360 view or the application for the readable stage.

Problem: A student has no **Open** link. **Cause:** The student has no EduSphere login (an agency record).

Tips

- The **My students** card on the same page lists students rather than applications. See My students.
- Applications of archived students are hidden.

Related Features

- My students
- Student 360

My students

> Doc ID: DOC-CNS-STU-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

List every student you work with: walk-ins you added, leads you converted, students the Overseas Admin assigned to you, and students of applications assigned to you.

Who Can Use This Feature

Overseas counselors.

Prerequisites

None.

How to Access

Sidebar **Students** → the **My students** card (below the table).

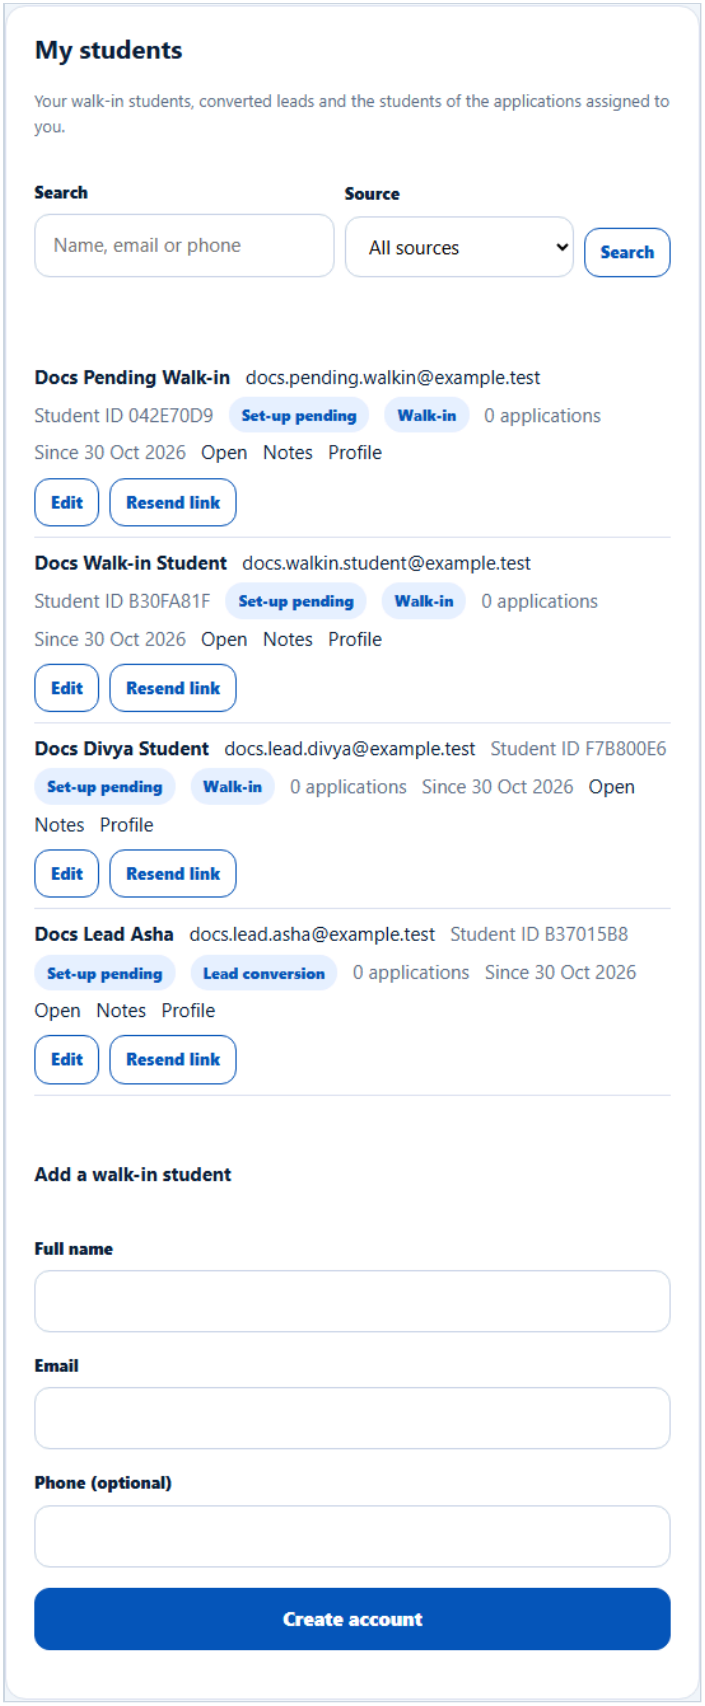

Steps

Step 1 — Read the list

Each student shows:

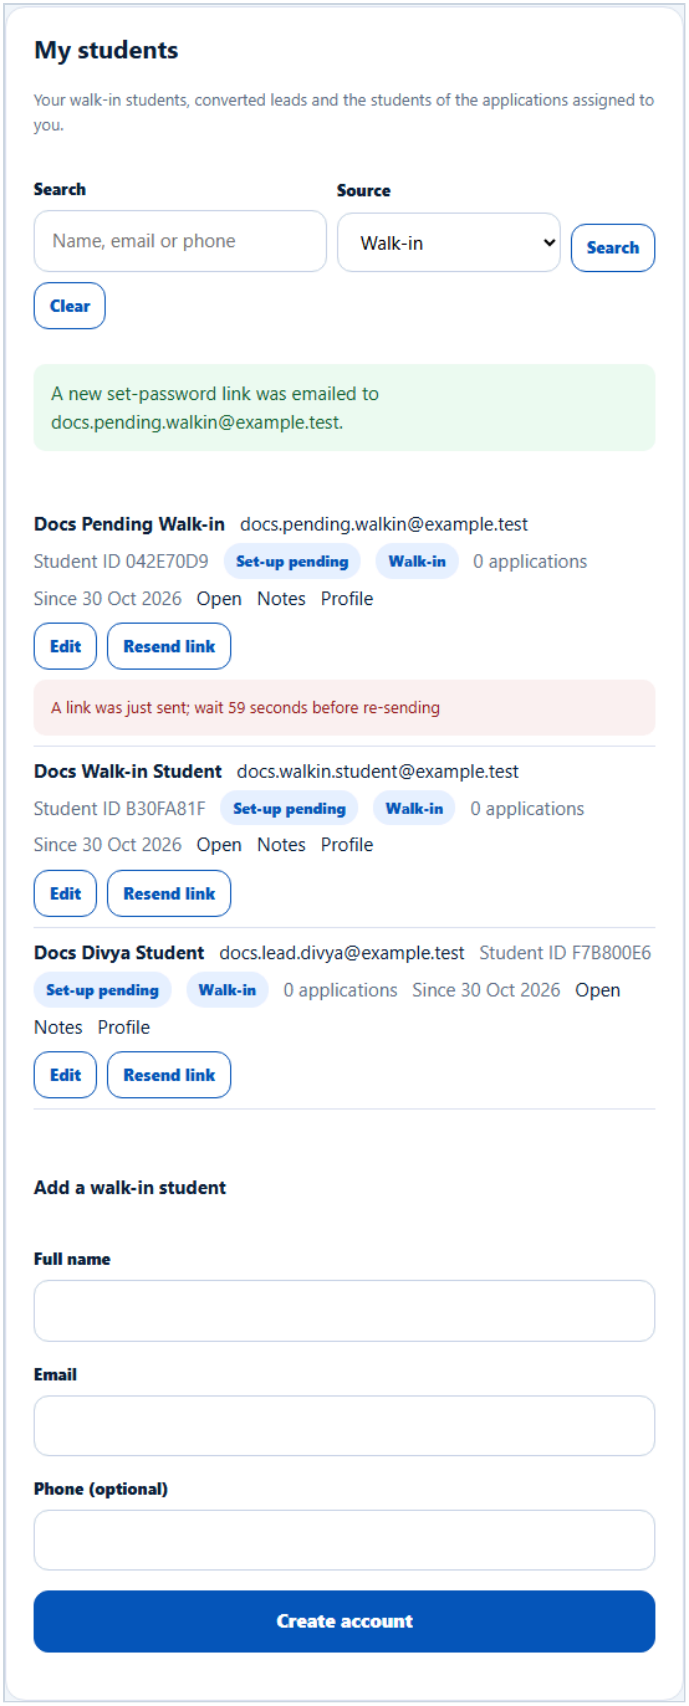

- name, email and Student ID;
- an account badge (**Active**, **Set-up pending** or **Link expired**) and a source badge;
- the number of applications and **Since** {date};
- **Open** (Student 360), **Notes** and **Profile** links.

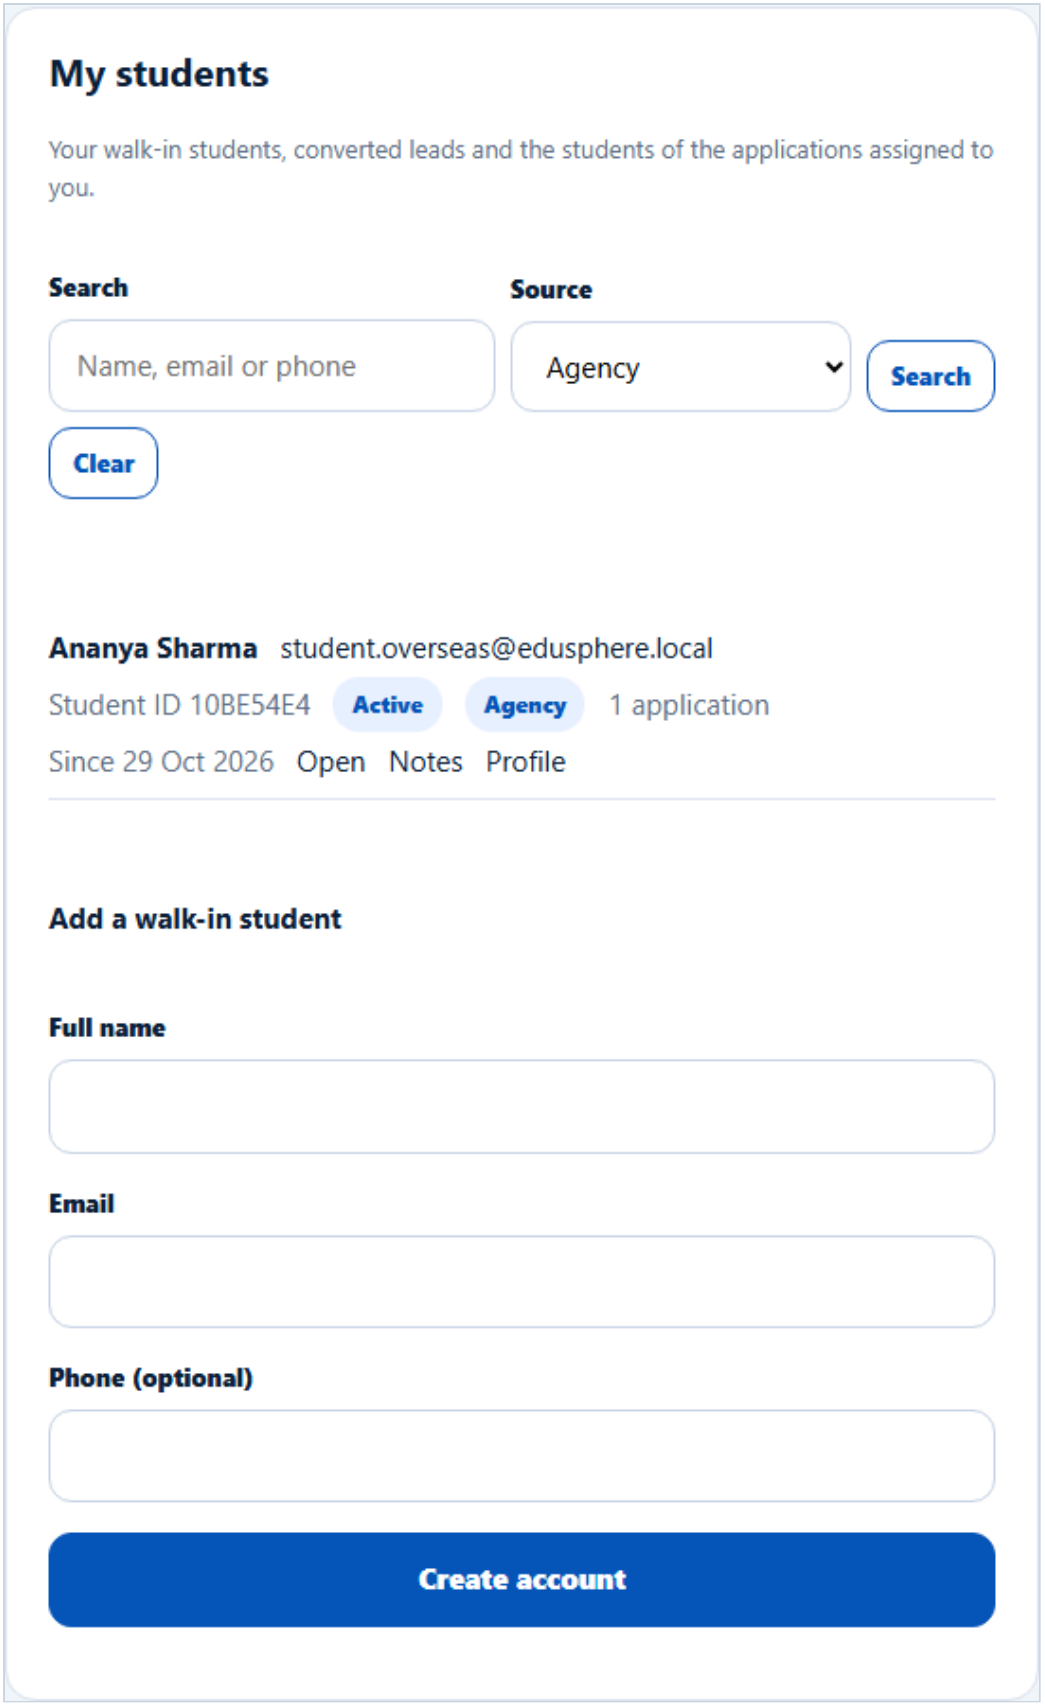

Students still setting up their account also have **Edit** and **Resend link** (see Add a walk-in student).

Step 2 — Filter by source

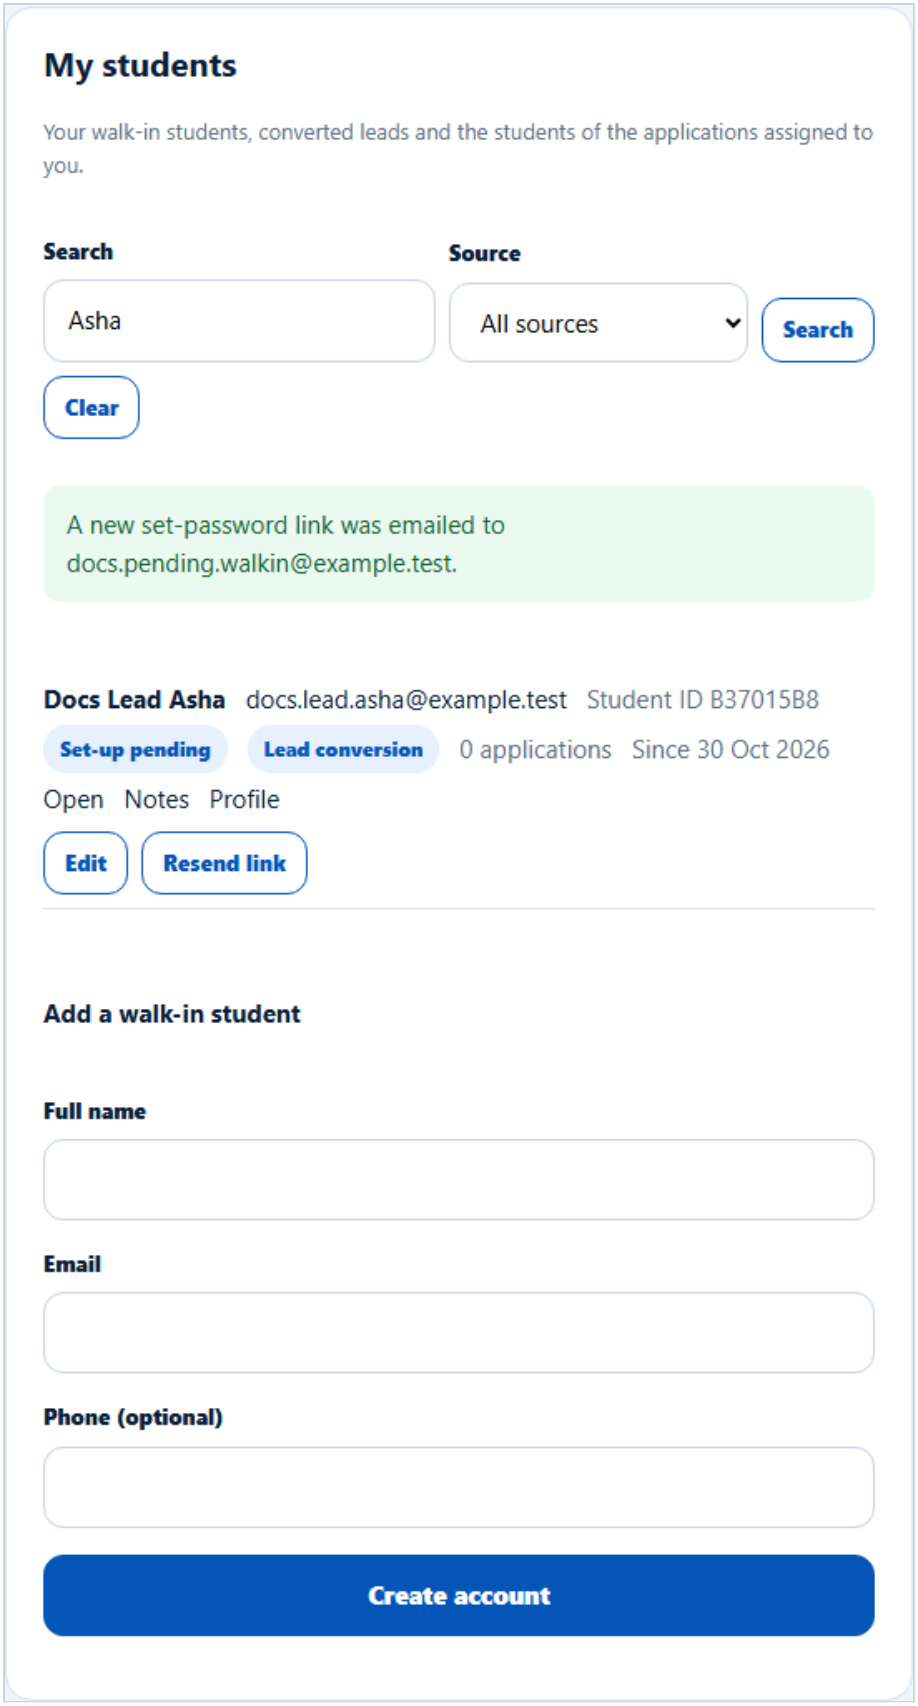

Choose **Source**: **All sources**, **Walk-in**, **Lead conversion**, **Self-registered** or **Agency**. The list updates at once.

My students
Your walk-in students, converted leads and the students of the applications assigned to you.

Add a walk-in student
Full name
Email
Phone (optional)
Create account

Step 3 — Search

Type a name, email or phone in **Search** and select **Search**. Select **Clear** to reset.

Fields

Source	Meaning
Walk-in	You added the student at the office
Lead conversion	You converted their lead

Source	Meaning
Self-registered	They registered on the website
Agency	They came through an education agent

Expected Result

20 students per page, newest first, with **Previous** and **Next**. Archived students are not listed.

Validation Messages

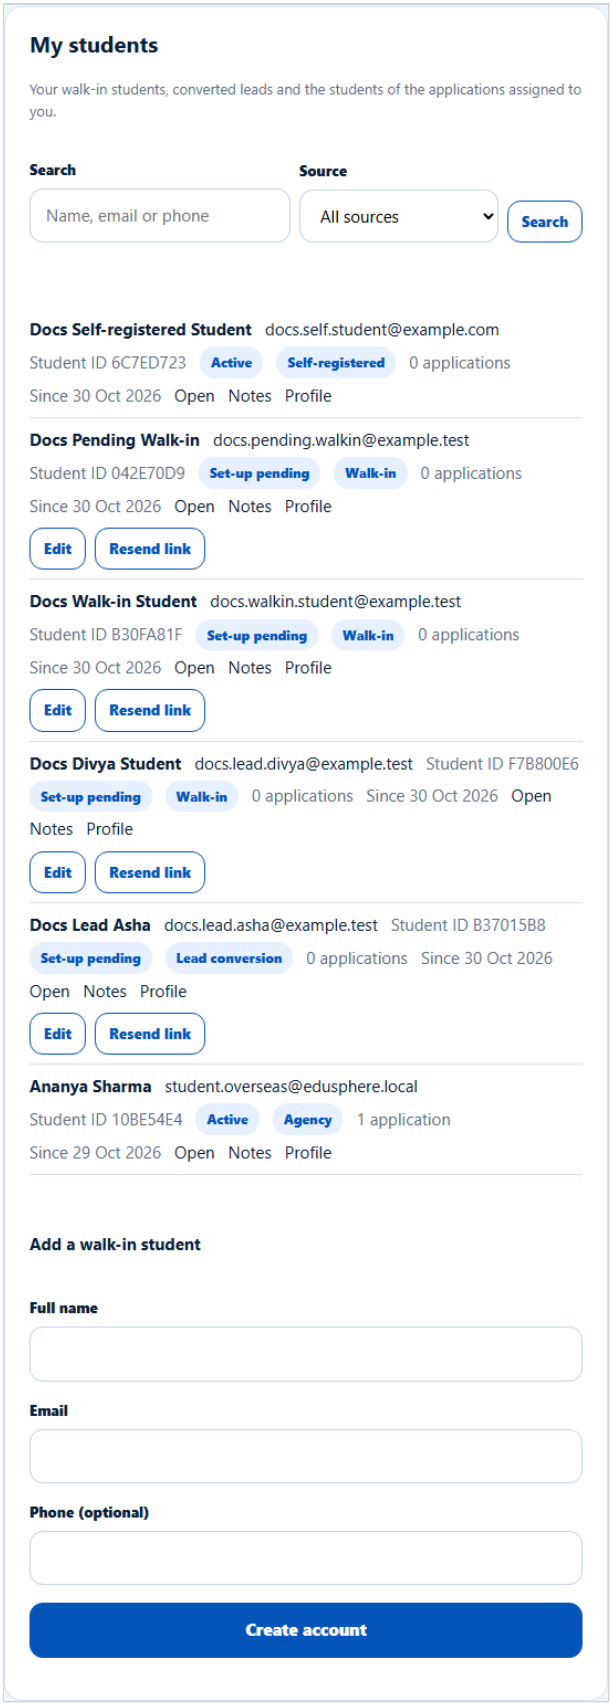

Message	When
No students yet. Add a walk-in student below.	No students
No students match these filters.	Filters exclude everyone
Unable to load your students. (Retry)	Loading failed

Common Errors

Problem: A student shows more applications than you handle. **Cause:** The count includes all of the student's applications, including other counselors'.

Tips

- After the Overseas Admin assigns a student to you, they appear here with their source.

Related Features

- Add a walk-in student
- Student 360
- When a student is reassigned to you

Add a walk-in student, edit a pending one, resend the link

> Doc ID: DOC-CNS-STU-003 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Give a student who visits the office their own EduSphere account straight away, linked to you.

Who Can Use This Feature

Overseas counselors.

Prerequisites

The student's email isn't used by another EduSphere account.

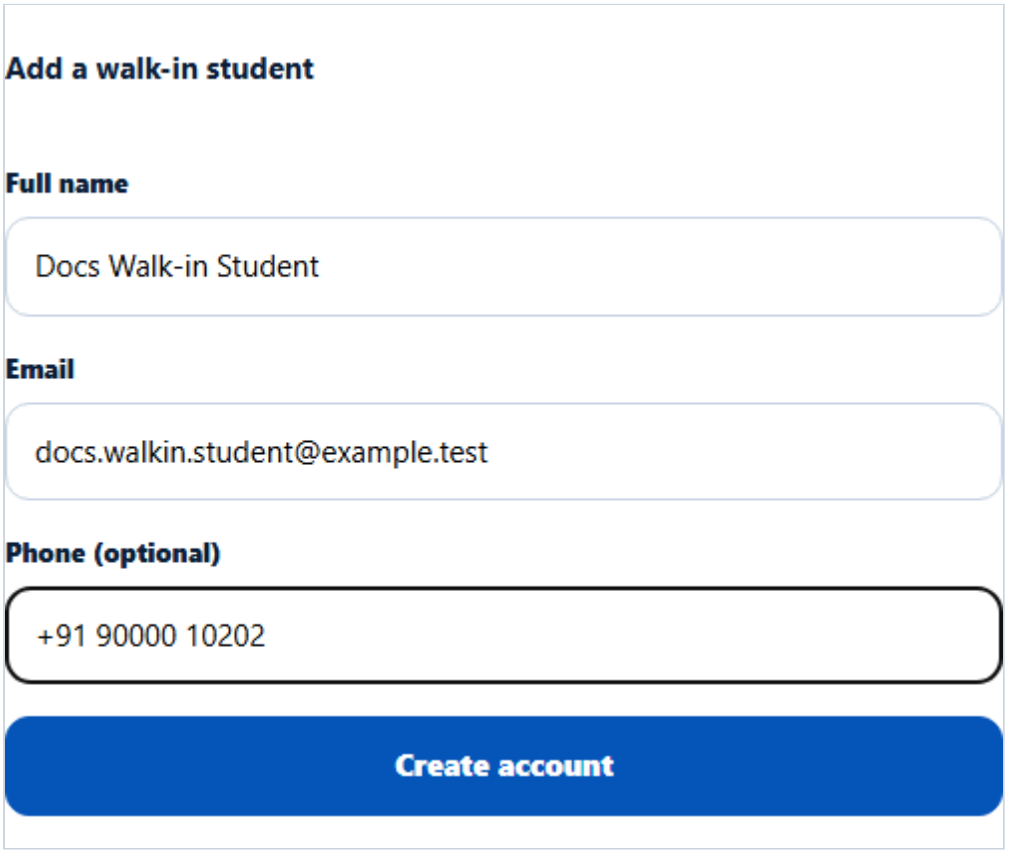

How to Access

Sidebar **Students** → **My students** → **Add a walk-in student**.

Steps

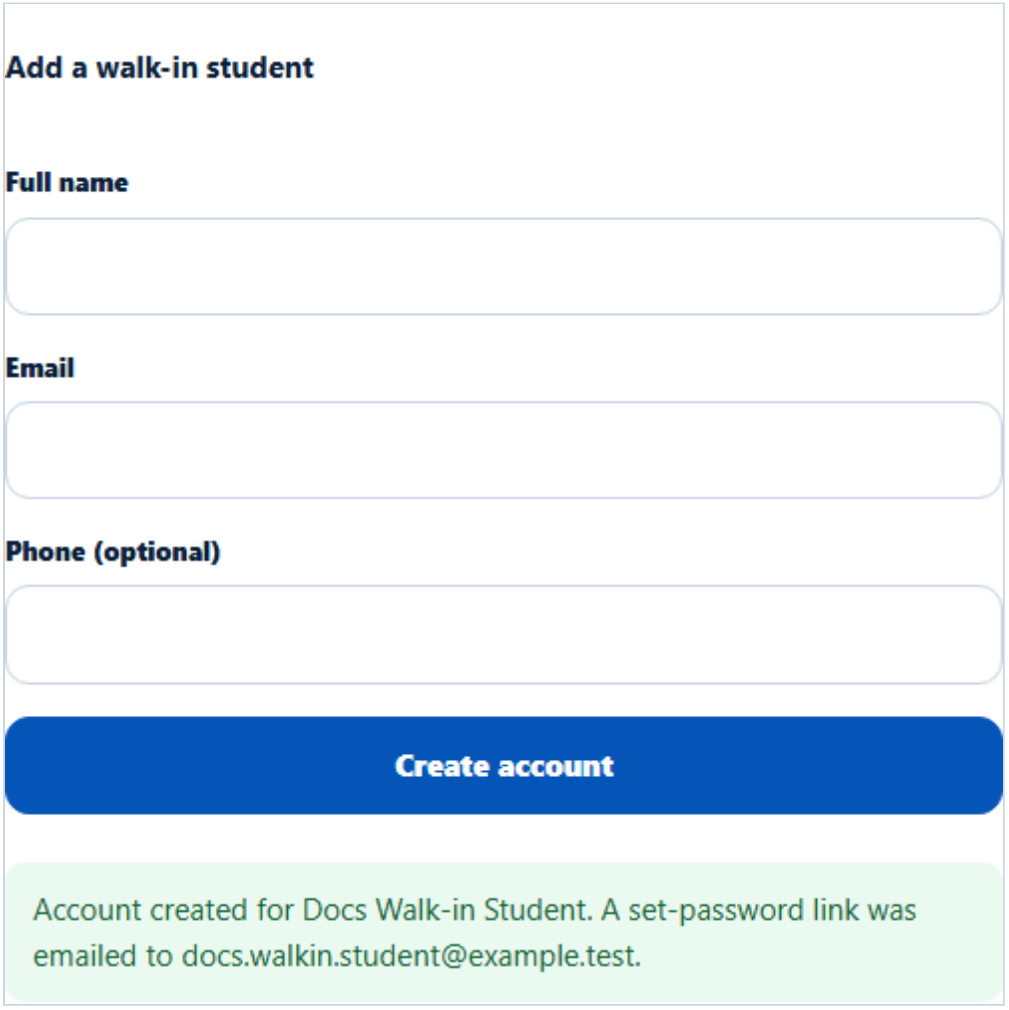

Step 1 — Fill in the student

Enter **Full name**, **Email** and **Phone (optional)**.

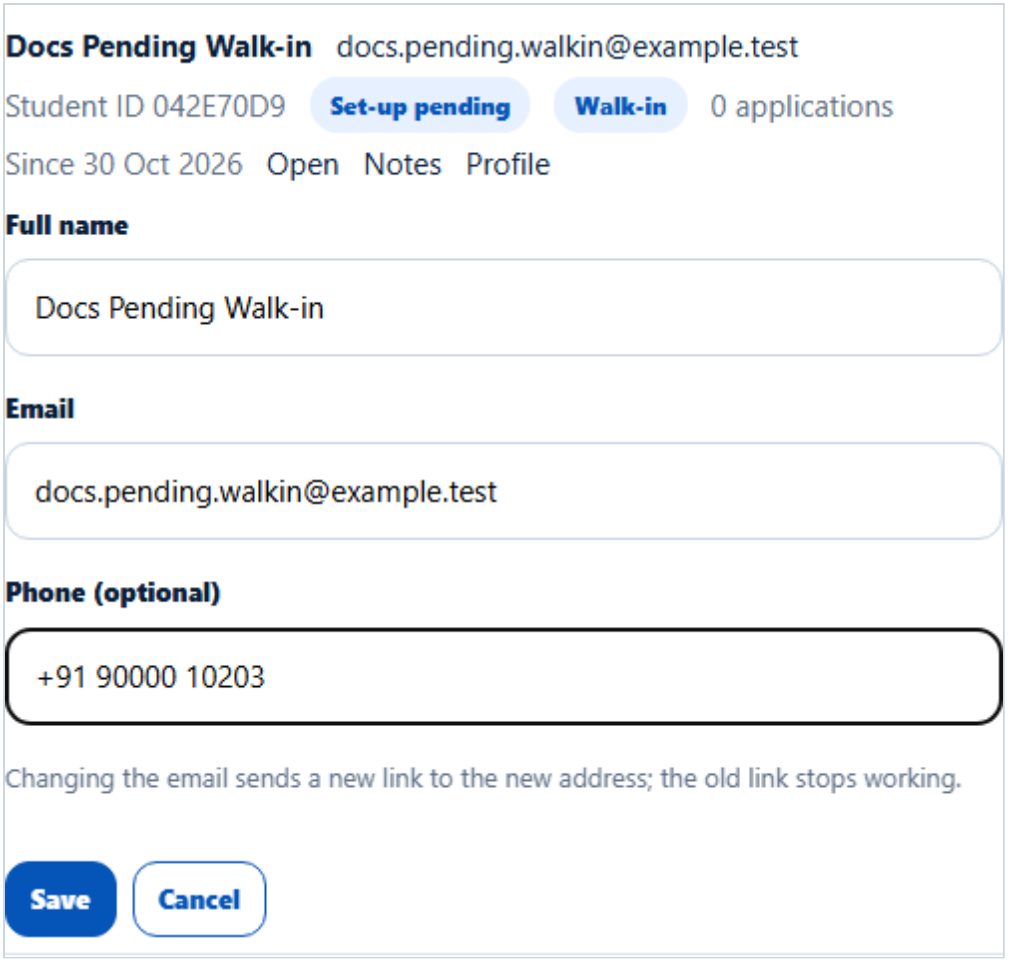

Step 2 — Create the account

Select **Create account**. **Account created for {name}. A set-password link was emailed to {email}.** appears. The student shows in **My students** with **Set-up pending** and source **Walk-in**.

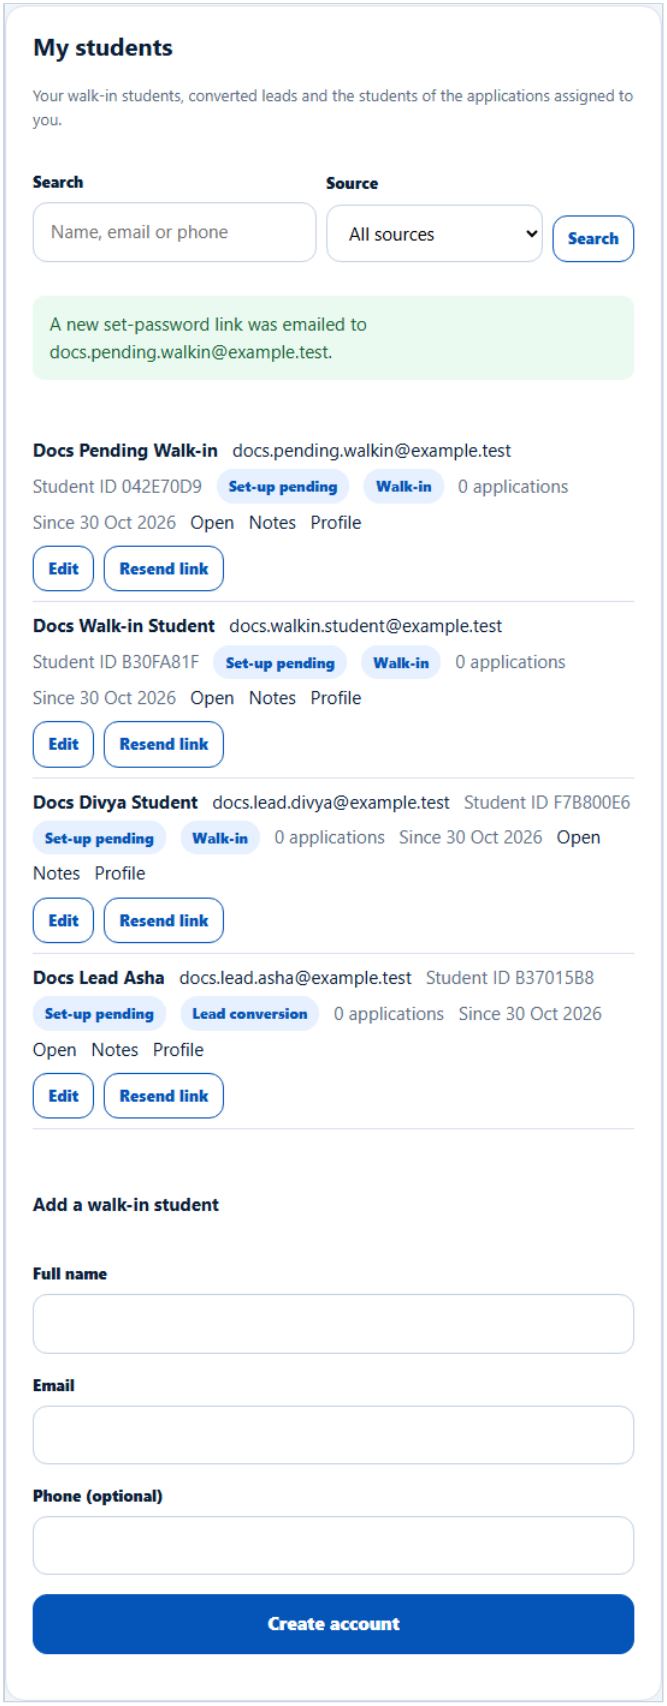

Step 3 — Correct a pending student

While a student is **Set-up pending**, select **Edit** on their row to change **Full name**, **Email** or **Phone (optional)**, then **Save**. “{name} updated.” appears. Changing the email sends a new link to the new address, and the old link stops working.

Step 4 — Resend the link

Select **Resend link**. **A new set-password link was emailed to {email}.** appears. You can resend once a minute.

Fields

Field	Description	Required	Example
Full name	Up to 160 characters	Yes	Docs Walk-in Student
Email	The student's sign-in email	Yes	docs.walkin.student@example.test

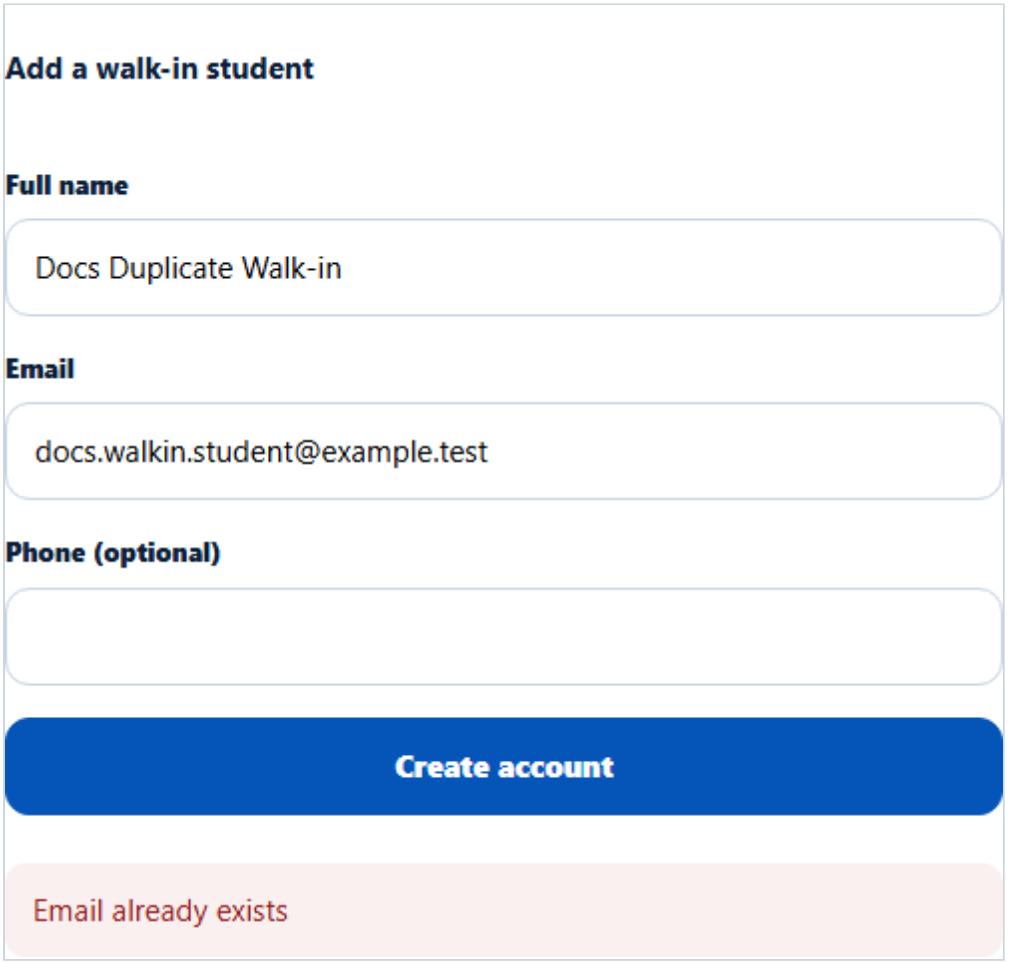

Field	Description	Required	Example
Phone (optional)	Mobile number	No	+91 90000 10202

Expected Result

The student receives a welcome email with a 72-hour set-password link and is linked to you as their counselor.

Validation Messages

Message	When
Account created for {name}. A set-password link was emailed to {email}.	Success
Account created for {name}, but the set-password email was not delivered.	Email failed; use **Resend link**
Email already exists	Another account uses the email
A link was just sent; wait {n} seconds before re-sending	Resent less than a minute ago
You have sent 20 account emails in the last 24 hours. Try again later.	Daily limit for creates, resends and email changes
This student has already set a password	Too late to edit or resend

Email already exists

Common Errors

Problem: “Email already exists”. **Cause:** The student already has an account (for example they registered online). **Resolution:** Ask the Overseas Admin to assign that student to you instead.

Tips

- To turn a walk-in into a lead you can track through counselling, use Record a new walk-in lead. Use this page when they need an account now.

- Link an existing student to a lead

Student 360: header, tabs and Overview

> Doc ID: DOC-CNS-STU-004 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor, Overseas Admin

Purpose

See one student's whole picture: contact, journey stage, applications, consent and next actions.

Who Can Use This Feature

- **Counselor**: students in your caseload.
- **Overseas Admin**: every student.

Prerequisites

The student is one of yours.

How to Access

My students → **Open** (or **Open** in the Application Tracking table).

Steps

Step 1 — Read the header

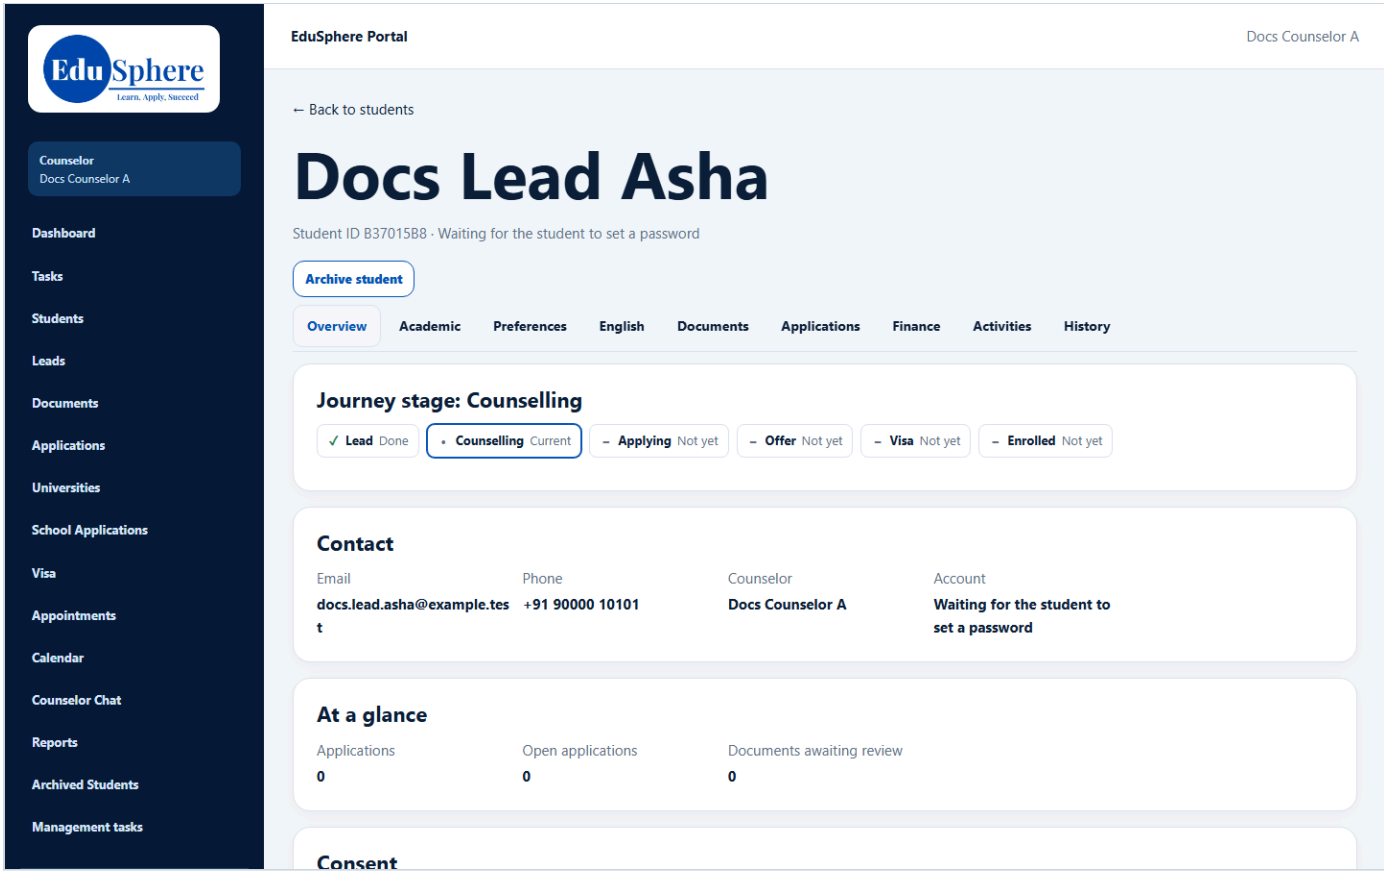

The header shows ← **Back to students**, the student's name, **Student ID** and account status. The account status is **Active**, **Waiting for the student to set a password**, **Set-password link expired** or **Deactivated**. **Archive student** is here too (see STU-008).

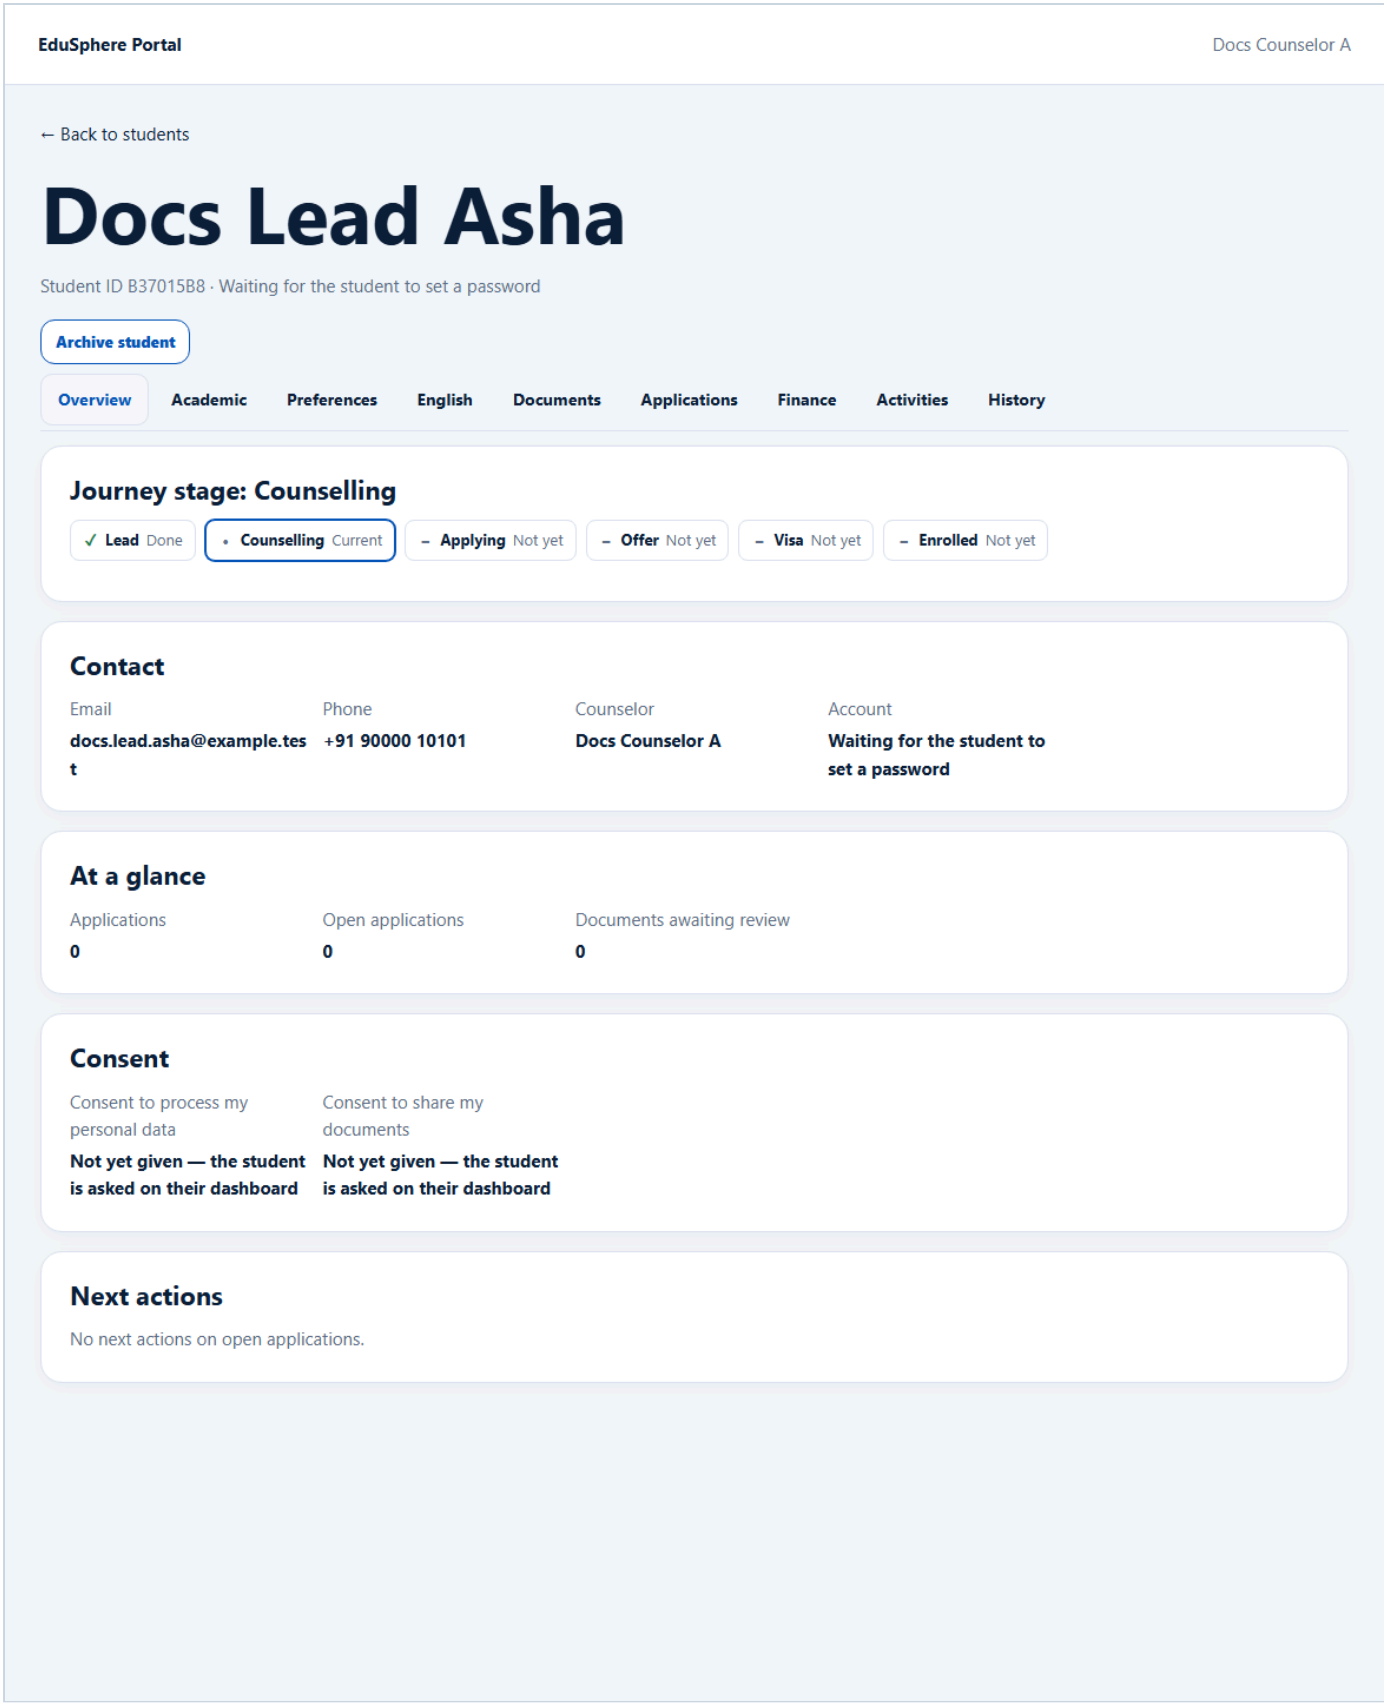

Step 2 — Use the tabs

Overview · Academic · Preferences · English · Documents · Applications · Finance · Activities · History. Each tab loads only when you open it.

Step 3 — Read the Overview

- **Journey stage:** Lead → Counselling → Applying → Offer → Visa → Enrolled, showing which are done or current.
- **Contact:** Email, Phone, Counselor and Account.
- **At a glance:** Applications, Open applications, Documents awaiting review.
- **Consent:** each consent with "Given {time}" or "Not yet given — the student is asked on their dashboard".
- **Next actions:** next actions on open applications.

You can see at a glance where the student is and what is next.

Validation Messages

Message	When
This section could not be loaded. Refresh the page to try again.	A tab failed to load

Common Errors

Problem: Counselor says “Not assigned” although you handle their application. **Cause:** The field shows only the student’s own counselor link (walk-in, conversion or admin assignment), not application counselors.

Problem: “Not found” when opening a student. **Cause:** The student is not in your caseload.

Tips

- Consent can only be given by the student, on their own dashboard.

Related Features

- Activities and History

Structured profile: Academic, Preferences, English

> Doc ID: DOC-CNS-STU-005 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor, Overseas Admin, Student

Purpose

Keep the student's personal details, academic history, study preferences and English tests in one structured profile. You and the student can both edit it.

Who Can Use This Feature

- **Counselor** (your students) and **Overseas Admin**.
- The **student**, from their own portal.

Prerequisites

None. A converted lead's qualification is copied in automatically.

How to Access

Student 360 → **Academic**, **Preferences** or **English** tab, or **Profile** (the whole form on one page).

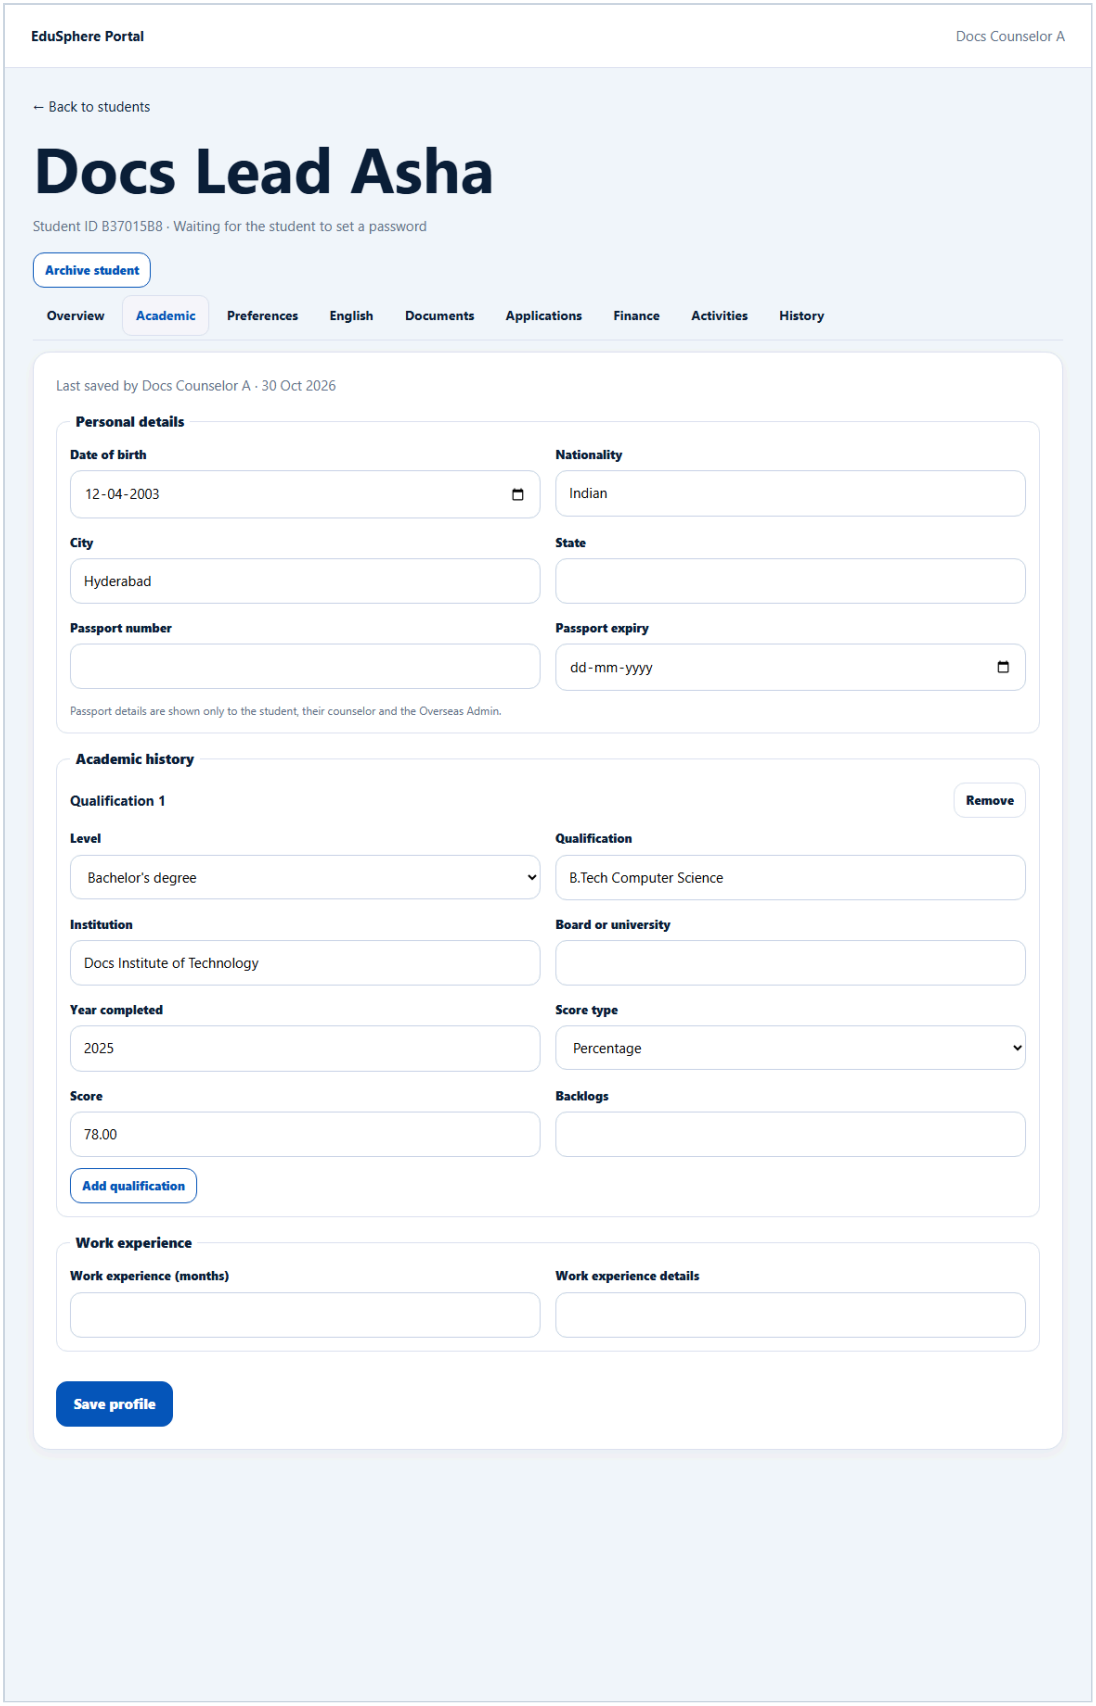

Steps

Step 1 — Academic

Fill **Personal details**: Date of birth, Nationality, City, State, Passport number and Passport expiry. Passport details are shown only to the student, their counselor and the Overseas Admin.

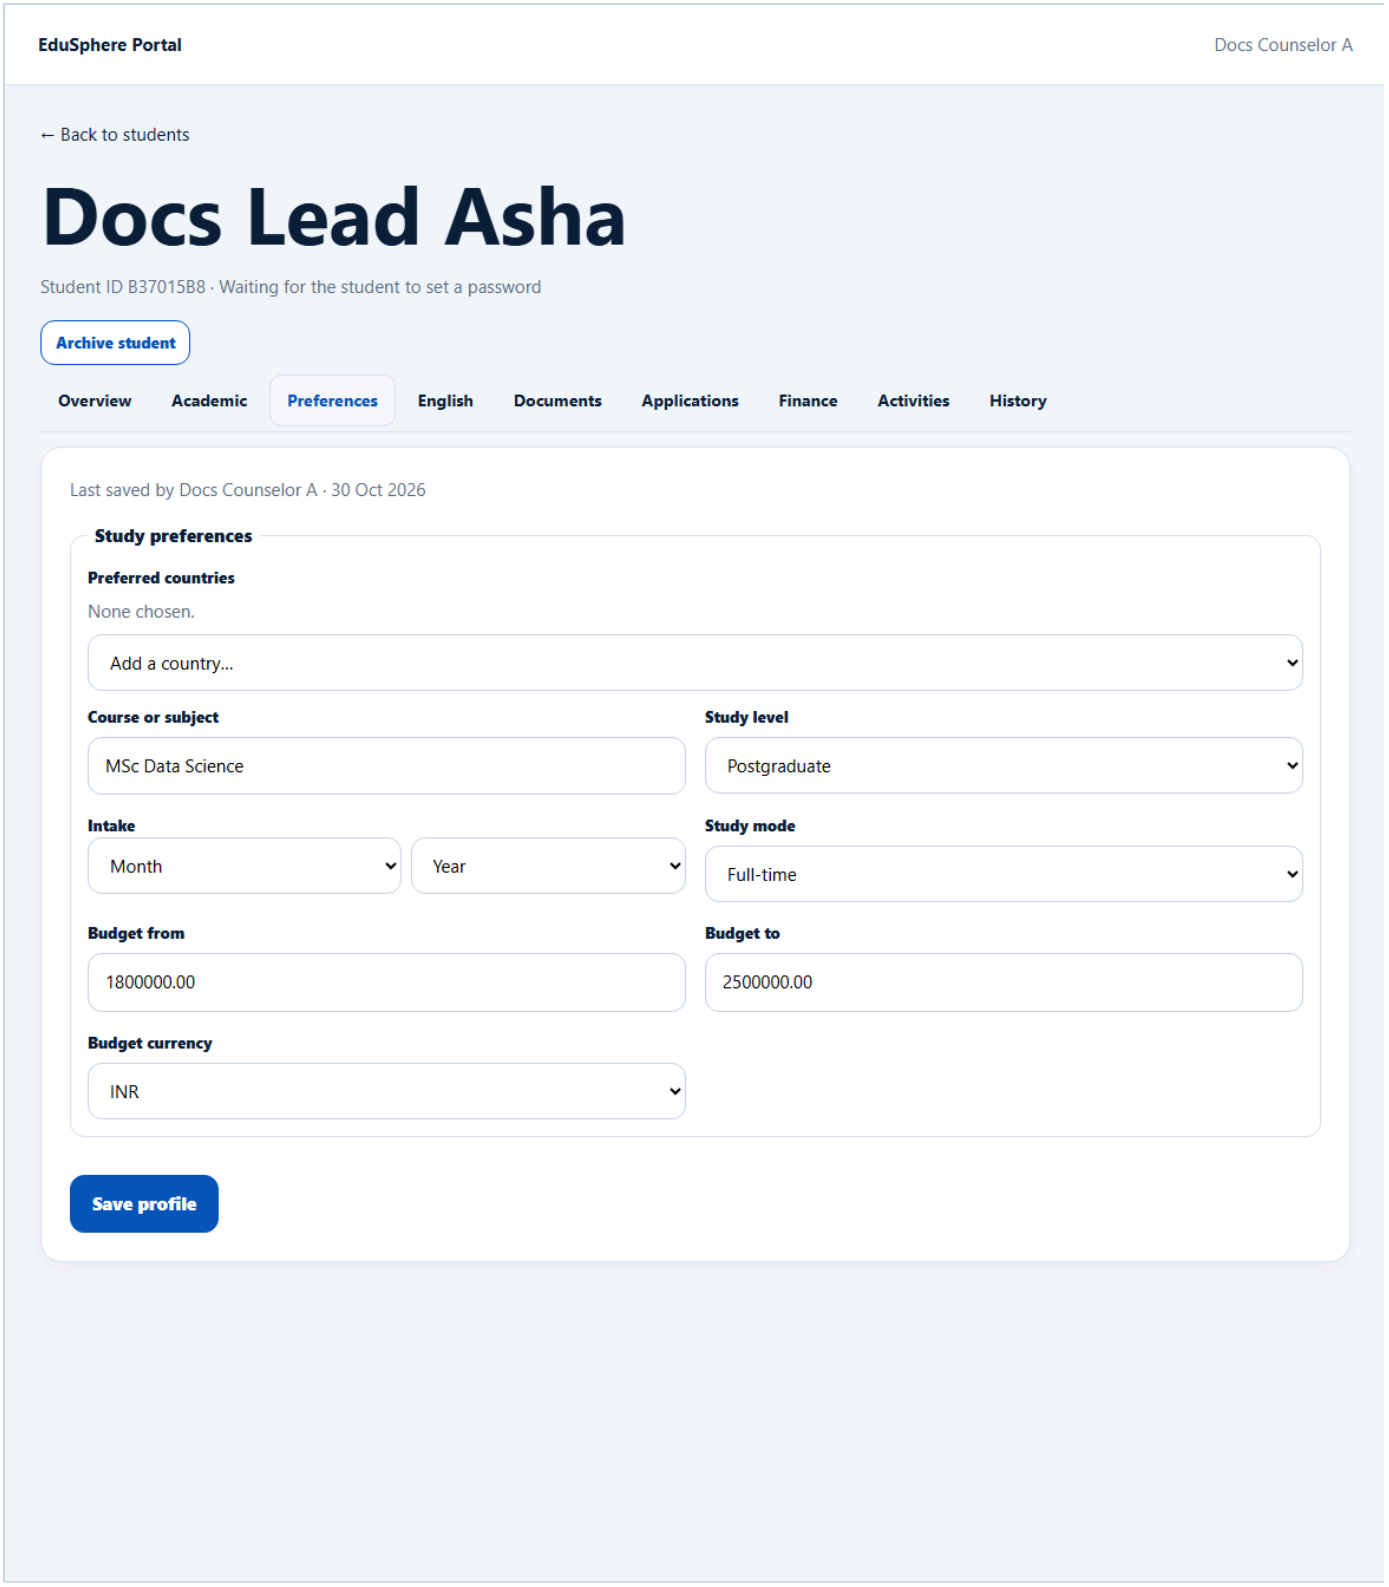

Under **Academic history**, each **Qualification** has Level, Qualification, Institution, Board or university, Year completed, Score type, Score and Backlogs. Use **Add qualification** and **Remove**.

Add **Work experience** (months and details). Select **Save profile**. **Profile saved.** appears with "Last saved by {name} · {date}".

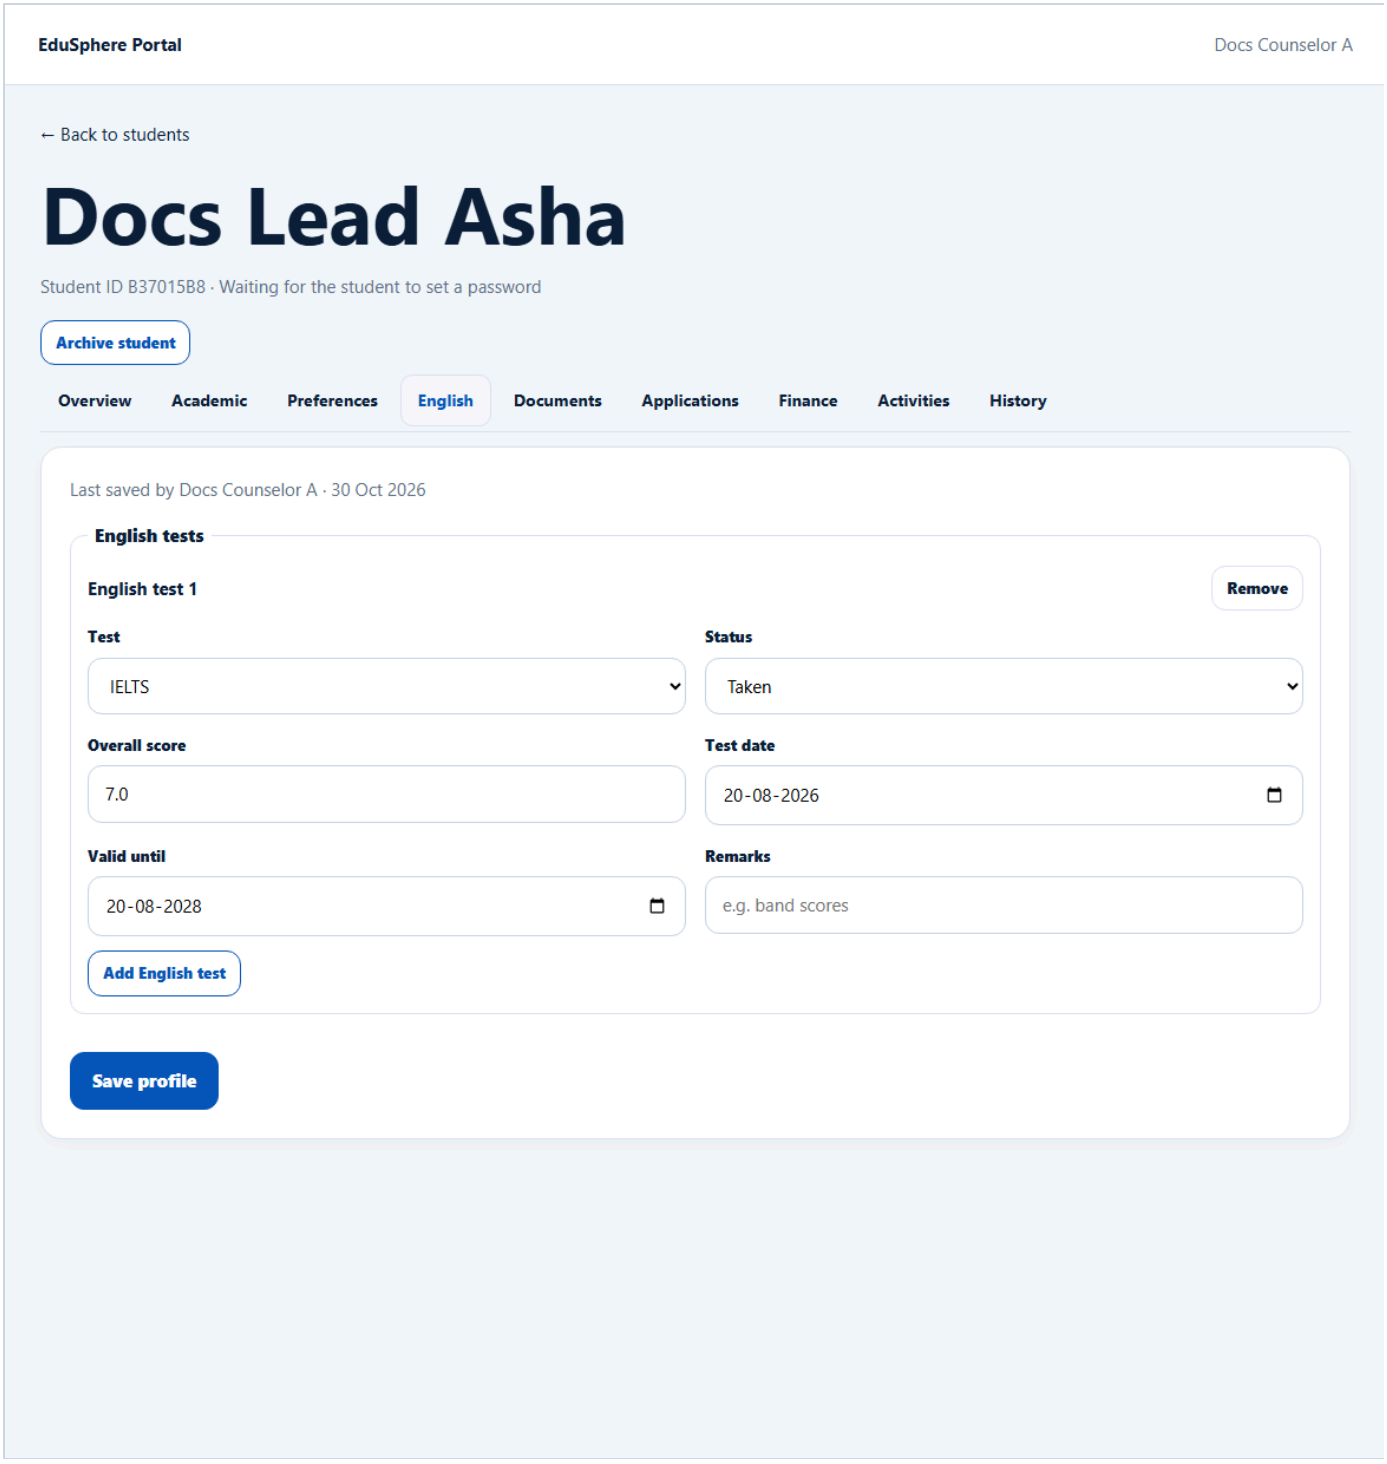

Step 2 — Preferences

Add up to 5 **Preferred countries**. Then fill **Course or subject**, **Study level**, **Intake** (month and year), **Study mode**, **Budget from** / **Budget to** and **Budget currency**. Select **Save profile**.

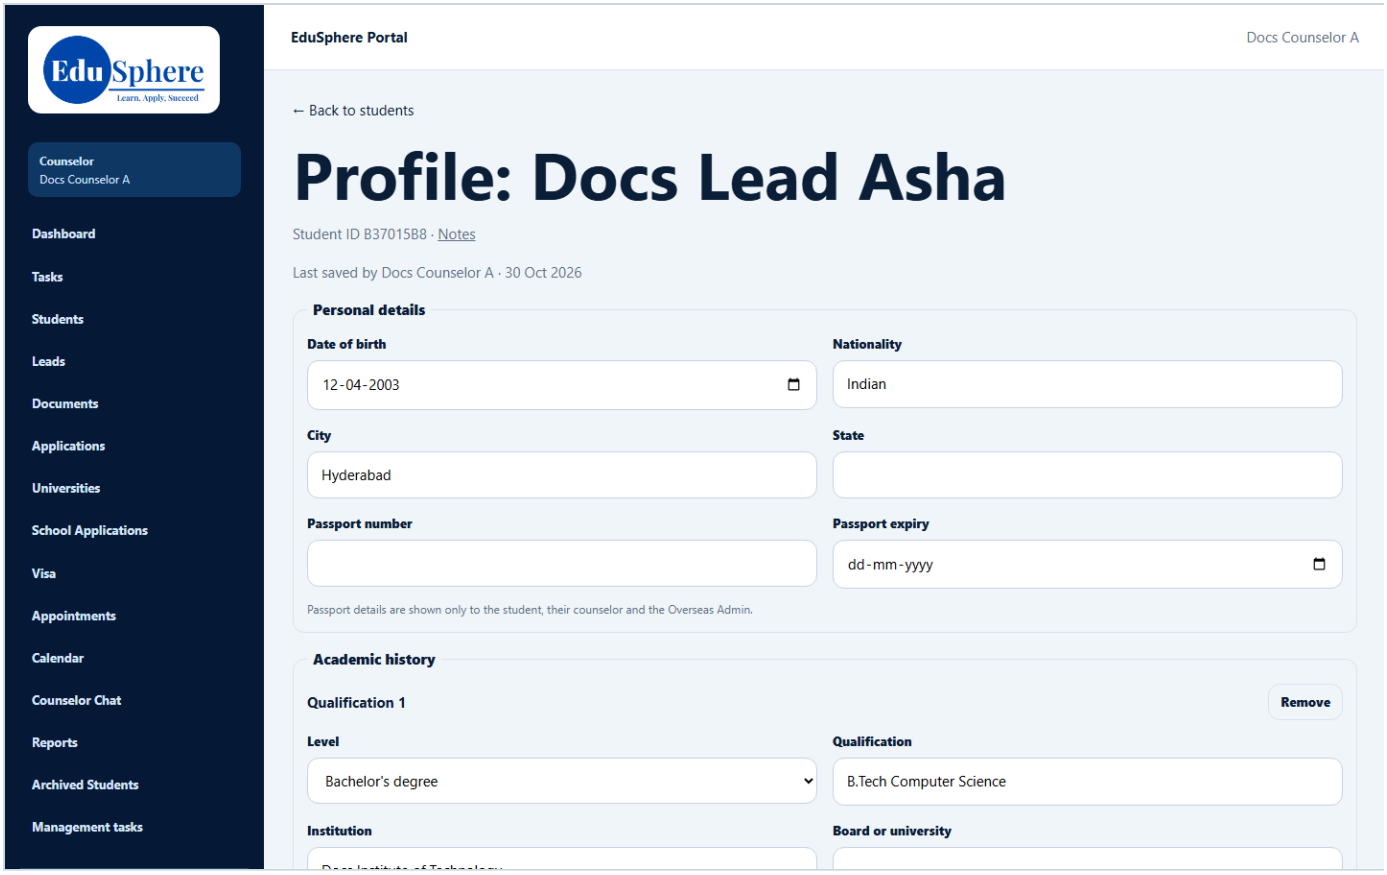

Step 3 — English

Select **Add English test** and choose the **Test** (IELTS, TOEFL, PTE, Duolingo, Other) and its **Status** (Not taken yet, Booked, Taken). Add the **Overall score**, **Test date**, **Valid until** and any **Remarks**, then **Save profile**. You can record up to 5 tests. A test whose validity has passed is marked **Expired**.

Step 4 — The Profile page

The **Profile** link opens the whole form on one page (“Profile: {name}”).

Fields

Field	Allowed values
Level	Class 10, Class 12, Diploma, Bachelor's degree, Master's degree, PhD, Other
Score type	Percentage, CGPA (out of 10)
Backlogs	0–99
Work experience (months)	0–600
Study level	Undergraduate, Postgraduate, PhD, Diploma, Foundation
Study mode	Full-time, Part-time, Online
Budget currency	INR, USD, GBP, EUR, CAD, AUD, NZD

Expected Result

Each save is recorded in the student's **History** ("Profile updated: {fields}").

Validation Messages

Message	When
Profile saved.	Success
Qualification 1 · Score: …	A field in a qualification is invalid
Choose a listed country	A country isn't in the list

Tips

- Remove empty qualification rows before saving.
- The intake chosen here is the student's preference; each application has its own intake.

Internal student notes

> Doc ID: DOC-CNS-STU-006 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor, Overseas Admin

Purpose

Keep the counselling history of a student: internal notes that the student and the agent never see.

Who Can Use This Feature

Overseas counselors (your students) and the Overseas Admin.

Prerequisites

None.

How to Access

My students → **Notes**, or Student 360 → **Activities** → **Notes**.

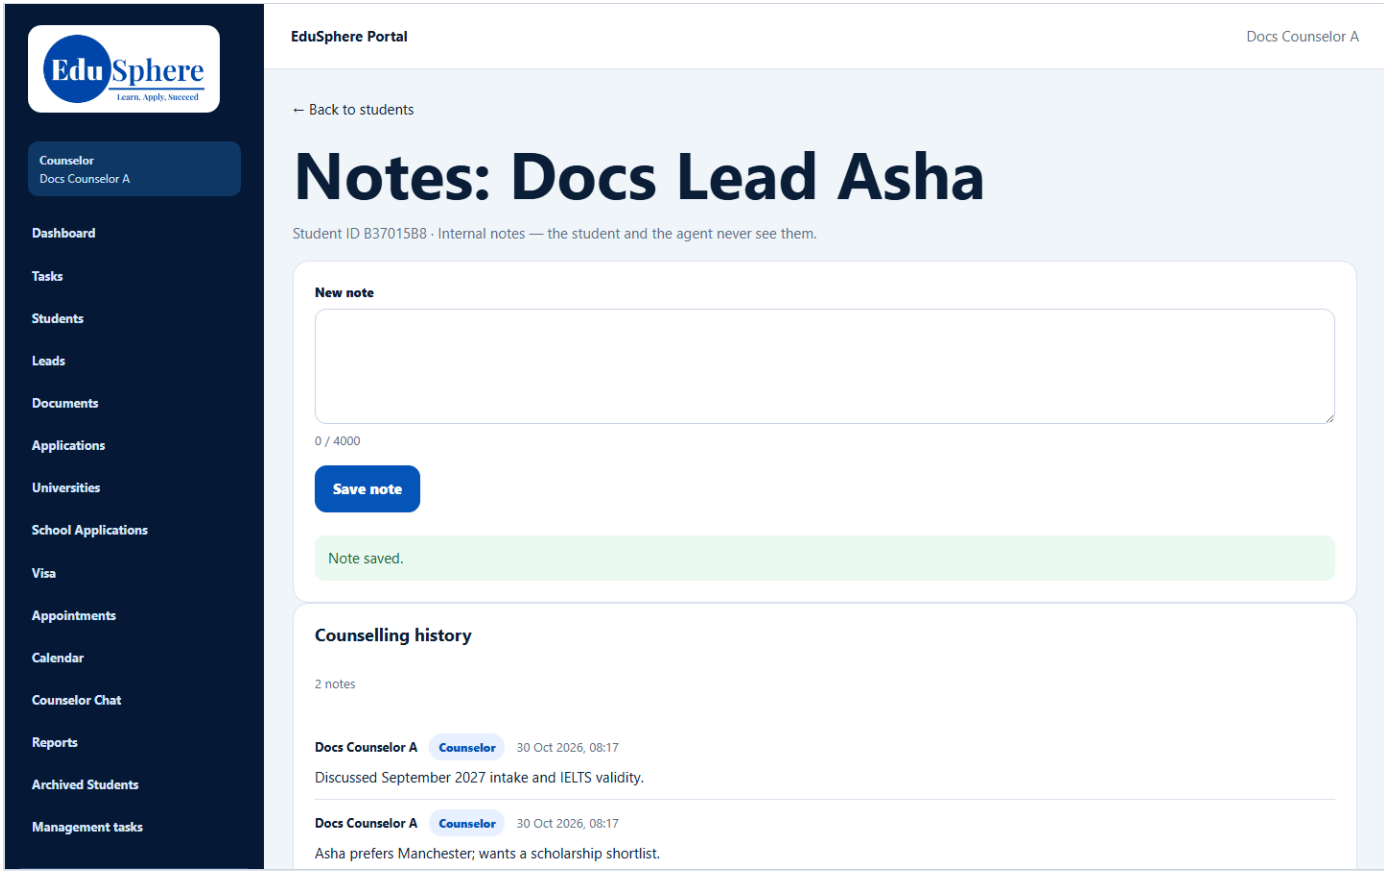

Steps

Step 1 — Write a note

On **Notes: {name}**, type in **New note** (up to 4000 characters). If the student has applications, you can tie the note to one in **About an application (optional)**.

Step 2 — Save

Select **Save note**. **Note saved.** appears and the note is added to **Counselling history**, newest first, with your name, role and time.

Fields

Field	Description	Required	Example
New note	Up to 4000 characters	Yes	Asha prefers Manchester; wants a scholarship shortlist.
About an application (optional)	The student in general, or one of their applications	No	—

Expected Result

Notes stay permanently; they can’t be edited or deleted.

Validation Messages

Message	When
Note saved.	Success
Write a note first.	Empty note
Choose one of this student’s applications	Invalid application

Tips

- Use **Load older notes** to see more than 20.

Related Features

- Lead notes

Activities and History tabs

> Doc ID: DOC-CNS-STU-007 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor, Overseas Admin

Purpose

See the student's notes, appointments, linked leads and communication (**Activities**), and an audit trail of everything that changed (**History**).

Who Can Use This Feature

Overseas counselors (your students) and the Overseas Admin.

Prerequisites

None.

How to Access

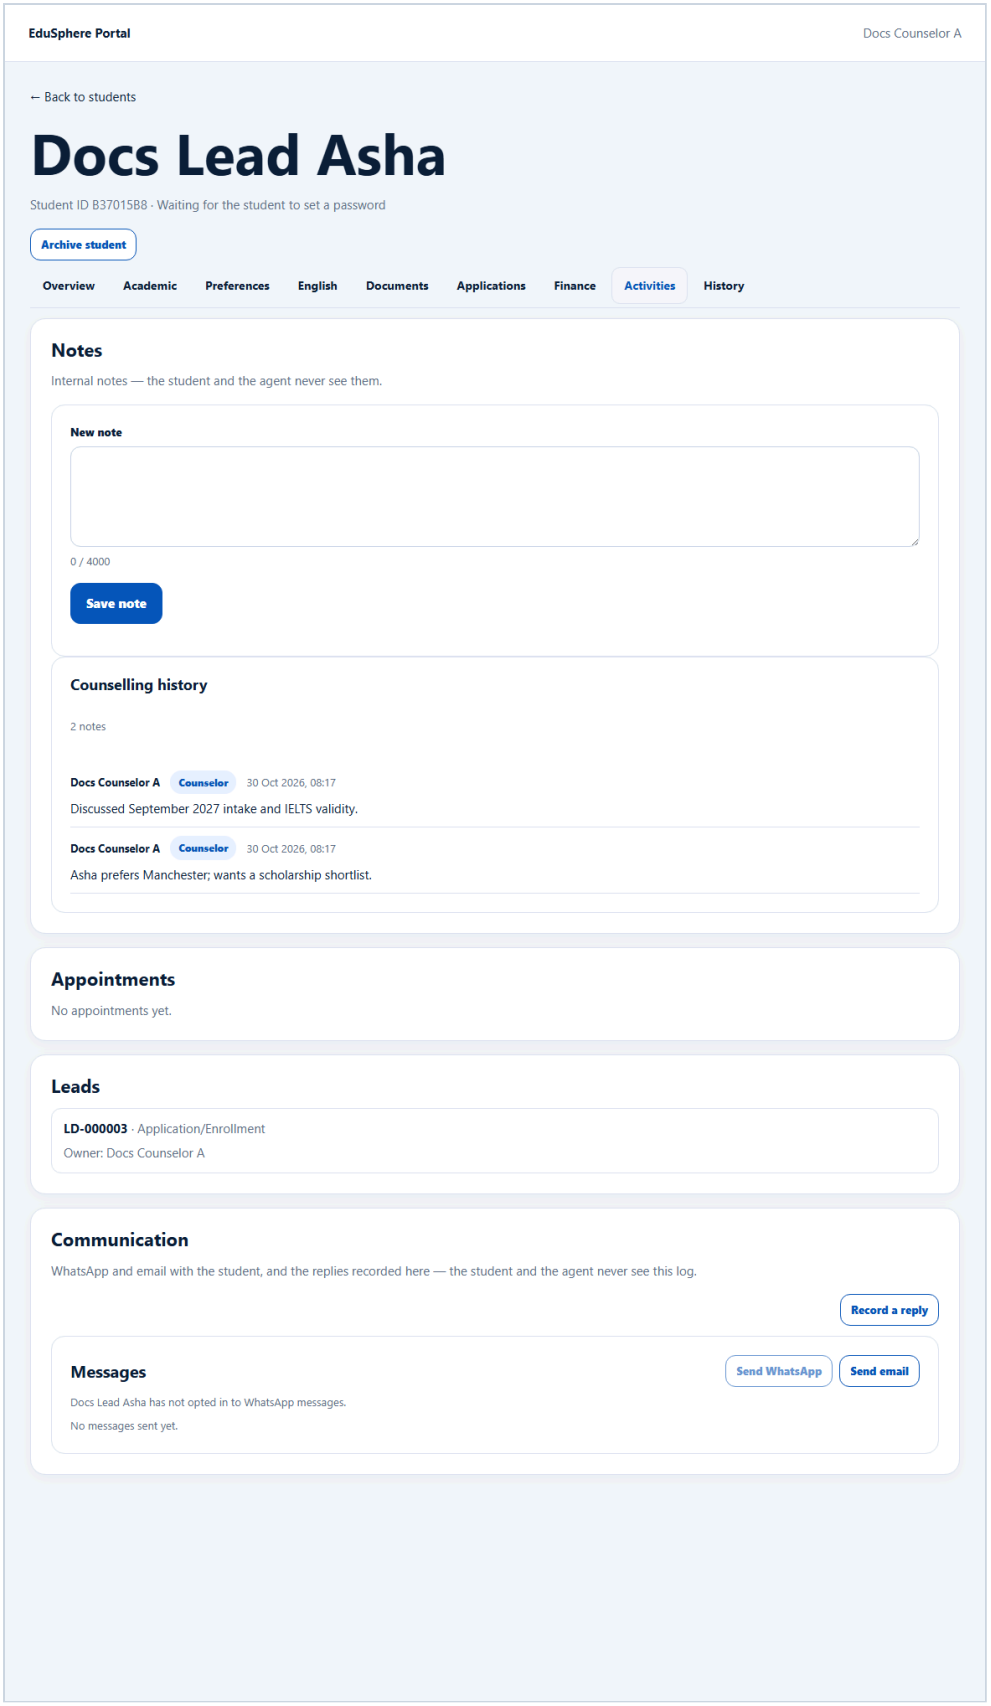

Student 360 → **Activities** or **History**.

Steps

Step 1 — Activities

The cards on this tab:

- **Notes**: see Internal student notes.
- **Appointments**: the student's appointments ("No appointments yet.").
- **Leads**: the linked lead, its stage and owner.
- **Communication**: WhatsApp and email with the student, plus replies you record (**Record a reply**, **Send WhatsApp**, **Send email**). The student and the agent never see this log. WhatsApp is available only if the student has opted in.

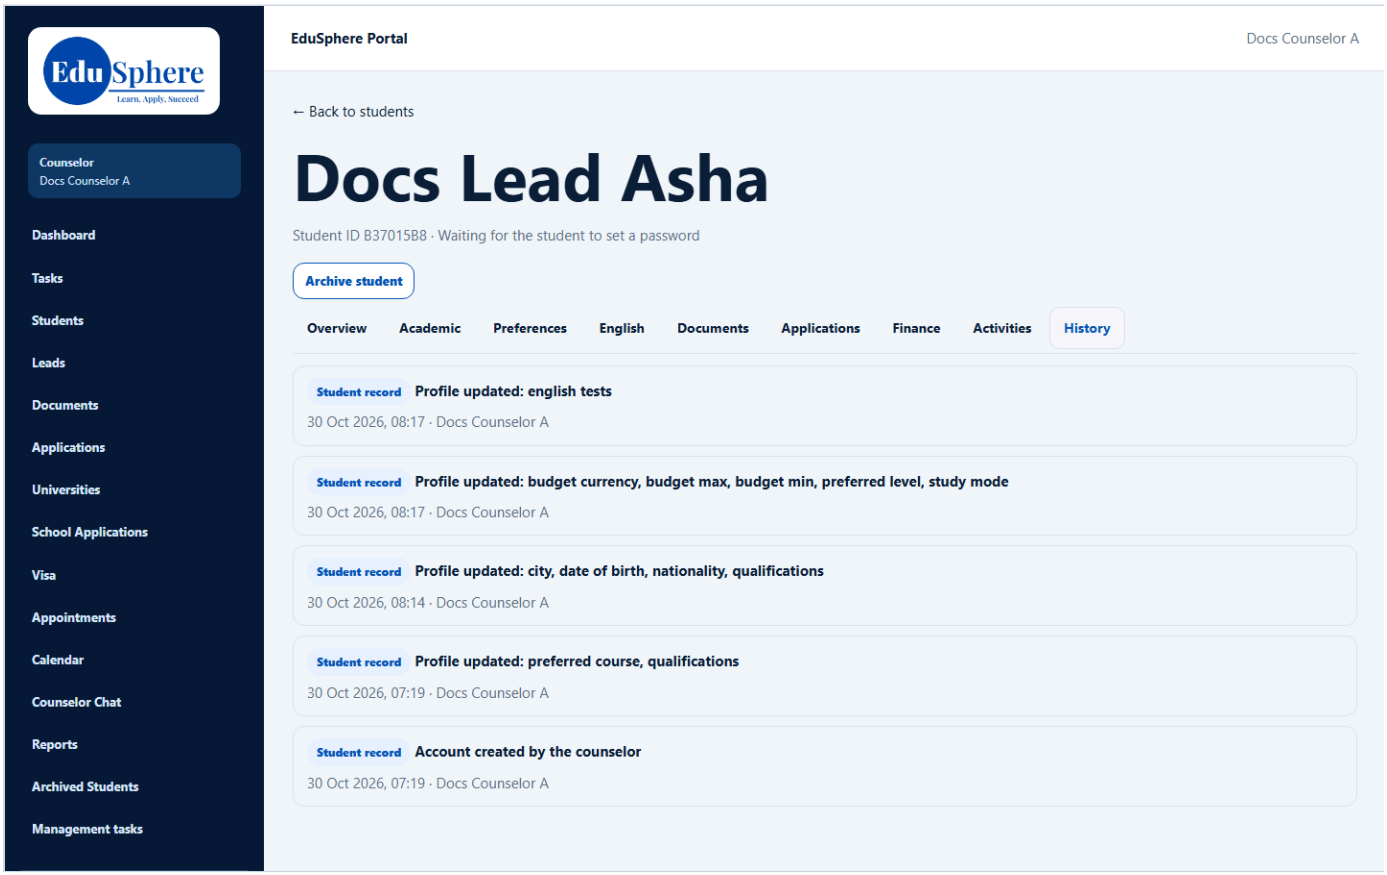

Activities tab

Step 2 — History

History lists changes newest first (up to 200), each tagged **Application**, **Student record** or **Document**. Examples:

- “Account created by the counselor”.

- “Profile updated: {fields}”.
- “Counselor assigned” with its reason.
- Stage, sub-status and outcome changes.
- Uploads and reviews.

History tab

Expected Result

You can see who did what and when.

Validation Messages

Message	When
Nothing has been recorded yet.	Empty history

Related Features

- Internal student notes

Archive a student / Archived students

> Doc ID: DOC-CNS-STU-008 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor, Overseas Admin

Purpose

Hide a student whose work is finished, so your lists only show students you are still helping. Nothing is deleted.

Who Can Use This Feature

- **Counselor:** students linked to you (walk-ins you added, leads you converted, students the Overseas Admin assigned to you).
- **Overseas Admin:** any student; only the Overseas Admin can restore (see Restore *(see the Administrator Manual)*).

Prerequisites

All the student's applications are closed or enrolled.

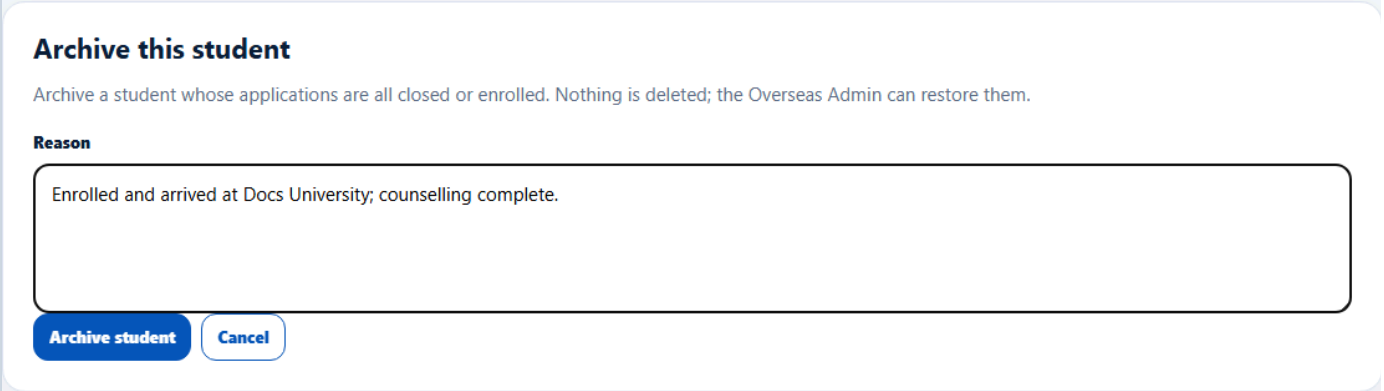

How to Access

Student 360 → **Archive student** (under the student's name).

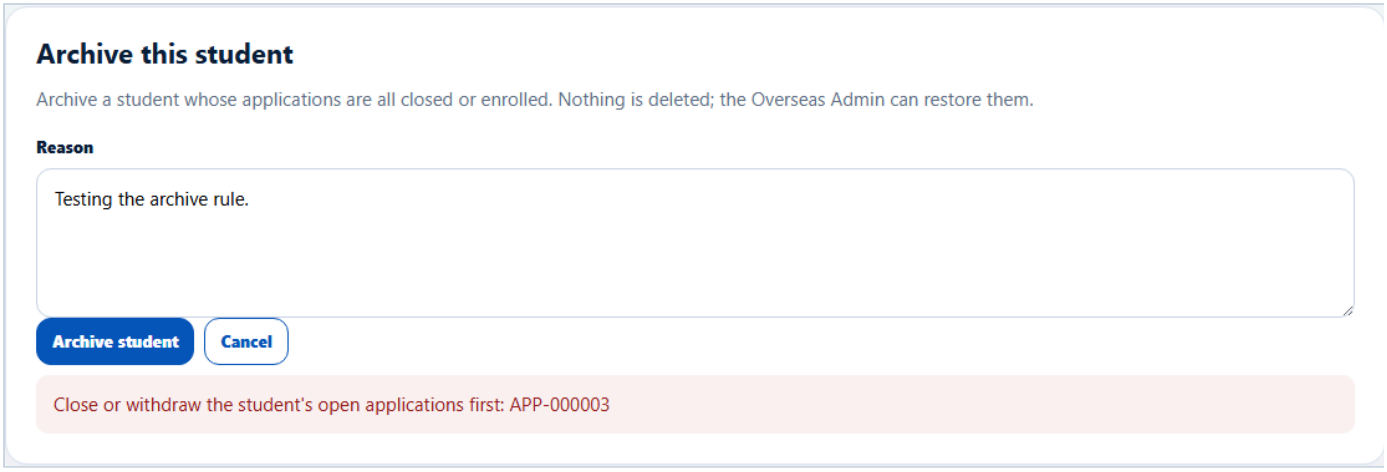

Steps

Step 1 — Give a reason

Select **Archive student**. The panel says "Archive a student whose applications are all closed or enrolled. Nothing is deleted; the Overseas Admin can restore them." Enter the **Reason** and select **Archive student**.

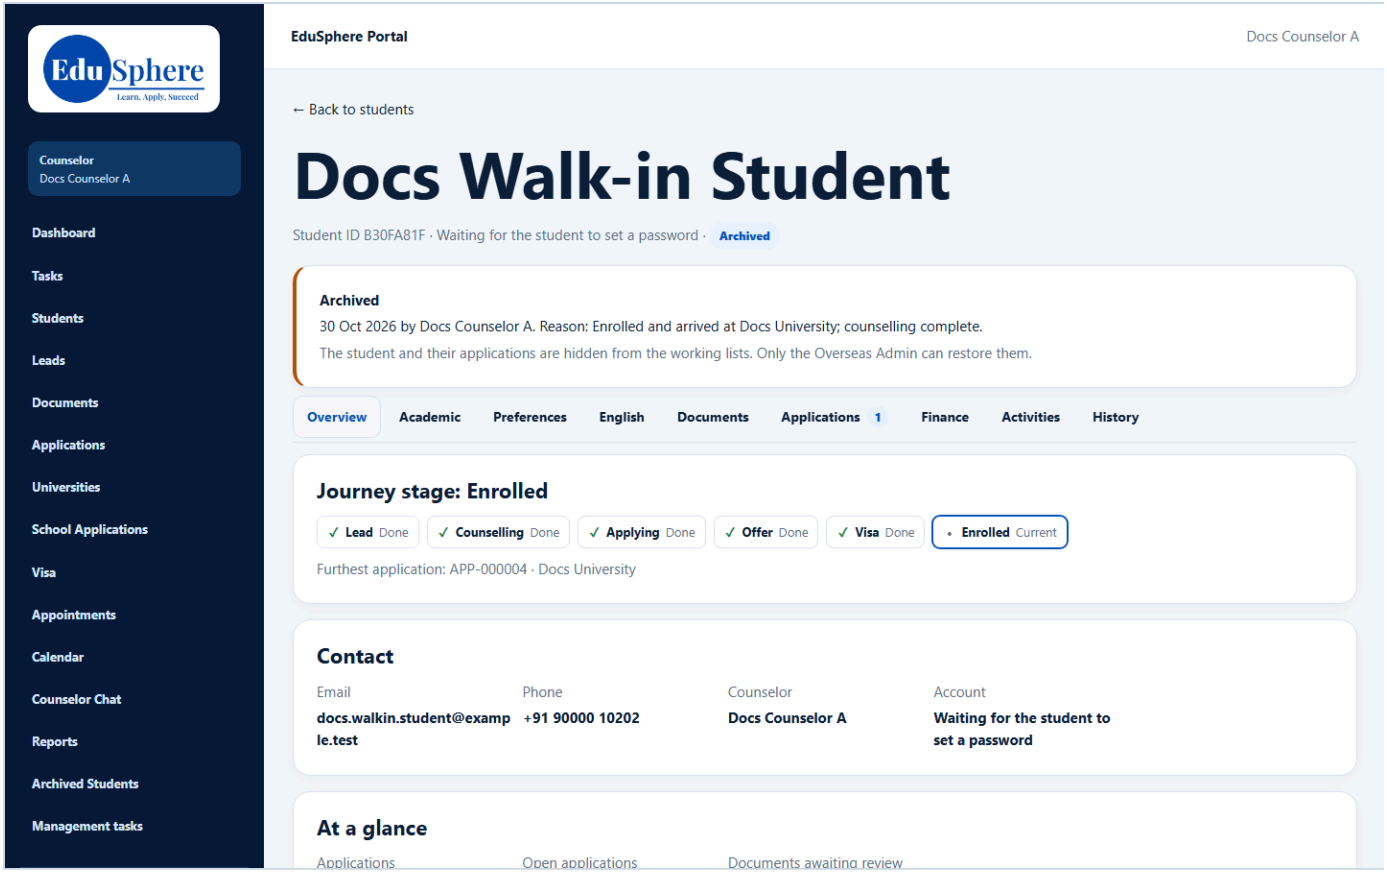

If an application is still open, the archive is refused: "Close or withdraw the student's open applications first: {EduSphere IDs}".

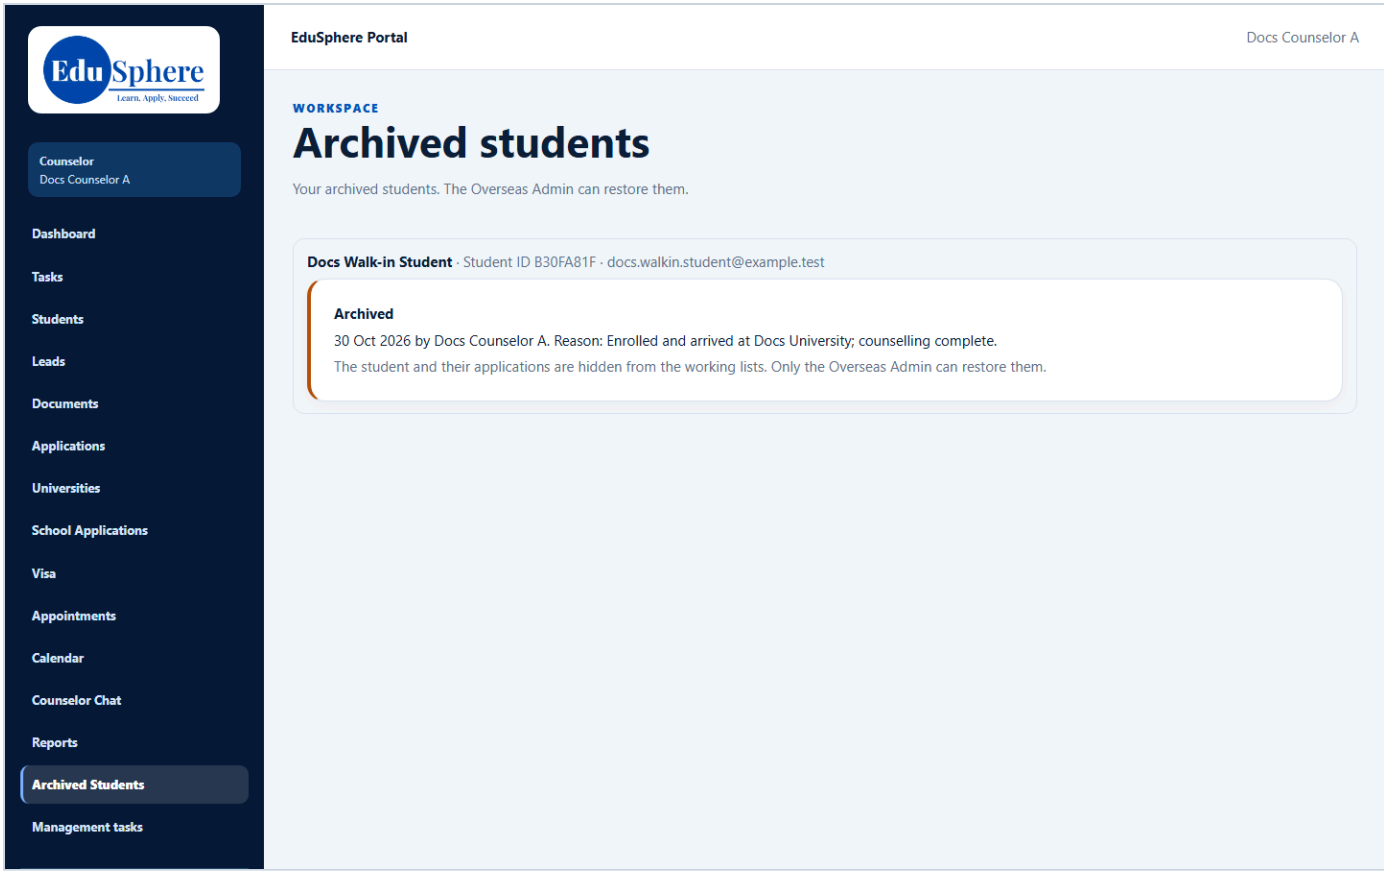

Step 2 — The archived student

The 360 shows an **Archived** badge and a banner: “Archived — {date} by {name}. Reason: … The student and their applications are hidden from the working lists. Only the Overseas Admin can restore them.” **Add application** and **Upload a document** are no longer offered.

Step 3 — Archived Students

Sidebar **Archived Students** (page **Archived students**) lists your archived students with their Student ID, email and the archive banner. Select a name to open their 360.

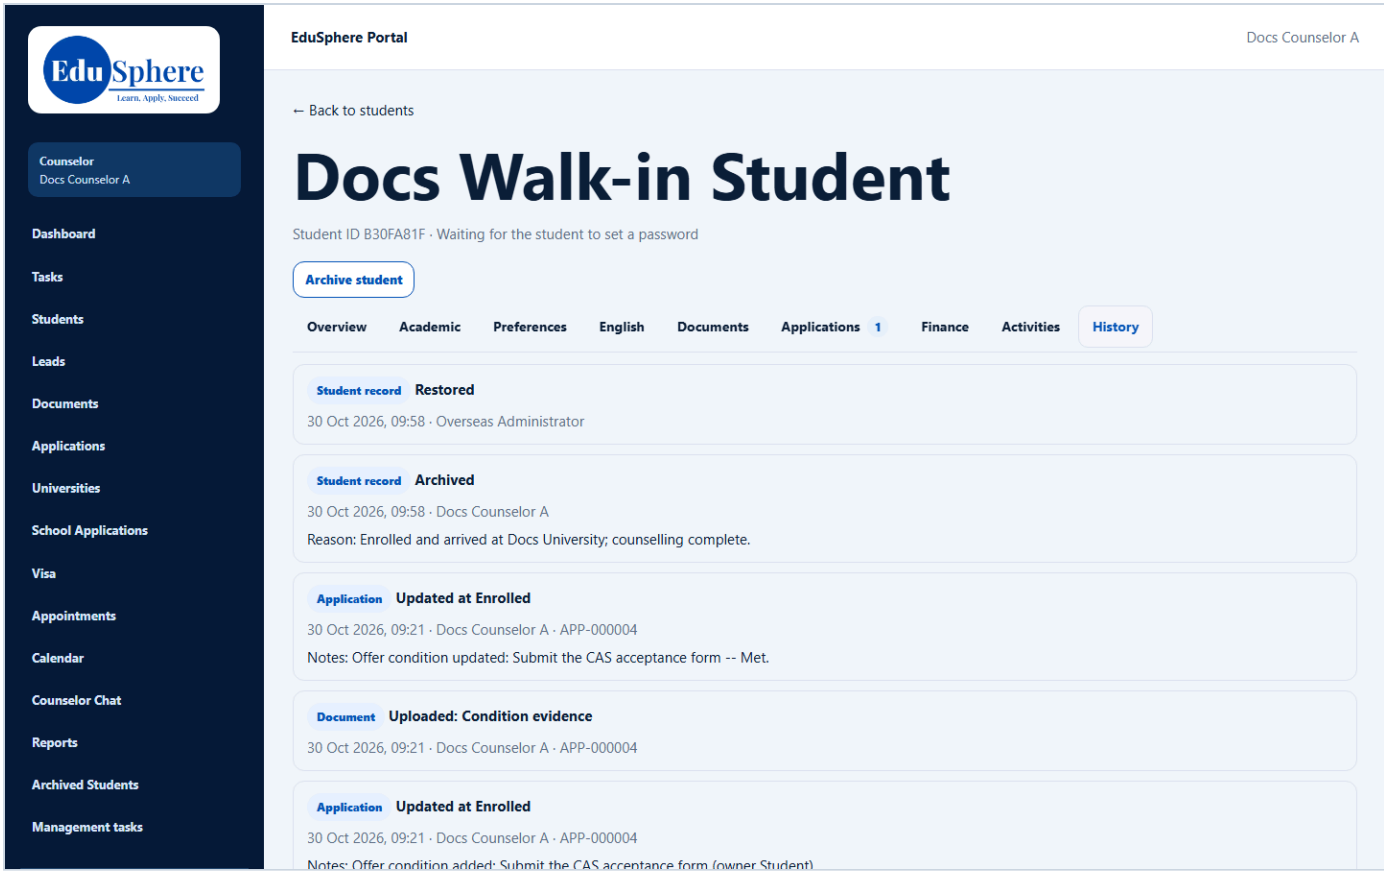

Fields

Field	Description	Required	Example
Reason	3–500 characters	Yes	Enrolled and arrived at Docs University; counselling complete.

Expected Result

The student and their applications leave **My students**, **Application Tracking** and the dashboard. The archive and any restore are recorded in **History**.

Validation Messages

Message	When
Give a reason of at least 3 characters.	Reason too short
Close or withdraw the student's open applications first: APP-…	Open applications
Only the student's counselor or the Overseas Admin can archive this student	You handle only one of their applications
This student is already archived	Already archived

Common Errors

Problem: You can't archive a student you handle. **Cause:** You are only the counselor of one of their applications, not linked to the student. **Resolution:** Ask the Overseas Admin.

Problem: A student archived by the Admin isn't on your Archived Students page. **Cause:** The page lists only students linked to you.

Tips

- Document requests can still be sent to an archived student; check before you send one.

Related Features

- Archived students: restore (admin) *(see the Administrator Manual)*
- My students

Overseas consent

> Doc ID: DOC-CNS-STU-009 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Student, Counselor, Overseas Admin

Purpose

Check that a student has agreed to how EduSphere processes their data and shares their documents, before working on their applications.

Who Can Use This Feature

- **Student:** gives consent on their own dashboard.
- **Counselor and Overseas Admin:** see it, read only. Nobody can consent on a student's behalf.

Prerequisites

The student has signed in at least once.

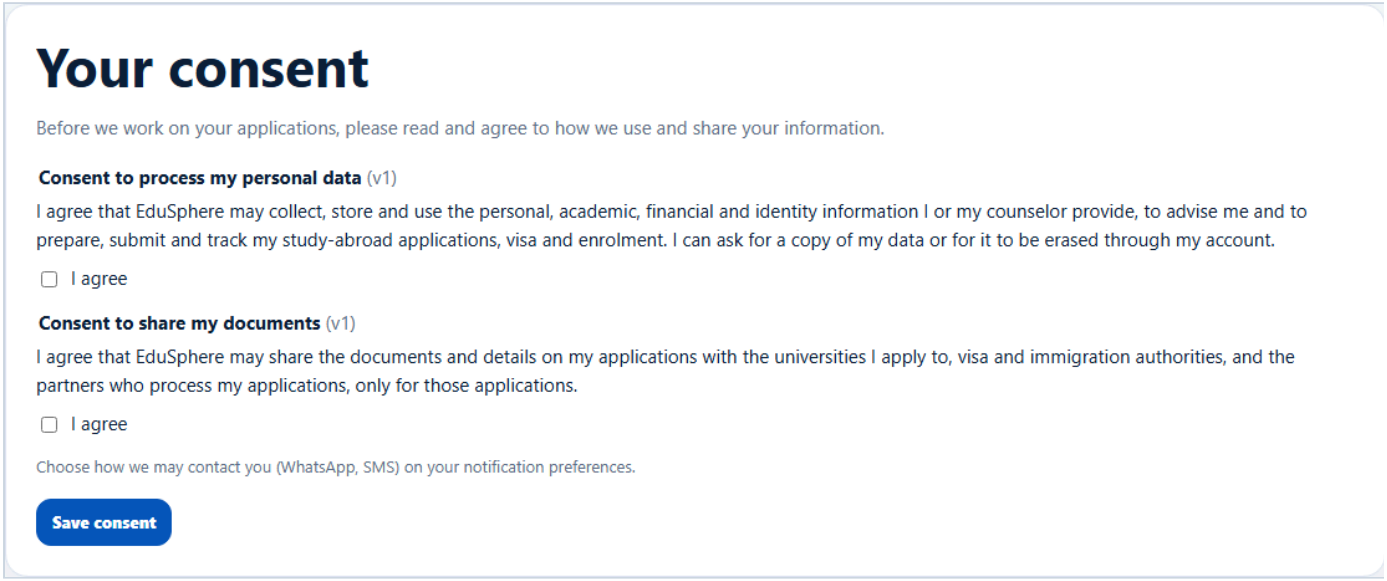

How to Access

- **Student:** their Overseas dashboard → **Your consent**.
- **Counselor:** Student 360 → **Overview** → **Consent**.

Steps

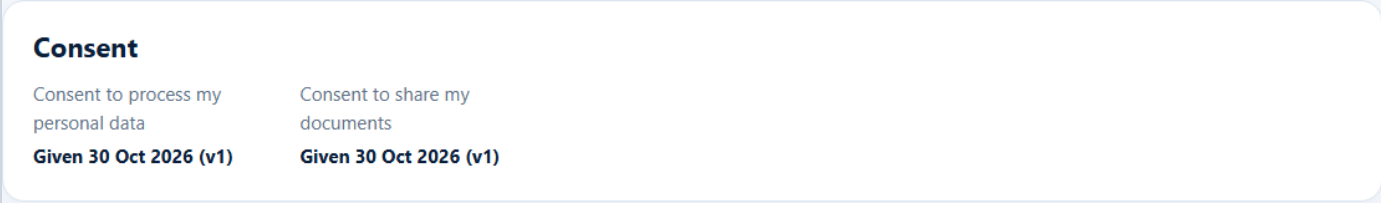

Step 1 — The student agrees

On their dashboard the student sees **Your consent**: "Before we work on your applications, please read and agree to how we use and share your information." There are two agreements, **Consent to process my personal data (v1)** and **Consent to share my documents (v1)**, each with **I agree**. The student ticks them and selects **Save consent**.

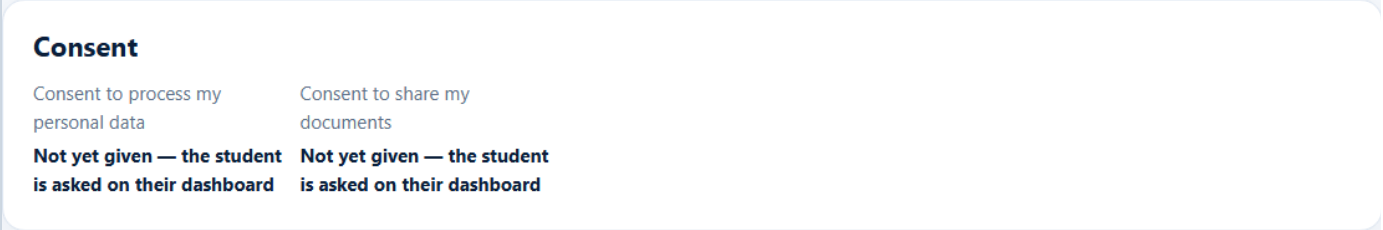

Step 2 — You check it

On the Student 360 Overview, **Consent** shows each agreement as "Given {date} (v1)".

Until then it shows "Not yet given — the student is asked on their dashboard".

Expected Result

The consent date and version are recorded.

Validation Messages

Message	When
No consent is requested at the moment.	No active agreement

Common Errors

Problem: The student hasn't given consent. **Cause:** They haven't signed in, or didn't save the card. **Resolution:** Ask them to sign in and save **Your consent**; you can't do it for them.

Related Features

- Student 360

When a student or application is reassigned to you

> Doc ID: DOC-CNS-STU-010 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Know what changes for you when the Overseas Admin moves a student or an application between counselors.

Who Can Use This Feature

Overseas counselors. The Overseas Admin makes the change (see admin guide *(see the Administrator Manual)*).

Prerequisites

None.

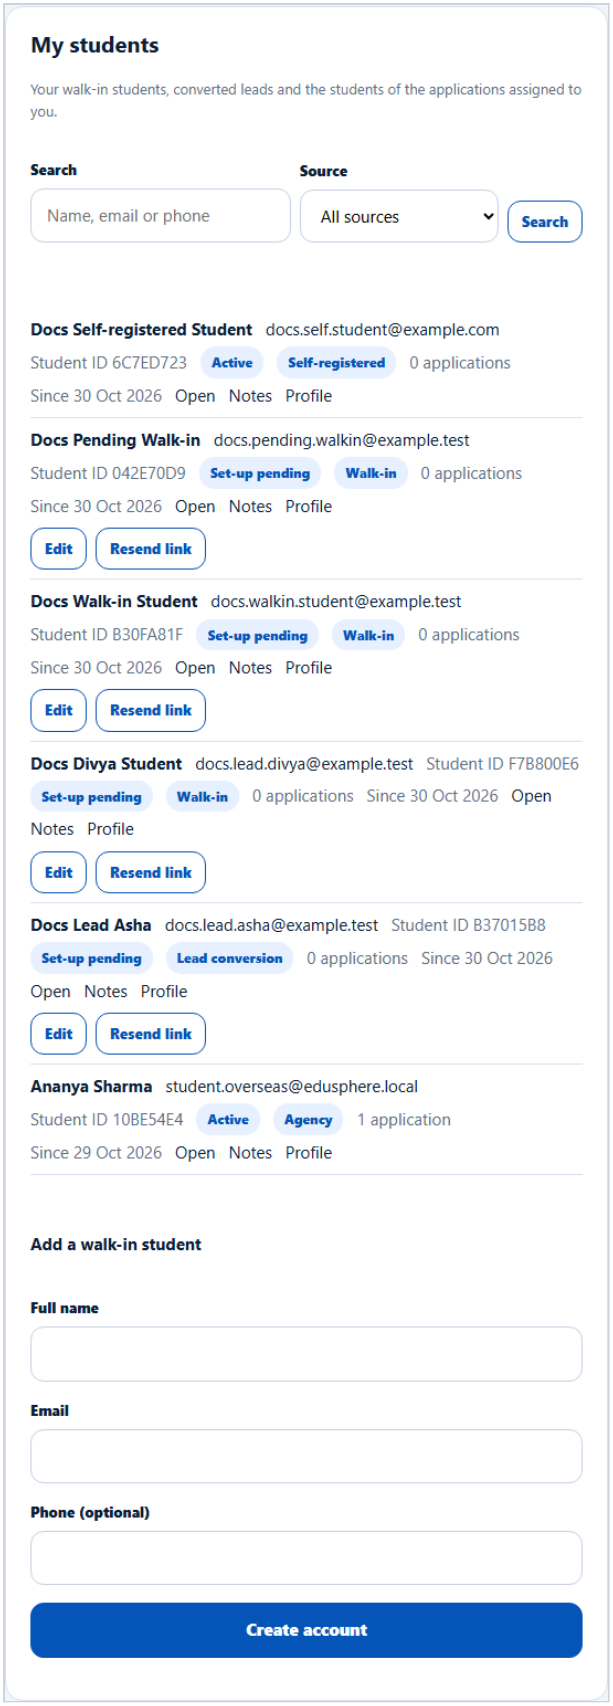

How to Access

Sidebar **Students** (My students, Application Tracking) and the student's **History** tab.

Steps

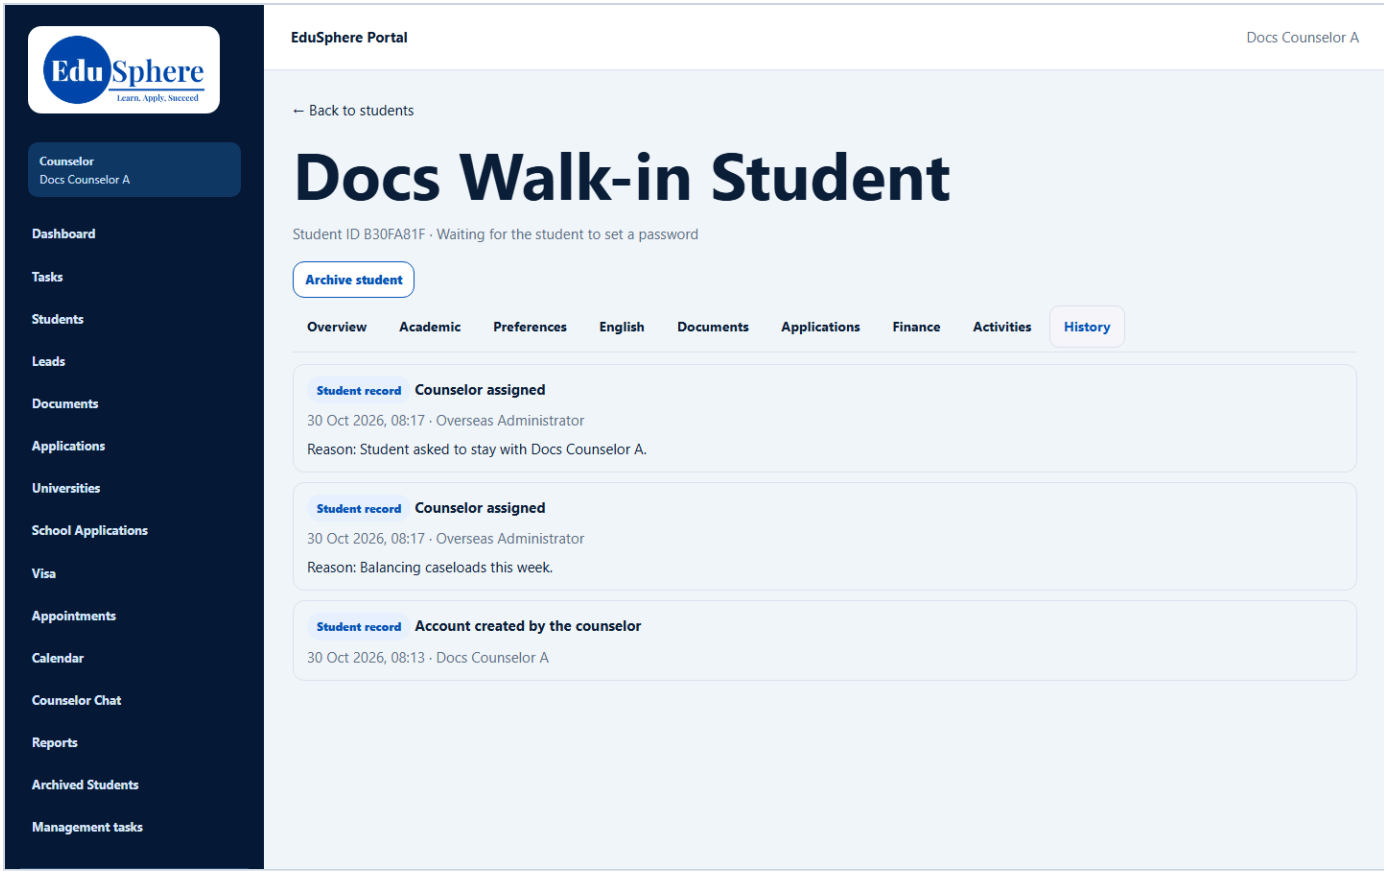

Step 1 — The student appears in My students

A student assigned to you shows in **My students** with their source. An application assigned to you appears in **Application Tracking**, and its student appears in My students (for example an **Agency** student).

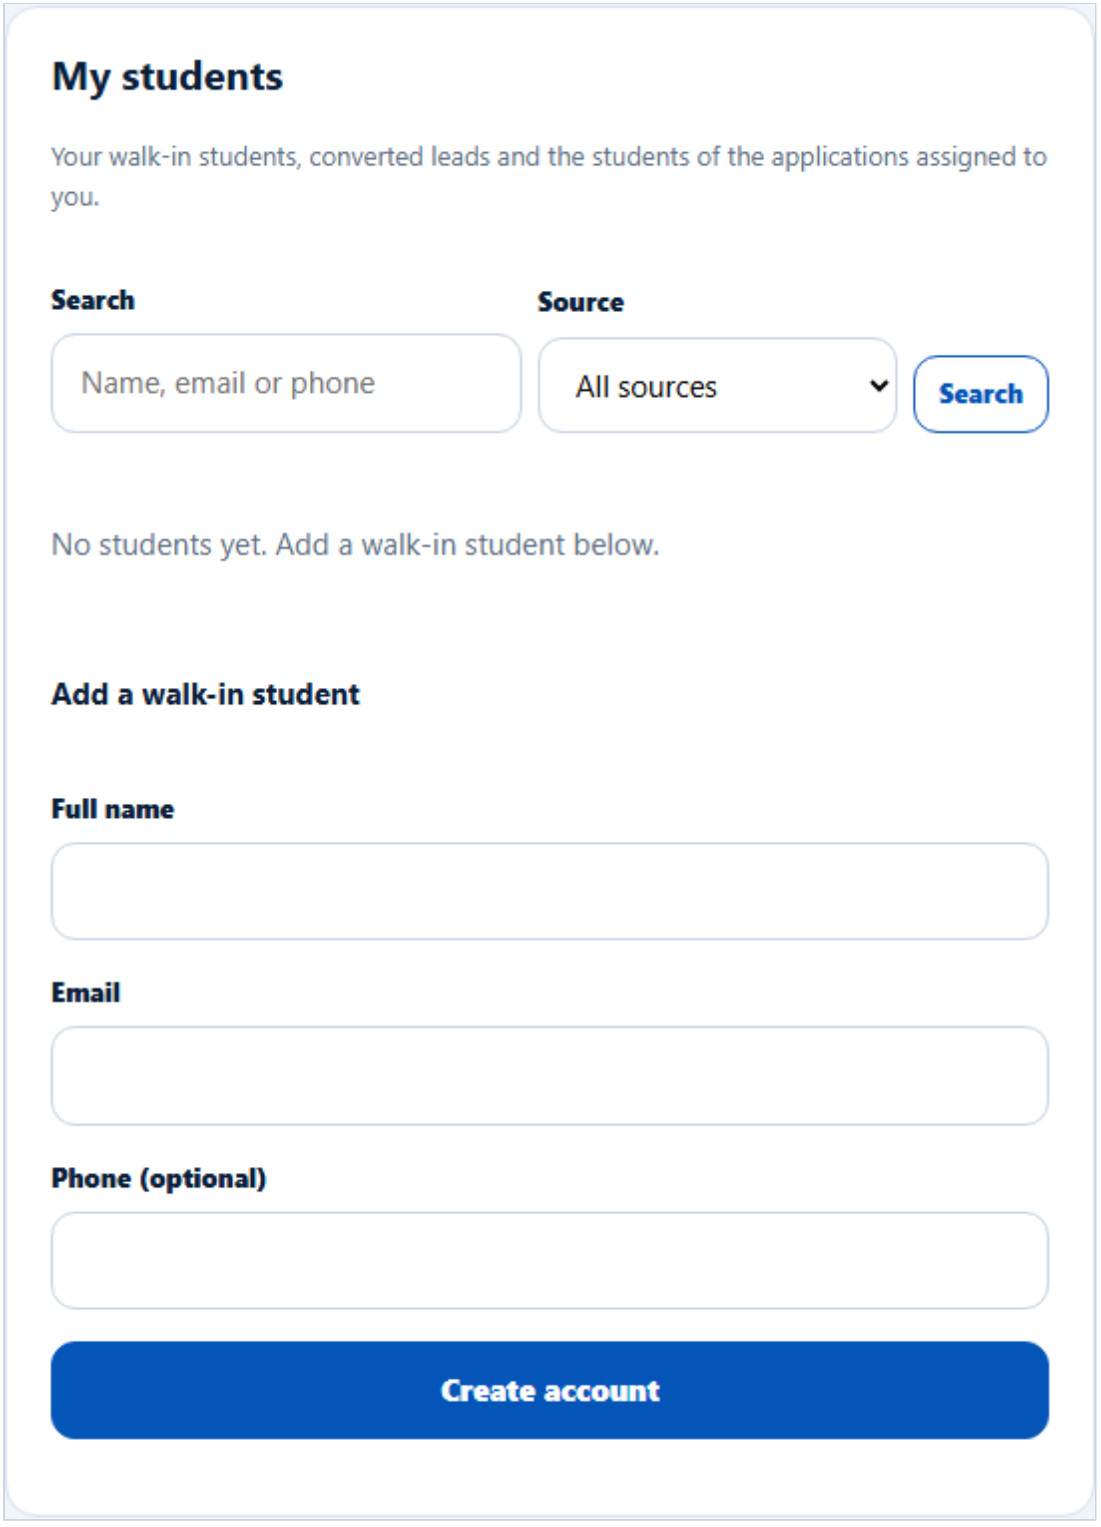

Step 2 — The reason is in History

Open the student → **History**. Each change shows **Counselor assigned**, who made it, when, and **Reason: …**.

Step 3 — Moved away

When a student moves to another counselor, they disappear from your lists, unless you still handle one of their applications.

Expected Result

Your lists always reflect the current assignment.

Common Errors

Problem: You can't find the notice in EduSphere. **Cause:** Notices such as "Student assigned to you" and "Application assigned to you" are emailed to you, but counselors have no notifications page in the portal. **Resolution:** Check your email, **My students** and **Application Tracking**.

Related Features

- My students
- Agency students and applications

Add an application from the Student 360

> Doc ID: DOC-CNS-APP-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Start an application for one of your students to a university (and course) for a chosen intake.

Who Can Use This Feature

Overseas counselors, for students in their caseload. The application is assigned to you.

Prerequisites

- The university is published in the catalogue.
- The student isn't archived.

How to Access

Student 360 → **Applications** → **Add application**.

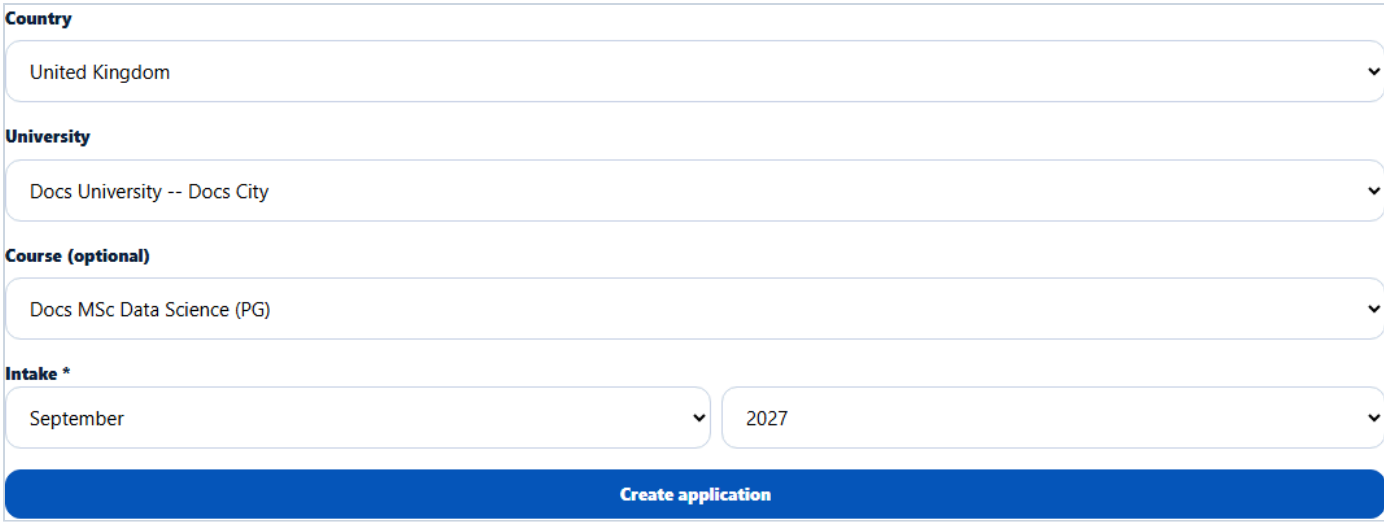

Steps

Step 1 — Open Apply to a University

Select **Add application**. The **Apply to a University** form opens.

Step 2 — Choose the university, course and intake

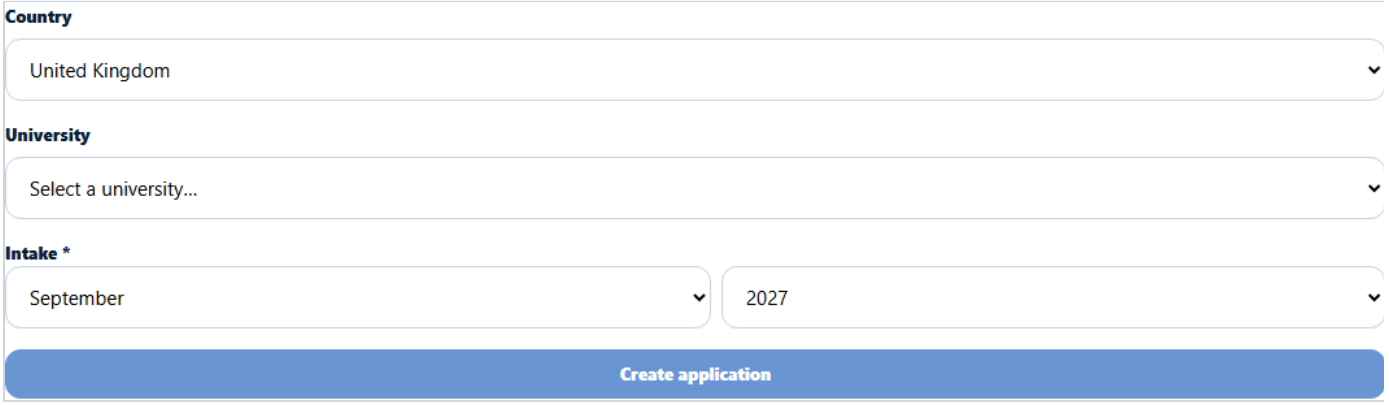

- Optionally narrow by **Country**.
- Choose the **University** (listed as "{name} – {city}").
- Choose a **Course**, or leave it as **Undecided / any course**.
- Pick the **Intake** month and year (required; see Intake picker).

Apply to a University form

Step 3 — Create it

Select **Create application**. **Application created. It is listed below.** appears. The application starts at stage **Enquiry** with the next action "Complete profile and required document checklist", and the student is notified.

Fields

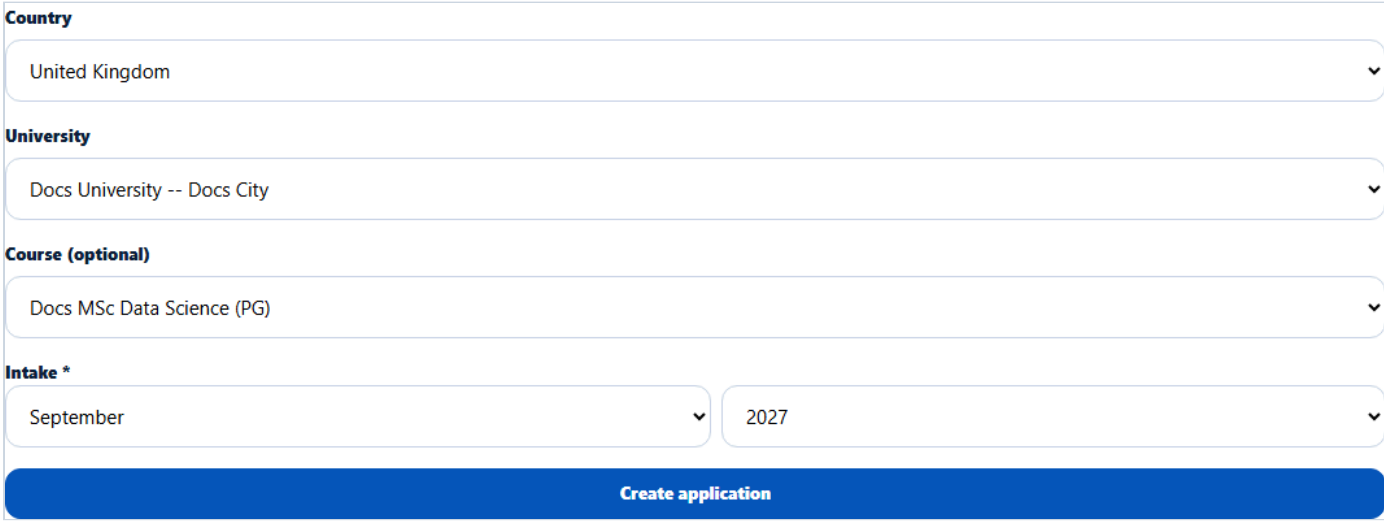

Field	Description	Required	Example
Country	Filters the university list	No	United Kingdom
University	A published university	Yes	Docs University – Docs City
Course	A course of that university, or undecided	No	Docs MSc Data Science (PG)
Intake	Month and year	Yes	September 2027

Expected Result

The application appears on the **Applications** tab and in your **Application Tracking** table, with a new EduSphere ID (APP-…).

Validation Messages

Message	When
Application created. It is listed below.	Success
This student already has an open application for this university and course.	Duplicate
Choose the intake month and year. / Choose both the month and the year for the intake.	Intake missing
This student is not in your caseload	Not your student
Course does not belong to selected university	Course mismatch

Duplicate application refused

Common Errors

Problem: The university isn't in the list. **Cause:** It isn't published in the catalogue. **Resolution:** Ask the Overseas Admin or partnership team to publish it.

Problem: You applied for an agency student, but the new application isn't an agency application. **Cause:** Applications created by a counselor are always direct (no agent).

Tips

- The intake can only be changed later by recording the outcome **Deferred** with a **New intake** (see Record an outcome), so choose carefully.

Related Features

- Applications tab list
- Advance an application's stage

Intake month and year picker

> Doc ID: DOC-CNS-APP-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Record intakes in one consistent format (“Sep 2027”), so applications can be filtered and reported by intake.

Who Can Use This Feature

Counselors, wherever an intake is asked for: on a new application and on the student’s profile (Preferences).

Prerequisites

None.

How to Access

- **Add application** → **Intake**.
- Student 360 → **Preferences** → **Intake**.

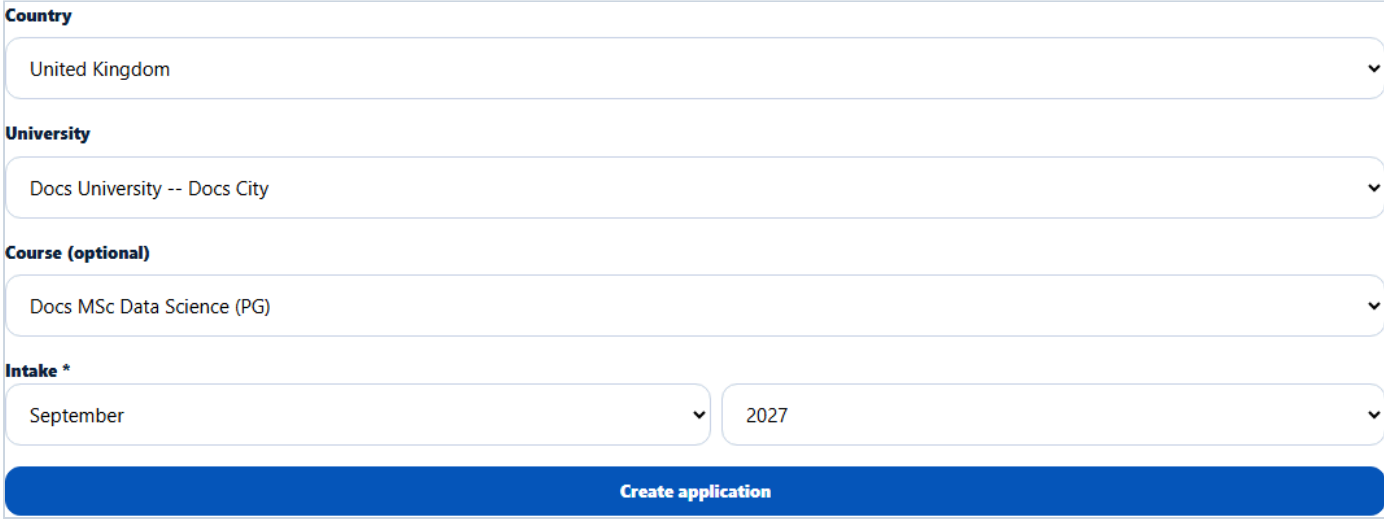

Steps

Step 1 — Choose the month

In **Month**, pick January to December.

Step 2 — Choose the year

In **Year**, pick this year or one of the next three.

Expected Result

The intake is saved as “{Mon} {YYYY}” and shown as, for example, **Intake Sep 2027** on the application.

Validation Messages

Message	When
Choose the intake month and year.	Nothing chosen (required on applications)
Choose both the month and the year for the intake.	Only one chosen
Saved as “{value}”. Choose a month and year to replace it.	An older free-text intake is shown

Common Errors

Problem: You need to change the intake of an existing application. **Cause:** There is no intake edit except through a deferral. **Resolution:** If the university defers the student, **Record outcome** → **Deferred** → **New intake** replaces it (see Record an outcome).

Related Features

- Add an application
- Structured profile

Applications tab list

> Doc ID: DOC-CNS-APP-003 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor, Overseas Admin

Purpose

See all of a student's applications, including other counselors' and agency ones, with their EduSphere IDs.

Who Can Use This Feature

Counselors (your students) and the Overseas Admin.

Prerequisites

None.

How to Access

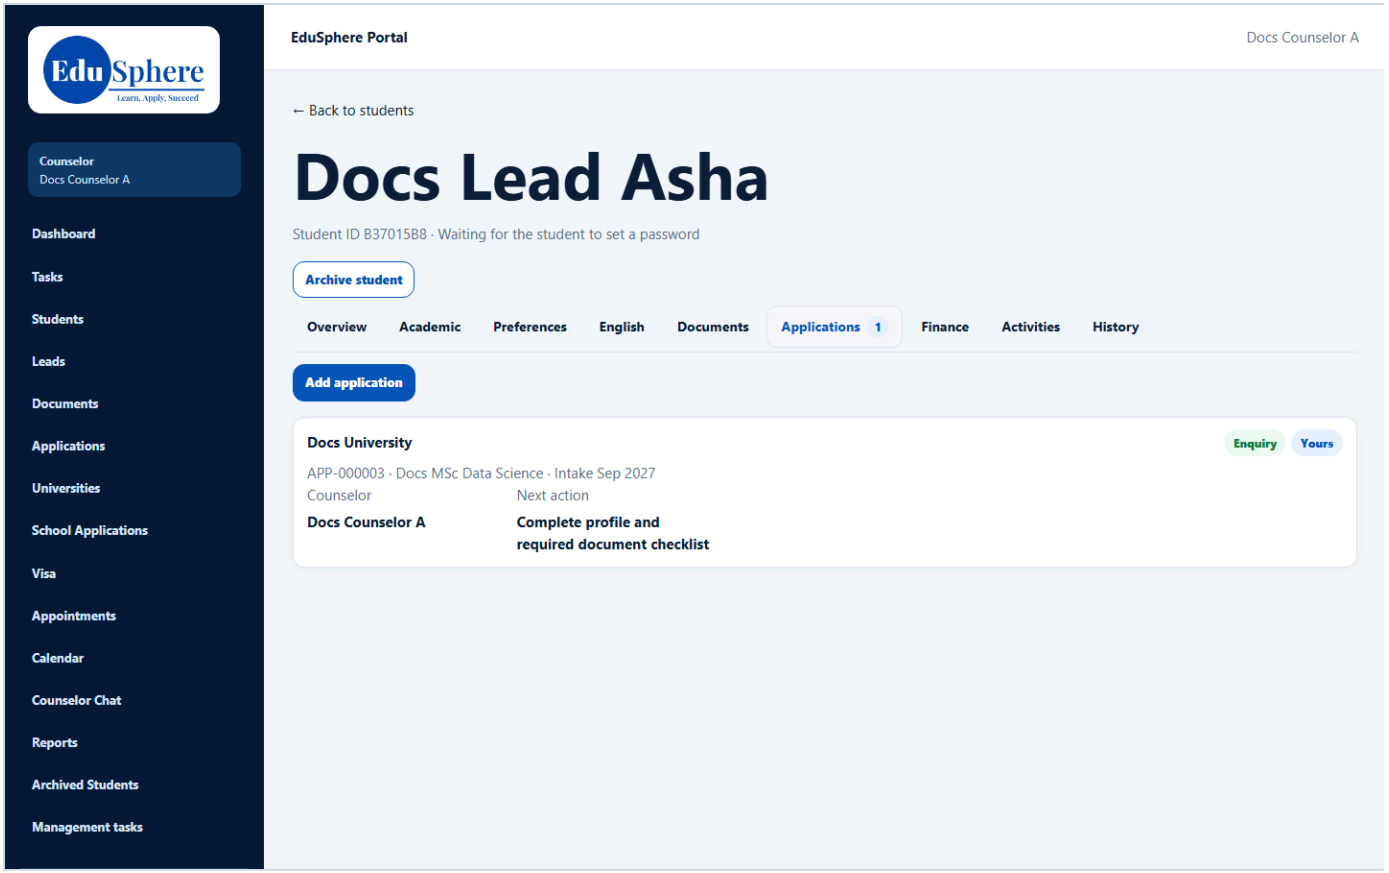

Student 360 → **Applications** (the tab shows a count).

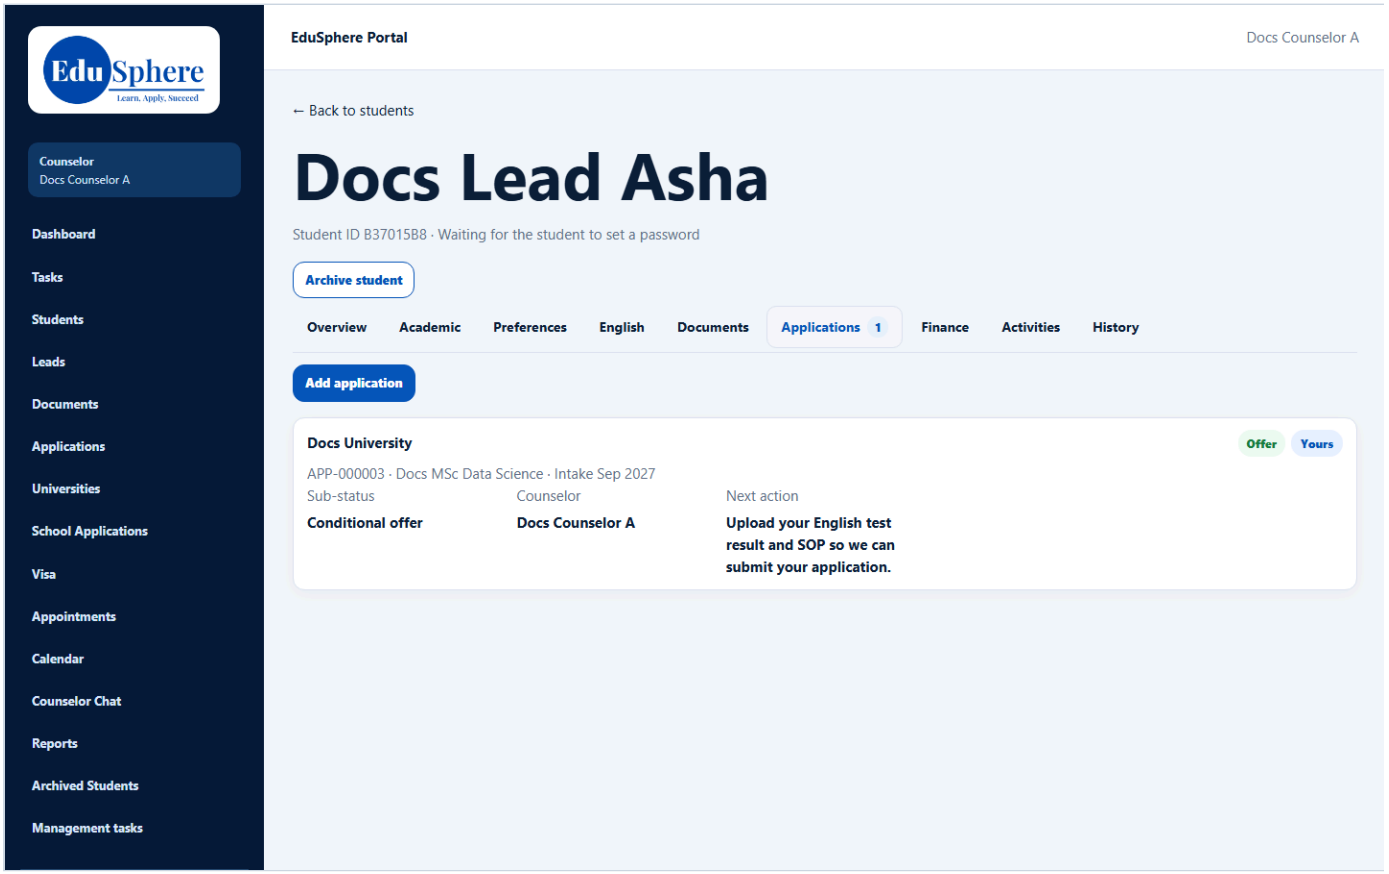

Steps

Step 1 — Read each application

Each card shows:

- the **University** and its stage (for example **Offer**);
- a **Yours** badge (your application) and an **Agency** badge (from an agent);
- "{EduSphere ID} · {course} · Intake {intake}";
- **Sub-status**, **Outcome**, **Counselor** and **Next action**.

Step 2 — Work on an application

The tab only lists applications. To change one, go to **Students** (or **Applications**) → **Evaluate Applications**. See Advance an application's stage.

Expected Result

You see every application the student has, whoever handles it.

Validation Messages

Message	When
This student has no applications yet.	No applications

Tips

- The EduSphere ID (APP-…) is the number to quote to colleagues; it is also searchable in quick search.
- The **Evaluate Applications** cards show the student and university but not the EduSphere ID or intake, so check them here when a student has two applications to the same university.

Related Features

- Add an application
- Agency vs direct applications

Advance an application’s stage

> Doc ID: DOC-CNS-APP-004 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Move an application forward through its stages and tell the student what to do next.

Who Can Use This Feature

The counselor assigned to the application.

Prerequisites

The application is open and not on hold.

How to Access

Sidebar **Students** (or **Applications**) → **Evaluate Applications** → the application’s card.

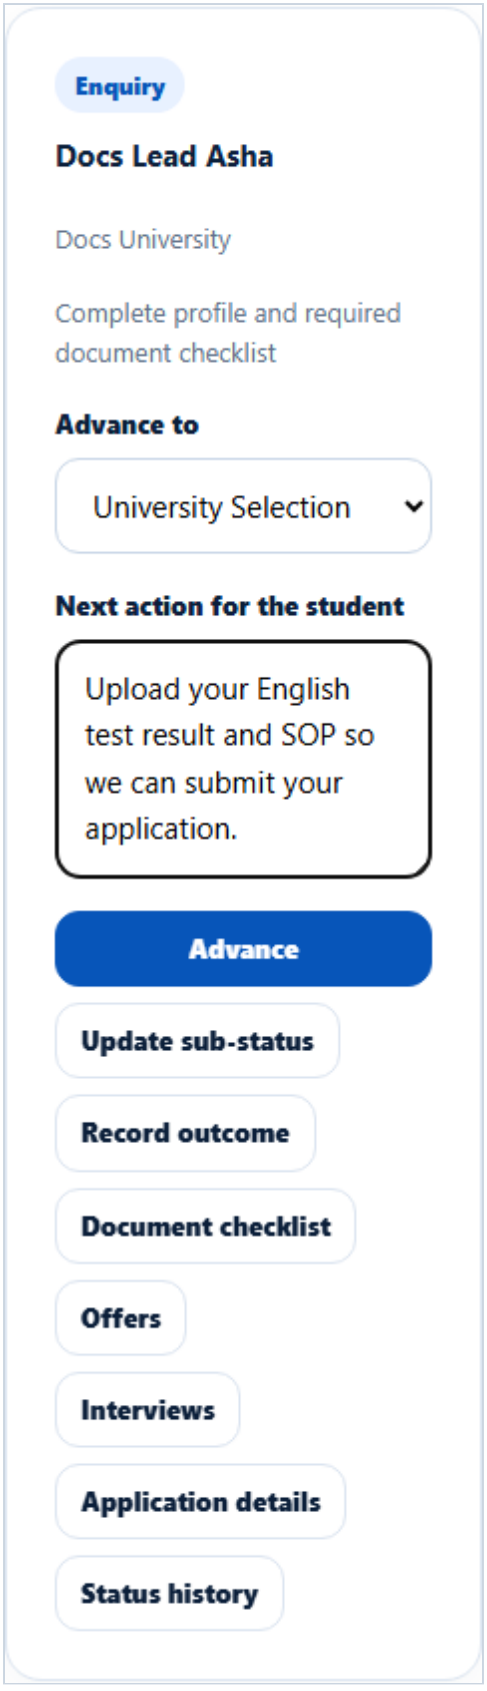

Steps

Step 1 — Find the application

Each card shows the stage badge (and sub-status badge), the student, the university, the next action, and these buttons: **Advance stage**, **Update sub-status**, **Record outcome**, **Document checklist**, **Offers**, **Interviews**, **Application details** and **Status history**.

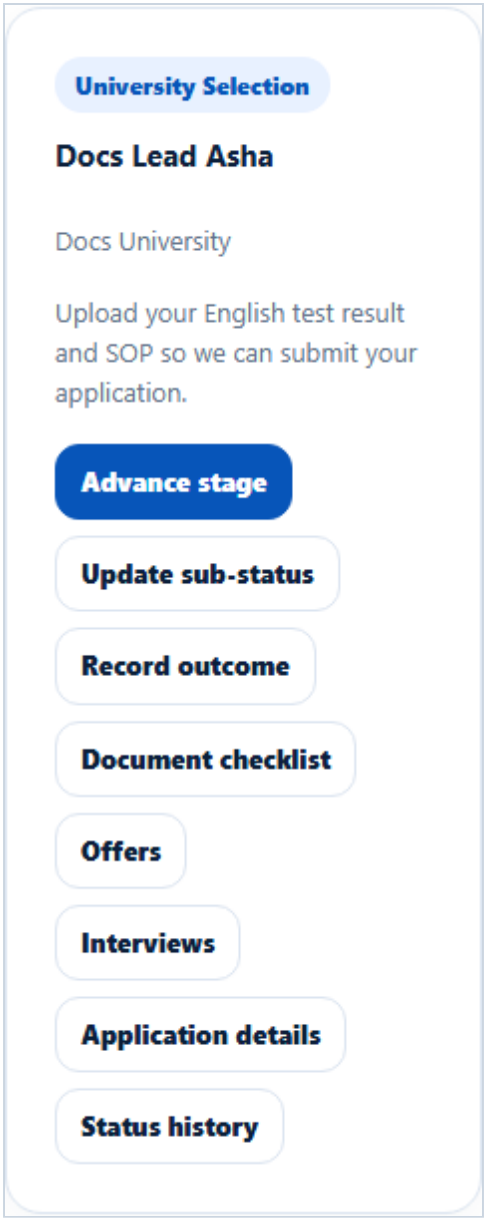

Step 2 — Choose the next stage

Select **Advance stage**. In **Advance to**, choose a later stage: **Eligibility Evaluation**, **University Selection**, **Offer**, **Visa Documentation** or **Status Tracking**. You can skip stages. Enter **Next action for the student**.

Step 3 — Advance

Select **Advance**. **Application advanced – the student has been notified.** appears and the stage badge changes.

Fields

Field	Description	Required	Example
Advance to	Any later stage; never Enrolled	Yes	University Selection
Next action for the student	What the student should do now	No	Upload your English test result and SOP…

Expected Result

- The student is notified.
- The change is added to the status history.
- Recording an offer later moves the application to **Offer** automatically.

Validation Messages

Message	When
Application advanced – the student has been notified.	Success
Cannot advance from ‘{x}’ to ‘{y}’ – must move forward along the confirmed sequence.	Moving backwards
Enrolment is confirmed with the enrolment confirmation document, not by a stage change	Trying to reach Enrolled
This application is on hold – resume it before changing its stage	On hold
This application is closed – only the Overseas Admin can reopen it.	Closed (shown on the card)

Common Errors

Problem: Enrolled isn’t offered. **Resolution:** Confirm enrolment from **Enrolment** (see ARR-001).

Problem: An older application lists earlier stages such as **Enquiry**. **Cause:** Its status pre-dates the current stage list (for example “University review”). **Resolution:** Choose only a later stage.

Problem: The Application Tracking table shows a code such as `university_review` instead of a stage name. **Resolution:** Read the stage on the Evaluate Applications card or the 360 Applications tab.

Tips

- The student’s notification quotes the stage as a code (for example `visa_documentation`). Write the **Next action** in plain words so they know what to do.
- The cards are narrow on a normal screen; scroll inside a card to see all its buttons.

Sub-status and the Ready-for-Submission gate

> Doc ID: DOC-CNS-APP-005 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Show exactly where an application stands within its stage. EduSphere checks the document checklist before an application can be marked **Ready for submission**.

Who Can Use This Feature

The counselor assigned to the application.

Prerequisites

The application is open and not on hold.

How to Access

Evaluate Applications → the application → **Update sub-status**.

Steps

Step 1 — Choose the sub-status

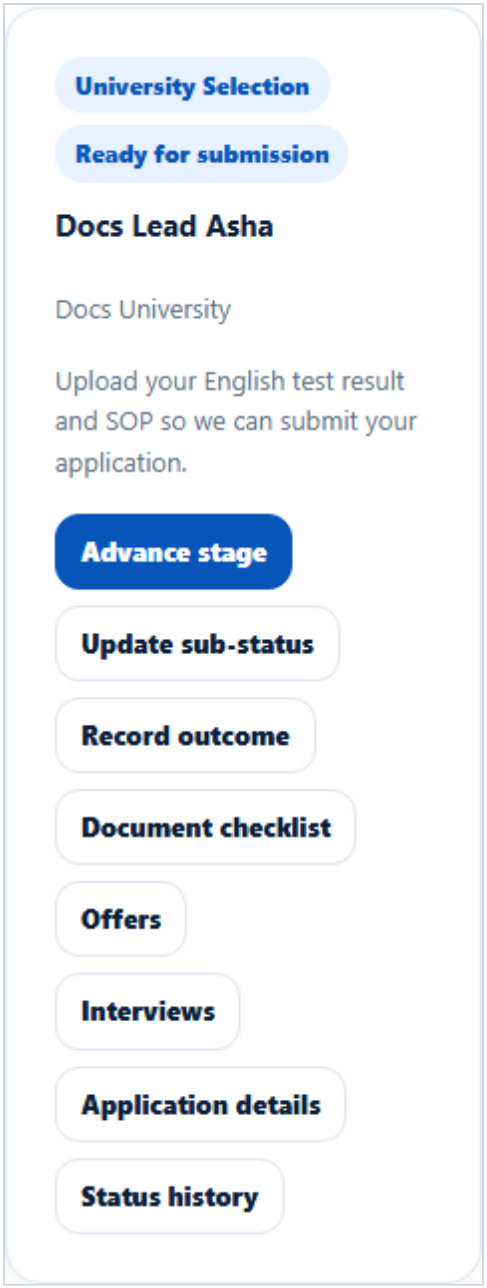

Select **Update sub-status**, choose the **Sub-status** and optionally add a **Sub-status note**. The sub-statuses by stage:

- **University selection:** Application created, Documents pending, Ready for submission, Submitted, Under review.
- **Offer:** Conditional offer, Unconditional offer, Offer accepted.
- **Visa documentation:** Visa preparation, Visa applied.
- **Status tracking:** Visa decision pending, Visa approved.

Choosing a sub-status of a later stage also moves the application to that stage.

Step 2 — Save

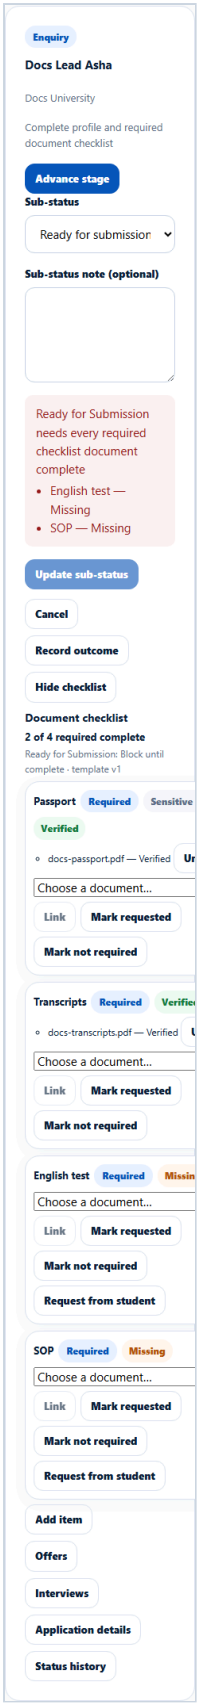

Select **Update sub-status**. **Sub-status updated to {label}. The student has been notified.** appears.

The Ready-for-Submission gate

When you choose **Ready for submission**, every required document on the checklist must be complete. A document is complete when it is **Verified** (or **Approved**, for a CV or SOP) or marked **Not required**. The checklist template decides what happens otherwise:

- **Block until complete:** the change is refused: “Ready for Submission needs every required checklist document complete”, followed by the missing items (for example “English test — Missing”).
- **Warn (override with a reason):** “Some required checklist documents are not complete – give an override reason to continue”. Enter an **Override reason** and select **Override and update**. The reason is kept in the status history. An empty checklist (no matching template) uses Warn, but only for required items you added yourself; if no template matches and no checklist was created, the gate doesn’t check anything.

Blocked: English test and SOP missing

Fields

Field	Description	Required	Example
Sub-status	See Step 1	Yes	Ready for submission

Field	Description	Required	Example
Sub-status note (optional)	Context for the change	No	—
Override reason	Warn mode only	When overriding	Student will bring the SOP on Monday.

Expected Result

The sub-status badge shows on the card, the student is notified (“Status: {Stage} — {Sub-status}.”), and the change appears in the status history.

Validation Messages

Message	When
Sub-status updated to {label}. The student has been notified.	Success
Ready for Submission needs every required checklist document complete	Block mode, documents missing
Some required checklist documents are not complete – give an override reason to continue	Warn mode

Common Errors

Problem: Blocked although the student uploaded everything. **Cause:** Uploaded documents are only complete once **Verified** in Document Verification. **Resolution:** Review them first (see Documents page).

Journey stage

> Doc ID: DOC-CNS-APP-006 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor, Overseas Admin

Purpose

See in one line how far the student has got overall, from lead to enrolment.

Who Can Use This Feature

Counselors (your students) and the Overseas Admin.

Prerequisites

None.

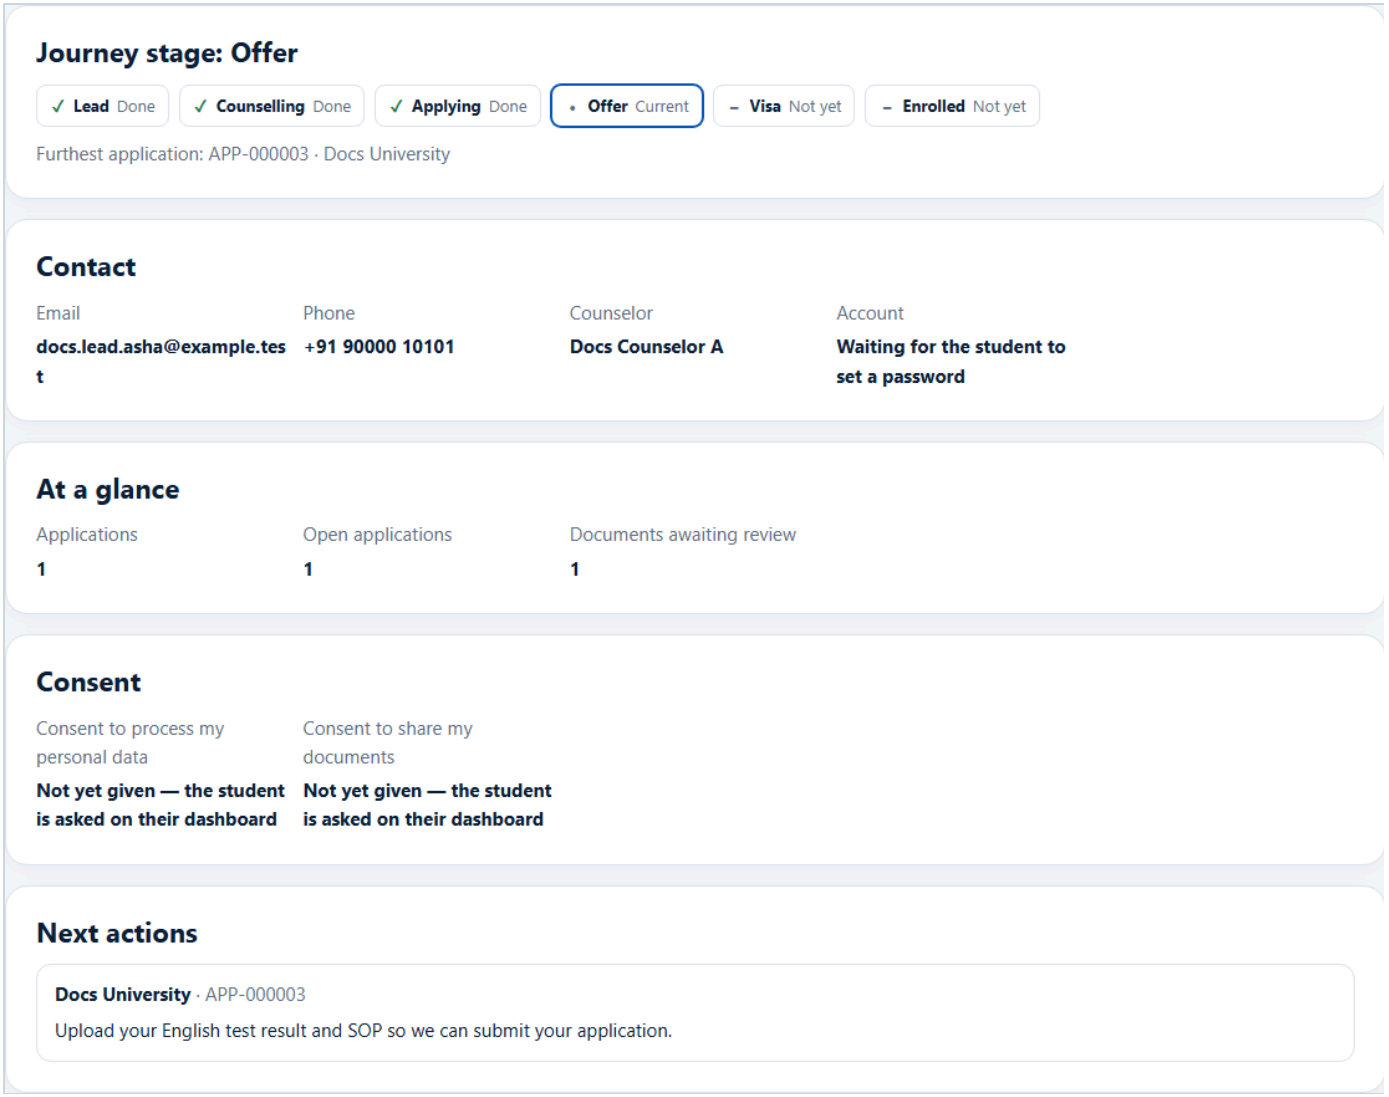

How to Access

Student 360 → **Overview** → **Journey stage**.

Steps

Step 1 — Read the journey

Journey stage: {stage} shows six steps (**Lead**, **Counselling**, **Applying**, **Offer**, **Visa**, **Enrolled**), each marked done (✓), current (•) or not yet. **Furthest application** names the application that sets the stage.

Expected Result

The journey is worked out from the student's furthest open application each time you open the page. You never set it yourself. Notes appear when all applications are closed, or one is on hold or deferred.

Tips

- A student with no application shows **Lead** or **Counselling** (counselling once you are linked to them or an appointment is booked).

Related Features

- Student 360
- Advance an application's stage

Record an outcome or resume an application

> Doc ID: DOC-CNS-APP-007 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Record what happened when an application stops or pauses (rejected, withdrawn, deferred or on hold), and resume a paused one.

Who Can Use This Feature

The counselor assigned to the application. Only the Overseas Admin can reopen a closed application.

Prerequisites

The application isn't enrolled.

How to Access

Evaluate Applications → the application → **Record outcome**.

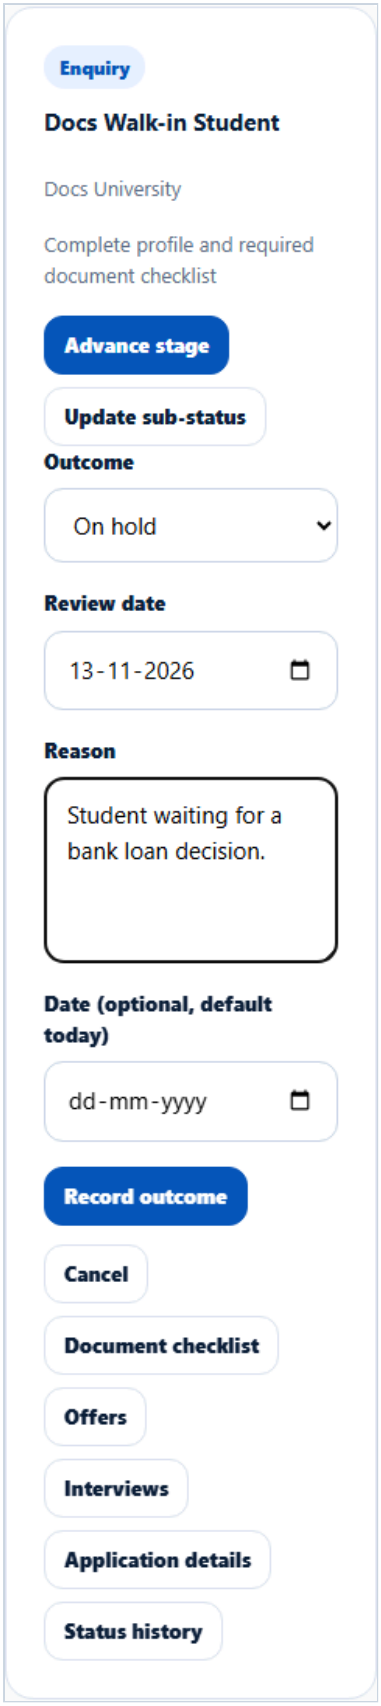

Steps

Step 1 — Choose the outcome

Select **Record outcome** and choose the **Outcome**: **Rejected**, **Withdrawn**, **Deferred** or **On hold**. After an offer there are also **Offer declined**, **Non arrival** and **Cancelled**. Extra fields appear for some outcomes:

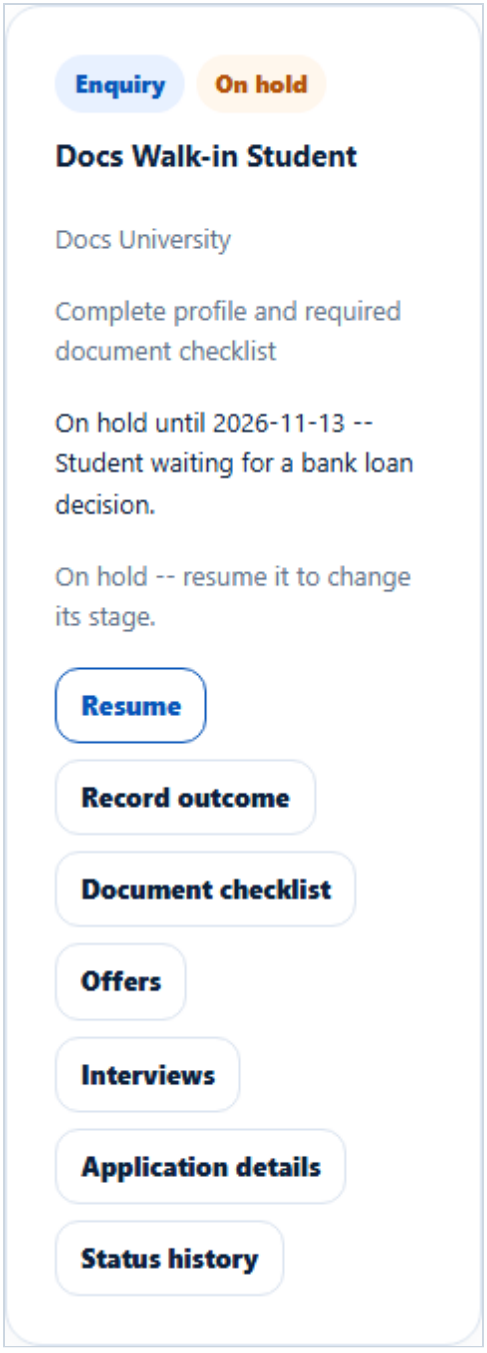

- **Withdrawn: Requested by** (Student, Counselor, Agent or University).
- **Deferred: New intake**, **Revised application deadline (optional)** and **Revised offer deadline (optional)**.
- **On hold: Review date**.
- **Offer declined:** optionally tick **The student prefers another offer**.

Add the **Reason** (optional for Deferred), **Suggested next steps (optional)** for a rejection, and **Date (optional, default today)**.

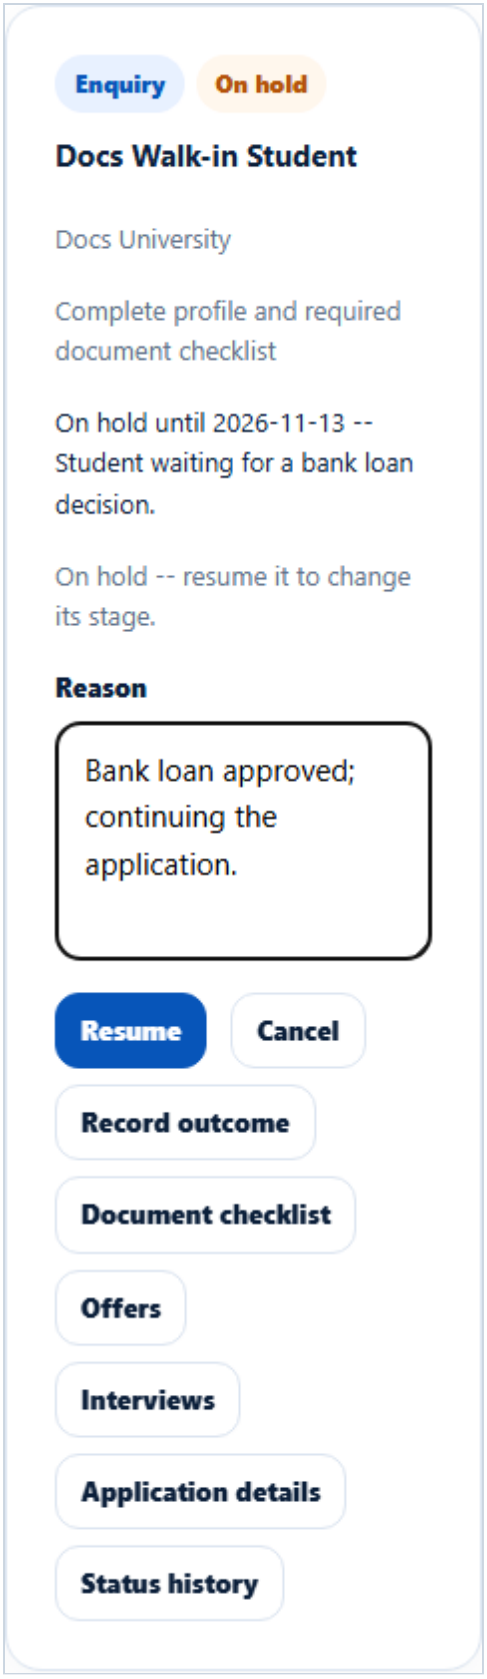

Step 2 — Save

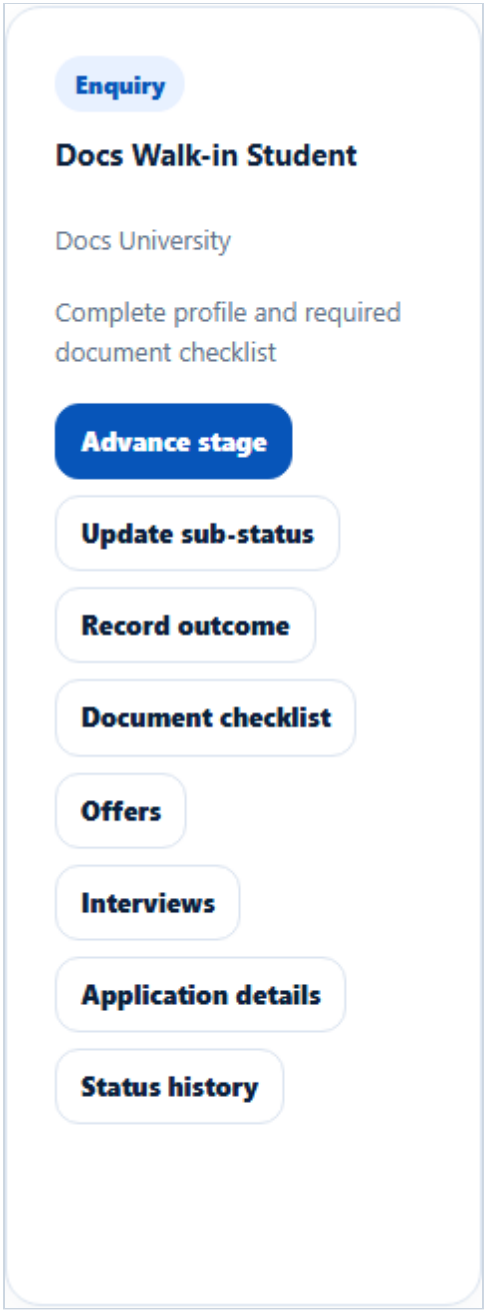

Select **Record outcome**. **Outcome recorded: {label}. The student has been notified.** appears. An on-hold card says “On hold – resume it to change its stage.”

Step 3 — Resume an on-hold or deferred application

Select **Resume**, enter the **Reason** and select **Resume**. **Application resumed.** appears; on an on-hold application the stage buttons return.

Enquiry
On hold
Docs Walk-in Student
Docs University
Complete profile and required document checklist
On hold until 2026-11-13 -- Student waiting for a bank loan decision.
On hold -- resume it to change its stage.
Reason
Bank loan approved; continuing the application.
Resume
Cancel
Record outcome
Document checklist
Offers
Interviews
Application details
Status history

Fields

Field	Description	Required	Example
Outcome	See Step 1	Yes	On hold
Requested by	Withdrawn only	For Withdrawn	Student
New intake	Deferred only; replaces the application's intake	For Deferred	Sep 2028
Review date	On hold only; not in the past	When on hold	13 Nov 2026
Reason	Why	Yes (optional for Deferred)	Student waiting for a bank loan decision.
Suggested next steps (optional)	For the student	No	—

Expected Result

- **Rejected, Withdrawn, Offer declined, Non arrival, Cancelled:** these close the application (“This application is closed – only the Overseas Admin can reopen it.”).
- **On hold:** pauses stage and sub-status changes until you resume it.
- **Deferred:** moves the intake (and any revised deadlines) and shows **Resume** to clear the outcome; the stage can still be advanced.

Validation Messages

Message	When
Outcome recorded: {label}. The student has been notified.	Success
Application resumed.	Resumed
The review date cannot be in the past	Past review date
An offer is needed before it can be declined	Declining with no offer
An enrolled application cannot be given an outcome	Enrolled
Only the Overseas Admin can reopen a closed application	Closed

Tips

- An on-hold application with a review date gets a reminder task on that date (reminder rule “On-hold review date”).

Related Features

- Advance an application’s stage
- Application status history

Application details: fields and dates

> Doc ID: DOC-CNS-APP-008 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Keep the university-side details of an application: faculty, campus, fees, scholarship, portal link, contact and key dates.

Who Can Use This Feature

The counselor assigned to the application (in any state).

Prerequisites

None.

How to Access

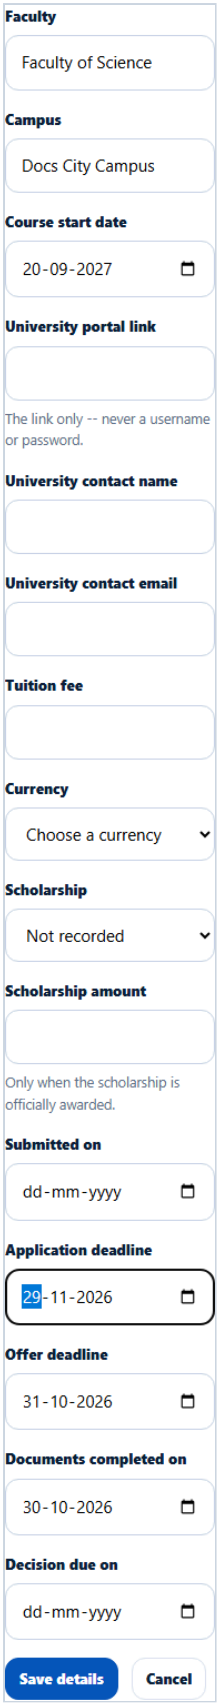

Evaluate Applications → the application → **Application details** → **Edit details**.

Steps

Step 1 — Edit the details

Fill in what you know, then select **Save details**:

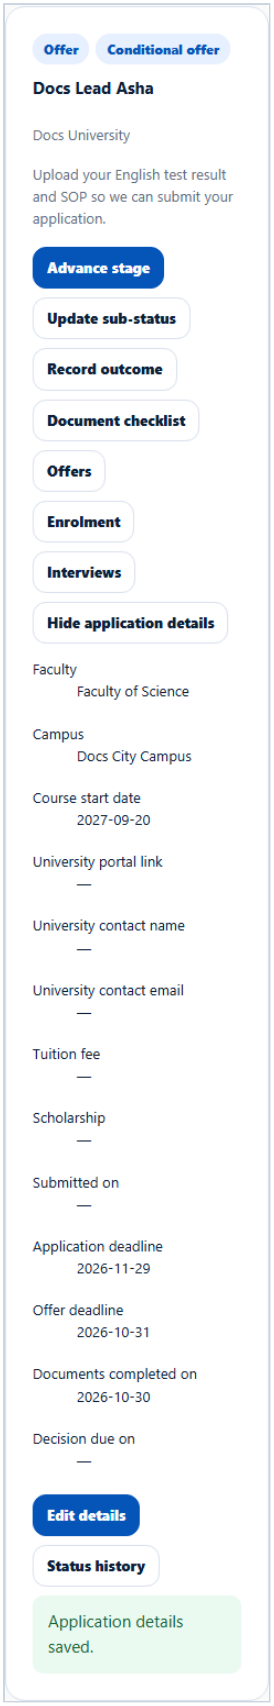

- **Faculty**, **Campus** and **Course start date**.
- **University portal link** ("The link only – never a username or password.").
- **University contact name** and **University contact email**.
- **Tuition fee** and **Currency**.
- **Scholarship** and **Scholarship amount** ("Only when the scholarship is officially awarded.").
- Dates: **Submitted on**, **Application deadline**, **Offer deadline**, **Documents completed on** and **Decision due on**.

Application details form

Step 2 — Check the saved details

Application details saved. appears and the details show on the card.

Fields

Field	Allowed values	Example
Currency	INR, GBP, USD, EUR, CAD, AUD, NZD, SGD, AED	GBP

Field	Allowed values	Example
Scholarship	Not recorded, None, Applied, Awarded, Declined	Applied

Expected Result

The dates drive reminders, for example “Application deadline approaching” and “University decision overdue”. The student is notified only when the scholarship changes.

Validation Messages

Message	When
Application details saved.	Success
Currency is required with a tuition fee or a scholarship amount	Amount without currency
A scholarship amount is recorded only when the scholarship is awarded	Amount without Awarded

Common Errors

Problem: You can’t change the intake here. **Cause:** Intake isn’t one of these fields. **Resolution:** When the university defers the student, record the outcome **Deferred** with a **New intake** (Record an outcome).

Related Features

- Reminder rules (admin) *(see the Administrator Manual)*
- Record, close or decide an offer

Application status history

> Doc ID: DOC-CNS-APP-009 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

See every stage, sub-status and outcome change on an application, with who made it, when, and any reason.

Who Can Use This Feature

The counselor assigned to the application.

Prerequisites

None.

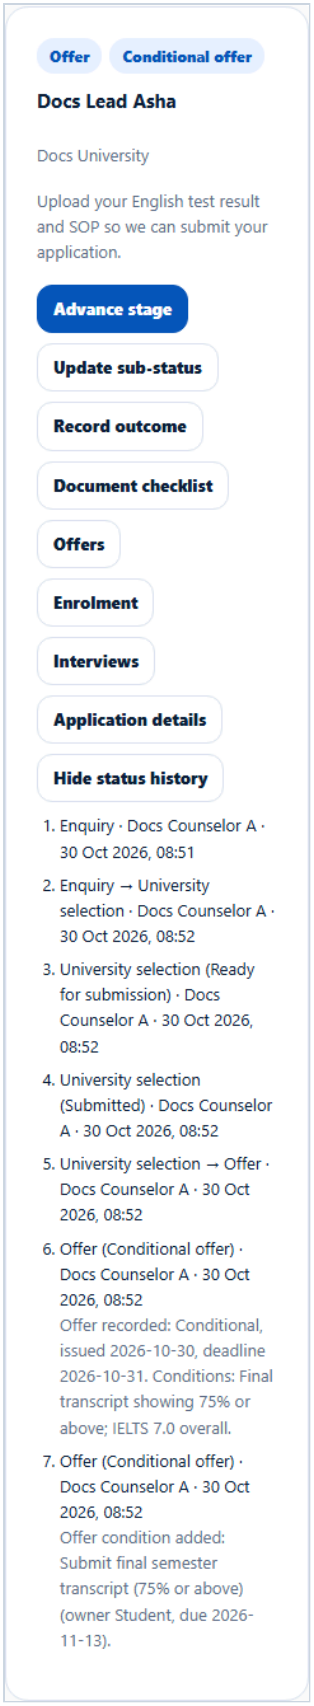

How to Access

Evaluate Applications → the application → **Status history** (select **Hide status history** to close it).

Steps

Step 1 — Read the history

Each line shows the stage (and sub-status), the change, who made it and when. Examples: “Enquiry → University selection”, “University selection (Ready for submission)”, and “Offer recorded: Conditional, issued …, deadline …”. Notes, reasons and gate overrides are shown with the change.

Expected Result

A complete, permanent record of how the application moved.

Validation Messages

Message	When
No status changes recorded yet.	New application
Unable to load the status history.	Loading failed

Related Features

- Advance an application’s stage

Agency vs direct applications

> Doc ID: DOC-CNS-APP-010 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Know what you can and can't do on an application submitted by an education agent.

Who Can Use This Feature

Counselors assigned to agency applications.

What you can do

Action	Direct application	Agency application
Advance stage, sub-status, outcome	Yes	Yes (agency is notified)
Details, offers, conditions, interviews	Yes	Yes
University deposit	Record it	Read only (the agency pays)
Confirm enrolment	Yes	The **Enrolment** panel offers it, although stage changes say only the agency's Master confirms enrolment
Condition owner **Agent**	—	Available

Prerequisites

The Overseas Admin has assigned the agency application to you.

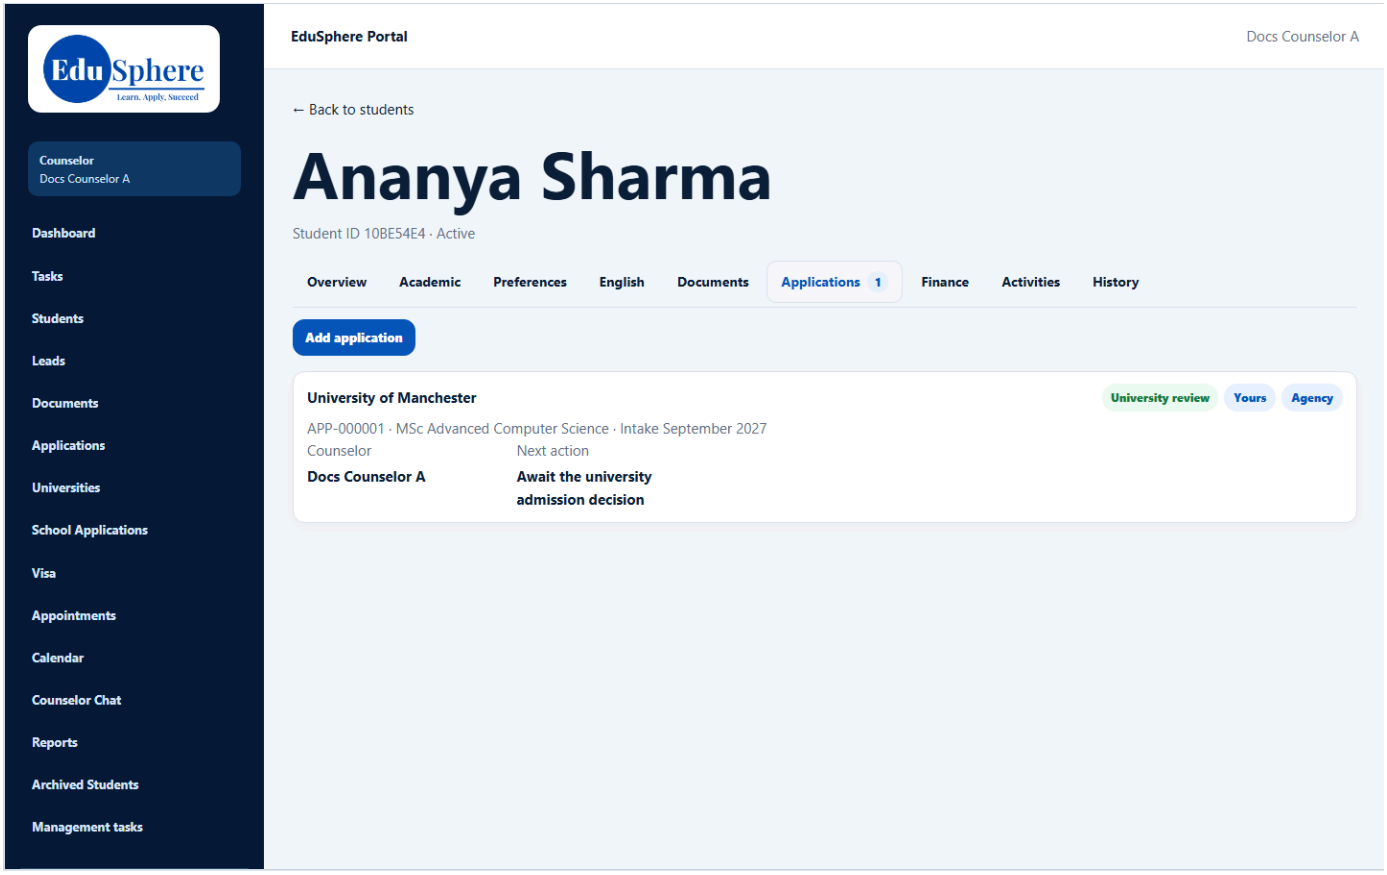

How to Access

- **Application Tracking**: the **Agency** column shows the agency's name.
- Student 360 → **Applications**: the card has an **Agency** badge.

Steps

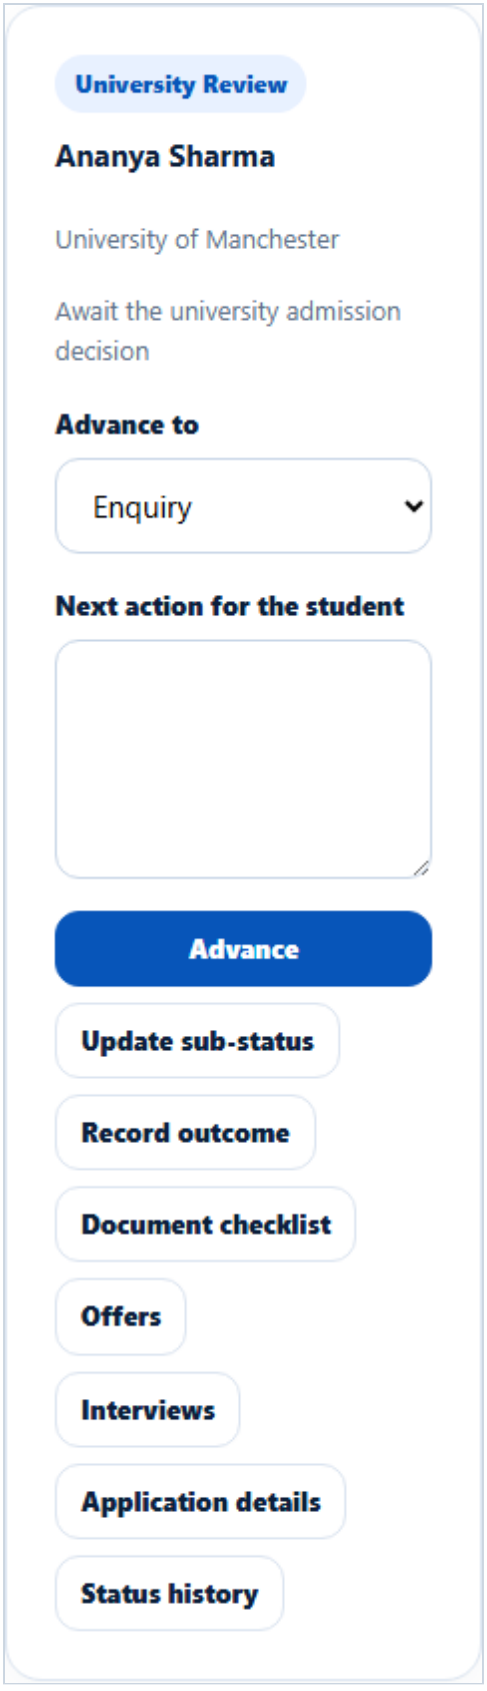

Step 1 — Recognise an agency application

On the 360, the card shows **Agency** next to **Yours**.

Step 2 — Work on it from Evaluate Applications

The card is the same as for direct applications.

Expected Result

The agency is informed of your changes and sees who its counselor is.

Common Errors

Problem: “Use Advance stage to move an agency application”. **Resolution:** Use **Advance stage**, not other edit forms.

Problem: An older agency application offers earlier stages (such as **Enquiry**) in **Advance to**. **Cause:** Its status (“University review”) isn’t in the current stage list. **Resolution:** Choose a later stage only.

Tips

- A new application you create for an agency student is a direct application, not an agency one.

Related Features

- Agency students and applications
- Advance an application’s stage

Record, close or decide an offer

> Doc ID: DOC-CNS-OFR-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Record the university's offer with its letter, then record the student's acceptance or decline, or close the offer if the university withdraws it or it expires.

Who Can Use This Feature

The counselor assigned to the application.

Prerequisites

- The application is open.
- You have the offer letter (PDF or image).

How to Access

Evaluate Applications → the application → **Offers**.

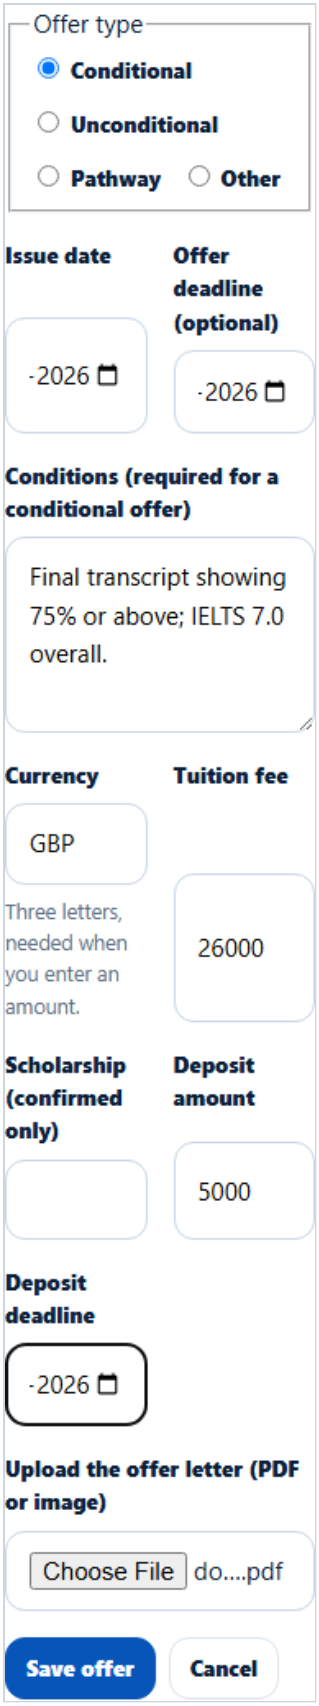

Steps

Step 1 — Record the offer

Select **Record offer** and fill in:

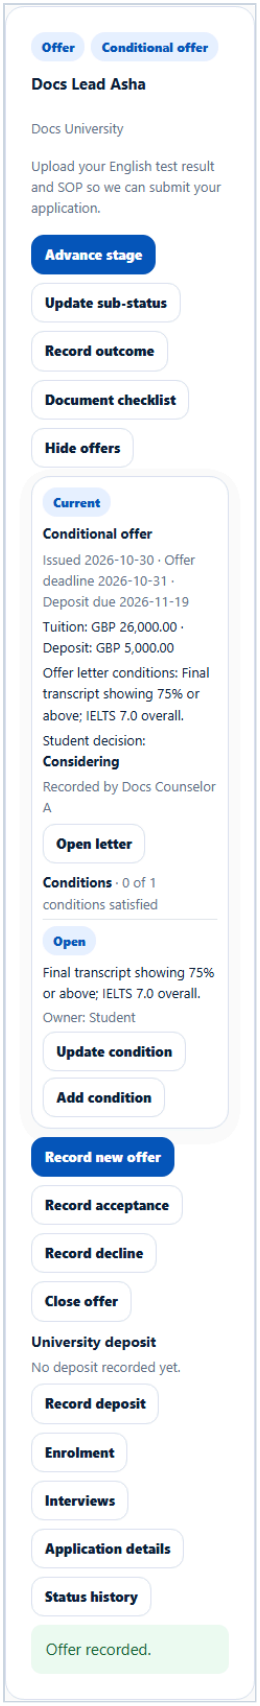

- **Offer type**: **Conditional**, **Unconditional**, **Pathway** or **Other**.
- **Issue date** and **Offer deadline (optional)**.
- **Conditions** (required for a conditional offer).
- **Currency**, as three letters such as **GBP**.
- **Tuition fee**, **Scholarship (confirmed only)**, **Deposit amount** and **Deposit deadline**.
- The **offer letter**: upload it, or pick one already uploaded.

Select **Save offer**.

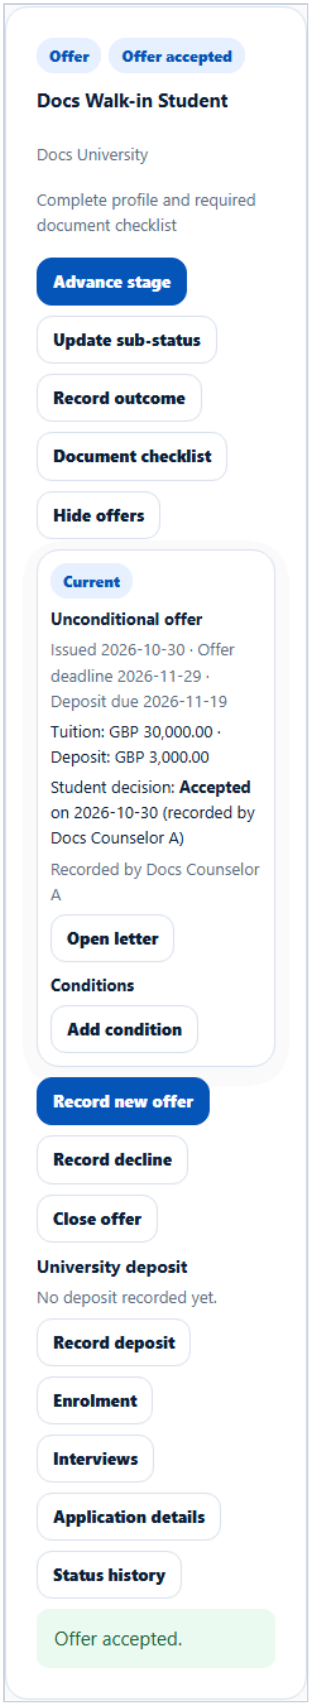

Step 2 — Check the offer

Offer recorded. appears. The offer shows as **Current** with its dates, amounts and conditions, **Student decision: Considering** and **Open letter**. The application moves to **Offer** with the sub-status **Conditional offer** (or **Unconditional offer**).

Step 3 — Record the student's decision

- **Record acceptance**: choose the acceptance date and **Save acceptance**. **Offer accepted.** appears and the sub-status becomes **Offer accepted**.
- **Record decline**: give the date and reason. "Offer declined. The application is now closed."

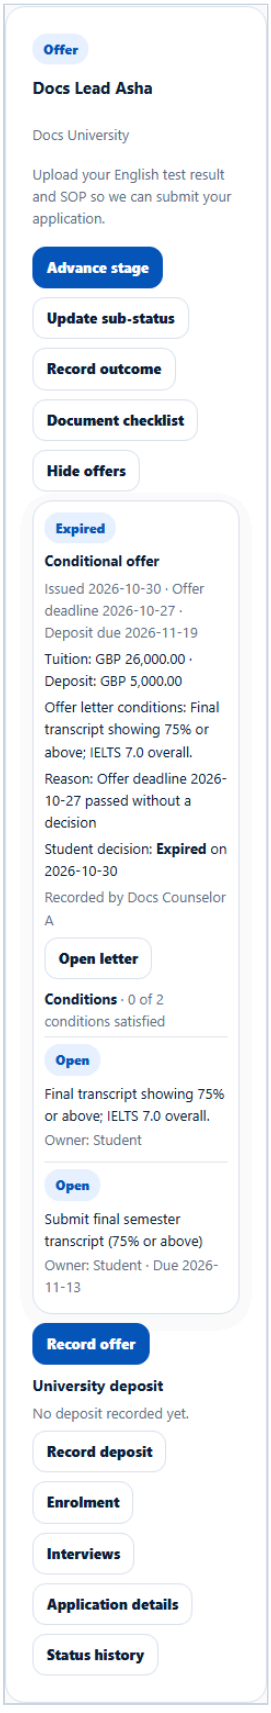

Offer accepted

Step 4 — Close an offer

Close offer marks it **Withdrawn by university** or **Expired**, with a reason. The offer stays in the history and the application keeps its stage. **Record new offer** adds a replacement; the old one becomes **Superseded**.

Each night (00:10 IST) EduSphere marks a current offer whose deadline has passed without a decision as **Expired**, with the reason “Offer deadline {date} passed without a decision”. The application keeps its stage; select **Record offer** to record a new one.

(The expired state in this screenshot was prepared by moving the test deadline back in the documentation database.)

Fields

Field	Description	Required	Example
Offer type	Conditional, Unconditional, Pathway, Other	Yes	Conditional
Issue date	When the university issued it	Yes	30 Oct 2026
Offer deadline	Date the student must decide by	No	31 Oct 2026
Conditions	Required for Conditional	Conditional	Final transcript showing 75%…
Currency	Three letters; needed with any amount	With amounts	GBP
Tuition fee / Deposit amount	Amounts	No	26000 / 5000
Deposit deadline	When the deposit is due	No	19 Nov 2026
Offer letter	PDF or image	Yes	docs-offer-letter.pdf

Expected Result

The student is notified (“Offer recorded”, “Offer accepted”). Deadlines feed the reminders “Offer deadline approaching” and “Deposit due”.

Validation Messages

Message	When
Offer recorded.	Success
Choose the currency of the amounts	An amount without currency
Attach the offer letter: pick an uploaded one or upload the file.	No letter
Offer accepted. (Note: this student has also accepted an offer on APP-…)	Accepted; warns about another accepted offer
Offer declined. The application is now closed.	Declined
Only the current offer can be accepted or declined	Older offer
The decision date cannot be before the offer was issued	Date error

Related Features

Offer conditions

> Doc ID: DOC-CNS-OFR-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Track each condition of a conditional offer (who must meet it, by when, and with what evidence) until the university can issue an unconditional offer.

Who Can Use This Feature

The counselor assigned to the application.

Prerequisites

A current offer is recorded.

How to Access

Evaluate Applications → the application → **Offers** → **Conditions** under the current offer.

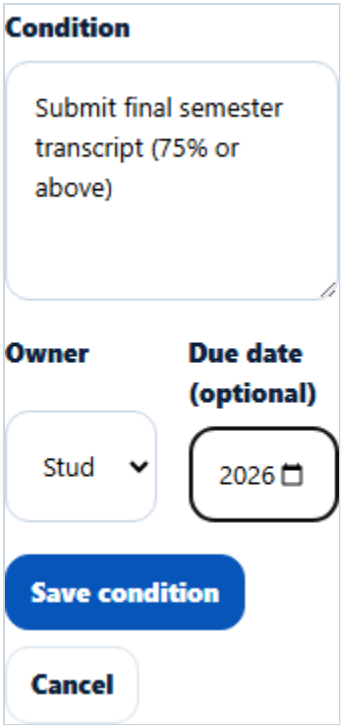

Steps

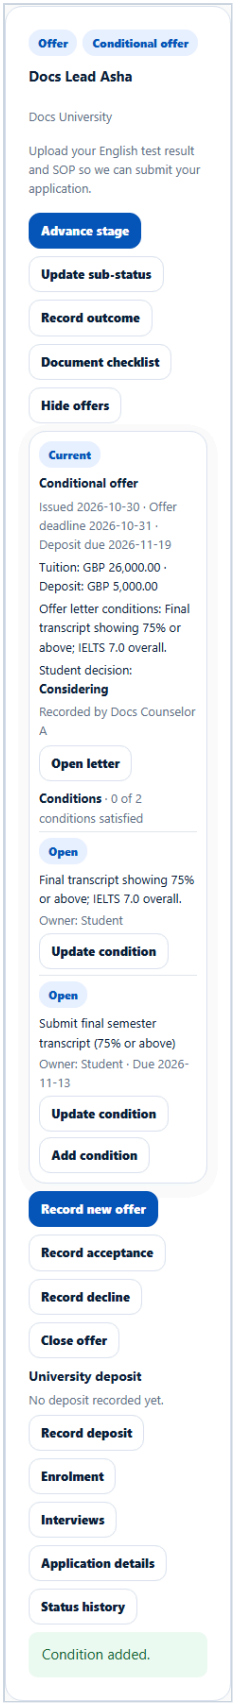

Step 1 — See the conditions

The conditions you typed when recording a conditional offer are listed with their status (**Open**) and owner, plus "{n} of {m} conditions satisfied".

Step 2 — Add a condition

Select **Add condition**. Enter the **Condition** text, the **Owner** (**Student** or **Counselor**; **Agent** too on agency applications) and an optional **Due date**. Select **Save condition**. **Condition added.** appears.

Condition
Submit final semester transcript (75% or above)
Owner
Due date (optional)
Stud
2026
Save condition
Cancel

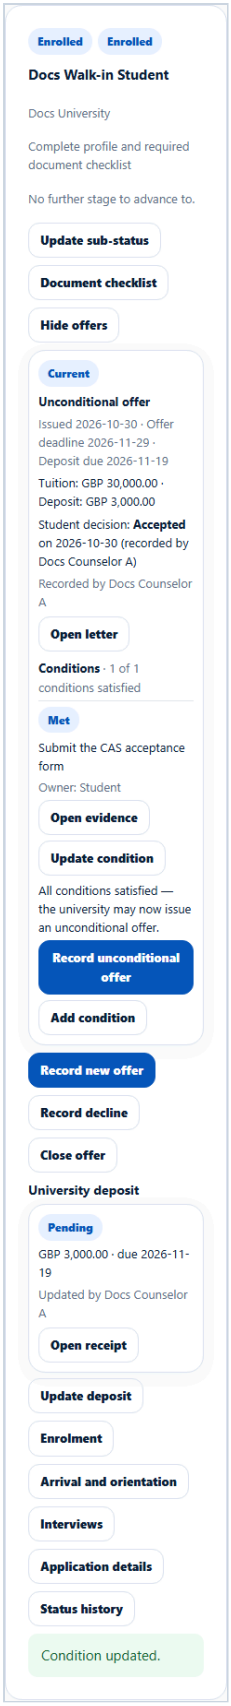

Step 3 — Update a condition

Select **Update condition** and set the **Status**: **Open**, **Met**, **Waived** or **Failed**. Attach **Evidence** (pick a document or upload one) before marking it **Met**. Add a **Note** when it is **Waived** or **Failed**.

Condition updated. appears and the condition shows **Met**.

When every condition is met, a banner says “All conditions satisfied — the university may now issue an unconditional offer.” with a **Record unconditional offer** shortcut.

Fields

Field	Description	Required	Example
Condition	What must be done	Yes	Submit final semester transcript (75% or above)
Owner	Student, Counselor (Agent on agency applications)	Yes	Student
Due date (optional)	Deadline	No	13 Nov 2026
Status	Open, Met, Waived, Failed	Yes	Open
Evidence	Document proving it is met	For Met	—
Note	Why waived or failed	For Waived / Failed	—

Expected Result

The student is notified of each change (“Offer condition: {text} – {status}.”). Due dates feed the “Offer condition due” reminder.

Validation Messages

Message	When
Condition added. / Condition updated. / Nothing changed.	Saved
Attach the evidence before marking the condition met	Met without evidence
Give a note when a condition is waived or failed	Waived/Failed without note
Conditions can be changed only on the current offer	Older offer

Related Features

- Record, close or decide an offer

Admission interviews

> Doc ID: DOC-CNS-OFR-003 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Record a university admission interview so the student knows when and how it happens, then record the result.

Who Can Use This Feature

The counselor assigned to the application (read only once the application is closed).

Prerequisites

None.

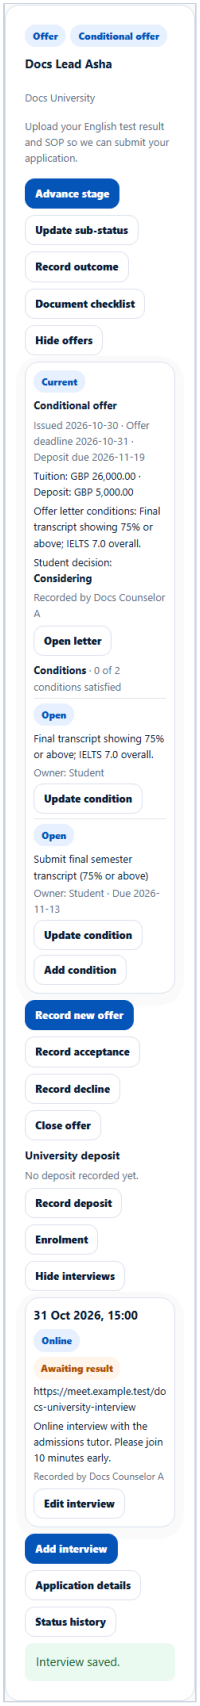

How to Access

Evaluate Applications → the application → **Interviews**.

Steps

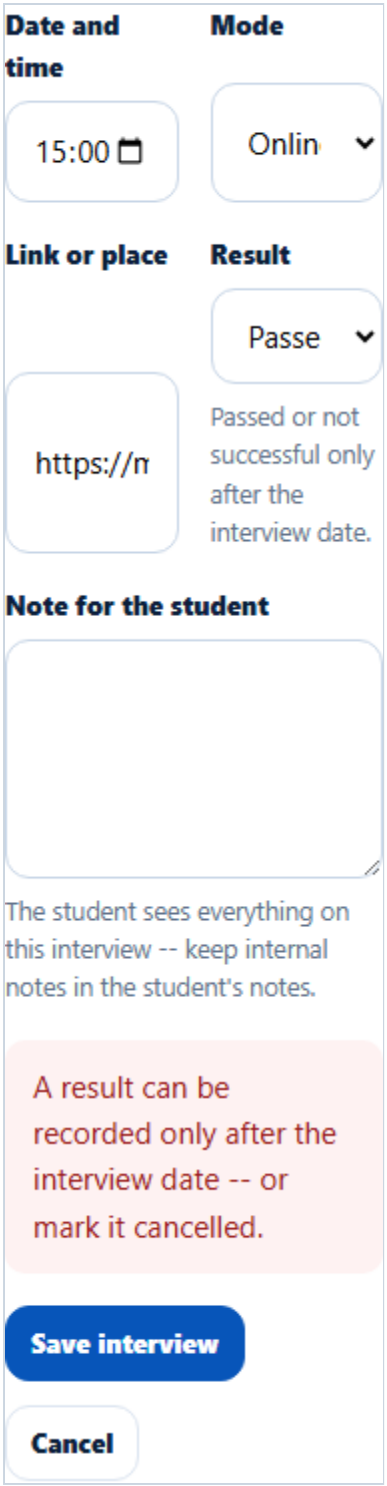

Step 1 — Add the interview

Select **Add interview**. Enter the **Date and time**, **Mode** (**Online**, **In person** or **Phone**), **Link or place**, **Result** (**Awaiting result** for now) and a **Note for the student**. “The student sees everything on this interview – keep internal notes in the student’s notes.” Select **Save interview**. **Interview saved.** appears.

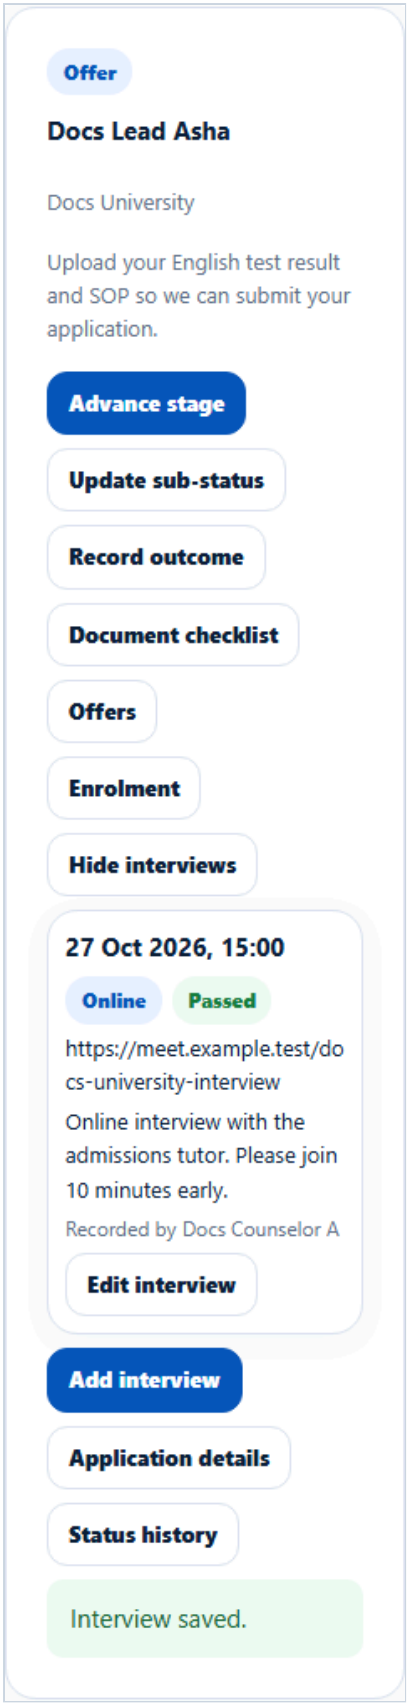

Step 2 — Record the result after the interview

Select **Edit interview** and set **Result** to **Passed** or **Not successful**. You can only do this once the interview date has passed; before then you can only mark it **Cancelled**.

After the interview date, choose **Passed** (or **Not successful**) and select **Save interview**.

Fields

Field	Description	Required	Example
Date and time	When	Yes	31 Oct 2026, 15:00
Mode	Online, In person, Phone	Yes	Online

Field	Description	Required	Example
Link or place	Meeting link or address	No	https://meet.example.test/…
Result	Awaiting result, Passed, Not successful, Cancelled	Yes	Awaiting result
Note for the student	Shown to the student	No	Please join 10 minutes early.

Expected Result

The student is notified (“Interview scheduled”, then “Interview updated” or the result).

Validation Messages

Message	When
Interview saved.	Success
A result can be recorded only after the interview date – or mark it cancelled.	Result too early
An application can hold at most 20 interviews	Limit reached

Related Features

- Record, close or decide an offer

Application document checklist

> Doc ID: DOC-CNS-DOC-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Track the documents an application needs, from the Overseas Admin's checklist template, and see when they are complete.

Who Can Use This Feature

The counselor assigned to the application.

Prerequisites

A checklist template matches the application's country (and any university, level or intake). Templates are set by the Overseas Admin (admin guide *(see the Administrator Manual)*).

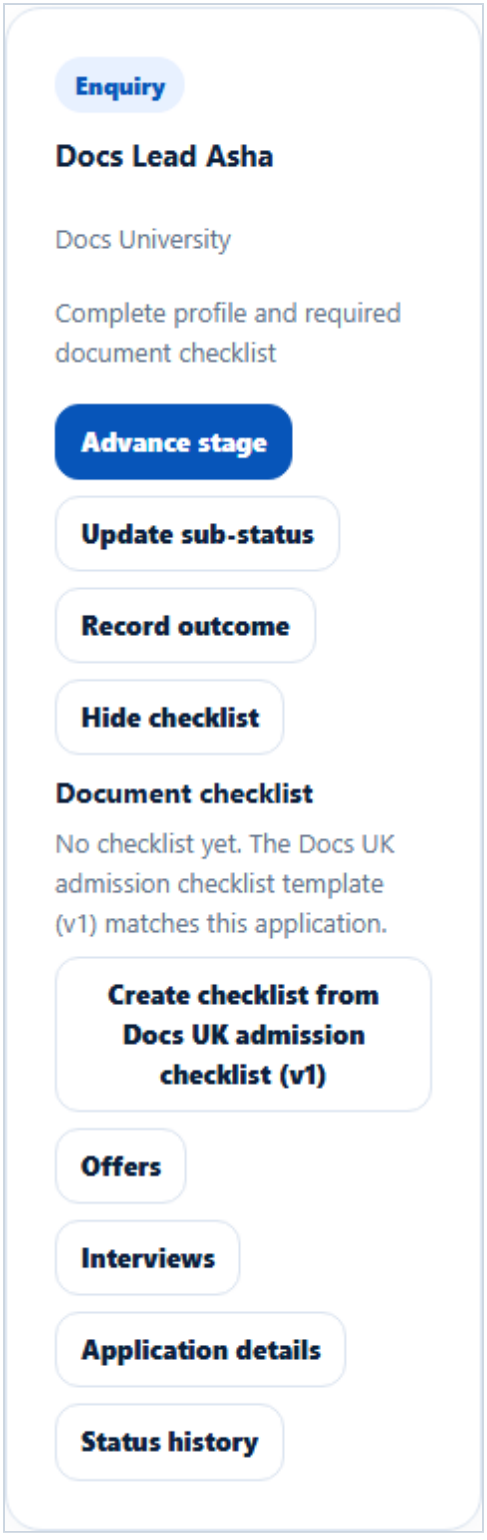

How to Access

Evaluate Applications → the application → **Document checklist** (select **Hide checklist** to close it).

Steps

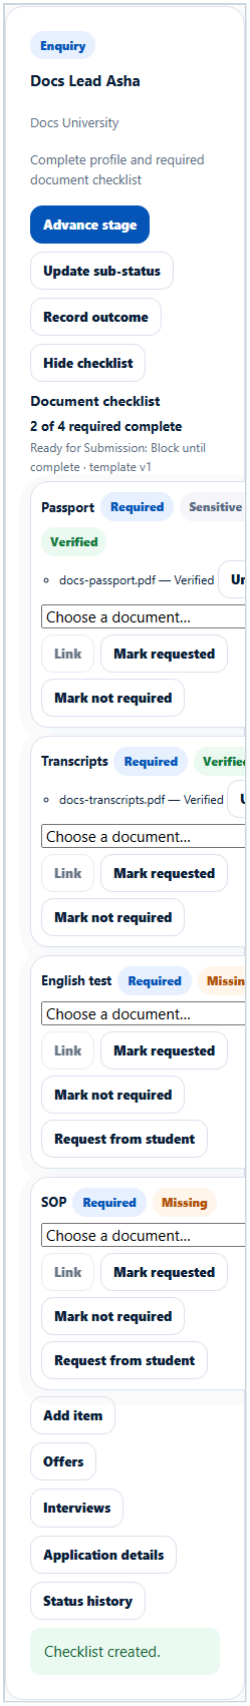

Step 1 — Create the checklist

The first time, the panel says "No checklist yet. The {template} template (v{n}) matches this application." Select **Create checklist from {template} (v{n})**. If no template matches, select **Create an empty checklist**.

Step 2 — Read the checklist

- The summary shows "{x} of {y} required complete", the gate mode (for example **Ready for Submission: Block until complete**) and the template version.
- Each item shows **Required** or **Optional**, its sensitivity and its status (**Missing**, **Pending review**, **Verified**, …).
- Documents uploaded for the application are linked automatically.

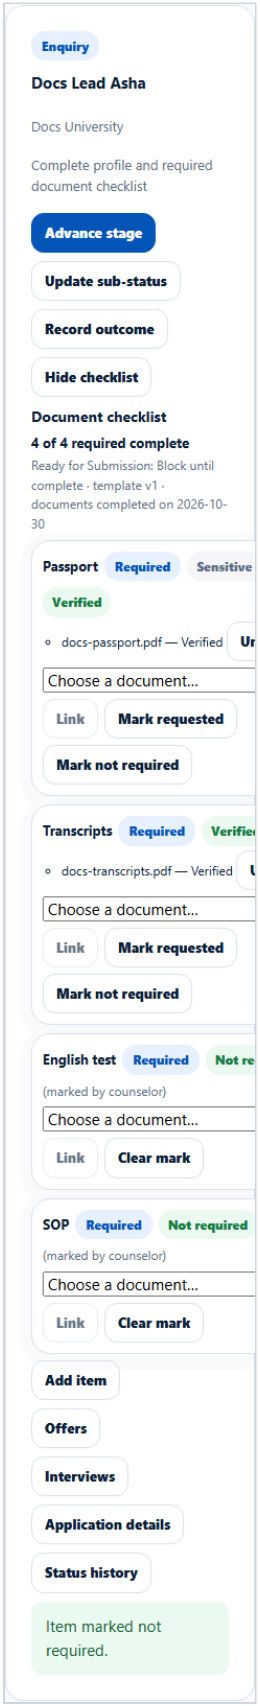

Checklist after creation

Step 3 — Work the items

- **Choose a document…** + **Link**: link one of the student's documents; **Unlink** removes it.
- **Mark requested**, **Mark not required** and **Clear mark** set the item's state; the item shows "(marked by counselor)".

- **Request from student**: sends a document request with a due date (see Request documents).
- **Add item**: adds a document that isn't on the template. Items you added can be removed with **Remove**.

When everything required is complete, the summary shows "documents completed on {date}".

Expected Result

The checklist controls the Ready-for-Submission gate. An item counts as complete when its document is **Verified** (or **Approved**, for a CV or SOP) or it is marked **Not required**.

Validation Messages

Message	When
Checklist created. / Checklist item added. / Document linked. / Document unlinked.	Success
Item marked requested. / Item marked not required. / Mark cleared.	Marks
A template item cannot be removed – mark it Not required instead	Removing a template item
Choose a current document of this application's student	Wrong document

Common Errors

Problem: An uploaded document still shows **Pending review**. **Resolution:** Review it in **Documents** → Document Verification.

Tips

- The cards are narrow on a normal screen, so item buttons may wrap or be clipped at the right edge; scroll within the card.

Related Features

- Sub-status and the Ready-for-Submission gate
- Documents page and document status

Documents page and document status

> Doc ID: DOC-CNS-DOC-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Review your students' application documents (verify them, ask for a re-upload or set an expiry date) and see each document's status.

Who Can Use This Feature

Overseas counselors, for documents tied to their own applications.

Prerequisites

The document is tied to one of your applications.

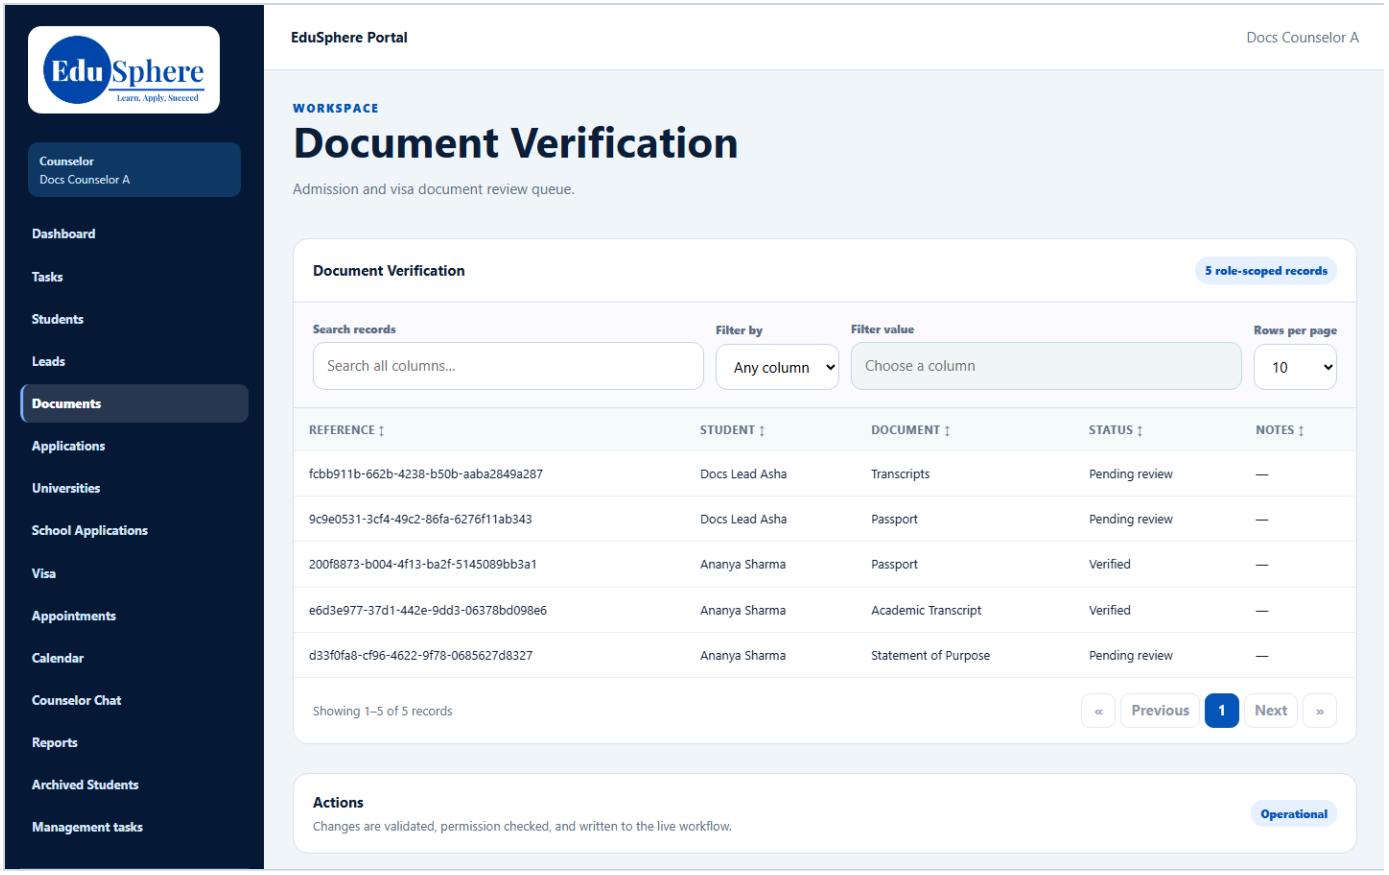

How to Access

- **Review:** sidebar **Documents** (page **Document Verification**).
- **Status per student:** Student 360 → **Documents**.

Steps

Step 1 — Open Document Verification

The table lists the documents of your applications with **Student**, **Document**, **Status** and **Notes**. Below it, each document has **View document**, **Review** and **Replace file**.

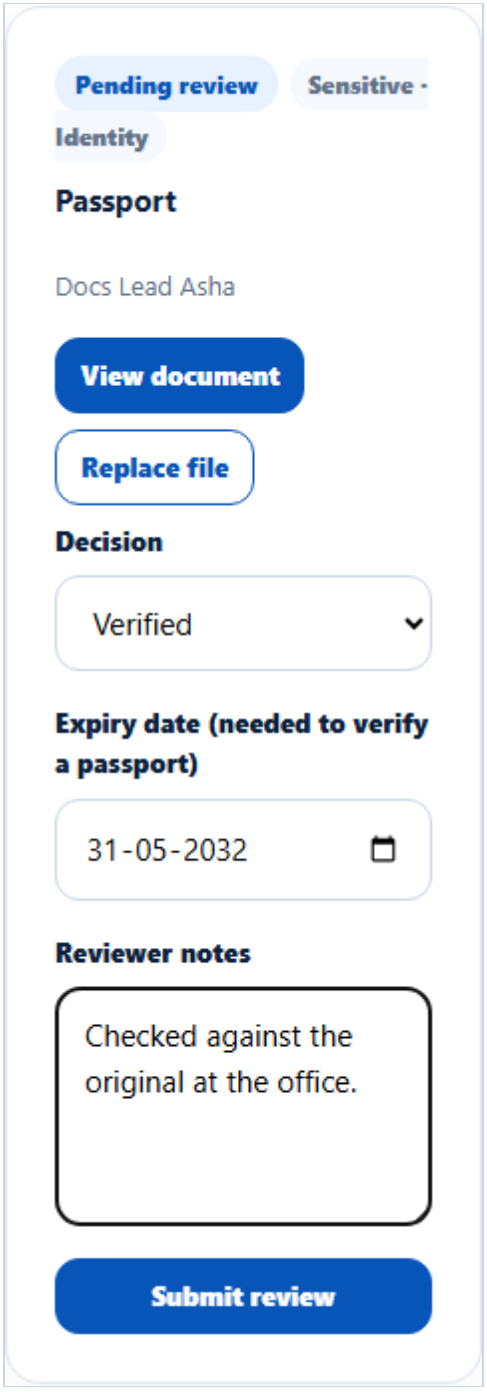

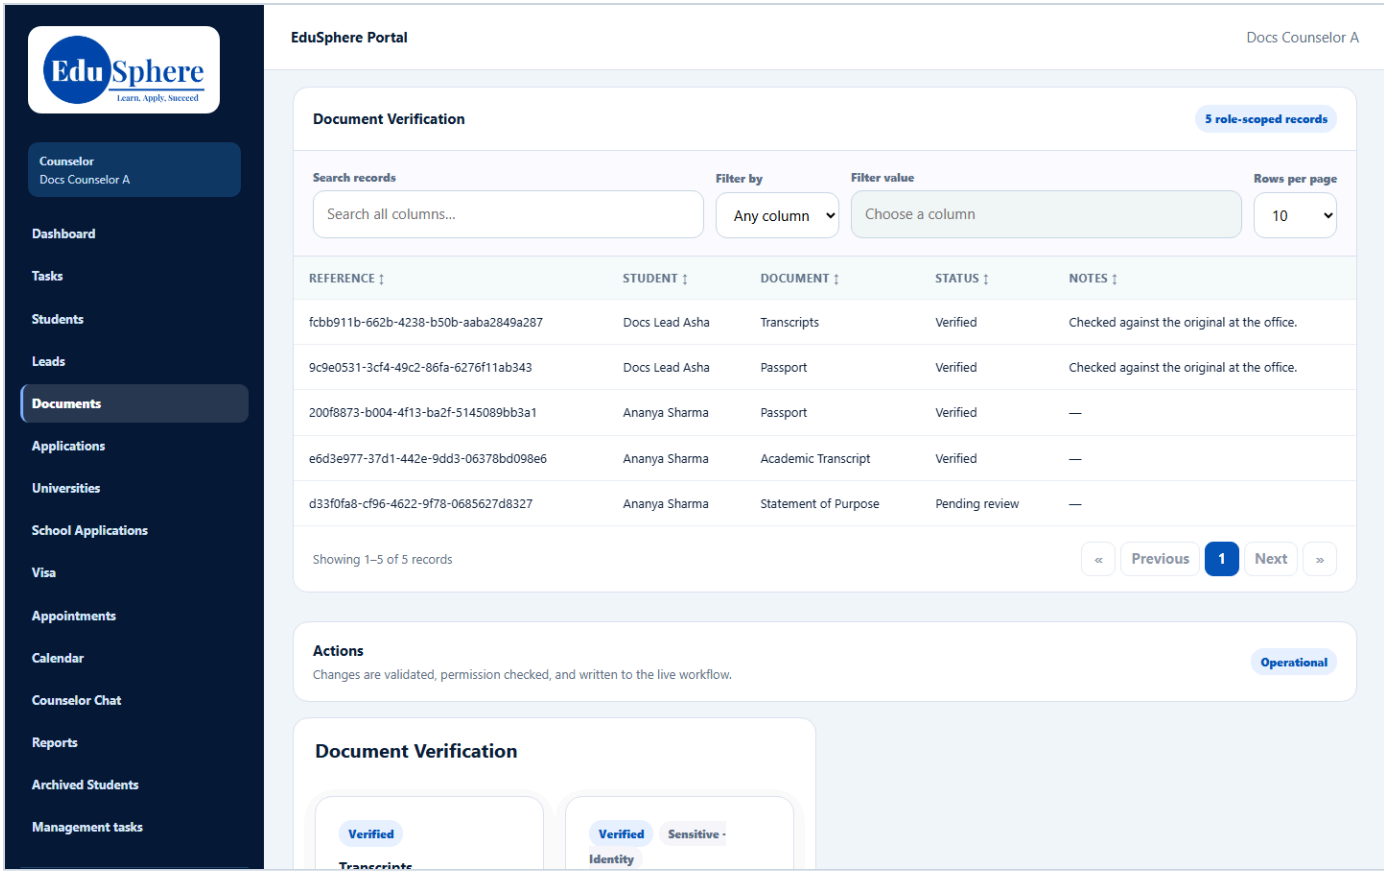

Step 2 — Review a document

Select **Review** and fill in:

- **Decision**: **Verified**, **Under review**, **Incomplete**, **Re-upload required** or **Not required**. CV and SOP also have Draft, Review and Approved.
- **Expiry date**: required to verify a passport.
- **Reviewer notes**.

Select **Submit review**. **Document reviewed – the student has been notified.** appears.

Pending review
Sensitive · Identity
Passport
Docs Lead Asha
View document
Replace file
Decision
Verified
Expiry date (needed to verify a passport)
31-05-2032
Reviewer notes
Checked against the original at the office.
Submit review

Step 3 — See status on the Student 360

The **Documents** tab lists the student's current documents. Each shows its status, application (or "Not linked to an application"), upload date, expiry and reviewer, with **Download** where allowed.

Fields

Status	Meaning
Pending review	Uploaded, not yet reviewed
Verified	Accepted
Under review / Incomplete / Re-upload required	Needs more work
Expired	Past its expiry date (nightly job)
Not required	Not needed for this student

Expected Result

Verified documents count as complete on the checklist.

Validation Messages

Message	When
Document reviewed – the student has been notified.	Success

Common Errors

Problem: A document you uploaded isn't in Document Verification. **Cause:** The queue lists only documents tied to one of your applications. A document uploaded as "Not tied to an application" can't be reviewed here. **Resolution:** Upload it again and choose the application.

Problem: The 360 Documents tab has no Review button. **Resolution:** Review on the Documents page.

Related Features

- Upload a document for the student
- Application document checklist

Request documents from the student

> Doc ID: DOC-CNS-DOC-003 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Ask the student to upload a document by a due date, and track whether they have.

Who Can Use This Feature

Overseas counselors, for their students.

Prerequisites

None. Tying the request to an application is optional.

How to Access

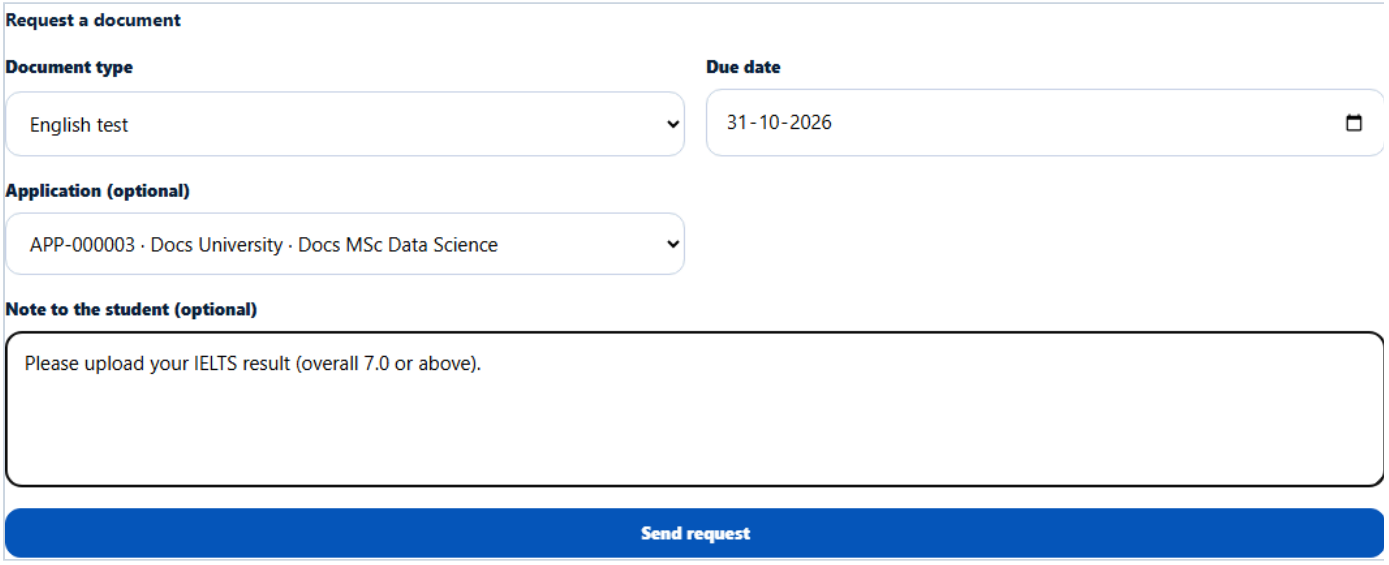

Student 360 → **Documents** → **Document requests**.

Steps

Step 1 — Fill in Request a document

Fill in:

- **Document type**: Passport, Academic certificates, Transcripts, English test, CV, SOP, LOR, Financial documents or Other.
- **Name**: only when the type is Other.
- **Due date**: today or later.
- **Application (optional)** and **Note to the student (optional)**.

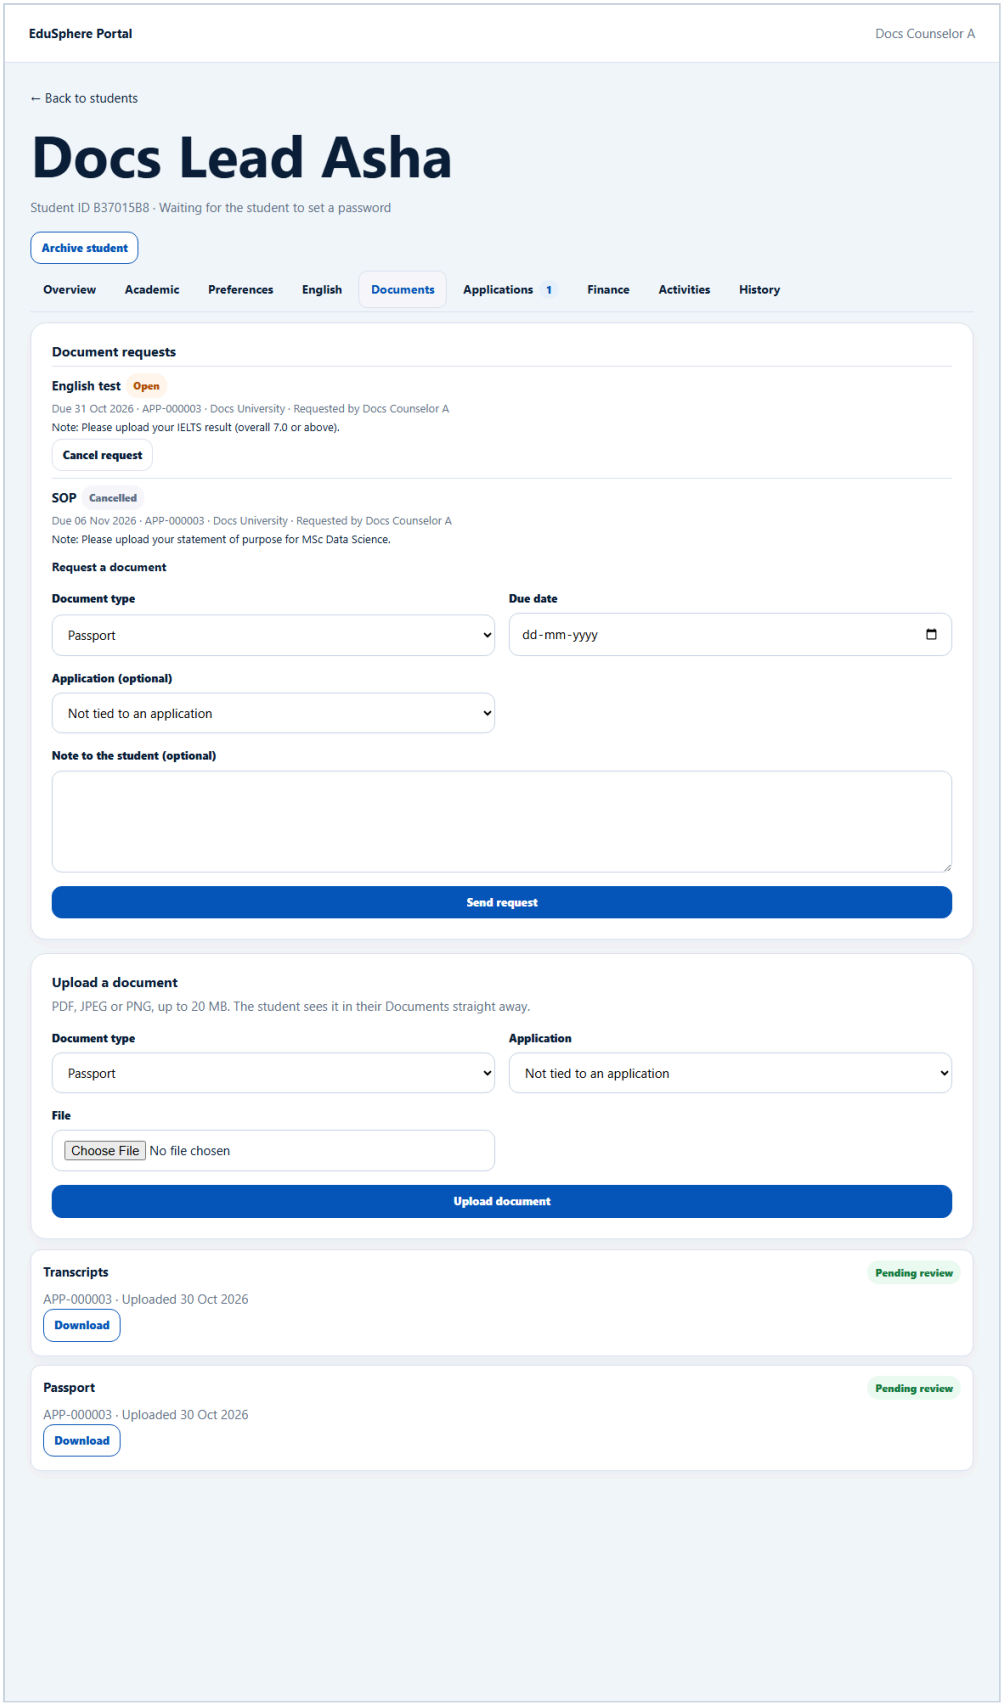

Request a document

Step 2 — Send

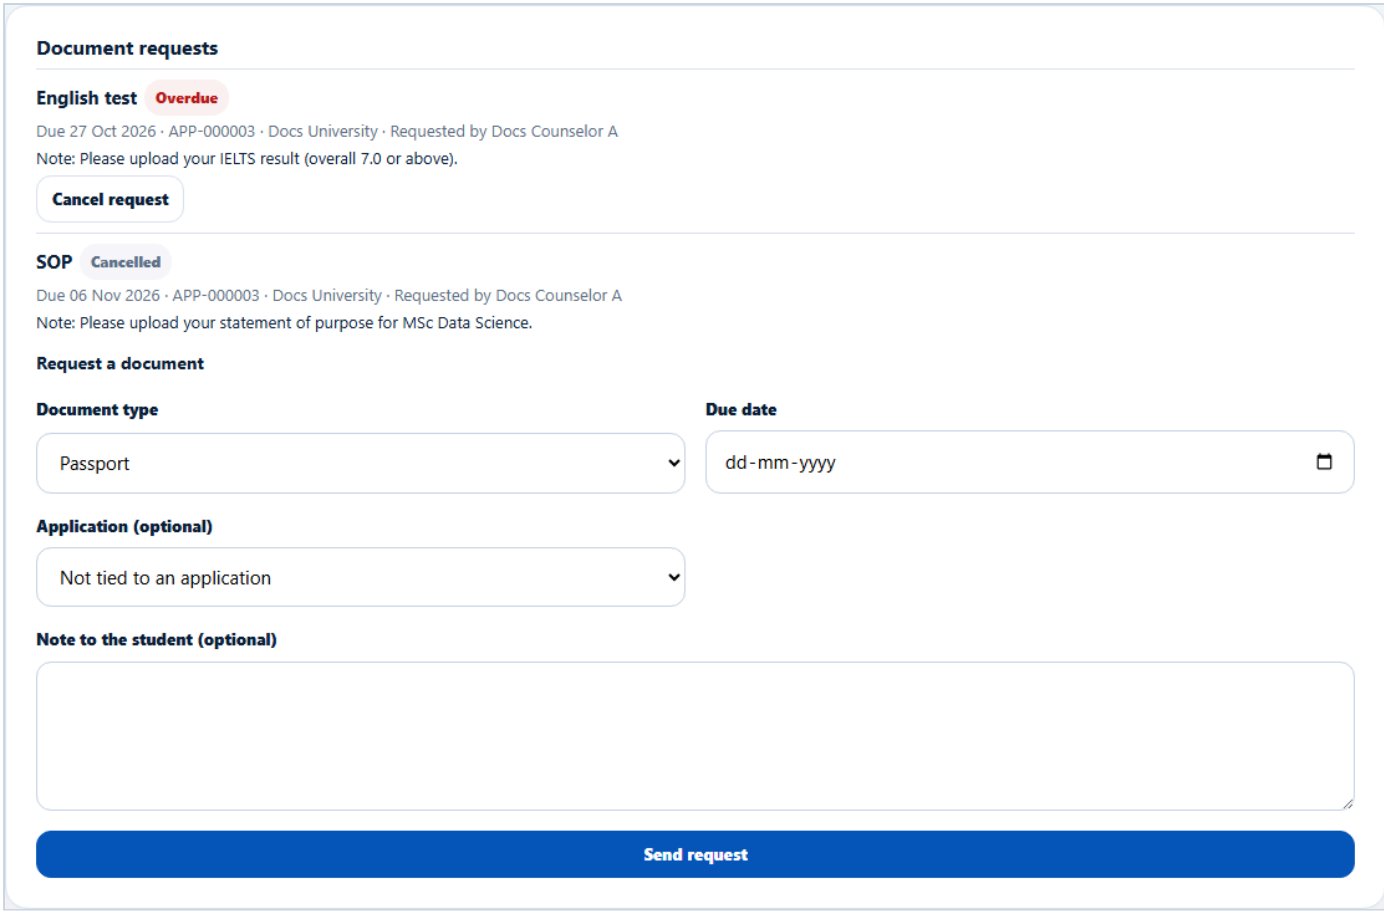

Select **Send request**. **Request sent to the student.** appears. The student is notified: “{name}: please upload it by {date}.”

Step 3 — Track requests

Each request shows its status (**Open**, **Uploaded**, **Cancelled**, or **Overdue** once past due), the due date, the application, who requested it and the note. Select **Cancel request** to withdraw an open one. **Request for {name} cancelled.** appears.

Once the due date passes, an open request shows **Overdue**, and the “Document request overdue” reminder creates a task for you.

Fields

Field	Description	Required	Example
Document type	See Step 1	Yes	English test
Due date	Today or later	Yes	31 Oct 2026
Application (optional)	One of your open applications	No	APP-000003 · Docs University
Note to the student (optional)	Up to 1000 characters	No	Please upload your IELTS result…

Expected Result

When the student uploads, the request becomes **Uploaded**. Overdue requests feed the reminder “Document request overdue”.

Validation Messages

Message	When
Request sent to the student.	Success
Request for {name} cancelled.	Cancelled
Choose a due date from today onwards	Past date
An open request for this document already exists	Duplicate

Message	When
This request has already been fulfilled or cancelled	Too late to cancel

Tips

- From a checklist item, **Request from student** fills in the document for you.

Related Features

- Application document checklist
- Reminder rules (admin) *(see the Administrator Manual)*

Upload a document for the student

> Doc ID: DOC-CNS-DOC-004 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Upload a document on the student's behalf, for example a passport copy they brought to the office or an offer letter. The student sees it in their Documents straight away.

Who Can Use This Feature

Overseas counselors, for their students (not archived students).

Prerequisites

A PDF, JPEG or PNG file up to 20 MB.

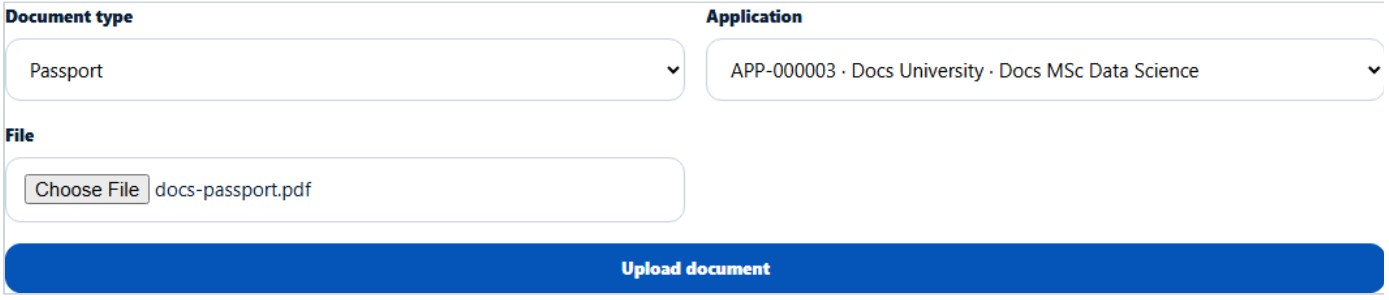

How to Access

Student 360 → **Documents** → **Upload a document**.

Steps

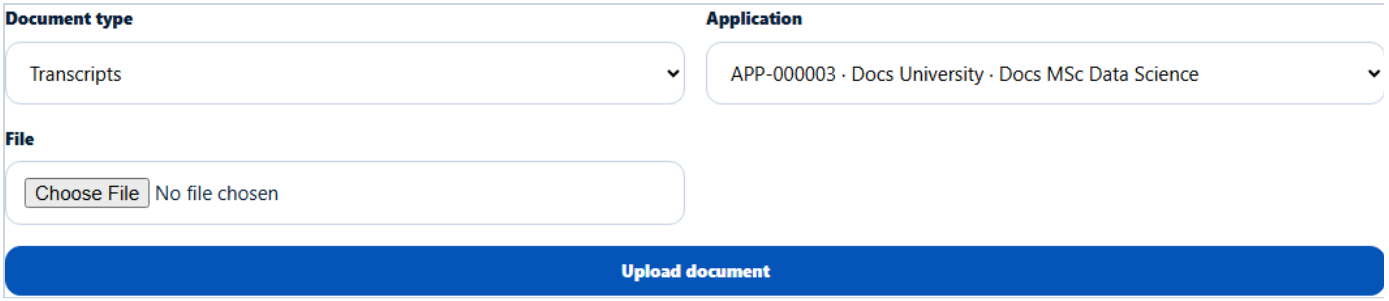

Step 1 — Choose the document type and application

Pick the **Document type**. **Offer letter** appears once the student has an application. Choose the **Application**. Always choose one if the document is for an application: only documents tied to your application can be reviewed in Document Verification.

Step 2 — Choose the file and upload

Choose the **File** and select **Upload document**. **Uploaded. The student can see it in their Documents.** appears. The document starts as **Pending review** and is linked to the matching checklist item automatically.

Fields

Field	Description	Required	Example
Document type	As for requests, plus Offer letter	Yes	Passport
Name	Only for Other (2–80 characters)	For Other	—
Application	The application it belongs to, or “Not tied to an application”	Required for Offer letter	APP-000003 · Docs University
File	PDF, JPEG or PNG, up to 20 MB	Yes	docs-passport.pdf

Expected Result

The document appears on the student’s Documents tab and, if tied to your application, in Document Verification.

Start and track a visa case

> Doc ID: DOC-CNS-VISA-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Track a student's visa from preparation to decision: checklist, appointment, submission and the final outcome.

Who Can Use This Feature

The counselor assigned to the application.

Prerequisites

- An agency application must be at **Offer** or later; a direct application can start a visa case at any stage.
- The documents on the visa checklist are uploaded and **Verified** before the case can move past preparation (see Documents page).

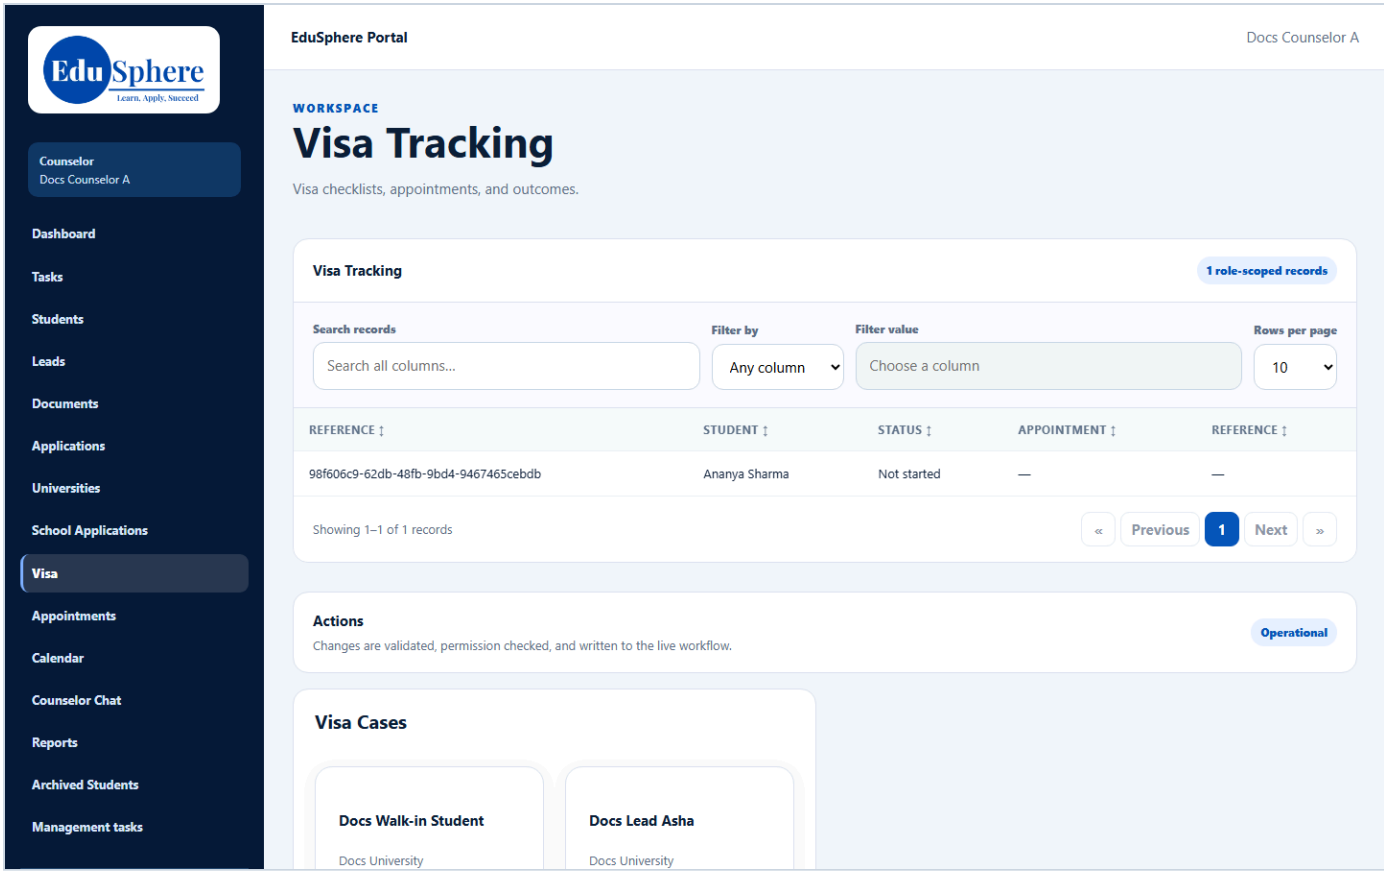

How to Access

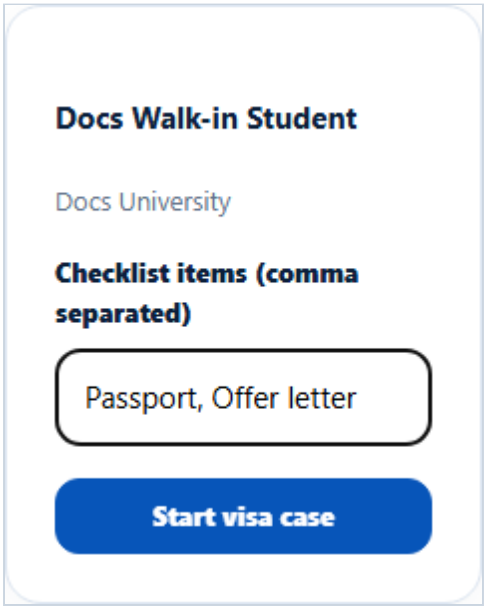

Sidebar **Visa**. The page title is **Visa Tracking**, and the **Visa Cases** card has one block per application.

Steps

Step 1 — Start the visa case

In the student's block, enter the **Checklist items (comma separated)**, for example "Passport, Offer letter", and select **Start visa case**. **Visa case started.** appears.

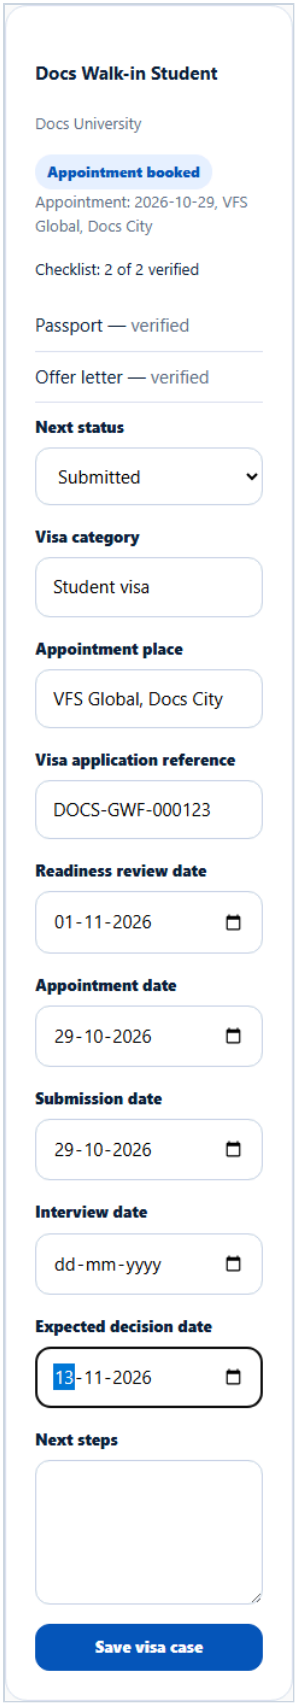

Step 2 — Move the case forward

Choose the **Next status** and fill the fields for that step, then select **Save visa case**. **Visa status set to {status}.** appears.

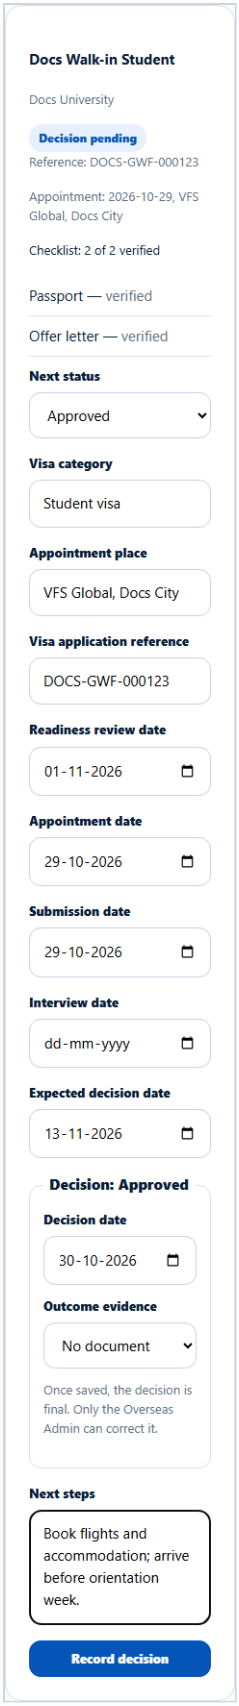

- **Preparing:** Readiness review date, Visa category.
- **Appointment booked:** Appointment date, Appointment place.
- **Submitted:** Submission date, Visa application reference, Expected decision date.
- **Decision pending.**

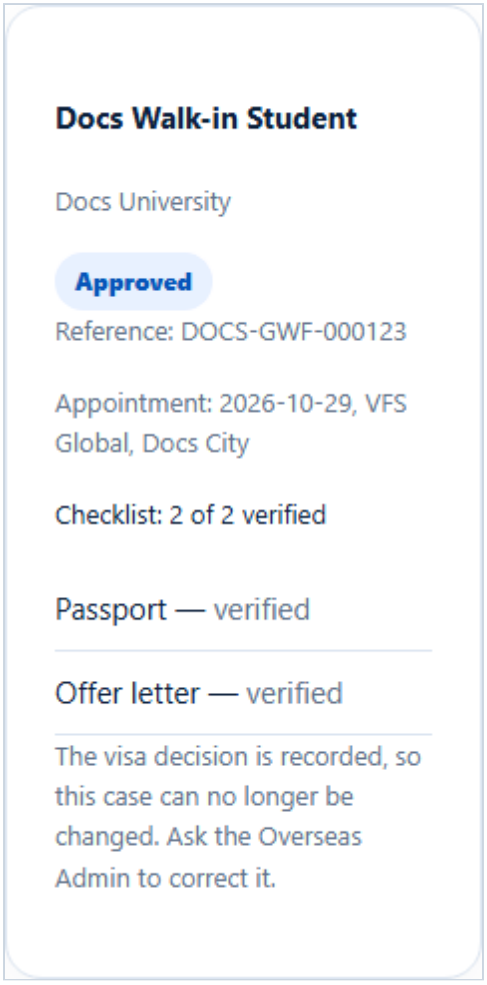

The block shows “Checklist: {x} of {y} verified” with each item’s status.

Step 3 — Record the decision

Choose **Approved**, **Refused** or **Withdrawn**. Enter the **Decision date**, optional **Outcome evidence** and **Next steps**; a refusal also needs the **Refusal reason (counselor and admin only)**. “Once saved, the decision is final. Only the Overseas Admin can correct it.” Select **Record decision**.

Record decision

Fields

Status	Meaning
Not started → Preparing → Appointment booked → Submitted	Forward only
Additional information requested ⇄ Decision pending	Can go back and forth
Approved / Refused / Withdrawn	Final

Expected Result

- The student is notified “Your visa case is now: {status}.” They never see the refusal reason.
- The application’s sub-status follows the case: Visa preparation, Visa applied, Visa decision pending, Visa approved.
- **Approved** moves the application to **Status Tracking**. **Refused** closes the application.

Validation Messages

Message	When
Visa case started. / Visa status set to {label}. / Visa details saved.	Success
Cannot advance past the checklist stage – not yet verified: {items}.	Checklist documents not verified

Message	When
That status change is not allowed – a visa case moves forward, except between Additional information requested and Decision pending	Moving backwards
Add the appointment date before marking the appointment booked	Missing date
Add the submission date before marking the visa application submitted	Missing date
Add the refusal reason before recording a refusal	Refusal without reason
The decision date cannot be in the future	Future date

Common Errors

Problem: “Cannot advance past the checklist stage”. **Cause:** A checklist document isn’t uploaded and verified. **Resolution:** Upload it, tied to the application, and verify it in **Documents**.

Tips

- “Visa decisions are made by the relevant government or immigration authority. EduSphere does not decide visa outcomes.”
- The Student 360 has no Visa tab; use the **Visa** page.
- Your calendar feed includes students’ visa appointments.

University deposit record

> Doc ID: DOC-CNS-FIN-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Record whether a university needs a deposit for an application, how much, by when, and whether it has been paid.

Who Can Use This Feature

The counselor assigned to a direct application. On agency applications the deposit is paid through EduSphere and shown read-only.

Prerequisites

The application has an offer.

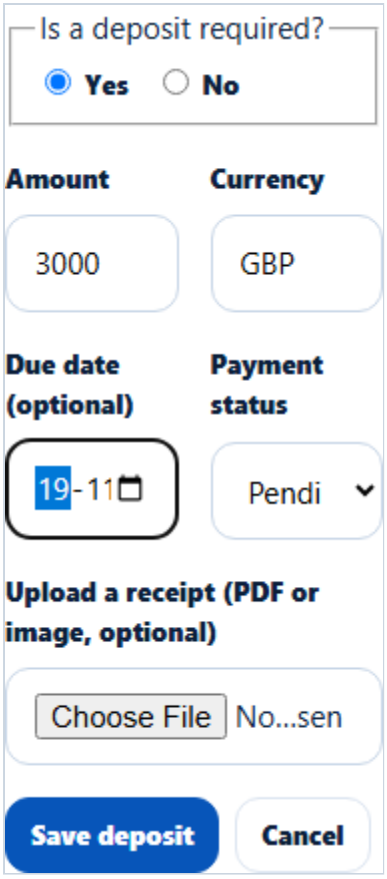

How to Access

Evaluate Applications → the application → **Offers** → **University deposit** → **Record deposit** (or **Update deposit**).

Steps

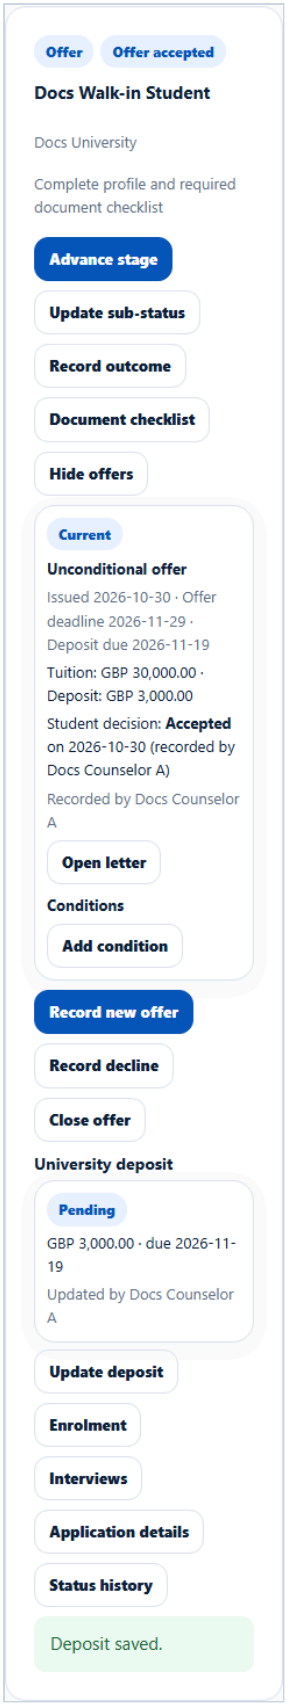

Step 1 — Fill in the deposit

Answer **Is a deposit required?** (**Yes** or **No**). Then enter the **Amount**, **Currency** and **Due date (optional)**, and choose the **Payment status**: **Pending**, **Paid directly to the university** or **Paid via EduSphere**. When it is paid, add **Paid on**. You can attach a receipt now or later.

Step 2 — Save

Select **Save deposit**. **Deposit saved.** appears and the deposit shows under **University deposit**.

Fields

Field	Description	Required	Example
Is a deposit required?	Yes / No	Yes	Yes
Amount, Currency	Deposit amount	When required	3000 GBP

Field	Description	Required	Example
Due date (optional)	When it must be paid	No	19 Nov 2026
Payment status	Pending, Paid directly to the university, Paid via EduSphere	Yes	Pending
Receipt	Upload or pick a receipt	No	—

Expected Result

The deposit appears on the student's Finance tab. The student is notified ("Deposit updated"). The due date feeds the "Deposit due" reminder.

Validation Messages

Message	When
Deposit saved.	Success
The agency pays this deposit through EduSphere – it is shown read-only	Agency application
Choose a deposit receipt uploaded for this application	Wrong receipt

Related Features

- Upload a deposit receipt or payment proof

Finance tab: fees, payments, deposits, refunds

> Doc ID: DOC-CNS-FIN-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor, Overseas Admin

Purpose

See a student's fees and payments, university deposits and refunds in one place.

Who Can Use This Feature

Counselors (your students) and the Overseas Admin. Only the Overseas Admin records fees.

Prerequisites

None.

How to Access

Student 360 → **Finance**.

Steps

Step 1 — Fees and payments

Each fee shows its description, amount, status and "Billed {date} · Due {date} · Invoice {number}". Statuses are Pending, Overdue, Paid, Failed, Refunded and Cancelled. If proof was uploaded, it shows "Uploaded proof: {name}" with **Download**.

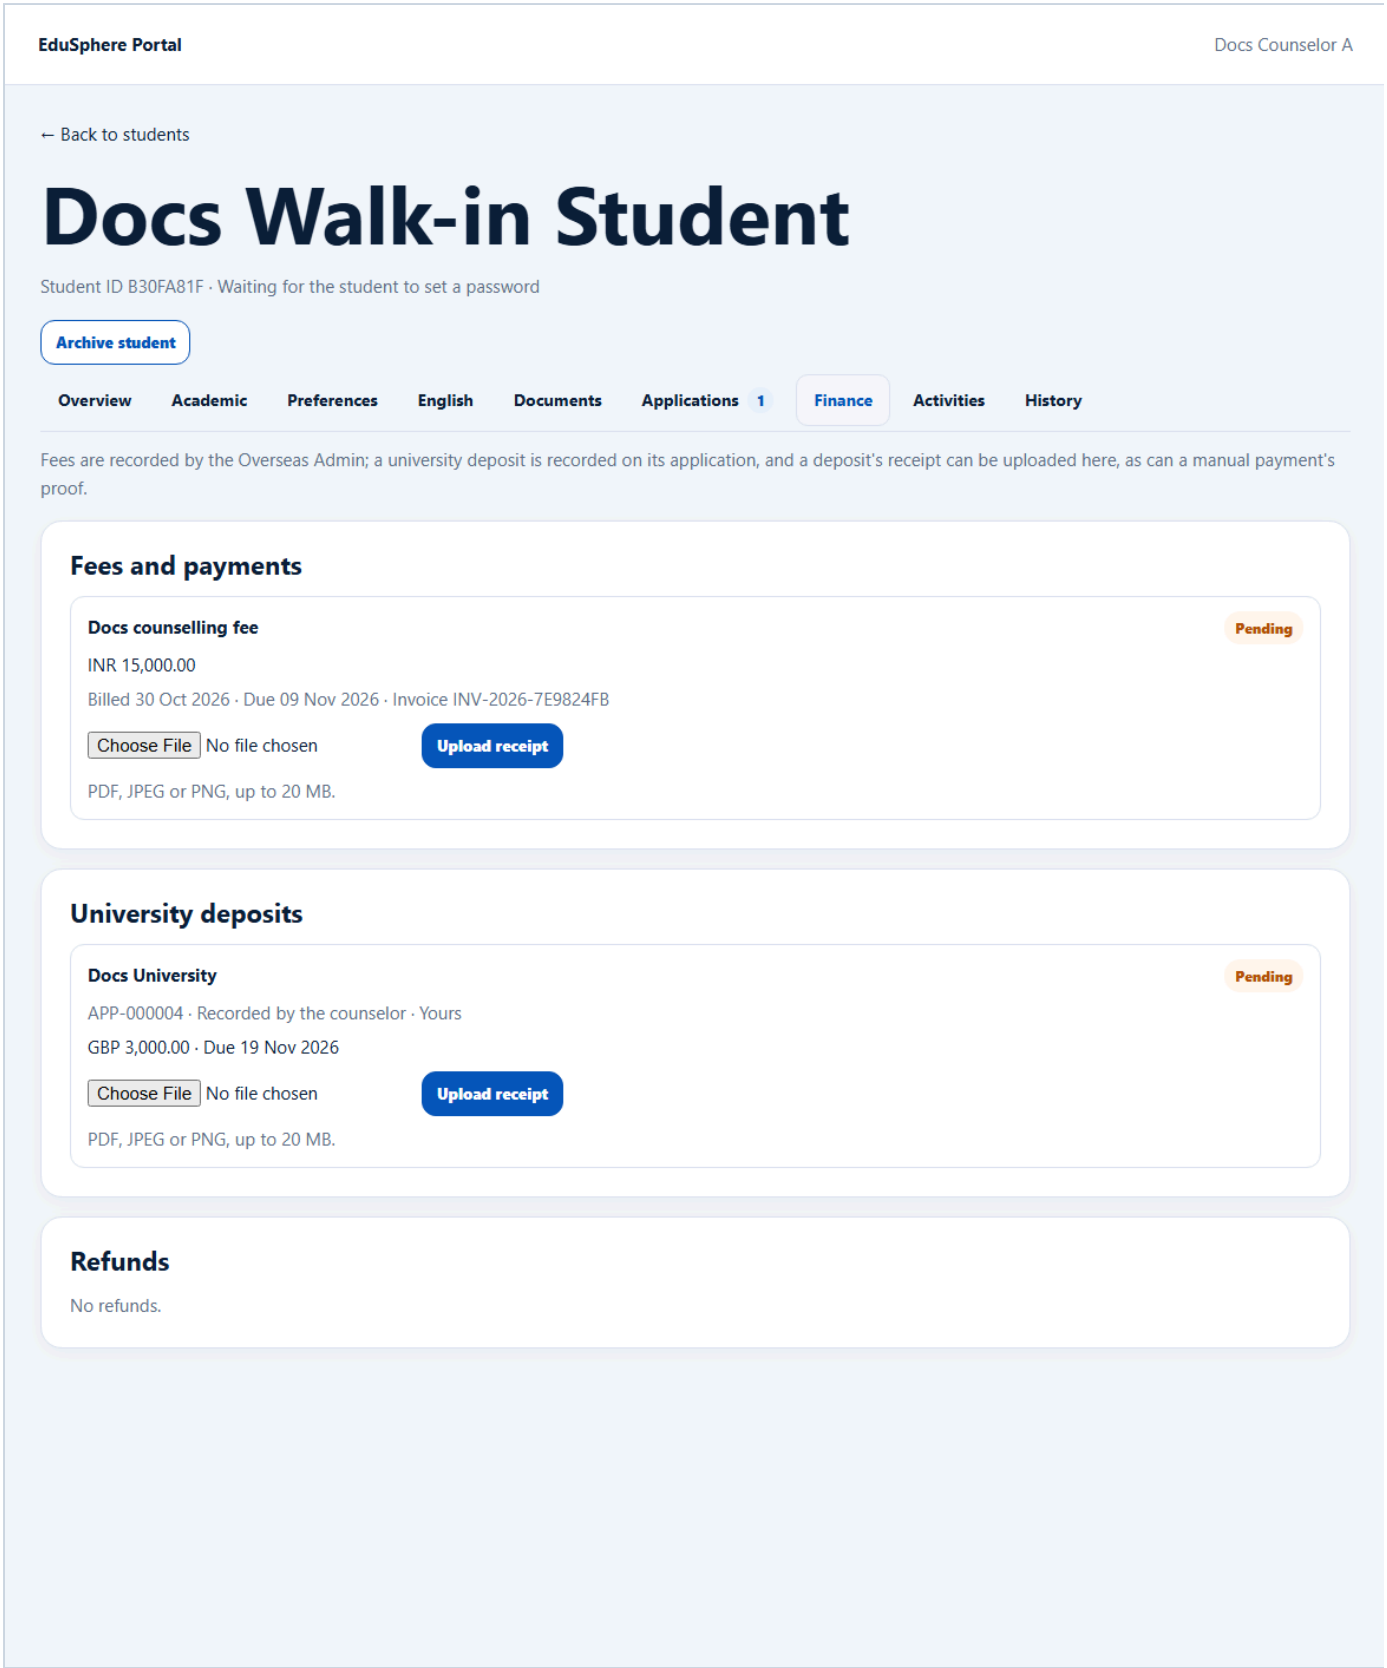

Step 2 — University deposits

Each application's deposit shows:

- the university and status;
- "{EduSphere ID} · Recorded by the counselor · Yours" (or "Paid by the agency");
- the amount and due date, and the receipt if uploaded.

Step 3 — Refunds

Refunded amounts with the date and application, or "No refunds."

Expected Result

You can answer “has the student paid?” without asking the accounts team.

Validation Messages

Message	When
No fees or payments recorded for this student.	No fees
No university deposit recorded on any application.	No deposits

Common Errors

Problem: You can’t download the invoice or system receipt. **Cause:** Those downloads are for the Overseas Admin only. **Resolution:** Ask the Overseas Admin.

Problem: You need to add a fee. **Cause:** Fees are recorded by the Overseas Admin. **Resolution:** Ask them.

- University deposit record

Upload a deposit receipt or payment proof

> Doc ID: DOC-CNS-FIN-003 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Attach proof that a fee or a university deposit was paid, for example a bank transfer slip the student brought in.

Who Can Use This Feature

Overseas counselors, for students in their caseload (not archived).

Prerequisites

- **Payment proof:** a manual (not online) fee recorded by the Overseas Admin.
- **Deposit receipt:** a required deposit recorded on your application.

How to Access

Student 360 → **Finance**.

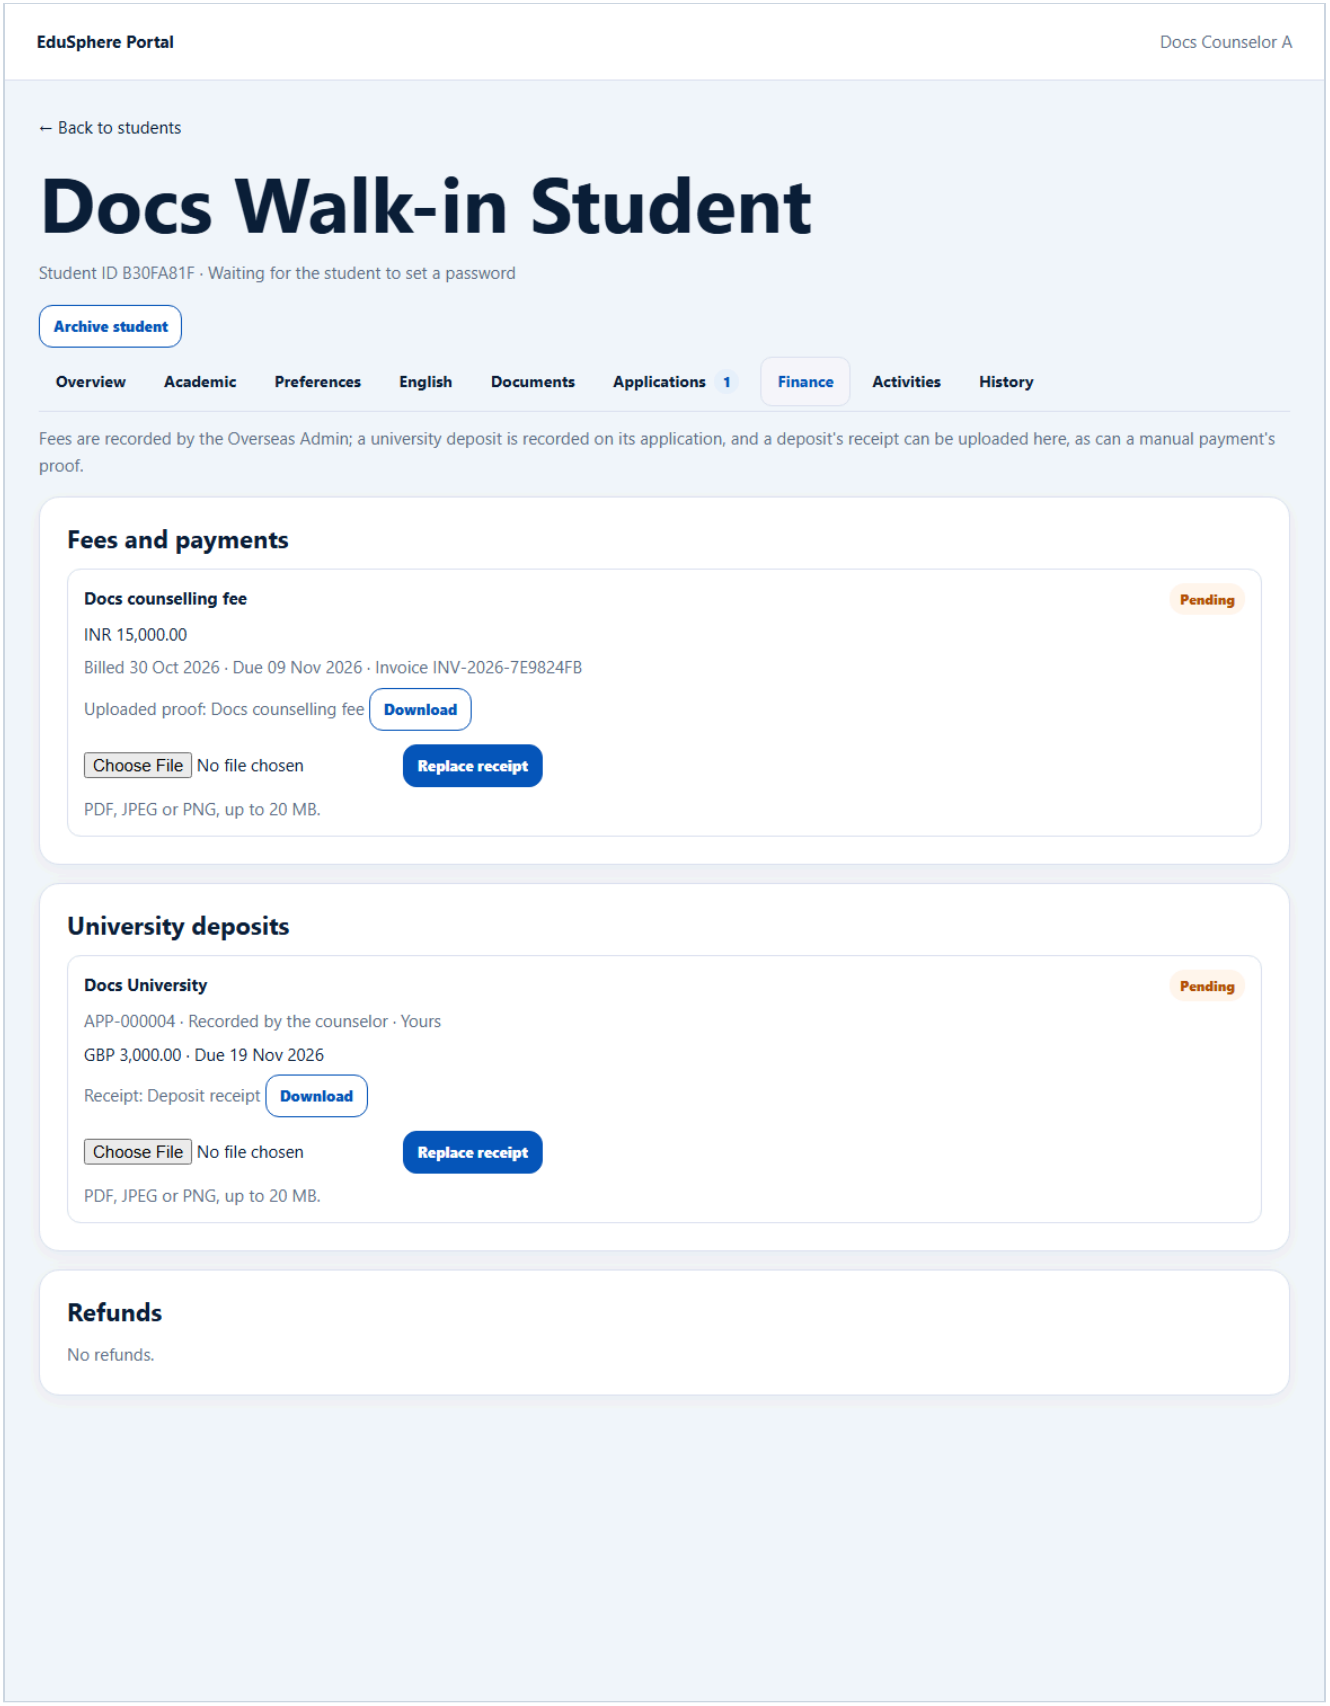

Steps

Step 1 — Choose the file

Under the fee or deposit, choose the file (PDF, JPEG or PNG, up to 20 MB).

Step 2 — Upload

Select **Upload receipt**. **Receipt uploaded. The student can see it in their Documents.** appears. The fee shows “Uploaded proof: {name}” and the deposit shows “Receipt: Deposit receipt”, each with **Download**. The button becomes **Replace receipt**.

Expected Result

The file is saved as a student document (Payment receipt or Deposit receipt), pending review. Uploading proof never changes the fee's amount or status; the Overseas Admin marks fees paid.

Validation Messages

Message	When
Receipt uploaded. The student can see it in their Documents.	Success
Choose a PDF, JPEG or PNG file first.	No file
Record a required deposit on the application first	No deposit
An online payment already has its system receipt	Online payment

Tips

- Any counselor who has the student in their caseload can upload or replace a payment proof.

- University deposit record

Confirm enrolment

> Doc ID: DOC-CNS-ARR-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

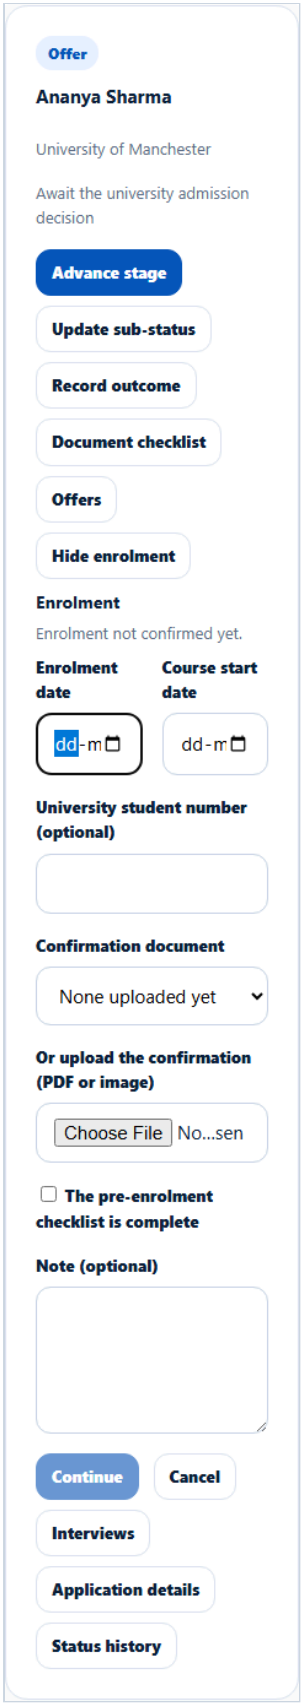

Mark an application **Enrolled** once the university confirms the student's enrolment, with the confirmation document.

Who Can Use This Feature

The counselor assigned to the application.

What each role sees

	Direct application	Agency application
Enrolment panel and **Confirm enrolment**	Yes	Also shown to the counselor. Stage changes say "Only the agency's Master confirms enrollment", but the Enrolment panel offers the same form

Enrolment form on an agency application

Prerequisites

- The application is at **Offer** or later and is open.
- You have the enrolment confirmation (PDF or image).

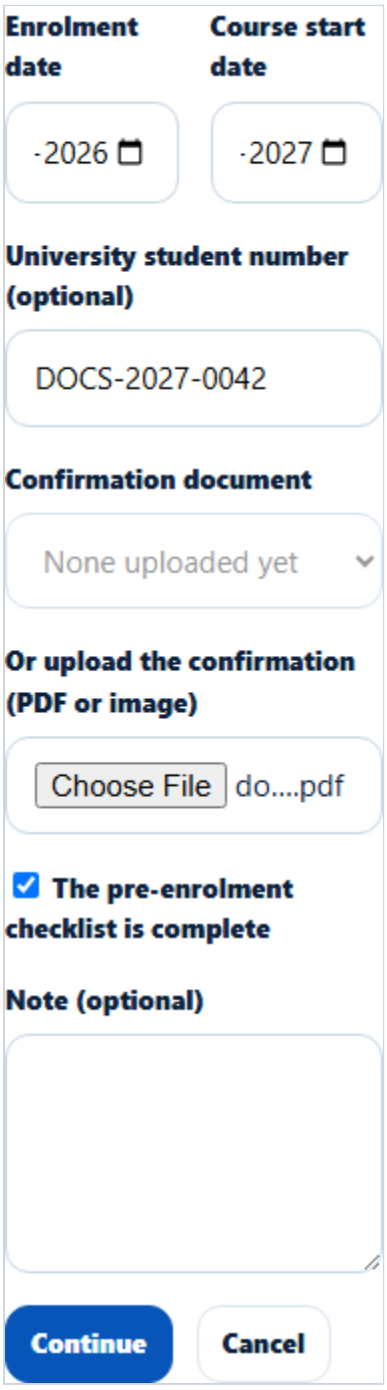

How to Access

Evaluate Applications → the application → **Enrolment** → **Confirm enrolment**.

Steps

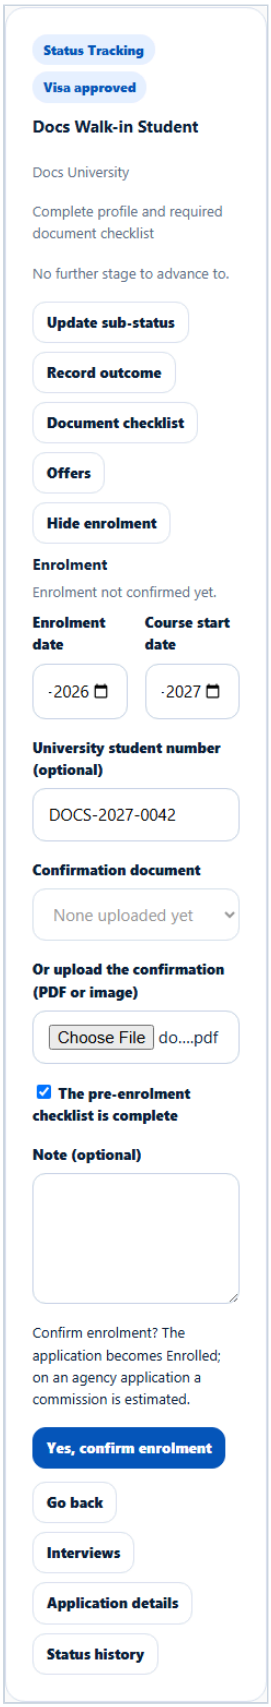

Step 1 — Fill in the enrolment

Enter the **Enrolment date**, **Course start date** and **University student number (optional)**. For **Confirmation document**, pick an uploaded one or use **Or upload the confirmation (PDF or image)**. Tick **The pre-enrolment checklist is complete** and add a **Note** if useful. Select **Continue**.

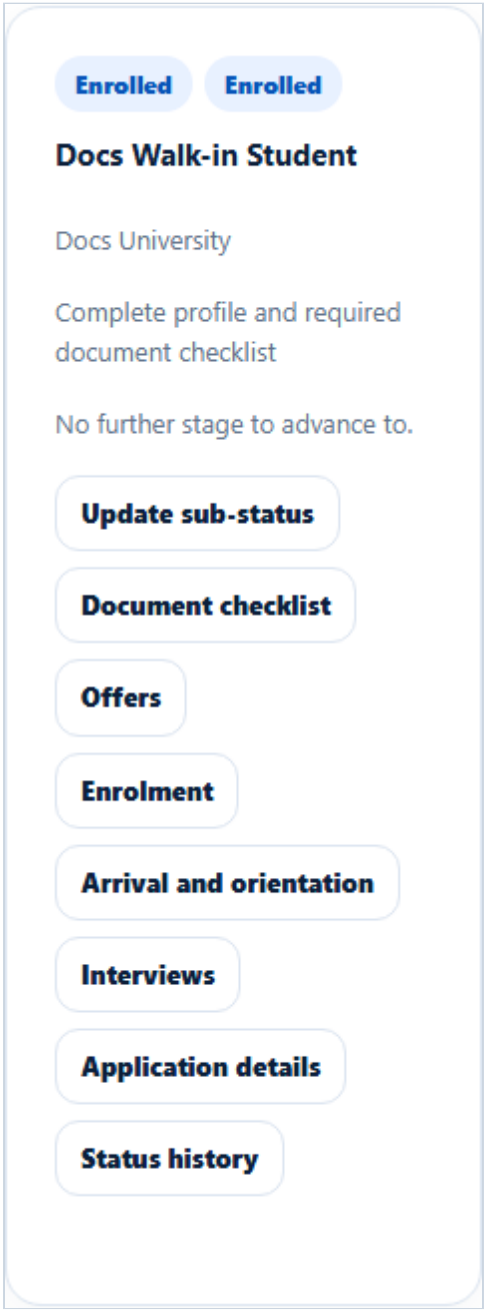

Step 2 — Confirm

EduSphere asks: “Confirm enrolment? The application becomes Enrolled; on an agency application a commission is estimated.” Select **Yes, confirm enrolment**, or **Go back**.

Step 3 — Done

Enrolment confirmed. appears. The application is **Enrolled**, and **Arrival and orientation** becomes available.

Fields

Field	Description	Required	Example
Enrolment date	Date of enrolment	Yes	30 Oct 2026
Course start date	When the course starts	Yes	20 Sep 2027
University student number (optional)	The university's ID	No	DOCS-2027-0042
Confirmation document	Uploaded or new file	Yes	docs-offer-letter.pdf
The pre-enrolment checklist is complete	Your confirmation	Yes	Ticked

Expected Result

- The student is notified (“Enrolment confirmed”).
- A linked lead becomes **Converted** within about 15 minutes.
- On an agency application, the agency commission is estimated.

Validation Messages

Message	When
Enrolment confirmed. / Enrolment details saved. / Nothing changed.	Success
Attach the enrolment confirmation: pick an uploaded one or upload the file.	No document
Confirm the pre-enrolment checklist is complete.	Box not ticked
Choose an enrolment confirmation uploaded for this application	Wrong document

Common Errors

Problem: Advance stage doesn’t offer **Enrolled**. **Resolution:** Use this panel; enrolment is only confirmed with the confirmation document.

Tips

- Enrolment doesn’t require a visa decision, so check the visa case first.

Related Features

- Arrival and orientation
- Student and milestones panel

Arrival and orientation

> Doc ID: DOC-CNS-ARR-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Record that an enrolled student has arrived at the university and attended orientation.

Who Can Use This Feature

The counselor assigned to the application.

Prerequisites

Enrolment is confirmed (see Confirm enrolment).

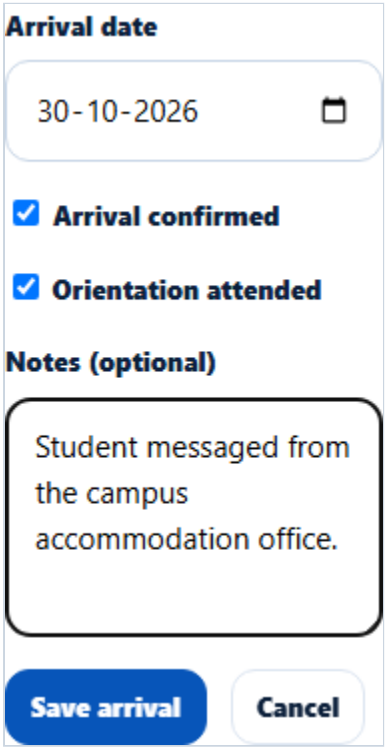

How to Access

Evaluate Applications → the application → **Arrival and orientation** → **Record arrival** (or **Edit arrival**).

Steps

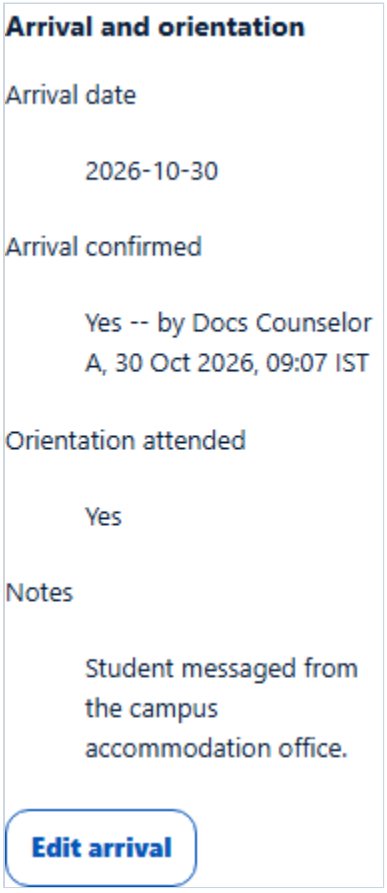

Step 1 — Fill in the arrival

Enter the **Arrival date**. Tick **Arrival confirmed**, then **Orientation attended** (it can only be ticked once arrival is confirmed). Add **Notes**, for example how arrival was confirmed.

Step 2 — Save

Select **Save arrival**. **Arrival saved.** appears. The panel shows the arrival date, “Arrival confirmed: Yes – by {name}, {time}”, orientation and notes.

Fields

Field	Description	Required	Example
Arrival date	Expected or actual; not in the future when confirmed	When confirmed	30 Oct 2026
Arrival confirmed	The student has arrived	No	Ticked
Orientation attended	Only after arrival is confirmed	No	Ticked
Notes	Up to 2000 characters	No	Student messaged from the campus accommodation office.

Expected Result

The arrival is recorded in the application’s history (the agency is told on agency applications). The student is not notified.

Validation Messages

Message	When
Arrival saved. / Nothing changed.	Success

Message	When
Arrival is recorded after enrolment is confirmed	Not enrolled
Enter the arrival date to confirm arrival	No date
A confirmed arrival date cannot be in the future	Future date
Confirm arrival before recording orientation	Orientation without arrival

Tips

- If the student never arrives, record the outcome **Non arrival** (see Record an outcome).

Related Features

- Confirm enrolment

Partner universities list

> Doc ID: DOC-CNS-UNI-001 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

Find a partner university quickly and open what it offers: courses, entry and English requirements, contacts and documents.

Who Can Use This Feature

Overseas counselors.

Prerequisites

Universities are published in the catalogue.

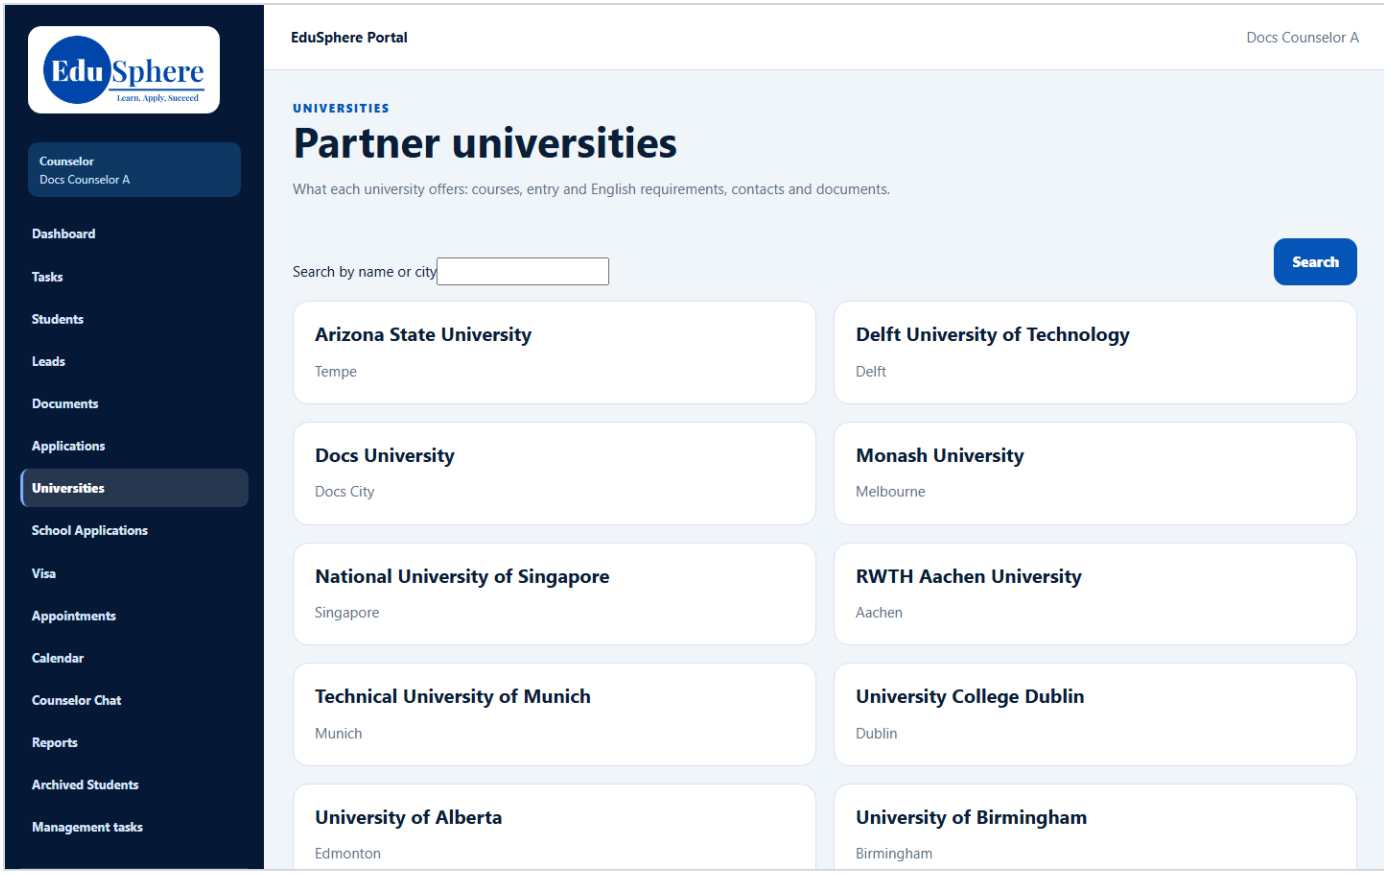

How to Access

Sidebar **Universities**. The page title is **Partner universities**.

Steps

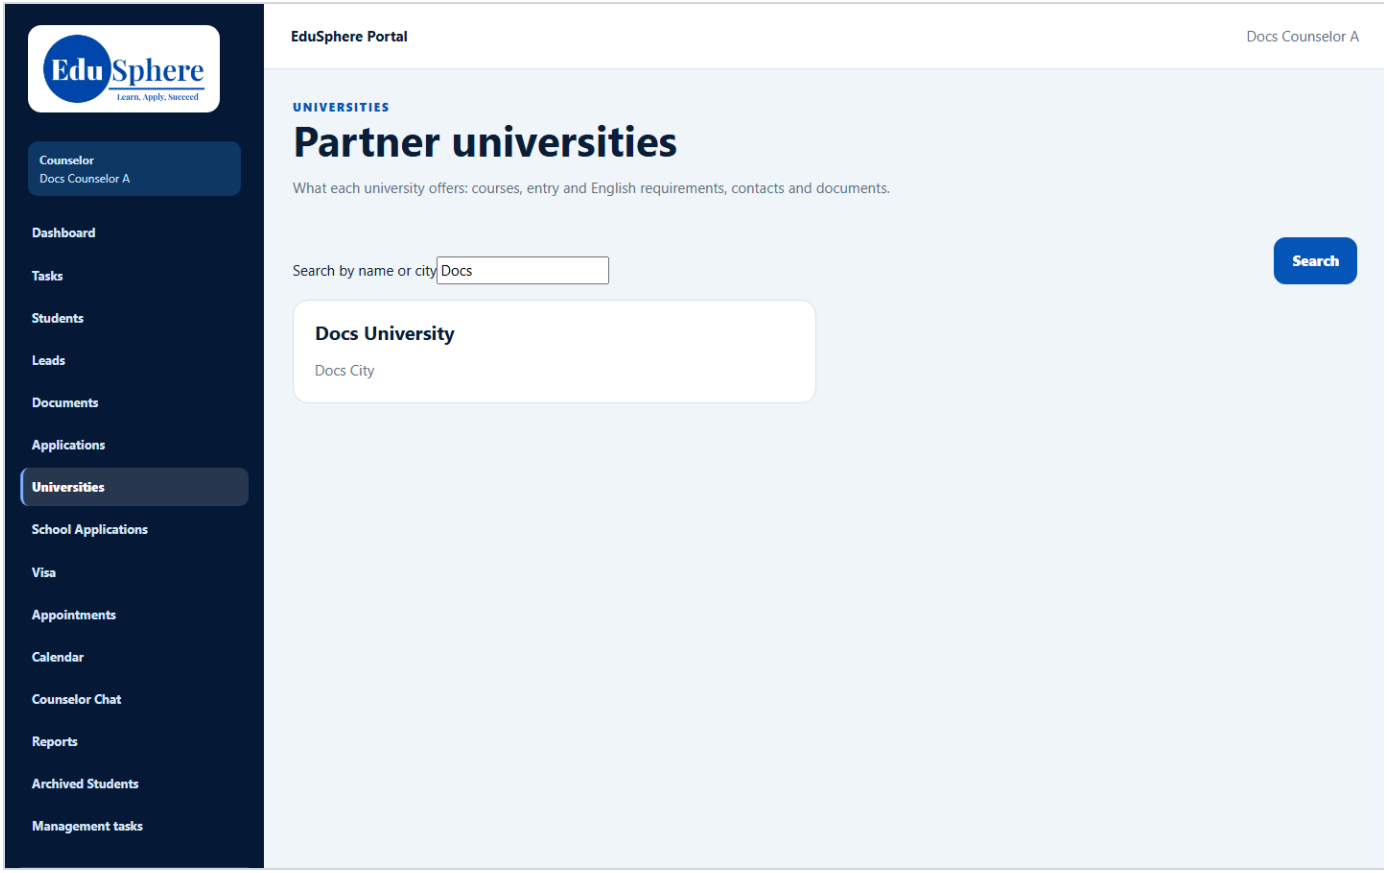

Step 1 — Browse

The page lists the published universities with their city, the first 50 at a time.

Step 2 — Search

Type in **Search by name or city** and select **Search**. Select a university to open it (see University 360 view).

Expected Result

Only published, active universities are listed.

Validation Messages

Message	When
No universities match “{search}”.	Nothing found
Showing 50 of {n}. Search to narrow the list.	More than 50

Related Features

- University 360 view
- Add an application

University 360 view

> Doc ID: DOC-CNS-UNI-002 · Verified on 2026-10-30 against `main` @ `045d8c40` · Roles: Counselor

Purpose

See one university's profile, courses, shareable contacts and documents, and your students' applications to it.

Who Can Use This Feature

Overseas counselors.

Prerequisites

The university is published.

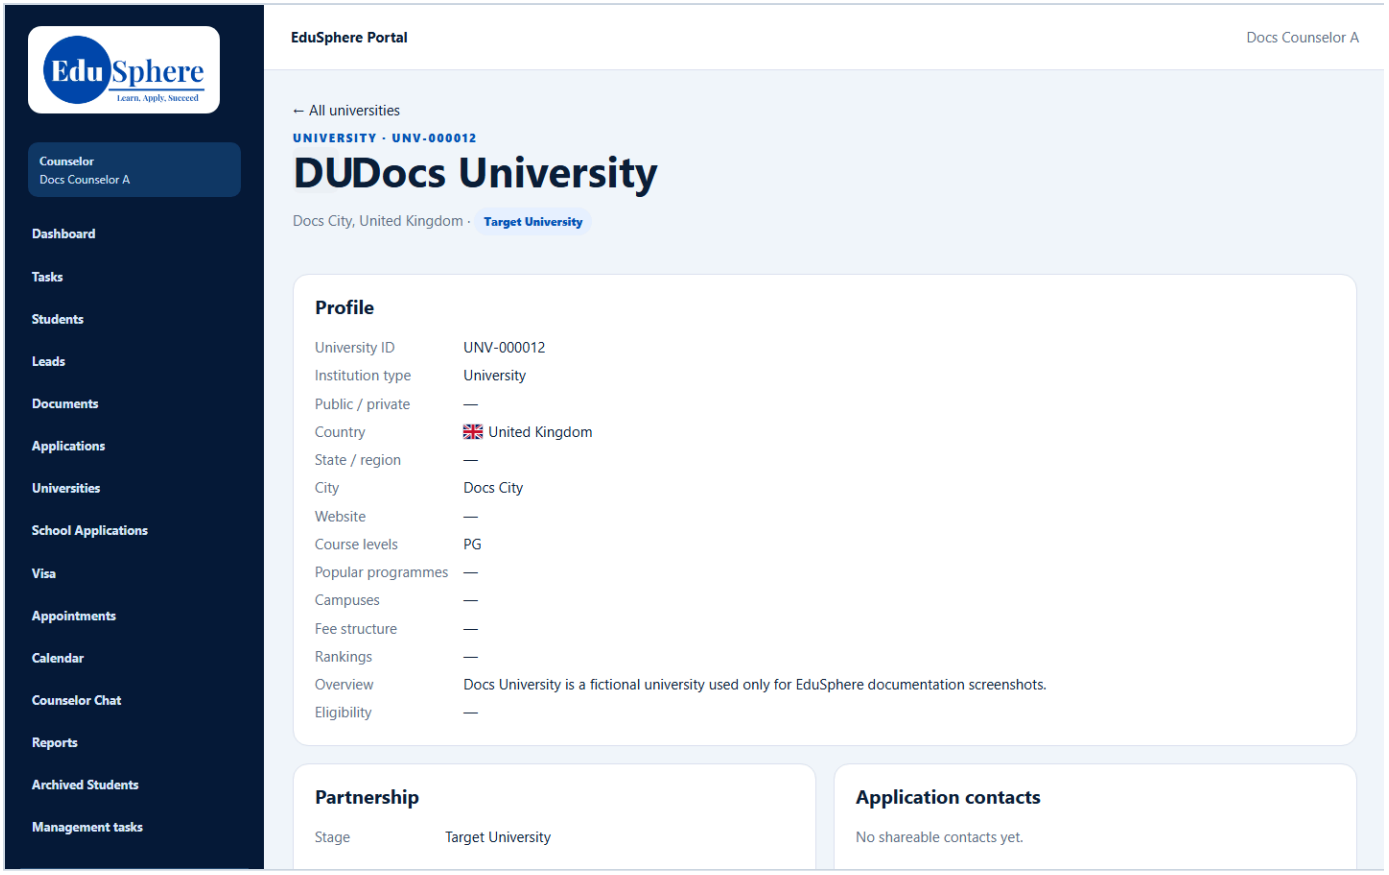

How to Access

Universities → select the university.

Steps

Step 1 — Profile and partnership

The **Profile** card shows the University ID, type, country, city, course levels, programmes, campuses, fee structure, rankings, overview and eligibility. **Partnership** shows its partnership stage.

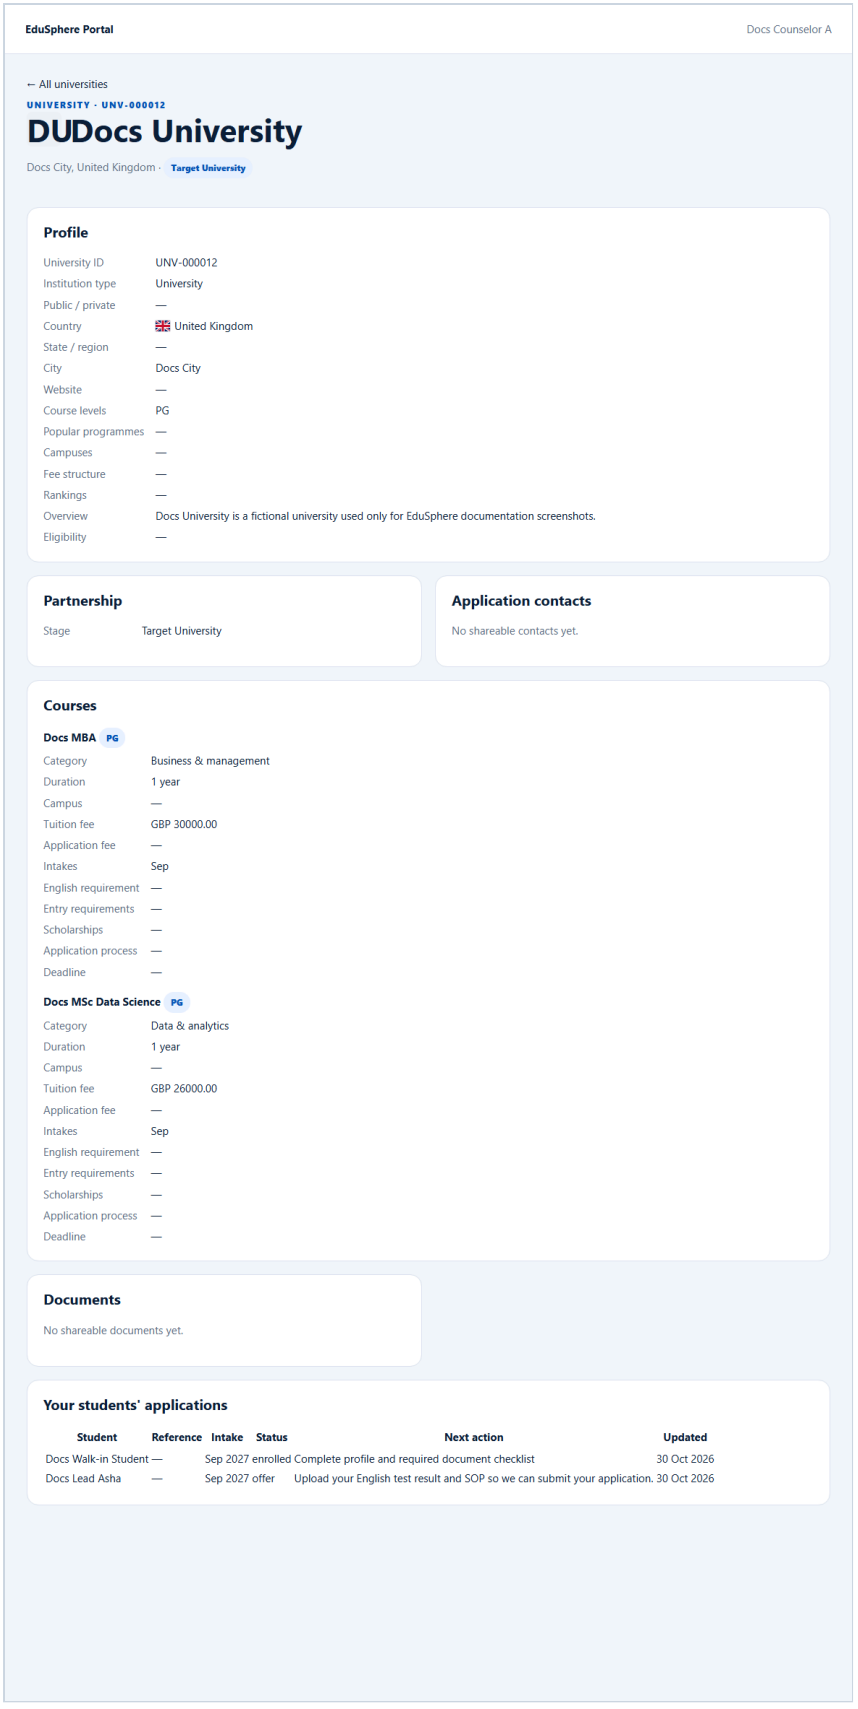

Step 2 — Courses, contacts and documents

- **Courses** lists each active course with level, category, duration, campus, tuition fee, application fee, intakes, English requirement, entry requirements, scholarships, application process and deadline.
- **Application contacts** and **Documents** show only items marked shareable.

Step 3 — Your students' applications

The table lists your students' applications to this university: Student, Reference, Intake, Status, Next action and Updated.

Expected Result

You have what you need to advise a student on this university.

Validation Messages

Message	When
No shareable contacts yet. / No active courses yet. / No shareable documents yet.	Nothing to show
No applications for this university yet.	None of your students applied

Common Errors

Problem: The heading reads “DUDocs University”. **Cause:** For a university without a logo, the logo’s initials are printed in front of the name. **Resolution:** Read the name without the initials.

Problem: The application **Status** shows codes such as `offer` or `enrolled`. **Cause:** This table shows the internal status. **Resolution:** Read the stage on the application itself.

Tips

- Agent-Master commission is not shown to counselors.
