School CRM Demo — Preparation Checklist

School CRM Demo — 45-Minute Script

School CRM Demo — UAT Checklist

School CRM Demo — Preparation Checklist

Environment: <https://dev.edusphere.org.uk>. Steps come from the School CRM manuals under `docs/school-crm/`, browser-verified on 2026-10-06 against `main` @ `ce1f07c2`. Check that dev runs that build or a later one.

Do this **the day before** the demo. It takes about 90 minutes. School CRM has nine roles, so the prep matters more than for the Agent CRM: every role you show needs an account whose password is already set.

Before you start

#	Check	How	Done
0.1	Dev is up	https://dev.edusphere.org.uk/overseas/login loads. Every school role signs in here.	☐
0.2	Build on dev	Ask the team which commit dev runs; older than <code>ce1f07c2</code> may differ. <code>NEEDS_CONFIRMATION</code>	☐
0.3	Email delivery	Step 1 sends a welcome email to the Coordinator. If the success message turns amber (“not delivered”), email is not configured on dev. Then use Users > Manage users > Re-send link after the team fixes email. Invitations in step 4 have no on-screen link, so working email is required. <code>NEEDS_CONFIRMATION</code>	☐
0.4	Mailboxes	Use mailboxes you control for every account. Never use a real student’s or parent’s address.	☐
0.5	Academic year (only for Promotion)	Promotion works only after a new academic year is opened, and there is no screen for that. Ask the team to open the new academic year on dev, or leave Promotion out. <code>NEEDS_CONFIRMATION</code>	☐
0.6	Browser	One Chrome profile per role (9 profiles), each already signed in, so you switch windows instead of signing in live. Window at least 1440 px wide. On narrow windows there is no sign-out (P6).	☐

Accounts to have ready

Keep passwords in your password manager, not in this document. Passwords need 10–128 characters.

Profile	Role	Account (fill in)	Created in	Link valid
1	Overseas Admin	<code><overseas-admin-email></code>	Existing on dev	—
2	School Coordinator — <i>Demo Platinum Academy</i>	<code><coordinator-email></code>	Step 1	72 h
3	Principal	<code><principal-email></code>	Step 4	7 days
4	Teacher	<code><teacher-email></code>	Step 4	7 days
5	Parent	<code><parent-email></code>	Step 4	7 days

Profile	Role	Account (fill in)	Created in	Link valid
6	Academic Team 1	<academic1-email>	Step 2	72 h
7	Academic Team 2 (verifies Academic Team 1's results)	<academic2-email>	Step 2	72 h
8	Career Counselor	<counselor-email>	Step 2	72 h
9	Psychometric Team	<psychometric-email>	Step 2	72 h
—	Coordinator — <i>Live Demo School</i> (live)	<live-coordinator-email> (fresh, never used)	During the demo	72 h
—	Coordinator — <i>Demo Bronze School</i>	<bronze-coordinator-email>	Step 1	72 h

Links work only once, and a re-sent link cancels the earlier one. Set every password as soon as the email arrives.

Step 1 — Schools (10 min, Overseas Admin)

1. **Schools > Create school.** Fill **School name** = *Demo Platinum Academy*, **City**, **Board**, **Grades available**, **Partnership tier** = **Platinum**, **Coordinator full name**, **Coordinator email**. Click **Create school + seed Coordinator**. Expect: "School created. School code {code}. Coordinator account ready for {email}. A set-password link was emailed and is valid for 72 hours."
2. Repeat for *Demo Bronze School* with tier **Bronze**. It is used for the transfer and the tier-refusal moments.
3. The create form has no **Valid until** date. For each school: **Edit school profile** > its School ID > **Look up** > **Valid until** > **Save changes**. Give the Platinum school a date a year ahead, and the Bronze school a date **within the next 60 days**, so School Analytics shows a **Renewal due** flag.
4. Note both 8-character **School IDs** from the Partner Schools list. Rows are not clickable, so you need the ID to edit a school.
5. **Do not** create the live-demo school now. You create *Live Demo School* during the demo.

School name, City and State cannot be changed after creation. Check the spelling before saving.

Step 2 — Specialist staff (10 min, Overseas Admin)

School Staff > Create Academic Team / Career Counselor / Psychometric Team account. Create four accounts: Academic Team 1, Academic Team 2, Career Counselor and Psychometric Team. For each, select **both** demo schools in **School portfolio** before clicking **Create account**.

A school portfolio cannot be changed after the account is created (P8). An empty portfolio means the specialist sees no students.

Set each password from its welcome email.

Step 3 — Coordinator sets up (5 min)

1. In the Coordinator's mailbox, open "Welcome to EduSphere – set your password", set the password and sign in.
2. Do the same for the Bronze school's Coordinator.

Step 4 — Team (10 min, Platinum Coordinator)

1. **Team > Invite a team member**: invite the **Principal**, the **Teacher** and the **Parent**. Each shows "Invite sent to {email}. It's valid for 7 days."
2. Accept each invitation from its email (**Accept and set up login**).
3. Invite one more Teacher and **do not** accept it. **Pending invites** then shows an entry during the demo.

Step 5 — Students (15 min, Platinum Coordinator)

1. Add 3 students one by one (**Students > Add one student**). Fill **Grade/Class** with consistent wording (for example **Grade 11**), **Grade level**, **Assigned Teacher** = the Teacher from step 4, and for the hero student **Parent's email** = <parent-email>. **Hero student**: *Aarav Kapoor*, Grade 11, linked to the Parent.
2. Add 10–15 more students with **Go to bulk upload** (dashboard) > **Download template (.csv)**. **Delete the "Jane Doe" example row** before uploading (P14), because students cannot be deleted. Lists in the CSV use `;`.
3. Upload a photo for the hero student (**Profile & timeline > Upload a photo**).
4. If the parent was not linked by email, use **Link parent** on the hero student's row.
5. As the Bronze Coordinator, add 2 students to *Demo Bronze School*.

Step 6 — Service data (25 min)

Fill the specialist views, so dashboards, reports and the Parent view have content:

Role	Do	Why
Coordinator	Schedule 3 activities: one in the future ; one with a past date and category <i>Career seminar</i> (mark its attendance); and one more with a past date and category <i>Student career awareness session</i> , left unmarked	Feedback needs a past activity with a category; the unmarked one is for the live attendance step
Teacher	Take daily Attendance for today (and again on the demo day, before the demo). Past days list only students enrolled by then	Parent attendance tile, reports
Academic Team 1	Upload 6–8 results as Draft for different students. Leave one Draft for the hero student unverified	Live verify/publish
Academic Team 2	Verify and publish all other results; include 1–2 low marks (below 40 %) and 1–2 high marks (85 % +)	At-risk and top-performer lists
Academic Team 1	Start IELTS preparation for 2 students; start one foreign language class	Dashboard figures

Role	Do	Why
Psychometric Team	Assign assessments to 3 students; attach a report (a valid <code>https://</code> link) and record results for 2. Leave the hero student's assessment assigned	Live attach
Career Counselor	3 guidance records; career preferences for the hero student; one Skills batch with enrolled students and one session; one Funding case (Add a case , then Edit > Stage Counselling > Save changes)	Live updates
Coordinator	Request a transfer for one filler student to <i>Demo Bronze School</i>	Live approval by the Overseas Admin
Overseas Admin	School Applications > start one application for a Platinum student	School Analytics and Global Education figures

Results: check the numbers before saving. A Draft cannot be edited from the screen, and marks above the maximum are accepted (P5). The psychometric report link cannot be changed after attaching (P17).

Step 7 — Final check (5 min)

- ☐ Coordinator dashboard shows non-zero figures.
- ☐ Principal **Reports** > **Student development** shows at-risk and top-performer students.
- ☐ Parent dashboard shows the hero student with tiles; **Download progress report (PDF)** works.
- ☐ The hero student has one Draft result (Academic Team 1) and one *assigned* assessment.
- ☐ One pending transfer request is visible in **School Transfers** (Overseas Admin).
- ☐ Every profile is signed in.
- ☐ `<live-coordinator-email>` for the live school has never been used on dev.

After the demo

Data on dev stays, and students cannot be deleted from the screens. For repeat demos, keep the prepared schools and create a new *Live Demo School* each time, or ask the team to restore a database snapshot taken after this checklist. `NEEDS_CONFIRMATION`: whether dev has a snapshot/restore procedure.

Next: [Demo script](#) · [UAT checklist](#)

School CRM Demo — 45-Minute Script

For client and prospect demos on <https://dev.edusphere.org.uk>. Run the [preparation checklist](#) first. Steps come from the School CRM manuals, browser-verified on 2026-10-06 against `main` @ `ce1f07c2`.

The story

A school becomes an EduSphere partner. Its Coordinator runs the roster, the team and the activities. EduSphere's specialists (academic, psychometric and career) deliver services to students, within what the school's partnership tier includes. Teachers, parents and the principal each see exactly what they need. EduSphere's Overseas Admin oversees every partner school.

Hero student: **Aarav Kapoor**, Grade 11, *Demo Platinum Academy*.

Run sheet

Time	Part	Signed in as	What the audience sees
0:00	Opening	—	Why schools partner with EduSphere
0:02	1. Partner onboarding	Overseas Admin	New school, tier, specialist staff
0:07	2. The school at a glance	Coordinator	Dashboard, roster, student profile
0:12	3. Team, activities, partnership	Coordinator	Invites, activities, attendance, feedback, entitlements
0:17	4. The teacher's day	Teacher	Daily attendance, digital portfolio
0:20	5. Academic results	Academic Team 1 and 2	Draft → verified → published; IELTS; tier refusal
0:25	6. Psychometric	Psychometric Team	Report attached, results recorded
0:28	7. Career guidance	Career Counselor	Records, preferences, skills batch, funding
0:32	8. The parent's view	Parent	Children, progress, PDF report
0:35	9. The principal's view	Principal	Reports, at-risk students, 360° view
0:39	10. Network oversight	Overseas Admin	Transfers, analytics, feedback, overseas application
0:43	Close	—	Recap and questions

Opening (2 min)

Say: “Schools want to offer career guidance, assessments, skills and overseas pathways, but tracking all of it for hundreds of students is hard. EduSphere gives each partner school one workspace. The school, EduSphere’s specialists and parents all work from the same student record, and the partnership tier decides which services the school receives.”

Part 1 — Partner onboarding (5 min) · Overseas Admin

Step	Action	Expected result
1.1	Schools	Partner Schools list with search and filters
1.2	Create school: <i>Live Demo School</i> , City, Board, Partnership tier = Silver , Coordinator name and <live-coordinator-email> > Create school + seed Coordinator	“School created. School code {code}. Coordinator account ready for {email}. A set-password link was emailed and is valid for 72 hours.”
1.3	Edit school profile > its School ID > Look up > tier Gold > Save changes	“School profile updated. Partnership is now Gold; newly available: ...”
1.4	School Staff	Academic, Career and Psychometric staff, with the number of schools each serves

Say: “Onboarding a school takes a minute: the Coordinator gets a secure link to set their password. Tiers are cumulative. Bronze covers seminars, psychometric tests and soft skills; Silver adds counselling and digital skills; Gold adds application support, scholarship assistance, IELTS/SAT, languages and digital portfolios; Platinum adds a dedicated counsellor, campus visits, internships, visa and loan support. When a tier changes, the Coordinator and Principal are told what is newly available.”

Part 2 — The school at a glance (5 min) · Coordinator

Step	Action	Expected result
2.1	Dashboard	School at a glance: 20 figures in Students, Career & assessment, Skills & languages, Global pathway
2.2	Students	The roster
2.3	Add one student: name, Grade/Class Grade 11 , Grade level 11, Assigned Teacher > Add student	“{Name} added to the roster.”
2.4	Mention Go to bulk upload (dashboard)	Roster upload by CSV, row-by-row result
2.5	<i>Aarav Kapoor</i> > Profile & timeline	Photo, details and the journey timeline

Say: “The Coordinator keeps the roster. Students can be added one by one or as a whole class by CSV. Each student has a timeline of everything that happened to them.”

Coordinator dashboard

Part 3 — Team, activities and the partnership (5 min) · Coordinator

Step	Action	Expected result
3.1	Team	Team members and Pending invites with their expiry dates
3.2	Activities > Schedule an activity : title, date & time, category <i>Parent orientation</i> > Schedule activity	"{Title} scheduled." Linked parents are notified
3.3	The unmarked past activity > Mark attendance > untick one student > Save attendance	"Attendance recorded for {n} student(s)."
3.4	Feedback > Awaiting feedback > Give feedback > ratings and text > Submit feedback	"Feedback saved for {title}."
3.5	Entitlements	"Plan: Platinum Partner — valid until {date}" (date set in prep step 1.3), with included and used services

Say: "The Coordinator invites the principal, teachers and parents; invitations are valid for seven days. After each EduSphere activity the school rates it, and EduSphere sees that feedback across all schools. Entitlements show exactly what the partnership includes and how much has been used."

Part 4 — The teacher's day (3 min) · Teacher

Step	Action	Expected result
4.1	Dashboard	Your students: only the students assigned to this teacher
4.2	Attendance (opens on today) > mark one student Late > Save attendance	"Attendance saved for {n} students on {date}."
4.3	Dashboard > Aarav Kapoor > View > Digital Portfolio > Add skill > title > Save	"Skill added."

Say: "Teachers see only their own class. The digital portfolio collects achievements, certificates, internships and the personal statement that students later use for university applications."

Part 5 — Academic results (5 min) · Academic Team

Step	Signed in as	Action	Expected result
5.1	Academic Team 1	Results: Aarav's Draft row	Shows "Ask another Academic Team member to verify"
5.2	Academic Team 2	Verify on Aarav's Draft	"Result verified."
5.3	Academic Team 2	Publish	"Result published." Parents can now see it
5.4	Academic Team 1	Test preparation: a Platinum student without IELTS from the prep, IELTS > Start preparation	"IELTS preparation started."
5.5	Academic Team 1	Test preparation: a <i>Demo Bronze School</i> student, IELTS > Start preparation	Refused with a tier message: "...does not include IELTS coaching (requires Gold or higher)." This message is confirmed in code only; rehearse it on dev . Fallback: show docs/school-crm/screenshots/activities/11-schedule-tier-not-included.png

Say: "Results follow a four-eyes process: one person enters, another verifies, and only published results reach parents. Services are enforced by tier, so a Bronze school cannot receive IELTS coaching by mistake."

Part 6 — Psychometric assessment (3 min) · Psychometric Team

Step	Action	Expected result
6.1	Assessments: Aarav's <i>assigned</i> assessment > Attach report > <code>https://...</code> > Attach	"Report attached." Status completed
6.2	Record results: strengths, interest areas, career recommendations > Save results	"Results saved."

Say: “Psychometric findings feed directly into career guidance. The report then appears in the parent’s view of the child.”

Part 7 — Career guidance (4 min) · Career Counselor

Step	Action	Expected result
7.1	Dashboard > Add a record: Aarav, <i>Guidance session</i> , Completed , notes > Save record	“Record saved.”
7.2	Career preferences (Aarav)	Interests, preferred countries and courses
7.3	Skills > the prepared batch	Enrolled students, sessions, attendance, assessments
7.4	Funding > the prepared case > Edit > next stage > Save changes	“Case saved.”; the stage moves forward one step (for example “Stage 3 of 6 · Documents”)

Say: “Counsellors record every session and follow-up, run soft-skills and digital-skills batches with attendance and scores, and guide families through scholarships and education loans stage by stage.”

Part 8 — The parent’s view (3 min) · Parent

Step	Action	Expected result
8.1	Dashboard My children	Aarav’s card with status tiles; Upcoming sessions in IST
8.2	View full profile & progress	Career guidance, psychometric, published results, activities, skills, funding, timeline
8.3	Download progress report (PDF)	“Report downloaded.”

Say: “Parents see their child’s progress in one place: the result just published, the psychometric report and the counselling sessions, and they can download a progress report before a parent meeting.”

Part 9 — The principal’s view (4 min) · Principal

Step	Action	Expected result
9.1	Dashboard	The same 20 figures and the student list (read-only portal)
9.2	Reports > Student development	At-risk students and top performers, with adjustable thresholds
9.3	Reports > Download school report (PDF)	“Report downloaded.”
9.4	Global Education	Students on the overseas pathway
9.5	Dashboard > Aarav > Timeline > Open 360° view	Every service for one student, in tabs

Say: “The principal sees the school’s progress and who needs help, without being able to change anything, and can take a PDF report to the board.”

Part 10 — Network oversight (4 min) · Overseas Admin

Step	Action	Expected result
10.1	School Transfers > the prepared request > Approve > Confirm approval	“Moved {student} to {school}. ...”
10.2	School Analytics	All partner schools: KPIs, service use per school, Renewal due flag on <i>Demo Bronze School</i>
10.3	Activity Feedback	Ratings from every school
10.4	School Applications	The overseas application started for a Platinum student

Say: “Transfers between partner schools are decided centrally, so records follow the student. EduSphere sees service use and renewal dates across the whole network, and for Gold and Platinum schools it starts overseas university applications for school students from the **School Applications** page.”

Close (2 min)

Recap: onboarding in minutes · tier-based services enforced automatically · roster, team and activities run by the school · specialists working on the same student record · four-eyes results · transparent views for teachers, parents and principals · network-wide oversight for EduSphere.

Hand over the [UAT checklist](#) for the detailed check.

Do not show during the demo

These are open product findings or open owner items. See [docs/school-crm/documentation-review-report.md](#).

Avoid	Why
Forgot password	No email is sent on plain SMTP (P1, U2)
Opening a parent notification to “clear” it	The unread count never goes down (P3)
Reading out the “Upcoming session” notification text	Shows UTC time, not IST (P4); use the Upcoming sessions card
Marks above the maximum	Accepted on the single result form (P5)
Narrow window or phone view	No sign-out there (P6)
School screens as Super Admin	“Workspace not found” (P7)
Editing a specialist’s school portfolio; opening an academic year	No screen for either (P8)
An expired school’s Entitlements page	No warning shown (P9)
Very long names or subjects	Only “Something went wrong.” (P10)

Avoid	Why
Comparing report grade chart with dashboard tiles	Can differ if Grade/Class wording varies (P11)
Re-opening an attendance card that was already saved	Reopens with everyone ticked (P12)
Career goal or closing a batch	Needs a reload to show (P13)
CSV template's "Jane Doe" row	Gets imported; students cannot be deleted (P14)
/school/coordinator/students/new	Shows "[object Object]" (P16)
Raw codes such as <code>guidance_session</code> , <code>draft</code>	Present them as statuses; a UI polish item (P16)
Moving a school application past <code>enquiry</code>	Not confirmed (U15)
WhatsApp / SMS notifications	Not verified (U10)
Promotion	Only if the team opened a new academic year (prep 0.5); otherwise every row says "Already in {year}"

If something goes wrong

Problem	Recovery
"No students assigned to you yet." (Teacher)	The student's Assigned Teacher is not set; show another teacher view or skip
"No students in your portfolio yet." (specialist)	The account was created without schools; use another specialist account
A tier message where you did not expect one	Check Entitlements ; use a Platinum-school student
No Verify button for a result	You are signed in as its uploader; switch to Academic Team 2
Amber "not delivered" after creating the school	Mention Users > Re-send link ; carry on
A section says it couldn't load	Reload the page

School CRM Demo — UAT Checklist

For client stakeholders who want to check every feature after the demo. Every row links to the School CRM manual page with the full steps. Behaviour was browser-verified on 2026-10-06 against `main @ ce1f07c2`. Rows marked **(partial)** were not fully verified in the browser (see `docs/school1-crm/documentation-review-report.md §5`).

Record a result for each row: **P** = pass, **F** = fail (write what happened), **N/A** = not tested.
